**Enhanced Care Management (ECM) Implementation Data from Calendar Year (CY) 2022**

*This document summarizes ECM uptake in CY 2022 as reported by Medi-Cal Managed Care Plans (MCPs).*

*All data is subject to change upon resubmission by MCPs.<sup>1</sup>*

County	Medi-Cal Managed Care Plan (MCP)	Background				Members Who Received ECM in CY 2022 <sup>2</sup>									
		ECM Launch Date	Health Homes Program	Whole Person Care Pilot	Total MCP Members in Average Month of CY 2022	Total Members Who Received ECM in CY 2022	Penetration Rate <sup>5</sup> (% of MCP Members Who Received ECM)	Cumulative Members Who Received ECM by End of Each Quarter				By Population of Focus <sup>3,4</sup>			
								Q1	Q2	Q3	Q4	Individuals Experiencing Homelessness	Individuals At Risk for Avoidable Hospital or ED Utilization	Individuals with Serious Mental Health and/or Substance Use Disorder Needs	Individuals Transitioning from Incarceration <sup>6</sup>

1. This report reflects data submitted by MCPs via the Quarterly Implementation Monitoring Report as of June 30, 2023. Data revised or resubmitted after this date is not reflected.
2. A member who received ECM in multiple counties or from multiple MCPs due to a relocation or plan change in 2022 may be counted multiple times in this report.
3. A member can be eligible for and counted in multiple POFs.
4. To comply with data privacy standards, data points with a value under 11 at the plan level are suppressed and reported as <11. Data points at the county level that are under 11 or are greater than 10 but could be used to deduce a masked plan-level value are reported as \*. Rates that could be used to deduce a masked value are reported as \*.
5. While DHCS expects that 3-5% of Medi-Cal membership will be eligible for ECM, this will vary based off of local demographics and not all eligible members may want to participate in the program, so penetration rates are expected to be significantly lower than 3-5%. There are no explicit targets for ECM penetration rates at this time, only baseline trends which will evolve as more data is collected.
6. The POF for Individuals Transitioning from Incarceration was live only in select WPC counties in 2022.
7. Solano County had a small WPC Pilot which ended prior to December 2021. ECM launched in Solano County on 7/1/2022.
