

# ECM and Community Supports Quarterly Implementation Monitoring Report Requirements

**First Published: December 2021, Updated: April 2022,  
Updated: April 2023**

leveraging data from the ECM Member Information and Return Transmission Files and the MCP Community Supports Authorization Status and Community Supports Provider Return Transmission Files to the greatest extent possible.

Now that ECM and Community Supports have been implemented for one year, DHCS has prioritized updating the existing data guidance documents based on stakeholder input. In Q3 2022, DHCS launched a survey, and over 200 MCPs and ECM and Community Supports Providers responded with feedback about which updates should be considered. DHCS has since analyzed all survey data and made updates to the ECM and Community Supports guidance documents based on this feedback. The updates that have been made to the Quarterly Implementation Monitoring Report are labeled throughout and include corresponding footnotes. The updates are also cataloged in the Appendix.

DHCS expects to keep the Quarterly Implementation Monitoring Report in place for at least three years due to multiple phase-ins of additional ECM Populations of Focus and in recognition of the significant transition to encounter reporting that will occur for many Providers in the field, especially Community Supports Providers. When DHCS determines that the encounter and 274 Provider file information is robust—as evidenced by congruence between that data and the Quarterly Implementation Monitoring Report—it will discontinue the requirement for MCPs to submit the Quarterly Implementation Monitoring Report. After that time, DHCS may require MCPs to report on a limited set of data elements that are not available via encounters, the 274 Provider files, or other data sources. MCPs must use the Excel reporting template corresponding to this document and submit via an SFTP site.

Quarterly Implementation Monitoring Reporting periods and due dates are shown in the table below.

<b>Quarter</b>	<b>Reporting Period</b>	<b>Report Due Date</b>
<b>2022 Q1</b>	January – March 2022	May 16, 2022
<b>2022 Q2</b>	April – June 2022	August 15, 2022
<b>2022 Q3</b>	July – September 2022	November 14, 2022
<b>2022 Q4</b>	October – December 2022	February 14, 2023
<b>2023 Q1</b>	January – March 2023	May 16, 2023

First Published: December 2021, Updated: April 2022,  
Updated: April 2023

## 3. Quarterly Implementation Monitoring Report Elements

The Quarterly Implementation Monitoring Report includes an ECM and a Community Supports section.

### Quarterly ECM Implementation Monitoring Report Elements

DHCS utilizes data reported in the Quarterly Implementation Monitoring Reports, along with other available data, to monitor key indicators for ECM. Examples of key implementation indicators to be monitored include, but are not limited to, ECM Membership and characteristics, including Populations of Focus, race, ethnicity, sex, age, and primary language; ECM utilization; outreach; referral; and ECM Provider capacity.

The tables below outline the elements MCPs are required to report in the Quarterly Implementation Monitoring Report.

*(Updated April 2023)*

#### 1. ECM Members and Services Tab

MCPs must report all ECM Members who were enrolled in ECM<sup>3</sup> during the reporting period.

1. ECM Members and Services Tab	
Row	Element
<b>A</b>	Plan Name <i>(Select)</i>
<b>B</b>	Plan Code <i>(Select)</i>
<b>C</b>	County <i>(Select)</i>

<sup>3</sup> Updated from "MCPs will report all ECM Members who received ECM during the reporting period" to clarify that MCPs should include all ECM Members who were enrolled in ECM in this tab, as there may be some Members whom MCPs consider to be enrolled in the ECM benefit but who did not receive any ECM services during the reporting period.

1. ECM Members and Services Tab	
Row	Element
	<ul style="list-style-type: none"> <li>R. Child/Youth – Individuals Experiencing Homelessness: Homeless Families</li> <li>S. Child/Youth – Individuals at Risk for Avoidable Hospital or ED Utilization</li> <li>T. Child/Youth – Individuals with Serious Mental Health or Substance Use Disorder (SUD) needs</li> <li>U. Child/Youth – Enrolled in CCS or CCS WCM with Additional Needs Beyond the CCS Condition</li> <li>V. Child/Youth – Involved in Child Welfare</li> <li>W. Child/Youth – Individuals Transitioning from Incarceration</li> <li>X. Child/Youth – Birth Equity Population of Focus</li> </ul>
<b>Y</b>	<b>(Updated April 2023)</b> ECM Benefit Start Date (MM/DD/YYYY), defined as the date of the first billed claim when ECM services were rendered once the member is enrolled in ECM; this is not intended to capture initial ECM provider outreach efforts. Note: ECM Providers reporting in the ECM Provider Return Transmission File should inform this field.
<b>Z</b>	ECM Benefit End Date (Disenrollment Date as MM/YY/DDDD, or blank if Member was receiving ECM through the end of the reporting period). Members who cease to receive ECM should not be reported in subsequent reports unless they become reenrolled in ECM. If a Member ends ECM and is subsequently reenrolled in ECM during the same reporting period, report the Member on a new row with the new ECM Benefit Start date.
<b>A1</b>	<b>(Updated April 2023)</b> Reason for Discontinuation <sup>5</sup> of ECM if the Member has been disenrolled and the benefit has ended. Select one reason code below.

<sup>5</sup> Additional discontinuation reason codes have been added based on stakeholder feedback. Previously, there were only five discontinuation reason codes: 1.The Member has met all care plan goals; 2. The Member is ready to transition to a lower level of care; 3. The Member no longer wishes to receive ECM; 4. The ECM Provider has not been able to connect with the Member after multiple attempts; or 5.Other.

<b>A4</b>	<b>(Updated April 2023)</b> Number of <b>telephonic/telehealth</b> ECM interactions <sup>7</sup> the Member received during the reporting period.* Reporting should capture the delivery of all ECM core services <u>including</u> outreach.

\*Indicates reporting element that may need to be collected from ECM Providers/subcontractors in order to be reported by MCP.

**(Updated April 2023)**

## 2. ECM Requests for Services and Outreach

Notes:

- Members who transitioned from Whole-Person Care (WPC) Pilots/Health Homes Program (HHP) should be excluded from this tab.
- MCP should report all Members identified and determined eligible for ECM.
- Rows E-G ask for data to be reported during the reporting period (i.e., quarterly).
- Rows H-J ask for data to be reported cumulatively indefinitely (i.e., on an ongoing basis, NOT year over year).
- Rows K-L ask for data to be reported during the reporting period (i.e., quarterly).

Updated: April 2023

## Appendix A. Version Updates

### Version 1.1

Listed below are the substantive edits made to this data guidance document in April 2023.

- WPC/HHP Transition Report was removed.
- Description of DHCS' expectations for data collection after the initial implementation period has been updated.

### ECM Members and Services Tab

- Rows E-H: Asterisks were removed from Member CIN, Member Last Name, Member First Name, and Member Date of Birth fields in the ECM; MCPs should not need to collect them from ECM Providers/subcontractors.
- Rows I – X: The response options for ECM Population(s) of Focus have been updated to reflect those listed in the ECM Policy Guide.
- Row Y: Updated and clarified the definition of ECM Benefit State Date. ECM Provider reporting from the ECM Provider Return Transmission File should inform this field.
- Row A1: Additional options have been added for MCPs to report the Reason for Discontinuation of ECM. Previous discontinuation reasons only included 1. The Member has met all care plan goals; 2. The Member is ready to transition to a lower level of care; 3. The Member no longer wishes to receive ECM; 4. The ECM Provider has not been able to connect with the Member after multiple attempts; or 5. Other.
- Row A3: Clarified how the MCP should report in-person ECM interactions the Member received, i.e., the delivery of all ECM core services, including outreach, during the reporting period.

## ECM and Community Supports Quarterly Implementation Monitoring Report Requirements

First Published: December 2021, Updated: April 2022,  
Updated: April 2023

- Row A4: Clarified how the MCP should report phone/telehealth ECM interactions the Member received, i.e., the delivery of all ECM core services, including outreach, during the reporting period.

### ECM Requests for Services and Outreach Tab

- Rows E-G: updated MCP reporting requirements—changed from “cumulative” to “quarterly.”
- Row E-F: clarified that Members included in this reporting who are identified as eligible should also be determined eligible for ECM.
- Row J: added a reporting requirement for MCPs to indicate how many referrals received from external sources were approved for authorization for ECM during the reporting period.

### ECM Provider Capacity Tab

- Rows G-V: The response options for ECM Population(s) of Focus are updated to reflect the updated Populations of Focus as outlined in the ECM Policy Guide.
- Row W: Updated description of reporting requirement for MCPs to report “Total Number of Members (Adult) Currently Being Served”
- Row X: Updated description of reporting requirement for MCPs to report “Total Number of Members (Children/Youth) Currently Being Served.
- Row Y: Added new reporting requirement of “Total ECM Provider capacity (Adult),” the total number of adult Members the ECM Provider is able to serve\_at the end of the reporting period.
- Row Z: Added new reporting requirement of “Total ECM Provider capacity (Children/Youth),” total number of children/youth Members the ECM Provider is able to serve at the end of the reporting period

# ECM and Community Supports Quarterly Implementation Monitoring Report Requirements

First Published: December 2021, Updated: April 2022,  
Updated: April 2023

- Removed reporting requirement: Approximate total number of Adult Members the ECM Provider is able to serve, beyond who they are currently serving, at the end of the reporting period.
- Removed reporting requirement: Approximate total number of Children/Youth Members the ECM Provider is able to serve, beyond who they are currently serving, at the end of the reporting period.

## **Community Supports Members and Services Tab**

- Rows E-H: Asterisks were removed from Member CIN, Member Last Name, Member First Name, and Member Date of Birth fields; these are data elements the MCP should already have access to and should not need to collect from Community Supports Providers/subcontractors.
- Rows J-X: Changed terminology from “approved” to “approved for authorization.”

## **Community Supports Provider Capacity Tab**

- Row H: Added new reporting requirement for MCPs to report “Total Number of Members currently serving: total number of Members the Community Supports Provider is currently serving at the end of the reporting period.”
- Row I: Updated to “Total provider capacity: total number of Members the Community Supports Provider is able to serve at the end of the reporting period, regardless of whether the Community Supports Provider is actually serving them.”
