## Executive Summary

The Department of Health Care Services is required<sup>1</sup> to submit the Medi-Cal Specialty Mental Health Services (SMHS) Supplement to the Legislature each year by January 10 and concurrently with the release of the May Revision. This supplemental information provides FY 2022-23 and FY 2023-24 forecasted beneficiaries and expenditures by date of service and service type, FY 2020-21 actual clients, expenditures and descriptive statistics by date of service and service type, and summary fiscal charts comparing the current-year and budget-year local assistance estimates by policy change which are based upon date of payment.

### Specialty Mental Health Services, PCs 61 and 62

Continued growth is forecasted on a date of service basis, for both children and adult services. Children's service costs are projected to be \$2.03 billion for the current year and grow by 0.85% to \$2.05 billion for budget year. The unduplicated number of children receiving Specialty Mental Health Services from Short-Doyle Medi-Cal (SD/MC) providers is forecasted to increase 0.47% from 257,801 in FY 2022-23 to 259,008 in FY 2023-24. The unduplicated number of children receiving psychiatric inpatient hospital services from Fee-For-Service Medi-Cal (FFS/MC) is forecasted to grow slightly by 0.89% from 13,983 in the current year to 14,107 in the budget year.

Adult services are also forecasted on a date of service basis to grow 2.32% from a current year projection of \$2.265 billion to a budget year projection of \$2.317 billion. The unduplicated number of adults receiving Specialty Mental Health Services from SD/MC providers is forecasted to increase by 1.04% from 346,807 in FY 2022-23 to 350,397 in FY 2023-24. The unduplicated number of adults receiving psychiatric inpatient hospital services from FFS/MC hospitals is projected to increase by 0.3% from 26,714 in the current year to 26,793 in budget year. These numbers include claims from the Affordable Care Act (ACA) optional expansion.

---

<sup>1</sup> Welfare and Institutions Code, Section 14100.51

## **Medi-Cal Specialty Mental Health Service Descriptions**

### **Overview**

The Department of Health Care Services (Department) administers the Medi-Cal Specialty Mental Health Services Program, which is “carved-out” of the broader Medi-Cal program under the authority of a 1915(b) waiver approved by the Centers for Medicare and Medicaid Services (CMS). The Department contracts with a Mental Health Plan (MHP) in each county to provide or arrange for the provision of Medi-Cal Specialty Mental Health Services. All MHPs are county mental health departments.

Specialty Mental Health Services are Medi-Cal entitlement services for adults and children meeting [access criteria](#), updated as part of the CalAIM initiative. Currently, MHPs must certify they incurred a cost before seeking federal reimbursement through claims to the Department. Effective July 1, 2023, the CalAIM Behavioral health Payment Reform initiative will change reimbursement from a cost-based methodology to a fee schedule. MHPs are primarily responsible for the non-federal share of Medi-Cal Specialty Mental Health Services. Non-specialty mental health services for Medi-Cal beneficiaries who do not meet the criteria for Specialty Mental Health Services are provided under the Medi-Cal managed care program by primary care providers and behavioral health clinicians within their scope of practice or in the fee-for-service network. MHPs provide Children’s Specialty Mental Health Services under the federal requirements of the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit, which is available to full-scope beneficiaries under age 21, except for non-specialty mental health services which are covered under the Medi-Cal managed care program or in the fee-for-service program.

The following Medi-Cal Specialty Mental Health Services are provided for children<sup>2</sup> and adults<sup>3</sup>:

<u>Services</u>	<u>Children</u>	<u>Adult</u>

**Adult Crisis Residential Services (CRS)**

Adult crisis residential services provide an alternative to acute psychiatric hospital services for beneficiaries who otherwise would require hospitalization. The Adult crisis residential programs provide normalized living environments, integrated into residential communities. Service activities may include assessment, treatment planning, therapy, psychosocial rehabilitation and crisis intervention.

**Adult Residential Treatment Services**

Adult Residential Treatment Services are rehabilitative services provided in a non-institutional, residential setting for beneficiaries who would be at risk of hospitalization or other institutional placement if they were not receiving residential treatment services. The services include a wide range of activities and services that support beneficiaries in

<sup>2</sup> Children include beneficiaries from birth through age 20.

<sup>3</sup> Adults include beneficiaries who are 21 and older.

<sup>4</sup> Includes children who are 18 through 20.

their effort to restore, maintain, and apply interpersonal and independent living skills and to access community support systems. Service activities may include assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Crisis Intervention**

Crisis intervention services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires more timely response than a regularly scheduled visit. Service activities include, but are not limited to, assessment, therapy and referral and linkages.

### **Crisis Stabilization**

Crisis stabilization services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires a timelier response than a regularly scheduled visit. Service activities include but are not limited to one or more of the following: assessment, therapy, crisis intervention, medication support services and referral and linkages.

### **Day Rehabilitation (Half-Day & Full-Day)**

Day rehabilitation services are a structured program of rehabilitation and therapy with services to improve, maintain or restore personal independence and functioning, consistent with requirements for learning and development and which provides services to a distinct group of beneficiaries who receive services for a minimum of three hours per day (half-day) or more than four hours per day (full-day). Service activities may include, but are not limited to assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Day Treatment Intensive (Half-Day & Full-Day)**

Day treatment intensive services are a structured, multi-disciplinary program of therapy. It may be used as an alternative to hospitalization, or to avoid placement in a more restrictive setting, or to maintain the client in a community setting and which provides services to a distinct group of beneficiaries who receive services for a minimum of three hours per day (half-day) or more than four hours per day (full-day). Service activities may include, but are not limited to, assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Intensive Care Coordination**

Intensive Care Coordination (ICC) is a targeted case management service that facilitates assessment of, care planning for and coordination of services to beneficiaries under age 21 who are eligible for the full scope of Medi-Cal services and who meet access criteria. ICC service components include assessing; service planning and implementation; monitoring and adapting; and transition. ICC services are provided through the principles

of the Integrated Core Practice Model (ICPM), including the establishment of the Child and Family Team (CFT) to facilitate a collaborative relationship among a youth, his/her family and involved child-serving systems to allow the child/youth to be served in his/her community. The CFT is comprised of, as appropriate, both formal supports, such as the ICC coordinator, providers, case managers from child-serving agencies, and natural supports, such as family members, neighbors, friends, and clergy and all ancillary individuals who work together to develop and implement the client plan and are responsible for supporting the child/youth and family in attaining their goals.

### **Intensive Home Based Services**

Intensive Home Based Services (IHBS) are individualized, strength-based interventions designed to ameliorate mental health conditions that interfere with a child/youth's functioning and are aimed at helping the child/youth build skills necessary for successful functioning in the home and community and improving the child/youth's family's ability to help the child/youth successfully function in the home and community. IHBS services are provided according to an individualized treatment plan developed in accordance with the ICPM by the CFT in coordination with the family's overall service plan which may include IHBS. Service activities may include, but are not limited to assessment, treatment planning, therapy, and psychosocial rehabilitation. IHBS is provided to beneficiaries under 21 who are eligible for the full scope of Medi-Cal services and who meet access criteria.

### **Medication Support Services**

Medication support services include prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals that are necessary to alleviate the symptoms of mental illness. Service activities may include but are not limited to: evaluation of the need for medication; evaluation of clinical effectiveness and side effects; instruction in the use, risks and benefits of, and alternatives for, medication; and treatment planning.

### **Community-Based Mobile Crisis Intervention Services**

Community-Based Mobile Crisis Intervention Services provide rapid response, individual assessment and community-based stabilization to Medi-Cal beneficiaries who are experiencing a behavioral health crisis at the location of the beneficiary's crisis. Locations may include, but are not limited to the beneficiary's home, school or workplace, on the street, or where a beneficiary socializes. Community-Based Mobile Crisis Intervention Services cannot be provided in hospitals or other facility settings. Community-Based Mobile Crisis Intervention Services is available as a Medi-Cal

covered benefit through the Medi-Cal behavioral health delivery system to beneficiaries experiencing behavioral health crises 24 hours a day, seven days a week, and 365 days a year, effective date no sooner than January 1, 2023.

**Peer Support Services (optional for counties)**

Peer Support Services are culturally competent individual and group services that promote recovery, resiliency, engagement, socialization, self-sufficiency, self-advocacy, development of natural supports, and identification of strengths through structured activities such as group and individual coaching to set recovery goals and identify steps to reach the goals. Services aim to prevent relapse, empower beneficiaries through strength-based coaching, support linkages to community resources, and to educate beneficiaries and their families about their conditions and the process of recovery. Peer support services may be provided with the beneficiary or significant support person(s) and may be provided in a clinical or non-clinical setting. Peer support services can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals. Peer support services are based on an approved plan of care. Prior to SB 803, county mental health plans could deliver some of the service components covered under the "mental health services" Specialty Mental Health Service benefit using peers as the "Other Qualified Provider" provider type, provided all applicable Medi-Cal requirements and scope of practice requirements for each service component were met. Under the new Peer Support Services benefit, counties that opt-in are able to cover Peer Support Services as new DMC, DMC-ODS, and SMHS services consistent with defined service criteria and dedicated reimbursement when these services are delivered by Peer Support Specialists, a new distinct provider type.

**Psychiatric Health Facility (PHF) Services**

A Psychiatric Health Facility is a facility licensed under the provisions of Chapter 9, Division 5, Title 22 of the California Code of Regulations. "Psychiatric Health Facility Services" are therapeutic and/or rehabilitative services provided in a psychiatric health facility on an inpatient basis to beneficiaries who need acute care, which meets the criteria of Section 1820.205 of Chapter 11, Division 1, Title 9 of the California Code of Regulations, and whose physical health needs can be met in an affiliated general acute care hospital or in outpatient settings. These services are separate from those categorized as "Psychiatric Inpatient Hospital."

**Psychiatric Inpatient Hospital Services**

Psychiatric inpatient hospital services include both acute psychiatric inpatient hospital services and administrative day services. Acute psychiatric inpatient hospital services are

provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are provided when a beneficiary's need for acute psychiatric hospital inpatient services ends, but whose stay is extended due to lack of residential placement options at non-acute residential treatment facilities.

Psychiatric inpatient hospital services are provided by SD/MC hospitals and FFS/MC hospitals. MHPs claim reimbursement for the cost of psychiatric inpatient hospital services provided by SD/MC hospitals through the SD/MC claiming system. FFS/MC hospitals claim reimbursement for the cost of psychiatric inpatient hospital services through the Fiscal Intermediary. MHPs are responsible for authorization of psychiatric inpatient hospital services reimbursed through either billing system. For SD/MC hospitals, the daily rate includes the cost of any needed professional services. The FFS/MC hospital daily rate does not include professional services, which are billed separately from the FFS/MC inpatient hospital services via the SD/MC claiming system.

### **Targeted Case Management**

Targeted case management (TCM) is a service that assists a beneficiary in accessing needed medical, educational, social, prevocational, vocational, rehabilitative, or other community services. The service activities may include, but are not limited to: communication, coordination and referral; monitoring service delivery to ensure beneficiary access to services and the service delivery system; monitoring of the beneficiary's progress; placement services; and plan development. Additionally, services may be provided by any person determined by the MHP to be qualified to provide the service, consistent with the scope of practice and state law.

### **Therapeutic Behavioral Services**

Therapeutic behavioral services (TBS) are intensive, individualized, short-term outpatient treatment interventions for beneficiaries up to age 21. Individuals receiving these services have serious emotional disturbances (SED), are experiencing a stressful transition or life crisis and need additional short-term, specific support services to accomplish outcomes specified in the written treatment plan.

### **Therapeutic Foster Care**

Therapeutic Foster Care are rehabilitative mental health services provided to children and youth up to 21 years of age who have been placed in a Residential Treatment Foster Home and who meet medical necessity criteria for this service as established by the State. The bundle of rehabilitative mental health services includes treatment planning, psychosocial rehabilitation, and crisis intervention. Services are provided by another qualified provider under the direction of a licensed mental health professional.

### **Mental Health Services**

Individual, group, or family-based therapies and interventions that are designed to provide a reduction of mental disability and restoration, improvement or maintenance of functioning consistent with the goals of learning, development, independent living, and enhanced self-sufficiency. These services are separate from those provided as components of adult residential services, crisis intervention, crisis stabilization, day rehabilitation, or day treatment intensive.

The distribution and use of expenditures of each service activity varies over time with changes in client needs.

Specialty Mental Health Service in the above categories (except for Adult Crisis Residential Services, Adult Residential Treatment Services, Crisis Stabilization, Day Rehabilitation, Day Treatment Intensive, Psychiatric Health Facility Services, and Psychiatric Inpatient Hospital Services) may be provided in-person, by telehealth (synchronous audio-visual) or telephone (audio-only), and may be provided anywhere in the community .

In addition to the Specialty Mental Health Services described above, the Medi-Cal Specialty Mental Health Services 2023 May Revision Estimate includes policy changes for the Community Assistance, Recovery, and Empowerment (CARE) Act and the Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT) Demonstration (formerly referred to as the California Behavioral Health Community-Based Continuum, or CalBH-CBC, Demonstration). The CARE Court framework delivers mental health and substance use disorder services for individuals with schizophrenia spectrum or other psychotic disorders. The framework may include individualized, appropriate range of services and supports consisting of behavioral health (BH) care, stabilization medications, housing, and enumerated services subject to available funding, federal and state requirements, and eligibility criteria. The BH-CONNECT Demonstration includes statewide and county opt-in components to expand behavioral health services from prevention, wellness, outpatient and recovery to crisis, inpatient, and residential services statewide, with a focus on children and youth, people experiencing or at risk of homelessness, and justice involved individuals. The Demonstration will improve integration of medical, behavioral health and social services for foster children and youth, strengthen community-based services, clarify coverage for evidence-based therapies and home-based services for children and families, add critical treatment and supports, and build statewide centers of excellence to support practice

transformations. The BH-CONNECT Demonstration complements and amplifies the state's current and planned initiatives to build out the behavioral health continuum of care, such as the CARE Act, Children and Youth Behavioral Health Initiative, Behavioral Health Continuum Infrastructure Program, Behavioral Health Bridge Housing, peer and recovery services, and mobile crisis, to name a few.

- (1) The GF amounts for PC 61 and PC 62 are reimbursements for psychiatric inpatient hospital services billed to the Fiscal Intermediary and specialty mental health services provided to beneficiaries enrolled in ACA aid codes.
- (2) The COVID-19 Behavioral Health policy change estimates the cost of establishing interim rates for certain Behavioral Health Medi-Cal programs due to impacts resulting from the Coronavirus disease 2019 (COVID-19) pandemic. Only the SMHS impact is shown in the table.
- (3) The State Only Claiming Adjustment – SMHS & DMC policy change estimates the return of the federal funds to the federal government for claiming for SMHS provided to individuals without satisfactory immigration status in full-scope Medi-Cal coverage. Only the SMHS impact is shown in the table.
- (4) The Peer Support Specialist Services policy change estimates peer support specialists costs starting FY 2022-23. Only the SMHS impact is shown in the table.
- (5) The Qualifying Community-Based Mobile Crisis Services policy change estimates mobile crisis costs starting FY 2023-24. Only the SMHS impact is shown in the table.

<sup>38</sup> The State Maximum Allowance (SMA) for FY 11/12 is noted here as a historical reference and was removed as maximum rate for computing federal reimbursement for dates of service beginning July 1, 2012 per AB 1297.

\* Numbers in the tables have been rounded; the unrounded number is used for calculations.

### Claim Lag

Claim lag is a normal part of the claims reimbursement process. The lag time is defined as the period of time from when the actual service occurred to when the county submits the claim to the State. The lag time may vary depending on local provider and county claim submission and review processes. Also, some counties submit claims on a weekly basis, while others submit claims on a monthly basis in batches.

The charts on the next pages provide a historical view of claim lag for Children and Adult services rendered in the last three fiscal years.

<b>Historical Averages of Claim Lag for Children Services Claims</b>			
<b>Number of Days it takes for the Claim to be Submitted</b>	<b>FY 2018-19 Percentage of Claims Submitted</b>	<b>FY 2019-20 Percentage of Claims Submitted</b>	<b>FY 2020-21 Percentage of Claims Submitted</b>

## The Affordable Care Act and Specialty Mental Health Services

The Affordable Care Act has made Specialty Mental Health Services available to newly enrolled individuals who meet medical necessity criteria. The data for the Affordable Care Act (ACA) Expansion Clients is as of December 31, 2022. The data represents actual approved claims for services provided to adult beneficiaries in FY 2020-21 that were received as of December 31, 2022 and is not adjusted for claim lag nor has any forecasting methodology been applied to the data. The presented data simply serves as an indication of the growth and utilization of SMHS by ACA Expansion Clients.

### **Impact of the ACA on SMHS**

The ACA approved claim amounts shown below are the sixth complete year’s worth of data. This is because claims associated with the ACA were first approved beginning in January 2014 (FY 2013-14). The non-ACA data in the following tables are also not forecasted amounts and therefore are not comparable to other data in this document. The \$1 billion shown below represents actual approved claims from ACA clients in FY 2020-21 that were received by December 31, 2022.

<b>FY 2020-21 Approved Claim Amounts for ACA and Non-ACA Clients</b>		
ACA Client	Non-ACA Client	Total
\$1,042,406,247	\$1,744,857,785	\$2,787,264,032

### **Growth in the Client Base**

Following table displays the number of unduplicated ACA beneficiaries who received at least one Specialty Mental Health Services in FY 2020-21.

<b>FY 2020-21 Adult Statewide Client Counts and New Adult ACA Clients</b>		
ACA Client	Non-ACA Client	Total
189,084	274,032	463,116

### **Impact of the ACA at the Service Type Level**

The chart below shows the FY 2020-21 service type costs from Non-ACA adult clients and the added cost to those respective service types from ACA clients from claims received as of December 31, 2022.

<b>Estimated 2020-21 Costs with Approved Claims from ACA and Non-ACA Clients (In Thousands)</b>								
(In Thousands)	Adult Residential Treatment Services	Case Management /Brokerage	Crisis Intervention	Crisis Residential Treatment Services	Crisis Stabilization	Day Rehabilitation	Day Treatment Intensive	Hospital Inpatient
Claims from Non-ACA Clients	\$26,927	\$155,956	49,495	\$40,333	\$81,404	\$293	\$578	\$66,796
Claims from ACA Clients	\$8,149	\$63,895	41,009	\$40,910	\$89,347	\$8	\$0	\$59,864

<b>Estimated 2020-21 Costs with Approved Claims from ACA and Non-ACA Clients (In Thousands)</b>								
(In Thousands)	Hospital Inpatient Admin	ICC	IHBS	Medication Support Services	Mental Health Services	Psychiatric Health Facility	Therapeutic Behavioral Services	Psychiatric Inpatient Hospital Services FFS/MC
Claims from Non-ACA Clients	\$18,309	\$5,733	\$5,857	\$419,222	\$633,286	\$47,025	\$1,866	\$191,591
Claims from ACA Clients	\$6,055	\$242	\$363	\$199,952	\$344,974	\$29,070	\$124	\$158,442

**Demographics by Age: Non-ACA vs. ACA enrollees**

The chart below shows that 67.8% of the non-ACA clients who received SMHS in FY 2020-21 were between the ages of 21 and 59 while for ACA clients, the percentage was 79.9%. More ACA clients are in the 21 to 59 age group.

<b>FY 2020-21 Adult Statewide Client Counts and New Adult ACA Clients</b>		
<b>Age</b>	<b>Non-ACA Clients</b>	<b>ACA Clients</b>
18-20	11.36%	13.99%
21-59	67.82%	79.93%
60-64	10.27%	5.71%
65 and up	10.55%	0.37%

**Demographics by Gender: Non-ACA vs. ACA enrollees**

The chart below shows that of the ACA clients who received SMHS in FY 2020-21, 53.7% were men, while 46.3% were women. For non-ACA clients, a higher percentage of females received services compared to males.

<b>FY 2020-21 Non-ACA and ACA Clients</b>		
<b>Gender</b>	<b>Non-ACA Clients</b>	<b>ACA Clients</b>
Male	44.7%	53.7%
Female	55.3%	46.3%

**Demographics by Race: Non-ACA vs. ACA enrollees**

The chart below shows that of the ACA clients who received SMHS in FY 2020-21, 29.5% were White, 34.7% were Hispanic, and 12.5% were Black.

<b>FY 2020-21</b>		
<b>Race</b>	<b>Non-ACA Clients</b>	<b>ACA Clients</b>
White	28.31%	29.50%
Hispanic	27.90%	34.69%
Black	15.08%	12.49%
Other	22.26%	17.80%
Asian or Pacific Islander	5.77%	4.89%
Alaskan Native or American Indian	0.68%	0.64%

**Summary Findings ACA and its impact to SMHS**

The ACA is having a significant impact to SMHS. Utilizing claims data as of December 31, 2022, an additional \$1 billion in SMHS was provided to approximately 189,000 Medi-Cal ACA clients in FY 2020-21.

## **Detailed Service Type Forecasts and Utilization Metrics: Children Services**

## Children Adult Crisis Residential Services

**Adult Crisis Residential Services (CRS)<sup>20</sup>:**

Adult crisis residential services provide an alternative to acute psychiatric hospital services for beneficiaries who otherwise would require hospitalization. The Crisis Residential Service programs for adults provide normalized living environments, integrated into residential communities. The services follow a social rehabilitation model that integrates aspects of emergency psychiatric care, psychosocial rehabilitation, milieu therapy, case management and practical social work.

**Summary:**

The forecast for Adult Crisis Residential Services indicates an increase in costs and clients.

Data Composition	Fiscal Year	Dollars	Clients
Actual	FY 2017-18	\$3,027,390	405
Actual	FY 2018-19	\$2,880,194	428
Actual	FY 2019-20	\$2,710,408	387
Actual	FY 2020-21	\$3,396,127	411
Weighted Actual + Forecast	FY 2021-22	\$3,415,543	461
Forecast	FY 2022-23	\$3,499,389	524
Forecast	FY 2023-24	\$3,653,606	546
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

<sup>20</sup> Includes children who are 18 through 20.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Adult Residential Treatment Services

### **Adult Residential Treatment Services<sup>21</sup>:**

Adult Residential Treatment Services are rehabilitative services provided in a non- institutional, residential setting for beneficiaries who would be at risk of hospitalization or other institutional placement if they were not receiving residential treatment services. The services include a wide range of activities and services that support beneficiaries in their effort to restore, maintain, and apply interpersonal and independent living skills and to access community support systems. Service activities may include assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Summary:**

The forecast for Adult Residential Services indicates an increase in costs and clients.

## Children Crisis Stabilization

**Crisis Stabilization:**

Crisis stabilization services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires a timelier response than a regularly scheduled visit. Service activities include but are not limited to one or more of the following: assessment, therapy, crisis intervention, medication support services and referral and linkages.

**Summary:**

The forecast for Crisis Stabilization Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$27,708,258	13,838
Actual	FY 2018-19	\$31,014,033	13,361
Actual	FY 2019-20	\$31,568,851	12,569
Actual	FY 2020-21	\$33,818,444	11,122
Weighted Actual + Forecast	FY 2021-22	\$25,542,185	14,323
Forecast	FY 2022-23	\$28,051,396	15,633
Forecast	FY 2023-24	\$38,893,348	16,052
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Day Rehabilitation

### **Day Rehabilitation:**

Day rehabilitation services are a structured program of rehabilitation and therapy with services to improve, maintain or restore personal independence and functioning, consistent with requirements for learning and development and that provide services to a distinct group of beneficiaries who receive services. Service activities may include, but are not limited to assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Summary:**

The forecast for Day Rehabilitation Services indicates a decrease in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

## Children Day Treatment Intensive

### **Day Treatment Intensive:**

Day treatment intensive services are a structured, multi-disciplinary program of therapy that may be used as an alternative to hospitalization to avoid placement in a more restrictive setting, or to maintain the client in a community setting and which provides services to a distinct group of beneficiaries who receive services for a minimum of three hours per day (half-day) or more than four hours per day (full-day). Service activities may include, but are not limited to, assessment, treatment planning, therapy, and psychosocial rehabilitation.

### **Summary:**

The forecast for Day Treatment Intensive Services indicates a decrease in clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

## Children Medication Support Services

### **Medication Support Services:**

Medication support services include prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals that are necessary to alleviate the symptoms of mental illness. Service activities may include but are not limited to: evaluation of the need for medication; evaluation of clinical effectiveness and side effects; instruction in the use, risks and benefits of, and alternatives for, medication; and treatment planning.

### **Summary:**

The forecast for Medication Support Services indicates an increase in costs and an increase in clients.

## Children Psychiatric Health Facility Services

**Psychiatric Health Facility (PHF):**

“Psychiatric Health Facility” means a facility licensed under the provisions beginning with Section 77001 of Chapter 9, Division 5, and Title 22 of the California Code of Regulations. “Psychiatric Health Facility Services” are therapeutic and/or rehabilitative services provided on an inpatient basis in a psychiatric health facility to beneficiaries who need acute care, which meets the criteria of Section 1820.205 of Chapter 11, Division 1, Title 9 of the California Code of Regulations, and whose physical health needs can be met in an affiliated general acute care hospital or in outpatient settings. These services are separate from those categorized as “Psychiatric Hospital Inpatient.”

**Summary:**

The forecast for Psychiatric Health Facility Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

Forecast	FY 2023-24	\$15,341,525	1,161
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 20-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Psychiatric Hospital Inpatient Services – SD/MC Hospitals

**Psychiatric Hospital Inpatient Services – SD/MC Hospitals:**

Psychiatric hospital inpatient services include both acute psychiatric hospital inpatient services and administrative day services. Acute psychiatric hospital inpatient services are provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are hospital inpatient services provided to beneficiaries who were admitted to the hospital for an acute psychiatric hospital inpatient service and the beneficiary’s stay at the hospital must be continued beyond the beneficiary’s need for acute psychiatric hospital inpatient services due to lack of residential placement options at non-acute residential treatment facilities that meet the needs of the beneficiary.

Psychiatric hospital inpatient services are provided by SD/MC hospitals and FFS/MC hospitals. Mental Health Plans (MHPs) claim reimbursement for the cost of psychiatric hospital inpatient services provided by SD/MC hospitals through the SD/MC claiming system. FFS/MC hospitals claim reimbursement for the cost of psychiatric hospital inpatient services through the Fiscal Intermediary. MHPs are responsible for authorizing psychiatric hospital inpatient services reimbursed through either billing system. For SD/MC hospitals, the daily rate includes the cost of any needed professional services. The FFS/MC hospital daily rate does not include professional services, which are billed separately from the FFS/MC hospital inpatient services via the SD/MC claiming system.

**Summary:**

The forecast for Psychiatric Inpatient Hospital Services – SD/MC Hospitals indicates an increase in costs and a slight decrease in clients.

## Children Targeted Case Management

**Targeted Case Management (TCM):**

Targeted case management (TCM) is a service that assists a beneficiary in accessing needed medical, educational, social, prevocational, vocational, rehabilitative, or other community services. The service activities may include, but are not limited to, communication, coordination and referral; monitoring service delivery to ensure beneficiary access to services and the service delivery system; monitoring of the beneficiary’s progress; placement services; and plan development. Additionally, services may be provided by any person determined by the MHP to be qualified to provide the service, consistent with their scope of practice and state law.

**Summary:**

The forecast for Targeted Case Management indicates an increase in costs and clients.

## **Children MENTAL HEALTH SERVICES**

### **Mental Health Services**

Individual or group therapies and interventions are designed to provide a reduction of mental disability, and to restore, improve or maintain functioning consistent with the goals of learning, development, independent living, and enhanced self-sufficiency. These services are separate from those provided as components of adult residential services, crisis intervention, crisis stabilization, day rehabilitation, or day treatment intensive. Service activities may include, but are not limited to:

1. Assessment – A service activity designed to evaluate the current status of mental, emotional, or behavioral health. Assessment includes, but is not limited to, one or more of the following: mental status determination, analysis of the clinical history, analysis of relevant cultural issues and history, diagnosis, and the use of mental health testing procedures.
2. Plan Development – A service activity that consists of development of client plans, approval of client plans, and/or monitoring and recording of progress.
3. Therapy – A service activity that is a therapeutic intervention focusing primarily on symptom reduction as a means to reduce functional impairments. Therapy may be delivered to an individual or group and may include family therapy at which the client is present.
4. Rehabilitation – A service activity that includes, but is not limited to, assistance improving, maintaining or restoring functional skills, daily living skills, social and leisure skills, grooming and personal hygiene skills, meal preparation skills, and support resources; and/or obtaining medication education.
5. Collateral – A service activity involving a significant support person in the beneficiary's life for the purpose of addressing the mental health needs of the beneficiary in terms of achieving goals of the beneficiary's client plan. Collateral may include, but is not limited to consultation and training of the significant support person(s) to assist in better utilization of mental health services by the client, consultation and training of the significant support person(s) to assist in better understanding of mental illness, and family counseling with the significant support person(s) in achieving the goals of the client plan. The client may or may not be present for this service activity.

The distribution of use and expenditures of each service activity varies over time with changes in client needs.

**Summary:**

The forecast for Mental Health Services indicates an increase in costs and clients.

Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Psychiatric Hospital Inpatient Services – FFS/MC Hospitals

**Psychiatric Hospital Inpatient Services – FFS/MC Hospitals:**

Psychiatric hospital inpatient services include both acute psychiatric hospital inpatient services and administrative day services. Acute psychiatric hospital inpatient services are provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are hospital inpatient services provided to beneficiaries who were admitted to the hospital for an acute psychiatric hospital inpatient service and the beneficiary’s stay at the hospital must be continued beyond the beneficiary’s need for acute psychiatric hospital inpatient services due to lack of residential placement options at non-acute residential treatment facilities that meet the needs of the beneficiary.

Psychiatric hospital inpatient services are provided by Short-Doyle / Medi-Cal (SD/MC) hospitals and Fee-for-Service / Medi-Cal (FFS/MC) hospitals. Mental Health Plans (MHPs) claim reimbursement for the cost of psychiatric hospital inpatient services provided by Short-Doyle Medi-Cal hospitals through the Short-Doyle Medi-Cal (SD/MC) claiming system. FFS/MC hospitals claim reimbursement for the cost of psychiatric hospital inpatient services through the Fiscal Intermediary. MHPs are responsible for authorizing psychiatric hospital inpatient services reimbursed through either billing system. For SD/MC hospitals, the daily rate includes the cost of any needed professional services. The FFS/MC hospital daily rate does not include professional services, which are billed separately from the FFS/MC hospital inpatient services via the SD/MC claiming system.

**Summary:**

The forecast for Psychiatric Hospital Inpatient Services – FFS/MC Hospitals indicates an increase in costs and a decrease in clients.

## Children Therapeutic Behavioral Services

**Therapeutic Behavioral Services (TBS):**

Therapeutic behavioral services are intensive, individualized, short-term outpatient treatment interventions for beneficiaries up to age 21. Individuals receiving these services have serious emotional disturbances (SED), are experiencing a stressful transition or life crisis and need additional short-term, specific support services to accomplish outcomes specified in the written treatment plan.

**Summary:**

The forecast for Therapeutic Behavioral Services indicates a decrease in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

## Children Intensive Care Coordination

### **Intensive Care Coordination (ICC):**

Intensive care coordination is a targeted case management service that facilitates assessment of, care planning for and coordination of services, including urgent services for all children and youth under the age of 21 who are eligible for full scope Medi-Cal benefits and who meet medical necessity criteria for these services. ICC services are provided within the CFT and in accordance with the ICPM. ICC must be used to facilitate implementation of the cross- system/multi-agency collaborative services approach described in the ICPM. ICC service components include assessing, service planning and implementation; monitoring and adapting, and transition. The CFT is comprised of the child/youth and family and all ancillary individuals who work together to develop and implement the client plan and are responsible for supporting the child/youth and family in attaining their goals. There must be an ICC coordinator who:

- Oversees that medically necessary services are accessed, coordinated and delivered in a strength-based, individualized, family/youth driven and culturally and linguistically competent manner and that services and supports are guided by the needs of the child/youth;
- Facilitates a collaborative relationship among the child/youth, his/her family and involved child-serving systems;
- Supports the parent/caregiver in meeting their child/youth’s needs;
- Helps establish the CFT and provides ongoing support; and
- Organizes and matches care across providers and child serving systems to allow the child/youth to be served in his/her community

### **Summary:**

The forecast for Intensive Care Coordination Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$59,269,658	20,404

Forecast	FY 2023-24	\$117,488,811	37,214

Actual data as of June 30, 2022

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2020-21 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Intensive Home Based Services

### **Intensive Home Based Services (IHBS):**

Intensive home based services are individualized, strength-based interventions designed to ameliorate mental health conditions that interfere with a child/youth’s functioning and are aimed at helping the child/youth build skills necessary for successful functioning in the home and community and improving the child/youth’s family ability to help the child/youth successfully function in the home and community. IHBS services are provided within the CFT and in accordance with the ICPM. The CFT participates in the development of the child’s and family’s overall service plan which may include IHBS. Service activities may include, but are not limited to assessment, treatment planning, therapy, and psychosocial rehabilitation. IHBS is provided to beneficiaries under 21 who are eligible for the full scope of Medi-Cal services and who meet access criteria.

### **Summary:**

The forecast for Intensive Home Based Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$79,675,520	12,722
Actual	FY 2018-19	\$86,751,431	15,883
Actual	FY 2019-20	\$99,969,523	18,734
Weighted Actual +	FY 2020-21	\$110,921,885	18,336

Forecast	FY 2023-24	\$122,142,196	16,390
Actual data as of December 31, 2022			

### **Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, counties still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Children Therapeutic Foster Care Services

### **Therapeutic Foster Care Services (TFC):**

Therapeutic Foster Care are rehabilitative mental health services provided to children and youth up to 21 years of age who have been placed in a Residential Treatment Foster Home and who meet medical necessity criteria for this service as established by the State. The bundle of rehabilitative mental health services includes treatment planning, psychosocial rehabilitation, and crisis intervention. Services are provided by another qualified provider under the direction of a licensed mental health professional.

### **Summary:**

Forecasts are unavailable due to limited data for TFC.

## **Detailed Service Type Forecasts and Utilization Metrics: Adults Services**

**Adults**  
**Adult Crisis Residential Services**

**Adult Crisis Residential Services (CRS):**

Adult crisis residential services provide an alternative to acute psychiatric hospital inpatient services for beneficiaries who otherwise would require hospitalization. The CRS programs for adults provide normalized living environments, integrated into residential communities. The services follow a social rehabilitation model that integrates aspects of emergency psychiatric care, psychosocial rehabilitation, milieu therapy, case management and practical social work.

**Summary:**

The forecast for Adult Crisis Residential Services indicates an increase in costs and clients.

**Adults**  
**Adult Residential Treatment Services**

**Adult Residential Treatment Services:**

Adult Residential Treatment Services are rehabilitative services provided in a non-institutional, residential setting for beneficiaries who would be at risk of hospitalization or other institutional placement if they were not receiving residential treatment services. The services include a wide range of activities and services that support beneficiaries in their effort to restore, maintain, and apply interpersonal and independent living skills and to access community support systems. Service activities may include assessment, plan development, therapy, rehabilitation, and collateral. Collateral addresses the mental health needs of the beneficiary to provide coordination with significant others and treatment providers.

**Summary:**

The forecast for Adult Residential Services indicates an increase in costs and a slight decrease in clients.

## Adults Crisis Intervention

**Crisis Intervention:**

Crisis intervention services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires more timely response than a regularly scheduled visit. Service activities include, but are not limited to, assessment, collateral and therapy.

**Summary:**

The forecast for Crisis Intervention indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$67,776,023	49,951
Actual	FY 2018-19	\$64,026,487	49,889
Actual	FY 2019-20	\$69,813,393	48,521
Actual	FY 2020-21	\$83,861,405	48,687
Weighted Actual +	FY 2021-22	\$84,216,409	48,937
Forecast	FY 2022-23	\$87,578,276	49,021
Forecast	FY 2023-24	\$88,673,525	49,246
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Adults Crisis Stabilization

**Crisis Stabilization:**

Crisis stabilization services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires a timelier response than a regularly scheduled visit. Service activities include but are not limited to one or more of the following: assessment, collateral, and therapy. Collateral addresses the mental health needs of the beneficiary to provide coordination with significant others and treatment providers.

**Summary:**

The forecast for Crisis Stabilization indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$172,669,234	56,182

## Adults Day Rehabilitation

**Day Rehabilitation:**

Day rehabilitation services are a structured program of rehabilitation and therapy with services to improve, maintain or restore personal independence and functioning, consistent with requirements for learning and development and which provides services to a distinct group of beneficiaries who receive services for a minimum of three hours per day (half-day) or more than four hours per day (full-day). Service activities may include, but are not limited to assessment, plan development, therapy, rehabilitation and collateral.

**Summary:**

Claims for Day Rehabilitation have not been submitted since August 2020. Therefore, a forecast for this service is unavailable due to limited data.

Data Composition	Fiscal Year	Dollars	Clients
Actual	FY 2017-18	\$4,133,913	539

## Adults Day Treatment Intensive

### **Day Treatment Intensive:**

Day treatment intensive services are a structured, multi-disciplinary program of therapy. It may be used as an alternative to hospitalization, or to avoid placement in a more restrictive setting, or to maintain the client in a community setting and which provides services to a distinct group of beneficiaries who receive services for a minimum of three hours per day (half-day) or more than four hours per day (full-day). Service activities may include, but are not limited to, assessment, plan development, therapy, rehabilitation and collateral.

### **Summary:**

The forecast indicates a decrease in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>
Actual	FY 2017-18	\$536,768	130

## Adults Medication Support Services

**Medication Support:**

Medication support services include prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals that are necessary to alleviate the symptoms of mental illness. Service activities may include but are not limited to evaluation of the need for medication; evaluation of clinical effectiveness and side effects; obtaining informed consent; instruction in the use, risks and benefits of, and alternatives for, medication; collateral and plan development related to the delivery of service and/or assessment for the client; prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals; and medication education.

**Summary:**

The forecast for Medication Support Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

Forecast	FY 2023-24	\$597,646,436	233,735
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

## Adults Psychiatric Health Facility Services

**Psychiatric Health Facility (PHF):**

“Psychiatric Health Facility” means a facility licensed under the provisions beginning with Section 77001 of Chapter 9, Division 5, Title 22 of the California Code of Regulations.

“Psychiatric Health Facility Services” are therapeutic and/or rehabilitative services provided in a psychiatric health facility on an inpatient basis to beneficiaries who need acute care, which meets the criteria of Section 1820.205 of Chapter 11, Division 1, Title 9 of the California Code of Regulations, and whose physical health needs can be met in an affiliated general acute care hospital or in outpatient settings. These services are separate from those categorized as “Psychiatric Hospital Inpatient”.

**Summary:**

The forecast for Psychiatric Health Facility Services indicates an increase in costs and a slight increase in clients.

## Adults

### Psychiatric Hospital Inpatient Services – SD/MC Hospitals

**Psychiatric Hospital Inpatient Services – SD/MC Hospitals:**

Psychiatric hospital inpatient services include both acute psychiatric hospital inpatient services and administrative day services. Acute psychiatric hospital inpatient services are provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are hospital inpatient services provided to beneficiaries who were admitted to the hospital for an acute psychiatric hospital inpatient service and the beneficiary’s stay at the hospital must be continued beyond the beneficiary’s need for acute psychiatric hospital inpatient services due to lack of residential placement options at non-acute residential treatment facilities that meet the needs of the beneficiary.

Psychiatric hospital inpatient services are provided by Short-Doyle / Medi-Cal (SD/MC) hospitals and Fee-for-Service / Medi-Cal (FFS/MC) hospitals. Mental Health Plans (MHPs) claim reimbursement for the cost of psychiatric hospital inpatient services provided by Short-Doyle Medi-Cal hospitals through the Short-Doyle Medi-Cal (SD/MC) claiming system. FFS/MC hospitals claim reimbursement for the cost of psychiatric hospital inpatient services through the Fiscal Intermediary. MHPs are responsible for authorizing psychiatric hospital inpatient services reimbursed through either billing system. For SD/MC hospitals, the daily rate includes the cost of any needed professional services. The FFS/MC hospital daily rate does not include professional services, which are billed separately from the FFS/MC inpatient hospital services via the SD/MC claiming system.

**Summary:**

The forecast for Psychiatric Inpatient Hospital Services – SD/MC Hospitals indicates an increase in costs and clients.

## Adults Targeted Case Management

**Targeted Case Management (TCM):**

Targeted case management is a service that assists a beneficiary in accessing needed medical, educational, social, prevocational, vocational, rehabilitative, or other community services. The service activities may include, but are not limited to communication, coordination and referral; monitoring service delivery to ensure beneficiary access to services and the service delivery system; monitoring of the beneficiary’s progress; placement services; and plan development. Additionally, services may be provided by any person determined by the MHP to be qualified to provide the service, consistent with the scope of practice and state law.

**Summary:**

The forecast for Targeted Case Management indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

### **MENTAL HEALTH SERVICES**

#### **Mental Health Service:**

Individual or group therapies and interventions are designed to provide a reduction of mental disability and restoration, improvement or maintenance of functioning consistent with the goals of learning, development, independent living, and enhanced self-sufficiency. These services are separate from those provided as components of adult residential services, crisis intervention, crisis stabilization, day rehabilitation, or day treatment intensive. Service activities may include, but are not limited to:

1. Assessment - A service activity designed to evaluate the current status of mental, emotional, or behavioral health. Assessment includes, but is not limited to, one or more of the following: mental status determination, analysis of the clinical history, analysis of relevant cultural issues and history, diagnosis, and the use of mental health testing procedures.
2. Plan Development - A service activity that consists of development of client plans, approval of client plans, and/or monitoring and recording of progress.
3. Therapy - A service activity that is a therapeutic intervention focusing primarily on symptom reduction as a means to reduce functional impairments. Therapy may be delivered to an individual or group and may include family therapy at which the client is present.
4. Rehabilitation - A service activity that includes, but is not limited to assistance, improving, maintaining or restoring functional skills, daily living skills, social and leisure skills, grooming and personal hygiene skills, meal preparation skills, and support resources; and/or obtaining medication education.

The distribution of use and expenditures of each service activity varies over time with changes in client needs.

**Summary:**

The forecast for Mental Health Services indicates an increase in costs and clients.

<b>Data Composition</b>	<b>Fiscal Year</b>	<b>Dollars</b>	<b>Clients</b>

Forecast	FY 2023-24	\$850,639,044	249,302
Actual data as of December 31, 2022			

**Client Profile Data:**

Client profile data is derived from statistical programs and may not exactly match financial reporting due to some overlap with grouping of data categories for analysis purposes. The SFY 2020-21 client tables and the historical trends tables are based upon claims received as of December 31, 2022.

**Note:**

The following tables utilize data for FY 2020-21. Mental Health Plans (MHP) have one year from the date of service to submit a claim for reimbursement. Consequently, the MHPs still have time to submit timely claims with service dates in fiscal year 2021-22 at the time of this May 2023 Budget Estimate. For this reason, data for FY 2020-21 was used in these tables as all approved claims have been submitted and received representing a full fiscal year.

**Adults**

**Psychiatric Hospital Inpatient Services – FFS/MC Hospitals**

**Psychiatric Hospital Inpatient Services – FFS/MC Hospitals:**

Psychiatric hospital inpatient services include both acute psychiatric hospital inpatient services and administrative day services. Acute psychiatric hospital inpatient services are provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are inpatient hospital services provided to beneficiaries who were admitted to the hospital for an acute psychiatric hospital inpatient service and the beneficiary’s stay at the hospital must be continued beyond the beneficiary’s need for acute psychiatric hospital inpatient services due to lack of residential placement options at non-acute residential treatment facilities that meet the needs of the beneficiary.

Psychiatric hospital inpatient services are provided by Short-Doyle / Medi-Cal (SD/MC) hospitals and Fee-for-Service / Medi-Cal (FFS/MC) hospitals. Mental Health Plans (MHPs) claim reimbursement for the cost of psychiatric hospital inpatient services provided by Short-Doyle Medi-Cal hospitals through the Short-Doyle Medi-Cal (SD/MC) claiming system. FFS/MC hospitals claim reimbursement for the cost of psychiatric hospital inpatient services through the Fiscal Intermediary. MHPs are responsible for authorizing psychiatric hospital inpatient services reimbursed through either billing system. For SD/MC hospitals, the daily rate includes the cost of any needed professional services. The FFS/MC hospital daily rate does not include professional services, which are billed separately from the FFS/MC inpatient hospital services via the SD/MC claiming system.

**Summary:**

The forecast for Psychiatric Hospital Inpatient Services – FFS/MC Hospitals indicates an increase in costs and a decrease in clients.
