Background

As you may be aware, CalAIM is a multi-year initiative by DHCS to improve the quality of life and health outcomes of our population by implementing broad delivery system, program and payment reform across the Medi-Cal program. The major components of Cal AIM build upon the successful outcomes of various pilots (including but not limited to the Whole Person Care Pilots, Health Homes, and the Coordinated Care Initiative) from the previous federal waivers and will result in better quality of life for Medi-Cal members as well as long-term cost savings/avoidance. To view the full CalAIM proposal please visit the DHCS website at: <https://www.dhcs.ca.gov/calaim>

Request for Input

DHCS is committed to ongoing engagement of Tribes and Indian Health Programs as the development of the CalAIM proposal moves forward. DHCS invites Tribes and Indian health programs to forward questions and provide feedback in person and in writing on the proposal. DHCS is especially interested in hearing from Indian health representatives regarding the following components of the CalAIM proposal: **“Enhanced Care Management”, “In Lieu of Services”, “Dental Transformation Initiative”, and the” Indian Health Drug Medi-Cal Organized Delivery System”**.
