C. Comparability of Services

___ Services are provided in accordance with section 1902(a)(10)(B) of the Act.

X Services are not comparable in amount, duration, and scope. Authority of section 1915(g)(1) of the Act is invoked to provide services without regard to the requirements of section 1902(a)(10)(B) of the Act.

D. Definition of Services:

Targeted case management services include needs assessment, setting of objectives related to needs, individual service planning, service scheduling, and periodic evaluation of service effectiveness. Case management services ensure that the changing needs of the Medi-Cal eligible person are addressed on an ongoing basis and appropriate choices are provided among the widest array of options for meeting those needs. Case management includes the following:

1. Assessment

Analyzing each client's need for medical, social, educational and other services to determine appropriate resources and to develop a service plan.

2. Plan Development

Plan development includes the development of a written, comprehensive, individual service plan based upon the assessment, which identifies the activities and assistance needed to accomplish the objectives developed between the client and the case manager. The service plan describes the nature, frequency and duration of the activities and assistance which meet the individual's needs.

Specific client objectives are discussed and strategies for achieving the stated objectives are identified. This involves acquainting the client, parent, or legal guardian with sources of services in the community and providing information for obtaining services through community programs.

3. Linkage and Consultation

Implementing the service plan includes consultation with providers and interagency coordination on behalf of the client and referral of the client to needed medical, social, educational, and other services, as well as follow-up to ensure services are received by the client.

6. Periodic Review
