There are a variety of Medi-Cal PE programs designed to provide immediate, temporary coverage for eligible low-income individuals, pending a formal Medi-Cal application.

The following are four such programs:

- Hospital Presumptive Eligibility
- Child Health and Disability Program Gateway
- Presumptive Eligibility for Pregnant Women
- Breast and Cervical Cancer Treatment Program
Hospital Presumptive Eligibility (HPE)

- The HPE Program provides qualified individuals immediate access to temporary, no-cost Medi-Cal. To apply for HPE benefits, an individual must visit a hospital that is a qualified HPE Provider. The HPE Provider submits the individual’s information via the HPE Medi-Cal Application online portal and eligibility is determined in real-time.

Child Health and Disability Prevention (CHDP) Gateway

- The "CHDP Gateway" is an automated pre-enrollment process for non Medi-Cal, uninsured children. Qualified Providers utilize the CHDP Gateway as the entry point for children to enroll in ongoing health care coverage through Medi-Cal, pending a formal determination of Medi-Cal eligibility.
Presumptive Eligibility for Pregnant Women (PE4PW)

- The PE4PW Program allows Qualified Providers to grant immediate, temporary Medi-Cal coverage for ambulatory prenatal care and prescription drugs for conditions related to pregnancy to low-income, pregnant patients, pending their formal Medi-Cal application.

Breast and Cervical Cancer Treatment Program (BCCTP)

- The Breast and Cervical Cancer Treatment Program (BCCTP) provides cancer treatment and services for eligible low-income California residents who are screened by Qualified Providers and found to be in need of treatment for breast and/or cervical cancer, pending a formal Medi-Cal application.
Overview of PE Individuals

Overview of individuals entering PE programs (by pathway); and of those individuals, how many were subsequently approved for Medi-Cal

Data Source: Extracted from MIS/DSS on 15JUL2021; Data has been refreshed for the most recent 12 month period

Note: BCCTP PE counts are depicted on a separate slide due to proportionally small population size
HPE Individuals

Monthly count of individuals entering the HPE program; and of those individuals, how many were subsequently approved for Medi-Cal

Data Source: Extracted from MIS/DSS on 15JUL2021; Data has been refreshed for the most recent 12 month period

7/26/2021
CHDP Gateway Individuals
(Children)

Monthly count of children entering the CHDP Gateway; and of those, how many were subsequently approved for Medi-Cal

Data Source: Extracted from MIS/DSS on 15JUL2021; Data has been refreshed for the most recent 12 month period

Medi-Cal New Enrollment Data

Medi-Cal New Enrollment Data includes the following cohorts:

**Total NEW Enrollments** - The sum of *Newly Enrolled* and *Re-Enrolled* individuals (the Universe).

- **Newly Enrolled** - Individuals with no prior history of Medi-Cal coverage.

- **Re-Enrolled** - Individuals who experienced a break in coverage and came back to the Medi-Cal program by reapplying, and being determined eligible for Re-Enrollment into the program.
  - Different from *Newly Enrolled*, these are individuals with a prior history of Medi-Cal coverage within the previous 15+ year period, but whose Medi-Cal was subsequently discontinued at some point in the past, thereby requiring the individual to reapply.

- **Re-Enrollment Churn** (A subset of *Re-Enrolled*) - Individuals who experienced a break in coverage and came back to the Medi-Cal program by reapplying, and being determined eligible for Re-Enrollment into the program.
  - This subset of *Re-Enrolled* individuals have a prior history of Medi-Cal coverage within the previous 12 month period, but whose Medi-Cal was subsequently discontinued at some point in that 12 month period, thereby requiring the individual to reapply.
  - The methodology used to obtain the Churn data was refined on 10/14/2020.

Continuous Medi-Cal Coverage Through the Public Health Emergency

• To ensure Californians continued to receive Medi-Cal health coverage during the public health emergency (PHE), per Executive Orders N-29-20 and N-71-20, DHCS issued guidance directing counties to delay the processing of Medi-Cal annual renewals, and to defer discontinuances and negative actions, effective March 16, 2020, through the duration of the PHE.

• Exceptions to the moratorium on discontinuances/negative actions are:
  • voluntary requests for discontinuance,
  • death of a beneficiary, or
  • individuals who move out of state.
Medi-Cal Reinstatements During COVID-19 Public Health Emergency

- DHCS, working collaboratively with the SAWS and counties, are continually working to identify individuals who have been inadvertently discontinued, and have their eligibility restored each month.
  - The identified cases targeted for restoration take into consideration the legitimate discontinuances that are allowed during the PHE.
  - To date, approximately 131,000 individuals were restored back into coverage since the beginning of the COVID-19 PHE, as a result of the reinstatement effort.
- Beginning with the November 2020 benefit month, DHCS worked with SAWS and Counties to identify in advance any cases slated for discontinuance.
  - Due to this early identification effort, individuals scheduled for discontinuance, November 2020 benefit month forward, have been retained in coverage without a break in aid.

Note: Medi-Cal Total Enrollment data reflected in this presentation includes all individuals restored back into coverage for the reported months.
COVID-19 Uninsured Group

• COVID-19 Uninsured Coverage Group (aka COVID-19 PE):
  – For uninsured individuals
  – Services limited to medically necessary COVID-19 testing, testing-related, and treatment services
  – 12-month enrollment period or end of public health emergency, whichever comes later

• COVID-19 Uninsured Application Pathways:
  All PE Qualified Providers, including:
  – Hospital PE
  – Child Health and Disability Prevention Gateway
  – PE for Pregnant Women

• COVID-19 Uninsured Enrollments as of 07/21/2021: 194,601
