ONEADULT
(If NUMWOMEN = 1)
Are you the adult?

1. Yes ---> Then you are the person I need to speak with. All the information obtained in this study will be confidential.
2. No ---> May I speak with her? (When selected adult answers:)

Hello, I'm (interviewer name) calling on behalf of the California Department of Health Services and the
Introduction:

We’re doing a special survey of California women and are asking about their health practices and day-to-day living habits. Your telephone number was randomly selected from all California phone numbers. You have been randomly chosen to be included in the study from among the adult women of your household.

Before I ask you any questions, I want to be sure you know that your participation is totally voluntary and that all the answers you provide will be kept confidential. You will not be identified in any way in any reports. Your answers will be combined with the answers of the 4000 other women who take part in the survey.

You may stop the interview at any time. If there is a question that you cannot or do not wish to answer, please tell me and I’ll go to the next question.

In this survey, we are asking questions about health care coverage, experience with breast cancer screening tests, alcohol and tobacco use, vitamin use, mental health and family violence. Depending on your age, you may also be asked about family planning, childbirth and breastfeeding experience, and experience with the Women, Infants and Children's program.

We appreciate your cooperation with this survey. The only cost to you is the time needed to answer the questions. The survey takes about 25 minutes. Although you may not gain personally from taking part in this survey, the information you give will be used to improve state programs and to identify areas of need to improve the health of California women.
