**Medi-Cal Certified Eligibles Data Table by County and Aid Code Group
September 2022 (Dates Represented: June 2022)**

Overview
The data table in this Excel workbook presents Medi-Cal certified eligibles for the June 2022 month of eligibility. The certified eligible counts reflect a 3-month reporting lag in order to accumulate the most complete datasets, while balancing the timeliness of data.

Table
This static data table includes counts of Medi-Cal certified eligibles by county as well as by four aid code groupings: (1) ACA Expansion Adult Age 19 to 64, (2) Parent/Caretaker Relative & Child, (3) Undocumented, and (4) Other.

Small Cell Suppression
All cells with values of less than 11 have been masked with "--" along with neighboring cells to protect beneficiary confidentiality.

Certified Eligible
The term *certified eligible* includes beneficiaries who have been determined eligible for Medi-Cal based on a valid eligibility determination. Certified eligibles do not include individuals who may be eligible, or are in the process of becoming a certified eligible, but have not received a valid eligibility determination. In addition, the definition used here only includes beneficiaries who are eligible to receive Medi-Cal-covered health care services during the month. This means that beneficiaries who must meet a Share of Cost (SOC), but have not met their monthly SOC, are not included in the counts. Specific populations, such as California's Family PACT[1] members and individuals granted temporary enrollment under the Presumptive Eligibility (PE)[2] program for pregnancy, are excluded. However, individuals granted temporary enrollment under the other PE programs, most notably the Hospital Presumptive Eligibility (HPE) program, are included in the certified eligible counts.

[1]Annual data show that the Family PACT Program served 1.16 million clients in State Fiscal Year (SFY) 2015-16. Demographic Profile of Family PACT Clients Served by Fiscal Year. URL: https://data.chhs.ca.gov/dataset/demographic-profile-of-family-pact-clients-served-by-fiscal-year/resource/e78877ea-a890-48b4-877e-677eca8a9b0c

[2]The Presumptive Eligibility (PE) program provides immediate, temporary Medi-Cal coverage for needed services to individuals deemed eligible by qualified entities. While previously available only to low-income pregnant women and children, the PE program in California has been expanded as of January 1, 2014 to include low-income adults ages 19-64 and parents and caretaker relatives, as well as former foster care children up to age 26 (no income limit).
