

COMMUNITY REINVESTMENT OBLIGATIONS

Managed Care Plan & Qualifying Subcontractor Preliminary Obligations | **October 2026**

Overview

The Department of Health Care Services' (DHCS) community reinvestment program requires Medi-Cal managed care plans (MCPs) and their qualifying subcontractors to demonstrate a commitment to the areas they serve by contributing a minimum percentage of annual net income to qualified community development activities. MCPs will also be subject to an additional Quality Achievement Community Reinvestment requirement if they do not meet quality outcome metrics. Through the requirements outlined in the community reinvestment [All Plan Letter \(APL\) 25-004](#), MCPs will address unmet health-related social needs of their communities. The community reinvestment program aligns with and advances existing DHCS priorities for whole person care.

On an annual basis, DHCS will calculate MCPs' and qualifying subcontractors' minimum community reinvestment funding obligations as described in APL 25-004.¹ DHCS will notify each MCP of its preliminary community reinvestment funding obligation, and any obligation of its qualifying subcontractors, in the second quarter of each year. DHCS will complete its review of MCPs' and subcontractors' Medical-Loss Ratio reports in Q3 of each year and will notify MCPs of any updates to community reinvestment funding obligations, as necessary. DHCS intends to publicly release community reinvestment obligations on an annual basis to support the community planning process, which will culminate in the submission of investment plans to DHCS for

¹ The "Base" obligation is the minimum level of net income that an MCP or qualifying subcontractor with positive net income is required to invest into initiatives that serve the communities in which the MCP operates. The "Quality Achievement" obligation is the additional net income that MCPs are required to invest into initiatives in counties where the MCP operates, in which the MCP does not meet minimum quality measure performance thresholds.

approval annually on September 1 or the first working day of September. For this year only, 2026, DHCS has extended the submission deadline to October 15, while maintaining September 1 as the standard due date. In accordance with APL 25-004, MCPs and qualifying subcontractors may begin expending community reinvestment funds upon DHCS' approval of the Community Reinvestment Plan and must fully expend cumulative obligations based on CY 2024, CY 2025, and CY 2026 net income by the close of the initial investment cycle in 2029.

This document outlines the community reinvestment obligations for MCPs and qualifying subcontractors based on the allocation methodology and funding requirements outlined in APL 25-004. MCP and qualifying subcontractor obligations are based on the annual net income from two years prior. Upon receiving their formal obligation notification, MCPs are provided a 15-day period to dispute the amounts. Sixteen MCPs have obligation amounts found in this report based on the net income for the CY 2024 reporting period. Some MCPs will invest less than the reinvestment obligation in new investments, because grant or investment commitments made prior to March 7, 2025, and slated to be spent during the initial investment period are eligible to be credited towards the reinvestment obligation, following DHCS' approval.

Obligations in Table 1 are displayed by MCP and county, and include the base obligation, quality obligation, and overall obligation inclusive of qualifying subcontractor obligations. Obligations in Table 2 are displayed by county and include the base obligation, quality obligation, and total obligation for all MCPs, inclusive of qualifying subcontractor obligations, operating in each respective county. Obligations in Table 3 are displayed by qualifying subcontractor and include total obligation amounts that apply only to the MCP's base obligation.

To read more about the community reinvestment allocation methodology, please see [APL 25-004](#).

Table 1: TOTAL MCP COMMUNITY REINVESTMENT OBLIGATIONS

The table below includes base, quality, and total obligation for each Medi-Cal MCP and their applicable counties based on CY 2024 net income.
