

Stakeholder Advisory Committee
LIHP Transition Discussion
July 23, 2012

1. DHCS has reviewed the comments from stakeholders on the draft initial transition plan regarding the Medi-Cal Managed Care Plan Assignment.
 - What are the Pros and cons of choice (“opt in”) vs. assignment to a plan based on the individual’s current medical home (“opt out”) approach? What do you value most—choice vs. continuity of care?
2. For outreach and notification to LIHP enrollees, DHCS will be engaging stakeholders to discuss the transition activities.
 - What are your recommendations on the types of activities at the local and State level and the coordination needed between State (DHCS/Exchange), LIHPs, community organization and others?
 - What information should be included in the notifications to the LIHP enrollees regarding the transition? Examples?
