Background

In accordance with Welfare and Institutions Code (WIC) section 14197, the Department of Health Care Services (DHCS) is required to post approved Alternative Access Standards (AAS). MCPs may submit Alternative Access Standard (AAS) requests for time and distance standards¹ for the following provider types:

- Primary Care Providers (PCP) – adult and pediatric
- OB/GYN PCPs (only for assigned members)
- OB/GYN specialists
- Core specialists² – adult and pediatric
- Outpatient mental health providers³ – adult and pediatric
- Hospitals
- Pharmacies

The requesting MCP must demonstrate that all other reasonable options to meet the applicable standard were exhausted in order for DHCS to approve the request.

DHCS-approved AAS requests are valid for one contract year and must be resubmitted to DHCS for approval annually.

Report Overview

This report publishes the DHCS approved AAS requests for the 2019 Annual Network Certification of MCPs and specialty MCPs⁴.

DHCS will post all approved alternative access standards on its website for each annual network certification and will update the posting at least semiannually to include AAS from the annual network certification and provider/facility terminations.

DHCS Review and Validation Process

MCPs are required to submit accessibility analyses that demonstrate compliance with time or distance standards for the entire service area. DHCS verifies that the MCP submits an AAS request if they were unable to meet time and distance standards based on the accessibility analysis.

AAS requests were organized by zip code and county and included:

¹ As references, see Table 1 for county-specific network adequacy standards and Table 2 for county population density.

² See [Table 3](#)

³ Psychologists, Licensed Marriage and Family Therapists, and Licensed Clinical Social Workers

⁴ Specialty MCPs are MCPs that serve specialized populations and offer a specific array of services.

- Driving time and/or the distance, in miles, between the nearest in-network provider(s) and the most remote members;
- Proposed AAS standard in minutes and miles from the most remote members; and
- Detailed the MCP's contracting efforts including documentation of all the providers with whom the MCP attempted to contract and an explanation of why the contract was not executed.

DHCS approved or denied each request on a zip code and provider type basis using the following review criteria:

- Driving times to the nearest in-network provider request exceeds the time standard or distance to the nearest in-network provider exceeds the distance standard;
- Name and address of closest in-network provider;
- Narrative explaining why the plan was unable to execute contract with located provider, to include if there was a rate dispute between the provider and MCP; and
- Reviewed AAS request for zip codes that have been designated as Health Profession Shortage Areas by the U.S. Health Resources and Services Administration
- Determined whether the proposed alternative access standard is a reasonable request based on:
 - Health Care Options website;
 - Medicare.gov;
 - Office of Statewide Health Planning and Development;
 - California Health and Human Services Open Data/Fee-for-Service;
 - 274 Provider File; and
 - Any additional web based sites.
- Considered the geographic region, size, and total members affected when assessing the request. If the standard is within 5 miles of the nearest provider, DHCS does not require additional substantiation.

DHCS validates approved MCP AAS requests for contracting efforts with nearer providers. DHCS utilizes a sampling methodology and conducts a validation for each MCP's approved AAS requests by provider type among selected zip codes in each county where the MCP operates.

DHCS contacts the MCP and requests the submission of documents demonstrating that the MCP has made attempts to contract with nearer providers. DHCS requests the following, but not limited to, supporting documentation for the MCP to support and justify the MCP AAS requests:

- NPI of closer out of network (OON) provider(s) requested to contract with;
- Explanation of how the MCP exhausted reasonable efforts to contract with the closer OON provider(s);

- Description of decision made by MCP to extend or withhold a contract with closer OON provider(s);
- Whether the rate offered to closer OON provider(s) is, at minimum, the average of similar contracted providers in the service area;
- Quality of care concerns with closer OON provider(s), as referenced in APL 18-008; and
- Evidence of communication between MCP and closer OON provider(s), e.g., calendar of meetings, copies of e-mails and correspondence

MCPs that are unable to provide the required documentation will have the AAS rescinded. DHCS will place the MCP under a network adequacy corrective action plan (CAP) for failure to meet time and distance standards. MCPs already under a network adequacy CAP will have its CAP expanded to include the failure of AAS validation. DHCS may also look to conduct a secondary sample of AAS request approved to determine the extent to which the MCP can or cannot justify the AAS requested.

Alternative Access Standards Results

Observations and Trends

When reviewing AAS charts it is important to note that time and distance standards can be met by either minutes or miles. Some MCPs elected to request AAS standards for either minutes only or miles only or both minutes and miles. Most MCPs requesting AAS standards submitted for distance rather than time. However, where an MCP did request time and/or distance the request is published.

There are differences in approvals for AAS among providers working within the same zip code. These differences are attributed to providers contracting with one MCP but not the other within the same service area.

Furthermore, due to the county population density and geographical attributes within the State, a large number of AAS requests are due to geographically remote regions. Additionally, the trends show that there is a lack of specialists, specifically pediatric specialists, in both rural and urban counties within time and distance standards.

Current AAS Approval Status

In addition to the annual network certification and provider/facility terminations that result in AAS, DHCS continues to review any AAS requests received throughout the year and/or during any network adequacy corrective action plan (CAP) imposed on an MCP. As the CAPs are closed out, DHCS will update the approved AAS requests and update those AAS published. Information on MCPs under an Annual Network Certification CAP can be found at: [\[add link: July 2019 Annual Network Certification: Corrective Action Plan Report Medical Managed Care Health Plans\]](#).

If you have any questions regarding this report, please contact MCQMDNAU@dhcs.ca.gov

Network Adequacy Standards

Table 1. Network Adequacy Standards

| Provider Type | Timely Access Standard ⁵ | Time and Distance Standard by Rural County Size | Time and Distance Standard by Small County Size <small>Error!</small> <small>Bookmark not defined.</small> | Time and Distance Standard by Medium County Size <small>Error!</small> <small>Bookmark not defined.</small> | Time and Distance Standard by Dense County Size <small>Error!</small> <small>Bookmark not defined.</small> |
|---|--|--|---|--|---|
| Primary Care (Adult and Pediatric) | Within 10 business days to appt. from request | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence |
| Specialty Care (Adult and Pediatric) | Within 15 business days to appt. from request | 60 miles or 90 minutes from the member's residence | 45 miles or 75 minutes from the member's residence | 30 miles or 60 minutes from the member's residence | 15 miles or 30 minutes from the member's residence |
| Obstetrics/Gynecology (OB/GYN) Primary Care | Within 10 business days to appt. from request | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence |
| Obstetrics/Gynecology (OB/GYN) Specialty Care | Within 15 business days to appt. from request | 60 miles or 90 minutes from the member's residence | 45 miles or 75 minutes from the member's residence | 30 miles or 60 minutes from the member's residence | 15 miles or 30 minutes from the member's residence |
| Hospitals | Not Applicable | 15 miles or 30 minutes from the member's residence | 15 miles or 30 minutes from the member's residence | 15 miles or 30 minutes from the member's residence | 15 miles or 30 minutes from the member's residence |
| Pharmacy | Dispensing of at least a 72-hour supply of covered outpatient drug in an emergency situation | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence | 10 miles or 30 minutes from the member's residence |
| Mental Health (non-psychiatry) | Within 10 business days to | 60 miles or 90 minutes | 45 miles or 75 minutes | 30 miles or 60 minutes | 15 miles or 30 minutes |

⁵ Timely Access standards apply to all specialists not only core specialists
