MMCD All Plan Letter 10-002

TO:

ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT:

ROGERS AMENDMENT DATA REQUEST

Through this All Plan Letter (APL), the Department of Health Care Services (DHCS) requests data on hospital bed days provided to Medi-Cal beneficiaries through each Medi-Cal managed care plan (Plan) by the *Plan's* contracted and non-contracted hospitals. DHCS will use this data to develop a report that is due to the State Legislature on May 1, 2010. The data described below, and detailed on the enclosed spreadsheet, must be emailed to David.Merritt@dhcs.ca.gov on or before Monday, April 15, 2010.

DHCS has previously issued APLs 07-003, 08-008, and 08-010 describing the State and federal laws related to this request (collectively referred to as "the Rogers Amendment). APL 09-011 requested data used in a similar report submitted to the State Legislature on October 1, 2009. (APLs are available at http://www.dhcs.ca.gov/formsandpubs/Pages/MMCDPlanPolicyLtrs.aspx)

The Rogers Amendment requires DHCS to report on changes, if any, in the availability of emergency inpatient and post-stabilization services provided through non-contracted hospitals to the State Legislature. The Rogers Amendment also requires DHCS to evaluate the payments made by each Plan to hospitals that are outside of the Plan's provider network (non-contracted hospitals) for the provision of emergency inpatient and post-stabilization services to Plan members. "Post-stabilization" means bed days claimed after the Plan member's physical condition has been determined by a physician to be stable enough for the member to be transported to a hospital within the Plan's provider network (contracted hospital).

DHCS requests that Plans complete and return the enclosed data request form, which solicits information regarding the names of contracted and non-contracted hospitals and the number of bed days claimed by each hospital for emergency inpatient and post-stabilization services provided for calendar years 2007, 2008, and 2009. DHCS is requesting data for calendar years 2007 and 2008 again to ensure that the report is based on all available data.
