ALL PLAN LETTER 13-009
(REVISED)

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS

SUBJECT: AFFORDABLE CARE ACT (ACA) SECTION 1202 FINAL RULE ON
INCREASED PAYMENTS FOR MEDI-CAL PRIMARY CARE SERVICES

The purpose of this All Plan Letter (APL) is to provide guidance to Medi-Cal managed care health plans (MCPs) regarding primary care rate-setting practices in 2013 and 2014. Section 1902(a)(13)(C) of the Social Security Act (SSA), as amended by the Affordable Care Act (ACA), provides an increase to Medicare rates for 2013 and 2014 for specified primary care services provided by eligible physicians. Contract amendments related to this policy *have been submitted to the Centers for Medicare and Medicaid Services (CMS) for review and approval.*

To be eligible, physicians must attest to practicing in the area of general internal medicine, family medicine, pediatric medicine, or a subspecialty under one of those specialty designations (FQHCs/RHCs are excluded). Second, physicians must attest to either Board certification in a covered specialty or subspecialty or that 60% of the services billed during the most recently completed calendar year fall within the range of services specified as primary care for purposes of this increase. Newly eligible physicians must provide self-attestation based on the Medicaid codes billed during the prior month.

The Department of Health Care Services (DHCS) will be increasing managed care capitation payments to include the primary care service increases. Increased capitation payments are anticipated to begin in *January 2014*. The increased payments will be retroactive for dates of service on or after January 1, 2013. Managed care plans (MCPs) are required to begin making the enhanced payments to eligible physicians upon receipt of the associated capitation payments and receipt of a reliable listing of eligible providers from DHCS (discussed further below). Medi-Cal managed care plan contracts will be revised to reflect the new federal requirements. It should also be noted that this is a temporary rate increase that is only authorized for 2013 and 2014 CYs.

IMPLEMENTATION AND RECONCILIATION

CMS has approved the methodology submitted by DHCS and therefore CY 2013 and CY 2014 increases in payment for primary care services will be set using Model 2 from the CMS Technical Guidance and Rate Setting Practices document issued on January 8, 2013. Under this model, prospective capitation rates are paid to plans to reflect increased Primary Care Physician (PCP) payment levels and an annual retrospective reconciliation is performed to reconcile the difference between the actual utilization experienced and the utilization assumed in the increase in the prospective capitation rates.

Detail for the rate development process will be transmitted to plans separately with the rate increases. Retrospective reconciliation of the amounts included in the capitation to actual costs will be based on a template and additional guidance to be developed by DHCS and transmitted to plan at a later date. The first reconciliation will take place in July 2014 for calendar year 2013. Plans are required to submit the completed template for the first reconciliation by June 30, 2014. The due date for the second reconciliation will be June 30, 2015, for calendar year 2014 data.

Please submit the reconciliation data to:

Emily Zhong, Actuary
Actuary Unit
Capitated Rates Development Division
Department of Health Care Services
P.O. Box 997413, MS 4414
Sacramento, CA 95899-7413

Any amounts owed to or from the plans for the increase as a result of the reconciliation process will be verified based on reported encounters and adjusted via the plan's monthly capitation. Plans are encouraged to ensure that encounter reporting is complete and accurate. MCPs are required to maintain sufficient documentation to demonstrate compliance with the primary care rate-setting requirement and to verify encounter reports submitted for the reconciliation. By *February 1, 2014*, please submit compliance plans to Calvin Oshiro, Chief of the Financial Audit and Reviews Section of the Capitated Rates Development Division (CRDD) at Calvin.Oshiro@dhcs.ca.gov.

Please note that the crosswalk of procedure codes submitted to CMS as part of the State Plan Amendment (SPA) is currently available on DHCS' website at <http://www.dhcs.ca.gov/formsandpubs/laws/Pages/CaliforniStatePlan.aspx>. The SPA

also provides details on other aspects of this procedure, such as the use of the office setting rate for all codes (or the facility rate if no office rate exists) and that Medicare geographic locality adjustments will apply. Only those codes listed in the approved SPA will be eligible for the increase and considered in the capitation rate setting and reconciliation process, even if the MCPs use different or additional codes.

In 2013, MCPs are required to pay rates no lower than the locality office setting rates reflected in the attached spreadsheet. This APL does not affect any rates that may be above the rates in the attachment. The attached spreadsheet includes the Medicare office setting/locality rates (Tab 2). Each MCP is required to pay the correct rate. – Tab 4 indicates which locality is used for each county.

PROVIDER ATTESTATION AND ELIGIBILITY

Under the Section 1202 of the ACA, physicians must self-attest that they are eligible to receive the payment increase. The Department has developed an online registration for physicians to attest their eligibility. When attesting, providers should indicate which plans, if any, they contract with so the plan can download a listing specific to your plan. Also, providers can visit the website and attest at any time, so plans may want to consider monthly updates. *The self-attestation form is available through December 31, 2014.* MCPs are able to download the entire provider attestation database. The website is available at <http://www.medi-cal.ca.gov/>. Plans may utilize a proprietary registry or may utilize the Department's registry. If plans choose to use their own registry system, proposed arrangements must be submitted to DHCS for review and approval prior to utilization.

Non-physician medical practitioners who practice under the direct supervision of an eligible physician are also eligible for the increase. Furthermore, attesting physicians who work in a clinic (other than an FQHC or RHC) are eligible for the increase. The increased payment would be provided to the clinic and the clinic is obligated to provide the additional funds to the eligible rendering provider. Clinics themselves cannot attest on the basis of being a primary care clinic.

DHCS will only be able to reconcile for eligible services provided by physicians who have met the attestation requirements. DHCS encourages plans to work with network providers to ensure that potentially eligible providers complete the attestation process.

ALL PLAN LETTER 13-009 (REVISED)
