R. ALTERNATIVE PAYMENT METHODOLOGY (APM) for payments to Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC) for Trauma Screenings
   a. The APM for Trauma Screenings will consist of the Prospective Payment System (PPS) rate or applicable APM for the visit with the associated eligible screening service and a separate supplemental incentive payment for trauma screenings. The FQHCs and RHCs must agree to receive the APM, and the APM will not be less than the PPS rate. The supplemental incentive payments will be available at the fee-for-service rate and will not impact the reconciliation of their PPS rate. FQHCs and RHCs will not put their PPS payment at risk by failing to qualify for the supplemental incentive payment.

Providers of trauma screenings are only eligible to receive the supplemental incentive payment one time per beneficiary.

   Trauma Screening APM = [Applicable Office Visit PPS or Office Visit APM for the visit associated with the eligible screening service] + [Trauma Screening Supplemental Incentive Payment]

   b. Eligible Services:
      i. Trauma Screenings per Supplement 32 to Attachment 4.19-B, Page 1.

   c. APM Pilot Term:
      i. Dates of service effective January 1, 2020, through December 31, 2021.

   d. Billing Requirements: In order to bill the trauma screening supplemental incentive payment portion of the APM, the following codes must be used and the provider will be reimbursed the corresponding supplemental incentive payment amount for that code:
