Local agencies or organizations who were given funds to implement this activity/program:
Santa Rosa Police

Allowable Expenditure Type: First Responder

Strategies Met:

- Education of law enforcement or other first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs
- Provision of wellness and support services for first responders and others who experience secondary trauma associated with opioid-related emergency event

High Abatement Activity:

HIAA Satisfied	Activity Description
This activity is not a High Impact Abatement Activity and	

do not meet the criteria as defined above.	
--	--

HIAA Satisfied	Population Served
This activity is not a High Impact Abatement Activity and do not meet the criteria as defined above.	

Additional Comments: My understanding is that we have two years from date of receipt to spend the funds and had been saving them up for these future activities. Our plan is to use these funds for HIAA activities as follows: • Within the next year training for all our sworn staff (184) using the POST certified course of strategic communications which focuses on recognizing and communicating with people with substance use disorders and providing mental health and community resources to these individuals. • Fund 5 hours/week for our Lieutenant that oversees our newly developed Mental Health Support Team (inRESPONSE) which provides comprehensive wrap-around support to people experiencing a crisis including SUD. They are a non-sworn team that includes social workers and paramedics and who provide resources and referrals to keep people from requiring contact by police. • We also plan to provide an in-depth training in early 2025 from our inRESPONSE team to all staff during the AOT blocks. With these goals we will utilize at least 50% of the funding provided.
