## Background and Overview

---

In accordance with Assembly Bill (AB) 205, codified in Welfare and Institutions Code (WIC) section 14197, the Department of Health Care Services (DHCS) is required to post approved Alternative Access Standards (AAS). WIC Section 14197 authorizes DHCS to allow alternative access standards for time and distance standards upon request by an MCP. DHCS may allow alternative access standards for the time and distance standards established in WIC 14197 if the requesting MCP has exhausted all other reasonable options to obtain providers to meet the applicable standard. DHCS will review the MCP's request and determine if the MCP has demonstrated that it meets these requirements.

This report publishes the DHCS approved AAS requests by all MCPs that were determined during the 2018 Annual Network Certification of MCPs and specialty MCPs<sup>1</sup> determined for the January 2019 calendar year.

DHCS will post all approved alternative access standards on its website for each annual network certification and will update the posting at least semiannually to include AAS requests that result from the annual network certifications of MCPs and specialty MCPs; network certifications resulting from an MCP initiating a new contract with DHCS and/or having a significant network change in either the region they provide services within or the capacity of providers.

Subsequent publications of AAS may have changes to AAS requests made by MCPs in previous years' certifications as MCPs may adjust a previously approved AAS at any time or revoke an AAS if the request is no longer necessary. Consequently, the July 2018 AAS report compared to the January 2019 AAS report will have differences in the reporting of MCP AAS requested among zip codes for reasons such as the following:

- MCPs from the time of the certification can enter into contracts with providers that are within time and distance requirements, thereby meeting the standards;
- MCPs that were under a CAP pursued providers within time and distance standards or were in closer proximity; therefore, they adjusted their AAS requests; and
- Providers can move or increase their capacity to serve beneficiaries within time and distance requirements within the network, thereby meeting the standards.

## Applicability of Alternative Access Standards

---

<sup>1</sup> Specialty MCPs are MCPs that serve specialized populations and offer a specific array of services. Specialty MCPs certified in July 2018 and January 2019 were as follows:

- Kaiser Permanente
- AIDS Healthcare Foundation
- Rady Children Hospital- San Diego
- Family Mosaic Project
- SCAN Health Plan

WIC section 14197 allows MCPs to submit Alternative Access Standard (AAS) requests for time and distance standards for the following provider types:

- Primary Care Providers (PCP) – adult and pediatric
- OB/GYN PCPs (only for assigned members)
- OB/GYN specialists
- Core specialists<sup>2</sup> – adult and pediatric
- Outpatient mental health providers<sup>3</sup> – adult and pediatric
- Hospitals
- Pharmacies

DHCS reviews AAS requests based on the zip code and provider type.

### DHCS Review Process

---

DHCS requested that MCPs submit geographic access maps or accessibility analyses that demonstrated compliance with applicable time or distance standards or demonstrated that they had requested DHCS approval of an AAS for the entire service area.

DHCS reviewed the geographic access maps and/or accessibility analysis for time and distance standards based on county population density for the following provider types: pediatric and adult PCPs, pediatric and adult core specialists, OB/GYN PCP and specialist, hospitals, mental health providers, and pharmacies. Additionally, DHCS assessed and ensured there was entire service area coverage for time and distance standards. DHCS verified that the MCP submitted an AAS request if they were unable to meet time and distance standards based on the geographic access analysis.

AAS requests were organized by zip code and county and included:

- Driving time and/or the distance, in miles, between the nearest in-network provider(s) and the most remote members;
- Proposed AAS standard in minutes and miles from the most remote members; and
- Detailed the MCP's contracting efforts including documentation of all the providers with whom the MCP attempted to contract and an explanation of why the contract was not executed.

DHCS assessed the requests for AAS and either approved or denied each request on a zip code and provider type basis using the following review criteria:

---

<sup>2</sup> See [Table 3](#)

<sup>3</sup> Psychologists, Licensed Marriage and Family Therapists, and Licensed Clinical Social Workers

- Driving times to the nearest in-network provider request exceeds the time standard or distance to the nearest in-network provider exceeds the distance standard;
- Name and address of closest in-network provider;
- Narrative explaining why the plan was unable to execute contract with located provider, to include if there was a rate dispute between the provider and MCP; and
- Determined whether the proposed alternative standard is a reasonable request based on:
  - Health Care Options website;
  - Medicare.gov;
  - Office of Statewide Health Planning and Development;
  - California Health and Human Services Open Data/Fee-for-Service;
  - Any additional web based sites; and
  - Considered the geographic region, size, and total members affected when assessing the request. If the standard is within 5 miles of the nearest provider, DHCS does not require additional substantiation.

DHCS-approved AAS requests are valid for one contract year and must be resubmitted to DHCS for approval annually.

#### Alternative to the Time and Distance Standards

---

MCPs may request DHCS to consider the alternative to the time and distance standards.<sup>4</sup> This process allows for the MCP to provide justification that their delivery structure is capable of delivering the appropriate level of care so that they are not required to meet the network adequacy time and distance standards.

DHCS reviewed each MCP’s alternative access request and determined that the requesting MCP has adequately described its delivery structure to exhibit a clinically integrated health care model/network, consisting of either a:

- **Medical Home:** A team-based health care delivery model led by a health care team in a centralized facility to provide comprehensive and continuous medical care to patients with a goal to obtain maximal health outcomes.

OR

- **Specialty Services for Specialty Population:** A limited but comprehensive provider network that renders services specific to the diagnoses of the members and ensures there is care coordination and support services across the continuum of care regardless of location.

Upon reviewing the request, DHCS has approved the request for the following MCPs:

---

<sup>4</sup> WIC 14197(e)(1)(B)

- Kaiser Permanente (KP Cal LLC)
- AIDS Healthcare Foundation
- Rady Children’s Hospital – San Diego
- Family Mosaic Project
- SCAN Health Plan

This alternative to the time and distance standards does not preclude MCPs from meeting the other Annual Network Certification requirements. Additionally, DHCS reserves the right to revoke this alternative standard should concerns regarding quality of care are discovered through avenues such as grievances and appeals reporting and/or timely access survey results.

### Alternative Access Standards Results

---

AAS requests approved by DHCS are published in the following charts that display the results of all AAS granted by county by zip code in alphabetical order by specialty type.

#### *Trends and Explanations*

When reviewing AAS charts it is important to note that time and distance standards can be met by either minutes or miles. Some MCPs elected to request AAS standards for either minutes only or miles only or both minutes and miles. Most MCPs requesting AAS standards submitted for distance rather than time. However, where an MCP did request time and/or distance the request is published.

Additionally, MCPs are not required to meet time and distance standards for certain zip codes due to those zip codes being carved out to fee for service or another MCP. Please refer to [Table 4](#) for a list of the Carved-Out Zip Codes. Therefore, carved-out-zip codes will not have AAS requests.

There are differences in approvals for AAS among providers working within the same zip code. These differences are attributed to providers contracting with one MCP but not the other within the same service area.

Furthermore, due to the county population density and geographical attributes within the State, a large number of AAS requests are due to geographically remote regions. Additionally, the trends show that there is a lack of specialists, specifically pediatric specialists, in both rural and urban counties within time and distance standards.

#### *Current AAS Approval Status*

In addition to the annual network certification and significant change network certifications conducted by DHCS that result in AAS, DHCS continues to review any AAS requests received throughout the year and/or during any network adequacy corrective action plan (CAP) imposed on an MCP. As the CAPs are closed out, DHCS will update the approved MCP-specific AAS requests and update those AAS published. Information on MCPs under an Annual Network Certification CAP can be found at: [add

link: *2018 Annual Network Certification: Corrective Action Plans and MCP Reponses Report*].

If you have any questions regarding this report please contact [MCQMDNAU@dhcs.ca.gov](mailto:MCQMDNAU@dhcs.ca.gov)

## Network Adequacy Standards

Table 1. Network Adequacy Standards

Provider Type	Timely Access Standard	Time and Distance Standard by Rural County Size <sup>5</sup>	Time and Distance Standard by Small County Size <sup>5</sup>	Time and Distance Standard by Medium County Size <sup>5</sup>	Time and Distance Standard by Dense County Size <sup>5</sup>
Primary Care (Adult and Pediatric)	Within 10 business days to appt. from request	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence
Specialty Care <sup>6</sup> (Adult and Pediatric)	Within 15 business days to appt. from request <sup>7</sup>	60 miles or 90 minutes from the member's residence*	45 miles or 75 minutes from the member's residence*	30 miles or 60 minutes from the member's residence*	15 miles or 30 minutes from the member's residence*
Obstetrics/Gynecology (OB/GYN) Primary Care	Within 10 business days to appt. from request	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence
Obstetrics/Gynecology (OB/GYN) Specialty Care	Within 15 business days to appt. from request	60 miles or 90 minutes from the member's residence*	45 miles or 75 minutes from the member's residence*	30 miles or 60 minutes from the member's residence*	15 miles or 30 minutes from the member's residence*
Hospitals	Not Applicable	15 miles or 30 minutes from the member's residence	15 miles or 30 minutes from the member's residence	15 miles or 30 minutes from the member's residence	15 miles or 30 minutes from the member's residence
Pharmacy	Dispensing of at least a 72-hour supply of covered outpatient drug in an emergency situation	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence*	10 miles or 30 minutes from the member's residence	10 miles or 30 minutes from the member's residence

<sup>5</sup> See [Table 2](#)

<sup>6</sup> Time and Distance Standards apply to core specialists outline in [Table 3](#)

<sup>7</sup> Timely Access standards apply to all specialists not only core specialists

Provider Type	Timely Access Standard	Time and Distance Standard by Rural County Size <sup>5</sup>	Time and Distance Standard by Small County Size <sup>5</sup>	Time and Distance Standard by Medium County Size <sup>5</sup>	Time and Distance Standard by Dense County Size <sup>5</sup>
Mental Health (non-psychiatry) Outpatient Services <sup>8</sup> (Adult and Pediatric)	Within 10 business days to apt. from request	60 miles or 90 minutes from the member's residence*	45 miles or 75 minutes from the member's residence*	30 miles or 60 minutes from the member's residence*	15 miles or 30 minutes from the member's residence*
Ancillary Services	Within 15 business days to apt. from request.	Not Applicable	Not Applicable	Not Applicable	Not Applicable
Long Term Services and Supports (LTSS)	If applicable	Time and distance standards did not need to be established for Multipurpose Senior Services Program (MSSP), Skilled Nursing Facilities (SNF), or Intermediate Care Facilities (ICF) providers as these providers either travel to the member to provide services or the member resides at the facility for care.			

Table 2. County Size Categories by Population

Size Category	Population Density	# of Counties	Counties
Rural	<50 people per square mile	21	Alpine, Calaveras, Colusa, Del Norte, Glenn, Humboldt, Imperial, Inyo, Lassen, Mariposa, Mendocino, Modoc, Mono, Plumas, San Benito, Shasta, Sierra, Siskiyou, Tehama, Tuolumne, Trinity
Small	51 to 200 people per square mile	19	Amador, Butte, El Dorado, Fresno, Kern, Kings, Lake, Madera, Merced, Monterey, Napa, Nevada, San Bernardino, San Luis Obispo, Santa Barbara, Sutter, Tulare, Yolo, Yuba
Medium	201 to 600 people per square mile	9	Marin, Placer, Riverside, San Joaquin, Santa Cruz, Solano, Sonoma, Stanislaus, Ventura
Dense	≥600 people per square mile	9	Alameda, Contra Costa, Los Angeles, Orange, Sacramento, San Diego, San Francisco, San Mateo, Santa Clara

<sup>8</sup> Non-specialty mental health services for members with mild to moderate impairments

Table 3. DHCS Adult and Pediatric Core Specialists

<b>DHCS Adult and Pediatric Core Specialists</b>
Cardiology/Interventional Cardiology
Dermatology
Endocrinology
ENT/Otolaryngology
Gastroenterology
General Surgery
Hematology
HIV/AIDS Specialists/Infectious Diseases
Nephrology
Neurology
Oncology
Ophthalmology
Orthopedic Surgery
Physical Medicine and Rehabilitation
Psychiatry
Pulmonology
