## Chat Log

**15:44:38 From  Lori J Houston  to  Everyone:**

Will webinar participants receive these slides?

**15:46:55 From  Yoshi Laing, QPHM, DHCS  to  Everyone:**

Yes!

**15:46:56 From  Camille Cooley  to  Everyone:**

Hi Lori, thanks for your question. The meeting materials, transcript and recording will be made available at the link that follows: https://www.dhcs.ca.gov/CalAIM/Pages/PopulationHealthManagement.aspx

**16:07:07 From  Jane Cheng  to  Hosts and panelists:**

Here is the data platform, if anyone is interested in exploring IEHP's work: vibrantinlandempire.org

**16:11:14 From  Jane Cheng  to  Everyone:**

Here is the data platform, if anyone is interested in exploring IEHP's work: vibrantinlandempire.org

**16:14:42 From  Alisha Somji  to  Everyone:**

Just thought I'd share the data platform that Kaiser Permanente developed for CHNAs in our service areas. It pulls data from a number of sources. We've shared this link with our local partners, including SFHIP! https://public.tableau.com/app/profile/kp.chna.data.platform

**16:19:20 From  Esperanza Macias  to  Everyone:**

Thank you Alisha. Yes, Kaiser Permanante is not only a partner of SFHIP, but shared data from its efforts that contributed to San Francisco's CHNA.

**16:21:05 From  Tracey Rattray  to  Everyone:**

I can't copy these resources from chat.  I think host has to adjust settings to allow this.  Thanks!

**16:24:39 From  Elizabeth Hernandez  to  Everyone:**

Can DHCS consider the acceptable formats for this new vision of a PNA? Typically, submission requirements have made for a PDF / static version of reports, which are less accessible to the community.  Can there be a consideration to accept a more interactive, web  version of a PNA, that is easier for users to access and read, allow for interactive data display, and link to other related/relevant web content?  Re-imaging the presentation format is a much needed consideration to make the PNA less of a document and more of a community resource.  Thank you for considering.

**16:27:26 From  Gary Tsai  to  Everyone:**

Apologies but will need to jump. Thx

**16:36:11 From  Yoshi Laing, QPHM, DHCS  to  Everyone:**

Elizabeth - thank you, love this idea

**16:40:54 From  Katie Balderas  to  Everyone:**

As a former public health leader who has been involved in CHA process on the LHD side, I like this approach a lot! I would also suggest considering how the Mental Health Services Act (MHSA) fits into this plan as well.

**16:42:41 From  Susan Mahonga  to  Hosts and panelists:**

What is DHCS expectation of timing/schedule of integrating analysis/findings from the collaborative LHD Community Needs Assessment into MCP PHM strategy? How often will DHCS expect MCPs to incorporate this in the MCP PHM strategy (and submit MCP PHM strategy to DHCS). Initially it was to align with the every 3-year PNA.

**16:42:43 From  Jeanette Lucht  to  Everyone:**

Benefits- The proposal aligns with NCQA and moves to deduplicate the overarching documentation.

**16:47:47 From  Yvette Willock  to  Everyone:**

Hello Phebe!  Well said about the "alignment of efforts" work before us that will support improvement in the health of all members of our communities.

**16:47:52 From  Jeanette Lucht  to  Everyone:**

I'd like to see DHCS incentivize CBOs to meet identified needs at the community level through grants for initial and sustainable funding.

**16:49:56 From  Carlos Hernandez  to  Everyone:**

Thank you to the DHCS team for addressing the redundancy in NCQA and DHCS requirements, and for taking this bold action to increase efficiency in managed care operations.

**16:51:51 From  Jane Cheng  to  Everyone:**

Wanted to join in on the group feedback to say I appreciate DHCS really hearing feedback from the MCPs around the duplicative efforts. This will really enable us to reduce our administrative burden, and focus more time on the implementation plan.

**16:54:49 From  Phuong Luu  to  Everyone:**

Most LHJs utilize the NACCHO MAPP methodology for CHA/CHIP process. CDPH is also working on TA for LHJs for CHA/CHIP.

**16:55:10 From  Phuong Luu  to  Everyone:**

Mobilizing for Action through Planning and Partnerships (MAPP): https://www.naccho.org/programs/public-health-infrastructure/performance-improvement/community-health-assessment/mapp

**16:56:04 From  Tracey Rattray  to  Everyone:**

What distinguishes a CHA (I think conducted by counties) from a CNA (I think conducted by hospitals) ?  Do LHDs and hospitals  collaborate on assessments? Will this new proposed guidance require LHDs, Hospitals and MCPs to be at the table? (along with voluntary participation from CBOs, schools and others)

**16:56:56 From  Phuong Luu  to  Everyone:**

A Community Health Assessment (CHA) is usually focused on an entire county's population. Whereas a CHNA focuses on a hospital's service area. There is usually overlap, but at times, a hospital's service area does NOT cover all of a county.

**16:57:37 From  Tracey Rattray  to  Everyone:**

Thank you!

**16:59:28 From  Tangerine Brigham  to  Hosts and panelists:**

thanks for great discussion

16:59:30 From  Dennis Chung-Yin Wang  to  Everyone:

Thank you.
