County Behavioral Health Directors Association of California  
County Drug & Alcohol Administrators

SUBJECT: Specialty Mental Health Services (SMHS), Drug Medi-Cal (DMC) and Drug Medi-Cal Organized Delivery System Postpartum Claiming

PURPOSE: To provide guidance to counties in regard to postpartum claiming in Short Doyle Medi-Cal (SDMC) for aid codes restricted to pregnancy.

REFERENCE: [Medi-Cal Eligibility Division Information Letter No: 21-13](#)

**BACKGROUND:**

On August 31, 2021, Medi-Cal Eligibility Division released Information Letter 21-13 to provide implementation instructions to counties for Medi-Cal policy on the Postpartum Care Extension under the provisions of the American Rescue Plan Act. Effective April 1, 2022, the Medi-Cal postpartum coverage period will be extended from 60 days to 12 months.

Medi-Cal individuals who are pregnant or in their postpartum period will remain in their full-scope aid code for the duration of pregnancy and 365-day postpartum period. If an individual does not have full-scope or is losing their coverage in a full-scope aid code, individuals may be transitioned to aid code 76 or have aid code 76 run concurrently with other aid codes as a means to protect the pregnancy and postpartum eligibility.

Behavioral Health Information Notice No.: 23-032

July 12, 2023

**POLICY:**

For claiming SMHS, DMC or DMC-ODS services during the postpartum period, if a beneficiary is assigned to aid code 76 the pregnancy indicator will not be required for reimbursement. Any other aid code found on the [SDMC Master Aid Code Chart](#) that indicates “restricted to pregnancy related, postpartum and emergency services” will require the pregnancy indicator to be present on the claim for reimbursement during the postpartum period.

Sincerely,
