

Dual Eligible Special Needs Plan Enhanced Care Management-like Populations of Focus

Published August 2024

Beginning on January 1, 2024, all Dual Eligible Special Needs Plans (D-SNPs)¹ must provide sufficient care management (“ECM-like care management”) to D-SNP members to ensure that members who would otherwise qualify for Medi-Cal Enhanced Care Management (ECM) are not adversely impacted by receiving care management exclusively through their D-SNP. D-SNPs in California must include at least four or more Populations of Focus (POF) from the Medi-Cal ECM program. Tables 1 and 2 provide an overview of the ECM POF that each D-SNP provides ECM-like care management for in 2024 based on a plan survey conducted in June 2024. More information on requirements for D-SNPs around care coordination is available in the [2024 CalAIM D-SNP Policy Guide](#). For general information on D-SNPs, please visit the DHCS [Medicare Advantage Options for Dual Eligible Beneficiaries](#) webpage.
