Re: California State Plan Amendment (SPA) 24-0051

Dear Director Sadwith:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) 24-0051. This amendment proposes to align the Alternative Benefit Plan with the Medicaid state plan by adding Supported Employment as a covered service. This SPA also extends the availability of Supported Employment services to all full Medicaid eligibility groups who meet access criteria through the Specialty Mental Health Services (SMHS) program, Drug Medi-Cal (DMC) program, and/or the Drug Medi-Cal Organized Delivery System (DMC-ODS).

We conducted our review of your submittal according to statutory requirements in Section 1937 of Title XIX of the Social Security Act and implementing regulations at 42 Code of Federal Regulations 440.300 *et seq* and 42 CFR Part 447. This letter is to inform you that California Medicaid SPA 24-0051 was approved on December 18, 2024 with an effective date January 1, 2025.

Enclosed are copies of Form CMS-179 and approved SPA pages to be incorporated into the California State Plan.

If you have any questions, please contact Cheryl Young at 415-744-3598 or via email at Cheryl.Young@cms.hhs.gov.

Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A)(i)(VIII) of the Act

ABP2a

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

In accordance with CMS instruction and technical assistance, California has fully aligned its benefits in the ABP to reflect the State Plan, using the Blue Cross/Blue Shield FEHBP to define the EHBs. To the extent services are considered Long Term Services and Supports (LTSS), these services are only available under the ABP to individuals who meet the medically frail criteria. The criterion governing the availability of these State Plan services aligns with or is at least as stringent as the medically frail criteria. As such, those ABP recipients who qualify for State Plan LTSS services based on medical necessity will be considered medically frail and will not be subject to a separate determination beyond the applicable, service-specific needs assessment. The ABP also includes an additional service, Supported Employment, not included in the State Plan.

IPS Supported Employment services must all complete training in the evidence-based model of IPS Supported Employment.

Person-Centered Planning Process:

The need for IPS Supported Employment services is determined by or under the direction of a mental health professional or licensed practitioner of the healing arts defined in Supplement 3 to Attachment 3.1-A through a person-centered planning process and is documented in the individual's clinical record. In addition, all individuals receiving IPS Supported Employment participate in a person-centered employment planning process. IPS Supported Employment is fully voluntary.

In the person-centered planning process, the IPS Supported Employment team works with the individual to:

- Identify the individual's strengths, preferences and goals;
- Determine the desired outcome of IPS Supported Employment services;
- Identify other members of the individual's mental health treatment team and significant support network; and
- Review other preferences and cultural considerations to inform the delivery of IPS Supported Employment.

The information gathered through the person-centered employment planning process is captured in a career profile. Both the IPS Supported Employment team and the individual must sign off on the career profile. The person-centered employment planning process is complemented by updates made to the individual's clinical record on an ongoing basis by a behavioral health practitioner in consultation with the individual.

The state assures that the planning process:

- Is timely and occurs at times and locations convenient to the individual
- Reflects the individual's cultural considerations and is conducted by providing information in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited in English proficient.
- Includes strategies for solving conflict or disagreement within the process
- Includes a method for the individual to request updates to the plan, as needed.

Additionally, the state assures that the plan:

- Reflects the individual's strengths and preferences
- Reflects clinical and support needs as identified through an assessment of functional need
- Includes individually identified goals and desired outcomes
- Reflects the supports (paid and unpaid) that will assist the individual to achieve identified goals, and the providers of supported employment, including natural supports
- Reflects risk factors and measures in place to minimize them, including individualized backup plans and strategies when needed
- Be understandable to the individual and the individuals supporting them
- Identifies the individual and/or entity responsible for monitoring the plan
- Be finalized and agreed to, with the informed consent of the individual in writing, and signed by all the individuals responsible for its implementation
- Be distributed to the individual and other people involved in the plan
- Prevents the provision of unnecessary or inappropriate supports

Supported Employment Settings:

IPS Supported Employment is provided in a community-based setting, including an outpatient behavioral health setting or a community location. At the individual's request, an IPS Supported Employment provider may provide services in the individual's home or deliver services via telehealth. IPS Supported Employment services may not be delivered in provider-operated or controlled residential settings. Employment gained as a result of IPS Supported Employment services will be in a competitive employment setting.

Alternative Benefit Plan

The State will contract with a third-party Center of Excellence to conduct annual fidelity reviews and provide training and technical assistance to IPS Supported Employment providers. As part of the fidelity review process, the Center of Excellence will ensure that settings where services are provided meet HCBS setting requirements.

Supported Employment will be provided in settings that meet all HCBS settings requirements:

- The setting is integrated in and supports full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS: IPS Supported Employment is provided in community-based settings, allowing individuals to remain integrated in the greater community. Receipt of IPS Supported Employment services leads to individuals being employed in competitive employment settings, which are also integrated within the greater community.
- The setting is selected by the individual from among setting options, including non-disability specific settings: Individuals work in collaboration with their IPS Supported Employment team to identify a competitive employment setting that helps them achieve their employment goals and objectives from a range of suitable employment settings.
- The setting ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint: Individuals are expected to work in competitive employment settings where their rights of privacy, dignity, respect, and freedom from coercion and restraint are upheld.
- The setting optimizes but does not regiment individual initiative, autonomy, and independence in making life choices, including, but not limited to, daily activities, physical environment, and with whom to interact: Individuals receiving IPS Supported Employment have autonomy in determining their place of competitive employment.
- The setting facilitates individual choice regarding services and supports and who provides them: Individuals have the ability to make their own choices regarding whether or not to receive IPS Supported Employment.
- Individuals have the freedom and support to control their own schedules and activities, and have access to food at any time.
- Individuals are able to have visitors of their choosing at any time.
- The setting is physically accessible to the individual.

HCBS Settings Requirements for the Person-Centered Plan:

The state assures that the following will be included in the Person-Centered Plan described above:

- The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.

For provider owned or controlled settings, any modification of the additional conditions under 42 CFR §441.710(a)(1)(vi)(A) through (D) must be supported by a specific assessed need and justified in the person-centered service plan and the following will be documented in the person-centered service plan:

- A specific and individualized assessed need for the modification.
- Positive interventions and supports used prior to any modifications to the person-centered service plan.
- Less intrusive methods of meeting the need that have been tried but did not work.
- A clear description of the condition that is directly proportionate to the specific assessed need.
- Regular collection and review of data to measure the ongoing effectiveness of the modification.
- Established time limits for periodic reviews to determine if the modification is still necessary or can be terminated.
- Informed consent of the individual.
- An assurance that interventions and supports will cause no harm to the individual.

Managed Care Assurance

- ☒ The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

When implementing the Alternative Benefit Plan (ABP), CA actively engaged in numerous activities to ensure successful expansion of Medicaid coverage to newly eligible adults. CA expected that approximately 600,000 eligible beneficiaries would be covered on January 1, 2014 with a projected take up between 30,000-45,000 a month over the course of the first year. CA has 35 health plan contract amendments and worked closely with the Region 9 team to ensure all 35 contracts were executed prior to January 1, 2014. To ensure network adequacy, CA assessed health plan capacity based on the provider ratios, such as PCPs (1:2000) and Physicians (1:1200) as well as measures of time and distance to Hospitals and PCPs (10 miles or 30 minutes). Additionally, CA took into account the Primary Care Physicians who are accepting new patients.

The majority of the newly eligible adults were enrolled in Medi-Cal managed care through the administrative eligibility transition of the current Low Income Health Program (LIHP) population. LIHP is a county-based, optional health care services program under the California "Bridge to Reform" §1115 Medicaid Demonstration. To meet expansion goals, DHCS in collaboration with stakeholders implemented a LIHP Transition Plan to ensure a seamless transition of LIHP enrollees to the Medi-Cal Program. CA monitors network capacity and access issues on a quarterly basis. Additionally, CA monitored access to care through an Ombudsman's office for Managed Care enrollees and a compliance call center through its Licensing department. CA will determine trends or daily activities to work with health plans to address issues or concerns of access to care. As a result of extensive preparation, CA implemented the ABP effective January 1, 2014.

With modification of the ABP to add Supported Employment effective January 1, 2025, DHCS is planning to conduct outreach to county behavioral health delivery systems to educate county partners on the ABP changes.

California's CalAIM Section 1915(b) waiver was approved by the Centers for Medicare & Medicaid Services (CMS) and is effective from January 1, 2022. FFS providers render services and then submit claims for payment that are adjudicated, processed and paid (or denied) by the Medi-Cal program's fiscal intermediary. Generally, Medi-Cal outpatient fee-for-services (FFS) rates reflect a percentage of the California Specific Medicare Rate. The CA-MMIS system reimburses at no more than the maximum allowable rate that is on file in the system. Further, all 58 counties participate in a Managed Care system, and fewer than 10 percent of Medi-Cal's 15 million members are in FFS.

Specified services are carved out of the Managed Care Plans and only reimbursed via FFS, such as county based Specialty Mental Health Services (1915 (b) waiver) and Substance Use Disorder Services, which are reimbursed at rates established in a behavioral health plan fee schedule to county behavioral health plans. Pharmaceuticals are paid on FFS basis in 58 counties and dental services are paid on FFS basis in 57 counties. 2 counties, Sacramento County and Los Angeles County, offer dental managed care plans. Sacramento County and Los Angeles County's dental managed care are delivered through a PAHP.
