Medi-Cal Managed Care Health Plan Name Abbreviations

HSAG uses the following abbreviated Medi-Cal managed care health plan (MCP) names in this volume.

- ◆ **AAH**—Alameda Alliance for Health
- ◆ **Aetna**—Aetna Better Health of California
- ◆ **Anthem Blue Cross**—Blue Cross of California Partnership Plan, Inc., DBA Anthem Blue Cross Partnership Plan
- ◆ **Blue Shield Promise**—Blue Shield of California Promise Health Plan
- ◆ **CalOptima**—CalOptima
- ◆ **CalViva**—CalViva Health
- ◆ **CAAH**—Central California Alliance for Health
- ◆ **CCHP**—Contra Costa Health Plan
- ◆ **CenCal**—CenCal Health
- ◆ **CHG**—Community Health Group Partnership Plan
- ◆ **CHW**—California Health & Wellness Plan
- ◆ **GCHP**—Gold Coast Health Plan
- ◆ **Health Net**—Health Net Community Solutions, Inc.
- ◆ **HPSJ**—Health Plan of San Joaquin
- ◆ **HPSM**—Health Plan of San Mateo
- ◆ **IEHP**—Inland Empire Health Plan
- ◆ **Kaiser NorCal**—Kaiser NorCal (KP Cal, LLC, in Amador, El Dorado, Placer, and Sacramento counties)
- ◆ **Kaiser SoCal**—Kaiser SoCal (KP Cal, LLC, in San Diego County)
- ◆ **KHS**—Kern Health Systems, DBA Kern Family Health Care
- ◆ **L.A. Care**—L.A. Care Health Plan
- ◆ **Molina**—Molina Healthcare of California
- ◆ **Partnership**—Partnership HealthPlan of California
- ◆ **SCFHP**—Santa Clara Family Health Plan
- ◆ **SFHP**—San Francisco Health Plan
- ◆ **UHC**—UnitedHealthcare Community Plan

Commonly Used Abbreviations and Acronyms

Following is a list of abbreviations and acronyms used throughout this volume.

- ◆ **ANC**—Annual Network Certification
- ◆ **APL**—All Plan Letter
- ◆ **CalAIM**—California Advancing & Innovating Medi-Cal
- ◆ **CAP**—corrective action plan
- ◆ **CMB**—California Medical Board
- ◆ **CMS**—Centers for Medicare & Medicaid Services
- ◆ **DHCS**—California Department of Health Care Services
- ◆ **ENT**—Ear, Nose, and Throat
- ◆ **EQR**—external quality review
- ◆ **EQRO**—external quality review organization
- ◆ **HIV/AIDS**—human immunodeficiency virus/acquired immunodeficiency syndrome
- ◆ **MCP**—managed care health plan
- ◆ **MMCE**—Mandatory Managed Care Enrollment
- ◆ **N/A**—not applicable
- ◆ **NPI**—National Provider Identifier
- ◆ **OB/GYN**—Obstetrics/Gynecology
- ◆ **PCP**—primary care provider
- ◆ **PSP**—population-specific health plan
- ◆ **SFY**—State Fiscal Year
- ◆ **WIC**—Welfare and Institutions Code

1. Introduction

Overview

The California Department of Health Care Services (DHCS) is responsible for the ongoing monitoring and oversight of its contracted managed care health plans (MCPs) and population-specific health plans (PSPs), including the assurance that MCPs' and PSPs' provider networks are adequate to deliver services to Medi-Cal members. If health care providers are unavailable or unwilling to serve Medi-Cal beneficiaries such that the MCP or PSP is unable to meet provider network standards, MCPs and PSPs may request that DHCS allow an alternative provider network access standard for specified provider scenarios (e.g., provider type, geographic area). The DHCS All Plan Letter (APL) 21-006¹ provides DHCS' clarifying guidance regarding network certification requirements, including requests for alternative access standards.

Due to their delivery structure, some MCPs may be eligible to petition DHCS to consider an alternative to the time or distance standard.² This alternative is used by Kaiser NorCal, Kaiser SoCal, and the PSPs (AIDS Healthcare Foundation, Rady Children's Hospital—San Diego,³ and SCAN Health Plan), as this process allows each MCP and PSP to justify its capability to deliver the appropriate level of care within its specialized delivery structure. If DHCS agrees that the MCP or PSP is delivering the appropriate level of care at that time, there would be no need for the MCP or PSP to submit additional data regarding the network for time or distance standards.

DHCS reviews each MCP's and PSP's alternative access standard request to determine that the requesting MCP or PSP has adequately described its delivery structure to exhibit a clinically integrated health care model/network consisting of, but not limited to either of the following:

- ◆ Medical Home: A team-based health care delivery model led by a health care team in a centralized facility to provide comprehensive and continuous medical care to patients with a goal to obtain maximal health outcomes.
- ◆ Specialty Services for Specialty Population: A limited but comprehensive network that renders services specific to the diagnoses of the beneficiaries and ensures that care coordination and support services are available across the continuum of care regardless of location.

¹ All Plan Letter 21-006. Available at: <https://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/APL2021/APL21-006.pdf>. Accessed on: Nov 15, 2022.

² CA WIC §14197(e)(1)(B).

³ Note: DHCS' contract with Rady Children's Hospital—San Diego ended December 31, 2021.

This alternative to the time or distance standard does not preclude MCPs and PSPs from meeting the other Annual Network Certification (ANC) components. DHCS reserves the right to revoke an approved alternative access standard request if concerns regarding quality of care are discovered through avenues including but not limited to grievances and appeals reporting and timely access survey results.

Additionally, California Welfare and Institutions Code (WIC) section (§)14197.05⁴ requires DHCS' annual external quality review (EQR) technical report to present information related to MCPs' alternative access standard requests. As such, DHCS requested its external quality review organization (EQRO), Health Services Advisory Group, Inc. (HSAG), to process and report on data related to alternative access standards for provider networks.

The measurement period for this study is April 28, 2021, through March 10, 2022, reflective of the July 2021 ANC and the Mandatory Managed Care Enrollment (MMCE) California Advancing & Innovating Medi-Cal (CalAIM) initiative.^{5,6}

Reporting Elements

The following reporting elements are defined by WIC §14197.05 for inclusion in the annual EQR technical report:

1. The number of requests for alternative access standards in the plan service area for time or distance, categorized by all provider types, including specialists, and by adult and pediatric.
2. The number of allowable exceptions for the appointment time standard, if known, categorized by all provider types, including specialists, and by adult and pediatric.
3. Distance and driving time between the nearest network provider and ZIP Code of the beneficiary furthest [*sic*] from that provider for requests for alternative access standards.
4. The approximate number of beneficiaries impacted by alternative access standards or allowable exceptions.

⁴ CA WIC §14197.05. Available at: https://leginfo.ca.gov/faces/codes_displaySection.xhtml?lawCode=WIC§ionNum=14197.05. Accessed on: Nov 15, 2022.

⁵ The *Medi-Cal Managed Care Health Plans Annual Network Certification Assurance of Compliance Report* (for the July 2021 contract year) was submitted to the Centers for Medicare & Medicaid Services (CMS) in November 2021 and is available at: <https://www.dhcs.ca.gov/formsandpubs/Documents/2021-Annual-Network-Certification-Report.pdf>. Accessed on: Aug 3, 2022.

⁶ California Health and Human Services Agency, Department of Health Care Services. California Advancing & Innovating Medi-Cal (CalAIM) Proposal. January 2021. Available at: <https://www.dhcs.ca.gov/provgovpart/Documents/CalAIM-Proposal-Updated-1-8-21.pdf>. Accessed on: Nov 15, 2022.

5. Percentage of providers in the plan service area by provider and specialty type that are under a contract with a Medi-Cal MCP.
6. The number of requests for alternative access standards approved or denied by ZIP Code and provider and specialty type, and the reasons for the approval or denial of the request for alternative access standards.
7. The process of ensuring out-of-network access.
8. Descriptions of contracting efforts and explanation for why a contract was not executed.
9. Time frame for approval or denial of a request for alternative access standards by DHCS.
10. Consumer complaints, if any.

2. Methodology

To compile information for each reporting element, HSAG used the following data supplied by DHCS:

- ◆ Export(s) from DHCS' Alternative Access Request and Decision Database.
 - Exports included all alternative access standard requests submitted to DHCS by the MCPs during the measurement period, and all administrative data from DHCS' approvals/denials corresponding to the alternative access standard requests.
- ◆ Grievance data that included MCP identification information, county name, reporting quarter associated with the grievance, and quarterly results for the corresponding categories of *Accessibility*.⁷
- ◆ MCP network 274 provider data from June 2021.

MCPs were required to submit alternative access standard requests to DHCS no later than May 3, 2021, for those standards to be effective on July 1, 2021. Approved alternative access standards are valid for the July 1, 2021, through June 30, 2022, contract year. The analysis is based on alternative access standard requests submitted to DHCS between April 28, 2021, and March 10, 2022.

Note that MCPs did not invoke the advanced access exception during the reporting period; therefore, no exceptions for the appointment time standard exist, and this reporting element is not included in the analysis.

Additionally, the calculation of the percentage of providers in a plan service area under contract with a Medi-Cal MCP requires the number of MCP providers as defined in the 274 Provider Demographic data to identify the numerator for the percentage. The denominator for the percentage requires a count of the number of providers practicing in a given service area. HSAG's review of the California Medical Board (CMB) licensing data determined that these data do not contain adequate information about providers' practice locations to be a reliable estimate of the total number of providers for a specific county. Further, the 274 Provider Demographic data and CMB licensing data could not be linked by a National Provider Identifier (NPI) or license number to ensure that providers identified in the 274 file were also identified in the CMB data. For these reasons, the available data are limited in their ability to identify the denominator as defined above. The alternative denominator used in Table 4.7 through Table

⁷ Prior to August 2021, the six categories of *Accessibility* reported in the grievance data were (1) excessive long wait time/appointment schedule time, (2) lack of primary care provider (PCP) availability, (3) lack of specialist availability, (4) lack of telephone availability, (5) lack of language availability, and (6) lack of facility physical access. In August 2021, DHCS implemented an updated data collection process for grievances, and the grievance type categories were also updated. In the new system, the accessibility-related grievance categories, which were used for the 2021–22 analysis, include (1) geographic access, (2) out-of-network, (3) rural member denied out-of-network request, and (4) timely access.

4.64 is the count of providers physically located in the plan service area that are under contract with any MCP. The total number of providers practicing in a service area will be larger than the number of Medi-Cal contracted providers, making the actual percentage of providers under contract with a Medi-Cal MCP smaller than what is reported. The percentages in Table 4.7 through Table 4.64 therefore represent the upper limit of the percentage of providers located within a service area who are contracted with each MCP serving that area as a percentage of all providers.

3. Results and Considerations

Number of Requests, Approvals, and Denials

The alternative access standard requests were tabulated and stratified by the following characteristics: MCP, county, ZIP Code, provider type (including specialty), and adult or pediatric focus.⁸ For each combination of the strata, HSAG tabulated the total number of requests submitted and then identified the final disposition of the request as approved or denied. Regardless of the number of requests submitted for a given MCP, county, ZIP Code, provider type, or adult or pediatric combination, there is only one final approval or denial for that combination of characteristics.

There were 7,375 requests submitted to DHCS, and 7,014 distinct combinations of request characteristics appeared in the data supplied by DHCS. Of these combinations, 5,523 (78.7 percent) were approved by DHCS.

The complete results of the analysis of the total number of requests submitted and the number approved or denied are located in Section 4 of this volume (“Alternative Access Standards Tables”).

Reasons for the Approval or Denial of Alternative Access Standard Requests

DHCS approves or denies alternative access standard requests for multiple reasons. In the data provided for the 2021–22 analyses, the most common reasons for DHCS to approve or deny an alternative access standard request included:

- ◆ Approval Reasons
 - The MCP is contracted with the closest provider (in-network or out-of-network), and DHCS did not identify a closer in-network or out of-network provider than the provider indicated on the request.
 - Although DHCS identified closer out-of-network providers than the in-network provider indicated on the request, the MCP has attempted to contract with those providers and clearly explained why they could not be added to the MCP’s network.

⁸ DHCS identified an adult/pediatric designation for mental health (non-psychiatry) outpatient services, core specialists, and PCPs. Hospitals and OB/GYNs were identified with an N/A for the adult/pediatric designation.

◆ Denial Reasons

- The MCP's alternative access standard request is incomplete. The MCP is to revise the request that follows APL 21-006⁹ Attachment C instructions and resubmit.
- DHCS located a closer out-of-network provider than the in-network provider and out-of-network provider that the MCP identified on the alternative access standard request. The MCP is to revise the request for miles/minutes or provide a justification and resubmit.
- DHCS located an in-network provider within the time or distance standards that the MCP did not identify on the alternative access standard request. The MCP is to submit an updated accessibility analysis that shows the MCP is already meeting the time or distance standard.
- The MCP's justification as to why the MCP was unable to contract with the closer out-of-network provider is insufficient. The MCP is to revise the justification and resubmit.

Distance and Driving Time Between Nearest Network Provider and Farthest Beneficiary

For each MCP and ZIP Code for which alternative access standard requests were submitted, HSAG calculated the median distance and drive time between the nearest network provider and the beneficiary ZIP Code farthest from that network provider, as well as the median number of beneficiaries impacted. Because each MCP and ZIP Code combination may have multiple requests across provider types, HSAG also calculated the range of distances, drive times, and beneficiaries impacted across requests. The medians for each data element were calculated using all requests submitted, and not using only the approved requests. DHCS did not approve all requests included in this analysis, nor did DHCS approve all requests with the distance and drive times initially submitted.

The shortest median distance was 13 miles for Molina and ZIP Code 95610, while the longest median distance was 260 miles for IEHP and ZIP Code 92363. The shortest median drive time was 20 minutes for two combinations of MCPs and ZIP Codes, while the longest median drive time was 262 minutes for IEHP and ZIP Code 92332. The smallest median number of impacted beneficiaries was zero individuals in 32 combinations of MCPs and ZIP Codes, while the largest median number of impacted beneficiaries was 25,444 individuals for IEHP and ZIP Code 92201. The complete results for the analysis of distances, drive times, and impacted beneficiaries are located in Section 4 of this volume ("Alternative Access Standards Tables").

⁹ All Plan Letter 21-006. Available at: <https://www.dhcs.ca.gov/formsandpubs/Documents/MMCDAPLsandPolicyLetters/APL2021/APL21-006.pdf>. Accessed on: Nov 15, 2022.

Time Frame for Approval or Denial of Requests

For each MCP, HSAG calculated the time between the initial alternative access standard request submitted by the MCP and the first decision for approval or denial made by DHCS. For each MCP, HSAG then determined the median number of days to approval or denial. Denials include alternative access standard requests for which the initial disposition was “denial,” “partial approval,” or “no longer needed.”

In accordance with WIC §14197(e)(3), DHCS must approve or deny an alternative access standard request within 90 days of submission. DHCS may stop the 90-day review time frame on one or more occasions as necessary if an incomplete MCP submission is received or if additional information is needed from the MCP. Upon submission of the additional information to DHCS, the 90-day time frame would resume at the same point in time it was previously stopped, unless fewer than 30 days remain. In these instances, DHCS must approve or deny the alternative access standard request within 30 days of submission of the additional information.

In ANC year 2021, the median number of days to approval or denial across all requests from all MCPs was 47 days for requests submitted during the initial request and decision phase between April 28, 2021, and August 12, 2021, and 47 days for requests submitted during the corrective action plan (CAP) request and decision phase between August 20, 2021, and March 10, 2022. In ANC year 2022, the median number of days to approval or denial across all requests from all MCPs was 35 days for requests submitted during the MMCE CalAIM request and decision phase between September 17, 2021, and November 24, 2021.

The complete results for the analysis of the time between an alternative access standard request and approval or denial are located in Section 4 of this volume (“Alternative Access Standards Tables”).

Consumer Complaints

HSAG reviewed DHCS’ quarterly grievance reports from State Fiscal Year (SFY) 2020–21 Quarter 3 through SFY 2021–22 Quarter 2 (January 2021 through December 2021) for beneficiaries’ complaints related to access to providers. The DHCS grievance data included a county-level identifier and were stratified according to MCP and county. The grievance data identified counts of beneficiaries, noting “Timely Access,” “Geographic Access,” and “Out of Network” issues. On average, there were 587.2 grievance calls for each MCP and county. The lowest number of grievances for any MCP and county wherein any grievances were received was 1, and the highest number of grievances was 24,934.

The complete results for the analysis of consumer complaints are located in Section 4 of this volume (“Alternative Access Standards Tables”).

Process of Ensuring Out-of-Network Access

DHCS sets the requirements for MCPs to provide out-of-network access. Specifically, MCPs must provide out-of-network access if their network is unable to provide medically necessary covered services within timely access standards. Additionally, MCPs must provide for the completion of covered services by a terminated or out-of-network provider at the request of a beneficiary in accordance with the continuity of care requirements in the California Health and Safety Code Section 1373.96. In addition to the aforementioned requirements, MCPs that are under a CAP for failing to meet time or distance standards must also ensure subcontractors and delegated entities adhere to the out-of-network access requirements, submit a policy or procedure to ensure there is a consistent process for out-of-network access compliance, and demonstrate their ability to effectively provide out-of-network access information to beneficiaries.

Contracting Efforts

MCPs engage in a variety of different contracting efforts to ensure network adequacy related to time or distance standards across geography, provider specialties, and adult and pediatric care. HSAG reviewed the alternative access standard request data for information provided by MCPs about contracting efforts and synthesized this information with data provided by DHCS on themes and trends in contracting efforts.

In the data provided for the 2021–22 analyses, the contracting efforts that MCPs reported to DHCS included the following:

- ◆ Planning future provider outreach.
- ◆ Verifying provider location and contact information and seeking additional information when incorrect/out-of-date information was encountered.
- ◆ Contacting the provider via telephone, mail, or email.
- ◆ The provider was affiliated with a closed network.
- ◆ The provider declined to contract with the MCP.
- ◆ The provider was located outside the MCP's licensed service area.
- ◆ The provider was currently in contracting negotiations with the MCP.¹⁰
- ◆ Provider information was incorrect/out-of-date, and contact was not possible.

The contracting efforts that MCPs reported in the alternative access standard requests in response to DHCS' analysis of their request included the following:

- ◆ The closest provider is already contracted with the plan.
- ◆ Out-of-network providers identified by DHCS are more distant than an in-network provider.

¹⁰ If applicable, the rationale must detail the targeted time frame for execution.

- ◆ The MCP plans to send the provider a contract.
- ◆ The MCP depends on contracted medical groups to contract with local providers.
- ◆ No non-contracted provider could be located.
- ◆ Members can access services from a non-contracted provider.
- ◆ The provider could not be found.
- ◆ The provider retired.
- ◆ The provider was deceased.
- ◆ The plan will reach out to an alternate provider for contracting.
- ◆ Providers cannot contract due to competing contracts.

Providers under Contract

MCPs contract with providers located within their plan service areas, and some MCPs contract outside their plan service areas when a particular specialty is needed in the network or a provider outside of the service area is able to meet the time or distance standard. To understand the scope of each MCP's network in a service area, HSAG calculated the percentage of Medi-Cal contracted providers located within a given county who are contracted with each MCP serving that county.¹¹ Note that because the available data do not provide reliable information on the practice locations of all providers (i.e., under Medi-Cal contract or not), the actual percentage of all providers contracted with each MCP in a service area will be smaller than the percentage reported in the results of this analysis. The following is a summary of the results of these calculations.

- ◆ Across all MCPs, the median percentage of contracted providers across counties and across provider types is 52.0 percent. This indicates that MCPs typically contract with at most just over half of the providers who are contracted with any MCP, across counties and provider types. That percentage is the upper limit of the number of providers contracted with each MCP located within a service area and serving that area as a percentage of all providers.
- ◆ The MCPs with the highest median percentage of contracted providers across counties and provider types are CenCal and Partnership (both at 100.0 percent). These MCPs typically contract with a higher proportion of providers located within the counties they serve than other MCPs.
- ◆ The MCP with the lowest median percentage of contracted providers across counties and provider types is Kaiser SoCal (9.3 percent). This MCP typically contracts with a lower proportion of providers located within the counties it serves than other MCPs.

¹¹ Within the 274 file received from DHCS, there were 198,748 individual provider records and 417,184 facility or group provider records for which provider type data were missing. Because this field was missing in the data, it is unclear if these providers were within the scope of the provider types for this analysis. No records were dropped from the analysis due to missing data on any other required fields in the 274 file.

- ◆ The provider type with the highest median percentage of contracted providers across counties and MCPs is Pediatric Nephrology (67.2 percent). MCPs typically contract with a higher proportion of providers of this type located within the counties they serve compared to other provider types.
- ◆ The provider type with the lowest median percentage of contracted providers across counties and MCPs is Adult Ear, Nose, and Throat (ENT)/Otolaryngology (9.1 percent). MCPs typically contract with a lower proportion of providers of this type located within the counties they serve compared to other provider types.

The complete results for the analysis of the number of providers contracted with an MCP within each county for each provider and specialty type as a percentage of all providers in that county are located in Section 4 of this volume (“Alternative Access Standards Tables”).

Considerations—Alternative Access Standards Reporting

HSAG identified the following considerations for DHCS that may improve access and alternative access reporting:

- ◆ Incomplete and inaccurate information about provider locations and characteristics may be hindering MCPs’ efforts to address gaps in their networks. One of the most frequent reasons for denial of an MCP’s request is that DHCS located an out-of-network provider closer than the MCP’s proposed in-network provider. Justifications for not contracting with the identified provider include that the out-of-network provider is affiliated with a closed network and will not contract with the MCP, or that the identified provider cannot be found at the specified location because the provider has moved, retired, or died. Furthermore, accurate estimation of reporting Element 5, “Percentage of providers in the plan service area by provider and specialty type that are under a contract with a Medi-Cal MCP,” requires detailed information on all providers in a given area, and this information is not currently available from any source.
 - Developing and maintaining a list of provider practice locations of identified Medi-Cal contracted providers will improve DHCS’ ability to provide MCPs with more accurate and current information regarding eligible providers. Making this list comprehensive to include *all* provider practice locations for relevant provider types would improve DHCS’ ability to inform MCPs about potential contracting opportunities and also make it possible to assess the percentage of all providers in a service area who are contracted with a given MCP.

4. Alternative Access Standards Tables

The tables in this section present key reporting elements defined in WIC §14197.05 regarding alternative access standard requests for provider networks.

Table 4.1—Reporting Elements 1 and 6

Table 4.1 shows the number and final disposition of MCPs' alternative access standard requests. Results are presented according to the MCP's service area (County and ZIP Code) and provider type (Adult/Pediatric/Not Applicable [N/A] and Provider Type [Including Specialists]). There were 7,375 requests submitted to DHCS, and 7,014 distinct combinations of characteristics appeared in the request and decision data supplied by DHCS. The analysis is based on alternative access standard requests submitted to DHCS between April 28, 2021, and March 10, 2022.¹²

Note the following regarding Table 4.1:

- ◆ Requests for alternative access standards with missing or invalid ZIP Codes were excluded. All other requests submitted by MCPs were counted, including resubmissions for a given service area and provider type.
- ◆ Adult and Pediatric provider types are reported as "N/A" for Hospital and Obstetrics/Gynecology (OB/GYN) providers.
- ◆ Requests approved by DHCS are reported as "Approved"; requests that are denied, partially denied, or deemed no longer necessary by DHCS because the MCP was meeting the time or distance standard are reported as "Denied."
- ◆ If the final disposition of a request is "No decision," DHCS had not reported a decision as of March 10, 2022. A "No decision" is mainly due to the ZIP Code being a post office box or a unique ZIP Code for which an alternative access standard is not necessary. Regardless of whether the final disposition is "No decision," all MCPs received their overall results for all alternative access standard requests by the end of the corrective action period.

¹² An exception was made for submissions from HPSJ on March 23, 2022, and April 12, 2022, with decisions on April 14, 2022.

Table 4.1—Number of Requests and Final Disposition for Alternative Access Standards, by MCP, Service Area, and Provider Type

MCP	County	ZIP Code	Adult Pediatric N/A	Provider Type (Including Specialists)	Number of Requests	Final Disposition (Approved or Denied)
AAH	Alameda	94550	Pediatric	ENT/ Otolaryngology	1	Approved

Table 4.2—Reporting Elements 3 and 4

Table 4.2 shows the median distance and drive time between the nearest network provider and ZIP Code of the beneficiary farthest from that provider in alternative access standard requests submitted to DHCS, and the median number of beneficiaries impacted. Minimum, maximum, and median values are presented by MCP and ZIP Code for distance, drive time, and number of beneficiaries impacted.

Note the following regarding Table 4.2:

- ◆ Calculations in this table are based on all submitted alternative access standard requests except those with missing or invalid ZIP Codes.
- ◆ Not all requests were approved, and DHCS approvals may have included distance or travel time standards differing from the submitted requests.
- ◆ “No data” messages indicate that no information was submitted by the MCP for the number of beneficiaries impacted by alternative access standard requests for the specified ZIP Code.

Table 4.2—Median Distance, Drive Time, and Number of Beneficiaries Impacted by Alternative Access Standard Requests, by MCP and ZIP Code

MCP	ZIP Code	Median Distance (Range)	Median Time (Range)	Median Number of Beneficiaries Impacted (Range)
AAH	94550	40.0 (30.0, 40.0)	40.0 (35.0, 40.0)	1.0 (1.0, 1.0)

Table 4.3—Reporting Element 9—Initial Submission Period

Table 4.3 presents the number of distinct alternative access standard requests submitted and the median number of days between the initial submission of an alternative access standard request and the delivery of an initial approval or denial by DHCS for each MCP that submitted alternative access standard requests during the initial review between April 28, 2021, and August 12, 2021.

In accordance with WIC §14197(e)(3), DHCS must approve or deny an alternative access standard request within 90 days of the initial submission. DHCS may stop the 90-day review time frame on one or more occasions as necessary if an incomplete MCP submission is received or if additional information is needed from the MCP. Upon submission of the additional information to DHCS, the 90-day time frame would resume at the same point in time it was previously stopped, unless fewer than 30 days remain. In these instances, DHCS must approve or deny the alternative access standard request within 30 days of submission of the additional information.

Note the following regarding Table 4.3:

- ◆ Alternative access standard requests with missing or invalid ZIP Codes were excluded.
- ◆ Median days were calculated only using initial requests for which a decision was rendered by August 12, 2021.¹³

¹³ The median was chosen to represent the time to a decision at the 50th percentile in Table 4.3. This measure was chosen because it is not easily influenced by outliers (e.g., a small number of requests with unusually long time frames to a decision).

- ◆ The number of days is the difference between the date an alternative access standard request was first submitted by the MCP for a specific service area and type of provider and the date of the earliest decision delivered by DHCS.
- ◆ NR = not reportable. No decisions were rendered by August 12, 2021, for initial requests submitted by the MCP during this period.

Table 4.3—Time Frame for DHCS Approval or Denial of Alternative Access Standard Requests for the Initial Submission Period, by MCP

MCP	Number of Requests	Median Days
AAH	5	55
Anthem Blue Cross	631	64
Blue Shield Promise	580	42
CCAH	37	41
CHG	439	42

Molina	583	55
Partnership	291	68
SCFHP	17	36
UHC	587	42

Table 4.4—Reporting Element 9—Resubmission Period

Table 4.4 presents the number of distinct alternative access standard requests submitted and the median number of days between the initial submission of an alternative access standard request and the delivery of an initial approval or denial by DHCS for each MCP that submitted alternative access standard requests during the CAP review between August 20, 2021, and March 10, 2022.¹⁴

In accordance with WIC §14197(e)(3), DHCS must approve or deny an alternative access standard request within 90 days of the initial submission. DHCS may stop the 90-day review time frame on one or more occasions as necessary if an incomplete MCP submission is received or if additional information is needed from the MCP. Upon submission of the additional information to DHCS, the 90-day time frame would resume at the same point in time it was previously stopped, unless fewer than 30 days remain. In these instances, DHCS must approve or deny the alternative access standard request within 30 days of submission of the additional information.

Note the following regarding Table 4.4:

- ◆ Alternative access standard requests with missing or invalid ZIP Codes were excluded.
- ◆ Median days were calculated only using initial requests for which a decision was rendered by March 10, 2022.¹⁵
- ◆ The number of days is the difference between the date an alternative access standard request was first submitted by the MCP for a specific service area and type of provider and the date of the earliest decision delivered by DHCS.

Table 4.4—Time Frame for DHCS Approval or Denial of Alternative Access Standard Requests for the Resubmission Period, by MCP

MCP	Number of Requests	Median Days
Aetna	818	47
Anthem Blue Cross	31	108
HPSJ	11	22
Health Net	5	14
IEHP	40	14
Partnership	4	39

¹⁴ An exception was made for submissions from HPSJ on March 23, 2022, and April 12, 2022, with decisions on April 14, 2022.

¹⁵ The median was chosen to represent the time to a decision at the 50th percentile in Table 4.4. This measure was chosen because it is not easily influenced by outliers (e.g., a small number of requests with unusually long time frames to a decision).

Table 4.5—Reporting Element 9—Mandatory Managed Care Enrollment Submission Period

Table 4.5 presents the number of distinct alternative access standard requests submitted and the median number of days between the initial submission of an alternative access standard request and the delivery of an initial approval or denial by DHCS for each MCP that submitted alternative access standard requests during the MMCE CalAIM initiative¹⁶ submission period between September 17, 2021, and November 24, 2021.

In accordance with WIC §14197(e)(3), DHCS must approve or deny an alternative access standard request within 90 days of the initial submission. DHCS may stop the 90-day review time frame on one or more occasions as necessary if an incomplete MCP submission is received or if additional information is needed from the MCP. Upon submission of the additional information to DHCS, the 90-day time frame would resume at the same point in time it was previously stopped, unless fewer than 30 days remain. In these instances, DHCS must approve or deny the alternative access standard request within 30 days of submission of the additional information.

Note the following regarding Table 4.5:

- ◆ Alternative access standard requests with missing or invalid ZIP Codes were excluded.
- ◆ Median days were calculated only using initial requests for which a decision was rendered by November 24, 2021.¹⁷
- ◆ The number of days is the difference between the date an alternative access standard request was first submitted by the MCP for a specific service area and type of provider and the date of the earliest decision delivered by DHCS.

Table 4.5—Time Frame for DHCS Approval or Denial of Alternative Access Standard Requests for the Mandatory Managed Care Enrollment Period, by MCP

MCP	Number of Requests	Median Days
Health Net	35	33
IEHP	439	35
KHS	16	31

Molina	525	38

¹⁶ California Health and Human Services Agency, Department of Health Care Services. California Advancing & Innovating Medi-Cal (CalAIM) Proposal. January 2021. Available at: <https://www.dhcs.ca.gov/provgovpart/Documents/CalAIM-Proposal-Updated-1-8-21.pdf>. Accessed on: Nov 16, 2022.

¹⁷ The median was chosen to represent the time to a decision at the 50th percentile in Table 4.5. This measure was chosen because it is not easily influenced by outliers (e.g., a small number of requests with unusually long time frames to a decision).

Table 4.6—Reporting Element 10—Grievances

Table 4.6 summarizes consumer complaints collected in DHCS' quarterly grievance reports from SFY 2021 Quarter 3 through SFY 2022 Quarter 2 (i.e., January 2021 through December 2021) related to access to providers.

Note the following regarding Table 4.6:

- ◆ Calls were sorted into several categories. The categories relevant to alternative access standards are as follows:
 - Geographic Access
 - Out-of-Network
 - Timely Access

Table 4.7 through Table 4.64—Reporting Element 5

Reporting Element 5 is defined by WIC §14197.05¹⁸ as the percentage of providers in the plan service area by provider and specialty type that are under contract with a Medi-Cal MCP. Table 4.7 through Table 4.64 show the number of providers that an MCP has under contract within a plan service area and the number of providers under contract by the MCP as a percentage of providers in the service area under contract with any MCP, by provider type (Adult/Pediatric/N/A and Provider Type [Including Specialists]). Note that if the total number of providers in the service area had been the denominator for calculation of the percentage rather than the number of providers under contract with any MCP, the percentage would likely be smaller. This makes the percentage reported in Table 4.7 through Table 4.64 the upper limit of the number of providers under contract by the MCP as a percentage of all providers in the service area. For additional information, see the “Limitation” subsection below.

Limitation

The calculation of Reporting Element 5 requires the number of MCP providers as defined in the 274 Provider Demographic data to identify the numerator for the percentage. The denominator for the percentage requires a count of the number of providers practicing in a given service area. Review of the CMB licensing data determined that the licensing data do not contain adequate information about providers’ practice locations to be a reliable estimate of the total number of providers for a specific county. Furthermore, the 274 Provider Demographic data and CMB licensing data could not be linked by an NPI or license number to ensure that providers identified in the 274 file were also identified in the CMB data. For these reasons, the available data are limited in their ability to identify the denominator as defined above. The alternative denominator used in Table 4.7 through Table 4.64 is the count of providers physically located in the plan service area that are under contract with any MCP. The total number of providers located in a service area will be larger than the number of Medi-Cal contracted providers, making the actual percentage of providers under contract with Medi-Cal MCPs smaller than the percentage reported in Table 4.7 through Table 4.64.

Note the following regarding Table 4.7 through Table 4.64:

- ◆ Adult and Pediatric provider types are derived using a “sees children” indicator in plan-submitted 274 Provider Demographic data and not from taxonomy codes. The Adult/Pediatric/N/A field is reported as “True” for providers who see both children and adults or only children, “False” for providers who do not see children, and “N/A” for Hospital and OB/GYN providers.
- ◆ The number (percent) of providers in the county contracted by the MCP is limited to providers with addresses in the county to allow accurate comparisons across MCPs serving the same county. While MCPs may contract with providers outside a county to provide

¹⁸ CA WIC §14197.05. Available at: https://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=WIC§ionNum=14197.05. Accessed on: Aug 3, 2022.

needed coverage, they are not required to do so. The actual number of providers contracted by the MCP to serve the county may therefore be larger than the total number of providers located within the county.

- ♦ The number (percent) of providers in the county contracted by the MCP is reported as “N/A” if there are no providers of a given type (Adult/Pediatric/N/A and Provider Type [Including Specialists]) located in the county that are contracted with any MCP.

Table 4.7—Number (Percent) of Providers Contracted by an MCP, by MCP and Provider Type for the Alameda County Service Area, June 2021

MCP	County	Adult Pediatric N/A	Provider Type (Including Specialists)	Number (Percent) of Providers in the County Contracted by the MCP	Number of Providers in the County Contracted by Any MCP
