NOVEMBER 2025 MEDI-CAL ESTIMATE

TABLE OF CONTENTS

The November 2025 Medi-Cal Local Assistance Estimate is organized into several sections, listed below.

REFERENCE DOCUMENTS

The following resources are included immediately following this table of contents, before the Management Summary section:

- Alphabetical List of Policy Changes
- Guide to Key Features of Regular Policy Changes

MANAGEMENT SUMMARY

The management summary section of the Medi-Cal Local Assistance Estimate provides an overview of projected expenditures by fund and caseload counts for both current and budget years.

CURRENT YEAR

The Current Year section provides a summary of medical assistance benefits (base and regular policy change) and local assistance administration (county and other administration policy changes) expenditures for the current fiscal year. It highlights expenditures by service category, compares current year data to the previous appropriation estimate, and provides an overview of the current year cost per eligible benefits expenditures.

BUDGET YEAR

The Budget Year section provides a summary of medical assistance benefits (base and regular policy change) and local assistance administration (county and other administration policy changes) expenditures for the budget year. It highlights expenditures by service category, compares budget year data to the current year data, and provides an overview of the budget year cost per eligible benefits expenditures.

CASELOAD

The Caseload section provides the estimated average monthly certified eligible counts for prior, current, and budget years.

FEE-FOR-SERVICE BASE

The Fee-For-Service (FFS) Base section provides a detailed overview of projected FFS benefits expenditures by service category and base aid category.

BASE POLICY CHANGES

The Base Policy Change section provides detailed information on baseline benefits expenditures beyond those reflected in the Fee-for-Service (FFS) base.

REGULAR POLICY CHANGES

The Regular Policy Changes section provides detailed benefits expenditures information by policy according to program area. This section includes new program policies and other estimated expenditures that are not captured in the base expenditures. See the Guide to Key Features of Regular Policy Changes in the pages that follow for more information on how to interpret the information in Regular Policy Changes.

COUNTY AND OTHER LOCAL ASSISTANCE ADMINISTRATION

The County and Other Local Assistance Administration section provides a detailed overview of estimated expenditures required to administer the Medi-Cal program for both current and budget years. This section includes both County and Local Assistance Administrative costs and Fiscal Intermediary (FI) costs associated with the processing of claims.

ADDITIONAL INFORMATION

The Additional Information section provides supplemental information in support of the Medi-Cal Local Assistance Estimate.

NOVEMBER 2025 MEDI-CAL ESTIMATE

GUIDE TO KEY FEATURES OF REGULAR POLICY CHANGES

This document is intended to aid in interpreting the information included in Regular Policy Changes.

PROP 56 – DENTAL SERVICES SUPPLEMENTAL PAYMENTS

		FISCAL REFERENCE NUMBER:2049		Permanent reference number does not change between Estimate cycles.
		FY 2025-26	FY 2026-27	
TOTAL IMPACT	Typically, this represents the cash amount, before accounting for percent reflected in base.	\$927,239,000	\$98,205,000	
TOTAL FUNDS		\$579,031,550	\$61,384,750	
FEDERAL FUNDS		\$348,207,450	\$36,820,250	
GENERAL FUND		\$0	\$0	
OTHER FUNDS		\$0	\$0	
% REFLECTED IN BASE	To avoid double counting impacts of policy changes, this row identifies the portion of the cash impact that is estimated to be included in base data and in base trends. 0.00% represents no impact estimated in the base.	95.1400%	96.0500%	
IMPACT ON TOP OF BASE				
TOTAL FUNDS	These are the amounts added to the Medi-Cal budget for this item after adjusting downward to remove costs estimated to already be reflected in the base data/trends.	\$45,063,800	\$3,879,100	
FEDERAL FUNDS		\$28,140,930	\$2,424,700	
GENERAL FUND		\$16,922,880	\$1,454,400	
OTHER FUNDS		\$0	\$0	

Purpose:

This policy change estimates the expenditures related to providing supplemental payments for specific dental services.

Authority:

Budget Act of 2021

Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Proposition 56 Funding

Policy changes that may change if this policy change is revised.

Background:

The California Healthcare, Research, and Prevention Tobacco Tax Act (Proposition 56, 2016),

TABLE OF CONTENTS
MANAGEMENT SUMMARY

The management summary section of the Medi-Cal Local Assistance Estimate provides an overview of projected expenditures by fund and caseload counts for both current and budget years.

CURRENT YEAR VS APPROPRIATION.....	1
BUDGET YEAR VS CURRENT YEAR	2
OVERVIEW OF THE MEDI-CAL ESTIMATE.....	3
SUMMARY OF EXPENDITURES BY FUND	FS 1-9
CURRENT YEAR VS APPROPRIATION.....	FS 1-3
BUDGET YEAR VS CURRENT YEAR	FS 4-6
BREAKDOWN BY APPROPRIATION YEAR	FS 7-9

NOTE: FOR THE NOVEMBER 2025 ESTIMATE:

- CURRENT YEAR = FY 2025-26
- BUDGET YEAR = FY 2026-27
- APPROPRIATION = MAY 2025 ESTIMATE + BUDGET ACT CHANGES, FY 2025-26

November 2025 Medi-Cal Estimate

Current Year (FY 2025-26) Projected Expenditures Compared to the Appropriation

(Dollars in Millions)

Medi-Cal Local Assistance Estimate

Management Summary

November 2025 Estimate

This document is intended to provide a high-level overview of the November 2025 Medi-Cal Local Assistance Estimate (Estimate). The Department of Health Care Services (DHCS) Fiscal Year (FY) 2026-27 Governor's Budget Highlights, available on the DHCS website at <https://www.dhcs.ca.gov>, serves as a companion document to the Medi-Cal Estimate.

High-Level Summary of Estimated Spending. DHCS estimates Medi-Cal spending to be \$196.7 billion total funds (\$46.4 billion General Fund (GF)) in 2025-26 and \$222.4 billion total funds (\$48.8 billion GF) in 2026-27. This does not include Certified Public Expenditures of local governments or General Fund expenditures in other state departments.

Document Organization. This document is divided into a few sections that provide more detail on estimated funding amounts and the primary factors driving the estimates. These sections include:

- Summary of Estimate Totals
- Caseload Projections

Summary of Estimate Totals

This section provides a summary of bottom-line total spending amounts in the Estimate. Later sections will describe factors that drive changes in projected spending.

FY 2025-26 Comparison

(Dollars in Billions)			
Total Funds	\$196.7	Total Change: \$0.0	\$196.7
Federal Funds	\$119.7	-\$0.2	\$119.4
Other Non-Federal	\$32.1	-\$1.2	\$30.9
State General Fund	\$44.9	+\$1.4	\$46.4
	May 2025 Estimate		November 2025 Estimate

The November 2025 Estimate for 2025-26 projects no change in total spending and a \$1.4 billion, or 3.2 percent increase in GF spending compared to the May 2025 Estimate. When comparing the November 2025 Estimate to the final 2025 Budget Act, General Fund increased by \$2 billion. Major factors driving the change in the comparison of the May Estimate to November Estimate in GF spending include:

- Updated projections and timing of payments related to the Managed Care Organization (MCO) Tax and Proposition 35 Funding resulted in reduced GF savings, a net increase of \$159.3 million in GF costs.
- An approximately \$43.1 million GF decrease in costs for the managed care base expenditures due to lower enrollment and \$88.2 million GF decrease in other managed care items due to the net impact of updated estimated expenditures for various policies and updated projected recoupments and savings.

- An estimated \$547.2 million GF decrease due to lower fee-for-service pharmacy and inpatient utilization.
- An approximately \$638.7 million GF increase in Medicare costs due to ongoing growth in the Medicare population.
- An additional \$819.3 million in GF costs from State-Only claiming adjustments for unsatisfactory immigration status (UIS) members.
 - o Approximately \$219.3 million GF primarily from revised estimates for pharmacy State-Only deferrals.
 - o Approximately \$600 million GF from prospective downward adjustments to Medi-Cal administrative claims related to members with UIS.
- An increase of \$617.6 million GF from deferrals from the Centers for Medicare & Medicaid Services (CMS). The benefit deferrals estimate has increased by \$334.6 million GF in 2025-26 from the higher quarterly deferral estimate and no longer estimating state only pharmacy deferral resolutions. An additional \$283 million GF is also included for two quarters of State-Only administrative deferrals.
- Budget Act of 2025 solutions were impacted by timing and/or technical adjustments resulting in a net increase of \$195.1 million GF spending in 2025-26 as a result of the following changes:
 - o \$407.9 million increase in GF spending due to updated timing assumptions for several solutions.
 - Approximately \$321.7 million increased GF from delayed pharmacy rebates solutions in 2025-26.
 - Approximately \$86.2 million GF from shifting the elimination of the Skilled Nursing Facility Workforce & Quality Incentive Program (WQIP) to 2026-27.
 - o \$44.7 million increased GF from lower savings for pharmacy budget solutions from technical adjustments to the Federal Medical Assistance Percentage (FMAP) assumptions.
 - o \$250.1 million GF savings related to 2024-25 Medical Provider Interim Payment Loan funds available in 2025-26 due to end-of-year adjustments.
 - o \$7.4 million GF savings due to other minor technical adjustments to various solutions.

Year-over-Year Change from FY 2025-26 to FY 2026-27

The November 2025 Estimate projects that total spending will increase by \$25.7 billion (13.1 percent), and GF spending will increase by \$2.4 billion (5.2 percent) between 2025-26 and 2026-27. Major factors driving the changes in estimated GF spending from 2025-26 and 2026-27 include:

- The budget assumes the MCO Tax will continue through the transition period ending December 31, 2026. Additional reductions in GF savings between 2025-26 and 2026-27 due to the MCO Tax sunset and Proposition 35 funding provider payment adjustments result in an increase of \$1.1 billion GF.
- An approximate \$471.9 million GF increase between fiscal years for H.R. 1 policies effective in 2026-27, including:
 - o Work and Community Engagement: \$102.4 million GF cost reduction.
 - o Six-Month Redetermination: \$74.1 million GF cost reduction.
 - o Reduced Retroactive Coverage: \$9.6 million GF cost reduction.
 - o UIS FMAP Adjustment: \$658 million GF cost increase.
- An increase of \$2.7 billion GF for Managed Care base projections, primarily from base rate increases and enrollment growth, including \$445.3 million GF for PACE. A projected \$554.1 million GF decrease in other managed care items due to the net impact of updated estimated expenditures for various policies and updated projected recoupments and savings.

- A projected net decrease of \$897.2 million GF is estimated in 2026-27 resulting from projected caseload reductions likely relating to the COVID-19 End of Unwinding Flexibilities and savings from the implementation of improvements for residency verification.
- An estimated \$897.8 million GF increase primarily driven by fee-for-service pharmacy rate growth.
- From 2025-26 to 2026-27, there is an approximately \$648.3 million GF increase in Medicare costs due to projected growth in the Medicare population and increases in Buy-In premiums and Part D Per Member Per Month (PMPM) costs.
- Costs related to State-Only claiming adjustments for UIS members are projected to decline by approximately \$395.8 million in 2026-27 as retroactive repayments are completed in 2025-26.
- An approximate \$515.5 million decrease in GF cost is estimated for CMS deferrals as ongoing deferrals are projected to be lower, and no further State-Only administrative deferrals are estimated in 2026-27.
- 2026-27 estimates included in the budget for ongoing savings from Budget Act of 2025 solutions reflect a decrease of \$648.9 million in GF spending:
 - o \$2.16 billion GF savings from budget solutions effective in 2026-27.
 - Full Scope Medi-Cal Expansion Enrollment Freeze – an additional \$659.2 million GF cost reduction in 2026-27.
 - Reinstatement of Asset Limit – an additional \$302.1 million GF cost reduction in 2026-27.
 - Utilization Management for Hospice – an additional \$50 million GF savings in 2026-27.
 - Eliminate Prospective Payment System for State Only – an additional \$1 billion GF savings in 2026-27.
 - Eliminate Dental for Adult UIS – an additional \$134.6 million GF cost reduction in 2026-27.
 - o \$901.2 million additional GF savings from pharmacy and pharmacy rebate solutions in 2026-27.
 - o \$132.4 million additional GF savings from the elimination of the SNF WQIP in 2026-27.
 - o The 2026-27 budget does not include Medical Provider Interim Payment Loan funds to offset GF costs, resulting in an additional \$2.5 billion GF.
- Hospital Quality Assurance Fee (HQAF) Children's Health Care Coverage savings shift to 2026-27 resulting in increased GF savings of \$142.1 million GF.

Caseload Projections

High Level Summary

This section provides an overview of caseload projections for Medi-Cal reflected in the Estimate. Projected caseload levels are summarized in the following tables.

In previous Medi-Cal Estimates, the caseload pages were published using 18 aid categories. Beginning with the November 2025 Estimate, the Department consolidated these 18 aid categories to 6 new aid categories: Title 19 Children, Title 19 Adults, Title 21, ACA Expansion, Seniors and Persons with Disabilities (SPDs) and Long-Term Care (LTC) aid codes to better align with Department rate setting. The updated aid categories are more streamlined and increase usefulness by focusing on major categories of members, helping the user to recognize the major drivers affecting enrollment projections. Due to this change in the caseload display in the new aid category format, the 2025-26 Appropriation Estimate is not available for comparison to the November 2025 Medi-Cal Estimate.

Total	(82,600)	(343,500)	-0.55%	-2.31%

The following plot displays the projected total Medi-Cal caseload from July 2022 and forward to April 2027.

**Statewide Caseload Projections,
Including Impact of Policy Changes: All Aid Categories**

Certified Average Monthly Eligible Count by Month

The first decline in overall caseload began around April 2023 as the end of the COVID-19 public health emergency when the unwinding process began and ended in May 2024 (leveling off of the caseload, though unwinding flexibilities were still in place). Department anticipates a steeper decline beginning with August 2025 due to the end of the unwinding flexibilities on June 30, 2025, as more individuals are disenrolled procedurally. Additionally, the projected overall caseload is expected to further decline as a result of two major programmatic changes—the Reinstatement of Asset Limit and the Full Scope Expansion Enrollment Freeze. The plot above includes estimated H.R. 1 caseload impacts.

Medi-Cal Funding Summary**November 2025 FY 2025-26 and FY 2026-27 Breakdown by Appropriation Year**

Spending included in the Medi-Cal Estimate is authorized by the annual Budget Act and other statutory appropriations. This authority most often is available only for the duration of one fiscal year. However, in some cases, funding appropriated in one FY can be spent in a later FY. This means that authority for most spending in a given FY comes from the matching Appropriation Year, but authority for some spending may come from previous Appropriation Years. The following breakdown shows spending in each FY by Appropriation Year.

TOTAL FUNDS**Appropriation Year 2026-27****Benefits:**

	FY 2025-26 Estimate	FY 2026-27 Estimate

TABLE OF CONTENTS

CURRENT YEAR

The Current Year section provides a summary of medical assistance benefits (base and regular policy change) and local assistance administration (county and other administration policy changes) expenditures for the current fiscal year. It highlights expenditures by service category, compares budget year data to the current year data, and provides an overview of the budget year cost per eligible benefits expenditures.

TABLE OF CONTENTS

BUDGET YEAR

The Budget Year section provides a summary of medical assistance benefits (base and regular policy change) and local assistance administration (county and other administration policy changes) expenditures for the budget year. It highlights expenditures by service category, compares budget year data to the previous appropriation estimate, and provides an overview of the budget year cost per eligible benefits expenditures.

1/ The BCCTP Medi-Cal special program eligibles is not included above. The average monthly during FY 2024-25 is 712.

2/ The Appropriation for FY 2025-26 was published using 18 aid categories. Starting with the November 2025 estimate, DHCS consolidated these 18 aid categories to 6 new aid categories: Title 19 Children, Title 19 Adults, Title 21, ACA Expansion, SPDs and LTC aid codes to better align with DHCS rate setting. Due to this change, the FY 2025-26 Appropriation is not available for comparison in the new aid category format. The FY 2026-27 Appropriation will use the new aid category format.

Medi-Cal Fee-For-Service Base Estimate

The Medi-Cal base expenditure estimate consists of projections of expenditures based on recent trends of actual data. The base estimate does not include the impact of future program changes, which are added to the base estimate through regular policy changes as displayed in the Regular Policy Change section.

The Base Expenditure estimate consists of two main groups, (1) fee-for-service and (2) non-fee-for-service. The fee-for-service Base (FFS Base) Estimate is summarized in this section. The data used for these projections consist of the most recent 32 months of claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary and beginning in January 2022, the Medi-Cal Rx Fiscal Intermediary for pharmacy claims.

The Non-Fee-for-Service (Non-FFS) Base Estimate consists of several Policy Changes, and each is described and located in the Base Policy Change section.

FFS Base Estimate Service Categories

- Physicians
- Other Medical
- County & Community Outpatient
- Pharmacy
- County Inpatient
- Community Inpatient
- Nursing Facilities
- Intermediate Care Facilities-Developmentally Disabled (ICF-DD)
- Medical Transportation
- Other Services
- Home Health

November 2025 FFS Base Estimate

Fiscal Year		November Estimate Total Expenditure	
PY	FY 2024-25	\$36,060,929,200	
CY	FY 2025-26	\$39,751,866,100	10.24%
BY	FY 2026-27	\$41,924,238,000	5.46%

Fiscal Year	FFS Base Expenditure		
	May-25	Nov-25	% Change
FY 2024-25	\$36,430,439,300	\$36,060,929,200	-1.01%
FY 2025-26	\$40,577,376,600	\$39,751,866,100	-2.03%

Overall, the November 2025 FFS Base is estimated at \$39.8 billion for FY 2025-26 and \$41.9 billion for FY 2026-27. The increase in the budget year is mainly from the Pharmacy service category, driven specifically by increasing average costs per pharmacy claim.

Items Impacting FFS Base Estimate

Overall Changes: Compared to the May 2025 estimate, the November 2025 estimate is 2.03% lower mostly due to lower utilization for pharmacy and lower users for county and community inpatient based on six additional months of actual claims. These specific impacts will be described in each of the service categories.

FFS Claim Adjustments: Retroactive claim adjustments due to previously denied claims, payment reductions, rate changes, etc., often occur in the claims processing process. One-time retroactive claim adjustment payments temporarily change FFS users, utilization, and/or rates on which FFS expenditures are projected. FFS claim adjustments are excluded when projecting the FFS base trends.

Processing Days: Processing days reflect the number of days Medi-Cal adjudicates and pays providers. The number of processing days sometimes varies from year to year.

Medi-Cal Base Policy Changes

The Medi-Cal base estimate consists of projections of expenditures based on recent trends of actual data. The base estimate does not include the impact of future program changes, which are added to the base estimate through regular policy changes as displayed in the Regular Policy Change section.

The base estimate consists of two types. The first type, the Fee-for-Service Base (FFS Base) Estimate consists of 11 service categories (Physicians through Home Health) which are paid on a fee-for-service basis and are described in the previous section.

The second type of base estimate has traditionally been called the Non-Fee-for-Service (Non-FFS) Base Estimate. Because some of these base estimates include services paid on a fee-for-service basis, that name is technically not correct. These Base Policy Changes form the base estimates for the last 13 service categories (Managed Care through Drug Medi-Cal) as displayed in most tables throughout this binder and listed below. The data used for these projections come from a variety of sources, such as other claims processing systems, managed care enrollments, and other payment data. Also, some of the projections in this group come directly from other State departments.

Purpose:

This policy change estimates the cost of the Drug Medi-Cal Organized Delivery System (DMC-ODS) waiver program for opt-in counties to provide Substance Use Disorder (SUD) services.

Authority:

Drug Medi-Cal Organized Delivery System Waiver
Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

Under the State Plan, the Drug Medi-Cal program currently covers the following SUD services: Outpatient Drug-Free Treatment Services (ODF), Intensive Outpatient Treatment Services (IOT), Residential Treatment Services (RTS) for pregnant and postpartum women, and the Narcotic Treatment Program (NTP).

On August 13, 2015, the Department received approval from the Centers for Medicare and Medicaid Services (CMS) to implement the DMC-ODS waiver. The DMC-ODS is authorized originally under California's Section 1115 Bridge to Reform Demonstration Waiver and continued in the Medi-Cal 2020 Waiver. The purpose of the program is to test a new paradigm for organized delivery of health care services for Medicaid eligible individuals with a substance use disorder.

DMC-ODS waiver services include the existing treatment modalities (ODF, IOT, NTP, and Perinatal RTS), and additional new and expanded county optional services. Counties that opt-in to participate in the DMC-ODS waiver are required to provide a continuum of care to all eligible members modeled after the American Society of Addiction Medicine (ASAM) Criteria.

DRUG MEDI-CAL ORGANIZED DELIVERY SYSTEM WAIVER

Additionally for opt-in counties, the following new/expanded services, not currently separately reimbursable in the four modalities, are available under the DMC-ODS waiver:

Required

- Non-perinatal RTS
- Withdrawal Management (Levels 1.0, 2.0, and 3.2)
- Recovery Services
- Case Management
- Physician Consultation
- Expanded Medication Assisted Treatment (MAT) (buprenorphine, naloxone, and disulfiram)

Optional

- Additional MAT (non-NTP Providers)
- Partial Hospitalization
- Withdrawal Management (Levels 3.7 and 4.0)

Rate Setting Methodologies

Prior to Fiscal Year 2023-24, the interim rates for the existing modalities (except NTP) were paid at the county-established rates instead of the State rates.

Under the California Advancing and Innovating Medi-Cal (CalAIM) initiative, the Department has developed rates for DMC-ODS waiver services using new methodologies which are more specific to the provider type providing the service and/or to each county's costs. DMC-ODS rates using these methodologies were implemented on July 1, 2023. Annually, the Department will adjust the rates by the percentage change in the four-quarter average Home Health Agency Market Basket Index. This methodology will also account for the transition from the existing Healthcare Common Procedure Coding System (HCPCS) Level II coding to a combination of the Current Procedural Terminology (CPT) and HCPCS Level II coding system.

The proposed DMC-ODS rates for the following services are based on county specific, hourly, outpatient rates per provider type developed under the CalAIM initiative:

- Intensive Outpatient Treatment Services
- Outpatient Drug-Free Treatment Services
- Recovery Services
- Case Management
- Physician Consultation
- Additional MAT Services

The proposed DMC rates for the following services are based on county specific, per dose, dosing rates developed under the CalAIM initiative:

- NTP Dosing – Regular and Perinatal
- MAT Dosing – Regular and Perinatal

The proposed DMC rates for the following services are based on county specific, daily rates developed under the CalAIM initiative:

- Withdrawal Management I and II
- Withdrawal Management (WM) 3.2
- Residential ASAM Levels 3.1, 3.3 and 3.5

DRUG MEDI-CAL ORGANIZED DELIVERY SYSTEM WAIVER

- Inpatient Withdrawal Management
- Partial Hospitalization

Funding for the existing treatment modalities (ODF, IOT, NTP, and Perinatal RTS) remain the same. New services under the waiver, except for non-perinatal IOT and RTS expanded services, are funded with federal funds (FF) and County Funds (CF). Consistent with prior estimates, expanded IOT and RTS services are funded with FF and General Fund (GF).

Reason for Change:

This change in FY 2025-26, from the prior estimate, is a net increase due to the following:

- Updated claims data reimbursements were higher compared to the previous projection, and
- A revised payment lag assumption for FY 2025-26 claims with the proportion of claims paid within the same year decreasing from 62.6% to 60.7%, 38.6% paid in the second year, and 0.7% in the third year.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to the following:

- Higher estimated reimbursement rates for FY 2026-27 services,
- Addition of Kings County and Madera County to the DMC-ODS waiver, and
- No prior year unpaid claims assumed for FY 2026-27.

Methodology:

1. DMC-ODS waiver services for opt-in counties began in February 2017 on a phase-in basis.

2. A total of 40 counties have opted-in to provide waiver services:

- Phase-In Timeline:
 - FY 2016-17: Four counties implemented the DMC-ODS waiver.
 - FY 2017-18: Seven additional counties (for a total of 11 counties) began providing waiver services.
 - FY 2018-19: 16 additional counties (for a total of 27 counties) began providing waiver services.
 - FY 2019-20: Three additional counties (for a total of 30 counties) began providing waiver services.
 - FY 2020-21: Seven additional counties (for a total of 37 counties) began providing waiver services under the Partnership Health Plan (PHP).
- Recent Opt-Ins under the PHP:
 - July 1, 2023: Mariposa County began providing waiver services.
 - July 1, 2024: Lake County began providing waiver services.
 - December 1, 2024: Sonoma County began providing waiver services.

3. A total of 16 counties have not opted-in to implement DMC-ODS waiver services. Madera County and Kings County are currently in the process of opting in, with projected implementation dates of July 1, 2026, respectively.

DRUG MEDI-CAL ORGANIZED DELIVERY SYSTEM WAIVER

Net DMC-ODS Waiver Costs

4. Total net cost for the DMC-ODS waiver services are:

(Dollars in Thousands)

DMC-ODS Waiver Net Cost	FY 2025-26	FY 2026-27
Required Services	\$72,237	\$76,101
Optional Services	\$2,837	\$2,956
Existing Services	\$1,323,385	\$1,394,164
Total	\$1,398,459	\$1,473,221

5. The Department implemented the CalAIM Behavioral Health Payment Reform and a new Intergovernmental Transfers (IGTs) process. For all claims with dates of service of on or after July 1, 2023, counties transfer the county portion of the submitted claims before FF can be used for payment.
6. DMC-ODS waiver costs for state-only full scope Medi-Cal services to certain immigrant populations who meet all Medi-Cal eligibility requirements except for their citizenship status, are budgeted in this policy change.
7. On a cash basis, the total for waiver services costs are estimated to be \$1,398,459,000 TF and \$1,473,221,000 TF in FY 2025-26 and FY 2026-27 respectively.

Purpose:

This policy change estimates the Drug Medi-Cal (DMC) expenditures to provide Substance Use Disorder (SUD) services under the State Plan.

Authority:

Title 22, California Code of Regulations 51341.1 and 51516.1

Interdependent Policy Changes:

Drug Medi-Cal Organized Delivery System Waiver
Drug Medi-Cal Annual Rate Adjustment
COVID-19 Behavioral Health

Background:

The State Plan covers SUD services provided by certified providers under contract with the counties or with the State. State Plan services are defined by treatment modality as described below.

Under the California Advancing and Innovating Medi-Cal (CalAIM) initiative, the Department issued new DMC rates per the DMC State Plan Methodology change effective July 1, 2023, that are more specific to the provider type providing the service and/or to each county's cost. This reform created four new modalities: Mobile Crisis, Partial Hospitalization, Withdrawal Management, and 24-Hour-Day Service, which have resulted in the expansion of services available to DMC State Plan Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) members (under 21). Additionally, the reform has resulted in the elimination of ongoing services that existed under the Intensive Outpatient Treatment modality, and the transition of services that were previously held under the Residential modality to the 24-hour-Day Service modality. Lastly the Outpatient Drug Free Treatment (ODF) modality was renamed Outpatient Services, and some group and individual counseling services previously under the Narcotic Treatment Program moved into Outpatient Services.

Under the of the California Advancing and Innovating Medi-Cal (CalAIM) initiative, the Department has developed rates for DMC services using new methodologies which are more

DRUG MEDI-CAL STATE PLAN SERVICES

specific to the provider type providing the service and/or to each county's costs. DMC rates using these methodologies were implemented on July 1, 2023. Annually, the Department will adjust the DMC rates by the percentage change in the four-quarter average Home Health Agency Market Basket Index.

The Narcotic Treatment Program (NTP) provides outpatient methadone maintenance services directed at stabilization and rehabilitation of persons with opioid dependency and substance use disorder diagnoses. The program includes daily medication dosing, a medical evaluation, treatment planning, and a minimum of fifty minutes per month of face-to-face counseling sessions.

Outpatient Services (OS) counseling treatment services are designed to stabilize and rehabilitate Medi-Cal members with substance use disorder diagnosis in an outpatient setting. This includes services under Early and Periodic Screening, Diagnosis, and Treatment (EPSDT). Each ODF participant receives at least two group counseling sessions per month. Counseling and rehabilitation services include:

- Assessment
- Care Coordination
- Crisis Intervention
- Discharge Services
- Family Therapy
- Group Counseling
- Individual Counseling
- Medication Services
- Peer Support Specialist Services
- Recovery Services
- Supplemental Services
- Treatment Planning

24-Hour Day Service provides rehabilitation services to both EPSDT and perinatal members with substance use disorder diagnosis in a non-institutional, non-medical, residential setting. Each beneficiary lives on the premises and is supported in effort to restore, maintain, and apply interpersonal and independent living skills and access community support systems.

Supervision and treatment services are available day and night, seven days a week. The service provides a range of activities:

- Mother/Child habilitative and rehabilitative services,
- Service access (i.e. transportation to treatment),
- Education to reduce harmful effects of alcohol and drugs on the mother and fetus or infant, and/or
- Coordination of ancillary services.

Perinatal services for RTS are reimbursed through the Medi-Cal program only when provided in a facility with a treatment capacity of 16 beds or less, not including beds

DRUG MEDI-CAL STATE PLAN SERVICES

occupied by children of residents. Room and board is not reimbursable through the Medi-Cal program.

Mobile Crisis services provide a support team in collaboration between Behavioral Health and Law Enforcement to respond to emergency calls for EPSDT members experiencing a mental health crisis.

- Crisis Assessment
- Crisis Intervention
- Transportation

County Inpatient Withdrawal Management provides services withdrawal management and residential treatment services (American Society of Addiction Medicine (ASAM) levels 3.7 and 4.0 services to EPSDT members.

- Level 3.7 - Medically Monitored Intensive Inpatient Services
- Level 4.0 - Medically Managed Intensive Inpatient Services

Partial Hospitalization services are clinically intensive programs, less than 24 hours, that are designed to address the needs of EPSDT members with severe SUD requiring more intensive treatment services than can be provided at lower levels of care.

- Assessment
- Care Coordination
- Counseling (individual and group)
- Family Therapy
- Medication services
- MAT for OUD
- MAT for AUD and other non-opioid SUDs
- Patient Education
- Recovery Services
- SUD Crisis Intervention Services

The responsibility for Drug Medi-Cal services was realigned to the counties as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, new state requirements enacted after September 30, 2012 that increase the costs beyond the 2011 Realignment programs or levels of service shall apply to the extent that the state provides funding for the increase.

On August 13, 2015, the Department received approval from the Centers for Medicare and Medicaid Services to implement the Drug Medi-Cal Organized Delivery System (DMC-ODS) waiver. The DMC-ODS is an organized delivery of health care services for Medicaid eligible individuals with a substance use disorder. DMC-ODS waiver services will include the existing State Plan treatment modalities (NTP, ODF, IOT, and RTS), and additional new and expanded services.

DRUG MEDI-CAL STATE PLAN SERVICES

County participation in the DMC-ODS waiver is voluntary. State Plan service expenditures for participating counties has shifted to the Drug Medi-Cal Organized Delivery System Waiver policy change as implementation has progressed.

Reason for Change:

The change from the previous estimate for FY 2025-26 reflects a \$10.9M (24.2%) increase in users, utilization, and rates, particularly from the NTP ACA category, resulting from eased regulations and improved access to methadone dosing treatments.

There is no significant change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

- Expenditures are estimated using 36 quarters of cash-basis expenditure data (July 2016-June 2025) and trending the Users, Units/User, and Rate.

	FY 2025-26				FY 2026-27			
	Average Quarterly				Average Quarterly			
Type	Users	Units/ User	Rate	Total	Users	Units/ User	Rate	Total

ACA Optional	1,693	68.4	\$29.74	\$13,786,100	1,693	68.4	\$59.57	\$27,611,800
Total				\$55,747,900				\$55,747,800

- Rates include Final Rate Year (RY) 2024-25 rate increases. RY 2025-26 rate increases are partially budgeted in the Drug Medi-Cal Annual Rate Adjustment PC.
- Funding for populations eligible prior to the implementation of the Affordable Care Act (ACA) in 2014 is 50% County Funds (CF) and 50% Title XIX Federal Funds (FF). Counties do not have a share of cost for services provided to beneficiaries as part of the Drug Medi-Cal program expansion under the ACA. Instead the non-federal share is funded through the State General Fund. Beginning January 2020, ongoing funding for ACA Optional beneficiaries is 90% FF/10% GF. Certain aid codes are eligible for Title XXI federal reimbursement at 76.5% October 2019 through September 2020, and 65% October 2020 and thereafter.
- Funding for full-scope undocumented expansion populations is assumed to be funded with 100% state General Fund.
- Beginning in FY 2023-24, the Department implemented the CalAIM Behavioral Health payment reform and a new intergovernmental transfers (IGTs) process. For claims with dates of service of on or after July 1, 2023, counties transfer the county portion of the submitted claims before Federal Funds can be used for payment. Total estimated expenditures for DMC State Plan services are:

Purpose:

This policy change estimates the base cost for specialty mental health services (SMHS) provided to adults (21 years of age and older).

Authority:

Welfare & Institutions Code 14680-14685.1

California Constitution Article XIII Section 36

Medi-Cal Specialty Mental Health Services Consolidation (CA-17) Program 1915(b)(4) Waiver

Interdependent Policy Changes:

Not Applicable

Background:

The Medi-Cal SMHS program is “carved-out” of the broader Medi-Cal program and is administered by the Department under the authority of a 1915(b)(4) waiver approved by the Centers for Medicare and Medicaid Services (CMS). The Department contracts with a Mental Health Plan (MHP) in each county to provide or arrange for the provision of Medi-Cal SMHS. All MHPs are county mental health departments.

SMHS are Medi-Cal entitlement services for adults and children who meet criteria for specialty mental health treatment. MHPs must certify that they incurred a cost before seeking reimbursement through claims to the State. MHPs are responsible for most of the non-federal share of Medi-Cal SMHS. Mental health services for Medi-Cal members who do not meet the criteria for SMHS are provided under the Medi-Cal program through Medi-Cal managed care plans or the fee-for-service Medi-Cal (FFS/MC) program.

This policy change budgets the costs associated with SMHS for adults. A separate policy change budgets the costs associated with SMHS for children.

SMHS FOR ADULTS

The following Medi-Cal SMHS are available for adults:

- Adult Residential Treatment Services
- Crisis Intervention
- Crisis Stabilization
- Crisis Residential Treatment Services
- Day Rehabilitation
- Day Treatment Intensive
- Medication Support Services
- Psychiatric Health Facility Services
- Psychiatric Inpatient Hospital Services
- Targeted Case Management
- Mental Health Services
- Peer Support Services

The responsibility for SMHS was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, state requirements enacted after September 30, 2012, that have an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides annual funding for the cost increase.

Beginning in FY 2023-24, the Department reformed behavioral health payments under the California Advancing and Innovating Medi-Cal (CalAIM) initiative. Payment reform transitioned counties from cost-based reimbursement funded via Certified Public Expenditures to fee-for-service reimbursement funded via Intergovernmental Transfers, eliminating the need for reconciliation to actual costs. In addition, SMHS services were transitioned from Healthcare Common Procedure Coding System (HCPCS) Level II coding to Level I coding, known as Current Procedural Terminology (CPT) coding, when possible. Payments to MHPs continue to be made through Short-Doyle/Medi-Cal (SD/MC) claims.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase, due to:

- Higher approved claims for FY 2023-24, FY 2024-25, and updated forecast for FY 2025-26,
- Updated FFS inpatient costs for members with unsatisfactory immigration status (UIS), and
- Updated payment lag assumptions.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase, due to:

- Higher forecasts for SD/MC and FFS inpatient claims based on updated actual claims data, and
- Updated payment lag assumptions.

Methodology:

1. The costs and clients are developed using 70 months of SD/MC and 70 months FFS/MC approved claims data, excluding disallowed claims. The SD/MC data is current as of June 30, 2025, with dates of service from June 2019 through March 2025. The FFS Inpatient data is current as of June 30, 2025, with dates of service from April 2019 through January 2025.

SMHS FOR ADULTS

2. Due to the lag in reporting of claims data, the six most recent months of FFS Inpatient data and the nine most recent months of SD/MC data, are weighed (lag weights) based on observed claiming trends to create projected final claims data.
3. Applying more weight to recent data necessitates the need to ensure that lag weight adjusted claims data (a process by which months of partial data reporting is extrapolated to create estimates of final monthly claims) is as complete and accurate as possible. Therefore, the most recent months of data are weighted (lag weights) based on observed claiming trends to create projected final claims and client data. The development and application of lag weights is based upon historical reporting trends of the counties.
4. The forecast is based on a service year of costs. These accrual costs are estimated below:

(Dollars in Thousands)

Fiscal Year	TF	SD/MC	FFS Inpatient
FY 2023-24	\$3,868,220	\$3,443,063	\$425,157
FY 2024-25	\$4,327,319	\$3,796,065	\$531,254
FY 2025-26	\$4,736,193	\$4,163,616	\$572,577
FY 2026-27	\$5,145,066	\$4,531,166	\$613,900

5. On a cash basis for FY 2025-26, the Department will be paying 0.68% of FY 2023-24 claims, 38.82% of FY 2024-25 claims, and 59.75% of FY 2025-26 SD/MC claims. For FFS Inpatient claims, the Department will be paying 0.94% of FY 2023-24 claims, 34.22% of FY 2024-25 claims, and 64.83% of FY 2025-26 claims. The cash amounts (rounded) for Adult's SMHS are:

(Dollars in Thousands)

Fiscal Year	TF	SD/MC	FFS Inpatient
FY 2023-24	\$27,426	\$23,413	\$4,013
FY 2024-25	\$1,655,539	\$1,473,728	\$181,811
FY 2025-26	\$2,859,035	\$2,487,815	\$371,220
Total FY 2025-26	\$4,542,000	\$3,984,956	\$557,044

6. On a cash basis for FY 2026-27, the Department will be paying 0.49% of FY 2024-25 claims, 39.41% of FY 2025-26 claims, and 59.75% of FY 2026-27 claims for SD/MC claims. For FFS Inpatient claims, the Department will be paying 0.94% of FY 2025-25 claims, and 34.22% of FY 2025-26 claims, and 64.83% of FY 2026-27 claims. The cash amounts (rounded) are:

SMHS FOR ADULTS

(Dollars in Thousands)

Fiscal Year	TF	SD/MC	FFS Inpatient
FY 2024-25	\$23,803	\$18,789	\$5,014
FY 2025-26	\$1,836,814	\$1,640,861	\$195,953
FY 2026-27	\$3,105,442	\$2,707,431	\$398,011
Total FY 2026-27	\$4,966,059	\$4,367,081	\$598,978

7. The FY 2025-26 and FY 2026-27 estimate includes the following funding adjustments:

- Individuals age 19-25, who do not have satisfactory immigration status or are unable to verify satisfactory immigration status or citizenship, are eligible for full scope Medi-Cal benefits effective January 1, 2020, and these claims are reimbursed with 100% GF.
- Individuals who are 50 years of age or older who meet other Medi-Cal eligibility requirements but who do not have satisfactory immigration status or are unable to verify their immigration status or citizenship became eligible for full-scope Medi-Cal benefits effective May 1, 2022. The SMHS non-emergency, non-pregnancy claims for these individuals are reimbursed with 100% GF; and non-emergency, pregnancy claims are assumed to receive federal financial participation.
- Medi-Cal claims are eligible for 50% federal reimbursement;
- ACA is funded by 90% FF and 10% GF beginning January 2020;
- GF abatements from the State Controller Office's Mental Health Managed Care Deposit Fund (613-0865) transfers the county realignment funds to the Department. These amounts are displayed in this policy change;
- IGTs are budgeted in the Medi-Cal County Behavioral Health Fund beginning July 1, 2023.
- Adults ages 26 through 49 years of age are eligible for full scope Medi-Cal benefits beginning on January 1, 2024.

8. On a cash basis, the estimated costs for FY 2025-26 and FY 2026-27 are as follows:

(Dollars in Thousands)

Fiscal Year	TF	FF	ACA FF	GF	GF Abate from Fund 613-0865	BH IGTF

This policy change estimates the base cost for specialty mental health services (SMHS) provided to children (birth through 20 years of age).

Authority:

Welfare & Institutions Code 14680-14685.1

California Constitution Article XIII Section 36

Medi-Cal Specialty Mental Health Services Consolidation (CA-17) Program 1915(b)(4) Waiver

Interdependent Policy Changes:

Not Applicable

Background:

The Medi-Cal SMHS program is “carved-out” of the broader Medi-Cal program and is administered by the Department under the authority of a 1915(b)(4) waiver approved by the Centers for Medicare and Medicaid Services (CMS). The Department contracts with a Mental Health Plan (MHP) in each county to provide or arrange for the provision of Medi-Cal SMHS. All MHPs are county mental health departments.

SMHS are Medi-Cal entitlement services for adults and children who meet criteria for specialty mental health services. MHPs must certify that they incurred a cost before seeking reimbursement through claims to the State. MHPs are responsible for most of the non-federal share of Medi-Cal SMHS. Mental health services for Medi-Cal members who do not meet the criteria for SMHS are provided under the broader Medi-Cal program either through Medi-Cal managed care plans or the fee-for-service Medi-Cal (FFS/MC) program.

Children’s SMHS are provided under the federal requirements of the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit, which is available to full-scope members under age 21. The EPSDT benefit is designed to meet the special physical, emotional, and developmental needs of low-income children. This policy change budgets the costs associated with SMHS for children. A separate policy change budgets the costs associated with SMHS for adults.

SMHS FOR CHILDREN

The following Medi-Cal SMHS are available for children:

- Adult Residential Treatment Services*
- Crisis Intervention
- Crisis Stabilization
- Crisis Residential Treatment Services*
- Day Rehabilitation
- Day Treatment Intensive
- Medication Support Services
- Psychiatric Health Facility Services
- Psychiatric Inpatient Hospital Services
- Targeted Case Management
- Therapeutic Behavioral Services
- Mental Health Services
- Therapeutic Foster Care
- Intensive Care Coordination
- Intensive Home Based Services
- Peer Support Services

*Children - Age 18 through 20

The responsibility for SMHS was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, state requirements enacted after September 30, 2012, that have an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides annual funding for the cost increase.

Beginning in FY 2023-24, the Department reformed behavioral health payments under the California Advancing and Innovating Medi-Cal (CalAIM) initiative. Payment reform transitioned counties from cost-based reimbursement funded via Certified Public Expenditures to fee-for-service reimbursement funded via Intergovernmental Transfers, eliminating the need for reconciliation to actual costs. In addition, SMHS services were transitioned from Healthcare Common Procedure Coding System (HCPCS) Level II coding to Level I coding, known as Current Procedural Terminology (CPT) coding, when possible. Payments to MHPs continue to be made through Short-Doyle/Medi-Cal (SD/MC) claims.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- Updated FFS inpatient data which includes UIS dollars, and
- Payment lag percentages returning to historic trends for SD/MC and updated payment lag percentages for FFS inpatient for FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Increased forecasts and projections for SD/MC and FFS inpatient claims based on updated actual claims data and including UIS data for FFS inpatient, and
- Payment lag percentages returning to historic trends.

SMHS FOR CHILDREN

Methodology:

1. The costs and clients are developed using 70 months of SD/MC and 70 months FFS/MC approved claims data, excluding disallowed claims. The SD/MC data is current as of June 30, 2025, with dates of service from June 2019 through March 2025. The FFS Inpatient data is current as of June 30, 2025, with dates of service from April 2019 through January 2025.
2. Due to the lag in reporting of claims data, the six most recent months of FFS Inpatient data and the nine most recent months of SD/MC data, are weighed (lag weights) based on observed claiming trends to create projected final claims data.
3. Applying more weight to recent data necessitates the need to ensure that lag weight adjusted claims data (a process by which months of partial data reporting is extrapolated to create estimates of final monthly claims) is as complete and accurate as possible. Therefore, the most recent months of data are weighted (lag weights) based on observed claiming trends to create projected final claims and client data. The development and application of lag weights is based upon historical reporting trends of the counties.
4. The forecast is based on a service year of costs. These accrual costs are estimated below:

(Dollars in Thousands)

Fiscal Year	TF	SD/MC	FFS Inpatient
FY 2023-24	\$3,412,733	\$3,201,521	\$211,212

GENERAL FUND	\$15,162,039,700	\$16,841,148,150
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the managed care capitation costs for the Two-Plan model.

Authority:

Welfare & Institutions Code 14087.3
 AB 336 (Chapter 95, Statutes of 1991)
 SB 485 (Chapter 722, Statutes of 1992)

Interdependent Policy Changes:

Not Applicable

Background:

Under the original Two-Plan model, each designated county had two managed care plans, a local initiative and a commercial plan, which provided medically necessary services to Medi-Cal members residing within the county. The original 14 counties in the Two-Plan Model were Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Madera, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Stanislaus, and Tulare.

Effective January 1, 2024, the following counties implemented an option to bring on an additional managed care plan: Fresno, Kings, Madera, Stanislaus, and Tulare. Additionally, Alameda and Contra Costa Counties opted to change managed care plan model type to Single Plan, and Alpine and El Dorado Counties opted to become Two-Plan Model counties from Regional counties.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to:

- Updated Satisfactory Immigration Status (SIS) and Unsatisfactory Immigration Status (UIS) CY 2026 rates. Total member months are slightly lower than previously estimated.
- The prior estimate assumed that enrollment would continue at levels close to those observed in January 2025 (the most recent actual month at that time). This estimate incorporates actual enrollment through July 2025 (the most recent actual month). The

TWO PLAN MODEL

incremental impact of redeterminations on managed care costs is accounted for separately in the COVID-19 End of Unwinding Flexibilities policy change.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to higher anticipated member months. Also, the dollar impact of the incremental SIS and UIS rate change from current year to budget year contributes to the increase. This change, which was budgeted in the Capitated Rate Adjustment PC in prior cycles, will now be budgeted in this PC this estimate cycle and going forward.

Methodology:

1. Capitation rates are typically rebased annually on a calendar year (CY) basis. Federal regulations and State law require that the rates be developed according to generally accepted actuarial principles and practices. Rates must be certified by an actuary as actuarially sound to ensure federal financial participation (FFP). The rebasing process includes refreshed data and updates to trends, program changes, and other adjustments.
2. The last seven months of the CY 2025 rates and the first five months of the CY 2026 rates have been budgeted for FY 2025-26 on a cash basis. For FY 2026-27, the last seven months of the CY 2026 rates and the first five months of the CY 2027 rates have been budgeted on a cash basis.
3. CY 2025 rates have been updated from the previous estimate. CY rates used for FY 2026-27 include estimated capitated rate adjustments for CY 2026 and CY 2027.
4. The member months in this PC are reflective of actuals through July 2025, inclusive of redetermination impacts. The COVID-19 End of Unwinding Flexibilities PC adjusts these base projections to account for incremental impacts of ending eligibility redetermination flexibilities on the Medi-Cal caseload and managed care enrollment.
5. Indian Health Services and Maternity supplemental payments are budgeted in this PC.
6. As of January 1, 2024, all components of the Targeted Rate Increase are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
7. As of January 1, 2025, Wellness Coach services are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
8. The Department receives FFP of 90% for federally eligible family planning services.
9. Costs for the Optional Targeted Low Income Children Program (OTLICP) are budgeted in the managed care model policy changes. An FMAP split of 65%/35% is budgeted for OTLICP.
10. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).

TWO PLAN MODEL

11. The Two-Plan Model rate growth from FY 2025-26 to FY 2026-27 is a 7.12% average rate increase on a cash basis.
12. Expenditures for Cost Based Reimbursement Clinics starting January 1, 2026, are budgeted in this PC.
13. The impact of the Medicare Part A Buy-In, which began January 1, 2025, is captured in this PC. The impact of the Medicare Part A Buy-In phase two expansion, starting January 1, 2026, is in the Medicare Part A Buy-In PC.
14. Two-Plan Model costs on an accrual basis are:

(Dollars in Thousands)

Purpose:

This policy change estimates the managed care capitation costs for the County Organized Health Systems (COHS) and Single Plan models.

Authority:

Welfare & Institutions Code 14087.3

Interdependent Policy Changes:

Not Applicable

Background:

A COHS is a local agency created by a county board of supervisors to contract with the Medi-Cal program. Through December 2023, there were 22 counties in the COHS model: Del Norte, Humboldt, Lake, Lassen, Marin, Mendocino, Merced, Modoc, Monterey, Napa, Orange, San Luis Obispo, Santa Barbara, Santa Cruz, San Mateo, Shasta, Siskiyou, Solano, Sonoma, Trinity, Ventura, and Yolo.

Beginning January 2024, a new Single Plan model is available, in which the Department contracts with a managed care plan that operates under the authorization and sponsorship of a county or local authority.

Effective January 2024, the following counties opted to become COHS and Single Plan model counties: Alameda, Butte, Colusa, Contra Costa, Glenn, Imperial, Mariposa, Nevada, Placer, Plumas, San Benito, Sierra, Sutter, Tehama, and Yuba.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to:

- Updated Satisfactory Immigration Status (SIS) and Unsatisfactory Immigration Status (UIS) CY 2026 rates. Total member months are slightly lower than previously estimated.
- The prior estimate assumed that enrollment would continue at levels close to those observed in January 2025 (the most recent actual month at that time). This estimate incorporates actual enrollment through July 2025 (the most recent actual month). The

COUNTY ORGANIZED HEALTH SYSTEMS & SINGLE PLAN

incremental impact of redeterminations on managed care costs is accounted for separately in the COVID-19 End of Unwinding Flexibilities policy change.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to higher anticipated member months. Also, the dollar impact of the incremental SIS and UIS rate change from current year to budget year contributes to the increase. This change, which was budgeted in the Capitated Rate Adjustment PC in prior cycles, will now be budgeted in this PC this estimate cycle and going forward.

Methodology:

1. Capitation rates are typically rebased annually on a calendar year (CY) basis. Federal regulations and State law require that the rates be developed according to generally accepted actuarial principles and practices. Rates must be certified by an actuary as actuarially sound to ensure federal financial participation (FFP). The rebasing process includes refreshed data and updates to trends, program changes, and other adjustments.
2. The last seven months of the CY 2025 rates and the first five months of the CY 2026 rates have been budgeted for FY 2025-26 on a cash basis. For FY 2026-27, the last seven months of the CY 2026 rates and the first five months of the CY 2027 rates have been budgeted on a cash basis.
3. CY 2025 rates have been updated from the previous estimate. CY rates used for FY 2026-27 include estimated capitated rate adjustments for CY 2026 and CY 2027.
4. Currently, all COHS and Single Plan managed care plans (MCPs) have assumed risk for long term care services.
5. The member months in this PC are reflective of actuals through July 2025, inclusive of redetermination impacts. The COVID-19 End of Unwinding Flexibilities PC adjusts these base projections to account for incremental impacts of ending eligibility redetermination flexibilities on the Medi-Cal caseload and managed care enrollment.
6. Indian Health Services and Maternity supplemental payments are reflected in this PC.
7. As of January 1, 2024, all components of the Targeted Rate Increase are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
8. As of January 1, 2025, Wellness Coach services are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
9. The Department receives 90% FFP for federally eligible family planning services.
10. Costs for the Optional Targeted Low Income Children Program (OTLICP) are budgeted in the managed care model policy changes. An FMAP split of 65%/35% is budgeted for OTLICP.
11. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).

COUNTY ORGANIZED HEALTH SYSTEMS & SINGLE PLAN

12. The COHS and Single Plan rate growth from FY 2025-26 to FY 2026-27 is a 6.62% average rate increase on a cash basis.
13. The impact of the Medicare Part A Buy-In, which began January 1, 2025, is captured in this PC. The impact of the Medicare Part A Buy-In, phase two expansion, starting January 1, 2026, is in the Medicare Part A Buy-In PC.
14. COHS and Single Plan dollars on an accrual basis are shown below, which excludes both WCM dollars and members:

Purpose:

This policy change estimates the managed care capitation costs for the Geographic Managed Care (GMC) model plans.

Authority:

Welfare & Institutions Code 14087.3
 AB 336 (Chapter 95, Statutes of 1991)
 SB 485 (Chapter 722, Statutes of 1992)

Interdependent Policy Changes:

Not Applicable

Background:

There are two counties in the GMC model: Sacramento and San Diego. In both counties, the Department contracts with several commercial plans providing more choices for members.

Effective January 2024, Aetna Better Health of California no longer provides services in Sacramento and San Diego counties. Health Net and United Healthcare Community Plan of California no longer provides services in San Diego County.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to:

- Updated Satisfactory Immigration Status (SIS) and Unsatisfactory Immigration Status (UIS) CY 2026 rates. Total member months are slightly lower than previously estimated.
- The prior estimate assumed that enrollment would continue at levels close to those observed in January 2025 (the most recent actual month at that time). This estimate incorporates actual enrollment through July 2025 (the most recent actual month). The incremental impact of redeterminations on managed care costs is accounted for separately in the COVID-19 End of Unwinding Flexibilities policy change.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to an anticipated increase in member months from current year to budget year. Also, the dollar impact

GEOGRAPHIC MANAGED CARE

of the incremental SIS and UIS rate change from the current year to the budget year contributes to the increase. This change, which was budgeted in the Capitated Rate Adjustment PC in prior cycles, will now be budgeted in this PC this estimate cycle and going forward.

Methodology:

1. Capitation rates are typically rebased annually on a calendar year (CY) basis. Federal regulations and State law require that the rates be developed according to generally accepted actuarial principles and practices. Rates must be certified by an actuary as actuarially sound to ensure federal financial participation (FFP). The rebasing process includes refreshed data and updates to trends, program changes, and other adjustments.
2. The last seven months of the CY 2025 rates and the first five months of the CY 2026 rates have been budgeted for FY 2025-26 on a cash basis. For FY 2026-27, the last seven months of the CY 2026 rates and the first five months of the CY 2027 rates have been budgeted on a cash basis.
3. CY 2025 rates have been updated from the previous estimate. CY rates used for FY 2026-27 include estimated capitated rate adjustments for CY 2026 and CY 2027.
4. The member months in this PC are reflective of actuals through July 2025, inclusive of redetermination impacts. The COVID-19 End of Unwinding Flexibilities PC adjusts these base projections to account for incremental impacts of ending eligibility redetermination flexibilities on the Medi-Cal caseload and managed care enrollment.
5. Indian Health Services and Maternity supplemental payments are budgeted in this PC.
6. As of January 1, 2024, all components of the Targeted Rate Increase are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
7. As of January 1, 2025, Wellness Coach services are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
8. The Department receives 90% FFP for federally eligible family planning services.
9. Costs for the Optional Targeted Low Income Children Program (OTLICP) are budgeted in the managed care model policy changes. An FMAP split of 65%/35% is budgeted for OTLICP.
10. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).
11. The GMC model rate growth from FY 2025-26 to FY 2026-27 is a 6.96% average rate increase on a cash basis.
12. The impact of the Medicare Part A Buy-In, which began January 1, 2025, is captured in this PC. The impact of the Medicare Part A Buy-In phase two expansion, starting January 1, 2026, is in the Medicare Part A Buy-In PC.

Purpose:

This policy change estimates the capitation payments under the Program of All-Inclusive Care for the Elderly (PACE).

Authority:

Welfare & Institutions Code 14591-14594
Welfare & Institutions Code 14301.1(n)
Balanced Budget Act of 1997 (BBA)
SB 870 (Chapter 40, Statutes 2014)
SB 840 (Chapter 29, Statutes 2018)

Interdependent Policy Changes:

Not Applicable

Background:

The PACE program is a capitated benefit that provides a comprehensive medical/social delivery system. Services are provided in a PACE center to older adults who would otherwise reside in nursing facilities. To be eligible, a person must be 55 years or older, reside in a PACE service area, be determined eligible at the nursing home level of care by the Department, and be able to live safely in their home or community at the time of enrollment. PACE providers assume full financial risk for members' care without limits on amount, duration, or scope of services.

The Department develops actuarial rate ranges, representing a range of rates that are actuarially appropriate, in accordance with generally accepted actuarial principles and practices, and using an experience-based rate approach that leverages PACE organizations' historical cost experience to project reasonable, appropriate, and attainable future costs. Each rate range contains a lower bound, midpoint, and upper bound. The Department selects and pays each PACE organization capitation rates within the actuarial rate ranges, not to exceed the Amount that Would Otherwise be Paid as required by the Centers for Medicare & Medicaid Services PACE Medicaid Capitation Rate Setting Guide and federal regulation.

PACE (Other M/C)

Except as may be necessary to comply with Welfare & Institutions Code section 14301.1(n)(10), the Department will cap payments to PACE organizations beginning January 1, 2027, at the midpoint of the actuarial rate ranges, such that actual payment rates are not less than the lower bound and not greater than the midpoint.

Below is a list of new PACE organizations:

New PACE Organizations	County	Operational
WelbeHealth Sierra PACE (Stockton PACE)	Sacramento	July 1, 2025
MyPlace Health South LA PACE	Los Angeles	July 1, 2025
WelbeHealth San Bernardino PACE	Riverside	July 1, 2025

Camarena Health	Los Angeles	January 1, 2027
LGBT Center	Los Angeles	January 1, 2027

PACE (Other M/C)

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated expenditures through June 2025, which increased the estimated trend for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to a projected increase in enrollment and higher rates.

Methodology:

1. Assume the calendar year (CY) 2025, CY 2026, and CY 2027 rates will be calculated using plan specific experienced-based data to build actuarially sound prospective rates.
2. FY 2025-26 and FY 2026-27 estimated funding is based on CY 2025 rates and projected CY 2026 and CY 2027 rates and enrollments. Beginning January 1, 2027, except as previously indicated, PACE payment rates will not exceed the midpoint of the actuarial rate ranges.
3. Assume enrollment will increase based on past enrollment in PACE organizations by county and plan and projected enrollments for new PACE organizations.
4. Health care plans that began January 2025 or later are not in the total fund (TF) or general fund (GF) due to costs being recognized in other fee-for-service Medi-Cal plans or managed care plans.

Purpose:

This policy change estimates the managed care capitation costs for the Regional model plans.

Authority:

AB 1467 (Chapter 23, Statutes of 2012)

Interdependent Policy Changes:

Not Applicable

Background:

Managed care was previously in 30 counties. AB 1467 expanded managed care into the remaining 28 counties across the state. Expanding managed care into rural counties ensures that members throughout the state receive health care through an organized delivery system that coordinates their care and leads to better health outcomes and lower costs.

Through December 2023, there were 20 counties in the Regional Model: Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Imperial, Inyo, Mariposa, Mono, Nevada, Placer, Plumas, San Benito, Sierra, Sutter, Tehama, Tuolumne, and Yuba.

Effective January 1, 2024, the following 15 counties opted to change managed care plan model type and are no longer participating in the Regional Model: Alpine, Butte, Colusa, El Dorado, Glenn, Imperial, Mariposa, Nevada, Placer, Plumas, San Benito, Sierra, Sutter, Tehama, and Yuba.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to:

- Updated Satisfactory Immigration Status (SIS) and Unsatisfactory Immigration Status (UIS) CY 2026 rates. Total member months are slightly higher than previously estimated.
- The prior estimate assumed that enrollment would continue at levels close to those observed in January 2025 (the most recent actual month at that time). This estimate incorporates actual enrollment through July 2025 (the most recent actual month). The

REGIONAL MODEL

incremental impact of redeterminations on managed care costs is accounted for separately in the COVID-19 End of Unwinding Flexibilities policy change.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to an anticipated increase in member months from current year to budget year. Also, the dollar impact of the incremental SIS and UIS rate change from FY 2025-26 to FY 2026-27 contributes to the increase. This change, which was budgeted in the Capitated Rate Adjustment PC in prior cycles, will now be budgeted in this PC this estimate cycle and going forward.

Methodology:

1. Capitation rates are typically rebased annually on a calendar year (CY) basis. Federal regulations and State law require that the rates be developed according to generally accepted actuarial principles and practices. Rates must be certified by an actuary as actuarially sound in order to ensure federal financial participation (FFP). The rebasing process includes refreshed data and updates to trends, program changes, and other adjustments.
2. The last seven months of the CY 2025 rates and the first five months of the CY 2026 rates have been budgeted for FY 2025-26 on a cash basis. For FY 2026-27, the last seven months of the CY 2026 rates and the first five months of the CY 2027 rates have been budgeted on a cash basis.
3. CY 2025 rates have been updated from the previous estimate. CY rates used for FY 2026-27 include estimated capitated rate adjustments for CY 2026 and CY 2027.
4. The member months in this PC are reflective of actuals through July 2025, inclusive of redetermination impacts. The COVID-19 End of Unwinding Flexibilities PC adjusts these base projections to account for incremental impacts of ending eligibility redetermination flexibilities on the Medi-Cal caseload and managed care enrollment.
5. Indian Health Services and Maternity supplemental payments are reflected in this PC.
6. As of January 1, 2024, all components of the Targeted Rate Increase are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
7. As of January 1, 2025, Wellness Coach services are included as a covered managed care benefit. The costs associated with these services are reflected in the rates.
8. The Department receives 90% FFP for federally eligible family planning services.
9. Costs for the Optional Targeted Low Income Children Program (OTLICP) are budgeted in the managed care model policy changes. An FMAP split of 65%/35% is budgeted for OTLICP.
10. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).

REGIONAL MODEL

11. The Regional Model rate growth from FY 2025-26 to FY 2026-27 is a 7.34% average rate increase on a cash basis.
12. The impact of the Medicare Part A Buy-In, which began January 1, 2025, is captured in this PC. The impact of the Medicare Part A Buy-In phase two expansion, starting January 1, 2026, is in the Medicare Part A Buy-In PC.
13. Regional Model dollars on an accrual basis are:

DENTAL MANAGED CARE (Other M/C)

Background:

The DMC program provides a comprehensive approach to dental health care, combining clinical services and administrative procedures that are organized to provide timely access to primary care and other necessary services in a cost-effective manner. The Department contracts with three Geographic Managed Care (GMC) plans and three Prepaid Health Plans (PHP). These plans provide dental services to Medi-Cal members in Sacramento and Los Angeles counties.

Each dental plan receives a monthly per capita rate for every recipient enrolled in their plan. DMC program recipients enrolled in contracting plans are entitled to receive dental benefits from dentists within the plan's provider network.

AB 82 restored partial adult optional dental benefits, including full mouth dentures. Effective May 1, 2014, the scope of covered adult dental services offered at any dental service-rendering location that serves Medi-Cal members, including Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs), is limited to the adult optional benefits restored May 1, 2014, in addition to the adult dental benefits which include services for pregnant women, emergency services, Federally Required Adult Dental Services (FRADs), services provided at an Intermediate Care Facility/Skilled Nursing Facility, and services for Department of Developmental Services consumers. Effective January 1, 2018, the full restoration of adult dental benefits includes the remaining services which were not restored in 2014, such as restorative services (crowns), prosthodontic services (partial dentures), and endodontic services (root canals). The impact of the restoration of adult dental benefits is included in the capitation rates.

The Medi-Cal DMC plan contracts establish a single-sided risk corridor in the form of a minimum Medical Loss Ratio (MLR) of 85% beginning with FY 2019-20 rating period. The Department will require DMC plans to remit necessary funds that do not meet the 85% threshold. These recoupments are budgeted in a separate policy change.

New contracts were procured and awarded to three DMC Plans for FY 2025-26: Liberty Dental Plan of California, California Dental Network, Inc., and Health Net Community Solutions, Inc. Each of the plans will assume operations on July 1, 2025, in both Sacramento and Los Angeles County.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated eligible counts and rates. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to updated enrollment projections and rates.

Methodology:

1. Effective July 1, 2009, separate dental managed care rates have been established for those enrollees under age 21. Beginning March 2011, these rates are paid on an ongoing basis.
2. Any portion of the rate attributable to Proposition 56 Supplemental Payments is captured in their respective policy changes.
3. A 3% compliance withhold is held back every month per the contract with the DMC plans. The withhold amount is returned no sooner than April of the following fiscal year if performance measures in the contract are met.

DENTAL MANAGED CARE (Other M/C)

4. Effective January 1, 2023, a new 3% performance withhold will be held back every month per the contract with the health plans. The withhold amount is returned no sooner than April of the following fiscal year if the plans are in compliance with the contract.
5. There are no withholds budgeted for calendar year 2024 or calendar year 2025, but compliance withholds will resume in calendar year 2026 and performance withholds will resume in calendar year 2027.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the capitated payments associated with the enrollment of dual eligible Medicare/Medi-Cal members in the Senior Care Action Network (SCAN) Health Plan.

Authority:

Welfare & Institutions Code 14200

Interdependent Policy Changes:

Not Applicable

Background:

SCAN is a Medicare Advantage Fully Integrated Dual Eligible Special Needs Plan (FIDE SNP) that contracts with the Department to coordinate and provide health care services on a capitated basis for persons aged 65 and older with both Medicare and Medi-Cal coverage in Los Angeles, San Bernardino, and Riverside Counties. Expansion to San Diego County occurred January 1, 2023. Enrollees who are certified for Skilled Nursing Facility (SNF) and Intermediate Care Facility (ICF) levels of care are eligible for additional Home and Community Based Services (HCBS) through the SCAN Health Plan Independent Living Power program.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated Calendar Year (CY) 2026 cost projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to updated CY 2027 costs projections.

Methodology:

1. Estimated SCAN costs are calculated by multiplying the actual and estimated monthly member counts for each county by the capitated rates for each county and the member type – Aged and Disabled or Long-Term Care.
2. Assume average monthly members of 18,714 in FY 2025-26 and 19,247 in FY 2026-27.
3. The CY 2025 rates are final rates.

SENIOR CARE ACTION NETWORK (Other M/C)

4. CY 2026 rates and CY 2027 were projected by trending forward the CY 2025 final rates.
5. Assume seven months of CY 2025 rating period payments and five months of CY 2026 rating period payments are paid in FY 2025-26.
6. Assume seven months of CY 2026 rating period payments and five months of CY 2027 rating period payments are paid in FY 2026-27.
7. Anticipated costs by county on a cash basis are:

(Dollars in Thousands)

FY 2025-26	Costs	Member Months	Avg. Monthly Members

GENERAL FUND	\$20,179,000	\$20,180,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the benefits cost for the Medi-Cal Access Program (MCAP) mothers with incomes between 213-322% of the federal poverty level (FPL).

Authority:

AB 99 (Chapter 278, Statutes of 1991)
 SB 800 (Chapter 448, Statutes of 2013)
 SPA 17-0043
 SPA 17-0044
 SPA 18-0028
 SPA 22-0041

Interdependent Policy Changes:

Not Applicable

Background:

MCAP covers pregnant women in families with incomes between 213-322% of the FPL. Effective July 1, 2022, premium contribution amounts were reduced to \$0.00. The Department integrated eligibility rules for MCAP into the California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS) in October 2015. The Department maintained a health plan delivery system for MCAP that was separate from the Medi-Cal delivery system until September 30, 2016. The Department made final reconciliation payments to health plans under the erstwhile delivery system in FY 2018-19.

Effective October 1, 2016, the Department enrolled new MCAP mothers in the Fee-for-Service (FFS) delivery system. The Centers for Medicare and Medicaid Services approved State Plan Amendment (SPA) CA 18-0028, authorizing the Department to enroll MCAP mothers in the Medi-Cal managed care (MMC) plans, beginning July 1, 2017. All MCAP mothers will remain in the delivery system in which they enrolled until the end of the post-partum period to maintain continuity of care.

MEDI-CAL ACCESS PROGRAM MOTHERS 213-322% FPL

Reason for Change:

The change for FY 2025-26 from the prior estimate is a slight increase due to projecting higher caseload due to updated actuals. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Based on actual enrollment, the Department estimates the following:

Program Forecast	FY 2025-26	FY 2026-27
Average Monthly Caseload	6,529	6,529
Average Expected Deliveries	392	392
Per Member Per Month (PMPM)	\$210.41	\$210.41

2. Approximately 7% of new enrollees are initially enrolled in FFS. These enrollees are estimated to be reclassified to Managed Care within two months.
3. The Department assumes 10% of monthly subscribers have a maternity only deductible exceeding \$500 and are ineligible for FFP.
4. The total estimated costs for MCAP mothers in FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

GENERAL FUND	\$5,471,200	\$5,471,200
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs for the County Health Initiative Matching (CHIM) fund for the County Children's Health Initiative Program (CCHIP), as well as Medi-Cal costs and premium collection.

Authority:

AB 495 (Chapter 648, Statutes of 2001)
 SB 800 (Chapter 448, Statutes of 2013)
 SB 857 (Chapter 31, Statutes of 2014)
 SPA 17-0043
 SPA 17-0044
 SPA 22-0041
 SB 184 (Chapter 47, Statutes of 2022)

Interdependent Policy Changes:

Not Applicable

Background:

AB 495 created the CHIM fund, which funds the CCHIP, to provide health insurance coverage to low-income children under the age of 19.

Effective July 1, 2014, SB 857 eliminated the Managed Risk Medical Insurance Board and transferred its responsibilities to the Department. The bill also prohibits the Department from approving additional local entities for participation in the program. In addition, SB 857 required local entities that were participating in the program on March 23, 2010, to continue to participate in the program, maintaining eligibility standards, methodologies, and procedures at least as favorable as those in effect on March 23, 2010, through September 30, 2019. If a county participating in the program on March 23, 2010, elected to cease funding the non-federal share of program expenditures during the maintenance effort timeframe, the bill required the Department to provide funding from the General Fund (GF) in amounts equal to the total non-federal share of incurred expenditures.

COUNTY CHILDREN'S HEALTH INITIATIVE PROGRAM

On March 7, 2016, CCHIP integrated into the California Healthcare Eligibility, Enrollment, and Retention System.

Effective October 1, 2019, the Department transitioned CCHIP members into the Medi-Cal Managed Care (MCMC) delivery system and also transitioned all administrative functions, such as premium collection and case management, for CCHIP to MAXIMUS. MAXIMUS is the current administrator vendor for the Medi-Cal Access Program (MCAP) and the Optional Targeted Low Income Program (OTLIP). The OTLIP, MCAP, Special Populations Admin Costs policy change contains costs for MAXIMUS' administrative functions and contract transition responsibilities. CCHIP premium collections and benefit costs for CCHIP eligible members are still reflected in this policy change. Effective July 1, 2022, premium contribution amounts were reduced to \$0.00.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to projecting an increase in enrolled members as well as an increase in costs per member. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Beginning January 1, 2014, Santa Clara and San Mateo Counties elected not to provide funding for the non-federal share of the IGTs. Beginning January 1, 2015, San Francisco County elected not to provide funding for the non-federal share of the IGTs.
2. Effective July 1, 2022, premium contribution amounts were reduced to \$0.00.
3. Effective October 2019, CCHIP members transitioned into the MCMC delivery system and all administrative functions transitioned to MAXIMUS.
4. Assume a one-month lag in costs for Managed Care.
5. Assume there will be approximately 8,983 CCHIP members in FY 2025-26 and FY 2026-27.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of capitation rates for AIDS Healthcare Foundation (AHF), which operates as a full-risk specialized Medi-Cal managed care program for adults living with AIDS.

Authority:

Welfare & Institutions Code 14088.85
Welfare & Institutions Code 14184.208

Interdependent Policy Changes:

Not Applicable

Background:

The HIV/AIDS capitated case management project in Los Angeles became operational in April 1995.

Effective July 1, 2019, AHF transitioned to a full risk-managed care plan as approved by the Department. AHF provides covered health services for members who are at least 21 years old and who have had a diagnosis of stage three human immunodeficiency virus (HIV) infection.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated CY 2026 rate growth. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to projected CY 2026 and CY 2027 enrollment and rate growth.

Methodology:

- Assume the following member months on an accrual basis:

Member Months	Dual	Medi-Cal Only
CY 2025	3,727	8,018
CY 2026	3,790	8,122
CY 2027	3,827	8,185

AIDS HEALTHCARE CENTERS (Other M/C)

2. Assume the following paid rates:

Paid Rates	Dual	Medi-Cal Only

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the fee-for-service (FFS) benefit cost, Medi-Cal Managed Care carve-out costs, and premium payments for the Medi-Cal Access Infant Program (MCAIP) infants with family incomes between 266-322% of the federal poverty level (FPL).

Authority:

AB 82 (Chapter 23, Statutes of 2013)
 SPA 17-0043
 SPA 17-0044
 SPA 22-0041

Interdependent Policy Changes:

Not Applicable

Background:

Effective November 1, 2013, MCAIP infants transitioned into the Medi-Cal delivery system through a phase-in methodology. MCAIP infants began enrollment into Medi-Cal Managed Care in July 2014.

The Department integrated eligibility rules for MCAIP into the California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS) in October 2015, with additional updates that occurred in 2020. Similar to subscribers enrolled in the Optional Targeted Low Income Children's Program (OTLICP) with family incomes at or above 160% of the FPL, subscribers enrolled in MCAIP are subject to premiums. Effective July 1, 2022, premium contribution amounts were reduced to \$0.00.

Reason for Change:

The change for FY 2025-26 from the prior estimate is a slight increase due to projecting overall higher per member, per month (PMPM) costs and caseload due to updated actuals. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

MEDI-CAL ACCESS INFANT PROGRAM 266-322% FPL**Methodology:**

1. The Department estimates the average monthly FFS enrollment will be 274 in FY 2025-26 and FY 2026-27, and the average monthly Medi-Cal Managed Care enrollment will be 578 in FY 2025-26 and FY 2026-27.
2. The Department estimates the weighted average PMPM cost will be \$180.68 in FY 2025-26 and FY 2026-27 for FFS infants, and \$230.20 in FY 2025-26 and FY 2026-27 for Medi-Cal Managed Care infants.
3. The total estimated costs for MCAIP infants in FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Benefits	\$2,191	\$767	\$1,424

Purpose:

This policy change estimates Medi-Cal's expenditures for Medicare Part A and Part B premiums.

Authority:

Title 22, California Code of Regulations 50777
Social Security Act 1843

Interdependent Policy Changes:

Not Applicable

Background:

This policy change estimates the costs for Part A and Part B premiums for Medi-Cal members that are also eligible for Medicare coverage.

Reason for Change:

Expenditures for FY 2025-26 were revised up 20.08% from the prior estimate:

- Actual caseload is higher than previously projected due to the Medicare Part A Buy-In Agreement with the Centers for Medicare and Medicaid Services (CMS), effective January 1, 2025. The Medicare Part A Buy-In Agreement enables Qualified Medicare Beneficiary (QMB) eligible individuals to be automatically enrolled in Medicare Part A, resulting in an increase in caseload and expenditures. The increase in expenditures was previously estimated in the Medicare Part A Buy-In Program policy change, but it is now incorporated in this policy change.
- The 2026 Part A and Part B premium was revised upward by \$45.00 and \$21.50 as compared to the prior estimate.

Expenditures are projected to grow by 9.50% between FY 2025-26 and FY 2026-27 due to an estimated increase in the Part A premium of \$29.00 and Part B premium of \$12.10 between 2026 and 2027.

MEDICARE PMNTS.- BUY-IN PART A & B PREMIUMS

Premiums:

Calendar Year	2025	2026		2027
	Actual	May 2025 Estimate	Nov 2025 Estimate	Nov 2025 Estimate
Part A	\$518.00	\$530.00	\$563.00	\$592.00
Part B	\$185.00	\$186.90	\$206.50	\$218.60

Average Monthly Beneficiaries:

FY	2024-25	2025-26		2026-27
	Actual	May 2025 Estimate	Nov 2025 Estimate	Nov 2025 Estimate
Part A	169,932	158,613	268,137	268,071
Part B	1,692,475	1,734,281	1,770,585	1,808,777

Methodology:

1. The Centers for Medicare and Medicaid set the following premiums for 2025.

Calendar Year	Part A	Part B
2025	\$518.00	\$185.00

2. For 2026 and 2027, the Boards of Trustees of the Federal Hospital Insurance and Federal Supplementary Medical Insurance is projecting 8.69% and 5.15% respective growth in the Medicare Part A premium. Applying this growth to the prior year Part A premium calculates as $\$518.00 \times 1.0869 = \$563.00$ and $\$563.00 \times 1.0515 = \$592.00$ (rounded).
3. For 2026 and 2027, the Boards of Trustees of the Federal Hospital Insurance and Federal Supplementary Medical Insurance is projecting 11.62% and 5.86% respective growth in the Medicare Part B premium. Applying this growth to the prior year Part B premium calculates as $\$185.00 \times 1.1162 = \$206.50$ and $\$206.50 \times 1.0586 = \$218.60$ (rounded).

FEDERAL FUNDS	\$4,437,012,000	\$4,911,772,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change provides Title XIX federal financial participation (FFP) to the California Department of Social Services (CDSS) for Medi-Cal members participating in the In-Home Supportive Services (IHSS) programs: the Personal Care Services Program (PCSP) and the IHSS Plus Option (IPO) program administered by CDSS.

Authority:

Social Security Act (42 U.S.C., Section 1396, et. seq.)
 PCSP Interagency Agreements (IA) 03-75676
 IPO IA 09-86307
 SB 1036 (Chapter 45, Statutes of 2012)
 SB 1008 (Chapter 33, Statutes of 2012)
 Families First Coronavirus Response Act (FFCRA)
 Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

Eligible services are authorized under Title XIX of the federal Social Security Act (42 U.S.C., Section 1396, et. seq.). The Department draws down and provides FFP to CDSS through IAs for the IHSS PCSP and the IPO program.

SB 1008 enacted the Coordinated Care Initiative (CCI) which required, in part, mandatory enrollment for dual eligible members into managed care for their Medi-Cal benefits. Those benefits included IHSS. Beginning April 1, 2014, some IHSS costs were paid through managed care capitation due to IHSS recipients transitioning into managed care. Effective January 1, 2018, IHSS are no longer included in the managed care capitation, thus all costs for IHSS eligible services are captured in this policy change.

FFP for the county cost of administering the PCSP is in the Personal Care Services policy change located in the Other Administration section of the Estimate.

PERSONAL CARE SERVICES (Misc. Svcs.)

The Governor's Budget estimated the CCI project would no longer be cost-effective. Therefore, pursuant to the provisions of current law, the program was discontinued in FY 2017-18. Based on the lessons learned from the CCI demonstration project, the Budget proposed the extension of the Cal MediConnect program and the mandatory enrollment of dual eligible members and integrating of long-term services and supports, except IHSS, into managed care. IHSS were removed from capitation rate payments effective January 1, 2018.

Reason for Change:

There is a decrease from the prior estimate for FY 2025-26, and an increase from FY 2025-26 to FY 2026-27 in the current estimate, due to updated expenditure data provided by CDSS.

Methodology:

- The following estimates were provided by CDSS on an accrual basis.

(Dollars in Thousands)

FY 2025-26	TF	FF	CDSS GF/ County Share
Title XIX 100% FFP	\$8,918,485	\$4,459,243	\$4,459,242

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match for the California Department of Developmental Services (CDDS) for the Home & Community Based Services (HCBS) program.

Authority:

Interagency Agreement 01-15834

Interdependent Policy Changes:

Not Applicable

Background:

CDDS, under a federal HCBS waiver, offers and arranges for non-State Plan Medicaid services via the Regional Center system. The HCBS waiver allows the State to offer these services to individuals who would otherwise require the level of care provided in a hospital, nursing facility (NF), or in an intermediate care facility for the developmentally disabled (ICF/DD). Services covered under this waiver include but are not limited to: home health aide services, habilitation, transportation, communication aides, family training, homemaker/chore services, nutritional consultation, specialized medical equipment/supplies, respite care, personal emergency response system, crisis intervention, supported employment and living services, home and vehicle modifications, prevocational services, skilled nursing, residential services, and transition/set-up expenses.

While the General Fund for this waiver is in the CDDS budget on an accrual basis, the federal funds in the Department's budget are on a cash basis.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to an increase in prior year paid expenditures due to service utilization and growth in consumer populations.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to projected increases in expenditures with an increase in service utilization and prior year expenditures for FY 2026-27.

HOME & COMMUNITY-BASED SVCS.-CDDS (Misc.)**Methodology:**

1. The following estimates, on a cash basis, were provided by CDDS:

(Dollars in Thousands)

GENERAL FUND	\$4,041,788,000	\$4,354,830,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates Medi-Cal's Medicare Part D expenditures.

Authority:

The Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003

Interdependent Policy Changes:

Not Applicable

Background:

Medicare's Part D benefit began January 1, 2006. Part D provides a prescription drug benefit to all dual eligible members and other Medicare eligible members that enroll in Part D. Dual eligible members had previously received drug benefits through Medi-Cal.

To help pay for this benefit, the federal government requires the states to contribute part of their savings for no longer providing the drug benefit to dual eligible members. This is called the Phased-down Contribution or "clawback". In 2006, states were required to contribute 90% of their savings. This percentage decreased by 1 ⅓% each year until it reached 75% in 2015. The MMA of 2003 sets forth a formula to determine a state's "savings." The formula uses 2003 as a base year for states' dual eligible population drug expenditures and increases the average dual eligible drug costs by a growth factor to reach an average monthly phased-down contribution cost per dual eligible or the per member per month (PMPM) rate.

MEDICARE PAYMENTS - PART D PHASED-DOWN

Medi-Cal's Part D Per Member Per Month (PMPM) rate:

<u>Calendar Year</u>	<u>PMPM rate</u>
2023	\$155.08
2024	\$167.50
2025	\$181.87
2026	\$189.63
2027	\$200.75 (estimated)

Medi-Cal's total payments on a cash basis and average monthly eligible members by fiscal year:

Fiscal Year	Total Payment	Ave. Monthly Members
FY 2022-23	\$2,622,797,792	1,656,292
FY 2023-24	\$3,144,217,563	1,707,898
FY 2024-25	\$3,630,650,591	1,756,171

Reason for Change:

Expenditure projections for FY 2025-26 were revised higher by 2.74% from the prior estimate:

- Actual caseload data through July 2025 has continued to grow in a trend similar to the Medi-Cal senior & persons with disabilities caseload category. Projections continue this historical growth trend into FY 2026-27.

Expenditures are projected to increase 7.75% between FY 2025-26 and FY 2026-27 in the current estimate because:

- An estimated increase in the PMPM rate of \$11.12, a 5.86% year over year increase, for 2027, and
- Estimated caseload growth continues to increase based on the new historical trend.

Methodology:

- The 2025 growth increased 8.58% over 2024 amounts per the *Centers for Medicare & Medicaid Services*. Medi-Cal's PMPM rate for 2025 is \$181.87.
- The 2026 growth increased 4.27% over 2025 amounts per the *Centers for Medicare & Medicaid Services*. Medi-Cal's PMPM rate for 2026 is \$189.63.
- The 2027 growth is estimated to increase 5.86% over 2026 amounts per the *Centers for Medicare & Medicaid Services*. Medi-Cal's estimated PMPM rate for 2027 is \$200.75.
- Phase-down payments have a two-month lag (i.e. the invoice for January is received in February and due in March).
- The average monthly eligible members are estimated using the growth trend in the monthly Part D enrollment data from May 2018 to July 2025.

MEDICARE PAYMENTS - PART D PHASED-DOWN

	Payment Months	Est. Ave. Monthly Members	Est. Ave. Monthly Cost	Total Cost

Purpose:

This policy change estimates the cost of dental services.

Authority:

Social Security Act, Title XIX

AB 82 (2013, Chapter 23), Section 14131.10 of the Welfare & Institutions Code

Interdependent Policy Changes:

COVID-19 Redetermination Impact

Background:

These dental costs are for fee-for-service (FFS) Medi-Cal members. Dental costs for members with dental managed care plans are shown in the Dental Managed Care Policy Change. PACE, SCAN, and Health Plan of San Mateo plans which also provide dental benefits are captured in other Policy Change Documents.

Gainwell Technologies LLC (GWT) was awarded a multi-year Fiscal Intermediary-Dental Business Operations (FI-DBO) contract in 2022, and replaced Delta Dental of California (Delta) contract on May 13, 2024. The FI-DBO contractor is responsible for duties including claims processing, provider enrollment, and outreach for the Medi-Cal Dental FFS Program. GWT was awarded a multi-year Fiscal Intermediary (FI) contract in 2016. The FI contractor is responsible for duties to operate and maintain the California Medicaid Management Information System (CD-MMIS).

The Medi-Cal Dental program covers a broad range of dental services for both children (0-20) and adults (21 and older) including, but not limited to the following dental service categories: diagnostic, preventive, restorative, endodontic, prosthodontic, and oral maxillofacial surgery services.

DENTAL SERVICES

Reason for Change:

The change from the previous estimate for FY 2025-26 is a decrease of \$37.4M (1.3%), reflecting lower user numbers and reduced utilization, especially within the ACA and Other aid categories.

The difference between CY 2025-26 and BY 2026-27 in the current estimate is a \$52.2M (1.8%) decrease in users and utilization across all aid categories, resulting from updated actuals and enrollment projections.

Methodology:

1. Dental expenditures are estimated using 36 months of cash-basis expenditure data (July 2022 – June 2025) and trending Users, Units/User, and Rate.
2. A portion of Proposition 56 Supplemental Payments, CalAIM - Dental Initiatives, and Evidence-Based Dental Practices estimates are included in this policy change.
3. Dental services estimates for the Breast and Cervical Cancer Treatment Program (BCCTP) are included in the BCCTP policy change.

GENERAL FUND	\$321,813,500	\$335,800,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of waiver personal care services (WPCS) under the Home and Community-Based Alternatives (HCBA) Waiver.

Authority:

AB 668 (Chapter 896, Statutes of 1998)
 Interagency Agreement (IA) 19-96360
 AB 1811 (Chapter 35, Statutes of 2018)
 SB 214 (Chapter 300, Statutes of 2020)

Interdependent Policy Changes:

Not Applicable

Background:

The HCBA Waiver provides Home and Community-Based Services (HCBS) to Medi-Cal eligible waiver members using specific Level of Care (LOC) criteria. AB 668 added section 14132.97 to the Welfare and Institutions Code and authorized WPCS, which provides personal care services for Medi-Cal members that are eligible for the Medi-Cal Skilled Nursing Facility (NF) LOC HCBS Waiver program. WPCS include personal care services, in addition to, and that differ from those in the State Plan In-Home Supportive Services (IHSS) program, and which allow members to remain at home. Although there is no longer a requirement that waiver members receive a maximum of 283 hours of IHSS prior to receiving WPCS, waiver members must be eligible to receive State Plan IHSS hours prior to accessing this waiver service. WPCS are provided by the counties' IHSS program providers and paid via an IA with the California Department of Social Services (CDSS). The Department leverages CDSS' Case Management, Information, and Payrolling System to enroll and manage WPCS providers, and to process claims and payments.

Beginning FY 2018-19, the county, or the public authority or nonprofit consortium, as defined, deems to be the employer to meet and confer in good faith regarding wages, benefits, and other terms and conditions of employment of individuals providing WPCS. For service dates on or after the effective date of federal approval obtained by the Department, wages, benefits, and all other terms and conditions of employment for individuals providing WPCS are required to be

WAIVER PERSONAL CARE SERVICES (Misc. Svcs.)

equal to the wages, benefits, and other terms and conditions of employment in the respective county for the individual provider mode of services in the IHSS program. Prospective minimum wage increases for WPCS providers are budgeted in the Minimum Wage Increase for HCBS Waivers policy change. If eligibility for benefits requires a provider to work a threshold number of hours, eligibility would be required to be determined based on the aggregate number of monthly hours worked between IHSS and WPCS. Beginning FY 2019-20, WPCS care providers can access sick leave time.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to clearing backlogged invoices. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase based on claims data trending slightly higher month over month.

Methodology:

1. The chart below is on a cash basis.

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$637,905	\$321,813	\$316,092

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match for the California Department of Developmental Services (CDDS) for regional center targeted case management services provided to eligible developmentally disabled clients.

Authority:

Interagency Agreement (IA) 03-75284

Interdependent Policy Changes:

Not Applicable

Background:

Authorized by the Lanterman Act, the Department entered into an IA with CDDS to reimburse the Title XIX federal financial participation (FFP) for targeted case management services for Medi-Cal eligible clients. There are 21 CDDS Regional Centers statewide that provide these services. CDDS conducts a time study every three years and an annual administrative cost survey to determine each regional center's actual cost to provide Targeted Case Management (TCM). A unit of service reimbursement rate for each regional center is established annually. To obtain FFP, the federal government requires that the TCM rate be based on the regional center's cost of providing case management services to all of its consumers with developmental disabilities, regardless of whether the consumer is TCM eligible.

The General Fund is in the CDDS budget on an accrual basis. The federal funds in the Department's budget are on a cash basis.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to an increase in caseload, billable units and prior year expenditures.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a projection of increased caseload, billable units and prior year expenditures.

TARGETED CASE MGMT. SVCS. - CDDS (Misc. Svcs.)**Methodology:**

1. The following estimates, on a cash basis, were provided by CDDS:

(Dollars in Thousands)

Fiscal Year	TF	CDDS GF	DHCS FFP
FY 2025-26	\$922,002	\$461,001	\$461,001

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of Medi-Cal lawsuit judgments, settlements, and attorney fees that are not shown in other policy changes.

Authority:

Not Applicable

Interdependent Policy Changes:

Not Applicable

Background:

The State Legislature appropriates funds to pay the costs related to Medi-Cal lawsuits and claims. Larger lawsuit settlement amounts require both State Legislature and the Governor's approval for payment. Federal financial participation is claimed for all eligible lawsuit settlements approved by the Legislature and the Governor.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to additional lawsuit settlement payments expected to be made. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to fewer lawsuit settlement payments expected to be made.

Purpose:

This policy change estimates the federal match provided to the California Department of Developmental Services (CDDS) for the Developmental Center (DC) and the State Operated Facility (SOF).

Authority:

Interagency Agreement (IA) 03-75282
IA 03-75283

Interdependent Policy Changes:

Not Applicable

Background:

The Department entered into an IA with CDDS to reimburse the Federal Financial Participation (FFP) for Medi-Cal clients served at one DC and one SOF. The DC is licensed as an intermediate care facility and a general acute care hospital, and the SOF is licensed as an intermediate care facility.

The General Fund (GF) is included in the CDDS budget on an accrual basis and the federal funds in the Department's budget are on a cash basis.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to projected higher Medi-Cal billings.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to lower projections in paid and prior year expenditures for FY 2026-27.

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to Local Government Agencies (LGAs) for the Targeted Case Management (TCM) program.

Authority:

Welfare & Institutions Code 14132.44
SB 910 (Chapter 1179, Statutes of 1991)

Interdependent Policy Changes:

Not Applicable

Background:

The TCM program provides funding to LGAs based on certified public expenditures incurred for assisting Medi-Cal members in gaining access to needed medical, social, educational, and other services. TCM services include needs assessment, individualized service plans, referral, and monitoring/follow-up. Through rates established from the annual cost reports, LGAs submit invoices to the Department to claim federal financial participation (FFP) and receive interim payments. Counties are then required to submit annual cost reports that are audited by the Department and are used to reconcile those interim payments with a county's audited costs. Counties either receive additional funding if costs exceeded the interim payments or counties are required to reimburse the federal funds if interim payments exceeded their costs.

Additionally, effective FY 2024-25, the majority of qualifying TCM beneficiaries will be referred to California Advancing and Innovating Medi-Cal's (CalAIM) Enhanced Care Management (ECM) program. TCM providers will no longer serve Medi-Cal members who qualify for ECM, except for a few exceptions for a set limited period of time. The Department is intentionally pursuing this strategy to avoid duplication of services between TCM and ECM, while promoting comprehensive care management through a broader network of providers.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased

MEDI-CAL TCM PROGRAM

FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- Base Regular and Affordable Care Act (ACA) expenditures are estimated to decrease based on updated payment data and the transition of TCM services to Managed Care Plan ECM services.
- Payments due to LGAs withdrawing from the TCM program through State Plan Amendments (SPAs) 25-0017, 25-0020, 25-0021 are estimated in FY 2025-26.
- FFCRA FFP payments are estimated to increase based on updated payment data.
- Reconciliation reimbursements for FFCRA claims increased based on updated audit report data. Reconciliation recoupments for Regular claims decreased and recoupments for ACA reconciliation claims increased.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- Anticipated declines in estimated base and ACA invoices due to the continued transition of services from TCM to ECM,
- Payments to LGA for SPA impacts are not estimated in FY 2026-27, and
- Reconciliation recoupments are expected to decrease for Regular and ACA claims. FFCRA claims are estimated to be recoupments in FY 2026-27 compared to payments in FY 2025-26.

Methodology:

1. SPA 10-010, approved on December 19, 2013, and effective October 16, 2010, included interim and final reconciliations of LGAs costs for providing TCM.
2. The projected base payment amounts of \$5,500,000 (Regular invoices) and \$974,000 ACA invoices for FY 2025-26 are based on:
 - a. Actual FY 2023-24 and FY 2024-25 invoices scheduled to be paid.
 - b. The remainder of invoices are estimated to be received for FY 2024-25 which are anticipated to be consistent with historical trends for submissions.
 - c. Estimated FY 2025-26 invoices which are comparable with the estimated total for FY 2024-25, thereby incorporating the impact of the implementation of Enhanced Care Management (ECM) related policy as of FY 2024-25. Consistent with historical trends, 30% of invoices are anticipated to be paid during the same FY and the remainder to be paid during the subsequent year.
3. The projected base payment amounts of \$4,853,000 (Regular invoices) and \$747,000 (ACA invoices) for FY 2026-27 are based on
 - a. The remainder of unpaid estimated invoices for FY 2025-26.
 - b. Estimated FY 2026-27 invoices that incorporate a decrease from the estimate for FY 2025-26 based on historical claims that would otherwise have been eligible through glide path exceptions which were provided during the ECM policy implementation and are no longer in effect. Consistent with historical trends, 30% of invoices for FY 2026-27 are anticipated to be paid during the same FY and the remainder anticipated to be paid during the subsequent year.
4. On a cash basis, the FFCRA Increased FMAP of \$51,000 is expected to be paid in FY 2025-26, and -\$406,000 in FY 2026-27.

MEDI-CAL TCM PROGRAM

5. In FY 2025-26 and FY 2026-27, the Department will complete reconciliations for FY 2021-22 through FY 2024-25. The Department expects to receive a net amount of \$510,000 for actual and estimated audit reports during FY 2025-26 and to receive a net amount of \$774,000 for estimated audit reports during FY 2026-27. The Department anticipates the recoupment/payment of these amounts based on previous invoice history, reimbursement history, and history of reconciliation payments.

GENERAL FUND	\$153,000	\$160,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the payouts for the Department's Health Insurance Premium Payment (HIPP) program.

Authority:

Welfare & Institutions Code 14124.91
 Social Security Act 1905(a), 1906(a)(3), 1906A(e), and 1916(e)
 Title 22 California Code of Regulations 50778 (Chapter 2, Article 15)
 State Plan Amendment 24-0035

Interdependent Policy Changes:

Not Applicable

Background:

The HIPP program is a voluntary program for full-scope Medi-Cal members who have a high-cost medical condition. Under the HIPP program, the Department pays for premiums, coinsurance, deductibles, and other cost sharing obligations when it is cost effective. HIPP program costs are budgeted separately from other Medi-Cal benefits since these are paid outside of the regular Medi-Cal claims payment procedures. The California Advancing and Innovating Medi-Cal (CalAIM) initiatives have required some HIPP members to enroll into managed care as of January 1, 2022. A portion of the remaining HIPP population transitioned to managed care enrollment starting January 1, 2023. Those with managed care are restricted from the HIPP program, which in turn has decreased HIPP enrollment members. Members may apply for a medical exemption from managed care enrollment. If the exemption is approved, they may remain in the HIPP program if all eligibility criteria are still met. The Department does not expect a significant change in HIPP enrollment members going forward since the HIPP population that was required to transition to managed care has done so already.

The Centers for Medicare and Medicaid Services (CMS) approved State Plan Amendment (SPA) 24-0035 allowing the Department to revise the eligibility criteria for the HIPP program. Previously, HIPP members and applicants were required to maintain the same Other Health Coverage (OHC) policy when they first enrolled into Medi-Cal and applicants would need to

HIPP PREMIUM PAYOUTS (Misc. Svcs.)

apply for Medicare benefits as part of the HIPP application process. Effective December 1, 2024, these two eligibility criteria have been removed to streamline the HIPP program process. The eligibility criteria revision is expected to have minimal effect on HIPP enrollment.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to reductions in FY 2024-25 actual reimbursements and overall shared costs.

The change from FY 2025-26 to FY 2026-27, in the current estimate is due to the assumption that premiums and cost sharing obligations increase 5% each FY, based on historical trends.

Methodology:

1. HIPP premium costs are determined by:
 - Actual premium and cost share obligation expenses for July 2024 through June 2025 for the current HIPP members,
 - Using the actual amounts from FY 2024-25 to project premium and cost share obligation expenses for FY 2025-26.
 - The assumption that approximately 32 of the remaining HIPP members will continue their HIPP program eligibility.
 - To project FY 2026-27 costs, the projection is based upon the assumption that:
 - Premium costs and cost share obligation expenses will increase by 5% each fiscal year based on historical trends.
 - The population will remain stable as aforementioned.
2. The average Per Member Per Month (PMPM) cost including ancillary costs is estimated to be \$796 in FY 2025-26 and \$836 in FY 2026-27.
3. The average monthly HIPP enrollment is estimated to be 32 in both FY 2025-26 and FY 2026-27.
4. Costs for FY 2025-26 and FY 2026-27 are estimated to be:
 - FY 2025 26: \$796 (average PMPM cost) x 32 (estimated member count) x 12 months = \$306,000 TF (rounded).
 - FY 2026-27: \$836 (average PMPM premium cost) x 32 (estimated member count) x 12 months = \$321,000 TF (rounded).

Fiscal Year	TF	GF	FF
FY 2025-26	\$306,000	\$153,000	\$153,000
FY 2026-27	\$321,000	\$161,000	\$160,000

Purpose:

This policy change estimates estate, personal injury, workers' compensation, provider/beneficiary overpayments, and other insurance recoveries used to offset the cost of Medi-Cal services.

Authority:

- Welfare & Institutions Code 10022, 14009, 14009.5, 14024, 14124.70 – 14124.795, 14124.81-14124.86, 14124.90-14124.94, 14172, 14172.5, 14173, 14176, and 14177
- Probate Code Sections 215, 9202, 19202, 3600-3605, and 3610-3613
- Title 22, California Code of Regulations Chapter 2.5 and Sections 50489.9, 50781-50791, 51045, 51047, and 51458.1
- United States Code 42, 1396a(25)

Interdependent Policy Changes:

Not Applicable

Background:

Recoveries are credited to the Health Care Deposit Fund and used to finance current obligations of the Medi-Cal program. These recoveries result from collections from personal injury or workers' compensation settlements, judgements or awards; special needs trusts; estates; provider/beneficiary overpayments; and other health insurance to offset the cost of services to Medi-Cal members in specified circumstances.

The FFCRA provides increased federal funding by increasing the federal medical assistance percentage (FMAP) by 6.2 percentage points for certain expenditures in Medicaid and by 4.34 percentage points for certain expenditures in the Children's Health Insurance Program (CHIP). The FFCRA established the increased FMAP effective January 1, 2020, and extended its availability through the last day of the calendar quarter of the national public health emergency (PHE).

BASE RECOVERIES

The Consolidated Appropriations Act of 2023, was passed on December 29, 2022 and established a fixed phase-out schedule for the increase. The phase-out occurred over Calendar Year 2023, and increased FMAP was available as follows:

- 6.2% increased FMAP for Title XIX and 4.34% for Title XXI from Jan 2020 to March 2023;
- 5% increased FMAP for Title XIX and 3.50% for Title XXI from April 2023 to June 2023;
- 2.5% increased FMAP for Title XIX and 1.75% for Title XXI from July 2023 to Sept 2023;
- 1.5% increased FMAP for Title XIX and 1.05% for Title XXI from Oct 2023 to Dec 2023;
- No increased FMAP beginning January 2024.

Reason for Change:

Recovery collections vary greatly from month to month, depending on the number of provider audits completed, the financial circumstance of beneficiaries, and fluctuations in settlements, judgements, and awards.

The change in FY 2025-26, from the prior estimate, is due to:

- Health insurance collections are projected to decrease due to the recovery amounts for FY 2025-26 are assumed to be lower, based on actual recoveries for FY 2024-25 and reflecting the new average recovery amounts for the remainder of the current contract ending November 30, 2025.
- Personal injury collections are projected to be higher due to an overall increase in settlement amounts awarded and court judgements obtained, increasing the overall trend.
- Provider overpayments are projected lower due to two months of lower recoveries in the beginning of calendar year 2025. Projections are expected to return to prior estimate levels based on the historical trend.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Health insurance collections are projected to decrease in FY 2026-27 as recoveries are expected to be lower than FY 2025-26 due to closing out invoices from the previous contract. The assumption is that the new contract will return to baseline recovery amounts.
- Provider overpayments are expected to be higher in FY 2026-27 based on the historical trend, absent anomalous lower collection months in FY 2025-26.

Methodology:

1. The Title XIX COVID-19 increased FMAP is assumed for recoveries through December 31, 2023 for this policy change.
2. The recoveries estimate uses the trend in monthly recoveries for July 2022 – July 2025.

Purpose:

This policy change estimates Fee-for-Service Base expenditures for pharmacy services.

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Pharmacy Services Fee-For-Services Base (FFS Base) estimates expenditures for prescription drugs, medical supplies, and durable medical equipment (DME). The pharmacy benefits are administered through the FFS delivery system under the Medi-Cal Rx program.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - PHARMACY**Reason for Change:**

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	3,720,820	-	3.01	-	\$155.74	-	\$20,896,530,100	-
CY	2025-26	3,773,010	1.4%	3.05	1.3%	\$172.43	10.7%	\$23,807,971,200	13.9%
BY	2026-27	3,793,160	0.5%	3.06	0.3%	\$184.02	6.7%	\$25,658,483,800	7.8%

Users: Users are estimated to increase by 1.4% in CY and 0.5% in BY.

Utilization: Utilization is estimated to increase by 1.3% in CY and 0.3% in BY.

Rate: Rate (average cost per claim) is projected to increase by 10.7% in CY and by 6.7% in BY, primarily due to the rising provider rate increases, including rising prices for prescription drugs and overall cost growth in the medical equipment and supplies manufacturing industry.

Total Expenditures: The total expenditures are estimated to increase by 13.9% from PY to CY and by 7.8% from CY to BY primarily due to the projected increase in rate.

Expenditures for FY 2025–26 have been revised downward by 2.6% compared to the prior estimate. This adjustment reflects the lower than estimated utilization, based on six additional months of actual data. The downward revision is partially offset by higher than projected users and rate.

(Dollars in Thousands)

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$21,039,173	\$20,896,530	-0.7%
2025-26	\$24,432,873	\$23,807,971	-2.6%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from Medi-Cal Rx for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for services included in the Other Medical categories.

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Other Medical Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for clinics and specialist service providers. Payments to Federally Qualified Health Care Centers and Rural Health Centers (FQHC/RHC) are approximately 95% of expenditures in this category. A complete list of provider types can be found in the Information Only Section.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - OTHER MEDICAL

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	1,590,820		1.58		\$234.66		\$7,059,294,500	
CY	2025-26	1,626,930	2.3%	1.58	0.0%	\$246.99	5.3%	\$7,627,546,500	8.0%
BY	2026-27	1,641,400	0.9%	1.58	0.0%	\$246.45	-0.2%	\$7,692,255,800	0.8%

Users: Users are estimated to increase by 2.3% in the CY. Users are estimated to increase by 0.9% in the BY.

Utilization: Utilization is estimated to remain relatively unchanged in both CY and BY.

Rate: The average rate is estimated to increase by 5.3% in the CY. Rate is estimated to decrease by 0.2% in the BY.

Expenditures for the CY are estimated to increase by 8.0% due to users and rates, and increase by 0.8% in the BY due to users.

Expenditures for FY 2024-25 are 0.7% higher than previously estimated. Expenditures for FY 2025-26 are 3.9% higher than previously estimated due to an increase in users and rates.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for acute inpatient services provided by Community Inpatient hospitals

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)
State Plan Amendment (SPA) 05-021

Interdependent Policy Changes:

Not Applicable

Background:

Fee-For-Service Base (FFS Base) Community Inpatient estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for acute inpatient services rendered by community-based hospitals. This service category consists of private hospitals, Non-Designated Public Hospitals (NDPHs) and some of the Designated Public Hospitals (DPHs). DPHs serve a high volume of Medi-Cal patients and receive Medi-Cal cost-based reimbursement.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP), DPHs, and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - COMMUNITY INPATIENT

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	15,900		7.00		\$2,506.59		\$3,345,600,000	
CY	2025-26	14,700	-7.6%	7.27	3.9%	\$2,595.48	3.6%	\$3,330,895,200	-0.4%
BY	2026-27	15,170	3.2%	7.29	0.3%	\$2,687.55	3.6%	\$3,564,754,600	7.0%

Users: Users are estimated to decrease by 7.6% in CY and increase by 3.2% in BY.

Utilization: Utilization in the CY increased by 3.9% and BY is estimated to remain relatively flat.

Rate: The average rate is estimated to increase by 3.6% in both CY and BY.

Expenditures for FY 2025-26 were revised down 8.5% from the prior estimate based on lower than previously projected six additional months of users.

Expenditures are projected to grow 7.0% between FY 2025-26 and FY 2026-27 due to an estimated increase in users and rates.

FISCAL YEAR	TOTAL EXPENDITURE

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Other Services Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for provider types not included in other FFS service categories. Local Education Agency (LEA), Certified Hospice Services, Home Health Agency, and Assisted Living Waiver Services account for most of the expenditures in this service category. A complete list of provider types can be found in the Information Only Section.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - OTHER SERVICES

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	269,690	-	3.04	-	\$186.77	-	\$1,838,226,200	-
CY	2025-26	284,290	5.4%	3.07	0.9%	\$192.59	3.1%	\$2,019,845,200	9.9%
BY	2026-27	284,580	0.1%	3.08	0.3%	\$193.74	0.6%	\$2,038,293,400	0.9%

Users: Users are estimated to increase by 5.4% in the CY based on the assumption the historical upward trend in users in the LEA program and Fabricating Optical Laboratory services will continue into the CY before leveling out in BY.

Utilization: Utilization in the CY and BY is estimated to remain relatively flat.

Rate: The average rate is estimated to increase 3.1% in the CY and 0.6% in BY based on the assumption the historical upward trend in rates in the Home Health Agency and LEA programs will continue into the CY and BY.

Expenditures for FY 2025-26 are relatively unchanged from the prior estimate.

Expenditures are projected to grow 0.9% between FY 2025-26 and FY 2026-27 due to an estimated increase in utilization and rates.

	M25	N25	% Change
2024-25	\$1,885,786,600	\$1,838,226,200	-2.5%
2025-26	\$2,017,560,500	\$2,019,845,200	0.1%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for nursing facilities services.

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Nursing Facilities Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for nursing facility services providing by AB 1629 facilities and other facilities. AB 1629 facilities have a Quality Assurance Fee (QAF) and Quality and Accountability Supplemental Payment (QASP). These facilities are comprised of Skilled Nursing Facilities (SNF) or Free Standing (FS) Nursing Facility Services Level B (NF-B). Other facilities service categories include Nursing Facilities Level A (NF-A), Distinct Part Nursing Facility Services (DP/NF-B), Adult and Pediatric Subacute Services, and Rural Swing Beds.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - NURSING FACILITIES

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	7,250	-	32.84	-	\$285.25	-	\$815,191,900	-
CY	2025-26	7,400	2.1%	32.14	-2.1%	\$297.91	4.4%	\$850,029,400	4.3%
BY	2026-27	7,410	0.1%	32.14	0.0%	\$283.79	-4.7%	\$810,529,700	-4.6%

Users: Compared to PY, users are estimated to increase by 2.1% in the Current Year (CY), followed by an increase of 0.1% in the Budget Year (BY).

Utilization: Utilization is estimated to decrease by 2.1% in CY and remain consistent in BY, which reflects a normal fluctuation.

Rate: The rate is estimated to increase by 4.4% in the CY and then decrease by 4.7% in the BY. This decrease is likely primarily driven the transition of users from FFS to Managed Care.

Total Expenditure: The CY estimate reflects a 4.3% increase, driven by higher user and rate projections. In contrast, the budget year (BY) projection is expected to decrease by 4.6% compared to the CY estimate.

Actual expenditure in FY 2024–25 is 3.7% lower than the May 2025 estimate, primarily due to the implementation of CalAIM in January 2024. For FY 2025–26, the November 2025 estimate is 1.1% higher than the May 2025 estimate, reflecting a typical fluctuation.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$846,496,200	\$815,191,900	-3.7%
2025-26	\$840,474,100	\$850,029,400	1.1%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.

AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)
State Plan Amendment (SPA) 05-021

Interdependent Policy Changes:

Not Applicable

Background:

Fee-For-Service Base (FFS Base) County Inpatient estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for acute inpatient services rendered by county hospitals. A county hospital is a not-for-profit public hospital operated and supported by the county. This service category consists mostly of Designated Public Hospitals (DPHs). DPHs receive annual rate increases in July to reflect an increase in hospital costs.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP), DPHs and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustments for the FFP within the FFS Base policy changes.

FFS - COUNTY INPATIENT

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	2,300		6.15		\$3,987.92		\$678,066,000	
CY	2025-26	2,100	-8.7%	6.54	6.3%	\$3,951.84	-0.9%	\$651,492,000	-3.9%
BY	2026-27	2,170	3.3%	6.52	-0.3%	\$3,903.00	-1.2%	\$662,954,400	1.8%

Users: Users are estimated to decrease by 8.7% in CY and increase by 3.3% in BY.

Utilization: Utilization in CY is expected to increase by 6.3% and remain relatively flat in BY.

Rate: The average rate is estimated to decrease by 0.9% in CY and by 1.2% in BY.

Expenditures for FY 2025-26 were revised down 24% from the prior estimate based on lower than previously projected six additional months of users.

Expenditures are projected to grow 1.8% between FY 2025-26 and FY 2026-27 due to an estimated increase in users.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$738,168,300	\$678,066,000	-8.1%
2025-26	\$857,137,100	\$651,492,000	-24.0%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.
5. The Department identified funds for Inpatient Services rendered by District Public Hospitals(DPH's) to estimate expenditures at the 100% FFP.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for services provided by County and Community Outpatient providers.

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

Fee-For-Service Base (FFS Base) County and Community Outpatient estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for services provided by county and community hospitals that do not require an overnight stay.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - CO. & COMM. OUTPATIENT**Reason for Change:**

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	112,580	-	1.77	-	\$249.15	-	\$596,982,300	-
CY	2025-26	108,990	-3.2%	1.78	0.6%	\$274.54	10.2%	\$639,031,800	7.0%
BY	2026-27	111,080	1.9%	1.79	0.6%	\$274.08	-0.2%	\$654,505,560	2.4%

Users: Users are estimated to decrease by 3.2% in CY and to increase by 1.9% in BY reflecting normal fluctuations in the user trend.

Utilization: Utilization is expected to increase by 0.6% in both CY and BY.

Rate: The average rate is expected to increase by 10.2% in CY reflecting accelerating claims for costly gene therapy treatments. The average rate is expected to remain nearly flat in BY.

Expenditures for FY 2025-26 were revised up 8.9% from the prior estimate based on an additional six months of actuals claim data showing higher rates than previously estimated partly attributable to increased claims for costly gene therapy treatments.

Expenditures are expected to grow by 2.4% between FY 2025-26 and FY 2026-27 due to an estimated increase in users and utilization.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change

SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Physicians Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for physicians (M.D. or D.O.) and physician groups. A complete list of provider types can be found in the Information Only Section.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - PHYSICIANS

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	184,670		2.67		\$101.64		\$600,798,100	
CY	2025-26	181,530	-1.7%	2.71	1.5%	\$101.67	0.0%	\$599,116,200	-0.3%
BY	2026-27	185,940	2.4%	2.71	0.0%	\$101.69	0.0%	\$614,676,000	2.6%

Users: Users are estimated to decrease by 1.7% in the CY. Users are estimated to increase by 2.4% in the BY.

Utilization: Utilization is estimated to increase by 1.5% in the CY and remain the same in the BY.

Rate: The average rate is estimated to remain relatively unchanged in both CY and BY.

Expenditures for the CY are estimated to decrease by 0.3%. The BY is estimated to increase by 2.6% due to an estimated increase in users.

Expenditures for FY 2024-25 are 3.3% lower than estimated in May 2025 due to a decrease in users and rates. Estimated expenditures for FY 2025-26 are 5.8% lower than previously estimated due to a decrease in users and rates, partly offset by an increase in utilization.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$621,189,100	\$600,798,100	-3.3%
2025-26	\$635,976,800	\$599,116,200	-5.8%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for the Home Health service category.

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Home Health Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for services provided by Home Health Agencies. Home Health Agencies provide outpatient benefits prescribed by physicians according to a written treatment plan. These benefits are usually administered in a home setting and the plan is reviewed by the physician every 60 days. Home Health is not a medically oriented service.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - HOME HEALTH

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	1,850	-	5.85	-	\$1,061.87	-	\$138,038,300	-
CY	2025-26	1,820	-1.6%	5.93	1.4%	\$1,027.04	-3.3%	\$132,869,000	-3.7%
BY	2026-27	1,830	0.6%	5.96	0.5%	\$1,025.68	-0.1%	\$133,932,700	0.8%

Users: Users are estimated to decrease by 1.6% in CY and increase by 0.6% in BY, reflecting normal fluctuations in the user trend.

Utilization: Utilization is estimated to increase by 1.4% in CY and to remain relatively flat in BY.

Rate: The average rate is estimated to decrease by 3.3% in CY, reflecting a slight downward trend in later actuals (May-July), and is expected to decrease by 0.1% in BY.

Expenditures for FY 2025-26 were revised up by 0.3% from the prior estimate, slightly higher than previously projected utilization from six additional months of actuals.

Expenditures are expected to increase by 0.8% between FY 2025-26 and FY 2026-27 due to moderate estimated increases in users and utilization.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$135,811,000	\$138,038,300	1.6%
2025-26	\$132,427,400	\$132,869,000	0.3%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.
3. The Department identified funds allocated to members in the CHIP aid categories to estimate expenditures at the 65% federal match.
4. California provides full-scope Medi-Cal services to individuals who do not have satisfactory immigration status; however, non-emergency services that are not pregnancy related are 100% State funded. Based on July 2024 to July 2025 FFS expenditures for non-emergency services provided to this population, the Department estimated the 100% GF expenditures.

SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The Medical Transportation Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for provider types emergency and non-emergency Ground Medical Transportation and Air Ambulance Transportation.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - MEDICAL TRANSPORTATION

Reason for Change:

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	10,900		1.85		\$331.28		\$79,967,800	
CY	2025-26	10,850	-0.5%	1.78	-3.8%	\$351.14	6.0%	\$81,291,000	1.7%
BY	2026-27	10,900	0.5%	1.78	0.0%	\$351.99	0.2%	\$81,984,400	0.9%

Users: Users are estimated to decrease 0.5% in the CY and increase 0.5% in the BY reflecting normal fluctuations in the user trend.

Utilization: Utilization is assumed to continue the historical downward trend decreasing 3.8% in CY. This trend is believed to be due to the carve-in of long-term care services into managed care and the transition of the Ground Emergency Medical Transportation (GEMT) Quality Assurance Fee (QAF) program to the Public Provider GEMT (PP-GEMT) Program. Utilization is projected to level out in BY.

Rate: The average rate is estimated to increase 6.0% in the CY partly due to the CY 2024 PP-GEMT add-on increase. The rate is assumed to level out in BY.

Expenditures for FY 2025-26 were revised up 5.5% from the prior estimate based on an additional six months of actuals claim data showing higher users and rates than previously estimated.

Expenditures are projected to grow 0.9% between FY 2025-26 and FY 2026-27 due to an estimated increase in users and rates.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	\$78,666,700	\$79,967,800	1.7%
2025-26	\$77,084,400	\$81,291,000	5.5%

Methodology:

1. The Department used linear regressions based upon the most recent 32 months of actual paid claims data from CA-MMIS for users, units per user, and dollars per unit.
2. The Department identified funds allocated to members in the ACA expansion aid categories to estimate expenditures at the 90% federal match.

Purpose:

This policy change estimates Fee-For-Service Base expenditures for Intermediate Care Facility for the Developmentally Disabled (ICF-DD).

Authority:

HR 3734 (1996), Personal Responsibility and Work Opportunity Act (PRWORA)
Welfare & Institutions Code 14007.5
SB 75 (Chapter 18, Statutes of 2015)
SB 104 (Chapter 67, Statutes of 2019)
AB 184, (Chapter 47, Statutes of 2022)
Affordable Care Act (ACA)

Interdependent Policy Changes:

Not Applicable

Background:

The ICF-DD Fee-For-Service Base (FFS Base) estimates claims paid through the Medi-Cal claims processing systems at the California Medicaid Management Information Systems (CA-MMIS) Fiscal Intermediary for services provided in certain health facilities. These health facilities include those that provide 24-hour personal care, habilitation, developmental, and supportive health services and skilled nursing services for those with intermittent needs.

FFS Base estimates in previous cycles showed a federal financial participation (FFP) of 50% and technical adjustments for the ACA expansion population, Children's Health Insurance Program (CHIP) and non-emergency services for individuals who do not have satisfactory immigration status were budgeted in their own policy changes. A change was made starting with the November 2025 estimate cycle to incorporate the technical adjustment for the FFP within the FFS Base policy change.

FFS - ICF-DD**Reason for Change:**

FISCAL YEAR		USERS		UTILIZATION (Days per User)		RATE (Cost per Day)		TOTAL EXPENDITURE	
PY	2024-25	70		39.62		\$377.00		\$12,233,200	
CY	2025-26	80	14.3%	35.73	-9.8%	357.30	-5.2%	\$11,778,300	-3.7%
BY	2026-27	80	0.0%	36.64	2.5%	354.39	-0.8%	\$11,867,600	0.8%

Users: The number of users is projected to increase from 70 in the Prior Year (PY) to 80 in the Current Year (CY) across six estimated aid categories. In the Budget Year (BY), the user count is expected to remain consistent with the CY.

Utilization: Utilization is estimated to decline by 9.8% in the CY, primarily due to the continued impact of the CalAIM implementation in January 2024, which transitioned members from Fee-for-Service (FFS) to Managed Care. In the BY, utilization is expected to increase slightly by 2.5%.

Rate: The average rate is projected to decline by 5.2% in CY, followed by a slight decrease of 0.8% in BY.

Total Expenditure: Total expenditure is expected to decrease by 3.7% in CY, mainly driven by reduced utilization and rate. In the BY, total expenditure is projected to slightly increase by 0.8%.

Compared to the May 2025 estimate, actual expenditure in FY 2024–25 and the November 2025 estimate for FY 2025–26 decreased by 12.4% and 24.3%, respectively. These reductions are primarily attributed to the continued impact of the CalAIM implementation in January 2024, which transitioned members from FFS to Managed Care, as well as a further decline in utilization and rate. These developments have contributed to a more accurate projection of the downward trend.

FISCAL YEAR	TOTAL EXPENDITURE		
	M25	N25	% Change
2024-25	13,960,900	12,233,200	-12.4%
2025-26	15,563,100	11,778,300	-24.3%

% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$42,390,000	\$42,390,000
FEDERAL FUNDS	\$42,390,000	\$42,390,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal financial participation (FFP) provided to the California Department of Corrections and Rehabilitation (CDCR)/California Correctional Health Care Services (CCHCS) for the costs of providing inpatient services for adult inmates who are enrolled in Medi-Cal.

Authority:

AB 1628 (Chapter 729, Statutes of 2010)
 SB 184 (Chapter 47, Statutes of 2022)
 Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

AB 1628 (Chapter 729, Statutes of 2010) authorizes the Department and the CDCR to:

- Claim FFP for inpatient hospital services to Medi-Cal enrolled adult inmates in State correctional facilities when these services are provided off the grounds of the facility. Previously these services were paid by the CDCR with 100% General Fund (GF). Effective April 1, 2011, the Department began accepting Medi-Cal applications from the CCHCS for eligibility determinations for State inmates, retroactive to November 1, 2010. The Department will budget the FFP for services and CCHCS administrative costs and the CCHCS will continue to budget the GF.

SB 184 (Chapter 47, Statutes of 2022) requires County Welfare Departments to suspend Medi-Cal benefits for all inmates of a public institution for the duration of their incarceration. State law requires the suspension of Medi-Cal benefits for any individual, regardless of age, who is a Medi-Cal member at the time of their incarceration. This amendment allows counties to activate suspended Medi-Cal benefits upon release from the public institution without requiring a new application, as long as they remain otherwise eligible for Medi-Cal throughout their incarceration.

MEDI-CAL STATE INMATE PROGRAMS

For State inmates, with the implementation of the Affordable Care Act (ACA), the CDCR utilizes the Single Streamlined Application, currently used by counties, and the Department makes an eligibility determination according to current standard Medi-Cal eligibility rules. Federal Medicaid regulations and federal guidance provided to states, allow for coverage of specified services to eligible inmates when provided off the grounds of a correctional facility. The Department currently has an interagency agreement with the CCHCS in order to claim Title XIX FFP.

These programs require adherence to the utilization review requirements established by the Superior System Waiver.

Reason for Change:

The change for FY 2025-26, from the prior estimate, is an increase due to updated actuals based on current invoices from FY 2024-25. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The adult State inmate program began in November 2010. Eligibility began in April 2011 with claiming beginning in April 2012.
2. Estimated costs for FY 2025-26 and FY 2026-27 are annualized projections primarily based on actual paid claims made within FY 2024-25.
3. Included below is the total estimated FFP for the Medi-Cal Inpatient Hospital Costs for all eligible (Non-ACA and ACA) adult inmates in FY 2025-26 and FY 2026-27. The Non-Federal share for this policy change is included in CDCR's budget and is also estimated below for display purposes.

Funding:

(Dollars in Thousands)

FY 2025-26	TF	FF	CDCR GF
100% Title XIX FFP (4260-101-0890)	\$13,965	\$6,983	\$6,982

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$28,000,000	\$28,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of requiring payment of a \$30 per person per month premium for Medi-Cal members with unsatisfactory immigration status (UIS), excluding UIS individuals under 19 years of age, over 59 years of age, and pregnant women, beginning no sooner than July 1, 2027.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

Under federal law, Medi-Cal members with certain immigration statuses are ineligible for federal funds. These members are referred to as UIS members. The state pays 100% of the costs for non-emergency and non-pregnancy services for UIS members.

Implementation of the \$30 per month premium will apply to all UIS members except for individuals under 19 years of age, over 59 years of age, and pregnant women. Once implemented, members that do not pay the premium will be discontinued from full-scope coverage but will continue to have access to restricted scope (emergency and pregnancy) services.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to system change costs transitioning into the SAWS policy change. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Assume \$28 million in General Fund costs in FY 2025-26 and ongoing to procure operational resources to manage premium collection and tracking activities.

PREMIUMS FOR ADULTS WITH UNSATIS. IMMIG. STAT.

2. Fiscal impacts from collecting premiums, or from reductions in the number of individuals enrolled in full-scope coverage, will begin in FY 2027-28.

Welfare & Institutions Code Sections 14011.10, 14132.275, 14184.800, and 14186

AB 133 (Chapter 143, Statutes of 2021)

CalAIM 1115 Waiver

Interdependent Policy Change:

Not Applicable

Background:

California received federal authority necessary to implement CalAIM, a framework that encompasses broad-based delivery system, program and payment reform across the Medi-Cal program. CalAIM recognizes the opportunity to move California's whole-person care approach – first authorized by the Medi-Cal 2020 Section 1115 demonstration – to a statewide level, with a clear focus on improving health and reducing health disparities and inequities. Collectively, the Section 1115 CalAIM demonstration and Section 1915(b) waiver, along with related contractual and Medi-Cal State Plan changes, will enable California to fully execute the CalAIM initiative, providing benefits to certain high needs, hard-to-reach populations, with the objective of improving health outcomes for Medi-Cal members and other low-income people in the state.

Inmates leaving correctional facilities are at extremely high risk of poor outcomes due to high rates of mental illness, substance use disorders, complex medical conditions, and unmet social needs such as housing insecurity, unemployment, and inadequate social connections. CalAIM proposes to improve outcomes for this population by mandating county inmate pre-release application processes, allowing Medi-Cal reimbursement for services in the 90-day time period prior to release, and to ensure a facilitated referral and linkage ("warm hand-off") to behavioral

CALAIM - INMATE PRE-RELEASE PROGRAM

health services, both to providers in managed care networks and to county behavioral health departments.

This policy change estimates costs for CalAIM Pre-Release Services up-to-90 days prior to release. This includes the provision of a targeted set of Medi-Cal services to eligible justice-involved populations up to 90-days prior to the individual's release from a state prison, county jail, or youth correctional facility. The targeted set of pre-release services includes: care management/care coordination; community-based physical and behavioral health clinical consultation services provided via telehealth or, optionally, in-person as needed, including behavioral health referrals/linkages; medications for addiction treatment (also known as medication-assisted treatment or MAT), medications for mental health diagnoses; and other medications to stabilize chronic and significant conditions, associated laboratory/radiology services; and for use post-release into the community a supply of medication (according to the applicable Medi-Cal policy duration for individual medications) and necessary Durable Medical Equipment.

Correctional facilities will go-live on a quarterly basis starting October 1, 2024, through September 30, 2026, at which point all correctional facilities must go-live in accordance with state law. Correctional facilities must submit a readiness review application to the Department for approval at least six months prior to the requested go-live date.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to a slower than anticipated take up of the program for some correctional facilities. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to additional ramp up of the program continuing through FY 2026-27.

Methodology:

1. Assume Pre-Release Services up-to-90 days prior to release (including Behavioral Health Referrals/Linkages) policies implemented on October 1, 2024.
2. Total estimated costs for FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$36,971	\$5,437	\$31,534
FY 2026-27	\$198,358	\$29,175	\$169,183

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the fee-for-service (FFS) and Managed Care costs of the Breast and Cervical Cancer Treatment Program (BCCTP).

Authority:

AB 430 (Chapter 171, Statutes of 2001)
 AB 1810 (Chapter 34, Statutes of 2018)
 SB 104 (Chapter 67, Statutes of 2019)
 AB 133 (Chapter 143, Statutes of 2021)
 SB 184 (Chapter 47, Statutes of 2022)
 SB 101 (Chapter 4, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

AB 430 authorized the BCCTP effective January 1, 2002, for individuals at or below 200% of the federal poverty level. Enhanced Title XIX Medicaid funds (65% FF / 35% GF) may be claimed under the federal Medicaid Breast and Cervical Cancer Treatment Act of 2000 (P.L. 106-354) for cancer treatment and full scope Medi-Cal benefits for individuals under 65 years of age who are citizens or legal immigrants with no other health coverage. Every Woman Counts and Family Planning, Access, Care, and Treatment (Family PACT) providers screen members.

A State-Only program covers individuals 65 years of age or older regardless of immigration status, individuals who are underinsured, undocumented women, and males for breast cancer treatment only. In FY 2017-18 the coverage term was 18 months for breast cancer and 24 months for cervical cancer, however, coverage limits were removed through AB 1810 beginning in FY 2018-19. Estimated State-Only costs include undocumented individuals' non-emergency services during cancer treatment. With the implementation of the Affordable Care Act (ACA) in January 2014, some BCCTP members now have other coverage options available through Covered California and the Individual Insurance Market.

BREAST AND CERVICAL CANCER TREATMENT

Effective July 1, 2018, Health Omnibus Trailer Bill, AB 1810 (Chapter 34, Statutes of 2018) signed June 27, 2018, appropriated funding to the General Fund for the elimination of the 18 and 24-month treatment limitations.

Effective January 1, 2020, SB 104 (Chapter 67, Statutes of 2019) granted full scope Medi-Cal to young adults who are 19-25 years of age. Effective May 1, 2022, AB 133, (Chapter 143, Statutes of 2021) granted full-scope Medi-Cal to adults who are 50 years of age and older. AB 133 also eliminated the asset limits for all non-Modified Adjusted Gross Income (MAGI) Medi-Cal programs, including Medicare Savings Programs and Long-Term Care effective January 1, 2024. Effective January 1, 2024, SB 184, Chapter 47, (Chapter 47, Statutes of 2022), granted full-scope Medi-Cal to adults who are 26-49 years of age.

Effective January 1, 2026, SB 101 (Chapter 4, Statutes of 2025) implemented an enrollment freeze for the full scope Medi-Cal expansion populations ages 19 and older. This change applies to newly enrolled individuals and to individuals who have had a break in their existing full scope coverage prior to January 1, 2026. Additionally, SB 101 reinstated the asset limit test for non-MAGI Medi-Cal programs, which BCCTP falls under.

Reason for Change:

There is an increase for FY 2025-26 from the prior estimate, and from FY 2025-26 to FY 2026-27 in the current estimate, due to updated caseload and per member, per month cost projections resulting from changes in state and federal laws.

Methodology:

1. Assume a total of 500 members currently, of which 50 individuals are in FFS and 450 individuals are in managed care. Additionally, approximately 25 of the FFS members and 150 of the managed care members are eligible for State-Only services.
2. Assume a total of 1,000 members will be enrolled in FY 2025-26, of which 100 individuals will be in FFS and 900 individuals will be in managed care. Additionally, approximately 50 of the FFS members and 300 of the managed care members are eligible for State-Only services.
3. Assume a total of 1,500 members will be enrolled in FY 2026-27, of which 225 individuals will be in FFS and 1,275 individuals will be in managed care. Additionally, approximately 75 of the FFS members and 450 of the managed care members are eligible for State-Only services.
4. Assume none of the members were in accelerated enrollment.
5. Assume the State will pay Medicare and other health coverage premiums for an average of 167 members monthly in FY 2025-26 and in FY 2026-27. Assume an average monthly premium cost per member of \$78.14.
6. Assume 45% of members will require a third year of treatment, and 20% of those members will require a fourth year of treatment.
7. Assume Managed Care costs associated with the BCCTP are budgeted in this policy change. Assume an average, weighted monthly costs of \$931.09 in FY 2025-26 and \$991.36 in FY 2026-27 for Managed Care members.

BREAST AND CERVICAL CANCER TREATMENT

8. FFS and Managed Care costs are estimated as follows:

FY 2025-26	TF	GF	FF
Full Scope Costs	\$7,706,000	\$2,725,000	\$4,981,000
FFS State-Only Services	\$467,000	\$467,000	\$0

HEALTH ENROLLMENT NAVIGATORS FOR CLINICS**FISCAL REFERENCE NUMBER:2422**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,548,000	\$0
FEDERAL FUNDS	\$4,274,000	\$0
GENERAL FUND	\$4,274,000	\$0
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0.0000%	0%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$8,548,000	\$0
FEDERAL FUNDS	\$4,274,000	\$0
GENERAL FUND	\$4,274,000	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the funding provided specifically to Community Health Centers (CHCs) and Regional Clinic Associations (RCAs) for providing culturally and linguistically appropriate health navigation tied to the COVID-19 Public Health Emergency Unwinding efforts to ensure Medi-Cal eligible individuals enroll or retain coverage.

Authority:

AB 102 (Chapter 38, Statutes of 2023)

Interdependent Policy Changes:

Not Applicable

Background:

CHCs and RCAs play a vital role in assisting counties to reach out to marginalized populations and help eligible individuals apply and successfully complete the health coverage enrollment process, retain coverage, navigate the health care system, and gain timely access to medical care through community-based care management.

This funding for outreach, enrollment, retention, and community-based assistance with utilization and care management helped Medi-Cal eligible individuals enroll or maintain enrollment in health care coverage and have access to the care they need.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to some claims shifting from FY 2024-25 into FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to all payments being completed in FY 2025-26.

Methodology:

1. A prime contractor implementation occurred on October 1, 2023.
2. Assume local CHCs and RCAs conducted outreach, enrollment, and retention activities in their applicable area and received supplemental funding.

HEALTH ENROLLMENT NAVIGATORS FOR CLINICS

3. Implementation started in December 2023, and ended June 2025. Close-out will occur through June 2026. The final close-out payment was issued by December 2025.
4. The Budget Act for FY 2023-24 provided \$20 million TF (\$10 million GF). The table below displays the estimated spending and remaining funds by Appropriation Year:

(Dollars in Thousands)

Appropriation Year 2023-24	TF	GF	FF*
Prior Years	\$11,452	\$5,726	\$5,726
Estimated in FY 2025-26	\$8,548	\$4,274	\$4,274
Total Estimated Remaining	\$0	\$0	\$0

*Federal funds authority is newly requested for the fiscal year in which funds are anticipated to be expended.

5. Total estimated costs for FY 2025-26 are:

(Dollars in Thousands)

NON-OTLICP CHIP**FISCAL REFERENCE NUMBER:13**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$114,213,600	\$114,336,000
GENERAL FUND	-\$114,213,600	-\$114,336,000
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$114,213,600	\$114,336,000
GENERAL FUND	-\$114,213,600	-\$114,336,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the technical adjustment in funding for the Non-Optional Targeted Low Income Children's Program (OTLICP) population of the Children's Health Insurance Program (CHIP) as described below. Expenditures are adjusted from Title XIX 50% federal financial participation (FFP) to enhanced Title XXI FFP.

Authority:

SB 903 (Chapter 624, Statutes of 1997)
42 CFR 435.907(e)

Interdependent Policy Changes:

Not Applicable

Background:

Medi-Cal has multiple CHIP eligibility categories. The largest is OTLICP which is budgeted throughout the Estimate. The other CHIP eligibility categories are budgeted in this policy change.

- Medicaid Expansion: This CHIP population exceeds the Medicaid FPL limit and are below the OTLICP FPL (aid codes M5, M6).
- Hospital Presumptive Eligibility (HPE): Effective January 1, 2016, the ACA requires the Department to give hospitals the option to determine HPE for Medicaid. The HPE Program offers qualified individuals immediate access to temporary Medi-Cal while applying for permanent Medi-Cal coverage or other health coverage. CHIP coverage extends to a portion of HPE (aid codes H0, H6, H9).

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a General Fund (GF) savings increase due to an increase in estimated expenditures. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a slight GF savings increase due to an increase in estimated

NON-OTLICP CHIP

expenditures. Additionally, the Resource Disregard Program estimate was removed from this policy change as members transitioned out of the program aid codes.

Methodology:

1. It is assumed the estimated costs of the HPE and Medicaid Expansion aid codes will be \$761,424,000 TF in FY 2025-26 and \$762,240,000 TF in FY 2026-27.
2. Enhanced federal funding under Title XXI Medicaid Children's Health Insurance Program (M-CHIP) may be claimed for children eligible under these aid codes. Beginning October 1, 2020, estimated costs are eligible for Title XXI 65/35 FMAP.
3. Total estimated costs for FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF
HPE	\$7,843,000	(\$1,177,000)
Medicaid Expansion	\$753,581,000	(\$113,037,000)
Total Cost	\$761,424,000	(\$114,214,000)

FY 2026-27	TF	GF
HPE	\$7,448,000	(\$1,116,000)
Medicaid Expansion	\$754,792,000	(\$113,220,000)
Total Cost	\$762,240,000	(\$114,336,000)

Funding:

FY 2025-26	TF	GF	FF

GENERAL FUND	-\$79,810,250	-\$76,662,300
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from the State Children's Health Insurance Program's (SCHIP) federal funding for prenatal care for women previously ineligible for federal funding.

Authority:

AB 131 (Chapter 80, Statutes of 2005)

Interdependent Policy Changes:

Not Applicable

Background:

AB 131 required the Department to submit a State Plan Amendment to claim CHIP federal funding for prenatal care for women with unsatisfactory immigration status and legal immigrants through the Medi-Cal Program and the Medi-Cal Access Infants Program. Previously, these costs for prenatal care were funded with 100% General Fund for the Medi-Cal Program. California draws down federal CHIP funding through the Title XXI unborn option for both programs.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase in General Fund (GF) savings due to an increase in prenatal costs. There is a GF savings decrease from FY 2025-26 to FY 2026-27, in the current estimate, due to projecting a slight decrease in prenatal costs in FY 2026-27.

Methodology:

1. Assume the FMAP for Title XXI is 65% FF and 35% GF beginning October 1, 2020.
2. The total fund cost of prenatal care for undocumented and legal immigrant women is estimated to be:

SCHIP FUNDING FOR PRENATAL CARE

GENERAL FUND	-\$102,427,900	-\$102,427,900
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the technical adjustment in funding for the Non-Optional Targeted Low Income Children's Program (OTLICP) population of the Children's Health Insurance Program (CHIP) as described below. Expenditures are adjusted from Title XIX 50% federal financial participation (FFP) to enhanced Title XXI FFP.

Authority:

SB 903 (Chapter 624, Statutes of 1997)
42 CFR 435.907(e)

Interdependent Policy Changes:

Not Applicable

Background:

Medi-Cal has multiple CHIP eligibility categories. The largest is OTLICP which is budgeted throughout the Estimate.

California was granted a proxy methodology (CS3-Proxy) to claim enhanced federal medical assistance percentage (FMAP) for children formerly eligible for CHIP who are now eligible for Medicaid. Due to the ACA and pursuant to 42 CFR 435.907(e), California may not collect information concerning asset eligibility. Due to the modified asset test rules, the State cannot determine which children are only eligible for Medicaid and would have received CHIP funding. The CS3-Proxy aims to provide the same level of CHIP funding as before this change.

Reason for Change:

The change for FY 2025-26, from the prior estimate, is a General Fund savings increase due to updated actuals based on recent adjustment memos. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Effective FY 2020-21, assume a two-quarter adjustment lag.

CS3 PROXY ADJUSTMENT

2. This adjustment shifts funding from Title XIX federal funds with a 50% GF match to Title XXI federal funds with a 35% GF match for claims after October 1, 2020.
3. Total estimated costs for FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

Fiscal Years	TF	GF	FF
FY 2025-26	\$0	(\$102,428)	\$102,428
FY 2026-27	\$0	(\$102,428)	\$102,428

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$112,000	-\$100,000
OTHER FUNDS	\$112,000	\$100,000

Purpose:

This policy change estimates the refugees' medical expenditures to be reimbursed by the California Department of Public Health (CDPH).

Authority:

Interagency Agreement (IA) 22-20415

Interdependent Policy Changes:

Not Applicable

Background:

Full federal funding is available through the Refugee Resettlement Program (RRP) for medical services provided to refugees in Refugee Medical Assistance (RMA) (aid code 02) during their first four months in the United States. The RRP federal grant is administered by CDPH, which has program responsibility through the Refugee Health Assessment Program. The federal Office of Refugee Resettlement (ORR) allows only one grant award for refugee health services in the state. The Department invoices the CDPH through an IA for refugee expenditure reimbursement, which is originally paid with General Fund (GF) dollars. There is a \$624,000 annual reimbursement cap under the grant for these services.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals and the ORR shortening the RMA eligibility period from 12 months to 4 months of assistance. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to a projected decrease in reimbursement of claims as a result of the ORR shortening the RMA eligibility period from 12 months to 4 months of assistance.

Methodology:

1. The Department provides CDPH with the number of RMA individuals in aid code 02 and the associated medical expenditures for each Federal Fiscal Year.

REFUGEE MEDICAL ASSISTANCE

2. The total reimbursable amounts are estimated to be:

Fiscal Year	TF	GF	GF Reimbursement
FY 2025-26	\$0	(\$112,000)	\$112,000
FY 2026-27	\$0	(\$100,000)	\$100,000

OTHER FUNDS	\$2,361,000	\$2,572,000

Purpose:

This policy change estimates the reimbursement from counties for the General Fund (GF) share of the medical costs associated with the Medi-Cal County Inmate Program (MCIP).

Authority:

AB 1628 (Chapter 729, Statutes of 2010)
 AB 396 (Chapter 394, Statutes of 2011)
 SB 1462 (Chapter 837, Statutes of 2012)
 AB 720 (Chapter 646, Statutes of 2013)
 AB 80 (Chapter 12, Statutes of 2020)
 SB 184 (Chapter 47, Statutes of 2022)

Interdependent Policy Changes:

Not Applicable

Background:

AB 1628 (Chapter 729, Statutes of 2010) authorizes the Department and counties to:

- Claim FFP for inpatient hospital services for Medi-Cal enrolled adult inmates in county correctional facilities when these services are provided off the grounds of the facility. Previously these services were paid by the county.

AB 396 (Chapter 394, Statutes of 2011) authorizes the Department and counties to:

- Claim FFP for inpatient hospital services provided to Medi-Cal enrolled juvenile inmates, in county correctional facilities, when these services are provided off the grounds of the facility. Previously these services were paid by the county.

SB 1462 (Chapter 837, Statutes of 2012) authorizes a county sheriff, or his/her designee, to:

- Release certain prisoners (compassionate release) from a county correctional facility and request that a court grant medical probation, or resentencing in lieu of jail time, to certain county inmates. Counties are responsible for paying the non-federal share of costs associated with providing care to inmates compassionately released or granted medical

MEDI-CAL COUNTY INMATE REIMBURSEMENT

probation. Counties are responsible for determining Medi-Cal eligibility for county inmates seeking medical probation or compassionate release.

AB 720 (Chapter 646, Statutes of 2013) authorizes the board of supervisors in each county, in consultation with the county sheriff, to:

- Designate an entity or entities to assist county jail inmates to apply for a health insurance affordability program.
- Authorize this entity to act on behalf of a county jail inmate for the purpose of applying for, or determinations of, Medi-Cal eligibility for acute inpatient hospital services as specified.

AB 80 (Chapter 12, Statutes of 2020) conforms the suspension of benefits for juveniles, as defined under state law, with the existing federal law, the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act (SUPPORT Act). The definition of juvenile has changed (both State and County) to include individuals under the age of 21 or individuals enrolled in the former foster youth group under the age of 26. "Eligible Juveniles", as defined by the SUPPORT Act, only impacts Medi-Cal suspension of benefits policies and does not impact eligibility age restrictions or age requirements for general Medi-Cal programs.

SB 184 (Chapter 47, Statutes of 2022) requires County Welfare Departments to suspend Medi-Cal benefits for all inmates of a public institution for the duration of their incarceration. State law requires the suspension of Medi-Cal benefits for any individual, regardless of age, who is a Medi-Cal member at the time of their incarceration. This amendment allows counties to activate suspended Medi-Cal benefits upon release from the public institution without requiring a new application, as long as they remain otherwise eligible for Medi-Cal throughout their incarceration.

For county inmates, counties may participate in the MCIP that will allow coverage for specified services to Medi-Cal enrolled inmates when provided off the grounds of a county correctional facility. MCIP is a voluntary program that allows providers to directly bill the Department's Fiscal Intermediary (FI) for allowable MCIP services, consistent with standard Medi-Cal claiming upon an executed MCIP Agreement in which counties will reimburse the Department for the nonfederal share of the medical costs associated with county Medi-Cal enrolled inmates.

Claims processed by the FI are paid with GF and federal funds (FF). The Department will invoice counties for the GF share of the medical costs associated with the county Medi-Cal eligible inmate on a quarterly basis. The fourth quarter reimbursement will be received the following fiscal year; therefore, a GF impact will occur each year.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to capturing more recent paid claims data. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to updated claims data projecting an increase for FY 2026-27.

Methodology:

1. Claims with dates of services beginning April 1, 2017, will be processed by the FI.
2. The Department will invoice the counties on a quarterly basis for the GF share of the medical costs; therefore, the fourth quarter reimbursement will be received the following fiscal year, and as a result the GF impact and reimbursement per FY will not match.

MEDI-CAL COUNTY INMATE REIMBURSEMENT

3. The GF column represents the amount of GF spent and the reimbursement column represents the amount recouped from the counties for the GF amount.
4. The Department makes federal fund payments to all hospital types including Designated Public Hospitals (DPH), Non-Designated Public Hospitals (NDPH), and private hospitals, however GF is only paid out to the NDPH and private hospitals, therefore no GF recoupment takes place for the DPHs as payments to DPHs are only federal funds.
5. The total estimated GF reimbursement in FY 2025-26 and FY 2026-27 will be:

FY 2025-26	GF	Reimbursement
Non ACA	\$950,000	\$904,000
ACA	\$1,355,000	\$1,303,000
Juvenile	\$168,000	\$147,000
Compassionate Release – Non ACA	\$6,000	\$5,000
Compassionate Release - ACA	\$1,000	\$2,000
Total	\$2,480,000	\$2,361,000

FY 2026-27	GF	Reimbursement

OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	88.6200%	71.8900%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	-\$21,455,400	-\$67,357,500
FEDERAL FUNDS	-\$12,873,240	-\$40,414,450
GENERAL FUND	-\$8,582,160	-\$26,943,010
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of members leaving Medi-Cal due to increased wages pursuant to the provisions of Senate Bill (SB) 525.

Authority:

SB 525 (Chapter 890, Statutes of 2023)

SB 159 (Chapter 40, Statutes of 2024)

Interdependent Policy Changes:

Not Applicable

Background:

SB 525, as amended by SB 159, increases the minimum wage for certain health care workers, beginning October 15, 2024. In general, wages for affected workers are scheduled to reach \$25 per hour over several years.

Eligibility to enroll in Medi-Cal depends, in part, on household income. Some workers impacted by SB 525 are enrolled in Medi-Cal and some of these workers are expected, as a result of SB 525 implementation, to have increased income that makes them no longer eligible to be enrolled in Medi-Cal. Medi-Cal spending is expected to decrease as a result of these members no longer utilizing Medi-Cal services.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in savings due to further increases in the minimum wage pursuant to SB 525.

Methodology:

1. The number of Medi-Cal members that will leave Medi-Cal as SB 525 is implemented is uncertain. This estimate assumes that 98,847 individuals will ultimately leave Medi-Cal due to SB 525 implementation.

SB 525 MINIMUM WAGE - CASELOAD IMPACT

2. As SB 525 implementation is rolling out, assume that a monthly average loss of 46,300 Medi-Cal members during FY 2025-26, growing to 57,100 Medi-Cal members in FY 2026-27.
3. Assume an average cost per member per month of \$339 in FY 2025-26 and \$349 in FY 2026-27.
4. The estimated impact of SB 525 related to reduced caseload is:

Fiscal Years	TF	GF	FF
FY 2025-26	(\$188,536,000)	(\$75,414,000)	(\$113,122,000)

GENERAL FUND	-\$47,103,000	-\$349,247,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of reinstituting the Medi-Cal Asset Limit to consider resources, including property and other assets, when determining Medi-Cal eligibility for applicants or members whose eligibility is not based on modified adjusted gross income (MAGI) financial methods.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Medi-Cal program's asset limits have historically aligned with those of the federal Supplemental Security Income (SSI) program. However, in 2021, California passed Assembly Bill (AB) 133 (Chapter 143, Statutes of 2021) to modify these limits through a two-phased approach: Phase I increased the asset limits, and Phase II eliminated them entirely.

To implement these changes, the Department sought federal approval to disregard up to \$130,000 in nonexempt property for a single-member household, and an additional \$65,000 for each additional household member, up to a maximum of ten members, effective July 1, 2022. Beginning January 1, 2024, all assets were fully disregarded in determining Medi-Cal eligibility.

Pursuant to the Budget Act of 2025, the Department will seek federal approval to reinstate asset limits to disregard up to \$130,000 in nonexempt property for a single-member household, and an additional \$65,000 for each additional household member, with an effective date of no sooner than January 1, 2026. The implementation is conditioned on the Director of Health Care Services determining that systems have been programmed and they communicate that determination in writing to the Department of Finance, and no sooner than January 1, 2026.

REINSTATEMENT OF ASSET LIMIT

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight General Funds (GF) savings increase due to a projected increase in Medicare premium costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a GF savings increase as FY 2025-26 only has six-months of savings. Additionally, ramp-up for the program is expected to finish in FY 2027-28.

Methodology:

1. Assume implementation will be no sooner than January 1, 2026.
2. The impact of reinstating the Medi-Cal Asset limit is shown below:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	(\$94,206)	(\$47,103)	(\$47,103)
FY 2026-27	(\$698,495)	(\$349,248)	(\$349,247)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of freezing new enrollment for individuals that otherwise would qualify for full-scope coverage under the previous young adult expansion (19-25), 26-49 expansion, or 50+ expansion for individuals regardless of immigration status.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

In May 2016, the state expanded full-scope eligibility to otherwise eligible undocumented children. In January 2020, the state expanded full-scope eligibility to undocumented young adults aged 19 through 25. In May 2022, the state expanded full-scope eligibility to undocumented adults aged 50 and older. In January 2024, the state expanded full-scope eligibility to undocumented adults aged 26 through 49.

Under federal law, full-scope services (other than emergency and pregnancy-related services) are not eligible for federal funding. The state pays the full cost of non-emergency and non-pregnancy services for these populations.

In view of the state's General Fund condition, the Budget Act assumes a freeze on new enrollment for full-scope coverage under the expansions listed above for individuals aged 19 and older. Specifically, currently enrolled members will not be immediately affected. No sooner than January 1, 2026, individuals aged 19 or older, including those previously enrolled, seeking to obtain full-scope coverage under these previous expansions will not be enrolled in full-scope coverage, but may receive restricted scope (emergency and pregnancy) services.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a General Fund (GF) savings increase due to including updated policy decisions for this population. The change from FY 2025-26 to FY

FULL-SCOPE MEDI-CAL EXPANSION ENROLLMENT FREEZE

2026-27, in the current estimate, is a GF savings increase due to the program continuing to ramp up through FY 2026-27.

Methodology:

1. After accounting for individuals that cure reasons for discontinuance, assume that approximately 15,000 individuals that otherwise would have been enrolled in full-scope coverage each month will not be enrolled.
2. Assume that the total number of individuals not enrolled that otherwise would have been enrolled will reach approximately 90,000 by the end of FY 2025-26 and continue to grow thereafter.
3. The estimated impact of the enrollment freeze in FY 2025-26 and FY 2026-27 is shown below:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	(\$94,693)	(\$83,382)	(\$11,311)
FY 2026-27	(\$865,510)	(\$742,542)	(\$122,968)

Funding:

100% GF (4260-101-0001)

50% Title XIX / 50% GF (4260-101-0001/0890)

90% Title XIX / 10% GF (4260-101-0001/0890)

FEDERAL FUNDS	\$10,890,947,000	\$12,056,278,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets Title XIX federal funding for the Department of Social Services (CDSS) associated with the Community First Choice Option (CFCO).

Authority:

Welfare & Institutions Code 14132.956
 Affordable Care Act (ACA) 2401
 Interagency Agreement 11-88407
 Families First Coronavirus Response Act (FFCRA)
 Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

The ACA established a new State Plan option, which became available to states on October 1, 2010, to provide home and community-based attendant services and supports through CFCO. CFCO allows States to receive a 6% increase in federal match for expenditures related to this option. The state submitted a State Plan Amendment (SPA) to the Centers for Medicare & Medicaid Services (CMS) which proposed moving federally eligible Personal Care Services Program (PCSP) and In-Home Supportive Services (IHSS) Plus Option program participants into CFCO. The Department budgets Title XIX Federal Financial Participation (FFP) for the provision of IHSS Plus Option and PCSP services to Medi-Cal members.

The SPA was approved on August 31, 2012, with an effective date of December 1, 2011. In addition, CMS approved SPA 13-007, effective July 1, 2013, which updated eligibility language for compliance with the Social Security Act section 1915(k)(1) and 42 CFR section 441.510.

The CFCO generates new federal funds and creates General Fund savings to the State and counties who provide matching funds. The anticipated savings would be offset by cost increases to administer CFCO.

COMMUNITY FIRST CHOICE OPTION

Reason for Change:

There is an increase from the prior estimate for FY 2025-26, and from FY 2025-26 to FY 2026-27 in the current estimate, due to updated expenditure data provided by CDSS.

Methodology:

1. Costs for Medi-Cal members enrolled in CFCO are eligible for an additional enhanced FMAP rate of 6%. The CFCO policy change includes 56% Federal Financial Participation.
2. The estimated costs CDSS provided on an accrual basis for FY 2025-26 and FY 2026-27 are in the table below.

(Dollars in Thousands)

FY 2025-26	TF	FF	CDSS GF/ County Share
Title XIX 100% FFP (4260-101-0890)	\$19,919,915	\$11,155,152	\$8,764,763

FEDERAL FUNDS	\$17,844,000	\$17,844,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the payment and technical adjustment in funding from Title XIX 50/50 Federal Medical Assistance Percentage (FMAP) to the enhanced Title XIX Affordable Care Act (ACA) FMAP for services provided at Designated Public Hospitals (DPHs) for Hospital Presumptive Eligibility (HPE) to the ACA Optional Expansion Population. HPE is a required provision of the ACA.

Authority:

Title 42, CFR, Section 435.1110
 Social Security Act 1902(a)(47)
 SB 28 (Chapter 442, Statutes of 2013)
 California State Plan Amendment 13-0027-MM7

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2014, the ACA requires the Department to give hospitals the option to determine HPE for Medicaid. The HPE program offers qualified individuals immediate access to temporary Medi-Cal while applying for permanent Medi-Cal coverage or other health coverage. Individuals complete the HPE application on-line with a qualified HPE provider at a participating, qualified hospital. Eligibility is determined in real-time.

Individuals granted temporary HPE must complete the Medi-Cal application process to enroll in a permanent Medi-Cal program.

Reason for Change:

There is a slight decrease for FY 2025-26 from the prior estimate, due to adding two quarters of actuals lower than previously projected, and due to updated projections being lower than previously estimated. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

HOSPITAL PRESUMPTIVE ELIGIBILITY DPH PAYMENTS

Methodology:

1. The Department assumes enhanced Title XIX ACA FMAP is available for services provided under the temporary HPE program to those individuals who enroll in temporary HPE at a qualified hospital, then successfully complete the Medi-Cal application process, and are enrolled in the ACA Optional Expansion program.
2. The Department processes claims for members receiving services in DPHs and makes payments to DPHs for the enhanced FFP. The Department generates reports six months after the last day of the quarter to allow for lagged claims submission. The estimated average quarterly payment for enhanced Title XIX ACA FFP is \$4,461,000 for FY 2023-24 Q 3-4, FY 2024-25 Q 1-4, and FY 2025-26 Q1-2 based on the average expenditures of the most recent fourteen quarters of data available (FY 2021-22 Q1-4, FY 2022-23 Q1-4, FY 2023-24 Q1-4, and FY 2024-25 Q 1-2).
3. The Department will also claim the enhanced Title XIX ACA FMAP for members receiving services in DPHs and estimates to pay DPHs \$17,844,000 in FY 2025-26 and \$17,844,000 in FY 2026-27. The estimated pass-through costs are included in the chart below.

(Dollars in Thousands)

FY 2025-26	TF	FF

% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$5,939,000	\$5,939,000
GENERAL FUND	-\$5,939,000	-\$5,939,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates an additional 1% in federal medical assistance percentage (FMAP) for specified preventive services.

Authority:

Affordable Care Act (ACA), Section 4106

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2013, the ACA provides states with the option to receive an additional 1% in FMAP for providing specified preventive services. Eligible preventive services are those assigned Grade A or B by the United States Preventive Services Task Force (USPSTF), and approved adult vaccines and their administration as recommended by the Advisory Committee on Immunization Practices (ACIP). To be eligible to receive the enhanced FMAP, States must cover the specified preventive services in their standard Medicaid benefit package and cannot impose cost sharing for these services. States may only claim the 1% FMAP on services that adhere to the USPSTF Grade A and B recommendations on age, gender, periodicity, and other criteria as indicated in the summary of recommendations. The Department previously incorporated and continues to provide USPSTF recommended Grade A and B preventative services and ACIP approved adult vaccines as part of the Medi-Cal benefit package without cost-sharing.

The majority of the USPSTF Grade A and B recommendations include preventive screening services for adults only. The 1% FMAP policy does not apply to family planning services that are eligible for 90% match and prescription drugs (including over the counter).

For Fee-for-Service (FFS) members, many of the 1% FMAP eligible services for children, such as those for newborns prior to discharge from the hospital, cannot be pulled from the bundled rate. Additionally, the 1% FMAP can only be claimed if the primary purpose of the visit is the delivery of preventive services under USPSTF and ACIP.

1% FMAP INCREASE FOR PREVENTIVE SERVICES

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to increased FFS savings based on updated actual data through December 2024 and increased Managed Care savings based on updated Calendar Year (CY) 2024 actual data.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

- The 1% FMAP savings will include the following periods of savings in FY 2025-26:
 - FFS – July 1, 2024 through June 30, 2025
 - Managed Care – January 1, 2025 through December 31, 2025
- FY 2026-27 will include the following periods of savings:
 - FFS – July 1, 2025 through June 30, 2026
 - Managed Care – January 1, 2026 through December 31, 2026
- Total savings for the 1% FMAP increase for preventive services are as follows:

FY 2025-26	TF	GF	FF
FFS:			
FY 2024-25 Savings	\$0	(\$485,000)	\$485,000
Total FFS	\$0	(\$485,000)	\$485,000

GENERAL FUND	-\$33,839,200	-\$31,928,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the technical adjustment in funding from Title XIX 50/50 Federal Medical Assistance Percentage (FMAP) to the enhanced Title XIX Affordable Care Act (ACA) FMAP for providing Hospital Presumptive Eligibility (HPE) to the ACA Optional Expansion Population. HPE is a required provision of the ACA.

Authority:

Title 42, CFR, Section 435.1110
 Social Security Act 1902(a)(47)
 SB 28 (Chapter 442, Statutes of 2013)
 California State Plan Amendment 13-0027-MM7
 State Plan Amendment (SPA) SPA 20-0024
 SPA 23-0002 (Pending)

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2014, the ACA requires the Department to give hospitals the option to determine HPE for Medicaid. The HPE Program offers qualified individuals immediate access to temporary Medi-Cal while applying for permanent Medi-Cal coverage or other health coverage. Individuals complete the HPE application on-line with a qualified HPE Provider at a participating, qualified hospital. Eligibility is determined in real-time.

Individuals granted temporary HPE must complete the Medi-Cal application process in order to enroll in a permanent Medi-Cal program.

On May 13, 2020, the Centers for Medicare & Medicaid Services (CMS) approved SPA 20-0024, which temporarily expanded the HPE Program to include the aged (65 years of age and older), disabled, and blind population, or the HPE Expansion Group. SPA 23-0002 is currently pending CMS approval to make the HPE Expansion Group expansion permanent.

HOSPITAL PRESUMPTIVE ELIGIBILITY FUNDING ADJUST.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease in GF savings due to adding one quarter of actuals lower than previously projected. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in GF savings due to lower projected quarters based on the most recent actuals.

Methodology:

1. The Department assumes enhanced Title XIX ACA Federal Funding (FF) is available for services provided under the HPE program to those individuals who enroll in HPE at a qualified hospital, then successfully complete the Medi-Cal application process, and are enrolled in the ACA Optional Expansion program.
2. Based on actual claims for individuals identified above, the Department retroactively requests enhanced Title XIX ACA FF.
3. Costs are developed using actual claims from FY 2023-24 Q3-4, FY 2024-25 Q1-2, and an average from the four most recent quarters of actual claims data where actuals are not available. The estimated average quarterly adjustment is \$21,150,000 for FY 2025-26 and \$19,955,000 for FY 2026-27.
4. The Department estimates to adjust \$84,598,000 TF claims from Title XIX 50/50 FMAP to claim the enhanced Title XIX ACA FMAP in FY 2025-26 and \$79,821,000 TF in FY 2026-27. The estimated funding adjustment is included in the chart below.

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
50% Title XIX FF / 50% GF	(\$84,598,000)	(\$42,299,000)	(\$42,299,000)
90% Title XIX FF / 10% GF	\$84,598,000	\$8,460,000	\$76,138,000
Net Impact	\$0	(\$33,839,000)	\$33,839,000

FY 2026-27	TF	GF	FF

FEDERAL FUNDS	\$961,315,000	\$678,385,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to Local Educational Agencies (LEAs) for Medi-Cal eligible services through the LEA Medi-Cal Billing Option Program (LEA BOP).

Authority:

Welfare & Institutions Code 14132.06 and 14115.8
State Plan Amendment (SPA) 15-021

Interdependent Policy Changes:

Not Applicable

Background:

Local Educational Agencies, which consist of school districts, county offices of education, public charter schools, community colleges, California State University campuses, or University of California campuses, may enroll as Medi-Cal providers through the LEA BOP. Through the program, LEAs receive federal reimbursement for certified public expenditures (CPEs) incurred while providing specific eligible health services to Medi-Cal enrolled students to the extent federal financial participation (FFP) is available. LEAs receive interim reimbursement through claims payments and then calculate their total cost of providing these services to Medi-Cal enrolled students using a Cost and Reimbursement Comparison Schedule (CRCS) that is submitted to the Department annually for the preceding fiscal year (FY). Final payment settlements based on actual CPEs for a given year are considered completed when the Department has audited the LEA's CRCS.

- If interim reimbursements exceed the audited CPE settlement, the Department collects the overpayment and returns the excess federal match from the LEA to the federal government by means of withholding funds from future interim claims until the LEA's account is reconciled.
- If interim reimbursements are less than the audited CPE settlement, the Department draws additional federal funds to reimburse the LEA. These additional draws have not previously been reported on any estimate.

LOCAL EDUCATION AGENCY (LEA) PROVIDERS

SPA 15-021, approved by the Centers for Medicare and Medicaid Services (CMS) expanded the LEA BOP by increasing the types of covered practitioners, the types of services covered, and by allowing students without an Individualized Education Program (IEP)/ Individualized Family Service Plan (IFSP) to receive covered services as long as they have a care plan in place. Additionally, SPA 15-021 added the Random Moment Time Survey (RMTS) as a statistically valid method of capturing the time that is spent providing direct services to Medi-Cal enrolled students. When combined with the Medi-Cal Eligibility Ratio (MER), it accurately captures the time spent providing LEA BOP services to Medi-Cal members. It is anticipated that this new method will demonstrate an increase in CPE for the LEAs. Although the SPA was approved in 2020, the covered services go back to FY 2015-16. To allow the LEAs to claim for the newly approved practitioners, services, and members, CMS approved a back-casting methodology, which includes the RMTS percentages and MER methodology. Those back-casting payments for direct services, and final settlements started in FY 2023-24.

SPA 15-021 also requires the Department to issue annual interim settlements when an audit and final settlement has not been completed within one year of when the CRCS was filed by the LEA. FY 2022-23 is the first year that the interim settlements was implemented for the CRCS forms that were due on March 1, 2022. Additionally, LEA BOP previously has not reported the final settlement amounts because the final settlement amounts are determined over the course of three years after the CRCS is filed. In conjunction with reporting the interim settlements, FY 2022-23 was the first year that LEA BOP reported the final settlement amounts.

Because LEA BOP is a CPE program, the total cost of providing the covered services to Medi-Cal members is reflected on the CRCS. The federal medical assistance percentage (FMAP) is then broken down as components of the total reported cost: The interim claims submitted by the LEAs are reimbursed at various FMAPs.

Established as part of Budget Act of 2021 [AB 128 (Chapter 21, Statutes of 2021)], the Children and Youth Behavioral Health Initiative (CYBHI) impacts the LEA BOP through cross-over of services, practitioners, and potential members. This program aims to enhance access to critical behavioral health interventions, including those focused on prevention, early intervention, and resiliency/recovery, for children and youth. Welfare and Institutions Code § 5961.4(b) authorizes the department to “develop and maintain a school-linked statewide provider network of school-site behavioral health counselors.” CYBHI will utilize this multi-payer school-linked fee schedule (Fee Schedule) and statewide provider network to offer behavioral health services to the general education school population, creating an overlap with services provided by the LEA BOP. The impact will result in a decrease in the population of students receiving behavioral health-related services and claiming through the LEA BOP, ultimately drawing down less FFP.

As a result of the COVID-19 national public health emergency, increased FMAP was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- An increase in actual interim reimbursements (i.e. paid claims) used to develop the estimate,
- An increase in final settlement amounts to be processed and paid, and
- An increase in back-casting settlements to be completed.

LOCAL EDUCATION AGENCY (LEA) PROVIDERS

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- An increase in estimated interim reimbursement to be paid based upon higher actual paid claims,
- A decrease in final settlements to be processed and paid, and
- No back-casting settlements to be paid (all back-casting settlements will be completed in FY 2025-26).

Methodology:

1. For FY 2025-26, the estimated interim reimbursement is based on the average of the preceding two FYs of actual paid claims data.
2. For FY 2026-27, the estimated interim reimbursement is based on the average of the preceding two FYs of paid and estimated claims data.
3. FY 2025-26 and FY 2026-27 interim payments include a rate inflation that is based on the Implicit Deflator for Gross Domestic Products. The rate tables include the rate inflation in the established rates.
4. Approximately 100% of the FY 2023-24 and FY 2024-25 CRCS reports will receive an interim settlement. This amount is calculated at 60% of the reported amount, which is the amount LEA BOP will be paying LEAs for the interim settlement.
5. Final settlements are calculated based on the reported settlement amounts for the remaining CRCS reports that have been submitted and are pending audits, as audited CRCS reports from the previous FY have already been paid out.
6. Back-casting for expansion services is based on actual reported amounts from the submitted CRCS reports for Fiscal Year End 2016 through 2019. Back-casting payments for 98.28% submitted CRCS reports FY 2015-16 through FY 2018-19 are expected to be completed in FY 2025-26.
7. Apply enhanced FMAPs proportionately to estimated interim reimbursements, interim settlements, and final settlements. Enhanced FMAPs do not apply to the back-casting settlements. FMAPs are specific to each LEA, based upon the aid codes of Medi-Cal members for whom claims are submitted.

FY 2025-26	TF	Title XIX FFP	Title XXI FFP	COVID-19 FF

GENERAL FUND	\$35,850,200	\$37,122,300
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of family planning services provided by the Family Planning, Access, Care, and Treatment (Family PACT) program.

Authority:

Welfare & Institutions Code 14132(aa)

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 1997, family planning services expanded under the Family PACT program to provide contraceptive services to persons in need of such services with incomes under 200% of the Federal Poverty Level. The Centers for Medicare & Medicaid Services (CMS) approved a Section 1115 demonstration project waiver, effective December 1, 1999.

On March 24, 2011, CMS approved a State Plan Amendment (SPA), in accordance with the Affordable Care Act, to transition the current Family PACT waiver into the State Plan. Under the SPA, eligible family planning services and supplies, formerly reimbursed exclusively with 100% State General Fund, receive a 90% federal financial participation (FFP), and family planning-related services receive reimbursement at Title XIX 50/50 FFP.

This policy change is inclusive of CMS approved, time-limited supplemental payments, at a rate equal to 150 percent of the current Family PACT rates, to Family PACT providers for specific family planning services. Expenditures for these services are delineated in the Proposition 56-Women's Health Supplemental Payments policy change.

Drug rebates for Family PACT drugs are included in the Family PACT Drug Rebates policy change.

FAMILY PACT PROGRAM

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to a projected rate and user reduction for the Family PACT program. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a projected growth in FPACT rates in FY 2026-27.

Methodology:

1. The Department used linear regressions based upon the most recent 36 months of actual data for users, units per user, and dollars per unit.
2. Family planning services and testing for sexually transmitted infections (STIs) are eligible for 90% FFP.
3. The treatment of STIs and other family planning-related services are eligible for Title XIX 50/50 FFP.
4. It is assumed that 13.95% of the Family PACT population are undocumented persons and are budgeted at 100% GF.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of providing demonstration services to Medi-Cal eligible members enrolled in the California Community Transitions (CCT) Demonstration Project who will transition to the community and receive qualified home and community-based services for up to 365 days following their transition.

Authority:

Federal Deficit Reduction Act (DRA) of 2005 (P.L. 109-171), Section 6071
 Affordable Care Act (ACA) (P.L. 111-148), Section 2403
 Medicaid Extenders Act of 2019 (P.L. 116-3), Section 2
 California Welfare and Institutions Code, Chapter 300, Section 14196.2
 Consolidated Appropriations Act, 2021 (P.L. 108-361), Section 204
 California Welfare and Institutions Code, Section 14196.6

Interdependent Policy Changes:

CCT Fund Transfer to CDSS

Background:

The CCT demonstration is authorized under Section 6071 of the Federal DRA of 2005 and was extended by the ACA.

The Money Follows the Person (MFP) grant requires the Department to develop and implement strategies to assist Medi-Cal eligible members, who have continuously resided in health care facilities for 60 days or longer, transition into qualified residences with the support of Medi-Cal Home and Community-Based Services (HCBS). Members are enrolled in the demonstration for a maximum of 365-days post-transition, but also receive transition coordination services prior to leaving the inpatient facility.

The Extenders Act of 2019 provided the Centers for Medicare and Medicaid Services (CMS) with authority to allocate new funding to state grantees for FY 2019-20, to allow funding appropriated through the Extenders Act to be spent through 2023.

CALIFORNIA COMMUNITY TRANSITIONS COSTS

On December 27, 2020, the President signed the Consolidated Appropriations Act, 2021 into law, which included an extension of the MFP grant through FFY 2023 and appropriated funding through FFY 2023. Under the Act, the CCT Program received grant funding to continue to transition eligible members through September 2023 and up to four years after, as long as grant funding remains available. The Act also reduced the number of days a member had to reside in a facility to be eligible for MFP from 90 to 60 days.

Beginning January 1, 2021, SB 214 created a temporary program that revised the requirement for members residing in an inpatient facility from 90 days and longer to less than 90 days. The temporary program required the Department to end enrolling specified members by the end of December 31, 2022, and end providing services at the end of December 31, 2023. However, SB 214 was invalidated due to federal legislation that modified criteria for the MFP grant. As a result, the Department proposed amendments to the statute through trailer bill language to align the state-funded CCT population with the new federal requirements.

On July 27, 2021, AB 133 was approved and resulted in necessary changes to state law to align with federal MFP requirements, which removed barriers to the Department's implementation of the state-only CCT program. AB 133 aligned state statute with the amended federal statute, by reducing the required period of residence in an inpatient facility from 90 days to 60 days. The state-funded, CCT-like program allows CCT Lead Organizations to provide transition services to Medi-Cal members who have not yet met the federal, MFP residency eligibility criteria.

On March 31, 2022, CMS issued a Memorandum to state MFP grantees informing it is increasing the reimbursement rate for MFP supplemental services. These services are now 100% federally funded with no state share. Effective January 1, 2022, supplemental services are fully covered by MFP grant funds at a federal reimbursement rate of 100%. Implementation of CCT supplemental services is pending.

On September 30, 2022, California Welfare and Institutions Code, Section 14196.6 was amended to extend the CCT-like program's end date from December 31, 2023, to December 31, 2026.

On December 29, 2022, the President signed the Consolidated Appropriations Act of 2023 into law, which appropriates additional funding for each fiscal year 2024 through 2027. Unexpended grant funds awarded for any fiscal year can continue to be spent for up to four additional years, through September 30, 2031.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to the average enrollments for CCT and ALW being lower than previously estimated. The average CCT cost did increase, but the lower enrollments decreased the overall total costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to additional enrollments for members occurring in FY 2026-27.

Methodology:

1. Assume estimated cost of waiver impacted services for members residing year-round in Nursing Facility (NF)-Bs is \$114,908 in FY 2025-26 and \$109,446 in FY 2026-27. The savings from moving members from NF-Bs to the waiver are 50% FF and 50% GF.
2. Assume 100% of CCT members will receive pre-transition demonstration services for up to six months; reimbursed at 75% MFP and 25% GF.

CALIFORNIA COMMUNITY TRANSITIONS COSTS

3. Assume the Department will pay 100% GF for pre-transition services and unsuccessful pre-transition services and 50% FF / 50% GF for post-transition services for the state-funded CCT members.
4. Assume 768 members will transition from an inpatient facility to the CCT program in FY 2025-26 and FY 2026-27.
5. Assume 595 ALW members in FY 2025-26 and FY 2026-27 who transition from an institution to a community setting qualify to draw down post-transition Qualified Home and Community-Based Services.
6. Assume \$41,929,000 was awarded for CY 2024, which allowed CCT transitions to continue through December 31, 2024.
7. Assume the federal government will issue a new grant award in CY 2025 at least equal to the current grant awarded, which will allow CCT transitions to continue through December 31, 2025.
8. Below is the estimated impact of the CCT Demonstration project in FY 2025-26 and FY 2026-27.

FY 2025-26	TF	GF	FF
CCT Costs PC:			
Regular CCT Population	\$85,455,000	\$17,180,000	\$68,275,000

GENERAL FUND	\$32,212,500	\$32,212,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the Multipurpose Senior Services Program (MSSP).

Authority:

Welfare & Institutions Code 9560-9568
Welfare & Institutions Code 14132.275
Welfare & Institutions Code 14186
SB 1008 (Chapter 33, Statutes of 2012)
American Rescue Plan (ARP) Act (2021)
AB 128 (Chapter 21, Statutes of 2021)

Interdependent Policy Changes:

Not Applicable

Background:

The MSSP provides social and health care management and purchases supplemental services to assist persons aged 60 and older who are "at risk" of needing nursing facility placement but who wish to remain in the community. The program provides services under a federal 1915(c) home and community-based services (HCBS) waiver.

In October 2015, Health Plan of San Mateo (HPSM) successfully transitioned to a full managed care benefit and fully integrated MSSP services into health plan operations.

The Coordinated Care Initiative (CCI) was previously scheduled to transition MSSP to a managed care benefit effective January 1, 2023. However, MSSP was instead carved-out of CCI with a January 1, 2022, implementation date, and a May 1, 2022, effective date. The MSSP Waiver was amended to revert the managed care payment methodology for the six impacted CCI counties back to a Fee-for-Service (FFS) payment methodology.

Effective January 1, 2022, the total MSSP reimbursement is budgeted in this policy change as a result of AB 128 (Chapter 21, Statutes of 2021), and all MSSP sites are FFS.

MULTIPURPOSE SENIOR SERVICES PROGRAM

The MSSP renewal application was submitted to CMS on March 29, 2024. Following the renewal application submission, CMS issued three rounds of subsequent requests for additional information and granted a 90-day extension set for September 27, 2024. The Department provided responses to all requests for additional information, and on September 26, 2024, the Department and the California Department of Aging received CMS' approval of the renewed 1915(c) HCBS waiver, effective July 1, 2024, through June 30, 2029.

Reason for Change:

There is no change in totals funds from the prior estimate for FY 2025-26. There is a slight increase in General Fund (GF) due to applying an adjustment for the Unsatisfactory Immigration Status population starting in FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Assume the MSSP has 11,940 slots at a rate of \$5,356 per slot for FY 2025-26 and FY 2026-27.
2. The estimates below were provided on a cash basis.

Fiscal Years	TF	GF	FF
FY 2025-26	\$63,951,000	\$32,212,000	\$31,739,000
FY 2026-27	\$63,951,000	\$32,212,000	\$31,739,000

*Totals may differ due to rounding.

FEDERAL FUNDS	\$331,100	\$416,890
GENERAL FUND	\$253,490	\$319,180
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs to establish a new Medi-Cal benefit and provider type, Wellness Coach, as part of the Child and Youth Behavioral Health Initiative (CYBHI).

Authority:

Budget Act of 2024
 State Plan Amendment (SPA) 25-0014
 AB 133 (Chapter 143, Statutes of 2021)

Interdependent Policy Changes:

Not Applicable

Background:

The Budget Act of 2022 authorized the Children and Youth Behavioral Health Initiative (CYBHI), a multi-year investment package to transform the behavioral health system so every child and youth in California, 0-25 years of age, has increased access to behavioral health supports.

As part of the CYBHI funding and plan, the Department of Health Care and Access Information (HCAI) received funding to design and build the Certified Wellness Coach (formerly known as behavioral health coach) workforce. The Department, in partnership with HCAI is implementing the Certified Wellness Coach Medi-Cal benefit (SPA 25-0014, approved by CMS on June 25, 2025 with an effective date of January 1, 2025) to improve access to services and supports to Medi-Cal members with existing and emerging behavioral health needs. This benefit is available in Medi-Cal fee-for-service (FFS) and managed care for Medi-Cal members.

In accordance with the Health and Safety Code Section 127825, the Certified Wellness Coach role is a new category of behavioral health provider, certified to address the unmet behavioral health needs of children and youth in California.

Certified Wellness Coaches will operate as part of a care team and must be recommended by a physician or other licensed practitioner of the healing arts within their scope of practice.

CYBHI WELLNESS COACH BENEFIT

Certified Wellness Coaches will offer six core services, including: 1) wellness promotion and education; 2) screening; 3) care coordination; 4) individual support; 5) group support; and 6) crisis referral offered in schools, in the community, and health care settings.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to updated rates for Certified Wellness Coach services, and the addition of the Erroneous Payment Correction (EPC) for the January 2025 through July 2025 period.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a ramp up of services in FY 2026-27.

Methodology:

1. Assume the effective date of the benefit is January 2025.
2. Assume FFS payments will begin in August 2025. Managed care payments began in February 2025 and are fully captured in the managed care base capitation rates.
3. Assume the benefit will phase in over several years and the annual impact at full ramp up is \$154 million TF (\$67 million GF).
4. The estimated costs, on a cash basis, in FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF	FF
FFS (Lagged)	\$406,000	\$176,000	\$230,000
FFS (EPC)	\$179,000	\$78,000	\$101,000
Managed Care	\$42,718,000	\$18,523,000	\$24,195,000
Total	\$43,303,000	\$18,777,000	\$24,526,000

FY 2026-27	TF	GF	FF
FFS (Lagged)	\$736,000	\$319,000	\$417,000

Not Applicable

Background:

SB 870 added Welfare & Institutions Code (WIC), Section 14132.56 to direct the Department to implement BHT services to the extent it is required by the federal government to be covered by Medi-Cal for individuals under 21 years of age. On July 7, 2014, the Centers for Medicare and Medicaid Services (CMS) released guidance for states to cover BHT services for Medicaid members with an ASD diagnosis.

On September 15, 2014, the Department issued interim guidance to Medi-Cal managed care health plans (MCPs) requiring the MCPs to cover all medically necessary BHT services effective on or after September 15, 2014. The Department received approval of State Plan Amendment (SPA) 14-026 on January 21, 2016, to include BHT as a covered Medi-Cal benefit.

Prior to the addition of BHT as a Medi-Cal benefit, BHT and other Medi-Cal related services were provided under the Medicaid 1915(c) and (i) waivers for individuals with developmental disabilities that met certain eligibility criteria. These services were provided through a system of Regional Centers (RC) contracted with the Department of Developmental Services (DDS).

BEHAVIORAL HEALTH TREATMENT

The Department, in collaboration with DDS, began transitioning responsibility for BHT services starting February 1, 2016 in both Medi-Cal FFS and managed care. The transition was completed in September 2016. Medi-Cal members age 21 and over receiving BHT services from RCs will continue to receive those services from the RCs pursuant to the 1915(c) and (i) waivers.

On March 1, 2018, the Department transitioned additional RC clients enrolled in FFS Medi-Cal, who did not have an ASD diagnosis but were receiving BHT Behavioral Intervention Services (BIS), to Medi-Cal coverage for BHT/BIS. The transition of Medi-Cal managed care clients began on July 1, 2018, and was completed by December 1, 2018.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase based on updated expenditure data and the assumed timing of invoice payments.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is due to more prior year payments estimated for FY 2025-26 than FY 2026-27.

Methodology:

1. Coverage for BHT began on September 15, 2014. FFS members transitioned from DDS on February 1, 2016.
2. The IA contract between the Department and DDS was executed in July 2017, with a retroactive effective date of February 1, 2016.
3. The Department amended the BHT IA contract to include BHT/BIS. The amended contract was executed on October 29, 2018, and DDS began submitting claims starting April 2019.
4. FFS cost reimbursement estimates were provided by DDS. The estimated annual cost on an accrual basis is \$6,040,000 TF for FY 2025-26 and FY 2026-27 claims.
5. Managed care payments for BHT services began in October 2016, based on a supplemental capitation payment methodology, retroactive to the implementation date.
6. Starting January 1, 2023, managed care costs for BHT transitioned to the base capitation rates and are no longer included in this policy change.

BEHAVIORAL HEALTH TREATMENT

7. On a cash basis, FFS reimbursements are estimated to be paid as follows:

Behavioral Health Treatment	Accrual	FY 2025-26	FY 2026-27
FY 2023-24 claims	\$11,481,000	\$578,000	\$0
FY 2024-25 claims	\$6,040,000	\$2,009,000	\$160,000
FY 2025-26 claims	\$6,040,000	\$5,033,000	\$1,007,000
FY 2026-27 claims	\$6,040,000	\$0	\$5,033,000
Total		\$7,620,000	\$6,200,000

(Dollars in Thousands)

Behavioral Health Treatment	TF	GF	FF
FY 2025-26	\$7,620	\$3,810	\$3,810
FY 2026-27	\$6,200	\$3,100	\$3,100

% REFLECTED IN BASE	8.9900%	5.3200%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$1,412,500	\$2,481,600
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$1,412,480	\$2,481,560
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of providing hearing aids and associated services to children ages 20 and under, who are otherwise not eligible for Medi-Cal, do not have health insurance coverage for hearing aids or have qualifying partial other health coverage for hearing aids, and are at or below 600% Federal Poverty Level (FPL).

Authority:

AB 89 (Chapter 7, Statutes of 2020)

Budget Act of 2022 [AB 179 (Chapter 249, Statutes of 2022)]

Interdependent Policy Changes:

Not Applicable

Background:

The Department introduced the Hearing Aid Coverage for Children Program (HACCP) as a new California state-only benefit for children, ages 0-17, who are otherwise not eligible for Medi-Cal, and with a household income up to 600% of the federal poverty level, effective July 1, 2021. This benefit is available to children with no health insurance or whose existing health insurance does not cover hearing aids. Valid hearing aid prescription from an otolaryngologist or physician, or referral from a hearing-related professional or medical provider will be required for program enrollment. This program is funded with 100% General Fund (GF).

Without this benefit, eligible children are at a high risk for developmental and educational delays. It is especially important to make this benefit available, given the recent pandemic that resulted in school closures and increased adoption of distance learning. Children who are deaf and hard of hearing must be able to utilize every medical assistance/device available to ensure continued learning.

Effective January 1, 2023, the eligibility criteria for HACCP has been revised and updated to:

- Expand the age range of eligible children through 20 years of age, and
- Expand coverage to children with qualifying partial other health coverage for hearing aids.

HEARING AID COVERAGE FOR CHILDREN PROGRAM

Reason for Change:

There is no change from the prior estimate for FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the continuation of enrollment ramp-up in FY 2026-27.

Methodology:

1. HACCP began on July 1, 2021. Claim reimbursement payments began in December 2021.
2. Annual costs are estimated to be \$1,650,000 in FY 2025-26 and \$2,738,000 in FY 2026-27.
3. The hearing aid costs in this policy change are budgeted without the impact of the Medi-Cal provider rate increases.
4. FY 2025-26 and FY 2026-27 lagged payments for HACCP claims are estimated to be:

(Dollars in Thousands)

Hearing Aid Coverage for Children Program	TF	GF
FY 2025-26 (Lagged)	\$1,552	\$1,552
FY 2026-27 (Lagged)	\$2,621	\$2,621

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the enhanced federal funding associated with providing the California Department of Social Services (CDSS) additional Title XIX for waiver services provided to Medi-Cal members who participate in the California Community Transitions (CCT) project.

Authority:

Federal Deficit Reduction Act (DRA) of 2005 (P.L. 109-171), Section 6071
 Affordable Care Act (ACA) (P.L. 111-148), Section 2403)
 Medicaid Extenders Act of 2019 (P.L. 116-3), Section 2
 IA 10-87274 (CDSS)
 Consolidated Appropriations Act, 2021 (P.L. 108-361), Section 204

Interdependent Policy Changes:

Not Applicable

Background:

The CCT demonstration is authorized under Section 6071 of the Federal DRA of 2005 and was extended by the ACA.

The Money Follows the Person (MFP) grant requires the Department to develop and implement strategies to assist Medi-Cal eligible members, who have continuously resided in health care facilities for 60 days or longer, transition into qualified residences with the support of Medi-Cal Home and Community-Based Services (HCBS).

The Extenders Act provided the Centers for Medicare and Medicaid Services with authority to allocate new funding to state grantees for FY 2019-20, to allow funding appropriated through the Extenders Act to be spent through 2023.

On December 27, 2020, the President signed the Consolidated Appropriations Act, 2021 into law, which included an extension of the MFP grant through FFY 2023 and appropriated funding through FFY 2023. Under the Act, the CCT Program received grant funding to continue to

CCT FUND TRANSFER TO CDSS

transition eligible members through September 2023 and up to four years after, as long as grant funding remains available. The Act also reduced the number of days a member had to reside in a facility to be eligible for MFP from 90 to 60 days.

On December 29, 2022, the President signed the Consolidated Appropriations Act of 2023 into law, which appropriates additional funding for each fiscal year 2024 through 2027. Unexpended grant funds awarded for any fiscal year can continue to be spent for up to four additional years, through September 30, 2031.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to estimating more CCT enrollees using In-Home Supportive Services (IHSS) under CCT and estimating a higher cost per member. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The Department provides HCBS to CCT members who are receiving IHSS. The Department provides federal funding to CDSS as the base federal match through HCBS policy changes.
2. CCT services are reimbursed at 75% FFP and 25% GF. The GF for CDSS is provided by CDSS and is budgeted in the Personal Care Services (Misc. Svcs.) policy change.
3. The Department established IA 10-87274 with CDSS. The IA transfers the additional 25% FFP for HCBS provided to CCT members who are receiving IHSS services during their 365 days of participation in the CCT demonstration.
4. It is assumed that 5% of all members utilize IHSS under CCT in FY 2025-26 and FY 2026-27. Assume each case costs \$7,649 in FY 2025-26 and FY 2026-27. The Department will provide 25% of these costs to CDSS.
5. Assume 432 unduplicated IHSS members will transition in FY 2025-26 and FY 2026-27.
6. Assume \$41,929,000 TF was awarded for calendar year (CY) 2024, which allowed CCT transitions to continue through December 31, 2024.
7. Assume the federal government will issue a new grant award in CY 2025 at least equal to the current grant awarded, which will allow CCT transitions to continue through December 31, 2025.
8. Below is the overall impact of the CCT Demonstration project in FY 2025-26 and FY 2026-27.

CCT FUND TRANSFER TO CDSS

FY 2025-26	TF	GF	FF
CCT Costs PC:			
Regular CCT Population	\$85,455,000	\$17,180,000	\$68,275,000

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of Medi-Cal members participating in the federal Cell and Gene Therapy (CGT) Access Model for sickle cell disease (SCD).

Authority:

State Plan Amendment 24-0009

Interdependent Policy Changes:

Not Applicable

Background:

The CGT Access Model was developed in response to former President Biden's Executive Order 14087, "Lowering Prescription Drug Costs for Americans." The CGT Access Model tests whether a Centers for Medicare & Medicaid Services (CMS) led approach to developing and administering outcomes-based agreements (OBAs) for CGT therapies improves Medicaid members' access to innovative treatment, improves their health outcomes, and reduces health care costs and burdens on state Medicaid programs. The CGT Access Model consists of eleven performance years (PYs).

The initial focus of the model is on cell and gene therapies to treat SCD a rare genetic blood disorder that disproportionately affects Black Americans. The model includes coverage of the cell and gene therapy treatment, a defined scope of fertility preservation services, and supports for ancillary services, including travel expenses, case management, and behavioral health services.

Under the CGT Access Model, manufacturers will be obligated to provide states with supplemental rebates. The negotiated rebate structure includes a statutory (federal) rebate, a guaranteed rebate that is CGT Access Model specific and negotiated by CMS based on percent of sickle cell disease Medicaid members residing in California, and an outcomes based (value based) rebate that will materialize in later years if agreed upon outcome measures are not achieved.

CELL AND GENE THERAPY ACCESS MODEL

The Department applied for participation in CMS' CGT Access Model on March 11, 2025. The Department received formal approval from CMS and was accepted into the CGT Access Model for Medi-Cal as of March 25, 2025. In alignment with CMS requirements, Medi-Cal coverage includes the following therapies:

- CASGEVY™ by Vertex Pharmaceuticals, Inc. - effective October 1, 2025.
- LYFGENIA™ by bluebird bio, Inc. - effective July 1, 2025.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to the application of a payment lag factor whereas no payment lag was used in the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the application of a payment lag factor in FY 2025-26 and assuming there is no payment lag adjustment in FY 2026-27.

Methodology:

1. Assume participation in the CGT Access Model is effective July 1, 2025, for LYFGENIA™ and October 1, 2025, for CASGEVY™.
2. Assume the two SCD gene therapies offered with the CGT Access Model (LYFGENIA™ from bluebird bio, Inc. and CASGEVY™ from Vertex Pharmaceuticals) are carved out of the managed care capitation and Fee-for-Service (FFS) inpatient Diagnosis Related Group (DRG) bundled payments and will be paid through the Medi-Cal FFS delivery system.
3. Assume the SCD gene therapies will be provided to twelve Medi-Cal members per year for CASGEVY™ and twelve Medi-Cal members per year for LYFGENIA™.
4. Assume the cost of the SCD gene therapies is post statutory drug rebates and post guaranteed drug rebates paid by the drug manufacturers.
5. Assume the annual total cost is \$19,321,000 TF (\$9,660,000 GF).
6. Assume the total cost of participation in the CGT Access Model is:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF

GENERAL FUND	\$31,749,250	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the retroactive adjustments to payments for pharmacy providers related to the April 1, 2017 change in the pharmacy reimbursement methodology.

Authority:

CMS Final Rule (CMS-2345-FC), 42 CFR Part 447

State Plan Amendment (SPA) #17-002

Budget Act of 2022 [AB 179 (Chapter 249, Statutes of 2022)]

Interdependent Policy Changes:

Not Applicable

Background:

The Centers for Medicare and Medicaid Services (CMS), under the provisions of the Affordable Care Act, required each state Medicaid agency to adopt an actual acquisition cost (AAC) based methodology for Covered Outpatient Drugs (CODs) and to adjust their professional dispensing fee. To satisfy this requirement, California, along with many other state Medicaid agencies, adopted CMS' National Average Drug Acquisition Cost (NADAC) as the basis for AAC for drug ingredient reimbursement. CMS approved SPA 17-002 authorizing the Department to implement a new pharmacy reimbursement methodology and professional dispensing fee, effective April 1, 2017. This reimbursement methodology requires all CODs be billed at the AAC.

Providers continued to be paid using the Average Wholesale Price reimbursement methodology until the AAC methodology was implemented on February 23, 2019. Retroactive adjustments for the 23-month period, from April 1, 2017, to February 23, 2019 were to be implemented. The initial retroactive adjustment was for one month of claims (April 2017) and installed on May 23, 2019.

PHARMACY RETROACTIVE ADJUSTMENTS

In June of 2019, the Department paused the retroactive adjustments prior to a lawsuit, *California Pharmacists Association, et al. v. Kent, et al.*, being filed in U.S. District Court on June 5, 2019, seeking to enjoin the Department from implementing the retroactive adjustments. In addition, the Department developed a process to address the plaintiff's concerns regarding recoupments resulting from the retroactive adjustments.

The Department was scheduled to resume retroactive pharmacy claim adjustments in February 2021. However, due to factors related to ongoing litigation at the time, the Department continued the pause. This pause applied to all pharmacy claims billed through the Medi-Cal Fee-for-Service Fiscal Intermediary. Recoupments for the retroactive adjustments resumed in October 2023 and have now been completed.

The Budget Act of 2022 canceled the retroactive recoupments for independent pharmacy providers.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a portion of the remaining payments to independent pharmacies, previously budgeted in FY 2024-25, shifting to FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the completion of the remaining payments and adjustments in FY 2025-26.

Methodology:

- Federal Repayment:
Assume the retroactive recoupments for independent pharmacy providers will not be collected.
- Remaining Payments:
Assume the remaining net payment to independent pharmacies (estimated at \$800,000) will occur in FY 2025-26.
- Assume the Remaining Payments from FY 2023-24 and FY 2024-25 require an adjustment as these payments were made past the two-year CMS claiming limit. This adjustment will be completed in FY 2025-26.
- On a cash basis, the net impact in FY 2025-26 is estimated to be:

FY 2025-26	TF	GF	FF
Remaining Payments	\$800,000	\$286,000	\$514,000
Remaining Payment Adjustment	\$0	\$31,463,000	(\$31,463,000)
Total	\$800,000	\$31,749,000	(\$30,949,000)

Purpose:

This policy change estimates the transfer of drug rebate collections from the Medi-Cal Drug Rebate Fund to the General Fund (GF).

Authority:

SB 78 (Chapter 38, Statutes of 2019)

Interdependent Policy Changes:

Not Applicable

Background:

SB 78 established the Medi-Cal Drug Rebate Fund, effective July 1, 2019. The non-federal share of federal and state supplemental Medi-Cal rebate collections will be deposited into the Medi-Cal Drug Rebates Fund. Transfers will occur from the Medi-Cal Drug Rebate Fund to offset the GF.

For information on the federal share of the rebate collections, see the Federal Drug Rebates, State Supplemental Drug Rebates, Family PACT Drug Rebates, and BCCTP Drug Rebates policy changes.

On January 7, 2019, the Governor issued Executive Order N-01-19 which required the Department to transition Medi-Cal pharmacy services from Managed Care (MC) to the Fee-For-Service (FFS) delivery system. Additional state supplemental rebates are being collected as a result of the MC population shift to Medi-Cal Rx.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase in the GF transfer due to:

- The actual ending balance in the Medi-Cal Drug Rebate Fund for FY 2024-25 is included in the FY 2025-25 transfer, and
- Estimating an increase in GF rebate collections.

MEDI-CAL DRUG REBATE FUND

The change from FY 2025-26 to FY 2026-27 in the current estimate, is an increase in the GF transfer due to estimating higher GF rebate collections in FY 2026-27.

Methodology:

1. In FY 2025-26, it is estimated that \$2.3 billion will be transferred from the Medi-Cal Drug Rebate Fund to the GF and \$2.4 billion will be transferred from the Medi-Cal Drug Rebate Fund to the GF in FY 2026-27.
2. A balance of \$129.92 million was in the Medi-Cal Drug Rebate Fund as of July 2025. In FY 2025-26 and FY 2026-27 all rebate collections will be transferred to the GF leaving no reserve in the Medi-Cal Drug Rebate Fund.
3. The summary of the non-federal share and federal share of the estimated FY 2025-26 and FY 2026-27 rebates and the estimated reserve for each respective fiscal year are:

(Dollars in Thousands)

FY 2025-26 Summary of Drug Rebates	TF	Fund 3331	FF
Federal Drug Rebates	(\$7,141,746)	(\$2,007,863)	(\$5,133,883)

% REFLECTED IN BASE	0%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	-\$300,000,000
FEDERAL FUNDS	\$0	-\$150,000,000
GENERAL FUND	\$0	-\$150,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from modifying the rebate percentages for human immunodeficiency virus (HIV)/ acquired immunodeficiency syndrome (AIDS) and cancer drugs.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is implementing various initiatives to enhance Medi-Cal Rx coverage and reimbursement policy to promote continued access to high-quality pharmacy benefits while ensuring more effective and efficient use of state and federal resources, to promote greater cost savings, and to protect against fraud, waste, and abuse.

AB 116 modifies the rebate percentages for HIV/AIDS and cancer drugs. If the mandatory rebate from the Centers for Medicare and Medicaid Services (CMS) is less than 50%, then the minimum rebate will increase to not less than 20%. If the mandatory CMS rebate is greater than 50% then the minimum will be not less than 15%.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to shifting estimated rebate collections to FY 2026-27 as rebate invoicing for the January -March 2026 quarter will be collected in the July- September 2026 quarter.

The change from FY 2025-26 to FY 2026-27, in the current estimate is due to estimating that the rebates invoiced using the increased rebate percentage will be collected beginning in FY 2026-27.

HIV/AIDS AND CANCER DRUG REBATES

Methodology:

1. Annual savings are estimated at \$300 million TF (\$150 million GF).
2. Assume implementation will be no sooner than January 1, 2026.
3. Rebates are invoiced quarterly and payments occur six months after the conclusion of each quarter.
4. Assume four quarters of rebate collections with the increased rebate percentage in FY 2026-27.

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2026-27	(\$300,000)	(\$150,000)	(\$150,000)

LITIGATION SETTLEMENTS

FISCAL REFERENCE NUMBER:1449

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	-\$6,000	\$0
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$6,000	\$0
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0.0000%	0%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	-\$6,000	\$0
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$6,000	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the settlement amounts expected to be received by the Department from pharmaceutical and other entities due to illegal promotion of drugs, kickbacks, sanctions, and overcharges.

Authority:

Not Applicable

Interdependent Policy Changes:

Not Applicable

Background:

The Department imposes sanctions and works collaboratively with the Office of the Attorney General to pursue charges related to Qui-Tam lawsuits (civil lawsuits filed under the False Claims Act by individuals not affiliated with the government, that result in a recovery of funds due to the Department), illegal promotion of drugs, kickbacks, and overcharging of Medicaid.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to an additional settlement payment expected to be received. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to only being able to budget for current year settlement amounts.

LITIGATION SETTLEMENTS

Methodology:

The following settlements are expected to be received in FY 2025-26:

Settlement Name	FY 2025-26
Progenity Inc.	(\$6,000)
Total GF Savings	(\$6,000)

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the revenues collected from the Breast and Cervical Cancer Treatment Program (BCCTP) drug rebates.

Authority:

Social Security Act, section 1927 [42 U.S.C. 1396r-8]
 Omnibus Budget Reconciliation Act (OBRA) of 1990, Title IV, sec. 4401(a)(3), 104 Stat.
 Welfare & Institutions Code 14105.33
 SB 78 (Chapter 38, Statutes of 2019)

Interdependent Policy Changes:

Medi-Cal Drug Rebate Fund

Background:

Enhanced Title XIX Medicaid funds are claimed for drugs under the federal Medicaid BCCTP. The Department is required by federal law to collect drug rebates whenever there is federal participation. The Department began collecting rebates for beneficiary drug claims for the full-scope federal BCCTP in January 2010. This policy change reflects ongoing rebates collected.

SB 78 established the Medi-Cal Drug Rebate Fund (Fund 3331), effective July 1, 2019. The non-federal share of Medi-Cal federal and state supplemental drug rebates will be deposited into Fund 3331. See the Medi-Cal Drug Rebate Fund policy change for the estimated total transfers from Fund 3331 to the General Fund (GF).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease in savings due to:

- Including two additional quarters of actual rebate collection data through the quarter ending June 2025, and
- A decrease in estimated BCCTP pharmacy expenditures for the applicable expenditure period.

BCCTP DRUG REBATES

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in rebate savings due to an increase in estimated BCCTP pharmacy expenditures from FY 2025-26 to FY 2026-27.

Methodology:

1. Payments began in January 2010.
2. Rebates are invoiced quarterly.
3. The estimated rebates to collect are \$1,673,000 in FY 2025-26 and \$1,713,000 in FY 2026-27.
4. Assume, of the total BCCTP rebates collected, the ACA offset for BCCTP is \$257,000 TF in FY 2025-26 and \$263,000 TF in FY 2026-27.
5. The Department estimates \$496,000 and \$508,000 BCCTP drug rebates to be collected and transferred to the Medi-Cal Drug Rebate Fund in FY 2025-26 and FY 2026-27, respectively.

FY 2025-26	TF	FF	Fund 3331 Transfer*
100% Title XIX FF	(\$920,000)	(\$920,000)	(\$496,000)

FEDERAL FUNDS	-\$2,459,000	-\$1,900,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the revenues collected from the Family Planning Access, Care and Treatment (FPACT) drug rebates.

Authority:

Social Security Act, section 1927 [42 U.S.C. 1396r–8]
 Omnibus Budget Reconciliation Act (OBRA) of 1990, Title IV, sec. 4401(a)(3), 104 Stat.
 Welfare & Institutions Code 14105.33
 SB 78 (Chapter 38, Statutes of 2019)

Interdependent Policy Changes:

Medi-Cal Drug Rebate Fund

Background:

Rebates for drugs covered through the FPACT program are obtained by the Department from the drug companies involved. Rebates are estimated by using the actual Fee-for-Service (FFS) trend data for drug expenditures, and applying a historical percentage of the actual amounts collected to the trend projection.

In October 2008, the Department discontinued the collection of rebates for drugs that are not eligible for federal financial participation (FFP), which the Centers for Medicare & Medicaid Services (CMS) determined to be 24% of the FPACT drug costs. Effective July 2009, it is assumed 13.95% of the FPACT drug costs are not eligible for rebates.

SB 78 established the Medi-Cal Drug Rebate Fund (Fund 3331), effective July 1, 2019. The non-federal share of Medi-Cal federal and state supplemental drug rebates will be deposited into Fund 3331. See the Medi-Cal Drug Rebate Fund policy change for the estimated total transfers from Fund 3331 to the General Fund (GF).

FAMILY PACT DRUG REBATES

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase in rebates savings due to:

- Including two additional quarters of actual rebate collection data through quarter ending June 2025, and
- An increase in the estimated percentage of rebates collected to FPACT pharmacy expenditures.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in rebate savings due to an estimated decrease in FPACT pharmacy expenditures from FY 2025-26 to FY 2026-27.

Methodology:

1. The regular Federal Medical Assistance Percentage (FMAP) percentage is applied to 9.31% of the FPACT rebates to account for the purchase of non-family planning drugs, and the family planning percentage (90% FFP) is applied to 90.69% of the FPACT rebates.
2. Assume the ACA offset is \$194,000 TF for FY 2025-26 and \$150,000 TF for FY 2026-27.
3. Actual data from July 2013 to June 2025 is used to project rebates.
4. The Department estimates \$360,000 and \$278,000 FPACT rebate collections to be collected and transferred to the Medi-Cal Drug Rebate Fund in FY 2025-26 and FY 2026-27, respectively.

Funding:

FY 2025-26	TF	FF	Fund 3331 Transfer

GENERAL FUND	-\$2,247,300	-\$4,972,900
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from eliminating coverage for COVID-19 tests and updating restrictions on coverage for certain over-the-counter (OTC) drugs.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is proposing various initiatives to enhance Medi-Cal Rx coverage and reimbursement policy to promote continued access to high-quality pharmacy benefits while ensuring more effective and efficient use of state and federal resources, to promote greater cost savings, and to protect against fraud, waste, and abuse.

The Department proposes to eliminate coverage and introduce restrictions for the following drug classes/therapies:

- COVID-19 tests
 - Prior authorizations will be required for all COVID-19 tests effective January 1, 2026.
 - COVID-19 test coverage will be eliminated effective October 1, 2027.
- OTC multivitamin combination products
 - Remove coverage for members 21 years of age and older.
- OTC single-ingredient vitamins
 - Limit coverage for members under 21 years.
 - PA will be required for members 21 years and older, except for Vitamin D and B preparations.
- OTC first- and second-generation antihistamines.
 - For members 21 years of age and older, coverage is restricted to generic formulations only.
 - Fexofenadine and Allegra brand name products are PA only.

ELIMINATE COVID-19 TESTS AND OTC DRUGS

- OTC dry eye products
 - For all members 21 years of age and older, coverage is restricted PA only.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated payment lag and funding assumptions.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 reflecting a full year's savings.

Methodology:

1. Annual savings are estimated at \$12 million TF.
2. Assume implementation will be no sooner than January 1, 2026.
3. Total estimated savings for the elimination of coverage for COVID-19 tests and certain OTC drugs, on a cash basis, are as follows:

(Dollars in Thousands)

GENERAL FUND	-\$86,355,000	-\$364,180,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from eliminating coverage for glucagon-like peptide-1 (GLP-1) drugs for weight loss indications.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is proposing various initiatives to enhance Medi-Cal Rx coverage and reimbursement policy to promote continued access to high-quality pharmacy benefits while ensuring more effective and efficient use of state and federal resources, to promote greater cost savings, and to protect against fraud, waste, and abuse.

The Department proposes to eliminate coverage for all GLP-1 drugs for weight loss indications.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a technical update to the estimated savings calculation.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the additional ramp up of savings estimated in FY 2026-27.

Methodology:

1. Assume implementation will be no sooner than January 1, 2026.

ELIMINATE GLP-1 COVERAGE FOR WEIGHT LOSS

2. Total estimated savings for eliminating coverage of GLP-1 drugs for weight loss indications, on a cash basis, are as follows:

Fiscal Year	TF	GF	FF
FY 2025-26	(\$86,567,000)	(\$86,355,000)	(\$212,000)
FY 2026-27	(\$365,144,000)	(\$364,180,000)	(\$964,000)

Funding:

100% GF (4260-101-0001)

100% Title XIX (4260-101-0890)

PRIOR AUTH. FOR CONTINUATION OF DRUG THERAPY**FISCAL REFERENCE NUMBER:2518**

	FY 2025-26	FY 2026-27
TOTAL IMPACT

GENERAL FUND	-\$46,821,900	-\$103,600,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from discontinuing the current continuation of therapy policy which looks to see if members' claims data shows a history of prior use within 100 days and make continued coverage subject to prior authorization (PA).

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is proposing various initiatives to enhance Medi-Cal Rx coverage and reimbursement policy to promote continued access to high-quality pharmacy benefits while ensuring more effective and efficient use of state and federal resources, to promote greater cost savings, and to protect against fraud, waste, and abuse.

The Department intends to remove the 100-day look back for drugs that are removed from the Contract Drug List (CDL). Members on drugs that have been removed from the Medi-Cal Rx CDL will require a Prior Authorization to continue therapy and will no longer be granted automatic coverage based on prior use.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated payment lag and funding assumptions.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 reflecting a full year's savings.

PRIOR AUTH. FOR CONTINUATION OF DRUG THERAPY

Methodology:

1. Annual savings are estimated at \$250 million TF.
2. Assume implementation will be no sooner than January 1, 2026.
3. Total estimated savings from discontinuing the current continuation of therapy policy, on a cash basis, are as follows:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from collecting state drug rebates for Medi-Cal members with Unsatisfactory Immigration Status (UIS).

Authority:

Budget Act of 2025

Interdependent Policy Changes:

Not Applicable

Background:

The Department will enter into a contract with a rebate aggregator (the Contractor) to negotiate and execute contracts to allow Medi-Cal to collect state drug rebates for Medi-Cal members with UIS. The Contractor's administrative costs will be a percentage of the state drug rebates invoiced and the savings reflected in this estimate are net of the Contractor's administrative costs.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to assuming one quarter of state drug rebates will be collected rather than three quarters based on a two quarter lag in state rebate collections from when quarterly state drug rebates are invoiced.

The change in FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Estimating that quarterly state drug rebate amounts will increase from FY 2025-26, and
- Assuming three quarters of state drug rebates will be collected in FY 2026-27.

Methodology:

1. Assume implementation will be no sooner than October 1, 2025.
2. State drug rebates are invoiced quarterly and due four months after the quarter ends.

MEDI-CAL RX REBATE AGGREGATOR

3. Assume one quarter of state drug rebates will be collected in FY 2025-26 and three quarters of state drug rebates will be collected in FY 2026-27.

FEDERAL FUNDS	-\$72,900,000	-\$134,217,350
GENERAL FUND	-\$72,900,000	-\$60,182,650
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the revenues from the medical supply rebates collected by the Department through contracts with medical supply manufacturers.

Authority:

Welfare & Institutions Code 14100.95(a) and 14105.47(c)(1)

Interdependent Policy Changes:

Not Applicable

Background:

The Department contracts with interested medical supply manufacturers for a negotiated Maximum Acquisition Cost (MAC) for specific medical supplies which guarantees the best price available to all providers, from at least one source. The amount, per unit, reimbursed to Medi-Cal pharmacy providers for these contracted specific medical supplies is the contracted MAC. In addition, manufacturers may opt to contract for a MAC plus a Rebate. The rebates are a percentage of the MAC per unit of services (quantity) reimbursed.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase in savings due to revised projections based on updated actual rebate collection data. In addition, the funding assumptions were updated based on a delay in implementing automated rebate collections for medical supply rebates.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in savings due to a one-time shift in the timing of rebate collections as a result of switching from a manual system to an automated system causing four quarters of rebates to be collected in FY 2026-27 compared to three quarters in FY 2025-26.

Methodology:

1. Assume the average FFS quarterly collections are for medical supply rebates are \$48,600,000.

MEDICAL SUPPLY REBATES

2. There is a one quarter lag for medical supply rebate collections under the current manual process.
3. In FY 2025-26, medical supply rebate collections will transition to an automated system with a two quarter lag in rebate collections. This one-time adjustment will result in three quarters of rebates collected in FY 2025-26.
4. Assume the total rebates collected are:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from implementing step therapy protocols for pharmacy drugs.

Authority:

AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is proposing various initiatives to enhance Medi-Cal Rx coverage and reimbursement policy to promote continued access to high-quality pharmacy benefits while ensuring more effective and efficient use of state and federal resources, to promote greater cost savings, and to protect against fraud, waste, and abuse.

Step therapy is a strategy used in utilization management based on clinical guidelines to control prescription drug costs. This approach establishes a specific order for which medications are covered by a health benefits plan. The Department would administer a step therapy program to develop, create, update, and maintain a specific list of step-therapy drugs and apply specific step-therapy clinical guidelines and Medi-Cal net cost criteria developed by the Department. These step-therapy clinical guidelines and cost criteria will apply in addition to Prior Authorizations (PA) review for medical necessity for drugs not listed on the Contract Drug List (CDL).

For drugs included in the Medi-Cal step therapy program, members would be required to first try one or more medications from the CDL in a specific order determined by the Department. Only after these first-line or second-line therapy drugs have been attempted and found to be ineffective can a drug that is not included in the CDL and prescribed by the member's physician be eligible for a prior authorization (PA) review. This review will assess the medical necessity of the prescribed drug on a case-by-case basis.

STEP THERAPY

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated payment lag and funding assumptions.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 reflecting a full year's savings.

Methodology:

1. Annual savings are estimated at \$350 million TF.
2. Assume implementation will be no sooner than January 1, 2026.
3. Total estimated savings for step therapy protocols, on a cash basis, are as follows:

(Dollars in Thousands)

FEDERAL FUNDS	-\$580,093,000	-\$539,232,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the revenues collected from the State Supplemental Drug rebates.

Authority:

Welfare & Institutions Code 14105.33
SB 78 (Chapter 38, Statutes of 2019)

Interdependent Policy Changes:

Medi-Cal Drug Rebate Fund

Background:

State supplemental drug rebates for drugs provided through Fee-for-Service (FFS) and County Organized Health Systems are negotiated by the Department with drug manufacturers to provide additional drug rebates over and above the federal rebate levels (see the Federal Drug Rebate policy change).

SB 78 established the Medi-Cal Drug Rebate Fund (Fund 3331) effective July 1, 2019. The non-federal share of Medi-Cal federal and state supplemental drug rebates will be deposited into Fund 3331. See the Medi-Cal Drug Rebate Fund policy change for the estimated total transfers from Fund 3331 to the General Fund (GF).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase in rebate savings due to:

- Including two additional quarters of actual rebate collection data through the quarter ending June 2025, and
- Projections for state supplemental rebates are based on trends from actual rebate collection data to FFS drug expenditures.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in rebate savings due to a decrease in the estimated percentage of state supplemental drug rebates to FFS drug expenditures from FY 2025-26 to FY 2026-27.

STATE SUPPLEMENTAL DRUG REBATES

Methodology:

1. Rebates are estimated by using actual FFS trend data for drug expenditures and applying a historical percentage of actual rebates collected to the FFS trend projection.
2. Assume family planning drugs account for 0.21% of the regular federal drug rebates and are funded with 90% FF and 10% GF.
3. CHIP rebates are funded at 65% FF / 35% GF beginning October 1, 2020. Assume CHIP drug rebates collections are \$14,616,000 FF and \$14,550,000 FF in FY 2025-26 and FY 2026-27, respectively.
4. The optional expansion ACA population collections are estimated to be \$471,253,000 TF for FY 2025-26, of which \$424,128,000 FF is budgeted in this policy change. The amount of \$47,125,000 SF is the estimated non-federal share in the Medi-Cal Drug Rebate Fund. For FY 2026-27, the ACA collections are estimated to be \$414,970,000 TF, of which \$373,473,000 FF is budgeted in this policy change. The amount of \$41,497,000 SF is the estimated non-federal share in the Medi-Cal Drug Rebate Fund.
5. The Department estimates to transfer \$195,870,000 and \$200,034,000 state supplemental rebates to be collected and transferred to the Medi-Cal Drug Rebate Fund in FY 2025-26 and FY 2026-27, respectively.

FEDERAL FUNDS	-\$5,133,883,000	-\$5,649,935,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the revenues collected from the Federal Drug rebates.

Authority:

Social Security Act, section 1927 [42 U.S.C. 1396r-8]
 Omnibus Budget Reconciliation Act (OBRA) of 1990, Title IV, sec. 4401(a)(3), 104 Stat.
 SB 78 (Chapter 38, Statutes of 2019)

Interdependent Policy Changes:

Medi-Cal Drug Rebate Fund

Background:

The Medicaid Drug Rebate Program, created by OBRA 1990, allows the Department to obtain price discounts for drugs. The Affordable Care Act (ACA), HR 3590, and the Health Care and Education Reconciliation Act of 2010 (HCERA), extended the federal drug rebate requirement to Medicaid managed care outpatient covered drugs. The Medicaid Drug Rebate Program helps lower Medicaid spending on outpatient prescription drugs. Drug manufacturers must enter into a national Medicaid drug rebate agreement in order to obtain Medicaid coverage for their prescription drugs. Drug manufacturers are required to pay a rebate for all outpatient drugs that are dispensed and paid for by the State's Medi-Cal program.

SB 78 established the Medi-Cal Drug Rebate Fund (Fund 3331), effective July 1, 2019. The non-federal share of Medi-Cal federal and state supplemental drug rebates will be deposited into Fund 3331. See the Medi-Cal Drug Rebate Fund policy change for the estimated total transfers from Fund 3331 to the General Fund (GF).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Including two additional quarters of actual rebate collection data through the quarter ending June 2025, and
- A decrease in the estimated Fee-for-Service (FFS) pharmacy expenditures for the applicable expenditure period.

FEDERAL DRUG REBATES

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in rebate savings due to an estimated increase in FFS pharmacy expenditures from FY 2025-26 to FY 2026-27

Methodology:

1. Rebates are invoiced quarterly and payments occur six months after the conclusion of each quarter.
2. Fee-for-Service (FFS) rebates are estimated by using actual FFS trend data for drug expenditures and applying a historical percentage of actual rebates collected to the FFS trend projection.
3. MC rebates are estimated by using the actual trend data for MC eligibles and applying a historical percentage of actual rebates collected to the trend projection.
4. Assume family planning drugs account for 0.21% of the regular federal drug rebates and are funded with 90% FF and 10% GF.
5. CHIP rebates are funded at 65% FF / 35% GF beginning October 1, 2020. Assume CHIP drug rebate collections are \$129,656,000 FF and \$129,262,000 FF in FY 2025-26 and FY 2026-27, respectively.
6. The optional expansion ACA population collections are estimated to be \$3,253,928,000 TF for FY 2025-26, of which \$2,928,535,000 FF is budgeted in this policy change. The amount of \$325,393,000 SF is the estimated non-federal share in the Medi-Cal Drug Rebate Fund. For FY 2026-27, a total of \$3,676,512,000 TF is estimated for the optional expansion population, of which \$3,308,861,000 FF is budgeted in this policy change. The amount of \$367,651,000 SF is the estimated non-federal share in the Medi-Cal Drug Rebate Fund.
7. The ongoing additional FF claimed by CMS (ACA Offset) is reflected in this policy change. The additional FF is \$457,608,000 TF for FY 2025-26 and \$493,310,000 TF for FY 2026-27.

FEDERAL DRUG REBATES

8. The Department estimates \$2,007,863,000 and \$2,149,992,000 federal drug rebates to be collected and transferred to the Medi-Cal Drug Rebate Fund in FY 2025-26 and FY 2026-27, respectively.

FEDERAL FUNDS	\$10,751,000	\$13,348,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$2,548,000	\$3,130,000

Purpose:

This policy change, previously titled "HCBS SP – Contingency Management," estimates the cost of adding the Recovery Incentives Program Contingency Management benefit (CM) in select Drug Medi-Cal Organized Delivery System (DMC-ODS) Waiver counties as an optional, evidence-based Medi-Cal benefit under the federally approved CalAIM Section 1115(a) Waiver.

Authority:

Budget Act of 2021 [SB 129 (Chapter 69, Statutes of 2021)]
CalAIM 1115 Demonstration Waiver

Interdependent Policy Changes:

Not Applicable

Background:

The Centers for Medicare and Medicaid Services (CMS) approved the addition of CM as an optional benefit in DMC-ODS counties as part of the 1115 Demonstration Waiver renewal, as a pilot, beginning July 1, 2022 through December 31, 2026. CM uses small motivational incentives combined with behavioral health treatment and has been shown in repeated meta-analyses to be the most effective treatment for stimulant use disorder. This benefit was originally approved in the 2021 Budget Act, funded by the Home & Community-Based American Rescue Plan (HCBS ARP) Fund.

The Department extended CM as an optional benefit for all DMC-ODS counties that choose to opt-in, in alignment with the CalAIM 1115 Demonstration waiver timeline (through December 31, 2026). Counties have the option to continue offering CM services and provide the non-federal share of the funding.

The Department plans to extend the CM benefit in the next CalAIM 1115 Demonstration waiver renewal.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to an updated forecast based on actual claims data and a lower number of open sites as of June 2025.

RECOVERY INCENTIVES CONTINGENCY MANAGEMENT

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to the transition from the pilot phase to full program implementation, reflecting anticipated expansion into additional DMC-ODS counties.

Methodology:

1. CM was added as an optional service to the CalAIM 1115 Demonstration Waiver effective January 1, 2022, and services began in April 2023.
2. Prior to implementation of the benefit, \$3,535,000 in initial start-up funding was provided to counties in FY 2021-22 and distributed through the Behavioral Health Quality Improvement Program (BH-QIP).
3. Ongoing services for CM include the following costs:
 - Incentive costs for members averaging \$300 per year (up to a maximum of \$599)
 - CM services costs
4. Updated cost forecasts now reflect actual CM services and member incentive claims from the first year of implementation (April 2023 through the most recent reporting period), providing a more accurate estimate.
5. HCBS funding was available for the non-federal share of CM services and incentive costs through August 15, 2024 claim submission dates.
6. The Department implemented the CalAIM Behavioral Health Payment Reform and a new Intergovernmental Transfer (IGT) process. For all claims with dates of service on or after July 1, 2023, counties transfer the county portion of the submitted claims before FF can be used for payment.
7. Total estimated costs for CM, on a cash basis, are as follows:

FY 2025-26	TF	IGT*	FF	CF
CM Incentive Costs	\$2,559,000	\$0	\$1,983,000	\$576,000
CM Services Costs	\$11,316,000	\$2,548,000	\$8,768,000	\$0
Total	\$13,875,000	\$2,548,000	\$10,751,000	\$576,000

FY 2026-27	TF	IGT*	FF	CF
CM Incentive Costs	\$3,330,000	\$0	\$2,580,000	\$750,000
CM Services Costs	\$13,898,000	\$3,130,000	\$10,768,000	\$0

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost settlements to counties and contracted providers for payments related to Drug Medi-Cal (DMC) services.

Authority:

Welfare & Institutions Code 14124.24 (g)(1)
Title 22, California Code of Regulations 51516.1

Interdependent Policy Changes:

Not Applicable

Background:

The DMC program currently covers the following Substance Use Disorder (SUD) services under the State Plan: Outpatient Drug-Free Treatment Services (ODF), Intensive Outpatient Treatment Services (IOT), Residential Treatment Services (RTS) for pregnant and postpartum women, and Narcotic Treatment Program (NTP).

The DMC program initially pays a claim for SUD services at a provisional rate, not to exceed the State's maximum allowance. At the end of each fiscal year, providers for non-NTP services must submit actual cost information. The DMC program completes a final settlement after receipt and review of the provider's cost report. The cost settlement is based on the county's certified public expenditures (CPE). The Department has the authority to audit the cost reports within three years of the cost settlement.

Cost settlements for non-NTP services is limited to the lowest of the following costs:

- Provider's usual and customary charge to the general public for the same or similar services,
- Provider's allowable costs of providing the service, or
- DMC statewide maximum allowance for the service.

DRUG MEDI-CAL PROGRAM COST SETTLEMENT

Cost settlements for NTP services is limited to the lowest of the following costs:

- Provider's usual and customary charge to the general public for the same or similar services, or
- DMC statewide maximum allowance for the service.

Starting July 1, 2014, as instructed by the Centers for Medicare & Medicaid Services (CMS), the Department changed its cost settlement process to counties for their administrative expenses through a quarterly claims and cost settlement process. Prior to that, counties were paid for their DMC expenses (services and administration) through CPE as part of an all-inclusive rate. Starting from the FY 2014-15 annual cost report settlement, all amounts for administrative cost reimbursements or recoupments will be included in the Drug Medi-Cal County Administration policy change.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to fewer settlements received in FY 2024-25 than anticipated, updated FY 2018-19 and FY 2019 Audit settlements which are estimated net costs compared to net recoupments in the prior estimate, lower FY 2019-20 Cost Settlements, and the shift of FY 2020-21 Audit and Cost Settlements to FY 2026-27.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is a net decrease due to lower projected Audit and Cost Settlements, based on prior year settlement amounts and the estimated settlement schedule.

Methodology:

1. The annual cost settlement is based on a reconciliation of the provider's cost report against the actual expenditures paid by the Department.
2. Final audit settlements are based on comparing actual expenditures against the audited cost settlements. If an audit is not conducted within three years of the interim cost settlement, the interim cost settlement becomes the final cost settlement.
3. The following estimated cost settlements and audit settlements for the annual cost reports will be recouped in FY 2025-26 and FY 2026-27:

FY 2025-26	TF	GF	Title XIX	Title XXI	CF
FY 2018-19 Audit Settlements	\$752,000	(\$17,000)	\$641,000	\$0	\$128,000
FY 2019-20 Audit Settlements	\$300,000	(\$7,000)	\$256,000	\$0	\$51,000
FY 2019-20 Cost Settlements	\$3,004,000	\$386,000	\$2,331,000	\$287,000	\$0
Total	\$4,056,000	\$362,000	\$3,228,000	\$287,000	\$179,000

OTHER FUNDS	\$108,500	\$337,820

Purpose:

This policy change budgets the annual rate adjustment to the Drug Medi-Cal (DMC) rates.

Authority:

Welfare & Institutions Code 14021.51; 14021.6(b)(1); 14021.9(c); and 14105(a)
 Title 22, California Code of Regulations, Section 51516.1(a)(g)

Interdependent Policy Changes:

Not Applicable

Background:

The DMC program currently covers the following Substance Use Disorder (SUD) services under the State Plan: Outpatient Drug-Free Treatment Services (ODF), Intensive Outpatient Treatment Services (IOT), Residential Treatment Services (RTS) for pregnant and postpartum women, and the Narcotic Treatment Program (NTP).

Prior to FY 2023-24, on an annual basis, the Department adjusted the DMC rates based on the cumulative growth in the Implicit Price (CIP) Deflator for the Costs of Goods and Services to Governmental Agencies reported by the Department of Finance. The proposed DMC rates were based either on the developed rates using annual cost report settlement data, or the FY 2009-10 Budget Act rates adjusted for the CIP deflator, whichever was lower.

Under the of the California Advancing and Innovating Medi-Cal (CalAIM) initiative, the Department has developed rates for DMC services using new methodologies which are more specific to the provider type providing the service and/or to each county's costs. DMC rates using these methodologies were implemented on July 1, 2023. Annually, the Department will adjust the DMC rates by the percentage change in the four-quarter average Home Health Agency (HHA) Market Basket Index.

DRUG MEDI-CAL ANNUAL RATE ADJUSTMENT

The proposed DMC rates for the following services are based on county specific, outpatient, hourly rates per provider type developed under the CalAIM initiative:

- NTP Individual Counseling – Regular and Perinatal
- NTP Group Counseling – Regular and Perinatal
- IOT – Regular and Perinatal
- ODF Individual Counseling – Regular and Perinatal
- ODF Group Counseling – Regular and Perinatal

The proposed DMC rates for the following services are based on county specific, per dose, dosing rates developed under the CalAIM initiative:

- NTP Dosing – Regular and Perinatal
- (Medication Addiction Treatment) MAT Dosing – Regular and Perinatal

The proposed DMC rates for 24-Hour Services – Regular and Perinatal (formerly RTS) are based on county-specific daily rates established under the CalAIM initiative.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to the following:

- FY 2023-24 and FY 2024-25 rate adjustments are reflected fully in the Drug Medi-Cal State Plan base estimate and no longer displayed in this policy change, and
- FY 2025-26 rate adjustments slightly increased due to higher estimated utilization based on actual claims data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 rates including the HHA Market Basket Index increase, and FY 2026-27 costs reflecting changes for FY 2025-26 and FY 2026-27.

Methodology:

1. The FY 2024-25, FY 2025-26, and FY 2026-27 estimated rate per unit for DMC State Plan services are:

DMC State Plan Services	FY 2024-25 Rate per Unit	FY 2025-26 Rate per Unit	FY 2026-27 Rate per Unit
NTP	\$63.66	\$65.63	\$67.65
IOT	\$23.30	\$24.02	\$24.76
24 Hour Services	\$218.66	\$225.40	\$232.34
ODF	\$35.69	\$36.79	\$37.92
MAT	\$33.80	\$34.85	\$35.92

DRUG MEDI-CAL ANNUAL RATE ADJUSTMENT

2. The incremental rate changes for FY 2025-26 and FY 2026-27 are shown below:

Incremental Difference	FY 2025-26	FY 2026-27
NTP	\$1.96	\$2.02
IOT	\$0.72	\$0.74
24 Hour Services	\$6.73	\$6.94
ODF	\$1.10	\$1.13
MAT	\$1.04	\$1.07

3. The cost estimate for FY 2025-26, based on FY 2025-26 incremental rate changes are:

FY 2025-26	Total Number of Units	FY 2025-26 Incremental Difference	FY 2025-26 Rate Adj. (A)
NTP	388,883	\$1.96	\$763,000
IOT	70,358	\$0.72	\$50,000
24 Hour Services	227	\$6.73	\$2,000
ODF	232,350	\$1.10	\$255,000
MAT	746	\$1.04	\$1,000
Total			\$1,071,000

4. The cost estimate for FY 2026-27, based on the incremental rate changes for FY 2025-26 and FY 2026-27 are:

FY 2026-27	Total Number of Units	FY 2026-27 Incremental Difference	FY 2026-27 Rate Adj. (B)	Total Rate Adj. Cost (C=A+B)
NTP	388,883	\$2.02	\$786,000	\$1,549,000
IOT	70,358	\$0.74	\$52,000	\$102,000
24 Hour Services	227	\$6.94	\$2,000	\$4,000
ODF	232,350	\$1.13	\$263,000	\$518,000
MAT	746	\$1.07	\$1,000	\$2,000
Total			\$1,104,000	\$2,175,000

5. Effective July 1, 2023, non-federal share of costs that was initially funded with county funds (CF), will be funded through an inter-governmental transfer (IGT).
6. For FY 2025-26 and FY 2026-27 rates, assume 60.7% of DMC claims are paid in the same year the services occur, 38.6% in the second year, and the remaining 0.7% in the third year.

DRUG MEDI-CAL ANNUAL RATE ADJUSTMENT

7. Total estimated costs for the annual rate adjustments are:

Annual Rate Adj. Cost	FY 2025-26 Rates	FY 2026-27 Rates	FY 2025-26 (Lagged)	FY 2026-27 (Lagged)
NTP	\$763,000	\$1,549,000	\$463,000	\$1,235,000
IOT	\$50,000	\$102,000	\$30,000	\$81,000
24 Hour Services	\$2,000	\$4,000	\$1,000	\$3,000
ODF	\$255,000	\$518,000	\$155,000	\$413,000

OTHER FUNDS	\$35,245,000	\$134,170,000

Purpose:

This policy change estimates the cost of the Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT) Demonstration, to expand access to and strengthen the continuum of mental health services for Medi-Cal members with significant behavioral health needs.

Authority:

Medicaid Section 1115 Demonstration Waiver
Welfare & Institutions Code 14184.400(c)

Interdependent Policy Changes:

Not Applicable

Background:

California is facing a growing mental health crisis exacerbated by the COVID-19 pandemic. Since the pandemic, California hospitals report significant increases in the number of adolescents seeking psychiatric treatment in emergency departments, as well as long waitlists for psychiatric inpatient beds for children and adolescents. For adults, the situation is similarly serious. More than one in 20 adult residents in California is living with significant behavioral health needs, and the evidence continues to mount that individuals who are experiencing or at risk of homelessness and those involved in the justice system experience high rates of untreated mental illness and/or substance use disorder. Even so, approximately one-third of individuals enrolled in Medi-Cal and who are living with significant behavioral health needs do not receive any Medi-Cal Specialty Mental Health Services. As a result, the Department has made strengthening California's behavioral health system a top priority and is making many investments in expanding behavioral health services. The BH-CONNECT Demonstration was designed to expand on these investments, complement existing major behavioral health initiatives, and strengthen the continuum of care for Medi-Cal members.

On December 16, 2024, the Centers for Medicare & Medicaid Services (CMS) approved the BH-CONNECT demonstration that aims to expand access to and strengthen the continuum of mental health services for Medi-Cal members living with significant behavioral health needs. The

CALAIM - BH - CONNECT DEMONSTRATION

disparities addressed in the demonstration are based largely on California's 2022 Assessment, titled Assessing the Continuum of Care for Behavioral Health Services in California.

California's approved BH-CONNECT demonstration includes the following new initiatives: (1) Access, Reform and Outcomes Incentive Program, (2) Workforce Initiatives, (3) Activity Funds Initiative, (4) Serious Mental Illness Program, (5) Community Transition In-Reach Services, and (6) HRSN. The overall goals of this demonstration include:

- Expand the continuum of community-based behavioral health services and evidence-based practices (EBPs) available through Medi-Cal.
- Strengthen family-based services and supports for children and youth living with significant behavioral health needs, including children and youth involved in child welfare.
- Invest in statewide practice transformations to better enable county behavioral health delivery systems and providers to support Medicaid beneficiaries living with significant behavioral health needs.
- Strengthen the workforce needed to deliver community-based behavioral health services to Medicaid beneficiaries.
- Reduce use of institutional care by those individuals most significantly affected by significant behavioral health needs.
- Shorten lengths of stay in institutional settings and support successful transitions to community-based care settings and community reintegration.
- Promote improved health outcomes, community integration, treatment and recovery for individuals who are homeless or at risk of homelessness and experiencing critical transitions.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to the following:

- Revised number of county opt-ins based on implementation plans and county surveys,
- Exclusion of costs related to the Initial Behavioral Health Joint Visit at the Child Welfare Entry Point, and
- Application of standard payment lag assumptions, with 61% of claims paid in the same fiscal year and 39% in the following year.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to more counties opting in during FY 2026-27.

Methodology:

1. The BH-CONNECT Demonstration became effective in January 2025 with payments beginning in October 2025.
2. The demonstration relies upon updated guidance from CMS and the new availability of FFP for services in IMDs. Milestones must be met to qualify for this FFP.
3. Some demonstration features will be phased in across FY 2025-26 and FY 2026-27.
4. The Department and counties will partner to provide the non-federal share of the demonstration features. The share differs between features of the demonstration.

CALAIM - BH - CONNECT DEMONSTRATION

5. Total estimated costs for the BH-CONNECT Demonstration, on a cash basis, are as follows:

(Dollars in Thousands)

FY 2025-26	TF	GF	FFP	IGT*
SMHS – Statewide	\$23,815	\$11,908	\$11,907	\$0
SMHS – Opt-in	\$105,777	\$0	\$70,532	\$35,245
Total	\$129,592	\$11,908	\$82,439	\$35,245

GENERAL FUND	\$8,731,000	\$8,975,000
OTHER FUNDS	\$8,731,000	\$8,975,000

Purpose:

This policy change estimates the reimbursement to mental health plans (MHPs) for expenditures related to pre and post care of foster children and youth treated in Short-Term Residential Therapeutic Programs (STRTPs). Beginning October 1, 2021, MHPs implemented a Qualified Individual (QI) to provide specific intensive case management prior to or within 30 days of admission to a STRTP. Beginning October 1, 2021, MHPs began providing intensive aftercare treatment to foster children and youth for six months after being discharged from a STRTP to a family-based setting.

Authority:

Family First Prevention Services Act (Public Law 115-123)
AB 153 (Chapter 86, Statutes of 2021)

Interdependent Policy Changes:

Not Applicable

Background:**FFPSA – Qualified Individual**

The federal Family First Prevention Services Act (FFPSA) was signed into law on February 9, 2018. Prior to the enactment of FFPSA, MHPs were only required to provide Medi-Cal beneficiaries, including those in the Foster Care system, all medically necessary specialty mental health services (SMHS). Current law provides for an Interagency Placement Committee (IPC), representing Child Welfare, Probation and County Mental Health (at a minimum), to determine eligibility for STRTP placement. However, historically there had been no specified criteria or process for making the determination. The MHP's only obligation was to determine medical necessity for the mental health services provided within the facility (e.g., group therapy), not for the need for a residential level of care.

FFPSA requires the independently certified QI to perform a detailed assessment of the strengths and needs of the child, including reviewing past clinical and social service records, meeting with the child and family team (CFT) members, completing a detailed Child and Adolescent Needs and Strengths (CANS) tool, and conducting a clinical assessment to determine if home-based

MHP COSTS FOR FFPSA

placement and services are more appropriate than residential care and if not, that the placement in a STRTP provides the most effective and appropriate level of care setting in the least restrictive environment, and the placement is consistent with the short-term and long-term mental and behavioral health goals and permanency plan for the child. The QI must engage with CFTs and mental health providers, and if STRTP placement is not medically necessary, the QI must provide intensive care coordination (ICC) and make recommendations for more appropriate services. This is a much higher level of care coordination and care management than was provided prior to FFPSA and is expected to require at least 10 hours per client.

FFPSA – Aftercare

FFPSA also requires states to provide discharge planning and family-based after care support for at least 6 months after a foster child or youth is discharged from an STRTP. Discharge planning with a focus on family-based support for 6 months post-discharge is expected to result in an increase in utilization of medically necessary SMHS during the 6 months after discharge. The California Department of Social Services (CDSS) and the Department will utilize the High-Fidelity Wraparound (HFW) model to meet the aftercare requirement of FFPSA, as its substantial research base demonstrates improved outcomes in children and youth in foster care with complex mental health needs.

Funding

The State realigned the responsibility for Specialty Mental Health Services (SMHS) to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, state requirements enacted after September 30, 2012, that have an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides funding for the cost increase.

The requirements for FFPSA - QI are beyond what is currently required for medical necessity determinations and therefore would trigger Proposition 30. For FFPSA - Aftercare, the Department has created a process for HFW services to ensure the enhanced match rate only applies to aftercare services meeting criteria for the HFW model and meeting medical necessity criteria for SMHS. SMHS provided to beneficiaries that are not part of a HFW model are considered existing county obligations and are not expected to prompt additional state funding requests pursuant to Proposition 30.

As a result of the COVID-19 national public health emergency, an increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated payment lag assumptions for FY 2025-26 claims and revised CFT and aftercare assumptions for FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Updated assumptions including a slight decrease in STRTP placements, higher average assessments per child, and increased aftercare costs,
- FY 2025-26 including more prior-year costs, and
- The exclusion of COVID-19 FMAP in FY 2026-27.

MHP COSTS FOR FFPSA

Methodology:

FFPSA Qualified Individual

Standardized Assessments

1. Assume 3,339 children and youth will be placed in an STRTP in FY 2024-25, 3,168 in FY 2025-26, and 3,111 in FY 2026-27. Additionally, it is assumed that there will be an average of 1.41 assessments per child in FY 2024-25, 1.23 assessments per child in FY 2025-26, and 1.44 assessments per child in FY 2026-27.
2. Assume Standardized Assessment by a QI began on October 1, 2021.
3. Assume that the total number of assessments will be a factor in the assumed number of youths to be placed, multiplied by the assumed number of assessments per youth. Assume standardized assessments performed by a QI totaled 4,695 in FY 2024-25, a total of 3,888 in FY 2025-26, and a total of 4,482 in FY 2026-27. Each standardized assessment takes 10 total hours to complete.
4. Assume MHPs spend on average \$283.20 per hour for a qualified individual to complete an assessment. The Department estimates MHPs will spend \$13,296,240 for a QI to complete standardized assessments FY 2024-25, \$11,011,816 in FY 2025-26, and \$12,693,024 in FY 2026-27.

Fiscal Year	Total Assessments Per Year	Assessment Hours	Cost Per Hour (QI)	Assessment Cost
FY 2024-25	4,695	10	\$283.20	\$13,296,240
FY 2025-26	3,888	10	\$283.20	\$11,011,816
FY 2026-27	4,482	10	\$283.20	\$12,693,024

Child and Family Team (CFT)

5. Assume the QI spends 2 hours providing a reimbursable SMHS in each CFT. Assume MHPs will spend on average \$283.20 per hour for a QI to participate in CFT meetings while children and youth are placed in an STRTP. The Department estimates MHPs will spend \$5,844,115 for QI participation in CFTs in FY 2024-25, \$5,562,048 in FY 2025-26, and \$5,462,362 in FY 2026-27.

Fiscal Year	CFT Meetings	CFT Hours	Cost Per Hour (QI)	CFT Cost
FY 2024-25	10,318	2	\$283.20	\$5,844,115
FY 2025-26	9,820	2	\$283.20	\$5,562,048
FY 2026-27	9,644	2	\$283.20	\$5,462,362

FFPSA – Aftercare

6. CDSS estimates the total cost of providing services pursuant to the HFW model to be \$34,203,000 in FY 2024-25, \$32,955,000 in FY 2025-26, and \$33,774,000 in FY 2026-27.

MHP COSTS FOR FFPSA

7. Analysis of the set of services contained in the HFW model shows that, on average, 45% of these services are likely to be billable to child welfare departments and 55% are estimated to meet medical necessity criteria for SMHS.
8. The Department projects the total cost of providing SMH aftercare services will be \$18,811,650 in FY 2024-25, \$18,125,250 in FY 2025-26, and \$18,575,700 in FY 2026-27.
9. The Department will implement the CalAIM Behavioral Health Payment Reform and a new Intergovernmental Transfers (IGTs) process. For all claims with dates of service on or after July 1, 2023, counties will transfer the county portion of the submitted claims to the Department before Federal Financial Participation can be used for payment. IGTs are budgeted in the Medi-Cal County Behavioral Health Fund beginning July 1, 2023.

Funding Summary

10. Assume on a cash basis for FY 2025-26, the Department will pay 0.39% of FY 2023-24, 35.16% of FY 2024-25 claims and 61.69 % of FY 2025-26 claims. On a cash basis for FY 2026-27, the Department will pay 0.29% of FY 2024-25 claims, 37.84% of FY 2025-26 claims, and 61.69% of FY 2026-27 claims. The estimated costs, on a cash basis, are:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the reimbursement to counties for participating in a child and family team (CFT), providing assessments for seriously emotionally disturbed (SED) foster children, and training for mental health staff.

Authority:

AB 403 (Chapter 773, Statutes of 2015)
California Constitution Article XIII Section 36

Interdependent Policy Changes:

Not Applicable

Background:

AB 403 is part of an effort to reform congregate care in California. AB 403 established a new community care licensure category that is a short-term residential therapeutic program (STRTP). STRTPs are licensed and regulated by the California Department of Social Services (CDSS). STRTPs that provide specialty mental health services (SMHS) must have a mental health approval and that process is overseen by the Department.

County mental health departments currently participate in CFTs for children receiving intensive care coordination services once the initial mental health screening has been completed by a county social worker. AB 403 requires county mental health departments to perform the following additional workload:

- Complete a mental health assessment that determines if the child or youth has a serious emotional disturbance or meets medical necessity criteria for SMHS for eligible members under the age of 21 (Early and Periodic Screening, Diagnostic, and Treatment (EPSDT)). Either a CFT or an interagency placement committee (IPC) must decide that a STRTP is the appropriate level of care for the child or youth.

MHP COSTS FOR CONTINUUM OF CARE REFORM

- A CFT will be convened for all children or youth who have an open child welfare case. The county mental health department is expected to participate in all CFTs when the child needs SMHS.

The responsibility for SMHS for children was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, legislation enacted after September 30, 2012, that has an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides annual funding for the cost increase. The new activities began January 2017, and the current year and budget year costs are included in this policy change.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to updated payment lag assumptions, a decrease in CFT claims, and an increase in assessment claims.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to higher forecasted claim amounts for FY 2026-27 and a return to historical payment lag assumptions.

Methodology:

1. The FY 2025-26 and FY 2026-27 estimated costs are forecasted based on actual claims data.
2. The CFT costs are estimated by using actual claims data from FY 2017-18 through FY 2024-25.
3. The Placement Assessments costs are estimated by using actual claims data from FY 2017-18 through FY 2024-25.
4. Training costs are based on CDSS requesting funds through Federal Title IV-E authority to provide counties with CCR training. The total mental health staff training request is \$3,000,000 to be paid at 75% FMAP and discounted to 53% for FY 2025-26 and FY 2026-27, to account for children in foster care that are not federally eligible. The federal share will come from CDSS. The Department is requesting the General Fund (GF) match for the training.

FY 2025-26: Federal Share: $\$3,000,000 \times 0.75 \times 0.53 = \$1,192,000$ (Rounded)

FY 2026-27: Federal Share: $\$3,000,000 \times 0.75 \times 0.53 = \$1,192,000$ (Rounded)

FY 2025-26: General Fund Match: $\$3,000,000 \times (1 - (0.75 \times 0.53)) = \$1,808,000$ (Rounded)

FY 2026-27: General Fund Match: $\$3,000,000 \times (1 - (0.75 \times 0.53)) = \$1,808,000$ (Rounded)

Funding Summary

5. The estimate and lag are based on Short Doyle/Medi-Cal paid claims data. On a cash basis for FY 2025-26, the Department will pay 0.39% of FY 2023-24 claims, 35.16% of FY 2024-25 claims, and 61.69% of FY 2025-26 claims. On a cash basis for FY 2026-27, the Department will pay 0.47% of FY 2024-25 claims, 37.84% of FY 2025-26 claims, and 61.69% of FY 2026-27 claims. There is no lag in payment for training costs.

MHP COSTS FOR CONTINUUM OF CARE REFORM

6. The FY 2025-26 estimate and FY 2026-27 estimate, on a cash basis, are:

FY 2025-26	TF	GF	FF
CFT	\$2,450,000	\$1,206,000	\$1,244,000

FEDERAL FUNDS	\$341,000	\$315,000
GENERAL FUND	\$341,000	\$315,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the payments to County Mental Health Plans (MHPs) to provide additional resources to address the higher level needs and increase in intensive specialty mental health services (SMHS) for the youth returning to California from out-of-state placements, as well as those youth who would have been placed out-of-state if the California Department of Social Services (CDSS) had not implemented a new policy against out-of-state placements.

Authority:

Welfare & Institutions Code, Division 9, Part 3, Chapter 8.8, Article 5
Welfare & Institutions Code, Division 9, Part 3, Chapter 8.9

Interdependent Policy Changes:

Not Applicable.

Background:

Approximately 130 youth in foster care returned to California from out-of-state placements in January 2021. The CDSS limited certification of all out-of-state facilities due to patterns of failures to meet California standards, including improper and unwarranted use of restraints, poor use of de-escalation interventions, and preventing youth from leaving facilities, among other issues.

These returning youth have higher levels of need and will require more intensive SMHS than the typical children and youth in foster care. In addition to the needs of those youth recently returned from out-of-state, the Department assumes there will be an average of 64 youth per month currently residing in California with needs that are so significant that they would have been placed in an out-of-state facility if one were available. The Department estimates ongoing intensive treatment costs for these youth as well, using the following criteria:

The child or youth is assessed by an independent clinical provider (qualified individual, per the Family First Prevention Service Act) to be at a level of severity that would have required placement in out-of-state facility. The child/youth must meet one of the requirements below:

OUT OF STATE YOUTH - SMHS

- a. Unable to be placed with other children or youth and requires intensive supervision and support (such as requiring a "Short-Term Residential Therapeutic Program (STRTP) of one"); or
- b. Multiple 5150s, STRTP placement, or hospitalizations without improvement.

The responsibility for SMHS and Drug Medi-Cal (DMC) services for children was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, legislation enacted after September 30, 2012, that has an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides annual funding for the cost increase.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to actual FY 2024-25 claims being lower than previously estimated which resulted in a lower estimate for FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a decrease in assumed out of state youth member claims for FY 2026-27 compared to FY 2025-26.

Methodology:

1. The 130 youth in foster care that returned to California from out-of-state placements in January 2021 are represented in the monthly estimate of members.
2. Based on actual claims incurred in FY 2024-25 and the adjustment for payment lag, the FY 2024-25 accrual is estimated to be \$719,000 for the 130 youth returned to California.
3. Assume annual costs will decrease by 10% from the prior year with a 2.42% growth based on the forecasted increase of SMHS children's services approved claims. for the FY 2024-25, FY 2025-26, and FY 2026-27 annual estimates.
4. Assume the Department will pay for 65% of claims received, in the same year the service is provided, and the remaining 35% is paid in the next fiscal year.
5. The cash estimates for FY 2025-26 and FY 2026-27 are:

Fiscal Year	Accrual	FY 2025-26	FY 2026-27
FY 2024-25	\$719,000	\$251,000	\$0
FY 2025-26	\$663,000	\$431,000	\$232,000
FY 2026-27	\$611,000	\$0	\$398,000
Total		\$682,000	\$630,000

Fiscal Year	TF	GF	FF

Purpose:

This proposal estimates the ongoing costs resulting from ancillary Medi-Cal services (that is, services other than specialty mental health services) provided to Medi-Cal members while in Short-Term Residential Therapeutic Programs (STRTPs) that are classified as Institutions for Mental Diseases (IMDs). This proposal estimates the amount of federal reimbursement the Department may need to return to the Centers for Medicare and Medicaid Services (CMS) in response to CMS guidance that STRTPs cannot be exempted from IMD determination.

Authority:

P.L. 115-123
42 CFR 435.1009

Interdependent Policy Changes:

Not Applicable.

Background:

The Families First Prevention Services Act (FFPSA) was enacted on February 9, 2018. The intent of the FFPSA is to restrict the use of congregate care, unless absolutely necessary, by limiting Title IV-E maintenance payments to specific congregate care settings meeting defined requirements. The FFPSA added Qualified Residential Treatment Programs (QRTPs) as a congregate care setting that may be used for children and youth requiring a therapeutic placement when specific criteria are met. In California, STRTPs regulatory requirements are similar to QRTPs and the California Department of Social Services (CDSS) is working to ensure STRTPs' current licensing standards meet the requirements of QRTPs. The definition of a QRTP in Title IV-E overlaps with the criteria used by a state to determine if a facility operates as an IMD, as defined in Title XIX. Title XIX prohibits federal reimbursement for covered services provided to members who are residents of an IMD.

On July 3, 2020, the Department sent a letter to CMS explaining why STRTPs do not meet the criteria to be classified as an IMD. CMS responded to the Department on July 30, 2020, and was unable to provide the Department with a blanket assurance that all STRTPs are not IMDs. As a result, the Department assessed each STRTP to determine whether or not the STRTP meets

SHORT-TERM RESIDENTIAL THERAPEUTIC PROG / QRTPS

the criteria to be considered an IMD. As federal regulations prohibit federal reimbursement for covered services provided to Medi-Cal members who are residents of an IMD, the Department will no longer receive federal reimbursement for services provided to children and youth residing in STRTPs that meet IMD criteria and would have been qualified for federal funds prior to the IMD determination, including medically necessary services for physical health, mental health, dental, and substance use disorders. Since the IMD exclusion pre-dates realignment, specialty mental health costs for Medi-Cal members in STRTP IMDs would be the responsibility of county mental health plans.

Ancillary services are the state's responsibility. The Department will establish a process to repay federal funds on an ongoing basis for ancillary services provided to members while a resident of an STRTP that is identified to be an IMDs.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease in General Fund (GF) due to lower actual STRTP costs than previously estimated for prior year claims to be paid in FY 2025-26. There are currently no STRTPs classified as IMDs for the FY 2025-26 service year.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the FY 2025-26 cash estimate reflecting only prior year claims. There are no assumed costs for FY 2025-26 and FY 2026-27 service years, as no STRTPs are classified as IMDs.

Methodology:

1. As of December 31, 2022, the Department have completed assessments of the STRTP facilities and determined three facilities are classified as IMDs.
2. This policy change estimates the cost of providing services to members while residing in an STRTP that would have been Medicaid reimbursable prior to the IMD determination, beginning July 1, 2022 and December 31, 2022.
3. All Medi-Cal costs, other than specialty mental health costs, are included in this estimate (managed care, fee-for-service, and dental).
4. The Department determined the total cost of all ancillary Medi-Cal services provided to children and youth, and not claimed through the Short-Doyle Medi-Cal claiming system, while residing in an STRTP that could meet the criteria of an IMD.
5. Effective July 1, 2025, there are no STRTPs classified as IMDs. The FY 2025-26 cash estimate includes only costs for prior year claims. On a cash basis, the estimate is as follows:

Fiscal Year	TF	GF	FF
FY 2025-26	\$0	\$23,000	(\$23,000)

Funding:

100% Title XIX FF (4260-101-0890)

100% Title XIX GF (4260-101-0001)

SISKIYOU COUNTY MENTAL HEALTH PLAN OVERPAYMENT**FISCAL REFERENCE NUMBER:1660**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$200,000	-\$200,000

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$200,000	-\$200,000
OTHER FUNDS	\$200,000	\$200,000

Purpose:

This policy change estimates the cost of federal fund (FF) repayments made to the Centers for Medicare and Medicaid Services (CMS) for improper claims for Medi-Cal services made by Siskiyou County Mental Health Plan. In addition, Siskiyou County General Fund (GF) reimbursements are also included in this policy change.

Authority:

Title 42, United States Code (USC) 1396b (d)(2)(C)

Interdependent Policy Changes:

Not Applicable

Background:

During the audit and cost settlement processes, the Department identified overpayments to the Siskiyou County Mental Health Plan from improper Medi-Cal billing practices. Pursuant to federal statute, the Department remitted the overpaid FF to CMS within a year of the discovery date. While the county acknowledged its Medi-Cal billing problems, it is unable to repay the amounts owed in a significant or timely manner. Consequently, the County will reimburse the Department \$200,000 per year until it fulfills its obligation for repayment. The County repayments began August 2012. The County has submitted fourteen payments totaling \$2,800,000.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The Department began making repayments to CMS in January 2012 and repaid CMS overpayments discovered during cost settlements for FY 2006-07 through FY 2010-11 and audit settlements for FY 2005-06 through FY 2010-11.

SISKIYOU COUNTY MENTAL HEALTH PLAN OVERPAYMENT

2. Siskiyou County reimburses \$200,000 GF annually. The county has submitted payments totaling \$2,800,000.

FEDERAL FUNDS	-\$22,843,000	-\$7,199,000
GENERAL FUND	\$3,434,000	\$632,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates interim and audit settlements as well as any additional supplemental reimbursements for any eligible costs incurred by mental health plans (MHPs) in providing Specialty Mental Health Services (SMHS) which were not previously reimbursed through the interim payment process, interim settlement process or through some other mechanism.

Authority:

Welfare & Institutions Code 14705(c)
 Title 9, California Code of Regulations 1840.105
 ABX4 5 (Chapter 5, Statutes of 2009)
 Welfare & Institutions Code 14723
 SPA 09-004

Interdependent Policy Changes:

Not Applicable

Background:

The Department reconciles interim payments to county cost reports for MHPs for children, adults, and Healthy Families SMHS. The Department completes interim settlements within two years of the end of the fiscal year. Audit settlements are completed within three years of the last amended county cost report the MHPs submit to the Department.

The reconciliation process for each fiscal year may result in an overpayment or underpayment to the county and will be handled as follows:

- For counties that have been determined to be overpaid, the Department will recoup any overpayments.
- For counties that have been determined to be underpaid, the Department will make a payment equal to the difference between the counties cost report and the Medi-Cal payments.

INTERIM AND FINAL COST SETTLEMENTS - SMHS

In addition to any reimbursements determined through the interim settlement process, MHPs or other public agencies, are eligible to receive supplemental reimbursements of up to 100% of the allowable costs for providing SMHS to Medi-Cal members that do not exceed the MHP's non-risk upper payment limit.

To receive the supplemental payments, the public agency or MHP must certify that it has incurred the public expenditures. The amount of payment is then based on the difference between the Statewide Maximum Allowances for Specialty Mental Health inpatient and outpatient services and the MHP's certified public expenditures. The Centers for Medicare and Medicaid Services (CMS) approved on February 16, 2016, SPA 09-004, which governs and defines supplemental payments and the Certified Public Expenditure Protocol.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease in net recoupments due to the following:

- A significant reduction in Federal Fund (FF) recoupments and an increase in General Fund (GF) costs based on updated actual settlements processed.
- A large portion of interim and final cost settlements, which were previously estimated in FY 2024-25, shifting to FY 2025-26.
- FY 2021-22 and FY 2022-23 interim settlements, and FY 2020-21 audit settlements shifting to FY 2026-27.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 being the final year to complete cost and audit settlements, with majority of recoupments projected to be completed in FY 2025-26.

Methodology:

1. Interim settlements are based on the difference between each county MHP's filed cost report and the payments they received from the Department.
2. Audit settlements are based on the difference between each county MHP's final audited cost report and the payments they received from the Department.
3. Cost settlements for services, administration, utilization review, quality assurance, and mental health Medi-Cal administrative activities are each determined separately.
4. Cost settlements prior to 2011 realignment may consist of General Fund.
5. To estimate expected expenditures for FY 2025-26 and FY 2026-27 for interim and audit settlements not yet received the following procedures are used:
 - The average recoupment of (\$127,473) per interim settlement is determined by dividing the actual net settlements of (\$9,687,970) from FY 2024-25 by 76, the number of interim settlements processed in FY 2024-25. The average recoupment of (\$46,650) per audit settlement is determined by dividing the net recoupment, (\$2,052,630), by 44, the number of audit settlements processed in FY 2024-25.
 - The average expenditure per settlement is increased by 3% for fiscal years not yet received and which were not present in calculating the averages in prior step.

INTERIM AND FINAL COST SETTLEMENTS - SMHS

- Based on internal projections, the total number of interim and audit settlements expected to be processed for each fiscal year is multiplied by the average amount per settlement per fiscal year to determine the total amount to be processed for each fiscal year per settlement type.
 - There are no future payments expected to be made with Title XXI funding; the funding involved with this estimate is only Title XIX and GF.
6. To determine final amounts per fund type per settlement type, the following were combined:
- The estimated amounts per fund, per settlement type, per fiscal year forecasted for FY 2025-26 and FY 2026-27
7. The net GF and FF to be reimbursed and/or recouped in FY 2025-26 for interim settlements and audit settlements are as shown:

Interim Settlements	TF	GF	FF
FY 2015-16	(\$105,000)	\$22,000	(\$127,000)

Purpose:

This policy changes estimates payments to public health care systems (PHCS) that participate in the Global Payment Program (GPP).

Authority:

California Medi-Cal 2020 Section 1115(a) Medicaid Demonstration (Medi-Cal 2020)
 SB 815 (Chapter 111, Statutes of 2016)
 California Advancing and Innovating Medi-Cal (CalAIM) Section 1115(a) Medicaid
 Demonstration
 HR 1968 (2025)

Interdependent Policy Changes:

Not Applicable

Background:

Since 2005, the Designated Public Hospital and Clinic systems (now known as Public Health Care Systems, or PHCS) have received partial cost-based reimbursement for health expenditures made on behalf of the uninsured through a combination of California's 1115 waivers' Safety Net Care Pool, now known as Uncompensated Care Pool (UC Pool), and Medicaid Disproportionate Share Hospital (DSH) funding. In 2016, the Medi-Cal 2020 waiver created the GPP which provides an innovative approach to financing care to California's remaining uninsured population served by PHCSs by unifying the DSH and UC Pool funding streams into a PHCS-specific global payment system. The GPP is meant to focus on value, rather than volume, of care provided and to support PHCSs for their key role in providing services to California's remaining uninsured and to promote the delivery of more cost-effective and higher-value care to the uninsured.

On August 3, 2020, the Centers for Medicare and Medicaid Services (CMS) approved a six-month GPP extension through December 31, 2020. An additional one-year extension of the Medi-Cal 2020 waiver was approved on December 29, 2020, which extended the GPP program through December 31, 2021. On December 29, 2021, CMS approved CalAIM, a multi-year initiative focused on system, program, and payment reform that will allow California to take a

GLOBAL PAYMENT PROGRAM

population health, person-centered approach to provided services, with the goal of improving health outcomes for Medi-Cal and other low-income populations. CalAIM is effective from January 1, 2022, through December 31, 2026. A key change to GPP is the incorporation of equity-enhancing services.

Effective July 1, 2015, PHCSs, except State Government-operated University of California (UC) hospitals, receive their allocation of the federal DSH payments through the Global Payment Program. Beginning January 1, 2022, UC Hospitals became eligible to participate in GPP after obtaining CMS approval. Beginning January 1, 2023, CMS approved University of California Los Angeles' (UCLA) request to participate in the GPP rather than the DSH program. Accordingly, beginning with Program Year (PY) 9 (Calendar Year [CY] 2023), the percentage of the PHCS DSH Allotment federal financial participation (FFP) allocated to DSH PHCSs is adjusted to 20.371% rather than 21.896%.

The Affordable Care Act (ACA) requires a reduction to the DSH allotments and was previously scheduled to go into effect on October 1, 2013. Subsequent federal action has delayed the reduction. Most recently, on March 15, 2025, HR 1968 was enacted, which eliminated the implementation of the Federal Fiscal Year (FFY) 2025 reduction and shifted the effective reduction period to FFY 2026 through 2028.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- A final Non-Designated Public Hospitals (NDPH) DSH allotment allocation for FFY 2025, which resulted in a decreased GPP allotment allocation for PY 10 and PY 11.
- The inclusion of the PY 10 Final Reconciliation payment in the amount of \$23,000,000, which will be allocated using final encounter data from PHCSs.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to:

- A larger DSH allotment estimate due to the FY 2026-27 DSH allotment being derived by trending forward the estimated FY 2025-26 allotment by 2%.
- A larger DSH allotment due to the FY 2027-28 DSH allotment being derived by trending forward the estimated FY 2026-27 allotment by 2%.

Methodology:

1. The PY for GPP was originally established as July 1 to June 30, to align with the state fiscal year (SFY) for PY 1 through PY 5. PY 6 (formerly 6A) extends GPP for six months from July 1, 2020, to December 31, 2020. Beginning January 1, 2021, with PY 7 (formerly 6B), GPP will align with a CY period.
2. On July 14, 2016, CMS approved \$472 million in UC Pool funding for PY 2 through PY 5. The \$472 million is subject to an applicable weighted FMAP. On December 29, 2021, CMS approved the continuation of the UC Pool funding in the amount of \$472 million annually through December 31, 2026.
3. The total federal funding for the GPP for PY 1 through PY 13 is estimated at:

GLOBAL PAYMENT PROGRAM

(Dollars in Thousands)

Program Year	GPP DSH FFP Allotment	UC Pool FFP	Total FFP
PY 1 (7/1/15-6/30/16)	\$869,667	\$236,000	\$1,105,667
PY 2 (7/1/16-6/30/17)	\$903,394	\$236,000	\$1,139,394

PY 11 (1/1/25-12/31/25)	\$1,242,174	\$236,000	\$1,478,174
PY 12 (1/1/26-12/31/26)	\$1,268,589	\$236,000	\$1,504,589
PY 13 (1/1/27-12/31/27)	\$1,294,423	\$236,000	\$1,530,423

4. GPP Payments are made on a quarterly basis. Because GPP is a CY program, the first quarter is paid in the SFY which the CY commences, and the remaining three quarters are paid in the subsequent SFY.
5. The FY 2025-26 DSH allotment assumes a 2% annual increase from the FY 2024-25 preliminary DSH allotment released by CMS on September 27, 2024.
6. The FY 2026-27 DSH allotment assumes a 2% annual increase from the FY 2025-26 DSH allotment estimate.
7. The FY 2027-28 DSH allotment assumes a 2% annual increase from the FY 2026-27 DSH allotment estimate.
8. Assume GPP will continue in the new waiver period beginning January 1, 2027, for GPP PY 13.
9. The estimated GPP payments on a cash basis are:

GENERAL FUND	\$989,877,100	\$1,142,771,050
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs to implement a statewide Enhanced Care Management (ECM) benefit, Community Supports, and a Transitional Rent benefit to build infrastructure linked to reform within the Medi-Cal managed care delivery system.

Authority:

California Advancing and Innovating Medi-Cal (CalAIM) Initiative

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2022, the Department implemented a new ECM benefit and 14 Community Supports in the Medi-Cal managed care delivery system. Medi-Cal MCPs in counties without Whole Person Care pilots and/or Health Homes Programs implemented the new ECM benefit on July 1, 2022, for certain mandated populations of focus.

The ECM benefit transitions successful elements from the current Health Homes Program benefit and the Whole Person Care pilot to provide a whole-person approach to care that addresses the clinical and non-clinical needs of high-need/high-cost Medi-Cal members.

The ECM benefit is available for Medi-Cal managed care members at the highest risk level who need long-term and intensive coordination for multiple chronic conditions, including behavioral health conditions, as well as utilization of multiple service types and delivery systems. The benefit aims to improve care coordination, integrate services, facilitate access to and utilization of community resources, improve health outcomes, address social determinants of health, and decrease inappropriate utilization.

Community Supports are voluntary non-traditional services that are deemed medically appropriate and cost-effective alternatives to existing State Plan benefits. These services are statewide within the managed care delivery system effective January 1, 2022. Community Supports provide for flexible wrap-around services that Medi-Cal MCPs would be able to offer as

CALAIM ECM-COMMUNITY SUPPORTS-TRANSITIONAL RENT

a part of their overall population health management strategy as viable substitutes to more costly services such as hospital inpatient and long-term institutional care. Medium to high-risk and/or high-cost Medi-Cal members who experience, or are at risk of experiencing, poor health outcomes may benefit from accessing non-traditional alternatives to State Plan benefits.

The Community Supports are:

- Housing Transition/Navigation Services
- Housing Deposits
- Housing Tenancy and Sustaining Services
- Short-term Post-Hospitalization Housing
- Recuperative Care (Medical Respite)
- Respite
- Day Habilitation Programs
- Nursing Facility Transition/Diversion to Assisted Living Facilities
- Nursing Facility Transition to a Home
- Personal Care (beyond In-Home Supportive Services) and Homemaker Services
- Environmental Accessibility Adaptations (Home Modifications)
- Meals/Medically Tailored Meals
- Sobering Centers
- Asthma Remediation

Subject to federal approval, Community Supports were expanded effective July 1, 2025, to include Transitional Rent, which provides coverage of up to six months of rent/temporary housing as a Medi-Cal service. Coverage of Transitional Rent was optional for Medi-Cal MCPs beginning on July 1, 2025, and is required beginning on January 1, 2026.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a net decrease due to updated enrollment and rates for Community Supports and ECM, offset by an increase in Transitional Rent costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to an increase in Community Supports, ECM, and Transitional Rent costs.

Methodology:

1. Starting July 1, 2025, the Department began reimbursing Medi-Cal MCPs for Transitional Rent on a supplemental basis, outside of the base capitated rates. Costs for Transitional Rent will be budgeted on a cash basis beginning in CY 2026.
2. Costs are estimated to be:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Community Supports	\$1,061,429	\$439,112	\$622,317

IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$599,000	\$650,000
FEDERAL FUNDS	\$599,000	\$650,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal fund (FF) payments for uncompensated care services provided by Indian Health Service (IHS) tribal health facilities.

Authority:

California Advancing and Innovating Medi-Cal Section 1115(a) Medicaid Demonstration (CalAIM)

Interdependent Policy Changes:

Not Applicable

Background:

In April 2013, CMS approved an amendment to the California Bridge To Reform Demonstration to establish an uncompensated care pool to reimburse tribal health programs for the cost of providing services to American Indian and Alaska Native patients who had been eliminated from Medi-Cal coverage due to previous State budget shortfalls. The amendment was intended to maintain IHS and tribal facilities' financial viability and provide services to eligible individuals. Payments for tribal uncompensated care were subsequently authorized under the Medi-Cal 2020 Demonstration through December 31, 2021. Notably, most services have since been restored in the Medi-Cal program, with the exception of chiropractic services.

On December 29, 2021, CMS approved CalAIM. With this approval, payments for tribal uncompensated care, specifically chiropractic services, will be available through December 31, 2026.

FFP Claiming Methodology

Claims for allowable services will be paid at the IHS encounter rate. Claiming for Federal Financial Participation (FFP) will be based on certified public expenditures under this demonstration. For services provided to IHS eligible individuals, claims will be reimbursed with 100% FFP.

UNCOMPENSATED CARE PAYMENTS FOR TRIBAL HEALTH PROG

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a decrease in the projected encounters in FY 2025-26 based on lower actual encounter data from April 2024 to March 2025.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to an increase in the projected calendar year (CY) rates used for the FY 2026-27 projections.

Methodology:

1. Assume IHS payments will continue in the new waiver period beginning 1/1/2027.
2. The IHS global encounter rate is updated on the Federal Register for each CY. For CY 2025 the rate is \$801, projected CY 2026 rate is \$869, and the projected CY 2027 rate is \$942.
3. IHS claims are paid for each encounter. Assume IHS payments will be made as follows on a cash basis:

FY 2025-26	TF	FF
Calendar Year 2025	\$447,000	\$447,000
Calendar Year 2026	\$152,000	\$152,000

GENERAL FUND	\$5,579,949,550	\$2,810,448,150
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of capitation rate increases that are offset by managed care organization (MCO) tax proceeds. The tax proceeds will be used in support of the Medi-Cal program.

Authority:

AB 119 (Chapter 13, Statutes of 2023)
AB 160 (Chapter 39, Statutes of 2024)

Interdependent Policy Changes:

2023 MCO Enrollment Tax Mgd. Care Plans
2023 MCO Enrollment Tax Mgd. Care Plans-Funding Adj.

Background:

Effective April 1, 2023, the Department enacted a multi-year renewal of the MCO provider tax that provides for a statewide tax on managed care plans based on reported enrollment into these plans during the 12-month calendar year (CY) 2022 period. The tax is tiered based on whether the enrollee is a Medi-Cal enrollee or other enrollee.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated capitation payment amounts based on actuals. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the 2023 MCO Enrollment Tax ending December 31, 2026, and a one-time recoupment for CY 2025 retroactive rate adjustment occurring in FY 2026-27.

Methodology:

1. The 2023 MCO Enrollment Tax proceeds are required to be used to offset the capitation rate development process and payments made to the State that result directly from the imposition of the tax.
2. Enrollment for managed care plans is based on the number of Medi-Cal enrollees and "all-other" enrollees.

2023 MCO ENROLLMENT TAX MGD. CARE PLANS-INCR. CAP.

3. The enrollee count is multiplied by a tiered rate to determine total tax revenue.
4. Increased capitation rates due to the 2023 MCO Enrollment Tax are initially paid from the GF. The GF is then reimbursed by 2023 MCO Enrollment Tax revenue through a funding adjustment. The reimbursement is budgeted in the 2023 MCO Enrollment Tax Mgd. Care Plans-Funding Adjustment policy change.
5. Retroactive recoupments for CY 2025 will all occur in FY 2026-27.
6. Payments associated with April through May 2025 capitation were withheld from FY 2024-25 and paid in FY 2025-26.
7. Payments associated with the August through October 2025 service months will be paid in December 2025.
8. Starting CY 2024, unless noted in the bullets above, assume a one-month payment lag for all plans subject to MCO tax.
9. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).
10. The costs of capitation rate increases related to the imposition of the 2023 MCO Enrollment Tax are expected to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$15,149,464	\$5,579,950	\$9,569,514

Purpose:

This policy change estimates increased payments to managed care plans (MCPs) designed to provide additional support for counties and/or public entities serving Medi-Cal members.

Authority:

Welfare & Institutions Code 14087.3
Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Managed Care Reimbursements to the General Fund

Background:

Effective July 1, 2018, the Department implemented a new voluntary Managed Care Health Care Financing Program which increases payments to MCPs to provide additional support for counties and/or public entities servicing Medi-Cal members. Participation is voluntary and the increased payment levels will be evaluated annually.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals for CY 2024. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to higher projections based on the CY 2025 rates.

Methodology:

1. Payments for the CY 2024 rating period are anticipated to occur in FY 2025-26. Based on growth projections and the final participation levels for the twelve months of CY 2024, the total payments are estimated to be \$2,984,186,000 TF.
2. Payments for the CY 2025 rating period are anticipated to occur in FY 2026-27. Based on growth projections and the preliminary participation levels for the twelve months of CY 2025, the total payments are estimated to be \$3,284,465,000 TF.

GENERAL FUND	\$849,038,750	\$2,236,962,800
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates Managed Care Enhanced Payment Program (EPP) Directed Payments for Designated Public Hospitals (DPHs) including University of California Health Systems.

Authority:

SB 171 (Chapter 768, Statutes of 2017)
 Title 42, Code of Federal Regulations (CFR), Section 438.6(c)
 Families First Coronavirus Response Act (FFCRA)
 Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Managed Care Reimbursements to the General Fund

Background:

Title 42, CFR section 438.6(c) provides states authority to implement delivery system and provider payment initiatives under managed care plan (MCP) contracts based on allowable directed payment mechanisms.

Effective July 1, 2017, with the FY 2017-18 rating period, the Department directed MCPs to make enhanced network contracted payments to California's DPHs. The total funding available for the enhanced network contracted payments is limited to a predetermined amount (pool). The EPP Directed Payment Program is divided into two primary sub-pools:

- Capitated sub-pool value is based on a pre-determined pool amount. Actual payments will be increased by a uniform percentage based on actual monthly DPH member assignment for network contracted services.
- Fee-For-Service (FFS) sub-pool value is based on a pre-determined pool amount. Actual payments will be increased by a uniform dollar amount based on actual utilization of network contracted services.

MANAGED CARE PUBLIC HOSPITAL EPP

Prior to implementation of a directed payment program, the Centers for Medicare & Medicaid Services (CMS) requires states seek pre-approval of any requested directed payment program through the standard CMS “pre-print” form. This “pre-print” is typically submitted on an annual basis.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year (CY) 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight increase due to updated CY 2023 and CY 2024 calculations. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to larger pooled amounts for CY 2025 and the inclusion of five months' worth of CY 2027 capitation payments in FY 2026-27 due to accelerated payment timing.

Methodology:

1. The value of the entire public hospital EPP pool is \$1,944,800,000 TF for the CY 2023 rating period on an accrual basis.
2. The value of the entire public hospital EPP pool is \$2,478,270,000 TF for the CY 2024 rating period on an accrual basis.
3. The value of the entire public hospital EPP pool is \$3,865,000,000 TF for the CY 2025 rating period on an accrual basis.
4. The July 1, 2023, through December 31, 2023, FFS sub-pool payments were made in September 2025. The January 1, 2024, through June 30, 2024, FFS sub-pool payments are anticipated to be made in March 2026. The July 1, 2024, through June 30, 2025, FFS sub-pool payments are anticipated to be made in September 2026. The July 1, 2025, through December 31, 2025, FFS sub-pool payments are anticipated to be made in March 2027. The January 1, 2027, through May 31, 2027, FFS sub-pool payments are anticipated to be made monthly beginning in February 2027.
5. The January 1, 2024, through June 30, 2024, capitated sub-pool payments were made in September 2025. The July 1, 2024, through December 31, 2024, capitated sub-pool payments are anticipated to be made in March 2026. The January 1, 2025, through June 30, 2025, capitated sub-pool payments are anticipated to be made in September 2026. The July 1, 2025, through December 31, 2025, capitated sub-pool payments are anticipated to be made in March 2027. The January 1, 2027, through May 31, 2027, capitated sub-pool payments are anticipated to be made monthly beginning in February 2027.
6. The January 1, 2026, through December 31, 2026, capitated sub-pool payments and FFS sub-pool payments are anticipated to be made in FY 2027-28.
7. The Title XIX and Title XXI COVID-19 increased FMAP is assumed for expenditures for the CY 2023 rating period.
8. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for UIS Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is

MANAGED CARE PUBLIC HOSPITAL EPP

incorporated into the dollars of this policy change. For PC specific impacts, please see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).

9. On a cash basis, the estimated payments are:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF	ACA FF

GENERAL FUND	\$662,139,750	\$1,544,341,750
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates managed care directed payments to fund Quality Incentive Pool (QIP) payments by managed care plans (MCPs) to Designated Public Hospitals (DPHs) including the University of California Health Systems, and District and Municipal Public Hospitals (DMPHs) based on their performance on designated performance metrics.

Authority:

SB 171 (Chapter 768, Statutes of 2017)
AB 205 (Chapter 768, Statutes of 2017)

Interdependent Policy Changes:

Managed Care Reimbursements to the General Fund

Background:

Title 42, Code of Federal Regulations, section 438.6 (c) provides states authority to implement delivery system and provider payment initiatives under MCP contracts based on allowable directed payment mechanisms.

Effective July 1, 2017, for the FY 2017-18 rating period, the Department directed MCPs to make QIP payments to DPHs tied to performance on designated performance metrics in four strategic categories: primary care, specialty care, inpatient care, and resource utilization. To receive QIP payments the DPHs must achieve specified improvement targets, which grow more difficult through year-over-year improvement or sustained high performance requirements. The total funding available for the QIP payments are limited to a predetermined amount (pool).

Prior to implementation of a directed payment program, the Centers for Medicare & Medicaid Services (CMS) requires states seek pre-approval of any requested directed payment program through the standard CMS "pre-print" form.

Effective July 1, 2020, the Department transitioned the existing Public Hospital Redesign and Incentives in Medi-Cal (PRIME) program for DPHs and DMPHs to the QIP directed payment

MGD. CARE PUBLIC HOSPITAL QUALITY INCENTIVE POOL

framework. The goal was to enable hospitals to continue quality improvement efforts that have been underway following the June 30, 2020, expiration of the PRIME program.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight increase due to updated CY 2024 calculations. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to larger pooled amounts for CY 2025 and the inclusion of five months' worth of CY 2027 capitation payments in FY 2026-27 due to accelerated payment timing.

Methodology:

1. The CY 2024 QIP estimated payments are \$2.21 billion TF and are anticipated to pay in FY 2025-26.
2. The CY 2025 QIP estimated payments are \$3.6 billion TF and are anticipated to pay in FY 2026-27.
3. The CY 2027 QIP estimated payments are \$3.6 billion TF, and 5 months' worth of this amount is anticipated to pay in FY 2026-27 due to an accelerated payment schedule effective for the January 1, 2027, service period.
4. The CY 2026 QIP estimated payments are not impacted by an accelerated payment schedule and are anticipated to pay in FY 2027-28.
5. On a cash basis, the estimated QIP payments are:

GENERAL FUND	\$140,899,600	\$8,487,550
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of providing Workforce & Quality Incentive Program (WQIP) directed payments to Freestanding Skilled Nursing Facilities, Level-B (FS/NF-B) and Freestanding Subacute Nursing Facilities, Level-B (FSSA/NF-B).

Authority:

AB 186 (Chapter 46, Statutes of 2022)
AB 116 (Chapter 21, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

AB 186 established the WQIP for calendar years 2023 through 2026 to provide nursing facilities which meet workforce and quality benchmarks directed payments through the Medi-Cal managed care delivery system. The WQIP succeeds the former Quality & Accountability Supplemental Payment program.

Statute requires the Department to set the amount of performance-based directed payments to target an aggregate amount of \$280 million for the 2023 calendar year (CY) and to increase the targeted amount in subsequent years by an amount equal to one percent of facilities' non-labor costs.

DHCS calculates payments to managed care plans (MCPs) based on qualifying bed days that are reported by MCPs to the Post-Adjudicated Claims and Encounters System (PACES). DHCS also calculates each Skilled Nursing Facility (SNF) WQIP-eligible Network Provider's performance metrics, WQIP score, and resulting interim and final per diem payment amounts. An aggregate curve factor is applied to all facilities' WQIP scores based on projected qualifying bed days to calculate the interim and final per diem payment amounts.

Per the Budget Act of 2025, the WQIP program will sunset as of January 1, 2026.

WORKFORCE & QUALITY INCENTIVE PROGRAM

Reason for Change:

The change in FY 2025-26 from the prior estimate, is an increase due to:

- The savings that were reflected in the Elim. SNF Workforce and Quality Incentive Prog. policy change from the May 2025 Estimate is now incorporated into this policy change. The savings from the elimination of the WQIP program, however, have shifted to FY 2026-27 based on when the calendar year (CY) 2026 program payments occur on a cash basis.
- Updated recalculation for CY 2024 WQIP directed payments to be paid in FY 2025-26,
- Updated projections for CY 2025 WQIP directed payments to be paid in FY 2025-26.

The change from FY 2025-26 to FY 2026-27 in the current estimate, is a decrease due to:

- Updated recalculation for CY 2025 WQIP directed payments to be paid in FY 2026-27,
- The WQIP program ending as of January 1, 2026, leaving a net of \$0 for CY 2026 WQIP directed payments to be paid in FY 2026-27.

Methodology:

1. CY 2024 directed payments of \$295 million total fund, on a cash basis, were paid in FY 2024-25. Recalculations associated with CY 2024 are anticipated to pay in FY 2025-26.
2. Assume CY 2025 directed payments will be \$305 million total fund, on a cash basis, paying in FY 2025-26. Recalculations associated with CY 2025 are anticipated to pay in FY 2026-27.
3. Assume CY 2026 directed payments would be \$316 million total fund and would have paid in FY 2026-27 on a cash basis.
4. With the WQIP program sunseting as of January 1, 2026, the CY 2026 savings would be \$316 million total fund, resulting in a net of \$0 total fund being paid in FY 2026-27 for CY 2026 directed payments.

GENERAL FUND	\$103,601,650	\$253,974,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of releasing the withheld portion of Medi-Cal managed care plan (MCP) capitation payments that were withheld as part of the Quality Withhold and Incentive program.

Authority:

Title 42, Code of Federal Regulations (CFR), Section 438.6(b)

Interdependent Policy Changes:

Not Applicable

Background:

Commencing with the calendar year (CY) 2024 rating period, subject to the Centers for Medicare and Medicaid Services approval, the Department implemented a hybrid Quality Withhold and Incentive program for contracted MCPs. This program withholds a percentage of the lower bound capitation rates; the related savings are accounted for in the managed care Base policy changes. The capitation rate withhold percentage may change across rating periods, subject to actuarial soundness and quality goals.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated calculations based on actual expenditures. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the withhold percentage increasing from 0.5% in CY 2024 to 1% in CY 2025.

Methodology:

1. Assume the CY 2024 and CY 2025 performance results will be calculated and earned withhold dollars distributed back to the MCPs in FY 2025-26 and FY 2026-27, respectively. Unearned withhold dollars will roll over into a separate incentive program to pay MCPs for meeting specified performance metrics on the quality measures.
2. CY 2024 Quality Withhold Release and Incentive amounts are anticipated to pay out in FY 2025-26.

MEDI-CAL MANAGED CARE QUALITY WITHHOLD RELEASE

3. CY 2025 Quality Withhold Release and Incentive amounts are anticipated to pay out in FY 2026-27.
4. Quality Withhold Release and Incentive amounts are estimated to be:

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$72,723,000	\$472,518,000

Purpose:

This policy change estimates the managed care District Hospital Directed Payments (DHDP) to district hospitals through enhanced capitation payments to managed care plans (MCPs).

Authority:

Title 42, Code of Federal Regulations (CFR) 438.6(c)
 Families First Coronavirus Response Act (FFCRA)
 Consolidated Appropriations Act of 2023

Interdependent Policy Change:

N/A

Background:

Title 42, CFR 438.6(c) provides states authority to implement a delivery system and provider payment initiatives under MCP contracts based on allowable directed payment mechanisms.

Under the DHDP, base payments will be enhanced by a uniform dollar increment (uniform unit cost add-on) and promote hospitals providing adequate access to service, including primary, specialty, and inpatient (both tertiary and quaternary) care.

The total funding available for the enhanced contracted payments will be limited to a predetermined amount (pool). Upon determination of actual utilization, the Department will direct the MCPs to make enhanced payments to public hospitals for contracted services. The Department will adjust MCP's per-member-per-month rates to appropriately fund MCPs for the enhanced payment obligation.

District and Municipal Public Hospital (DMPH) pass-through payments, previously budgeted in the Hospital Quality Assurance Fee program policy change, for the Calendar Year (CY) 2025 rating period and onward transitioned to the DHDP and are reflected in this policy change.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased

MANAGED CARE DISTRICT HOSPITAL DIRECTED PAYMENTS

FMAP was only available through the end of CY 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight increase due to updated actual expenditures. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to larger pool amounts for CY 2025 and CY 2027, and more service periods paying out in FY 2026-27.

Methodology:

1. The total value of the funding for the DHDP pool on an accrual basis is \$200 million total fund for the CY 2023 rating period and \$207.3 million total fund for the CY 2024 rating period. For CY 2025 the pooled amount is \$842.4 million, and this is held constant to estimate the CY 2027 pooled amount.
2. Within each managed care rating period, payments are calculated and issued separately for each 6-month service period until the CY 2027 service period which has accelerated payment timing.
3. The following program payments have been or are expected to be made:
 - Payment for the January through June 2023 service period was paid in March 2025.
 - Payment for the July through December 2023 service period occurred in September 2025.
 - Payment for the January through June 2024 service period is anticipated to occur in March 2026.
 - Payments for the July through December 2024 and January through June 2025 service periods are expected in September 2026.
 - Payments for July to December 2025 are expected in March 2027 and monthly payments will start in February 2027 for the CY 2027 service period.
 - The CY 2026 service period is not impacted by payment acceleration and so payments are not anticipated to occur until FY 2027-28.
4. The Title XIX and Title XXI COVID-19 increased FMAP is assumed for expenditures through December 31, 2023, for this policy change.
5. On a cash basis, the estimated payments are:

GENERAL FUND	\$51,142,050	\$36,100,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of managed care directed payments for the Community Clinic Directed Payment Program.

Authority:

SB 159 (Chapter 40, Statutes of 2024)
Welfare and Institutions (W&I) Code 14105.468

Interdependent Policy Change:

Not Applicable

Background:

SB 159 (Chapter 40, Statutes of 2024) authorized the Department to implement a payment methodology to provide directed payments from contracted Medi-Cal managed care plans to qualifying non-hospital 340B community clinics to secure, strengthen, and support the community clinic and health center delivery system for Medi-Cal members, effective January 1, 2025.

The Community Clinic Directed Payment (CCDP) preprint was submitted to CMS in December 2024. The CCDP is a performance-adjusted uniform per visit dollar add-on payment for services provided by eligible community clinics when a visit occurs with at least one procedure code contained on the eligible procedure code list. The actual uniform dollar increase will be calculated after the end of the rate period based on actual eligible visits that occurred adjusted for performance measures.

Reason for Change:

There is no change in FY 2025-26, from the prior estimate for total funds. The change in the funding assumptions is due to including additional Federal Medical Assistance Percentage (FMAP) rates.

COMMUNITY CLINIC DIRECTED PAYMENT PROGRAM

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2025-26 includes retroactive payments from January 2025 to December 2025, and FY 2026-27 does not include retroactive payments.

Methodology:

1. The estimated Community Clinic Directed Payment Program annual cost is \$105,000,000 TF.
2. Assume the managed care payments will begin January 2026 and include retro payments for service months January 2025 to December 2025.
3. The estimated payments on a cash basis for Community Clinic Directed Payments are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$148,750	\$51,142	\$97,608
FY 2026-27	\$105,000	\$36,100	\$68,900

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)
90% Title XIX ACA FF / 10% GF (4260-101-0001/0890)
65% Title XXI FF / 35% GF (4260-101-0001/0890)

MANAGED CARE PUBLIC DP-NF PASS-THROUGH PYMT PROG**FISCAL REFERENCE NUMBER:2448**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$75,622,000	\$0
FEDERAL FUNDS	\$36,478,300	\$0

FEDERAL FUNDS	\$36,478,300	\$0
GENERAL FUND	\$39,143,700	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates costs for the distinct part nursing facility (DP-NF) pass-through payment program that transitions supplemental payments for qualifying days at publicly owned/operated DP-NFs formerly covered in the Medi-Cal fee-for-service (FFS) delivery system.

Authority:

Welfare & Institutions Code 14184.201(b)(c)
42, Code of Federal Regulations 438.6(d)(6)
Consolidated Appropriations Act of 2023

Interdependent Policy Change:

Not Applicable

Background:

Historically, public owned/operated DP-NFs were allowed to claim federal financial participation (FFP) payments based on the difference between their actual costs and the amount Medi-Cal currently pays. The acute care hospital must be owned and operated by a public entity, such as a city, city and county, or health care district. In addition, the acute care hospital must meet specified requirements and provide skilled nursing services to Medi-Cal members.

Effective January 1, 2023, the managed care delivery system included a temporary DP-NF pass-through payment program that transitioned supplemental payments for DP-NF days formerly covered under FFS. This program applies to DP-NFs for designated public hospitals (DPHs) and district and municipal public hospital (DMPHs) in counties that transitioned from FFS to managed care for CY 2023 through CY 2025.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated estimates based on actual payment data. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the program ending.

MANAGED CARE PUBLIC DP-NF PASS-THROUGH PYMT PROG**Methodology:**

1. The final seven-months' worth of CY 2025 service period payments are expected to pay in FY 2025-26 and then this three-year program ends.
2. On a cash basis, the estimated payments are:

FY 2025-26	TF	GF	FF	ACA FF
Title XIX 50/50	\$58,162,000	\$29,081,000	\$29,081,000	\$0
Title XXI 65/35	\$10,000	\$4,000	\$6,000	\$0
ACA 2020 90/10	\$8,212,000	\$821,000	\$0	\$7,391,000
100% State GF	\$9,238,000	\$9,238,000	\$0	\$0
Total FY 2025-26	\$75,622,000	\$39,144,000	\$29,087,000	\$7,391,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)
65% Title XXI / 35% GF (4260-101-0001/0890)
90% Title XIX ACA FF / 10% GF (4260-101-0001/0890)
100% State GF (4260-101-0001)

COORDINATED CARE INITIATIVE RISK MITIGATION**FISCAL REFERENCE NUMBER:2135**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$63,734,000
FEDERAL FUNDS	\$0	\$31,867,000
GENERAL FUND	\$0	\$31,867,000
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	\$63,734,000
FEDERAL FUNDS	\$0	\$31,867,000
GENERAL FUND	\$0	\$31,867,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates additional payments to and recoveries from managed care plans (MCPs) who participated in the Coordinated Care Initiative (CCI) related to the risk mitigation strategies applicable to Cal MediConnect (CMC) and non-CMC full-benefit dual-eligible members, partial-benefit dual eligible members, and non-dual-eligible members.

Authority:

Welfare and Institutions (W&I) Code section 14182.18
CMC Three-Way Contract

Interdependent Policy Changes:

Not Applicable

Background:

Risk mitigation strategies were put in place for CMC and non-CMC full-benefit dual eligible members. Risk mitigation strategies were also put in place for partial-benefit dual eligible members and non-dual-eligible members enrolled in managed care in the CCI counties.

There was a limited up-side risk corridor and a limited down-side risk corridor for CMC full-benefit dual eligible members, as specified in the CMC Three-Way Contract, for all demonstration years (DYs) through December 31, 2017. This two-sided risk corridor allowed for additional recoveries from MCPs in the event of profit (up-side) above a specific threshold, and additional payments to MCPs in the event of loss (down-side) greater than a specified threshold.

There was also a one-sided (up-side) risk corridor in place for the period of January 1, 2020, through December 31, 2022, for CMC members.

For non-CMC full-benefit dual eligible members, partial-benefit dual eligible members, and non-dual-eligible members, there was a separate 24-month symmetrical down-side and up-side risk corridors, as specified in W&I Code, section 14182.18 and existing Medi-Cal MCP contracts.

COORDINATED CARE INITIATIVE RISK MITIGATION

Capitation payments for CMC and non-CMC full-benefit dual eligible members were subject to an additional risk mitigation requirement. This requirement is applicable to periods for which capitation payments are based on a projected mix of members of varying acuity levels. If there is a difference between the projected member mix and the actual member mix that would result in a greater than 2.5 percent impact to the capitation rates, the Department and MCPs will equally share any increases or decreases beyond the 2.5 percent threshold (independent of the MCPs' actual gains or losses).

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease in recoupments due to the expected risk corridor payments and recoupments now anticipated to occur in FY 2026-27. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the expected risk corridor payments and recoupments occurring in FY 2026-27 and not FY 2025-26.

Methodology:

1. Assume all payments and recoupments attributable to CMC eligibles and non-CMC eligibles for the 2.5 percent member mix threshold for 2014 through 2022 will occur in FY 2026-27. CMC eligibles for DY four through eight 2.5 percent member mix are incorporated but all estimates are not available at this time for 2018 and beyond.
2. Assume all CMC payments and recoupments for DY one through eight will occur in FY 2026-27. Not all estimates are available at this time for DY four through eight.
3. Assume all payments and recoupments for the first 24-month period, for the non-CMC full-benefit dual eligibles, partial-benefit dual eligibles, and non-dual-eligibles will occur in FY 2026-27.
4. Total payments and recoupments are estimated to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$0	\$0	\$0
FY 2026-27	\$63,734	\$31,867	\$31,867

*Totals may differ due to rounding.

GENERAL FUND	\$7,918,500	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the repayment of the quality withholds for the Coordinated Care Initiative (CCI).

Authority:

SB 1008 (Chapter 33, Statutes of 2012)

SB 1036 (Chapter 45, Statutes of 2012)

Interdependent Policy Changes:

Not Applicable.

Background:

In coordination with Federal and State Government, the CCI provided the benefits of coordinated care models to persons eligible for Medi-Cal. By enrolling these eligibles into coordinated care delivery models, the CCI aligned financial incentives, streamlined member-centered care delivery, and rebalanced the current health care system away from avoidable institutionalized services.

The CCI mandatorily enrolled dual and Medi-Cal only eligibles into managed care for their Medi-Cal benefits. Those benefits included Long Term Care (LTC) institutional services, In-Home Supportive Services (IHSS), Community-Based Adult Services, Multi-Purpose Senior Services Program, and other Home and Community-Based Services. Savings were generated from a reduction in inpatient and LTC institutional services. Beginning January 1, 2018, IHSS was no longer included in the CCI.

The CCI was implemented in seven pilot counties: Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Mateo, and Santa Clara.

As part of the CCI, a quality withhold was applied to the Cal MediConnect (CMC) capitation rate. The withheld amounts are repaid subject to plan performance consistent with established quality thresholds. The quality withholds started at 1% in CY 2014 and CY 2015, increased to 2% in CY

CCI-QUALITY WITHHOLD REPAYMENTS

2016, increased to 3% in CY 2017 through CY 2019, and increased to 4% in CY 2020 through CY 2022. Repayments of withholds are based on performance measures.

The 2017 Budget extended the CMC program and the mandatory enrollment of dual eligibles and integration of long-term services and support, except IHSS, into managed care. IHSS was removed from capitation rate payments effective January 1, 2018.

As part of the California Advancing and Innovating Medi-Cal Initiative's standardized mandatory enrollment of dual eligibles and statewide integration of long-term care into managed care, the CCI pilot program sunset December 31, 2022.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the final quality withhold repayments being made in FY 2025-26.

Methodology:

1. Withheld amounts are repaid subject to performance consistent with established quality thresholds. Thresholds are based on a combination of certain core quality withhold measures as well as state-specified quality measures.
2. The CMS and the State evaluate plan performance according to the specified metrics in order to determine how much of the withheld amount a plan will be repaid for a given year.
3. The CCI program sunset December 31, 2022. Quality withholds for CY 2022 will be the final payments and are anticipated to be repaid in FY 2025-26.

Purpose:

This policy change estimates costs related to the Children's Hospital Supplemental Payment (CHSP) Program.

Authority:

Budget Act of 2024

Title 42, Code of Federal Regulations (CFR) 438.6(c)

Interdependent Policy Changes:

Not Applicable

Background:

Title 42, Code of Federal Regulations, section 438.6 (c) provides authority to implement delivery system and provider payment initiatives under managed care plan (MCP) contracts based on allowable directed payment mechanisms. The Department implemented new directed payments to the following children's hospitals pursuant to Section 14197.6 of the Welfare and Institutions Code, effective for dates of service commencing July 1, 2024:

- Children's Hospital of Orange County
- Children's Hospital Los Angeles, Los Angeles
- MemorialCare Miller Children's & Women's Hospital, Long Beach
- Rady Children's Hospital–San Diego
- University of California, San Francisco (UCSF) Benioff Children's Hospital, Oakland
- Valley Children's Hospital, Madera
- Lucile Packard Children's Hospital Stanford, Palo Alto
- Loma Linda University Children's Hospital, Loma Linda

The directed payments enhance reimbursement received by eligible children's hospitals for qualifying network hospital inpatient and outpatient services provided in the Medi-Cal managed care delivery system.

CHILDREN'S HOSPITAL SUPPLEMENTAL PAYMENT PROGRAM

Reason for Change:

This policy change has been reactivated due to payment shifts.

Methodology:

1. Subject to finalization and federal approval of program design, payments for the July 2024 through June 2025 program period are anticipated to be made in September 2026. Payments for the July through December 2025 program period are anticipated to begin in March 2027. Payments for the 2027 program period are anticipated to begin paying monthly in February 2027, consistent with other utilization-based hospital directed payments.
2. Costs are expected to be \$230,000,000 TF (\$115,000,000 Children's Hospital Directed Payment Fund and \$115,000,000 FF) each rating period.
3. The estimated costs for FY 2026-27 are \$440,833,000 TF (\$220,416,000 GF).

Funding:

OTHER FUNDS	\$4,745,218,000	\$3,645,180,000

Purpose:

This policy change estimates the transfer of funds collected from the tax on managed care organizations (MCOs) to the General Fund (GF) to be used by the Department for the non-federal share of MCO tax capitation rate increases.

Authority:

AB 119 (Chapter 13, Statutes of 2023)
 AB 160 (Chapter 39, Statutes of 2024)
 Welfare & Institutions Code 14199.108.3

Interdependent Policy Changes:

2023 MCO Enrollment Tax Mgd. Care Plans-Incr. Cap. Rates
 2023 MCO Enrollment Tax Managed Care Plans

Background:

Effective April 1, 2023, the Department enacted a multi-year renewal of the MCO provider tax that provides for a statewide tax on managed care plans based on reported enrollment into these plans during the 12-month calendar year (CY) 2022 period. The tax is tiered based on whether the enrollee is a Medi-Cal enrollee or other enrollee.

This policy change estimates the offset of GF costs for the capitated rate increases.

In November 2024, voters approved the Protect Access to Health Care Act of 2024 (Proposition 35), which makes the MCO tax permanent, subject to continued federal approval for future tax periods, and specifies how revenues from the current tax period as it existed on July 1, 2023, are to be allocated, beginning with taxes collected in CY 2025. Proposition 35 allocates specified revenues to support the portion of the non-federal share of Medi-Cal managed care rates for health care services furnished to children, adults, seniors, persons with disabilities, and persons dually eligible for the Medi-Cal and Medicare programs. Proposition 35 creates additional funds into which MCO tax revenues are deposited, appropriated, and spent.

2023 MCO ENROLLMENT TAX MGD CARE PLANS-FUNDING ADJ

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease in the GF reimbursements due to the inclusion of actual capitation payments and updated projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in GF reimbursements due to the 2023 MCO Enrollment Tax ending December 31, 2026.

Methodology:

1. Total revenues for Medi-Cal managed care plans are based on the number of Medi-Cal enrollees and "all-other" enrollees.
2. Only tax relating to Medi-Cal enrollees are budgeted in this PC.
3. The Managed Care Enrollment Fund covered the non-federal share of all MCO-tax related capitated rate increases through December 31, 2024. Beginning January 1, 2025, the Managed Care Enrollment Fund is assumed to cover the non-federal share of capitated rate increases related to amendments to the MCO tax approved in SB 136 (Chapter 6, Statutes of 2024) and AB 160 (Chapter 39, Statutes of 2024).
4. The values below are reflective of Proposition 35. Proposition 35 provides for the non-federal share of Medi-Cal managed care rates related to the MCO tax as approved in AB 119 (Chapter 13, Statutes of 2023) and amended by AB 160 (Chapter 39, Statute of 2024), covered from the HCO&A Subfund beginning January 1, 2025.
5. The Managed Care Enrollment Fund and HCO&A shifts to the GF are expected to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	MCE Fund	HCO&A Subfund
FY 2025-26	\$0	(\$4,745,218)	\$1,498,034	\$3,247,184

OTHER FUNDS	\$4,444,952,000	\$2,530,602,000

Purpose:

This policy change estimates the use of funds from the enrollment tax on managed care organizations (MCOs) to support the nonfederal share of Medi-Cal managed care rates for health care services furnished to children, adults, seniors, and persons with disabilities, and persons dually eligible for the Medi-Cal and Medicare programs.

Authority:

AB 119 (Chapter 13, Statutes of 2023)
 AB 160 (Chapter 39, Statutes of 2024)
 Welfare & Institutions Code 14199.108.3

Interdependent Policy Changes:

2023 MCO Enrollment Tax Mgd. Care Plans-Incr. Cap. Rates
 2023 MCO Enrollment Tax Mgd. Care Plans-Funding Adj.

Background:

Effective April 1, 2023, the Department enacted a multi-year renewal of the MCO provider tax that provides for a statewide tax on managed care plans based on reported enrollment into these plans during the 12-month calendar year (CY) 2022 period. The tax is tiered based on whether the enrollee is a Medi-Cal enrollee or other enrollee. In November 2024, voters approved the Protect Access to Health Care Act of 2024 (Proposition 35), which specifies how revenues from the current tax period as it existed on July 1, 2023, are to be allocated, beginning with taxes collected in CY 2025.

This policy change estimates the use of MCO Tax funds to support the nonfederal share of Medi-Cal managed care rates for health care services furnished to children, adults, seniors, and persons with disabilities, and persons dually eligible for the Medi-Cal and Medicare programs.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase in MCO tax revenue used to support the Medi-Cal program due to updated capitation payment data. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in MCO tax revenue used due to the 2023 MCO Enrollment Tax ending December 31, 2026.

2023 MCO ENROLLMENT TAX MANAGED CARE PLANS

Methodology:

1. The 2023 MCO Enrollment Tax is based on the cumulative enrollment of health plans during the 12-month CY 2022 period.
2. The impact of the increase in capitation payments related to the tax is included in the 2023 MCO Enrollment Tax Mgd. Care Plans-Incr. Cap. Rates policy change.
3. The non-federal share of capitation payments is first reflected in the Two Plan Model, County Organized Health Systems and Single Plan Model, Geographic Managed Care, and Regional Model. Because of technical limitations in DHCS's fiscal systems, the non-federal share of Medi-Cal expenditures must be first charged to the General Fund in a "clearing account" capacity before being adjusted to the correct special funding sources. This PC adjusts the applicable costs to the MCE Fund and HCO&A Subfund.
4. The values below are reflective of Proposition 35. Proposition 35 provides for \$2 billion from the HCO&A to cover Medi-Cal costs in each of calendar year 2025 and 2026. On a cash basis, the estimated amounts from the HCO&A Subfund are \$2 billion in FY 2025-26 and \$854 million in FY 2026-27.
5. The adjustments to the General Fund and Managed Care Enrollment Fund and HCO&A Subfund expenditures are expected to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	MCE Fund	HCO&A Subfund
FY 2025-26	\$0	(\$4,444,952)	\$2,444,952	\$2,000,000
FY 2026-27	\$0	(\$2,530,602)	\$1,676,396	\$854,206

Funding:

100% GF (4260-101-0001)

Managed Care Enrollment Fund (4260-101-3428)

Health Care Oversight & Accountability Subfund (4260-601-3443)

MANAGED CARE REIMBURSEMENTS TO THE GENERAL FUND**FISCAL REFERENCE NUMBER:2063**

OTHER FUNDS	\$2,863,060,000	\$5,687,698,000

Purpose:

This policy change estimates reimbursements to the General Fund (GF) by Intergovernmental Transfer (IGT) from allowable public entities for Medi-Cal payment contributions and administration and processing fees.

Authority:

Welfare & Institution Code 14164 and 14301.4
Families First Coronavirus Response Act (FFCRA)
Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

Effective July 1, 2017, rating period, this policy change consolidates voluntary IGT reimbursements to the GF and administration and processing fees from allowable public entities servicing Medi-Cal managed care members.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year (CY) 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated program calculations for CY 2021, CY 2023, and CY 2024. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to larger pooled amounts for CY 2025 and the inclusion of six months' worth of CY 2027 GF reimbursements in FY 2026-27 due to accelerated payment timing.

MANAGED CARE REIMBURSEMENTS TO THE GENERAL FUND

Methodology:

1. Data from CY 2021, CY 2023 through CY 2025, and six months' worth of CY 2027 (January – June) are used to estimate the annual commitment from allowable public entities.
2. The Title XIX and Title XXI COVID-19 increased FMAP is assumed for expenditures for the CY 2021 and CY 2023 rating periods and has already been adjusted for in the corresponding GF expenditure payments and expected GF reimbursement levels.
3. On a cash basis, the estimated reimbursements to the General Fund are:

(Dollars in Thousands)

Reimbursement	GF
CY 2021	\$44,919
CY 2023	\$194,588
CY 2024	\$2,608,960
CY 2025	\$14,844
Total	\$2,863,311
CY 2024 Support Cost to GF	(\$251)
GF	(\$2,863,060)
FY 2025-26 Net Impact	\$0

(Dollars in Thousands)

Purpose:

This policy change estimates retroactive managed care capitation rate adjustments.

Authority:

Welfare & Institutions Code, section 14087.3

Interdependent Policy Changes:

Not Applicable

Background:

This policy change accounts for retroactive:

- Retro managed care rate adjustments,
- Managed care pass through payments, and
- Managed care funding adjustments.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease in recoupments due to some CY 2023 abatements occurring earlier than expected in FY 2024-25.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in payments due to updated MC Rate Adjustments.

RETRO MC RATE ADJUSTMENTS

Methodology:

1. The Department estimates the following retroactive managed care capitation rate adjustments and retroactive pass-through payments in FY 2025-26 and FY 2026-27:

(Dollars in Thousands)

FY 2025-26	TF	GF	State Only	FF
Retro MC Rate Adjustments Payments	(\$5,846)	(\$150,488)	\$105,483	\$39,159
Retro Pass-Through Payments	\$78,576	\$27,491	\$0	\$51,085
Total FY 2025-26	\$72,730	(\$122,996)	\$105,483	\$90,244

(Dollars in Thousands)

FY 2026-27	TF	GF	Fund 3156	FF
MC Rate Adjustment Payments	(\$425,123)	(\$419,278)	\$0	(\$5,845)
Retro Pass-Through Payments	\$85,613	\$29,862	\$0	\$55,751
SB 78 MCO Tax Reconciliation	\$0	(\$149,702)	\$149,702	\$0
Total FY 2026-27	(\$339,510)	(\$539,118)	\$149,702	\$49,906

Purpose:

This policy change budgets additional payments owed to managed care plans (MCPs), or recoupment of payments due from managed care plans, as determined by risk corridor calculations applicable to Proposition 56 payments.

Authority:

All Plan Letter (APL) 23-008
 APL 23-008
 APL 23-014
 APL 23-016
 APL 23-017
 APL 23-019

Interdependent Policy Changes:

Proposition 56 Funding

Background:

The California Healthcare, Research and Prevention Tobacco Tax Act (Proposition 56, 2016) increased the excise tax rate on cigarettes and tobacco products and allocates a portion of the tobacco tax revenue to the Department for use as the nonfederal share of health care expenditures.

Proposition 56 funds are used to fund various payments to Medi-Cal providers through both the fee-for-service and managed care delivery systems.

CMS instituted the Medicaid Managed Care Final Rule in May 2016, which modernized Medicaid managed care regulations. The result is changes in the usage of managed care delivery systems, 42 CFR section 438.6(c) provides states flexibility to implement delivery system and provider payment initiatives under Medicaid managed care plans (MCPs) contracts based on allowable directed payments.

PROP 56 - DIRECTED PAYMENT RISK MITIGATION

Beginning with the July 1, 2017, rating period, the state has directed MCPs to make enhanced supplemental payments to eligible provider types for specified CPT codes upon approval from CMS and availability of federal funding. The enhanced supplemental payment is contingent upon the MCPs' receipt of providers' actual utilization for these codes reported through encounter data.

For the calendar year (CY) 2022 and CY 2023 rating periods there are a subset of Proposition 56 directed payment programs that were subject to one of three two-sided risk corridors. The first risk corridor applies to the Proposition 56 Physicians Services, Proposition 56 Developmental Screening Services, and Proposition 56 Adverse Childhood Experiences Screening Services programs. The second risk corridor applies to the Proposition 56 Family Planning Services program. The third risk corridor applies to the Proposition 56 Value-Based Payment program for CY 2022; the program ended June 30, 2022, and is no longer calculated for CY 2023.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease of \$324.4 million General Fund resulting from some CY 2023 recoupments occurring earlier than anticipated in FY 2024-25.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to no calculations being available at this time for the CY 2024 risk corridor.

Methodology:

1. For the CY 2022 rating period, \$14.53 million TF (\$4.65 million state funds) is estimated to be recouped in FY 2025-26.
2. For the CY 2023 rating period, \$49.60 million TF (\$18.79 million state funds) is estimated to be recouped in FY 2025-26.
3. This policy change identifies the use of the General Fund for these Proposition 56 adjustments. See the Proposition 56 Funding policy change for the Proposition 56 offset to the GF.
4. Total impacts related to this policy change are summarized below:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
CY 2022 recoupments	(\$14,533)	(\$4,645)	(\$9,888)
CY 2023 recoupments	(\$49,605)	(\$18,796)	(\$30,809)
Total FY 2025-26	(\$64,138)	(\$23,441)	(\$40,697)

FEDERAL FUNDS	\$291,132,360	\$587,363,690
GENERAL FUND	\$364,769,590	\$735,928,280
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the rate increase for all Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs) under the prospective payment system (PPS) reimbursement methodology and the rate increase for Cost-Based Reimbursement Clinics (CBRCs).

Authority:

Section 1833 of the Social Security Act
Welfare & Institutions Code, section 14170 and 14132.100

Interdependent Policy Changes:

Not Applicable

Background:

The Benefits Improvement and Protection Act of 2000 required the Department to reimburse FQHCs and RHCs based on the PPS reimbursement methodology. Clinics chose a PPS rate based on either 1) the average of the clinic's 1999 and 2000 cost-based rate or, 2) the clinic's 2000 cost-based rate. The clinic receives an annual rate adjustment based on the percentage increase in the Medicare Economic Index and is effective October 1st of each year.

The Department reimburses the CBRCs, owned or operated by Los Angeles County, at 100% of reasonable and allowable costs. The Department pays an interim rate to the clinics, which is adjusted once the audit reports are finalized. The interim rate is adjusted July 1 of each year.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a projected increase in rates and visits.

Methodology:

1. The projected visits are based on the average percent increase of the last three-years of actual visit counts.

RATE INCREASE FOR FQHCS/RHCS/CBRCS

2. The rate increase will be used as a trend factor to calculate the estimated cost per visit rate. The rate increase percent was 10.74% for calendar year (CY) 2024 and 8.01% for CY 2025 and CY 2026.

Rate Year	Projected Visits	Current Rate	Rate with Increase
2024	27,572,974	\$214.59	$\$214.59 \times (1+10.74\%) = \$237.63$
2025	29,972,322	\$237.63	$\$237.63 \times (1+8.01\%) = \$256.66$
2026	32,580,457	\$256.66	$\$256.66 \times (1+8.01\%) = \$277.21$

*Totals may differ due to rounding.

3. The estimated expenditures are the increased rate multiplied by the number of projected visits. The projected annual expenditures due to the rate increase are:

(Dollars in Thousands)

Federal Rate Year	Expenditures	Exp. with Increase	Rate Increase
2024	\$5,916,884	\$6,552,166	\$635,281
2025	\$7,122,323	\$7,692,696	\$570,373
2026	\$8,362,100	\$9,031,628	\$669,528

4. The FY 2025-26 CBRC rate increase of \$27,341,000 is based on the FY 2024-25 reported rates and a three-year average of visits. The estimated payment increase is determined by the difference between the calculated estimated payments and the total three-year average payments per the Paid Claims Summary Reports for FY 2022-23, FY 2023-24, and FY 2024-25.
5. The FY 2026-27 CBRC rate increase of \$33,485,000 is based on the FY 2024-25 reported rates and a three-year average of visits. The estimated payment increase is determined by the difference between the calculated estimated payments and the total three-year average payments per the Paid Claims Summary Reports for FY 2022-23, FY 2023-24, and FY 2024-25.
6. The estimated expenditures in FY 2025-26 and FY 2026-25 are:

(Dollars in Thousands)

FY 2025-26	TF

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$107,455,160	\$217,653,310

Purpose:

This policy change estimates reimbursements to the General Fund (GF) by intergovernmental transfer (IGT) from AB 1705 Intergovernmental Transfer Program revenues, and the supplemental reimbursement payments for Ground Emergency Medical Transportation (GEMT) services provided by public GEMT providers.

Authority:

AB 1705 (Chapter 544, Statutes of 2019)
 State Plan Amendment (SPA) 22-0015
 SPA 24-0002
 SPA 25-0002

Interdependent Policy Changes:

Ground Emergency Medical Transportation QAF

Background:

AB 1705 requires the Department to implement the Public Provider GEMT Intergovernmental Transfer (PP-GEMT IGT) Program no sooner than July 1, 2021. Currently, the Department administers the GEMT Quality Assurance Fee (QAF) program under Welfare and Institutions Code § 14129 et seq. for private and public providers, which is budgeted in the GEMT QAF policy change. Pursuant to AB 1705, the GEMT Supplemental Payment Program for public governmental entities had a sunset date on December 31, 2022. The reimbursements made to public providers previously enrolled in the GEMT QAF program have transitioned into the new PP-GEMT IGT Program. The Department has implemented the PP-GEMT IGT program effective January 1, 2023. As of January 1, 2023, public providers are no longer eligible to participate in the GEMT QAF program.

Pending CMS approval, a 10% fee will be assessed on the IGTs in order to support health care coverage costs and costs associated with administering the program. Fees assessed in excess of the costs will result in a savings to the GF. Eligible emergency medical transport providers will be required to receive an add-on increase to their Medi-Cal Fee-for-Service (FFS) payment schedule for certain procedure codes. The Department developed the add-on increase based on

PP-GEMT IGT PROGRAM

specific standards, including eligible providers' average costs directly associated with providing Medi-Cal emergency medical transports under the Medi-Cal program.

The Centers for Medicare and Medicaid Services (CMS) approved SPA 22-0015 on December 21, 2022, authorizing the add-on increase of \$946.92 to the Medi-Cal FFS fee schedule rates for eligible GEMT services when provided by qualified public providers in Calendar Year (CY) 2023.

The CMS approved SPA 22-0002 on January 13, 2025, authorizing the add-on increase of \$1,049.98 to the Medi-Cal FFS fee schedule rates for eligible GEMT services when provided by qualified public providers in CY 2024. SPA 25-0002 was submitted to CMS on March 25, 2025 for an add-on increase of \$1,478.68 to the Medi-Cal FFS fee schedule rates for eligible GEMT services when provided by qualified public providers in CY 2025.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- Implementation of CY 2024, 2025, and 2026 FFS rates expected to occur in FY 2025-26.
- Anticipated shift in some transports from managed care to FFS.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to:

- Anticipated CY 2025 managed care retro payments to account for the CY 2025 add-on,
- Anticipated CY 2026 managed care retro payments to account for the CY 2026 add-on.

Methodology:

1. The PP-GEMT IGT program was implemented on January 1, 2023.
2. The total payments in FY 2025-26 on a cash basis are expected to be \$378,201,000 Total Fund (TF), of which \$55,121,000 TF is FFS and \$323,080,000 is for managed care.
3. The total payments in FY 2026-27 on a cash basis are expected to be \$680,015,000 TF, of which \$95,059,000 is FFS and \$584,956,000 is for managed care.

The \$584,956,000 in managed care payments includes \$255,544,000 in retro payments, \$111,470,000 for CY 2025 and \$144,074,000 for CY 2026.

4. CMS has not yet approved the 10% fee assessment to support health care coverage costs and administrative costs, so no offset to the General Fund is assumed for FY 2025-26 or FY 2026-27.
5. FY 2025-26 and FY 2026-27 are summarized as follows:

FY 2025-26	TF	GF	IGT*	FF
GF Offset	\$0	\$0	\$0	\$0
FFS Payments	\$55,121,000	\$0	\$16,759,000	\$38,362,000

PP-GEMT IGT Program

Background:

SB 523 requires the Department to impose a GEMT QAF on all ground emergency medical transports. The QAF revenues will be used 1) to pay for Department staffing and administrative costs to implement the QAF program, 2) to pay for health care coverage in each fiscal year (FY) in the amount of 10% of the annual QAF collection amount, and 3) to be used, along with a federal match, to provide an add-on to the reimbursement rates for base ground emergency transport services.

The Department collects gross transport and revenue data from GEMT providers in order to calculate an annual QAF amount. The QAF is assessed on each GEMT transport for base ground emergency medical services, effective July 1, 2018. The revenue generated by the QAF collections is deposited directly into the Medi-Cal Emergency Medical Transportation Fund (MEMTF).

GROUND EMERGENCY MEDICAL TRANSPORTATION QAF

For FY 2018-19, the Department was required to provide an add-on to the Medi-Cal Fee-for-Service (FFS) reimbursements for codes A0427 Advanced Life Support (ALS) Emergency, A0429 Basic Life Support (BLS) Emergency, and A0433 ALS2 using available QAF revenue, effective July 1, 2018.

Effective July 1, 2018, the add-on was calculated to be \$220.80 and authorized by SPA 18-004. SPA 19-0020 authorizes for the add-on to be provided for codes A0225 Neonatal Emergency Transport and A0434 Specialty Care Transport, effective July 1, 2019. SPA 20-0009 was approved to continue providing the add-on in FY 2020-21. SPA 21-0017, for the FY 2021-22 add-on, was approved on August 20, 2021. SPA 22-0040, for the FY 2022-23 add-on, was approved on December 16, 2022. SPA 23-0020, for the FY 2023-24 add-on, was approved on November 16, 2023. SPA 24-0025 for the FY 2024-25 add-on was approved on January 15, 2025. SPA 25-0003-A, which continues the FY 2025-26 add-on, is currently pending federal approval.

AB 1705 requires the Department to implement a public provider GEMT intergovernmental transfer (PP-GEMT IGT) program, utilizing intergovernmental transfers. The public providers previously enrolled in the GEMT QAF program were transitioned into the new AB 1705 PP-GEMT IGT Program. As of January 1, 2023, these providers are no longer able to participate in the GEMT QAF program and funds associated with AB 1705 (public providers) have shifted into the PP-GEMT IGT Program policy change.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- An increase in projected FFS payments.
- A decrease in projected managed care payments.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- An increase in projected FFS payments.
- A decrease in projected managed care payments.

Methodology:

1. The effective date for the GEMT QAF is July 1, 2018 with the approved add-on amount of \$220.80.
2. Assume the GEMT QAF revenue will be \$55,581,000 in FY 2025-26 and \$57,565,000 in FY 2026-27.
3. For FY 2018-19, \$1,003,000 will be transferred from the MEMTF to the GF for administration costs. Beginning FY 2019-20 and every year after, \$374,000 will be transferred.
4. The transfer from the MEMTF to the GF for the annual administration cost and 10% set aside for health care coverage is estimated to be \$9,203,000 for FY 2025-26, including amounts from prior years, and \$11,059,000 for FY 2026-27.
5. From the remaining GEMT QAF revenue available, total annual GEMT add-on payments for FY 2025-26 are estimated to be \$166,095,000 TF, of which \$16,705,000 TF is for FFS and \$149,390,000 TF is for Managed Care GEMT transport services.

GROUND EMERGENCY MEDICAL TRANSPORTATION QAF

6. From the remaining GEMT QAF revenue available, total annual GEMT add-on payments for FY 2026-27 are estimated to be \$167,052,000 TF, of which \$19,124,000 TF is for FFS and \$147,928,000 TF is for Managed Care GEMT transport services.
7. Managed Care Payments:
- FY 2025-26 is expected to include 7 months of the CY 2025 rates and 5 months of the CY 2026 rates.
 - FY 2026-27 is expected to include 7 months of the CY 2026 rates and 5 months of the CY 2027 rates.
8. The cash basis estimate is summarized as follows:

FY 2025-26	TF	GF	MEMTF	FF
FFS Payments	\$16,705,000	\$0	\$5,425,000	\$11,280,000

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the funds for the reconciliation of Designated Public Hospital (DPH) interim payments to their finalized hospital inpatient costs.

Authority:

State Plan Amendment (SPA) 05-21

Interdependent Policy Changes:

Not Applicable

Background:

As approved on April 25, 2006 through SPA 05-21, effective for dates of service on or after July 1, 2005, each DPH's fiscal year interim per diem rate, comprised of 100% federal funds, for inpatient hospital costs for Medi-Cal members will be reconciled to its filed Medi-Cal cost report for the respective fiscal year. The reconciliations, interim and final, are based on the hospitals' Certified Public Expenditures (CPE).

This reconciliation process may result in an overpayment or underpayment to a DPH and will be handled as follows:

- For DPHs that have been determined to be overpaid, the Department will recoup any overpayments.
- For DPHs that have been determined to be underpaid, the Department will make a payment equal to the difference between the DPH's computed Medi-Cal cost, and a DPH's payments consisting of: share of cost, third party liability, other health coverage, Medicare, Medi-Cal administrative days, crossovers, and interim payments.

Final payment reconciliation will be completed when the Department has audited the hospitals' cost reports.

DPH INTERIM & FINAL RECONS

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Shifting FY 2016-17 and FY 2017-18 Los Angeles (LA) County final reconciliations from FY 2024-25 to FY 2025-26,
- Shifting some DPHs' FY 2018-19 final reconciliations from FY 2024-25 to FY 2025-26, and
- Updating the FY 2019-20 final reconciliations amounts based on revised data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to varying reconciliation estimates from different reconciliation years.

Methodology:

1. DPH's final reconciliation for all years will be the difference between the Federal Medical Assistance Percentage (FMAP) rate of the audited costs and the respective payments.
2. The estimated final reconciliation payments and recoupments on a cash basis are:

(Dollars in Thousands)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of extending the skilled nursing facility rate methodology and Quality Assurance Fee (QAF).

Authority:

AB 186 (Chapter 46, Statutes of 2022)
Budget Act of 2026

Interdependent Policy Changes:

Not Applicable

Background:

AB 1629 (Chapter 875, Statutes of 2004), most recently extended by AB 186 (Chapter 46, Statutes of 2022) through 2026, requires the Department to implement a facility-specific rate methodology on Freestanding Skilled Nursing Facilities, Level-B (FS/NF-B) and Freestanding Subacute Nursing Facilities, Level-B (FSSA/NF-B). For calendar years (CYs) 2024 through 2026, annual rate increase for labor costs will be limited to 5% and annual rate increases for non-labor costs will be limited to 1%.

The Department is proposing a one-year extension of the FS/NF-B and FSSA/NF-B rate methodology to continue the 5% rate increase for labor costs and 1% increase for non-labor costs for CY 2027.

The methodology also imposes a Quality Assurance Fee (QAF) equivalent to 6% of all facility revenue, which is used to increase rates and offset a portion of the General Fund cost for the rate increases. Receipts from the extended QAF are budgeted in the Long-Term Care Quality Assurance Fund (LTC QAF) Expenditures policy change. The Department proposes to extend the LTC QAF through CY 2027, effective January 1, 2027, through December 31, 2027.

Workforce Standards and Base Rate Augmentation

For CY 2024 through CY 2026, AB 186 authorized the Workforce Standards Program (WSP). The WSP will provide an enhanced Medi-Cal per diem rate, including a workforce rate

NURSING FACILITY RATE ADJUSTMENTS

adjustment, to facilities that maintain a collective bargaining agreement, participate in a statewide multi-employer labor management committee (LMC), or meet basic wages and benefit standards established by the Department. The Department proposes to extend the WSP through CY 2027.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- Updated total Medi-Cal days and rates,
- The fee-for-service (FFS) CY 2024 rate implementation being delayed from May 2025 to June 2025, with the retroactive rate adjustment in September 2025,
- The FFS CY 2025 rate implementation being delayed from May 2025 to July 2025, with the retroactive rate adjustment in October 2025.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Updated total Medi-Cal days and rates,
- Including the estimated costs for the CY 2027 rate adjustments.

Methodology:

1. The FFS CY 2023 rates were implemented in November 2023. The retroactive correction for the period from January 2023 to October 2023 was implemented in January 2024.
2. The FFS CY 2024 rates were implemented in June 2025. The retroactive correction for the period from January 2024 to May 2025 is expected to be implemented in September 2025.
3. The FFS CY 2025 rates were implemented in July 2025. The retroactive correction for the period from January 2025 to June 2025 is expected to be implemented in October 2025.
4. Assume the FFS CY 2026 rates will be implemented in February 2026. The retroactive correction for the period from January 2026 is expected to be implemented in April 2026.
5. Assume the managed care rate impacts are budgeted in the managed care base capitation rates.
6. **Calendar Year 2027 Extension:** The one-year Calendar Year 2027 extension is estimated to cost \$242.4 million TF (\$113.4 million GF).

(Dollars in Thousands)

Calendar Year 2027 Annual	TF	GF	FF
FFS	\$34,004	\$15,914	\$18,090
Managed Care (In MC Base, display only)	\$208,360	\$97,512	\$110,848
Total	\$242,364	\$113,426	\$128,938

NURSING FACILITY RATE ADJUSTMENTS

On a cash basis, six months of FFS costs with payments lags are estimated at \$9.86 million TF (\$4.6 million GF) and five months of managed care costs are estimated at \$86.8 million TF (\$40.6 million GF) in FY 2026-27.

- Assume the FFS CY 2027 rates will be implemented January 2027.
- The managed care costs are display only in this policy change as these costs are assumed to be included in the managed care base capitation rates.

(Dollars in Thousands)

Calendar Year 2027 FY 2026-27	TF	GF	FF
FFS (Lagged)	\$9,861	\$4,615	\$5,246
Managed Care (In MC Base, display only)	\$86,817	\$40,630	\$46,187
Total	\$96,678	\$45,245	\$51,433

7. Assume a 5% base rate increase for labor costs and 1% base rate increase for non-labor costs effective January 2024. Additionally, assume a workforce standards rate adjustment effective January 2024 assuming all facilities meet the specified workforce standards.
8. The total cash basis FFS and managed care rate adjustment impact for FY 2025-26 and FY 2026-27 are estimated to be:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
FFS (Lagged)	\$234,633	\$109,808	\$124,825

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the reimbursement of participating Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs) according to the prospective payment system (PPS), Indian Health Services/Memorandum of Agreement (IHS/MOA), and the reimbursement to Cost-Based Reimbursement Clinics (CBRCs).

Authority:

Welfare & Institutions Code, sections 14132 and 14170
Social Security Act, 1902 (bb)(5)

Interdependent Policy Changes:

Not Applicable

Background:

Annually, each FQHC/RHC submits a reconciliation request for full reimbursement. The Department must provide payment to the clinics equal to the difference between each clinic's final PPS rate and the expenditures already reimbursed by an interim payment and third party payors (i.e. managed care entities, Medicare, etc.) in order to calculate the final settlement with the clinic.

The Department reimburses the CBRCs, owned or operated by Los Angeles County, at 100% of reasonable and allowable costs. The Department pays an interim rate to the clinics, which is adjusted once the audit reports are finalized. The adjusted interim rate is used for subsequent fiscal year claims.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a net decrease due to updated Erroneous Payment Corrections (EPCs) and actual settlement recoveries. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

FQHC/RHC/CBRC RECONCILIATION PROCESS

Methodology:

1. FY 2025-26 and FY 2026-27 FQHC and RHC reconciliations are based on a three-year average of projected and actual settlements from July 2022 through June 2025. The FQHC reconciliation amount includes settlements for IHS.
2. The estimated FQHC retroactive rate adjustment of \$48,826,000 for FY 2025-26 and FY 2026-27 is based on paid EPCs from July 2024 through June 2025. Currently, the fiscal intermediary processes EPCs quarterly.
3. The LA CBRC reconciliation for FY 2025-26 and FY 2026-27 is based on a three-year average of actual settlements from July 2022 through June 2025.

Reconciliations and Adjustments	FY 2025-26	FY 2026-27

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs associated with a fee increase for newborn screening (NBS) and prenatal screening (PNS) provided to Medi-Cal members under the California Department of Public Health (CDPH) Genetic Disease Screening Program (GDSP).

Authority:

Health & Safety Code, Division 106, Part 5, Chapter 1, Article 1, Section 124977
 SB 1095 (Chapter 393, Statutes of 2016)
 State Plan Amendment (SPA) 22-0021
 SPA 22-0054
 SPA 22-0063
 SPA 22-0064

Interdependent Policy Changes:

Not Applicable

Background:

Pursuant to Health & Safety Code, Division 106, Part 5, Chapter 1, Article 1, Section 124977, the NBS Program fee shall be periodically adjusted to fully support GDSP. Section 124977(d)(1) outlines the GDSP's ability to adopt emergency regulations surrounding newborn and prenatal screening.

CDPH administers California's GDSP, which includes the PNS Program and the NBS Program. These programs screen for genetic disorders that are, for the most part, preventable or remediable by early intervention and provide clinical oversight for the follow-up services, which include genetic counseling and confirmatory testing, including ultrasound and diagnostic procedures.

The Department submitted SPA 23-0040 in December 2023 to implement a rate adjustment for Current Procedural Terminology (CPT) code 0327U, effective November 1, 2023. Additionally, the SPA proposes to establish a reimbursement methodology to align its reimbursement rate for

GDSP NBS & PNS FEE ADJUSTMENTS

NBS and PNS with the participation fee that CDPH charges. SPA 23-0040 is currently pending Centers of Medicare and Medicaid Services' (CMS) approval.

Newborn Screening Program

SB 1095 requires GDSP to expand statewide newborn screening to include any disease that is detectable in blood samples as soon as practicable, but no later than two years after the disease is adopted by the federal Recommended Uniform Screening Panel (RUSP).

The Department submitted SPA 24-0034 in September 2024 to obtain federal approval to update the NBS rates to \$226 to align with CDPH participation fees effective July 1, 2024.

On August 2, 2022, newborn screening for mucopolysaccharidosis type II (MPS II) was added to the federal RUSP. On January 4, 2023, guanidinoacetate methyltransferase (GAMT) deficiency was added to the federal RUSP. In August 2024, CDPH incorporated the screening for MPS II and GAMT deficiency into the Newborn Screening panel. On July 1, 2024, CDPH implemented a fee increase in the NBS program to cover the cost to include the two new conditions. The Department included the \$15 increase in SPA 24-0034 that was submitted in September 2024.

Prenatal Screening Program

CDPH replaced GDSP's conventional biochemical screening for chromosome abnormalities with a Cell-free DNA (cfDNA) screening that screens for chromosomal abnormalities. GDSP's screening for Maternal Serum Alpha-Fetoprotein (MSAFP) screening remains as part of the overall screening process. A total fee increase of \$95.40 was proposed beginning September 2022 and the components are as follows:

1. CDPH charges a fee increase of \$10.40 (\$221.60 to \$232.00) for the GDSP PNS cfDNA test, with CPT code 81420 and Proprietary Laboratory Analyses (PLA) Code 0327U.
2. Additionally, the MSAFP screening test in the second trimester, which is currently included in the GDSP PNS biochemical screening fees, requires a new separate fee of \$85.00, with CPT code 82105.
3. These fee structure changes will generate sufficient ongoing revenue to offset CDPH's additional laboratory screening costs.

Additionally, the Department submitted SPA 24-0034 in September 2024, which proposes to increase rate reimbursement from \$232 to \$344 for codes 0327U and 81420 effective July 1, 2024.

Effective July 1, 2024, CDPH implemented fee increases totaling \$112 for:

- A \$38 fee increase due to updates to the caseload methodology, and
- A \$74 fee increase for the addition of prenatal screenings for Sex Chromosome Aneuploidies (SCAs).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- Erroneous Payment Corrections (EPC) for retroactive payments are included in FY 2025-26 while the prior estimate did not include the estimated retroactive payments. In addition, the EPCs for NBS and PNS rate changes were shifted from implementation on October 1, 2025, to April 1, 2026.

GDSP NBS & PNS FEE ADJUSTMENTS

- Including the November 1, 2023, PNS rate changes for PLA Code 0327U to be implemented in January 1, 2026.
- A delay in the implementation of the July 1, 2024, NBS and PNS rate changes from July 1, 2025, to January 1, 2026.
- Updated caseload estimates reported by CDPH from June 2025.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to:

- No retroactive EPCs are estimated in FY 2026-27.
- A full year's implementation of the NBS and PNS rate changes are estimated in FY 2026-27 compared to six months in FY 2025-26.

Methodology:

Newborn Screening Program

1. The CDPH implemented a \$15.00 fee increase for the GDSP NBS program to add MPS II and GAMT to the NBS program, effective July 1, 2024. The Department will implement corresponding Medi-Cal Fee-for-Service (FFS) GDSP NBS rate increases based on the CDPH fee increases.
2. The Department expects to implement the \$15 fee increase in January 2026. The EPC for the July 1, 2024 through December 31, 2025 period is expected to implement in April 2026.
3. Assume approximately 60% of newborns screened are from the Medi-Cal population. Of the percentage Medi-Cal newborn population, assume approximately 36.4% are in Medi-Cal FFS.
4. Assume approximately 99% of newborns will be screened by the NBS program each year.
5. The Medi-Cal managed care impact is assumed in the managed care base capitation rates; therefore, there are no managed care costs included in this policy change.
6. Assume 99% of Medi-Cal FFS claims submitted are paid.

Prenatal Screening Program

1. The Department implemented a \$375.24 fee adjustment for CPT 81420, reducing the current FFS rate from \$607.24 to \$232.00 to reflect CDPH's new participation fee of \$232.00 for the cfDNA screening, effective October 1, 2022. This adjustment was implemented on May 22, 2023 and the EPC for the October 1, 2022 through May 21, 2023 period was implemented on August 2, 2023, occurring over 12 months.
2. The Department proposes to increase the PNS rates for PLA code 0327U from \$0.00 to \$232.00, effective November 1, 2023. The implementation date is estimated to be January 2026. The EPC for the November 1, 2023 to December 31, 2025 period is expected to implement in April 2026.
3. CDPH has proposed a fee increase for CPT code 81420 and PLA code 0327U, increasing the rate by \$112 from \$232.00 to \$344.00, effective July 1, 2024. The Department will implement a corresponding Medi-Cal FFS GDSP PNS rate adjustment based on the CDPH fee increase and new fee structure. This adjustment is expected to be implemented in

GDSP NBS & PNS FEE ADJUSTMENTS

January 2026. The EPC for the July 1, 2024 through December 31, 2025 period is expected to implement in April 2026.

4. The estimated Medi-Cal FFS costs for the NBS and PNS rate changes in FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF	FF
NBS FFS Prospective Rate Change	\$737,000	\$287,000	\$450,000
PNS FFS Prospective Rate Change	\$8,504,000	\$3,316,000	\$5,188,000
NBS FFS Retroactive Rate Change	\$2,210,000	\$862,000	\$1,348,000
PNS FFS Retroactive Rate Change	\$33,150,000	\$12,927,000	\$20,223,000
Total	\$44,601,000	\$17,392,000	\$27,209,000

FY 2026-27	TF	GF	FF
NBS FFS Prospective Rate Change	\$1,473,000	\$574,000	\$899,000
PNS FFS Prospective Rate Change	\$17,009,000	\$6,633,000	\$10,376,000
Total	\$18,482,000	\$7,207,000	\$11,275,000

Funding:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the annual long-term care (LTC) rate adjustment for Nursing Facility-A (NF-A), Distinct Part (DP) Nursing Facility-B (DP/NF-B), Rural Swing Bed, DP Adult Subacute, DP Pediatric Subacute (DP/PSA), Freestanding Pediatric Subacute, Intermediate Care Facility – Developmentally Disabled (ICF/DD), Intermediate Care Facility – Habilitative (ICF/DD-H), and Intermediate Care Facility – Nursing (ICF/DD-N) facilities. Additionally, it estimates the rate increases due to the assessment of Quality Assurance (QA) fees for ICF/DDs. Finally, it estimates the additional reimbursement for the projected Medi-Cal costs of complying with new state or federal mandates, referred to as “add-ons.”

Interdependent Policy Changes:

Not Applicable

Background:

Prior to rate year 2009-10, Medi-Cal rates for LTC facilities were adjusted after completion of an annual rate study for specified provider types. ABX4 5 froze rates for rate year 2009-10 and every year thereafter at the 2008-09 levels. On February 24, 2010, in the case of *CHA v. David Maxwell-Jolly*, the court enjoined the Department from continuing to implement the freeze in

LTC RATE ADJUSTMENT

reimbursement at the 2008-09 rate levels for DP/NF-Bs, Rural Swing Beds, DP Adult Subacute, and DP/PSA.

Effective June 1, 2011, AB 97 required the Department to freeze rates and reduce payments by up to 10% for the facilities enjoined from the original rate freeze, which was required by ABX4 5. In addition, AB 97 extends this requirement to the other LTC facility types. The Department received approval from the Centers for Medicare and Medicaid Services (CMS) to implement a rate freeze on NF-As and DP/NF-Bs and to reduce the payments by 10%.

Effective September 1, 2013, State Plan Amendment (SPA) 13-034 exempted Rural Swing Beds in DP/NF-B facilities located in designated rural and frontier areas from the AB 97 rate freeze and rate reduction. All other bed types in DP/NF-B facilities were exempted October 1, 2013.

The Department also received CMS approval to exempt DP Adult Subacute and DP/PSA from the rate freeze based on access and utilization analyses.

AB 119 extends the FS/PSA QA fee sunset from July 31, 2015, to July 31, 2020. Pursuant to AB 81, FS/PSA are exempt from the QA fee, effective August 1, 2020.

Effective August 1, 2016, ABX2 1 requires the Department to forgo the AB 97 retroactive recoupment for the rate reduction and rate freeze that would have been applied to the reimbursement for services provided by DP/NF-Bs between June 1, 2011, and September 30, 2013. ABX2 1 also required the Department to restore the AB 97 payment reduction and reimburse ICF/DD facilities at the 2008-09 levels, increased by 3.7%.

The reimbursement rates for DP Adult Subacute and DP Pediatric Subacute types are described in the State Plan and are currently not subject to any rate reductions.

AB 133 removes reductions or limitations for FS/PSA or ICF/DD rate setting effective August 1, 2021, including the rate freeze imposed by AB 97 and related legislation. Beginning with RY 2021-22, ICF/DD facilities shall receive an unfrozen reimbursement rate inclusive of any Proposition 56 supplemental payments. However, for RY 2021-22, the reimbursement rate may not be less than the rate authorized by the California Medicaid State Plan, plus any Proposition 56 supplemental payment, in effect for that facility on July 31, 2021.

For FS/PSAs, as defined in Section 51215.8 of Title 22 of the California Code of Regulations, reimbursement rates shall be determined without applying the rate freeze and limitations imposed by AB 97 and related legislation. Beginning with RY 2021-22, the unfrozen reimbursement rates for these facilities shall be inclusive of any Proposition 56 supplemental payments.

The Budget Act of 2022 transitioned Proposition 56 supplemental payments for ICF/DDs and FS-PSAs to ongoing rate increase funded from the General Fund. SPA 22-0061 will incorporate amounts equivalent to the former Proposition 56 supplemental payment amounts into the facility's base rates. For RY 2022-23, Proposition 56 supplemental payment amounts are included in the annual base rate build up.

SB 184 established a hold harmless provision for ICF/DDs for dates of service after the declared end of the federal COVID-19 public health emergency (PHE). The hold harmless provision provides that after the last day of the PHE, facilities will receive the greater of the unfrozen

LTC RATE ADJUSTMENT

reimbursement or the total reimbursement rate in effect on the last day of the PHE, inclusive of a temporary rate increase that was provided during the PHE.

For all other LTC facilities the COVID-19 increased reimbursement ceased effective May 12, 2023, and reimbursement rates for room and board services reverted to the regular annual per diem rates.

In accordance with AB 118, pending federal approval and effective January 1, 2024, the Department will align rate years with the calendar year for the following facility types: NF-A, DP/NF-B, DP/PSA, FS/PSA, and ICF/DD, including ICF/DD-N and ICF/DD-H. The Department will calculate new rates for the August 1, 2023, to December 31, 2023 period (referred to hereafter as the “bridge period” and for the January 1, 2024 to December 31, 2024 period utilizing the same underlying cost reports and by adjusting the months of inflation applied in the rate study.

Additionally, pending federal approval, for dates of service July 1, 2023, through December 31, 2023, FS/PSA reimbursement rates will be set at the total per diem rate in effect on August 1, 2022, inclusive of an amount equivalent to the COVID-19 PHE rate increase then in effect. For dates of service on or after January 1, 2024, FS/PSA rates shall be the greater of: (1) the reimbursement rate established by the applicable State Plan reimbursement methodology or (2) the reimbursement rate in effect for the facility on December 31, 2023, inclusive of the amount equivalent to the COVID-19 PHE rate increase.

SB 525, as amended by SB 159, enacts a phased-in multi-tiered statewide minimum wage increase schedule for health care workers employed by covered healthcare facilities, including licensed skilled nursing facilities that are distinct parts of hospitals.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Updated Medi-Cal days.
- Updated per diem rates.
- Delayed implementation of some fee-for-service (FFS) rates.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Updated Medi-Cal days.
- Updated per diem rates.
- New rates for calendar year (CY) 2027.

Methodology:

1. Beginning in CY 2024, the effective date for rate adjustments is January 1st of each calendar year. The assumed implementation dates are as follows:

LTC RATE ADJUSTMENT

Facility	CY 2024	CY 2025	CY 2026	CY 2027
DP/NF-B	6/25/2024	11/30/2025	12/31/2025	12/31/2026
Rural Swing Beds (non-exempt)	6/25/2024	11/30/2025	12/31/2025	12/31/2026
Rural Swing Beds (exempt)	6/25/2024	11/30/2025	12/31/2025	12/31/2026
DP Adult Subacute	8/26/2024	11/30/2025	12/31/2025	12/31/2026
NF-A	10/28/2024	7/28/2025	12/31/2025	12/31/2026
ICF/DDs	7/22/2024	4/21/2025	12/31/2025	12/31/2026
DP Pediatric Subacute	6/14/2024	5/27/2025	12/31/2025	12/31/2026
FS Pediatric Subacute	8/16/2024	5/27/2025	12/31/2025	12/31/2026

2. The costs below reflect the estimated impact, before accounting for payment lags, of incremental rate adjustments for each facility type in the FFS delivery system:

LTC RATE ADJUSTMENT

Unlagged Fee-for-Service	FY 2025-26	FY 2026-27
Rate Adjustment (CY 2024)		
DP/NF-B	\$3,853,000	\$3,853,000

Total FFS	\$24,009,000	\$28,072,000

LTC RATE ADJUSTMENT

3. The costs below reflect the estimated impact, before accounting for payment lags, of incremental rate adjustments in the managed care delivery system. These impacts are fully reflected in managed care base policy changes.

Unlagged Managed Care	FY 2025-26	FY 2026-27
Rate Adjustment (CY 2024)	\$48,537,000	\$48,537,000
Rate Adjustment (CY 2025)	\$108,470,000	\$108,470,000
Rate Adjustment (CY 2026)	\$55,678,000	\$111,357,000
Rate Adjustment (CY 2027)	\$0	\$58,635,000
Total Managed Care	\$212,685,000	\$326,999,000

4. The estimated impact of SB 525 on LTC facility payments is roughly estimated to be \$7.8 million total funds (\$3.8 million General Fund) in FY 2025-26 and \$9.6 million total funds (\$4.6 million General Fund) in FY 2026-27. These amounts are included in the FFS and managed care totals shown above.
5. Payment lag factors of 0.951 for FY 2025-26 and 0.966 for FY 2026-27 are applied to the FFS and managed care costs to account for payment timing. Lagged amounts are displayed below.

Lagged Amounts	FY 2025-26	FY 2026-27
Fee-for-Service	\$21,723,000	\$25,916,000
Managed Care	\$203,405,000	\$317,226,000
Total Lagged Costs	\$225,128,000	\$343,142,000

Purpose:

This policy change estimates the annual rate increase for hospice services and hospice room and board rates.

Authority:

Sections 1902(a)(13) and 1814(i)(1)(C)(ii) of the Social Security Act
42 Code of Federal Regulations (CFR) Part 418 – Centers for Medicare & Medicaid Services (CMS) Final Rule

Interdependent Policy Changes:

Not Applicable

Background:**1. Hospice Services**

Medi-Cal hospice service rates are established in accordance with Section 1902(a)(13), (42 USC 1396 a(a)(13)) of the federal Social Security Act. This act requires annual rate increases for hospice care services based on corresponding Medicare rates effective October 1st of each year.

Effective January 1, 2016, the CMS final hospice rule changed the payment methodology for Routine Home Care (RHC) rates to implement two rates that will result in a higher base payment for the first 60 days of hospice care and a reduced payment rate for days thereafter. Additionally, the CMS final hospice rule established a Service Intensity Add-On (SIA) payment for services provided by a registered nurse or social worker during the last seven days of a member's life for a maximum of four hours a day.

2. Hospice Room and Board

The Department reimburses each hospice facility's room and board rate at 95% of the individual facility's per diem rates for Nursing Facility – Level B (NF-B), which include Distinct Part (DP) or Freestanding; Nursing Facility – Level A (NF-A); Intermediate Care Facility – Developmentally Disabled (ICF/DD), Intermediate Care Facility for the Developmentally

HOSPICE RATE INCREASES

Disabled – Nursing (ICF/DD-N), and Intermediate Care Facility for the Developmentally Disabled – Habilitative (ICF/DD-H).

On March 4, 2020, Governor Newsom declared a state of emergency in response to the developing pandemic of COVID-19. A statewide stay at home order was introduced on March 19, 2020. The federal government declared a national public health emergency (PHE) on January 31, 2020, and a national emergency on March 13, 2020. The public health emergency for the COVID-19 outbreak expired on May 11, 2023.

The Department received federal approval for State Plan Amendment (SPA) 20-0024, which authorizes a temporary additional 10% reimbursement for eligible Long-Term Care (LTC) facilities during the PHE. For Freestanding Skilled Nursing facilities – Level B (FS/NF-B) and Freestanding Adult Subacute (FSSA), the 2022 Budget Act extended the PHE rate increase through December 31, 2023 and established a new Workforce Augmentation effective January 1, 2024 which is intended to succeed the PHE rate increase for these facilities. For Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs), the 2022 Budget Act provided that after the last day of the PHE, rates would be held harmless at the rate in effect on the last day of the PHE until the unfrozen rate calculated pursuant to the State Plan exceeds the hold harmless rate. For all other LTC facilities the COVID-19 increased reimbursement ceased effective May 12, 2023, and reimbursement rates for room and board services reverted to the regular annual per diem rates.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- RY 2023-24 hospice services, including RHC rates, are now reflected in the fee-for-service (FFS) base estimate.
- RY 2024-25 hospice and RHC service rate increases were delayed and the implementation shifted from May 2025 to September 2025.
- RY 2025-26 hospice rates increased and shifted from implementation in December 2025 to February 2026 with the corresponding retroactive erroneous payment correction (EPC) expected to occur in May 2026.
- Updated data projected expenditures for RY 2025-26 hospice and RHC services to increase, compared to the previously budgeted estimate.
- Updated funding splits based on more current data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Increases in hospice, RHC and room and board service rates are expected to increase in FY 2026-27 when compared with FY 2025-26.
- The addition of RY 2026-27 hospice and RHC rate increase are expected to occur in February 2027 with the corresponding retroactive EPC expected to occur in May 2027.
- CY 2027 hospice and room and board rates are expected to increase and implement in January 2027.

Methodology:

1. Hospice Services:

- The weighted increase for hospice service rates, excluding RHC and SIA, is estimated to be 2.59% for RY 2025-26 and RY 2025-26.

HOSPICE RATE INCREASES

- b. The RY 2024-25 hospice rates, including RHC rates, are expected to implement in September 2025. The retroactive payment for the period from October 2024 through August 2025 is expected to be implemented in November 2025.
 - c. The RY 2025-26 hospice rates, including RHC rates, are expected to implement in February 2026. The retroactive payment for the period from October 2025 through January 2026 is expected to be implemented in May 2026.
 - d. The RY 2026-27 hospice rates, including RHC rates, are expected to implement in February 2027. The retroactive payment for the period from October 2026 through January 2027 is expected to be implemented in May 2027.
2. Hospice room and board rates will continue at 95% of the facility's rates, whether frozen or unfrozen. The weighted increase for hospice room and board rates is assumed to be 3.64% for RY 2025-26 and RY 2026-27.
 3. Managed care costs for hospice rate adjustments are included in the base capitation rates, and currently budgeted in the following policy changes: County Organized Health Systems, Two Plan Model, Regional Model, and Geographic Managed Care.
 4. The estimated Fee-for-Service (FFS) payments on a cash basis are:

Cash Basis – Lagged	FY 2025-26	FY 2026-27
Hospice Services (24-25)	\$24,000	\$29,000
RHC & SIA Payments (24-25)	\$4,392,000	\$5,281,000

OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$3,343,000	\$26,154,000
FEDERAL FUNDS	\$4,471,200	\$26,154,000
GENERAL FUND	-\$1,128,200	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of increases in payments to Designated Public Hospitals (DPHs) due to interim rate growth.

Authority:

SPA 05-21

Interdependent Policy Changes:

Not Applicable

Background:

As approved on April 25, 2006 through SPA 05-21, effective July 1, 2005, DPHs receive interim per diem rates based on estimated costs using the hospitals' prior Medi-Cal costs trended forward. The DPHs' interim rate receives a growth percent increase to reflect an increase in the hospitals' costs. The interim per diem rate consists of 100% federal funding.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- A decrease in estimated DPH expenditures,
- Assuming a decrease in the DPH county growth rates from the prior estimate,
- Assuming there is no DPH community interim rate growth whereas the prior estimate included assumed interim rate growth, and
- Assuming an erroneous payment correction (EPC) will occur in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- An increase in estimated DPH expenditures,
- Assuming an increase in the DPH county growth rates from FY 2025-26 to FY 2026-27, and
- Assuming there is DPH community interim rate growth in FY 2026-27 whereas FY 2025-26 assumes no interim rate growth.

DPH INTERIM RATE GROWTH

Methodology:

1. The FY 2025-26 interim rates were implemented July 2025.
2. For FY 2025-26:
 - Assume a 0.77% interim rate increase for county-based DPHs and no interim rate increase for community-based DPHs.
 - An additional cost of \$3,343,000 FF is estimated for the FY 2025-26 interim rates.
3. For FY 2026-27:
 - Assume a 4.11% interim rate increase for county-based DPHs and 0.94% for community-based DPHs.
 - An additional cost of \$26,154,000 TF is estimated for the FY 2026-27 interim rates.
4. The interim payments are 100% federal funds.
5. Assume an EPC will occur in FY 2025-26 for four hospitals that have transitioned from private hospitals to DPHs. This EPC will correct payments paid using the Diagnosis Related Group methodology that should have been paid using the DPH interim rate per diem.
6. Assume the FY 2025-26 and FY 2026-27 increase in payments to DPHs due to interim rate growth is:

FY 2025-26	TF	GF	FF
DPH Interim Rate Payment Increase	\$3,343,000	\$0	\$3,343,000
EPC Adjustment	\$0	(\$1,128,000)	\$1,128,000
Total FY 2025-26	\$3,343,000	(\$1,128,000)	\$4,471,000

FY 2026-27	TF	FFP
DPH Interim Rate Payment Increase	\$26,154,000	\$26,154,000
Total FY 2026-27	\$26,154,000	\$26,154,000

Funding:

OTHER FUNDS	\$657,269,000	\$618,750,000

Purpose:

This policy change budgets the funding adjustment from the Long Term Care Quality Assurance Fund (LTCQAF) to the state General Fund (GF) to partially offset GF costs associated with providing Long Term Care (LTC) Services.

Authority:

AB 1629 (Chapter 875, Statutes of 2004)
 AB 186 (Chapter 46, Statutes of 2022)
 Budget Act of 2026

Interdependent Policy Changes:

Not Applicable

Background:

AB 1762 (Chapter 230, Statutes of 2003) imposed a Quality Assurance (QA) fee for certain LTC provider types. AB 1629 (Chapter 875, Statutes of 2004) and ABX1 19 (Chapter 4, Statutes of 2011) imposed a QA fee, in conjunction with a facility specific reimbursement program, for additional LTC providers. The revenue generated from the fee is used to draw down a federal match to partially offset LTC rate reimbursement. The following LTC providers are subject to a QA fee:

- Freestanding Nursing Facilities Level-B (FS/NF-Bs)
- Freestanding Subacute Nursing Facilities level-B (FSSA/NF-Bs)
- Intermediate Care Facilities for the Developmentally Disabled (ICF-DDs)

AB 1467 established the LTCQAF. Effective August 1, 2013, the QA fees collected by LTC and ICF-DD facilities are deposited into the fund and transferred to the state GF to offset LTC provider reimbursement rate expenditures.

SB 833 established a continuous appropriation for the LTCQAF to allow moneys from the fund to be appropriated without further legislative action.

LONG TERM CARE QUALITY ASSURANCE FUND EXPENDITURES

A withhold process was developed to collect past due AB 1629 QAF assessed on specified Skilled Nursing Facilities. The withheld portion is transferred to the LTCQAF, and subsequently to the GF. The withheld QAF payments are budgeted in the QAF Withhold Transfer policy change.

AB 186 (Chapter 46, Statutes of 2022) extends the QAF and AB1629 methodology through December 31, 2026.

The Department is proposing a one-year extension of the FS/NF-B and FSSA/NF-B rate methodology and QAF program through December 31, 2027.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- Higher actual collections for the March 2025 to June 2025 months.
- An increase in the estimated monthly QAF collections.
- An increased estimate of the withhold transfers available for transfer in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to:

- Fewer months are estimated to be transferred in FY 2026-27.
- Decreased withhold transfers estimated to be available to transfer in FY 2026-27.

Methodology:

1. Based on collections data through July 2025 and transfer data through August 2025; assume \$657.3 million will be transferred to the GF in FY 2025-26 and \$618.8 million in FY 2026-27.
2. Three months (January 2027 to March 2027) of Calendar Year 2027 collections, estimated at \$149.48 million, are estimated to be transferred to the GF in FY 2026-27.
3. The estimated withhold transfers for the AB 1629 QAF and QAF assessed on ICF-DDs expected to occur are \$21.2 million in FY 2025-26 and \$20.8 million in FY 2026-27.
4. The estimated fund adjustment from the LTCQAF to the GF is:

(Dollars in Thousands)

FY 2025-26	TF	GF	LTCQAF

OTHER FUNDS	\$1,654,833,000	\$2,976,000,000

Purpose:

This policy change estimates the funding to be spent from the Health Care Oversight & Accountability Subfund (Fund 3443) for provider payment increases and increased base payment rates.

Authority:

Protect Access to Health Care Act of 2024 (Proposition 35)

Interdependent Policy Changes:

Prop 35 – Provider Payment Increases
 CalAIM ECM-Community Supports – Transitional Rent
 Qualified Community-Based Mobile Crisis Services
 Specialty Mental Health Services (SMHS) for Adults
 SMHS for Children
 Drug Medi-Cal State Plan Services
 Drug Medi-Cal Organized Delivery System Waiver

Background:

In November 2024, voters approved the Protect Access to Health Care Act of 2024 (Proposition 35), which makes the managed care organization (MCO) tax permanent, subject to continued federal approval for future tax periods, and specifies how revenues from the current period tax as it existed on July 1, 2023, are to be allocated, beginning with taxes collected in calendar year 2025.

Proposition 35 allocates revenues to cover the non-federal share of costs for increased capitation costs to Medi-Cal managed care plans that pay the tax, increases payments to Medi-Cal providers, and supports existing Medi-Cal costs. Proposition 35 creates additional funds into which specified MCO tax revenues are deposited, appropriated, and spent.

The Health Care Oversight & Accountability (HCO&A) Subfund receives revenues from the MCO Tax to be used to support provider payments. The cost of provider payment increases and increased base payment rates is budgeted in the Prop 35 – Provider Payment Increases policy change, Two Plan Model, County Organized Health Systems & Single Plan, Geographic Managed Care, Regional Model, and various fee-for-service (FFS) base policy changes using General Fund as the non-federal share. This policy change replaces General Fund budgeted for provider payment increases and

PROP 35 - PROVIDER PAYMENT INCREASE FUNDING

increased base payment rates with HCO&A Subfund, so that the non-federal share of costs for the increases is ultimately covered by the HCO&A Subfund. The HCO&A Subfund is also used to support the non-federal share of increased capitation payments to managed care plans (in the 2023 MCO Enrollment Tax Mgd. Care Plans-Funding Adj. policy change) and to pay for existing Medi-Cal costs (in the 2023 MCO Enrollment Tax Managed Care Plans policy change).

The Department proposes to use the HCO&A fund to support a portion of the non-federal share of costs for transitional rent, Medi-Cal community-based mobile crisis services, and behavioral health (BH) rate growth in FY 2025-26 and FY 2026-27 to expand the health care services and payment rates above and beyond those already in effect or in existence as of January 1, 2024.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated amounts for the Targeted Rate Increases, an updated estimate of the managed care base rate increases, and an updated estimate for the provider payments.

The change from FY 2025-26 to FY 2026-27, in the current estimate is due to increased provider payments in FY 2026-27 and the ending of the Prop 35 funding in December 2026.

Methodology:

1. Pursuant to Proposition 35, the HCO&A Subfund is assumed to support the non-federal share of increasing provider rates for Primary Care, non-specialty mental health services, and Obstetric Care services, including mid-level practitioners and doula services, to at least 87.5% of Medicare rates effective for dates of service beginning on January 1, 2024. These costs are budgeted in the fee-for-service and managed care bases. This policy change replaces General Fund spending on these rate increases with spending from the Health Care Oversight & Accountability Subfund for services after January 1, 2025.
2. The HCO&A Subfund is assumed to support the non-federal share of additional increases to provider rates to take effect January 1, 2025, subject to consultation with the Protect Access to Health Care Act Stakeholder Advisory Committee, as specified in Proposition 35. These costs are budgeted in the Prop 35 – Provider Payment Increases policy change using General Fund as the non-federal share. This policy change replaces General Fund spending on these rate increases with spending from the HCO&A Subfund, as well as increases to managed care plan base capitation payments for primary care, specialty care, hospital outpatient, and ground emergency medical transportation services. Higher managed care capitation rates reflect increased costs of purchasing health care services due to projected increases in per-service payment rates, per-member utilization and acuity, expansion of covered services and health care benefits, services, and workforce above and beyond those in effect or in existence in the prior rating period.

PROP 35 - PROVIDER PAYMENT INCREASE FUNDING

3. The HCO&A Subfund is assumed to provide a portion of support for the non-federal share for a portion of transitional rent, Medi-Cal community-based mobile crisis services, and BH rate growth costs in FY 2025-26 and FY 2026-27 as follows:

Proposition 35	FY 2025-26	FY 2026-27
Transitional Rent	\$22,600,000	\$53,200,000
Community-Based Mobile Crisis Services	\$25,400,000	\$25,300,000
BH Rate Growth	\$17,000,000	\$17,000,000
Total	\$65,000,000	\$95,500,000

These costs are budgeted in various policy changes using General Fund as the non-federal share. The policy changes include the CalAIM ECM-Community Supports – Transitional Rent, Qualified Community-Based Mobile Crisis Services, SMHS for Adults, SMHS for Children, Drug Medi-Cal State Plan Services, and Drug Medi-Cal Organized Delivery System Waiver policy changes.

4. Total spending on the items listed above are:

(Dollars in Thousands)

Proposition 35	FY 2025-26	FY 2026-27
Targeted Rate Increases (In Base)	\$336,333	\$280,500
Managed Care Base Rate Increases (In Base)	\$1,214,000	\$339,000
Prop 35 - Provider Payment Increases and other expenditures	\$104,500	\$2,356,500
Total	\$1,654,833	\$2,976,000

5. The amount of General Fund that is replaced by HCO&A is summarized below:

(Dollars in Thousands)

Fiscal Year	TF	GF	SF (3443 Fund)
FY 2025-26	\$39,500	(\$1,615,333)	\$1,654,833
FY 2026-27	(\$200,000)	(\$3,176,000)	\$2,976,000

Funding:

GENERAL FUND	\$0	-\$3,359,300
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates savings and loss of savings from adjustments made to certain clinical laboratories or laboratory services rates.

Authority:

AB 1467 (Chapter 23, Statutes of 2012)
 AB 1494 (Chapter 28, Statutes of 2012)
 AB 1124 (Chapter 8, Statutes of 2014)
 AB 659 (Chapter 346, Statutes of 2017)
 AB 133 (Chapter 143, Statutes of 2021)
 Welfare and Institutions (W&I) Code 14105.22
 State Plan Amendment (SPA) 15-015
 SPA 21-0052
 SPA 22-0053
 SPA 23-0019

Interdependent Policy Changes:

Not Applicable

Background:

AB 1494 required the Department to develop a new rate methodology for clinical laboratories or laboratory services, as part of the overall reimbursement methodology. In addition to 10% payment reductions pursuant to AB 97 (Chapter 3, Statutes of 2011), AB 1494 allowed for payments to be reduced by 10% for clinical laboratories or laboratory services for dates of service on and after July 1, 2012, through June 30, 2015. The Family Planning, Access, Care, and Treatment Program (FPACT) and outpatient hospital services were exempt from the 10% provider payment reductions per AB 1494.

Effective July 1, 2015, the new reimbursement methodology is applicable to certain clinical laboratory or laboratory service codes, which may include FPACT and outpatient hospital services. AB 659 changed the frequency of data collection and rate development from once a year to once every three years, with the new rates being effective July 1, 2020.

LABORATORY RATE METHODOLOGY CHANGE

Annual Rate Adjustment to 100% of Medicare

Effective July 1, 2022, clinical laboratory rates will be established in accordance with W&I Code Section 14105.22, which provides that reimbursement for clinical laboratory or laboratory services may not exceed 100% of the lowest maximum allowance established by the federal Medicare program for the same or similar services. SPA 22-0053 was approved on December 16, 2022, which adjusts the clinical laboratory rates exceeding 100% of the corresponding Medicare rates, for dates of service on or after July 1, 2022.

Triennial Rate Adjustment

Every three years, rates for certain services will be adjusted using a weighted reimbursement methodology that is based on an average of the lowest prices other third-party payers are paying for similar services.

On January 12, 2021, the Department received federal approval for SPA 20-0010 to adjust clinical laboratory or laboratory services reimbursement rates based on the triennial reimbursement methodology, effective July 1, 2020. On November 8, 2023, the Department received federal approval for SPA 23-0019 to adjust clinical laboratory or laboratory services reimbursement rates based on the Triennial reimbursement methodology, effective July 1, 2023. The Department will submit a SPA to adjust clinical laboratory or laboratory services reimbursement rates based on the Triennial reimbursement methodology, effective July 1, 2026.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate. The 2023 triennial rate adjustment remains fully incorporated into the fee-for-service base, but this policy change no longer displays these amounts in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Including the 2026 triennial rate adjustment savings, effective July 1, 2026.

Methodology:

1. Assume savings will begin upon California Medicaid Management Information System (CA-MMIS) system implementation.
2. The AB 97 10% payment reduction will be assessed after the AB 1494 10% payment reduction and new laboratory rate methodology reduction.
3. **Annual rate adjustment:** The annual Medi-Cal rate adjustments will apply to clinical laboratory or laboratory services reimbursement rates exceeding 100% of corresponding Medicare rates.
 - a. The 2025 annual rate adjustment is effective July 1, 2025. No fiscal impact is assumed due to updated Medicare rates.
 - b. The 2026 annual rate adjustment is effective July 1, 2026. No fiscal impact is assumed.
4. **Triennial rate adjustment:** The CMS approved the new laboratory rate methodology in July 2015.
 - a. The savings resulting from the July 2026 rate adjustment are estimated to be \$9.1 million TF.
5. The expected adjustments are as follows:

LABORATORY RATE METHODOLOGY CHANGE

FY 2026-27	TF	GF	FF
Prospective Savings	(\$8,131,000)	(\$3,359,000)	(\$4,772,000)
Total	(\$8,131,000)	(\$3,359,000)	(\$4,772,000)

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

90% Title XIX / 10% GF (4260-101-0001/0890)

65% Title XXI / 35% GF (4260-101-0001/0890)

ELIMINATE PPS FOR STATE-ONLY SERVICES

FISCAL REFERENCE NUMBER:2536

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	-\$1,010,655,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$1,010,655,000
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	-\$1,010,655,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$1,010,655,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of eliminating payment at the Prospective Payment System (PPS) per-visit rate for state-only services delivered to Medi-Cal members with Unsatisfactory Immigration Status (UIS) by Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC). Emergency and pregnancy related services will remain eligible for PPS reimbursement.

Authority:

Budget Act of 2025

Interdependent Policy Changes:

Not Applicable

Background:

The Department proposes to eliminate payment at the PPS rate for state-only services delivered to Medi-Cal UIS members by FQHCs and RHCs. These services are not eligible for matching federal funds and are not subject to federal requirements to reimburse FQHC and RHC services at the PPS rate. Emergency and pregnancy related services delivered to UIS Medi-Cal members are federally covered services under Section 1903(v) of the Social Security Act and remain eligible for PPS reimbursement.

Following the elimination, these services will be reimbursed at the applicable Medi-Cal Fee Schedule rate in the fee-for-service delivery system and at the applicable negotiated rate between a Medi-Cal managed care plan and FQHC/RHC in the managed care delivery system.

Reason for Change:

This is a new policy change.

ELIMINATE PPS FOR STATE-ONLY SERVICES

Methodology:

1. Assume implementation will be no sooner than July 1, 2026.
2. Annual PPS payments for state-only services delivered to UIS members, in excess of the Medi-Cal Fee Schedule rate in the fee-for-service delivery system and the negotiated rate between a Medi-Cal managed care plan and FQHC/RHC in the managed care delivery system, as applicable, are estimated to be approximately \$1,130,487,000.
3. The impact of eliminating PPS payments for state-only services delivered to UIS members, assuming a lag in payment timing, is shown below:

(Dollars in Thousands)

Fiscal Year	TF	GF

GENERAL FUND	-\$2,848,700	-\$27,463,950
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates savings resulting from adjustments made to certain radiology reimbursement rates.

Authority:

SB 853 (Chapter 717, Statutes of 2010)
State Plan Amendment (SPA) 22-0006

Interdependent Policy Changes:

Not Applicable

Background:

SB 853 mandates that Medi-Cal rates for radiology services do not exceed 80% of Medicare rates for dates of service on or after October 1, 2010. In light of the AB 97 (Chapter 3, Statutes of 2011) 10% payment reduction, and that a lengthy retroactive recoupment would likely create access to care issues for radiology services, the effective date for retroactive savings shifted from October 1, 2010, to October 1, 2012.

The Centers for Medicare and Medicaid Services (CMS) requires SPA approval for all rate reductions. SPA 22-0006 was approved on April 29, 2022, for rate adjustments effective January 1, 2022, and the Department submitted SPA 23-0004 on March 20, 2023, to adjust rates effective January 1, 2023.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease in savings due to:

- Delayed implementation of the January 2023, January 2024, and January 2025 rate adjustments from July 2025 to begin in April 2026.
- Delayed retroactive recoupment savings for January 2023, January 2024, and January 2025 rate adjustments from October 2025 to begin in July 2026.
- Earlier estimated implementation for the January 2026 rate adjustments from July 2026 to April 2026.
- Updated CY 2025 and CY 2026 estimates based on new data.

REDUCTION TO RADIOLOGY RATES

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in savings due to:

- A full year's implementation of the January 2023, January 2024, January 2025, and January 2026 rate adjustments are estimated in FY 2026-27 compared to 3 months estimated in FY 2025-26.
- Including the January 2027 rate adjustments beginning in April 2027.
- Retroactive recoupments for the January 2023, 2024, 2025, and 2026 rate adjustments are assumed to be implemented in July 2026.

Methodology:

1. The Medi-Cal rate reductions will apply to radiology services reimbursement rates exceeding 80% of Medicare rates.

2. Any managed care impact would be captured through the current rate setting process and included in the applicable base policy changes in future years.

3. The annual FFS savings for the rate adjustments effective January 1, 2023, is expected to be \$1,612,000 TF. These adjustments are expected to be implemented on April 1, 2026.

The total recoupment of retroactive savings from January 1, 2023, through March 31, 2026, is expected to be implemented July 1, 2026, with recoupments occurring over 12 months.

4. The annual FFS savings for the rate adjustments effective January 1, 2024, is expected to be \$3,004,000 TF. These adjustments are expected to be implemented on April 1, 2026.

The total recoupment of retroactive savings from January 1, 2024, through March 31, 2026, is expected to be implemented on July 1, 2026, with recoupments occurring over 12 months.

5. The annual FFS savings for the rate adjustments effective January 1, 2025, is expected to be \$13,800,000 TF. These adjustments are expected to be implemented on April 1, 2026.

The total recoupment of retroactive savings from January 1, 2025, through March 31, 2026, is expected to be implemented July 1, 2026, with recoupments occurring over 12 months.

6. The annual FFS savings for the rate adjustments effective January 1, 2026, is expected to be \$13,800,000 TF. These adjustments are expected to be implemented on April 1, 2026.

The total recoupment of retroactive savings from January 1, 2026, through March 31, 2026, is expected to be implemented July 1, 2026, with recoupments occurring over 12 months.

7. The annual FFS savings for the rate adjustments effective January 1, 2027, is expected to be \$13,800,000 TF. These adjustments are expected to be implemented on April 1, 2027.

The total recoupment of retroactive savings from January 1, 2027, through March 31, 2027, is expected to be implemented July 1, 2027, with recoupments occurring over 12 months.

8. The estimated savings for the reduction to radiology reimbursement rates are:

OTHER FUNDS	\$2,225,293,750	\$8,039,864,550

Purpose:

This policy change estimates the managed care Private Hospital Directed Payments (PHDP) to private hospitals through enhanced capitation payments to managed care plans (MCPs).

For more information about the Hospital QAF, see the Hospital QAF - FFS Payments, Hospital QAF - Managed Care Payments, and Hospital QAF – Children’s Health Care policy changes.

Authority:

Proposition 52 (2016)
 Title 42, Code of Federal Regulations (CFR) 438.6(c)
 Families First Coronavirus Response Act (FFCRA)

Interdependent Policy Changes:

Not Applicable

Background:

Title 42, Code of Federal Regulations, section 438.6 (c) provides states authority to implement delivery system and provider payment initiatives under MCP contracts based on allowable directed payment mechanisms.

Effective July 1, 2017, for the FY 2017-18 rating period, the Department directed MCPs to reimburse private hospitals as defined in WIC 14169.51 for PHDP based on actual utilization of contracted services. Base payments will be enhanced by a uniform dollar increment (uniform unit cost add on) and promote hospitals providing adequate access to service, including primary, specialty, and inpatient (both tertiary and quaternary) care.

The total funding available for the enhanced contracted payments will be limited to a predetermined amount (pool). Upon determination of actual utilization, the Department will direct the MCPs to make enhanced payments to private hospitals for contracted services. The Department will adjust MCP’s per-member-per-month rates to appropriately fund MCPs for the enhanced payment obligation.

MANAGED CARE PRIVATE HOSPITAL DIRECTED PAYMENTS

Prior to implementation of a directed payment program, the Centers for Medicare & Medicaid Services (CMS) requires states to seek pre-approval of any requested directed payment program through the standard CMS “pre-print” form.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year (CY) 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

CMS issued a final rule (CMS-2439-F) in May 2024 that significantly alters the financing of State Directed Payments (SDPs) in Medi-Cal managed care. Effective for rating periods beginning on or after July 9, 2027, the rule prohibits the use of separate payment terms for SDPs, requiring all such payments to be incorporated into actuarially sound capitation rates. This change aims to reinforce the risk-based nature of managed care and improve fiscal transparency. States, including California, must transition away from current SDP funding mechanisms—such as separate payment pools—and ensure compliance through revised rate-setting practices and monthly base capitation payments.

H.R. 1, enacted on July 4, 2025, contains provisions affecting the permissible size and structure of health care-related taxes. The Department has considered potential impacts of H.R. 1 on the Hospital QAF and is awaiting further federal regulatory action and/or guidance.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a slight increase due to:

- Updated CY 2023 calculations.

The change in FY 2026-27, from the prior estimate, is an increase due to:

- Increasing pooled amounts in subsequent rating periods,
- Including an additional six months of CY 2025 capitation payments due to accelerated payment timing, and
- Including an additional five months of CY 2027 capitation payments due to accelerated payment timing.

Methodology:

1. The total value of the funding for the private hospital directed payment pool on an accrual basis is \$5.39 billion total fund for the CY 2023 rating period, \$7.19 billion total fund for the CY 2024 rating period, and an estimated \$13.2 billion total fund for the CY 2025 rating period and beyond.
2. The non-federal share will be supported by the Hospital Quality Assurance Revenue Fund (HQARF).
3. Enhanced payments will be issued to MCPs based on actual utilization of qualifying, contracted private hospital services.
4. Within each managed care rating period, separate payments are calculated and issued for each 6-month service period through CY 2026.
5. The final six months of the CY 2022 rating period (July 1, 2022, through December 31, 2022) payments are expected to occur in September 2024. The first six months of the CY 2023

MANAGED CARE PRIVATE HOSPITAL DIRECTED PAYMENTS

rating period (January 1, 2023, through June 30, 2023) payments are expected to occur in March 2025.

6. The final six months of the CY 2023 rating period (July 1, 2023, though December 31, 2023) payments are expected to occur in September 2025. The first six months of the CY 2024 rating period (January 1, 2024, through June 30, 2024) payments are expected to occur in March 2026.
7. The final six months of the CY 2024 rating period (July 1, 2024, through December 31, 2024) and the first six months of the CY 2025 rating period (January 1, 2025, through June 30, 2025) payments are expected to occur in September 2026.
8. The final six months of the CY 2025 rating period (July 1, 2025, through December 2025) payments are expected to occur in March 2027.
9. Starting in February 2027, five monthly payments for the January through May 2027 service periods are expected to be made in SFY 2026-27.
10. The first six months of the CY 2026 rating period (January 1, 2026, through June 30, 2026) and the final six months of the CY 2026 rating period (July 1, 2026, through December 31, 2026) payments are expected to occur in SFY 2027-28.
11. On a cash basis, the estimated payments are:

Purpose:

This policy change estimates the fee-for-service (FFS) payments that hospitals will receive from the hospital quality assurance fee (HQAF) program.

For more information about the HQAF, see the Hospital QAF - Managed Care Payments, Managed Care Private Hospital Directed Payments, and Hospital QAF – Children’s Health Care policy changes.

Authority:

Proposition 52 (2016)

Interdependent Policy Changes:

Not Applicable

Background:

Proposition 52, approved by California voters on November 8, 2016, permanently extended the HQAF program.

The Department received federal approval for the HQAF VI program period (July 1, 2019, through December 31, 2021) in February 2020. This HQAF program period is referred to as HQAF VI.

The Department received federal approval for the HQAF VII program period (January 1, 2022, through December 31, 2022) in September 2022. This HQAF program period is referred to as HQAF VII.

The Department received federal approval for the HQAF VIII program period (January 1, 2023, through December 31, 2024) in December 2023. This HQAF program period is referred to as HQAF VIII.

The Department is awaiting federal approval of the subsequent HQAF program period (HQAF IX) which includes payments for dates of service January 1, 2025, through December 31, 2025,

HOSPITAL QAF - FFS PAYMENTS

submitted to the Centers for Medicare and Medicaid Services (CMS) in March 2025 via State Plan Amendments (SPAs) 25-0012 and 25-0013.

The Department will begin developing the subsequent program period (HQAF X) in FY 2025-26 Q1 which will include payments for the period beginning January 1, 2026 through December 31, 2026.

H.R. 1, enacted on July 4, 2025, contains provisions affecting the permissible size and structure of health care-related taxes. H.R. 1 also authorizes the federal Health and Human Services Secretary to approve a transition period of up to three years for impacted taxes. The Department has considered potential impacts of H.R. 1 on the HQAF and is awaiting further federal regulatory action and/or guidance.

As a result of the COVID-19 national public health emergency (PHE), increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year (CY) 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- HQAF VI FY 2020-21 additional Outpatient (OP) payments for Cycles 5-8 are budgeted in FY 2025-26.
- HQAF VI FY 2021-22 additional OP payments for Cycles 9-10 are budgeted in FY 2025-26.
- HQAF VIII Cycle 7 Affordable Care Act (ACA) adjustments have been updated with actual data.
- HQAF VIII Cycle 8 ACA adjustments is updated based on updated data.
- HQAF VIII CY 2023 DSH overpayment recoupment total fund is budgeted in FY 2025-26.
- HQAF IX Cycles 1-4 FFS payments are estimated using the submitted HQAF IX fee and payment model, which is currently pending CMS approval.
- HQAF IX Cycles 1-2 ACA adjustments are revised based on updated data.
- HQAF VI FY 2020-21 additional OP ACA FFCRA Adjustments for Cycles 5-6 are budgeted in FY 2025-26.
- HQAF VI FY 2021-22 additional OP ACA FFCRA Adjustments for Cycles 9-10 are budgeted in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an estimated decrease due to:

- FY 2025-26 includes the HQAF VI FY 2020-21 additional OP payments for Cycles 5-8.
- FY 2025-26 includes the HQAF VI FY 2020-21 additional OP payments for Cycles 9-10.
- FY 2025-26 includes the HQAF VIII CY 2023 DSH overpayment recoupment.
- FY 2025-26 includes the HQAF VI FY 2020-21 additional OP ACA FFCRA adjustments for Cycles 5-6, and FY 2021-22 additional OP ACA Adjustments for Cycles 9-10.
- FY 2026-27 includes the HQAF VI FY 2020-21 additional OP ACA FFCRA adjustments for Cycles 7-8.

Methodology:

HQAF VI - HQAF X

1. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA claiming methodology for the FFS supplemental payments was approved by CMS in FY

HOSPITAL QAF - FFS PAYMENTS

2017-18. The Hospital Quality Assurance Revenue Fund (HQARF) will be reimbursed for the Special Fund (SF) portion (non-federal share) and an adjustment will be made for the federal share processed at the applicable FMAP.

2. The HQAF VI outpatient (OP) UPLs were recalculated allowing for additional payments to be made for FY 2020-21 and FY 2021-22 which is anticipated to take place in FY 2025-26.
3. HQAF VIII payments are based on the HQAF VIII model that was approved by CMS.
4. Reductions to DSH replacement payments were initially anticipated to take effect during the Federal Fiscal Year (FFY) 2024 (October 1, 2023, through September 30, 2024) based on Federal statute. The Department included the DSH Replacement reductions in the federal upper payment limit demonstration, which effectively increased HQAF VIII total payments for CY 2023. CMS conditionally approved the CY 2023 UPL calculations on the condition that if the DSH reductions were further delayed, the Department would repay any federal financial participation (FFP) that was overpaid for CY 2023. On March 15, 2025, HR 1968 was enacted, which eliminated FFY 2025 reduction and shifted the effective reduction period to FFY 2026 through 2028, so providers were overpaid HQAF payments for CY 2023. As a result, HQAF overpaid providers by approximately \$199 million in total funds. Program repaid CMS for the federal financial participation (FFP) attributable to the overpayment in May 2025 from fund 3158. The program is expected to collect the \$199 million overpayment from providers, and the reclaimed funds will be deposited into Fund 3158 which will be anticipated to occur in FY 2026-27 Q1. The non-federal share of these funds will be used as a future offset for the program.
5. HQAF IX estimated payments are based on the current version of the HQAF IX Fee and Payment model which is awaiting CMS approval. Payment timing and amounts will change.
6. HQAF X estimated payments are based on the submitted version of the HQAF IX Fee and Payment model which is pending CMS approval. Payment timing and amounts will change.
7. For the duration of the PHE period, the FFS supplemental payments will claim for the COVID-19 increased FMAP. The additional COVID-19 increased FFP claimed during the PHE will be transferred to the HQARF to be expended at a later time.
8. On a cash basis, the estimated HQAF VI - HQAF X payments are:

HOSPITAL QAF - FFS PAYMENTS

Purpose:

This policy change estimates the Managed Care payments hospitals will receive from the extension of the hospital quality assurance fee (HQAF) program.

For more information about the HQAF, see the Hospital QAF – FFS Payments, Managed Care Private Hospital Directed Payments, and Hospital QAF – Children’s Health Care policy changes.

Authority:

Proposition 52 (2016)
Title 42, Code of Federal Regulations (CFR) 438.6(d)(3)

Interdependent Policy Changes:

Not Applicable

Background:

Proposition 52, approved by California voters on November 8, 2016, permanently extended the HQAF program. The program period from January 1, 2017, to June 30, 2019, is referred to as HQAF V.

The Department received federal approval for the HQAF VI program period (July 1, 2019, through December 31, 2021) in February 2020. This HQAF program period is referred to as HQAF VI.

The Department received federal approval for the HQAF VII program period (January 1, 2022, through December 31, 2022) in September 2022. This HQAF program period is referred to as HQAF VII.

The Department received federal approval for the HQAF VIII program period (January 1, 2023, through December 31, 2024) in December 2023. This HQAF program is referred to as HQAF VIII.

HOSPITAL QAF - MANAGED CARE PAYMENTS

The Department submitted the HQAF IX fee model for federal approval for the HQAF IX program period (January 1, 2025, through December 31, 2025) in March 2025. This HQAF program period is referred to as HQAF IX.

On July 4, 2025 Section 1903(w) of the Social Security Act (42 U.S.C. 1396b(w)) was amended to redefine the requirements regarding the waiver of uniform tax requirement for Medicaid provider taxes such as HQAF.

Reason for Change:

There is no change in FY 2025-26, in total fund compared to the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate is a decrease due to:

- A lower pass-through amount for CY 2026.

Methodology:

1. CY 2025 HQAF payments are anticipated to occur in FY 2025-26 while the CY 2026 HQAF payments are anticipated to occur in FY 2026-27.
2. Effective January 1, 2025, expenses related to the DMPH program are captured in the Managed Care District Hospital Directed Payments policy change.
3. The CY 2025 total amounts are within the HQAF IX model, which was submitted on March 28, 2025 to CMS for approval.
4. The HQAF managed care pass through program will sunset on 12/31/2026.
5. On a cash basis, the estimated QAF payments are:

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$496,559,000	\$601,307,000

Purpose:

This policy change estimates direct and indirect graduate medical education (GME) payments to the Designated Public Hospitals (DPHs) participating in the Medi-Cal managed care program in recognition of the Medi-Cal managed care share of graduate medical education costs.

Authority:

Title 42, Code of Federal Regulations (CFR), Section 438.60
 SB 97 (Chapter 52, Statutes of 2017)
 State Amendment Plan (SPA) 17-0009

Interdependent Policy Changes:

IGT Admin. & Processing Fee

Background:

The Medicare enactment of direct and indirect GME identified the importance of paying the extra costs of teaching hospitals to ensure seniors' ability to access the care they require. According to the Balanced Budget Act of 1997, Medicare capped the levels of funding for both direct and indirect GME costs when the number of allopathic and osteopathic medical residents exceeded the expected limit. In accordance with Title 42, CFR, Section 438.60, the Department is authorized to make new GME payments to DPH systems.

GME is the supervised, hands-on training after medical school that all physicians complete to become independent and licensed practitioners. The length of this training varies depending on specialty but generally lasts three to five years. Residents and supervising physicians at teaching hospitals are available around the clock and are prepared to care for the nation's most critically ill or injured patients, with hospitals often absorbing the cost of training.

On March 19, 2020, Centers for Medicare and Medicaid Services (CMS) approved SPA 17-0009 with a January 1, 2017, effective date, allowing the Department to make new Medi-Cal GME payments to DPH systems. Building from the Medicare program, the GME payments would recognize the Medi-Cal managed care share of the cost for a combination of the following:

GRADUATE MEDICAL EDUCATION PAYMENTS TO DPHS

- Direct GME payments for Medicaid's share of the cost of training new health care providers
- Indirect GME payments for the additional training time and resources

Intergovernmental transfers (IGTs) will fund the nonfederal share of the cost. The Department will assess a 5% administrative fee on IGTs related to the GME payments to reimburse the Department for support costs associated with administering the program. The 5% administrative fee will be assessed in addition to the IGT funding the nonfederal share of the cost. The IGT savings will be budgeted in the IGT Admin & Processing Fee policy change.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- Increases in FY 2023-24 Q1-Q2 Affordable Care Act (ACA) adjustments based on actuals,
- Decreases in FY 2023-24 Q3-Q4 ACA adjustments based on more recent data,
- Increases in FY 2024-25 Final Settlement amounts based on more recent data, and
- Shifting FY 2024-25 Q1-Q2 ACA adjustments from FY 2025-26 to FY 2026-27.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Shifting FY 2024-25 Q1-Q2 ACA Adjustment from FY 2025-26 to FY 2026-27,
- Increases in estimated FY 2026-27 Interim payments due to expected increases in direct and indirect graduate medical costs,
- Estimated increases for FY 2025-26 final settlement expenditures compared to FY 2024-25 final settlements, and
- Estimated increases in ACA adjustments budgeted in FY 2026-27.

Methodology:

1. The direct GME payments include costs incurred by DPHs due to salaries, benefits, physician oversight, and allocated overhead costs incurred for interns and residents in medicine, osteopathy, dentistry, podiatry, nursing, and allied health/paramedical programs, at an inflation-adjusted blended average cost per full-time equivalent.
2. The indirect medical education (IME) payments include costs incurred by DPHs due to teaching activities. Such indirect costs will be calculated by determining the hospital's adjusted Medi-Cal IME payment per inpatient day and multiplying by the total Medi-Cal managed care days.
3. The GME and IME annual distribution amounts are calculated based on the methodologies outlined in SPA 17-0009.
 - FY 2025-26 payments were calculated based on FY 2023-24 cost report data and are estimated at \$724 million Total Funds (TF).
 - FY 2026-27 payments were calculated based on the percentage change from FY 2024-25 and FY 2025-26 and are estimated at \$876 million TF.

GRADUATE MEDICAL EDUCATION PAYMENTS TO DPHS

4. Payments will be made on a lump-sum quarterly basis throughout the fiscal year and will not be paid as individual increases to current reimbursement rates for specific services.
5. The IGTs referenced in this policy change are not the basis for the 5% administrative fee for GME supplemental payments. The administrative fees are reflected in the IGT Admin & Processing Fee policy change and will be 5% of the aggregate nonfederal share that is calculated at 50% FMAP of the TF.
6. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA reimbursement methodology was approved by CMS in the fourth quarter of FY 2022-23. ACA adjustments are anticipated to be processed after the respective fiscal year has closed in order to determine the proportion of the hospital's GME payment attributable to ACA. Beginning with FY 2022-23, ACA adjustments for Q1 and Q2 are processed following final settlements for the respective fiscal year. ACA adjustments for Q3 and Q4 will be processed once complete encounter data is available. The nonfederal share of the adjustment amount will be reimbursed to the DPHs, and an adjustment will be made for the federal share processed at the applicable FMAP.
7. Assume FY 2024-25 final settlements will be paid in FY 2025-26.
8. Assume all four quarters of FY 2025-26 interim payments will be paid in FY 2025-26.
9. Assume ACA adjustments for FY 2023-24 will occur in FY 2025-26.
10. Assume FY 2025-26 final settlements will occur in FY 2026-27.
11. Assume all four quarters of FY 2026-27 interim payments will be paid in FY 2026-27.
12. Assume ACA adjustments for FY 2024-25 will be paid in FY 2026-27.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the funds for the private Disproportionate Share Hospital (DSH) replacement payments.

Authority:

SB 1100 (Chapter 560, Statutes of 2005), Welfare & Institutions Code 14166.11
 SB 90 (Chapter 19, Statutes of 2011)
 SB 335 (Chapter 286, Statutes of 2011)
 State Plan Amendment (SPA) 05-022
 SPA 16-010
 American Rescue Plan (ARP) Act (2021)
 HR 1968 (2025)

Interdependent Policy Changes:

Not Applicable

Background:

Beginning July 1, 2005, based on SB 1100, private hospitals receive Medi-Cal DSH replacement payments under the DSH Replacement Program. These payments are determined using the same formulas and methodology that were previously in effect under the prior DSH methodology for the 2004-05 fiscal year. These payments are distributed to private hospitals along with \$160, with the federal share of the \$160 funded via the annual DSH allotment, and the non-federal share funded via the General Fund (GF). Combined, these payments satisfy the State's payment obligations to private hospitals under the Federal DSH statute.

The Centers for Medicare and Medicaid Services (CMS) approved SPA 16-010 in November 2017, which transferred the authority for DSH replacement payments from the Section 1115(a) Medicaid Demonstration to the California State Plan effective January 1, 2016.

The federal share of the DSH replacement payments is regular Title XIX funding and is not claimed from the federal DSH allotment. The non-federal share of these payments is GF.

PRIVATE HOSPITAL DSH REPLACEMENT

The Affordable Care Act (ACA) requires a reduction to the DSH allotments and was previously scheduled to go into effect on October 1, 2013. Subsequent federal action has delayed the reduction. Most recently, on March 15, 2025, HR 1968 was enacted, which eliminated the implementation of the Federal Fiscal Year (FFY) 2025 reduction and shifted the effective reduction period to FFY 2026 through 2028.

The private DSH replacement payments are affected by the ACA DSH reduction because, as required by SB 1100, the methodology to determine the DSH replacement payments is dependent on the DSH allotment and its associated payment methodologies.

As a result of the COVID-19 national public health emergency, the American Rescue Plan Act, enacted on March 11, 2021, authorized increased federal medical assistance percentage (FMAP) available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable. Future reconciliation payments for the impacted fiscal years will apply the applicable FMAP.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated FY 2024-25 June Phase I and II payment and recoupment amounts, which resulted in an increase from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a larger FFY 2026-27 DSH allotment estimate being derived by trending the estimated FFY 2026 allotment forward by 2%, resulting in a larger amount of funds.

Methodology:

1. CMS released the final FFY 2023 and preliminary FFY 2025 DSH Allotment on September 27, 2024.
2. The FFY 2026 DSH allotment assumes a 2% annual increase from the preliminary FFY 2025 DSH allotment.
3. The FFY 2027 DSH allotment assumes a 2% annual increase from the Department-estimated FFY 2026 DSH allotment.
4. The remaining 1/12 of the FY 2024-25 DSH Replacement payment will be completed in FY 2025-26.
5. Assume 11/12 of the FY 2025-26 DSH Replacement payment will occur in FY 2025-26 and the remaining 1/12 will occur in FY 2026-27.
6. Assume 11/12 of the FY 2026-27 DSH Replacement payment will occur in FY 2026-27.
7. DSH replacement payments will be made as follows on a cash basis:

This policy change estimates the Disproportionate Share Hospital (DSH) payments to public hospitals eligible for the DSH program.

Authority:

SB 1100 (Chapter 560, Statutes of 2005), Welfare & Institutions (W&I) Code 14166.6 and 14166.16
 State Plan Amendment (SPA) 05-022
 American Rescue Plan (ARP) Act (2021)
 HR 1968 (2025)

Interdependent Policy Changes:

Not Applicable

Background:

The federal DSH allotment is available to provide federal funding for uncompensated Medi-Cal and uninsured costs incurred by DSHs. Eligible hospitals are to receive funding through the DSH program in the following manner:

- Designated Public Hospitals (now known as Public Health Care Systems, or PHCS) receive their allocation of federal DSH payments from the DSH Fund based on the hospitals' certified public expenditures (CPE), up to 100% of uncompensated Medi-Cal and uninsured costs. PHCSs may also receive allocations of federal and non-federal DSH funds through intergovernmental transfer-funded payments for expenditures above 100% of costs, up to 175% of the hospitals' uncompensated Medi-Cal and uninsured costs.

Effective July 1, 2015, PHCSs, except State Government-operated University of California (UC) Hospitals, receive their allocation of the federal DSH payments through the Global Payment Program (GPP). Beginning January 1, 2022, UC Hospitals became eligible to participate in GPP after obtaining Centers for Medicare and Medicaid Services (CMS) approval. See the GPP policy change for more information and for the portion of

DSH PAYMENT

DSH budgeted for GPP. State Government-operated UC Hospitals will continue to receive their allocation of federal DSH payments through CPE and intergovernmental transfer-funded payments for expenditures up to 175% of the hospitals' uncompensated Medi-Cal and uninsured costs in this policy change.

- Non-Designated Public Hospitals (NDPH) receive their allocation from the federal DSH allotment and State General Fund (GF) based on hospitals' uncompensated Medi-Cal and uninsured costs up to the Omnibus Budget Reconciliation Act of 1993 (OBRA) limits.
- Private DSH hospitals, under the waiver Special Terms and Conditions and SPA 05-022, are allocated a total of \$160 from the federal DSH allotment and GF each demonstration year. All DSH-eligible Private hospitals receive a pro-rata share of the \$160.

The Affordable Care Act (ACA) requires a reduction to the DSH allotments and was previously scheduled to go into effect on October 1, 2013. Subsequent federal action has delayed the reduction. Most recently, on March 15, 2025, HR 1968 was enacted, which eliminated implementation of the Federal Fiscal Year (FFY) 2025 reduction and shifted the effective reduction period to FFY 2026 through 2028.

As a result of the COVID-19 national public health emergency, the American Rescue Plan Act, enacted on March 11, 2021, authorized increased federal medical assistance percentage (FMAP) available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable. Future reconciliation payments for the impacted fiscal years will apply the applicable FMAP.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- The inclusion of SFY 2010-11 (DY6) Final Reconciliation payments and recoupments, not previously budgeted in the prior estimate, resulting in increases in IGT payments and CPE recoupments.
- The inclusion of SFY 2021-22 NDPH DSH Audit recoupments, not previously budgeted in the previous estimate, resulted in increases in recoupment savings.
- Updated FY 2024-25 NDPH June Phase I and II payment and recoupment amounts resulted in net increases, when compared to the previous estimate.
- Updated NDPH Allocations and increased FY 2024-25 CPE and IGT amounts, due to revised cost data and the implementation of the CMS Third Party Payer Exception rule, resulted in greater payments when compared to the previous estimate.
- Revised cost data and the implementation of the CMS Third Party Payer Exception rule, led to greater payments (in aggregate) for FY 2025-26.
- FY 2025-26 payments estimates increased, due to implementation of the CMS Third Party Payer Exception rule, resulting in greater expenditures than previously estimated.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- The inclusion of SFY 2010-11 (DY6) Final Reconciliation payments made in SFY 2025-26 instead of in FY 2026-27.
- The inclusion of SFY 2021-22 NDPH DSH Audit recoupments in SFY 2025-26 shifted from SFY 2026-27.

DSH PAYMENT

- The estimated FFY 2027 DSH allotment, derived by trending forward the estimated FFY 2026 allotment by 2%, is estimated to be greater.

Methodology:

1. CMS released a preliminary FFY 2025 DSH allotment on September 27, 2024.
2. The FFY 2026 DSH allotment assumes a 2% annual increase from the preliminary FFY 2025 DSH Allotment.
3. The FFY 2027 DSH allotment assumes a 2% annual increase from the estimated FFY 2026 DSH Allotment.
4. The SFY 2010-11 (DY6) Final Reconciliation payments and recoupments are a result of finalizing the DSH portion of the SFY 2010-11 PHCS UCC model in May 2025.
5. Assume 11/12 of the FY 2025-26 NDPH DSH payment will occur in FY 2025-26 and the remaining 1/12 will occur in FY 2026-27.
6. Assume 11/12 of the FY 2026-27 NDPH DSH payment will occur in FY 2026-27.
7. Assume 3/4 of the FY 2025-26 UC DSH payment will occur in FY 2025-26 and the remaining 1/4 will occur in FY 2026-27.
8. Assume 3/4 of the FY 2026-27 UC DSH payment will occur in FY 2026-27.
9. SFY 2021-22 NDPH DSH Audit recoupments will be subject to a 56.2% FMAP as outlined in the FFCRA.
10. The impact of the Title XIX COVID-19 increased FMAP does not increase the claimable DSH allotment, as the DSH allotment is a capped amount. The DSH allocation for NDPHs claims the increased FMAP consistent with the FMAP phase-out included in the Consolidated Appropriations Act of 2023. The remaining DSH allotment FFP is then allocated to GPP and UC hospitals. For those remaining hospitals, the non-federal share is reduced according to the Consolidated Appropriations Act of 2023, reducing the overall total funds while keeping the FFP the same that would have been paid at 50% federal share / 50% non-federal share.
11. DSH payments will be made as follows on a cash basis:

DSH PAYMENT

FY 2025-26	TF	GF**	IGT*	FF	COVID-19 FF

Purpose:

This policy change estimates the supplemental payments made to private hospitals from the Private Hospital Supplemental Fund (PHSF).

Authority:

SB 1100 (Chapter 560, Statutes of 2005), Welfare & Institutions Code (W&I) 14166.12
 AB 1467 (Chapter 23, Statutes of 2012), W&I Code 14166.14
 State Plan Amendment (SPA) 25-0010

Interdependent Policy Changes:

Not Applicable

Background:

Effective July 1, 2005, based on the requirements of SB 1100, supplemental reimbursement will be available to private hospitals.

Private hospitals will receive payments from the Private Hospital Supplemental Fund (Item 4260-601-3097) using General Fund (GF), intergovernmental transfers (IGTs), and interest accrued in the Private Hospital Supplemental Fund as the non-federal share of payments. This funding, along with the federal reimbursement, will replace the amount of funding the private hospitals previously received under the Emergency Services and Supplemental Payments Program (SB 1255, Voluntary Governmental Transfers), the Graduate Medical Education Program, and the Small and Rural Hospital Supplemental Payment Program (Fund 0688).

PRIVATE HOSPITAL SUPPLEMENTAL PAYMENT

SB 1100 requires the transfer of \$118,400,000 annually from the GF (Item 4260-101-0001) to the Private Hospital Supplemental Fund to be used for the non-federal share of the supplemental payments. The distribution of the Private Hospital Supplemental Fund will be based on the requirements specified in SB 1100. Due to the inactivation of the Selective Provider Contracting Program for private hospitals on July 1, 2013, SPAs were required to continue the Private Hospital Supplemental Program and secure distributions from the Private Hospital Supplemental Fund.

The Department received SPA approvals from the Centers of Medicare and Medicaid Services (CMS) to continue the Private Hospital Supplemental Program for FY 2013-14 through FY 2024-25. The most recent SPA, 24-0013, was approved by CMS on August 6, 2024, and extended the Private Hospital Supplemental Fund Program through June 30, 2025. SPA 24-0013 also updated the program's total computable amount for FY 2024-25 for carryover funds to be matched with federal financial participation (FFP) and distributed to private hospitals. In the fourth quarter of FY 2024-25, a one-year SPA was submitted to CMS to extend the Private Hospital Supplemental Fund program through FY 2025-26 and add payment amounts for FY 2025-26.

As a result of the COVID-19 national public health emergency increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- Decreased FY 2024-25 Affordable Care Act (ACA) adjustment amounts based on more recent data,
- FY 2025-26 Cash Expenditures to Providers updated based on actual anticipated FY 2025-26 distributions, and
- Addition of FY 2023-24 Cash Expenditure to Providers due to delayed FY 2023-24 PHSF distribution.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- Delayed Cash Expenditures to Providers from a prior FY occurring in FY 2025-26,
- Cash Expenditures to Providers decreased in FY 2026-27 compared to FY 2025-26 due to a decrease in PHSF distributions,
- Increase in ACA FF Adjustment to Special Fund in FY 2026-27 compared to FY 2025-26 due to increase in PHSF distributions from FY 2024-25 to FY 2025-26, and
- Increase in ACA FF Adjustments to Counties in FY 2026-27 compared to FY 2025-26 due to increase in IGT supported payments from FY 2025-26 to FY 2024-25.

Methodology:

1. The SF includes the annual GF appropriation, unspent funds from prior year, interest that has been accrued/estimated, and IGTs.
2. The FY 2025-26 and FY 2026-27 \$118,400,000 GF appropriation will be adjusted by the enhanced federal funds provided by the ACA, resulting in carryover funds. The Department will match carryover funds with FFP and distribute to private hospitals in the subsequent SFY.

PRIVATE HOSPITAL SUPPLEMENTAL PAYMENT

3. IGT supported payments will be \$92.1 million TF in FY 2025-26, and \$99.7 million TF in FY 2026-27.
4. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. CMS approved the ACA claiming methodology in August 2017. ACA payments will be processed nine months after the respective FY's supplemental payments have been issued in order to determine the proportion of the costs for newly eligible Medi-Cal members. FY 2024-25 ACA supplemental payments will be claimed in FY 2025-26, and FY 2025-26 ACA supplemental payments will be claimed in FY 2026-27.
 - The counties will be reimbursed for the IGTs (non-federal share), and an adjustment will be made for the federal share processed at the applicable FMAP.
 - The SF will be reimbursed for the SF portion (non-federal share), and an adjustment will be made for the federal share processed at the applicable FMAP.
5. The ending balance shown is on a cash basis and does not necessarily mean that the remaining funds are available. Funds in the ending balance may be committed and scheduled to be expended in the following year.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for providing supplemental payments for family planning services in both Medi-Cal fee-for-service (FFS) and Managed Care (MC).

Authority:

SPA 19-0027

SPA 21-0034

Interdependent Policy Changes:

Proposition 56 Funding

Background:

The California Healthcare, Research, and Prevention Tobacco Tax Act (Proposition 56, 2016), increased the excise tax rate on cigarettes and tobacco products and allocates a portion of the tobacco tax revenue to the Department for use as the non-federal share of health care expenditures, subject to appropriation by the Legislature.

The Budget Act of 2019 allocated Proposition 56 funds for supplemental payments for family planning services. The Legislature has continued this funding in subsequent budget acts.

On August 20, 2019, the Centers for Medicare and Medicaid Services (CMS) approved SPA 19-0027. SPA 19-0027 allows the Department to implement time-limited supplemental payments for specific family planning services delivered in the Medi-Cal FFS delivery system from July 1, 2019, through December 31, 2021. The FFS supplemental payment implemented in January 2020. In FY 2019-20, an Erroneous Payment Correction deployed to retroactively apply supplemental payments to July 1, 2019. SPA 21-0034 was submitted to CMS to extend the supplemental reimbursements under FFS indefinitely.

In the Medi-Cal managed care delivery system, the Department has implemented these payments as directed payments to eligible providers. Prior to implementation of a directed payment program, CMS requires states to seek pre-approval of any requested directed payment program through the standard CMS "pre-print" form. This "pre-print" is typically submitted on an

PROP 56 - MEDI-CAL FAMILY PLANNING

annual basis. On January 17, 2025, the Department received pre-print approval from CMS for January 1, 2025, through December 31, 2025, rating period.

Beginning July 1, 2019, the directed payments are subject to a two-sided risk corridor which is calculated retrospectively by the Department. Recoupments/payments are captured in the Prop 56 Risk Mitigation policy change.

These supplemental payments for Medi-Cal family planning services are intended to help support the larger Medi-Cal population in accessing and using family planning services as well as the providers delivering such services in the Medi-Cal program. This policy change identifies the use of the General Fund (GF) for these Proposition 56 funded payments. See the Proposition 56 Funding policy change for the Proposition 56 offset to the GF.

On July 3, 2025, the United States Congress passed House Resolution 1 (H.R. 1), Section 71113 (2025) Federal Payments to Prohibited Entities, which eliminated the use of Federal Funds to make payments to a prohibited entity for items and services furnished during the 1-year period beginning on July 4, 2025, (Public Law No: 119-21). The term "prohibited entity" includes essential community providers described in section 156.235 of title 45, Code of Federal Regulations, primarily engaged in family planning services, reproductive health, and related medical care. The Federal District Court Judge in Massachusetts issued a temporary restraining order (TRO) blocking immediate implementation of Section 71113. On July 21, 2025, and July 28, 2025, the Federal District Court issued two separate Preliminary Injunctions that modified the TRO.

Reason for Change:

There is a decrease for FY 2025-26, from the prior estimate, due to updated CY 2026 enrollment and rate estimates. Additionally, FFS has shifted to the FFS base and is display only.

There is a slight increase from FY 2025-26 to FY 2026-27, in the current estimate, due to higher projected CY 2027 rate growth.

Methodology:

1. This policy became effective on July 1, 2019.
2. Assume the continuation of the Proposition 56 payments through FY 2026-27, on a cash basis.
3. The supplemental payments are paid in both FFS and MC for family planning office visits billed under specified procedure codes for service periods beginning July 1, 2019. Assume the combined costs for FY 2025-26 and FY 2026-26 are:

(Dollars in Thousands)

Fiscal Years	TF	GF	FF
FY 2025-26	\$477,914	\$221,542	\$256,372
FY 2026-27	\$479,369	\$222,247	\$257,122

4. FFS expenditures are display only and are captured in the FFS base. FFS expenditures for FY 2025-26 and FY 2026-27 are estimated to be:

PROP 56 - MEDI-CAL FAMILY PLANNING

(Dollars in Thousands)

Fiscal Years	TF	GF	FF
FY 2025-26	\$13,397	\$5,063	\$8,334
FY 2026-27	\$13,088	\$4,946	\$8,142

5. MC expenditures for FY 2025-26 and FY 2026-27 are estimated to be:

(Dollars in Thousands)

Fiscal Years	TF	GF	FF
FY 2025-26	\$464,517	\$216,479	\$248,038

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the outpatient supplemental payments based on certified public expenditures (CPEs) for providing outpatient hospital care to Medi-Cal members.

Authority:

AB 915 (Chapter 747, Statutes of 2002)
 State Plan Amendment (SPA) 02-018
 SPA 16-019
 SPA 22-0060

Interdependent Policy Changes:

Not Applicable

Background:

AB 915 created a supplemental reimbursement program for publicly owned or operated hospital outpatient departments. Publicly owned or operated hospitals now receive supplemental payments based on CPEs for providing outpatient hospital care to Medi-Cal members. The supplemental amount, when combined with the amount received from all other sources of Medi-Cal Fee-for-Service reimbursement, cannot exceed 100% of the costs of providing services to Medi-Cal members. The non-federal share used to draw down federal financial participation (FFP) is paid exclusively with funds from the participating facilities.

SPA 22-0060 was approved by the Centers for Medicare & Medicaid Services (CMS) on December 6, 2022, which updates the language to clarify Los Angeles County (LAC) hospitals' use of the relative value unit (RVU) system to apportion Medi-Cal hospital costs.

As a result of the COVID-19 national public health emergency, an increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

HOSPITAL OUTPATIENT SUPPLEMENTAL PAYMENTS

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- FY 2011-12 LAC Only Final Reconciliation removed from the estimate based on updated timeline.
- FY 2016-17 and 2017-18 Non- LAC Final Reconciliations removed from the estimate based on updated timeline.
- FY 2018-19 Non-LAC Final Reconciliation shifted to FY 2026-27 based on updated timeline.
- FY 2018-19 LAC Only Final Reconciliation shifted to FY 2026-27 based on updated timeline.
- FY 2019-20 and FY 2020-21 Non-LAC Final Reconciliation added based on updated timeline.
- Revised FY 2023-24 Calendar Year Interim Payments based on actuals.
- Revised FY 2024-25 Interim Payments based on updated data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to:

- Final reconciliations for LAC are expected to begin in FY 2026-27.
- Interim payments expected to increase in FY 2026-27 due to UC hospital acquisitions.

Methodology:

1. Payments of \$201,463,000 and \$219,140,000 are expected to be made in FY 2025-26 and FY 2026-27 respectively. These payments are based on CPE claims and are adjusted for the changes in the FMAP.
2. Final reconciliations are expected to begin in FY 2025-26.
 - Final reconciliations for LAC hospitals will be on a separate timeline from non-LAC hospitals.
3. The Affordable Care Act (ACA) allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA reimbursement methodology was approved by CMS in August 2017.
4. Traditional and ACA claims are processed separately. Payments are based on CPE claims which are adjusted based on the applicable FMAP. FY 2024-25 and FY 2025-26 Traditional and ACA claims are estimated based on FY 2023-24 actuals that further adjusted the estimated percentage change in the Consumer Price Index for all Urban Consumers (CPI-U) for outpatient hospital services.

FY 2025-26	TF	FF	ACA	COVID-19 FF
FY 2019-20 (Non-LAC Final Rec)	(\$16,901,000)	(\$8,777,000)	(\$7,843,000)	(\$281,000)
FY 2020-21 (Non-LAC Final Rec)	(\$13,189,000)	(\$6,978,000)	(\$5,750,000)	(\$461,000)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the payments to Designated Public Hospitals (DPHs) for the uncompensated costs of their physician and non-physician practitioner professional services.

Authority:

SB 1100 (Chapter 560, Statutes of 2005), Welfare & Institutions Code 14166.35
Welfare & Institutions Code 14166.4
State Plan Amendment (SPA) 05-023
SPA 16-020
SPA 24-0026

Interdependent Policy Changes:

Not Applicable

Background:

Effective July 1, 2005, pursuant to SPA 05-023, DPHs are to receive reimbursement based on certified public expenditures (CPEs) for their Medi-Cal uncompensated costs incurred for physician and non-physician practitioner professional services.

SPA 05-023 that authorizes federal funding for this reimbursement was approved by the Centers for Medicare & Medicaid Services (CMS) in December 2007. CMS approved the "Physician and Non-Physician Practitioner Time Study Implementation Plan" on December 15, 2008. Revisions to the "Physician and Non-Physician Practitioner Time Study Implementation Plan" were approved by CMS on September 1, 2020, which updated the language to reflect that in the event of a state of emergency, the alternate random moment time studies in the affected quarters will be statistically invalid.

Due to the timing for the submission of the cost reporting and other data, there are significant lags between the date of service and the payments.

The reimbursement is available only for costs associated with health care services rendered to

DPH PHYSICIAN & NON-PHYS. COST

Medi-Cal members who are patients of the hospital or its affiliated hospital and non-hospital settings. Each DPH's physician and non-physician costs will be reconciled using Medicaid Management Information System data and the Medi-Cal cost report for the respective fiscal year end. Payments resulting from the interim or final reconciliation will be based on the hospitals' CPEs and comprised of 100% federal funds.

SPA 16-020 was approved by CMS on December 6, 2016, which updates the language to reflect the current names of the hospital participants and to account for any future hospital name changes. SPA 24-0026, was approved by CMS on December 16, 2024, which updated the list of eligible hospital participants effective April 1, 2024.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- The FY 2011-12 through FY 2016-17 final reconciliations for Los Angeles (LA) County have been shifted from FY 2025-26 to FY 2026-27,
- The FY 2019-20 and FY 2020-21 for one Non-LA County DPH has been shifted from FY 2024-25 to FY 2025-26,
- The FY 2023-24 interim reconciliations for all DPHs have been updated based on revised payment calculations, and
- The FY 2025-26 interim payments for all DPHs have been updated based on revised data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to fluctuations in the number of reconciliations and amounts each year.

Methodology:

1. One annual interim payment is expected to occur for all DPHs in quarter 4 of each FY for the respective fiscal year.
2. Interim reconciliations of program years are anticipated to be completed upon receipt of the Physician/Non-Physician Practitioner time studies and the filed cost report information which are required components of the reconciliation process.
3. The Affordable Care Act (ACA) optional population supplemental payment methodology was approved by CMS on August 17, 2021, and first time ACA payments were issued in FY 2021-22 Quarter 2. ACA payments will be retroactive to January 1, 2014. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members.
4. Reconciliation/final settlement of program years is anticipated to be completed upon conclusion of final audited settlements. Final reconciliations are subject to cost report audit schedules.
5. The Title XIX COVID-19 increased FMAP is assumed for final and interim reconciliations that fall within the increased FMAP time frame set forth in the Consolidated Appropriations Act of 2024.

GENERAL FUND	-\$870,000	-\$989,000
OTHER FUNDS	\$57,088,000	\$56,659,000

Purpose:

This policy change estimates the supplemental payments to Martin Luther King, Jr. – Los Angeles (MLK-LA) Healthcare Corporation, a private nonprofit hospital.

Authority:

SB 857 (Chapter 31, Statutes of 2014), Welfare & Institutions (W&I) Code 14165.50
 State Plan Amendment (SPA) 18-0021
 SPA 21-0012
 SPA 23-0017

Interdependent Policy Changes:

Not Applicable

Background:

SB 857 requires specific funding requirements to facilitate the financial viability of MLK-LA, a private nonprofit hospital that serves the population of South Los Angeles. Pursuant to W&I Code 14165.50, the cost-based reimbursement methodology for Medi-Cal Fee-for-Service (FFS) and managed care payments to the MLK-LA hospital will provide compensation at a minimum of 100% of the projected costs for each fiscal year (FY), contingent upon federal approvals and availability of county funding.

Under the statute, the State General Fund (GF) is obligated to provide, beginning the FY MLK-LA opens through FY 2016-17, the non-federal share of a guaranteed level (minimum payment level) of 77% of the total Medi-Cal FFS inpatient projected cost. If current Medi-Cal private hospital reimbursement methods result in funding that is less than 77% of the Medi-Cal FFS inpatient projected costs, GF appropriations are required to fund the non-federal share of the additional payments up to the 77% of costs.

Beginning FY 2017-18, and subsequent fiscal years, this GF obligation is reduced to 72% of projected Medi-Cal FFS inpatient costs. If current Medi-Cal private hospital reimbursement methods result in funding that is less than 72% of the Medi-Cal FFS inpatient projected costs,

MARTIN LUTHER KING JR. COMMUNITY HOSPITAL PAYMENTS

the GF will be required to fund the non-federal share of the additional payments up to 72% of the costs.

In order to enable reimbursement for the MLK-LA to reach 100% of the FFS inpatient projected costs, the remaining non-federal share amounts may be transferred by the County of Los Angeles via voluntary intergovernmental transfers (IGTs). Any public funds transferred shall be expended solely for the non-federal share of the supplemental payment. Additionally, the Department shall seek further federal approval to enable MLK-LA to receive Medi-Cal supplemental payments to the extent necessary to meet minimum funding requirements. Further reimbursement exceeding the 100% minimum funding requirement may be sought through additional supplemental programs upon federal approval.

SPA 21-0012, which was approved by Center for Medicare and Medicaid Services (CMS) on July 16, 2021, increased the payment cap from \$115.2 million to \$123.1 million, effective July 1, 2021. SPA 23-0017, which was approved by CMS on August 29, 2023, decreased the payment cap from \$123.1 million to \$116.8 million, effective July 1, 2023. The \$116.8 million total payment represents \$100 million in supplemental payments and \$16.8 million in Diagnosis Related Group (DRG) add-on payments. Effective July 1, 2024, the \$116.8 million total payment represents \$105.5 million in supplemental payments and \$11.3 million in DRG add-on payments. Effective July 1, 2025, the \$116.8 million total payment represents \$108.1 million in supplemental payments and \$8.7 million in DRG add-on payments.

The reconciliation process may find an overpayment or underpayment to MLK-LA and will be handled as follows:

- For overpayments, MLK-LA will be subject to recovery of the payment for the amount exceeding the supplemental and DRG add-on payment cap and the amount of DRG add-on payments exceeding the minimum payment level based on actual costs.
- For underpayments, MLK-LA will receive an additional payment equal to the reconciled amount for DRG add-on payments needed to meet the minimum payment level, subject to the supplemental and DRG add-on payment cap.
- Reconciliations estimated in the current year and budget year are subject to revisions based on updated data and audit reports, when applicable.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to data updates resulting in:

- Increases in estimated FY 2025-26 supplemental payment amounts.
- Increases in estimated FY 2024-25 Supplemental ACA adjustments.
- Decreased recoupments in the estimated FY 2024-25 interim reconciliation amounts.
- Decreases in FY 2022-23 final reconciliations.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- Supplemental ACA adjustments for FY 2025-26 are estimated to be higher than the FY 2024-25 Supplemental ACA adjustments.

MARTIN LUTHER KING JR. COMMUNITY HOSPITAL PAYMENTS

- Recoupments for the FY 2025-26 interim reconciliations are estimated to be higher than the interim reconciliations for FY 2024-25.
- The final reconciliations for FY 2023-24 are estimated to be lower than final reconciliations for FY 2022-23.

Methodology:

1. Medi-Cal certification approval is retroactive to the effective date of June 30, 2015.
2. DRG inpatient payments to MLK-LA were implemented beginning November 2015 for dates of service on or after July 1, 2015.
3. MLK-LA received the DRG statewide, wage adjusted, base rate.
4. Assume DRG payments and DRG add-on payments, if necessary, will be sufficient to reach the 72% minimum payment level for FY 2025-26 and FY 2026-27.
5. Expenditures for FY 2025-26 and FY 2026-27 costs up to 72% of total Medi-Cal FFS inpatient projected costs will be paid through DRG FFS payments which are incorporated in the FFS base.
6. Assume for FFS and supplemental payments, there are no Title XXI payments, based on updated MLK-LA payment data.
7. Supplemental payments are equal to the difference between MLK-LA's Medi-Cal FFS inpatient hospital charges and all amounts paid to MLK-LA by the Medi-Cal FFS inpatient hospital program per fiscal year. For FY 2025-26 and FY 2026-27, the supplemental payments and DRG add-on payments are limited by the payment cap of \$116.8 million. FY 2025-26 and FY 2026-27 supplemental payments are estimated to be \$108.1 million.
8. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA claiming methodology for the FFS supplemental payments was approved by CMS in FY 2017-18. The ACA supplemental payments will be processed nine months after the respective FY's supplemental payments have been issued in order to determine the proportion of the costs for newly eligible Medi-Cal members. FY 2024-25 ACA supplemental payments will be claimed in FY 2025-26. For FY 2025-26, the ACA payment will be claimed in FY 2026-27. The County will be reimbursed for the IGT (non-federal share), and an adjustment will be made for the federal share processed at the regular 50% FMAP, including FFCRA increased FMAPs of 6.2%, 5%, 2.5%, and 1.5% when applicable
9. Managed care costs for MLK-LA are reflected in the Retro MC Rate Adjustment policy change.
10. On a cash basis, costs in FY 2025-26 and FY 2026-27 are expected to be:

MARTIN LUTHER KING JR. COMMUNITY HOSPITAL PAYMENTS

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$60,328,000	\$83,063,000

Purpose:

This policy change estimates the supplemental reimbursement to specific hospitals that provide trauma care to Medi-Cal members, through the use of Intergovernmental Transfers (IGTs).

Authority:

Welfare & Institutions Code, Sections 14164 and 14087.3
 State Plan Amendment (SPA) 03-032
 SPA 22-0026

Interdependent Policy Changes:

Not Applicable

Background:

This program allows Los Angeles and Alameda counties to submit IGTs used as the non-federal share of costs to draw down Title XIX federal funds. The Department uses the IGTs matched with the federal funds to make supplemental payments to specified hospitals for the costs of trauma care center services provided to Medi-Cal members.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Estimated payments and ACA adjustments are lower for FY 2024-25 due to decreased County IGTs.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Estimated payments and ACA adjustments are projected to be higher in FY 2026-27 compared to 2025-26, driven by increased Country IGT estimates in FY 2026-27.

Methodology:

1. IGTs are deposited in the Special Deposit Fund (Local Trauma Centers).

FFP FOR LOCAL TRAUMA CENTERS

2. ACA allows for enhanced Federal Medical Assistance Percentage (FMAP) for newly eligible Medi-Cal members. The ACA methodology was approved by the Centers for Medicare & Medicaid Services in August 2017.
3. ACA payments will be processed nine months after the respective fiscal year's supplemental payments have been issued in order to determine the proportion of the hospital's trauma care costs for newly eligible Medi-Cal members. ACA payments for FY 2024-25 will be claimed in FY 2025-26 and ACA payments for FY 2025-26 will be claimed in FY 2026-27. The County will be reimbursed for the non-federal share, and an adjustment will be made for the federal share processed at the applicable FMAP.

Purpose:

This policy change estimates the Medi-Cal reimbursement for debt services incurred from the financing of capital construction projects.

Authority:

SB 1732 (Chapter 1635, Statutes of 1988)
 SB 2665 (Chapter 1310, Statutes of 1990)
 SB 1128 (Chapter 757, Statutes of 1999)
 State Plan Amendment (SPA) 88-25
 SPA 13-011

Interdependent Policy Changes:

Not Applicable

Background:

SB 1732 and SB 2665 authorized Medi-Cal reimbursement of revenue and general obligation bond debt for principal and interest costs incurred in the construction, renovation and replacement of qualifying disproportionate share contract hospitals. The Selective Provider Contracting Program (SPCP) ended June 30, 2013, due to the implementation of the Diagnosis Related Group payment methodology. The Centers for Medicare and Medicaid Services (CMS) approved SPA 13-011 on December 11, 2013, which maintains the Federal authority for SB 1732.

SB 1128 authorized a distinct part skilled nursing facility (DP-NF) of an acute care hospital providing specified services to receive Medi-Cal reimbursement for debt service incurred for the financing of eligible capital construction projects. The DP-NF must meet other specific hospital and project conditions specified in Section 14105.26 of the Welfare and Institutions Code. The Department claims federal funds using certified public expenditures from eligible DP-NFs. CMS approved SPA 00-010 on July 17, 2001, which maintains the Federal authority for SB 1128.

As a result of the COVID-19 national public health emergency, an increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased

CAPITAL PROJECT DEBT REIMBURSEMENT

FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

For hospitals (SB 1732):

- Updated interim payment amounts for FY 2024-25 decreased based on more recent data.
- Updated FY 2023-24 Affordable Care Act adjustment amounts based on actuals decreased compared to the last estimate.
- Updated FY 2022-23 interim reconciliation amounts decreased based on more recent data.
- Updated FY 1997-98 to FY 2022-23 final reconciliation amounts increased based on more recent data.
- Addition of FY 1989-90 to FY 2022-23 final reconciliation, not included in the previous estimate.

For DP-NFs (SB 1128):

- Updated FY 2023-24 interim payment amounts decreased based on actuals.
- Updated FY 2024-25 interim payment amounts decreased based on more recent data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

For hospitals (SB 1732):

- Decreased interim payment expenditures in FY 2026-27 due to lower reimbursable debt service amounts in FY 2026-27; and
- Increased interim reconciliation expenditures occurring in FY 2025-26 because the difference between the final Medicaid Utilization Rate (MUR) and the interim MUR is expected to be higher for FY 2022-23 than FY 2023-24.
- Fewer final reconciliations are expected to occur in FY 2026-27 than estimated in FY 2025-26.

For DP-NFs (SB 1128):

- Increased interim payment expenditures are estimated in FY 2026-27 due to higher reimbursable debt service amounts.

Methodology:

1. Under the American Recovery and Reinvestment Act of 2009 (ARRA), California's FMAP increased from 50% to 61.59% for dates of service (DOS) October 1, 2008, through December 31, 2010. The Education, Jobs and Medicaid Assistance Act of 2010 added six additional months of increased FMAP. California's FMAP was 58.77% for DOS January 1, 2011, through March 31, 2011, and 56.88% for DOS April 1, 2011, through June 30, 2011. On July 1, 2011, Medi-Cal's FMAP returned to the 50% level.
2. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA reimbursement methodology was approved by CMS in August 2017.

For SB 1732, ACA payments will be processed one year after the respective fiscal year has closed in order to determine the proportion of the hospital's costs for newly eligible Medi-Cal members. FY 2023-24 and FY 2024-25 ACA supplemental payments will be claimed in FY

CAPITAL PROJECT DEBT REIMBURSEMENT

2025-26 and FY 2026-27, respectively. The General Fund (GF) will be reimbursed for the non-federal share, and an adjustment will be made for the federal share processed at the applicable FMAP.

3. For SB 1732, capital projects funded by new debt for which final plans were submitted to the Office of the Statewide Architect and the Office of Statewide Health Planning and Development after September 1, 1988, and prior to June 30, 1994, are eligible for this program.

Once the debt service for a project is paid in full, the hospital's interim supplemental payments and interim reconciliation will be reconciled using the final MUR data. If during the final reconciliation, it is determined that the eligible hospital has been overpaid, the hospital will repay the Medi-Cal program the overpayment amount. If it is determined that the eligible hospital has been underpaid, the hospital will receive an adjusted supplemental payment amount.

4. The estimated payments on a cash basis are:

FY 2025-26	TF	GF	FF	COVID-19 FF	ARRA	ACA

OTHER FUNDS	\$21,830,000	\$26,659,000

Purpose:

This policy change estimates the revenue and payments for a supplemental reimbursement program for Non-Designated Public Hospitals (NDPHs).

Authority:

AB 113 (Chapter 20, Statutes of 2011)
State Plan Amendment (SPA) 10-026
SPA 16-015

Interdependent Policy Changes:

Not Applicable

Background:

AB 113 established a NDPH supplemental payment program funded by intergovernmental transfers (IGTs). For each fiscal year up to and including FY 2025-26, AB 113 authorizes the State to retain 9% of each IGT to reimburse the administrative costs of operating the program and for the benefit of Medi-Cal children's health programs. This policy change also reflects the portion of the 9% that is used to offset General Fund (GF) costs of Medi-Cal children's health services through FY 2025-26. Amendments were made to Welfare and Institutions (W&I) Code 14165.57(j) to remove the State's authority to retain 9% of each IGT and replace it with a methodology that retains only an amount of each IGT equal to the projected administrative cost of operating the program to reimburse the beginning in FY 2026-27.

SPA 16-015 was approved by the Centers for Medicare & Medicaid Services (CMS) on July 20, 2016, to allow for an interim IGT payment in the event that an Upper Payment Limit (UPL) has not been finalized by CMS by April 1st of each State fiscal year.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- FY 2024-25 payment finalization increased based on more recent data;
- FY 2025-26 interim payments slightly decreased based on more recent data; and

NDPH IGT SUPPLEMENTAL PAYMENTS

- FY 2024-25 GF savings transfer for the benefit of Children's Services slightly decreased based on more recent data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- ACA adjustments are expected to occur in FY 2026-27 whereas a payment finalization will occur in FY 2025-26. The payment finalization is anticipated to have a higher expenditure due to interim payments being reconciled to the approved UPL, which is anticipated to result in additional payments.
- Higher interim payments in FY 2026-27 compared to FY 2025-26 due to higher anticipated UPL room.
- Lower FY 2025-26 Children's Services GF transfer occurring in FY 2026-27.

Methodology:

1. The NDPH IGT supplemental payments program is a formula-based program which depends on the UPL's available room. The available room is then applied to the formula to determine the supplemental payments, the administrative costs of operating the program, and the benefit of Medi-Cal's children's health programs. Amendments to W&I Code 14165.57(j) replaced the State's authority to retain 9% of each IGT with a methodology that retains only an amount of each IGT equal to the projected administrative cost of operating the program to reimburse the Department beginning in FY 2026-27.
2. The FY 2024-25 UPL will be submitted to CMS in FY 2025-26 Q1 and the FY 2025-26 UPL will be subsequently submitted.
3. FY 2024-25 interim supplemental payments were processed using 80% of the approved UPL room from FY 2023-24, which was the last approved UPL at the date of payment. Payment finalizations for FY 2024-25 will occur in FY 2025-26. FY 2025-26 and FY 2026-27 interim payment estimates assume the respective fiscal year's UPL will be approved prior to interim supplemental payments being processed. For this estimate, FY 2024-25 payment finalizations, FY 2025-26 ACA adjustments, FY 2025-26 interim payments, and FY 2026-27 interim payments utilized the approved FY 2023-24 UPL room.
4. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA methodology was approved by CMS in August 2017.

ACA payments will be processed nine months after the respective fiscal year's supplemental payments have been issued in order to determine the proportion of the costs for newly eligible Medi-Cal members. FY 2024-25 ACA supplemental payments will be claimed in FY 2025-26, and FY 2025-26 ACA supplemental payments will be claimed in FY 2026-27. An adjustment will be made for the federal share processed at the applicable FMAP and the nonfederal share of the adjusted amount will be reimbursed to the NDPHs.

5. FY 2024-25 Children's Services amounts that were collected based on the interim payments for the respective fiscal year will be reconciled to the respective fiscal year's approved UPL room and processed in FY 2025-26. FY 2025-26 Children's Services payments will be processed based on the approved FY 2025-26 UPL in FY 2026-27.
6. The estimated NDPH IGT supplemental payments are:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the expenditures related to providing supplemental payments for specific dental services.

Authority:

Budget Act of 2021

Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Proposition 56 Funding

Background:

The California Healthcare, Research, and Prevention Tobacco Tax Act (Proposition 56, 2016), increased the excise tax rate on cigarettes and tobacco products and allocates a portion of the tobacco tax revenue to the Department for use as the non-federal share of health care expenditures, subject to appropriation by the Legislature.

The Budget Act of 2017 allocated Proposition 56 funds for supplemental payments for dental services. The Legislature has continued this funding in subsequent budget acts.

These supplemental payments for specific dental categories include restorative, endodontic, prosthodontic, oral and maxillofacial, adjunctive, orthodontic, periodontal, preventative and visits and diagnostic services. For FY 2018-19 and FY 2019-20, the supplemental payment rates for the existing categories remain at a rate equal to 40 percent of the Schedule of Maximum Allowances (SMA). Effective July 1, 2018, SB 840 appropriated additional funds to allow for an increase in supplemental payments ranging from 20-60% and specified dollar amounts for specific procedures, and the addition of other dental procedures.

This policy change identifies the use of the General Fund for these Proposition 56 payments. See the Proposition 56 Funding policy change for the Proposition 56 offset to the GF.

PROP 56 - DENTAL SERVICES SUPPLEMENTAL PAYMENTS

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated check write projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the Proposition 56 supplemental payments concluding at the end of FY 2025-26.

Methodology:

1. Payments are made via supplemental payments.
2. This policy was effective on July 1, 2017. Beginning July 1, 2018, the Department made changes to add additional procedures and changed the supplemental amount for specific procedures.
3. Supplemental payments are either a percentage of the Dental SMA or a flat rate.
4. Dental Managed Care withholds resumed in February 2025 and are projected to be released in July of the following fiscal year.
5. Proposition 56 payments for this program will end June 30, 2026. Costs budgeted in FY 2026-27 are payments for services rendered in FY 2025-26. The final withhold payment for Dental Managed Care is scheduled for July 2027.
6. Funds allocated for the supplemental payments are as follows:

FY 2025-26	TF	SF	FF

Authority:

SB 1100 (Chapter 560, Statutes of 2005), Welfare & Institutions Code 14166.17
State Plan Amendment (SPA) 25-0011

Interdependent Policy Changes:

Not Applicable

Background:

Effective July 1, 2005, based on the requirements of SB 1100, supplemental reimbursements will be available to NDPHs.

Payments to the NDPHs will be from the NDPH Supplemental Fund, Item 4260-601-3096, using State General Fund (GF) and interest accrued in the NDPH Supplemental Fund as the non-federal share of costs. It is assumed that interest accrued in a fiscal year will be paid in the subsequent fiscal year. This funding along with the federal reimbursement will replace the amount of funding the NDPHs previously received under the Emergency Services and Supplemental Payments Program (SB 1255, Voluntary Governmental Transfers). Due to the inactivation of the Selective Provider Contracting Program for NDPHs on January 1, 2014, SPAs were required to continue the NDPH Supplemental Program and secure distributions from the NDPH Supplemental Fund. The Department received SPA approvals from the Centers for Medicare and Medicaid Services (CMS) to continue the NDPH Supplemental Program for FY 2016-17 through FY 2023-24. SPA 24-0014, was approved by CMS on July 16, 2024, to continue the NDPH Supplemental Program through June 30, 2025. The most recent SPA 25-0011 to extend the NDPH Supplemental Fund Program through FY 2025-26 was submitted to CMS for approval in June 2025. The SPA proposes that carryover funds be matched with federal financial participation (FFP) and distributed to NDPHs in FY 2025-26. The SPA also proposes to restructure the payment methodology with expanded eligibility criteria for FY 2025-26 and sunset

NDPH SUPPLEMENTAL PAYMENT

the NDPH Supplemental Fund Program as of June 30, 2026. However, close-out activities such as Affordable Care Act (ACA) adjustments will continue through FY 2026-27.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- FY 2025-26 cash expenditures to hospitals are expected to increase due to more recent retroactive carryover fund payment data and
- FY 2024-25 ACA adjustments slightly decreased based on more recent ACA data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to:

- FY 2026-27 cash expenditures to hospitals are not assumed to occur due to program sunsetting on June 30, 2026,
- Retroactive carryover funds occurred in FY 2025-26 and are not estimated to occur in FY 2026-27.

Methodology:

1. The State Funds (SF) item includes the annual GF appropriation, any unspent appropriations from prior years, and interest that has been accrued/estimated.
2. SB 1100 requires that \$1,900,000 annually be transferred from the GF to the NDPH Supplemental Fund to be used for the non-federal share of payments. In addition, the FY 2025-26 non-federal share will be adjusted to distribute carryover funds due the enhanced federal funds provided by the Families First Coronavirus Response Act and ACA. SPA 25-011 proposes a methodology to match carryover funds with FFP and distribute to NDPHs in FY 2025-26. The SPA also proposes to sunset the NDPH Supplemental Fund program at the end of FY 2025-26.
3. The ACA allows for enhanced FMAP for newly eligible Medi-Cal beneficiaries. The ACA reimbursement methodology to draw the enhanced FMAP was approved by CMS in August 2017. ACA adjustments will be processed nine months after the respective fiscal year's supplemental payments have been issued, in order to determine the proportion of the costs for newly eligible Medi-Cal beneficiaries. The FY 2024-25 ACA adjustment will be claimed in FY 2025-26, and the FY 2025-26 ACA adjustment will be claimed in FY 2026-27.
4. The ending balance shown is on a cash basis and does not necessarily mean that the remaining funds are available. The program sunsets on June 30, 2026, therefore, any remaining money in the fund will be subsequently transferred to the General Fund.
5. The estimated NDPH Supplemental payments and ending balance for FY 2025-26 are shown below:

NDPH SUPPLEMENTAL PAYMENT

FY 2025-26 NDPH Supplemental Fund Summary	SF
FY 2024-25 Ending Balance	\$6,845,000

% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$12,846,000	\$12,910,000
FEDERAL FUNDS	\$12,846,000	\$12,910,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the supplemental payments to state veterans' homes.

Authority:

AB 959 (Chapter 162, Statutes of 2006)
State Plan Amendment 06-017

Interdependent Policy Changes:

Not Applicable

Background:

Under this program, state veterans' homes that are enrolled as Medi-Cal providers and are owned and operated by the State are eligible to receive supplemental payments. Eligible state veterans' homes may submit interim claims for federal financial participation (FFP) on the difference between their projected costs and the amount Medi-Cal pays under the program. Interim claims are subject to initial and final reconciliation. The non-federal match to draw down FFP will be paid from the public funds of the eligible state veterans' homes.

Supplemental payments to state veterans' homes were effective retroactively beginning with the rate year August 1, 2006. The Department certifies expenditures reported in facilities' cost report before claiming FFP.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Estimated reductions in FY 2025-26 interim payment amounts based on updated data.
- Estimated reductions in FY 2024-25 initial reconciliation amounts based on updated data.
- Increased FY 2021-22 final reconciliation amounts based on updated data.

STATE VETERANS' HOMES SUPPLEMENTAL PAYMENTS

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- An increase in estimated interim payments in FY 2026-27 based on updated data.
- Lower estimated initial reconciliation payments in FY 2026-27, based on updated data.
- Final reconciliation overpayment amounts are assumed to increase in FY 2026-27, based on updated data.

Methodology:

Supplemental payments for state veterans' homes began in FY 2010-11 and payments are estimated based on actual historical reported certified expenditures.

The estimate is based on:

1. Interim payments,
2. Initial reconciliation payments,
 - a. First time (interim) Affordable Care Act (ACA) payments occur during initial reconciliations using as filed cost report data to calculate payments. The ACA allows for enhanced FMAP for newly eligible Medi-Cal members.
3. A final reconciliation payment, if necessary.

Program payment amounts are estimated to be:

FY 2025-26	TF	Regular FF	ACA FF	COVID-19 FF

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the supplemental reimbursement to hospitals providing a disproportionate share of outpatient services.

Authority:

SB 2563 (Chapter 976, Statutes of 1988)

Interdependent Policy Changes:

Not Applicable

Background:

SB 2563 established a supplemental program for hospitals providing a disproportionate share of outpatient services. The Department calculates payments on a calendar year (CY) basis and reimburses eligible providers on a quarterly basis through a payment action notice. Each payment represents one quarter of the total annual amount due to each eligible hospital. Due to the payment being made at the end of a quarter, the last quarter of each calendar year will be paid the following calendar year.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate

Methodology:

1. Assume annual reimbursements for disproportionate share of outpatient services are \$10,000,000 Total Fund (TF).

FEDERAL FUNDS	\$7,848,000	\$3,097,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates federal financial participation (FFP) payments based on Certified Public Expenditures (CPE) to nursing facilities (NF) that are distinct parts (DP) of acute care hospitals that are owned or operated by a public entity.

Authority:

AB 430 (Chapter 171, Statutes of 2001)
State Plan Amendment (SPA) 01-022
SPA 12-021

Interdependent Policy Changes:

Not Applicable

Background:

DP-NFs are allowed to claim FFP on the difference between their actual costs and the amount Medi-Cal currently pays. The acute care hospital must be owned and operated by a public entity, such as a city, city and county, or health care district. In addition, the acute care hospital must meet specified requirements and provide skilled nursing services to Medi-Cal members.

AB 97 (Chapter 3, Statutes of 2011) authorized the Department to reimburse Medi-Cal providers at the rates established in FY 2008-09, reduced by 10%, for services DP-NFs Level B providers render on or after June 1, 2011.

The Department received Centers for Medicare & Medicaid Services (CMS) approval on December 20, 2013, to prospectively exempt DP-NF Level B providers from the 10% payment reduction effective September 1, 2013, for providers located in designated rural and frontier areas. The remaining DP-NF Level B providers are exempt from the 10% payment reduction effective October 1, 2013, pursuant to the provisions of SB 239 (Chapter 657, Statutes of 2013).

ABX2 1 (Chapter 3, Statutes of 2016) prohibits the Department from seeking to retroactively implement certain Medi-Cal provider base payment reductions and limitations with regards to reimbursements for services provided by skilled nursing facilities that are distinct parts of general

CPE SUPPLEMENTAL PAYMENTS FOR DP-NFS

acute care hospitals for dates of service on or after June 1, 2011, and on or before September 30, 2013, and from seeking to recoup overpayments of the base rate. This prohibition does not apply to supplemental payments for skilled nursing services nor the recoupment of such supplemental funds.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year (CY) 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to:

- CY 2025 interim payments reduced based on updated data,
- CY 2024 interim payments reduced based on updated data and actuals,
- Rate Year (RY) 2020-21 final reconciliation amounts decreased based on estimates,
- RY 2019-20 final reconciliation payment delayed from FY 2024-25 to FY 2025-26,
- CY 2024 interim reconciliation payment for Q1 and Q2 reduced based on updated data,
- 2023 Bridge Period interim reconciliation payment reduced based on actuals,
- 2023 Bridge Period interim payments, based on actuals, were added to the estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to:

- Decreased expenditures expected to occur in FY 2026-27 compared to FY 2025-26 due to the transition from Fee-For-Service to Managed Care.

Methodology:

1. Expenditures may receive the applicable FMAP based on date of service, such as DP-NF payments when Medi-Cal draws the federal funds in a subsequent fiscal year.
2. The reconciliation, against audited cost reports, started in FY 2010-11. This process is mandated by the Office of Inspector General Audit (A-09-05-00050) for fiscal years subsequent to the audit year 2003-04. Scheduled interim payments and reconciliation payments are represented below.
3. Affordable Care Act (ACA) allows for enhanced FMAP for newly eligible Medi-Cal members. The ACA reimbursement methodology under this program was approved by CMS in August 2017.

Assume interim ACA payments for the 2023 Bridge Period, CY 2024, and CY 2025 will occur in FY 2025-26 and payments for CY 2025 and 2026 will occur in FY 2026-27.

4. Assume interim traditional payments for the 2023 Bridge Period, CY 2024, and CY 2025 will occur in FY 2025-26 and payments for CY 2025 and 2026 will occur in FY 2026-27.

Purpose:

This policy change estimates the expenditures related to supplemental reimbursements under the Family Planning, Access, Care, Treatment (Family PACT) program for the Evaluation and Management (E&M) portion of office visits and medical pregnancy termination services.

Authority:

Proposition 56 (2016)
 SPA 17-029
 SPA 18-0031
 SPA 19-0040
 SPA 21-0033

Interdependent Policy Changes:

Proposition 56 Funding

Background:

The California Healthcare, Research, and Prevention Tobacco Tax Act (Proposition 56, 2016), increased the excise tax rate on cigarettes and tobacco products and allocates a portion of the tobacco tax revenue to the Department for use as the non-federal share of health care expenditures, subject to appropriation by the Legislature.

The Budget Act of 2017 allocated Proposition 56 funds for supplemental payments for supplemental reimbursements under the Family PACT program. The Legislature has continued this funding in subsequent budget acts.

The Centers for Medicare and Medicaid Services (CMS) approved State Plan Amendment (SPA) 17-029 on November 30, 2017. The SPA authorized time-limited supplemental reimbursements, at a rate equal to 150 percent of the current Family PACT rates, to Family PACT providers for E&M office visits rendered for comprehensive family planning services. The effective date for this SPA was July 1, 2017, with an end date of June 30, 2018. On September 5, 2018, CMS approved SPA 18-0031, which extended the supplemental reimbursements under Family PACT for the period of July 1, 2018, through June 30, 2019. On August 20, 2019, CMS

PROP 56 - WOMEN'S HEALTH SUPPLEMENTAL PAYMENTS

approved SPA 19-0040, which extended the supplemental reimbursements under Family PACT for the period of July 1, 2019, through December 31, 2021. On October 13, 2021, SPA 21-0033 was submitted to CMS to extend the supplemental reimbursements under Family PACT indefinitely.

This policy change identifies the use of the General Fund (GF) for these Proposition 56 payments. See the Proposition 56 Funding policy change for the Proposition 56 offset to the GF.

On July 3, 2025, the United States Congress passed House Resolution 1 (H.R. 1), Section 71113 (2025) Federal Payments to Prohibited Entities, which eliminated the use of Federal Funds to make payments to a prohibited entity for items and services furnished during the 1-year period beginning on July 4, 2025, (Public Law No: 119-21). The term "prohibited entity" includes essential community providers described in section 156.235 of title 45, Code of Federal Regulations, primarily engaged in family planning services, reproductive health, and related medical care. The Federal District Court Judge in Massachusetts issued a temporary restraining order (TRO) blocking immediate implementation of Section 71113. On July 21, 2025, and July 28, 2025, the Federal District Court issued two separate Preliminary Injunctions that modified the TRO.

Reason for Change:

There is a decrease for FY 2025-26, from the prior estimate, due to updated CY 2026 enrollment and rate estimates. Additionally, FFS has shifted to the FFS base and is display only.

There is a slight increase from FY 2025-26 to FY 2026-27, in the current estimate, due to higher projected CY 2027 rate growth.

Methodology:

1. Payments will be made via fee-for-service supplemental payments and increased managed care capitation payments.
2. This policy became effective July 1, 2017; however, payments began for pregnancy termination supplemental payments in December 2017, and for E&M office visit supplemental payments in January 2018.
3. Assume the combined costs for FY 2025-26 and FY 2026-27 are:

Fiscal Years	TF	GF	FF
FY 2025-26	\$51,703,000	\$22,236,000	\$29,467,000
FY 2026-27	\$52,340,000	\$22,544,000	\$29,796,000

4. FFS expenditures are display only and are captured in the FFS base. FFS expenditures for FY 2025-26 and FY 2026-27 are estimated to be:

PROP 56 - WOMEN'S HEALTH SUPPLEMENTAL PAYMENTS

FY 2025-26	TF	GF	FF
E&M Office Visits	\$44,276,000	\$14,810,000	\$29,467,000
Medical Pregnancy Termination	\$1,491,000	\$1,491,000	\$0
Total	\$45,768,000	\$16,301,000	\$29,467,000
FY 2026-27	TF	GF	FF
E&M Office Visits	\$44,771,000	\$14,975,000	\$29,796,000
Medical Pregnancy Termination	\$1,482,000	\$1,482,000	\$0
Total	\$46,253,000	\$16,457,000	\$29,796,000

5. MC expenditures for FY 2025-26 and FY 2026-27 are estimated to be:

FY 2025-26	TF	GF	FF
E&M Office Visits	\$0	\$0	\$0
Medical Pregnancy Termination	\$5,935,000	\$5,935,000	\$0
Total	\$5,935,000	\$5,935,000	\$0
FY 2026-27	TF	GF	FF
E&M Office Visits	\$0	\$0	\$0
Medical Pregnancy Termination	\$6,087,000	\$6,087,000	\$0
Total	\$6,087,000	\$6,087,000	\$0

Purpose:

This policy change estimates the cost of providing funding to support to the California Association of Free and Charitable Clinics (CAFCC).

Authority:

Budget Act of 2021 [- AB 128 (Chapter 21, Statutes of 2021)]

Interdependent Policy Changes:

Not Applicable

Background:

AB 128 (Chapter 21, Statutes of 2021), the Budget Act of 2021, provides funding to support free and charitable clinics that are 501(c)(3) tax-exempt organizations, or operate as a program component or affiliate of a 501(c)(3) organization and do not qualify as Medi-Cal providers. The funds shall be distributed to the CAFCC and the amount allocated to each Free Clinic shall be determined through an allocation methodology developed by the CAFCC.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Assume an ongoing payment of \$2 million General Fund (GF) annually to the CAFCC beginning in FY 2021-22.

(Dollars in Thousands)

OTHER FUNDS	\$469,703,000	\$461,817,000

Purpose:

This policy change replaces General Fund expenditures for base rate increases for physician services with Proposition 56 funds and for specified supplemental payments, to the extent there is sufficient Proposition 56 revenue.

Authority:

California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Proposition 56)

Interdependent Policy Changes:

See Funding Chart Below

Background:

Effective April 2017, Proposition 56 (Prop 56) increased taxes imposed on distributors of cigarettes and tobacco products and allocates a specified percentage of those revenues to increase funding for existing health care programs under the Medi-Cal program relative to the level of general funds in effect on January 1, 2016.

The Budget Act of 2017 and subsequent Budget Acts allocated Prop 56 funds for supplemental payments for physician services. Pursuant to AB 118 (Chapter 42, Statutes of 2023), the Department increased base rates for physician services to incorporate amounts equivalent to the Prop 56 physician services supplemental payments effective for dates of services beginning January 1, 2024. These increased base payment levels exceed those in effect as of January 1, 2016.

The Budget Act of 2025 eliminated Dental supplemental payments effective July 1, 2026.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated expenditure projections for Prop 56 payments.

PROPOSITION 56 FUNDING

The change from FY 2025-26 to FY 2026-27, in the current estimate, is based on updated expenditure projections for Prop 56 payments and changes in the projected amount of Prop 56 funding available in FY 2026-27.

Methodology:

1. The nonfederal share of Prop 56 payment items is initially budgeted as General Fund costs in the respective policy changes for these payments and the rates for physician services are budgeted in the base policy changes. Subsequently, this policy change replaces the General Fund with Healthcare Treatment Fund for those rates and payments budgeted to be supported by Prop 56. In 2025-26, Prop 56 revenues are projected to be \$469,703,000. This amount is budgeted to offset the non-federal share of cost for physicians services base rate increases (exceeding base payment levels in effect as of January 1, 2016) that are budgeted in base policy changes. The General Fund amount not paid by Prop 56 revenues is projected to total \$98,841,000 in FY 2025-26.

FY 2025-26	Total Funds	General Fund	Proposition 56
PROP 56 - DENTAL SERVICES SUPPLEMENTAL PAYMENTS	\$348,207,000	\$348,207,000	\$0
PROP 56 - MEDI-CAL FAMILY PLANNING	\$221,542,000	\$221,542,000	\$0

PROP 56 - DIRECTED PAYMENT RISK MITIGATION	(\$23,441,000)	(\$23,441,000)	\$0
Total of GF Dollars in Prop 56 PCs	\$568,544,000	\$568,544,000	\$0
Prop 56 Funding Available for Physician Services Base Rate Increases	\$0	(\$469,703,000)	\$469,703,000
Totals	\$0	(\$469,703,000)	\$469,703,000

PROPOSITION 56 FUNDING

2. In 2026-27, Prop 56 revenues are projected to be \$461,817,000. This amount is budgeted to offset the non-federal share of cost for physicians services base rate increases (exceeding base payment levels in effect as of January 1, 2016) that are budgeted in base policy changes.

FY 2026-27	Total Funds	General Fund	Proposition 56

GENERAL FUND	-\$21,481,000	-\$26,035,000
OTHER FUNDS	\$21,481,000	\$26,035,000

Purpose:

This policy change estimates the savings to the General Fund (GF) due to the intergovernmental transfer (IGT) administrative and processing fees assessed to the counties or other approved public entities for the Graduate Medical Education Payments (GME) to Designated Public Hospitals (DPHs).

Authority:

SB 97 (Chapter 52, Statutes of 2017)
State Plan Amendment (SPA) 17-0009

Interdependent Policy Changes:

Not Applicable

Background:

In March 2020, the Centers for Medicare and Medicaid Services approved SPA 17-0009, with an effective date of January 1, 2017, for the Department to make new Medi-Cal GME supplemental payments to DPHs participating in the Medi-Cal managed care program. The Department will budget the GME payments to the DPHs and their affiliated governmental entities; IGTs will fund the nonfederal share of the cost. A 5% administrative fee will be assessed on the IGTs in order to reimburse the Department for support costs associated with administering the program. Fees assessed in excess of the support costs will result in a savings to the GF.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- The revised fee amounts for FY 2024-25 Final Settlement increased due to updated data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Higher support costs in FY 2026-27 due to anticipated increases in annual merit salary adjustments and statewide salary increases.

IGT ADMIN. & PROCESSING FEE

- Higher interim payment and final settlement amounts are subject to the fee in FY 2026-27 due to higher direct and indirect graduate medical costs.

Methodology:

- Assume the fee for GME supplemental payments will be 5% of the aggregate nonfederal share, which is calculated at 50% FMAP of the Total Funds (TF) from the Graduate Medical Education Payments to DPHs policy change.
- Beginning SFY 2018-19, GME support costs may be calculated and reimbursed through GME administrative fees.
- The reimbursement to the GF will be the 5% administrative fee amount less any support costs.
- Support costs will not be reduced from administrative fees collected as a result of final settlements because the support costs were reimbursed in full from administrative fees collected during interim payments.
- Administrative costs will be collected each quarter during interim payments. Support costs are not available for reporting until at least one month after the close of the payment period; therefore, support costs for the entire state fiscal year will be calculated one quarter after the close of the respective state fiscal year. Funds transferred to the GF will not occur until support costs are calculated.

FY 2025-26	IGT Subject to the Fee	5% Admin Fee	Support Costs	Reimbursement to GF
FY 2024-25 Interim Payment	\$299,020,000	\$14,951,000	\$197,000	\$14,754,000

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the supplemental payments to publicly owned or operated ground emergency medical transportation (GEMT) service providers.

Authority:

AB 678 (Chapter 397, Statutes of 2011)
 SB 523 (Chapter 773, Statutes of 2017)
 State Plan Amendment (SPA) 09-024

Interdependent Policy Changes:

Not Applicable

Background:

A provider that delivers GEMT services to Medi-Cal members will be eligible for supplemental payment under the GEMT Supplemental Payment Program for services if the following requirements are met:

1. The provider must be enrolled as a Medi-Cal provider for the period being claimed, and
2. The provider must be owned or operated by the state, a city, county, city and county, federally recognized Indian tribe, health care district, special district, community services district, or fire protection district.

Supplemental payments combined with other reimbursements cannot exceed 100% of actual costs.

Specified governmental entities will pay the non-federal share of the supplemental reimbursement through certified public expenditures (CPEs). The supplemental reimbursement program is retroactive to January 30, 2010. The Centers for Medicare and Medicaid Services (CMS) approved SPA 09-024 on September 4, 2013. Annual payments are scheduled to be submitted on a lump-sum basis following the State fiscal year.

GEMT SUPPLEMENTAL PAYMENT PROGRAM

Assembly Bill (AB) 1705, effective January 1, 2023, requires the Department to implement a public provider GEMT intergovernmental transfer (IGT) program. The public providers that participate in the GEMT Supplemental Payment Program transitioned into the new GEMT IGT program, so the GEMT Supplemental Payment Program sunset on December 31, 2022. However, closeout activities for the GEMT Supplemental Payment Program, such as interim and final reconciliations, will continue after the effective date of AB 1705.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- FY 2018-19 through FY 2020-21 final reconciliations were added in this estimate due to delays of cost report audits.
- FY 2021-22 final reconciliation recoupments increased and FY 2022-23 final reconciliation recoupments decreased based on updated data.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Only FY 2022-23 final reconciliations are assumed to be processed in FY 2026-27.

Methodology:

1. The Affordable Care Act (ACA) allows for enhanced 100% FMAP for calendar years (CY) 2014 through 2016, 95% FMAP for CY 2017, 94% FMAP for CY 2018, 93% for CY 2019, and 90% for CY 2020 and after for newly eligible Medi-Cal members. The ACA reimbursement methodology was approved by CMS in August 2017.
2. Effective July 1, 2018, SB 523 established the GEMT Provider Quality Assurance Fee (QAF) Program. GEMT QAF payments will reduce GEMT CPE reimbursements beginning in FY 2018-19.
3. The GEMT CPE supplemental reimbursements sunset on December 31, 2022.
4. Interim reconciliations are performed within two years of receipt of the as-filed cost report. Final reconciliations are based on audited cost reports, and the audit and settlement process is completed within three years of the postmark date of the approved cost report. All remaining cost report audits and final reconciliations are expected to be completed within FY's 2025-26 and 2026-27.

GEMT SUPPLEMENTAL PAYMENT PROGRAM

The estimated payments on a cash basis are:

Purpose:

This policy change estimates the funding adjustment for the fee-for-service (FFS) COVID-19 vaccine payments to shift payments made at various Federal Medicaid Assistance Percentages (FMAPs) to 100% FMAP.

Authority:

American Rescue Plan Act (ARPA)

Interdependent Policy Changes:

Not Applicable

Background:

On March 11, 2021, the President signed ARPA into law. The ARPA makes coverage of COVID-19 vaccines and their administration mandatory benefits under Medicaid for the period beginning on the date of the enactment through the last day of the first calendar quarter that begins at least one year after the last day of the emergency period declared by the Secretary of Health and Human Services (HHS). As of April 1, 2021, the FMAP for COVID-19 vaccines and administration of vaccines is increased to 100% for most Medi-Cal claims through September 30, 2024.

Prior to September 2023, the COVID-19 vaccine ingredient costs were paid directly by the federal government. Starting in September 2023 with the updated COVID-19 vaccine, the federal government will no longer be purchasing the vaccine and Medi-Cal will be responsible for the reimbursement of the COVID-19 vaccine ingredient cost, administration fee, and, as applicable, dispensing fee. Medi-Cal payments for all applicable COVID-19 vaccine costs are expected to start in October 2023.

Starting in October 2024, the 100% federal funding will end and the applicable FMAPs will apply.

COVID-19 VACCINE FUNDING ADJUSTMENT

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a portion of the adjustments previously projected for FY 2024-25 shifting to FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the expectation that the funding adjustment will be completed in FY 2025-26.

Methodology:

1. Quarters starting October 2023 to September 2024 adjusts for COVID-19 ingredient costs, vaccine administration costs, and dispensing fees to 100% FMAP.
2. Funding adjustments for the October 2023 to September 2024 quarters will be made in FY 2025-26.
3. The funding adjustments are expected to be completed in FY 2025-26.

Purpose:

This policy change estimates the impact of ending COVID-19 public health emergency (PHE) unwinding flexibilities.

Authority:

Families First Coronavirus Response Act (FFCRA)
 Coronavirus Aid, Relief, and Economic Security (CARES) Act
 Consolidated Appropriations Act, 2023

Interdependent Policy Changes:

Not Applicable

Background:COVID-19 Pandemic

On March 4, 2020, Governor Newsom declared a state of emergency in response to the developing COVID-19 pandemic. A statewide stay at home order was introduced on March 19, 2020. The federal government declared a national public health emergency on January 31, 2020, and a national emergency on March 13, 2020. These actions triggered the availability of Medicaid and Children's Health Insurance Program flexibilities, including under Section 1135 of the Social Security Act. Additionally, the President signed major federal legislation—including the FFCRA and the CARES Act—that provided increased federal funding in Medicaid and created new options for states to address the COVID-19 pandemic.

Continuous Coverage Requirement

The FFCRA included a "continuous coverage requirement." Under the continuous coverage requirement, states were required to halt most disenrollment of Medicaid members enrolled at the beginning of the enrollment period or who would have enrolled during the emergency period until the end of the month the public health emergency ends in order to receive a temporary increase in the federal medical assistance percentage (FMAP). The Medi-Cal caseload increased due to reduced disenrollment under the continuous coverage requirement.

COVID-19 END OF UNWINDING FLEXIBILITIES

PHE Unwinding

The Consolidated Appropriations Act, 2023, was approved on December 29, 2022. As part of the process of unwinding pandemic policies, the Consolidated Appropriations Act, 2023, ended the continuous coverage requirement on March 31, 2023, and required states to redetermine eligibility for all members. In Medi-Cal, the resumption of eligibility determinations began in April 2023 for beneficiaries due for renewal in June 2023. Those determined to still be eligible continue to be enrolled, while those determined to no longer be eligible began to be disenrolled in July 2023.

Individuals that are determined ineligible for Medi-Cal through this process have the opportunity to cure deficiencies in their renewal and regain coverage if found eligible. The vast majority of individuals found ineligible for Medi-Cal through the redetermination process are eligible for other forms of health coverage, including through an employer and through Covered California.

Unwinding Flexibilities

During the course of the unwinding period, DHCS adopted flexibilities offered by the federal government to help increase administrative efficiencies in the Medi-Cal renewal process. The 17 federal flexibilities California elected to adopt were new policy solutions that helped DHCS streamline renewals and ease the burden on Medi-Cal members and counties as Medi-Cal members were redetermined within 12 months. Specifically, two of the 17 federal waivers are income-related waivers, known as zero income waivers and 100 percent federal poverty level (FPL) waiver, that have yielded significant retention in Medi-Cal caseload through the auto-renewal, or ex parte process. An additional waiver, called the stable income waiver, also contributed to coverage retention for Medi-Cal members in the Seniors, and Persons with Disabilities coverage groups. Per federal guidance released in May 2024, the federal waivers are available through June 30, 2025.

Reason for Change:

The change for FY 2025-26 from the prior estimate is a decrease in costs due to updated information.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in costs due to the ramp up of disenrollments continuing as a result of the ending of the June 30, 2025, flexibilities.

Methodology:

1. The Estimate assumes that unwinding flexibilities end June 30, 2025. The Estimate assumes that upon the end of flexibilities disenrollments increase in August 2025 to a level similar to September 2023 through November 2023, and then gradually return to levels consistent with prior to the pandemic over the following 12 months. Consistent with these assumptions, the estimated change in member months relative to base projections, with estimated per member per month costs, is:

COVID-19 END OF UNWINDING FLEXIBILITIES

	FY 2025-26		FY 2026-27	
Aid Category Group	Member Months	Average Cost Per Member Per Month	Member Months	Average Cost Per Member Per Month
Newly (ACA Expansion)	-1,678,000	\$614	-3,543,600	\$639
Families and Children	-860,800	\$347	-2,032,900	\$361
Seniors	-326,600	\$1,051	-807,600	\$1,095
Total	-2,865,500	\$584	-6,384,000	\$608

2. After accounting for payment lags, the impact of unwinding flexibilities ending June 30, 2025, is shown below. This impact is highly uncertain.

GENERAL FUND	\$397,679,000	\$1,888,000
OTHER FUNDS	\$168,674,000	\$0

Purpose:

This policy change estimates (1) the return of Federal Financial Participation (FFP) to the federal government for claiming for non-emergency or non-pregnancy related services provided to individuals without satisfactory immigrant status in full-scope Medi-Cal coverage.

Changes in claiming processes as a result of the updates described in this policy change will also affect the amount of federal funding the state will claim compared to the amount that was claimed in the past, on an ongoing basis. These prospective, ongoing impacts are reflected in various policy changes that correspond to the various services these claiming processes support.

Authority:

Not Applicable

Interdependent Policy Changes:

Not Applicable

Background:

California provides state-only full scope Medi-Cal services to certain immigrant populations who meet all Medi-Cal eligibility requirements except for their citizenship status. For these covered populations, FFP is only available for emergency and pregnancy-related services, and nonemergency and non-pregnancy related services are paid using state-only funds. Affected populations include qualified non-citizens subject to the five-year bar, individuals who are Permanent Residents or Permanently Residing Under Color of Law, and individuals under 26 years of age who otherwise meet all Medi-Cal eligibility criteria (such as income and state residency) but for their citizenship status.

The Department identified claiming for ineligible covered benefits and is required to return the federal funding to the Centers for Medicare and Medicaid Services (CMS). The Department has estimated the FFP amounts subject to repayment that must be retroactively returned and updates to associated claiming methodologies for prospective use.

STATE-ONLY CLAIMING ADJUSTMENTS - RETRO ADJ.

CMS Deferrals

CMS has issued a number of deferrals for the state only claiming issue. The Department anticipates that these deferrals will ultimately be reconciled against the Department's total estimated repayments owed to the federal government once retroactive adjustments are complete and claiming process changes are in place. See the CMS Deferred Claims policy change for details on CMS deferral payments.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- Pharmacy rebate repayments for periods from July 2020 through December 2021 shifted from FY 2024-25 to FY 2025-26.
- The estimated impact of repayments for pharmacy claims for individuals with a blank immigration status indicator has been revised upward based on better data after systems were updated to claim correctly.
- Adding repayments for fee-for-service (FFS) supplemental payments for retroactive periods in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- Almost all retroactive repayments except for a small amount related to pharmacy rebates are expected to have been completed in FY 2025-26, leaving relatively much smaller repayments in FY 2026-27.

Methodology:

1. Estimated FFP repayments for Pharmacy Rebates in FY 2025-26 cover claims from July 2020 through December 2021 and repayments in FY 2025-26 cover claims from January 2022 through December 2021.
2. Repayments in FY 2025-26 related to pharmacy claims are for members with a missing immigration status indicator. This amount increased relative to the previous estimate to incorporate better data that became available after systems were updated to claim correctly.
3. Repayments for FFS supplemental payment programs are estimated to be paid in FY 2025-26. The total repayment amount and state costs will be subject to change pending ongoing review and adjustment to claiming processes as well as the availability of various non-federal share sources for the repayments.

STATE-ONLY CLAIMING ADJUSTMENTS - RETRO ADJ.

4. The estimated net retroactive adjustments are:

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match to the California Department of Developmental Services (CDDS) for participant-directed Home and Community Based Services (HCBS) for persons with developmental disabilities under a 1915(i) state plan option.

Authority:

Section 6086 of the Deficit Reduction Act (DRA) of 2005, Public Law 109-171
Interagency Agreement (IA) 09-86388

Interdependent Policy Changes:

Not Applicable

Background:

State Plan Amendment (SPA) 09-023A was approved on April 25, 2013, retroactive to October 1, 2009. It authorizes CDDS to claim federal financial participation (FFP) for the provision of certain services by the state's Regional Center (RC) network of nonprofit providers to persons with developmental disabilities. RC consumers who received or currently receive certain services will continue to be eligible for these services even though their institutional level of care requirements for the HCBS waiver for persons with developmental disabilities are not met. Services covered under this SPA include but are not limited to: habilitation, respite care, personal care services, homemaker services, and home health aide services.

On September 29, 2016, SPA 16-016 was approved by the Centers for Medicare and Medicaid Services (CMS) to renew SPA 09-023A with an effective date of October 1, 2016. The SPA expired on September 30, 2021. The Department submitted SPA 21-0002 to CMS on March 23, 2021, to renew the 1915(i) state plan option for a new five year term effective October 1, 2021, through September 30, 2026.

ABX3 5 "AB 5" (Chapter 20, Statutes of 2009), eliminated non-emergency medical transportation and various optional services for adults in September 2009. SPA 11-041 authorizes CDDS to claim reimbursement, effective October 1, 2011 for the eliminated services rendered in FY 2011-12 and forward, enabling persons with developmental disabilities access to these benefits.

ADDITIONAL HCBS FOR REGIONAL CENTER CLIENTS

On October 9, 2015, SPA 11-040 was approved, retroactive to October 1, 2011, which extends Medi-Cal coverage for existing infant development programs provided to Medi-Cal eligible infants and toddlers with a developmental delay. The Department and CDDS have a separate IA to draw down FFP for infant development services.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to higher than anticipated prior year expenditures in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to an increase in service utilization and lower prior year expenditures in FY 2026-27.

Methodology:

The following estimates, on a cash basis, were provided by CDDS.

(Dollars in Thousands)

Fiscal Year	TF	CDDS GF	FF
FY 2025-26	\$2,169,676	\$1,084,838	\$1,084,838
FY 2026-27	\$2,149,128	\$1,074,564	\$1,074,564

Funding:

100% Title XIX FFP (4260-101-0890)

BEHAVIORAL HEALTH BRIDGE HOUSING**FISCAL REFERENCE NUMBER:2354**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$281,087,000	\$43,000,000
FEDERAL FUNDS	\$0	\$0

OTHER FUNDS	\$42,000,000	\$43,000,000
% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$281,087,000	\$43,000,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$239,087,000	\$0
OTHER FUNDS	\$42,000,000	\$43,000,000

Purpose:

This policy change estimates the costs for behavioral health bridge housing.

Authority:

Budget Act of 2022 [AB 179 (Chapter 249, Statutes of 2022)]

Budget Act of 2024 [SB 108 (Chapter 166, Statutes of 2024)]

Budget Act of 2025

Interdependent Policy Changes:

Not Applicable.

Background:

Funding for behavioral health bridge housing is proposed to address the immediate housing and treatment needs of people experiencing unsheltered homelessness with serious behavioral health conditions by providing time-limited operational supports in various bridge housing settings, including existing assisted living settings.

Reason for Change:

The change in FY 2025-26 from the prior estimate, is a net decrease due to the carryover of a portion of General Fund (GF) expenditures previously estimated in FY 2024-25 into FY 2025-26, and the reallocation of a portion of Behavioral Health Services Fund (BHSF) expenditures from FY 2025-26 to FY 2026-27.

The change from FY 2025-26 to FY 2026-27 in the current estimate, is a decrease due to no GF appropriations remaining to be spent in FY 2026-27. In addition, FY 2026-27 only budgets the remaining BHSF appropriation.

Methodology:

1. Of the \$957,936,000 GF appropriated for behavioral health bridge housing, assume \$766,349,000 GF was estimated in FY 2024-25 and earlier, available for expenditure through June 30, 2027.

BEHAVIORAL HEALTH BRIDGE HOUSING

Assume \$132,500,000 GF is appropriated to the Department for behavioral health bridge housing in FY 2024-25. The General Funds are reduced by \$40,000,000 GF in FY 2024-25 and reduced by \$45,000,000 GF in FY 2025-26.

Assume \$85,000,000 BHSF is appropriated to the Department in FY 2025-26.

2. The table below displays the estimated spending and remaining funds by Appropriation Years.

The estimated costs in FY 2025-26 and FY 2026-27 are as follows:

(Dollars in Thousands)

	TF	GF	BHSF
Appropriation Year 2022-23	\$957,936	\$957,936	\$0
Prior Years	\$766,349	\$766,349	\$0
Estimated in FY 2025-26	\$191,587	\$191,587	\$0
Total Estimated Remaining	\$0	\$0	\$0
Appropriation Year 2024-25	\$47,500	\$47,500	\$0
Estimated in FY 2025-26	\$47,500	\$47,500	\$0
Total Estimated Remaining	\$0	\$0	\$0
Appropriation Year 2025-26	\$85,000	\$0	\$85,000
Estimated in FY 2025-26	\$42,000	\$0	\$42,000
Estimated in FY 2026-27	\$43,000	\$0	\$43,000
Total Estimated Remaining	\$0	\$0	\$0

3. The estimated costs in FY 2025-26 and FY 2026-27 are as follows:

(Dollars in Thousands)

FY 2025-26	TF	GF	BHSF
Appropriation Year 2022-23	\$191,587	\$191,587	\$0
Appropriation Year 2024-25	\$47,500	\$47,500	\$0

OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0.0000%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$335,534,000	\$369,165,000
FEDERAL FUNDS	\$335,534,000	\$369,165,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match for the Self Determination Program (SDP) Waiver of the California Department of Developmental Services (CDDS).

Authority:

Welfare & Institutions (W&I) Code Section 4685.8
Interagency Agreement (IA) 19-96260

Interdependent Policy Changes:

Not Applicable

Background:

CDDS, under a federal Home and Community Based Services (HCBS) 1915 (c) waiver, offers and arranges for non-State Plan Medicaid services via the Regional Center system. The SDP waiver allows the State to offer these services to individuals who would otherwise require the level of care provided in a hospital, nursing facility (NF), or in an intermediate care facility for the developmentally disabled (ICF/DD). Services covered under this waiver include but are not limited to: home health aide services, community living and integration supports, non-medical transportation, communication support, family and consumer training, homemaker, nutritional consultation, specialized medical equipment/supplies, respite services, personal emergency response system, crisis intervention and support, employment and prevocational supports, vehicle and environmental accessibility adaptations, skilled nursing, financial management services, independent facilitator services, and transition/set-up expenses.

While the General Fund for this waiver is in the CDDS budget on an accrual basis, the federal funds in the Department's budget are on a cash basis.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to higher prior year expenditures in FY 2025-26.

SELF-DETERMINATION PROGRAM - CDDS

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to projected increases to expenditures with increased service utilization and higher current year expenditures for FY 2026-27.

Methodology:

The following estimates, on a cash basis, were provided by CDDS:

(Dollars in Thousands)

Fiscal Year	TF	CDDS GF	FF
FY 2025-26	\$671,067	\$335,533	\$335,534
FY 2026-27	\$738,329	\$369,164	\$369,165

Funding:

100% Title XIX (4260-101-0890)

QUALIFYING COMMUNITY-BASED MOBILE CRISIS SERVICES**FISCAL REFERENCE NUMBER:2329**

	FY 2025-26	FY 2026-27
TOTAL IMPACT

GENERAL FUND	\$28,179,000	\$28,083,000
OTHER FUNDS	\$0	\$28,208,000

Purpose:

This proposal estimates the cost for counties to provide qualifying community-based mobile crisis intervention services to Medi-Cal members in need of Medi-Cal behavioral health services.

Authority:

Welfare & Institutions Code 14680-14685.1
 California Constitution Article XIII Section 36
 Specialty Mental Health Services (SMHS) Program 1915(b) Waiver
 Drug Medi-Cal Organized Delivery System (DMC-ODS) 1115 Waiver
 22 CCR § 51341.1
 American Rescue Plan (ARP) Act of 2021

Interdependent Policy Changes:

Not Applicable

Background:

Under existing law, the Department is responsible for administering the Medi-Cal Specialty Mental Health Services (SMHS) Waiver Program that provides SMHS to Medi-Cal members through county Mental Health Plans (MHPs). The Department is also responsible for administering substance use disorder (SUD) treatment services through the Drug Medi-Cal Organized Delivery System (DMC-ODS), and the Drug Medi-Cal (DMC) program, for counties not participating in the DMC-ODS.

Crisis intervention services is a current benefit in SMHS, DMC-ODS, and DMC, and counties are required to provide or arrange the services anywhere in the community. However, these services are not currently required to be provided or arranged as “mobile” services, nor are they required to be available in the community 24 hours a day, 7 days a week, with on-call, multidisciplinary teams. Additionally, as currently defined, crisis intervention services does not meet the new federal definition for qualifying community-based mobile crisis intervention services.

QUALIFYING COMMUNITY-BASED MOBILE CRISIS SERVICES

The Department added qualifying community-based mobile crisis intervention services, as of January 1, 2023, for a five-year period, as a mandatory Medi-Cal benefit in SMHS, DMC, and DMC-ODS, available to eligible Medi-Cal members, statewide, 24 hours a day, 7 days a week, 365 days a year implemented through the Medi-Cal behavioral health delivery systems by multidisciplinary mobile crisis teams in the community. The Department developed statewide standards for the new service, including requirements for the multidisciplinary team. The benefit would be provided outside a hospital or other facility setting and include rapid response, assessment, community-based stabilization and de-escalation, warm handoffs, and coordination with and referrals to health, social, and other services and supports, as appropriate.

Section 9813 of the ARP Act provides states with the option of providing qualifying community-based mobile crisis intervention services during a five-year period, starting April 1, 2022, through March 31, 2027, including an opportunity for 12 fiscal quarters of 85 percent federal medical assistance percentage for qualifying services beginning January 1, 2024. The ARP Act requires the additional federal medical assistance percentage to supplement, not supplant, the level of state spending for these services in the fiscal year before the first quarter the state elects to implement this service. No current Medi-Cal behavioral health services meet the federal definition of a qualifying community-based mobile crisis intervention services.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to updated projections based on actual claims for SMHS and Cohort 2 from FY 2024-25, and the removal of costs for DMC-ODS and DMC State Plan because no claims were received.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase in the total fund due to projected growth in claims for FY 2026-27. In addition, Mobile Crisis Services are scheduled to sunset on March 31, 2027.

Methodology:

1. To estimate the cost of qualifying community-based mobile crisis intervention services related to SMHS, the total FY 2024-25 approved claims for Mobile Crisis Services were used as the baseline. Annual costs are assumed to follow the trend observed in FY 2024-25 claims.
2. Beginning January 1, 2024, under the ARP Act, qualifying community-based mobile crisis intervention services are funded with 85% Federal Fund (FF) and 15% GF through December 31, 2026, and the benefit's current federal statutory expiration date is March 31, 2027. Beginning January 1, 2027, funding will switch to 50% FF and 50% General Fund (GF). The GF portion will be paid through the 988 State Suicide and BH Crisis Fund. Current state statute sunsets the benefit in alignment with the federal expiration.
3. The accrual estimates based on actual claims for FY 2024-25 and projected for FY 2025-26, and FY 2026-27 are:

Accrual Basis	FY 2024-25	FY 2025-26	FY 2026-27
Mobile Crisis Response – SMHS	\$110,590,000	\$220,805,000	\$248,264,000
Cohort 2	\$995,000	\$2,154,000	\$2,484,000

OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets for withheld Fee-for-Service payments (FFS) associated with the Hospital Quality Assurance Fee (HQAF), AB 1629 Skilled Nursing Facilities (SNF) QAF, Intermediate Care Facilities for the Developmentally Disabled (ICF/DDs) QAF, and Ground Emergency Medical Transportation (GEMT) QAF.

Authority:

Welfare & Institutions (W&I) Code, Section 14169.52(h)
W&I Code, Section 14129.2(d)(2)
Health and Safety Code, Section 1324.22(e)(2)
Provider Bulletin LTC June 2009, #388, Code Section 103

Interdependent Policy Changes:

Long Term Care Quality Assurance Fund Expenditures

Background:

To recover past due QAF from delinquent providers, the Department currently withholds portions of the delinquent provider's FFS payments, applies those payments to the delinquent QAF debt, and transfers the withheld portion. As Medi-Cal is on a cash basis, these expenditures were originally budgeted in the fiscal year the claim was processed.

For the HQAF, the withheld portion is transferred to the Hospital Quality Assurance Revenue Fund.

For AB 1629 SNF and ICF/DD QAF, the withheld portions are transferred to the Long Term Care Quality Assurance Fund (LTC QAF), and subsequently to the General Fund (GF), providing savings once the transfer occurs. The fund adjustment from the LTC QAF to the GF is budgeted in the Long Term Care Quality Assurance Fund Expenditures policy change.

For GEMT QAF, the withheld portion is transferred to the Medi-Cal Emergency Medical Transport Fund.

QAF WITHHOLD TRANSFER

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- For HQAF, the FY 2025-26 prior year withhold transfers increased and HQAF withholds pending transfer are lower than previously estimated.
- For LTC QAF, FY 2025-26 prior year withholds are expected to decrease slightly and new withholds pending transfer are expected to decrease.
- For GEMT, the estimate decreased due to FY 2025-26 prior year withhold transfers coming in lower than previously expected and an increase in new withholds pending transfer amounts greater than previously assumed.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- For HQAF, the FY 2026-27 estimate is assumed to decrease due to reductions in prior year withhold transfers when compared to FY 2025-26.
- For LTCQAF, the FY 2026-27 estimate decreased when compared to FY 2025-26 because LTCQAF prior year withhold transfer amount contain an additional week due to the timing of the transfers.
- For GEMT QAF, the FY 2026-27 estimate is assumed to increase for GEMT prior year withhold transfers when compared to FY 2025-26.

Methodology:

HQAF

1. Prior year FY 2024-25 HQAF withheld payments totaling \$74.26 million Total Fund (TF) will be transferred in FY 2025-26.
2. An estimated \$3.21 million TF in HQAF withholds will occur in FY 2025-26. These withholds are pending transfer in the next FY and offsets a portion of the \$74.26 million HQAF withhold transfer.
3. An estimated \$3.21 million TF of FY 2025-26 HQAF withheld payments will be paid in FY 2026-27. This prior year withhold transfer is offset by \$2.14 million in withholds that are estimated to occur in FY 2026-27 but are pending transfer in FY 2027-28.

LTC QAF

4. Prior year FY 2024-25 LTC QAF withheld payments totaling \$2.14 million TF will be transferred in FY 2025-26.
5. An estimated \$1.62 million TF in LTC QAF withholds will occur in FY 2025-26. These withholds are pending transfer in the next FY and offsets a portion of the \$2.14 million LTC QAF withhold transfer.
6. An estimated \$1.62 million of FY 2025-26 LTC QAF withheld payments will be paid in FY 2026-27. This prior year withhold transfer is offset by \$1.62 million in withholds that are estimated to occur in FY 2026-27 but are pending transfer in FY 2027-28.

GEMT QAF

7. Prior year FY 2024-25 GEMT withheld payments totaling \$0.008 million TF will be transferred in FY 2025-26.
8. An estimated \$0.016 million in GEMT QAF withholds will occur in FY 2025-26. These withholds are pending transfer in the next fiscal year and offsets a portion of the \$0.008 million GEMT QAF withhold transfer.

QAF WITHHOLD TRANSFER

9. An estimated \$0.016 million of FY 2025-26 GEMT QAF withheld payments will be paid in FY 2026-27. This prior year withhold transfer is offset by \$0.016 million in withholds that are estimated to occur in FY 2026-27 but are pending transfer in FY 2027-28.

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$69,300,000	\$69,300,000

Purpose:

This policy change estimates costs related to the launch of a statewide infrastructure for provider management and to manage billing and claiming for the behavioral health (BH) services furnished to students by school-based/school-linked providers, under the Children and Youth Behavioral Health Initiative (CYBHI) fee schedule.

Authority:

W&I Code, Section 5961 and 5961.4
Contract 23-30348

Interdependent Policy Change:

Not Applicable

Background:

As part of CYBHI, the Department is mandated to establish a statewide multi-payer fee schedule to reimburse school-linked BH providers who provide services to students at or near a school-site. Specifically, the Department is required to:

- Develop and maintain a school-linked statewide fee schedule for medically necessary outpatient mental health or substance use disorder services provided to a student 25 years of age or younger at or near a school site, who is an enrollee of the plan or delivery system.
- Develop and maintain a school-linked statewide provider network of school site BH counselors.

Commercial health plans, disability health insurers, and the Medi-Cal delivery system must reimburse these school-linked providers at or above the fee schedule rate, regardless of network provider status. Local educational agencies (LEAs) and public institutions of higher education (IHEs), including California Community Colleges, California State Universities, and Universities of California may participate in the CYBHI Fee Schedule program BH network as providers of reimbursable services.

CYBHI - FEE SCHEDULE THIRD PARTY ADMINISTRATOR

There are significant operational complexities around provider management and claims submission for the school-based/school-linked providers. Although many LEA districts participate in the LEA Billing Option Program (BOP), LEAs, and IHEs do not currently have billing infrastructure necessary to submit claims to multiple Medi-Cal managed care plans, commercial health plans, and disability health insurance plans in each county. Almost none of the school-based providers have any experience with billing commercial or disability health insurance plans for services provided to students.

In addition, although the statute states that the health plans are required to reimburse school-linked providers regardless of network status, there are also operational complexities around provider management, including critical functions such as provider and practitioner credentialing and provider network oversight.

The CYBHI is a multiyear package of investments. The CYBHI is intended to transform California's behavioral health system for children and youth aged 0-25 into a world-class, innovative, up-stream focused, ecosystem where all children and young adults are routinely screened, supported, and served for emerging behavioral health needs.

Reason for Change:

There is no change from the previous estimate for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

Estimated dollars for FY 2025-26 and FY 2026-27 are as follows:

Fiscal Year	TF	SF	FF
FY 2025-26	\$69,300,000	\$69,300,000	\$0
FY 2026-27	\$69,300,000	\$69,300,000	\$0

FEDERAL FUNDS	\$84,999,000	\$78,115,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal financial participation (FFP) for transportation and day care costs of Intermediate Care Facility - Developmentally Disabled (ICF-DD) members for the California Department of Developmental Services (CDDS).

Authority:

Interagency Agreement (IA) 07-65896

Interdependent Policy Changes:

Not Applicable

Background:

Members that reside in ICF-DDs receive active treatment services from providers located off-site from the ICF-DD. The active treatment and transportation are currently arranged for and paid by the local Regional Centers, which in turn bills the CDDS for reimbursement with 100% General Fund (GF) dollars.

On April 15, 2011, the Centers for Medicare and Medicaid Services (CMS) approved a State Plan Amendment (SPA) to obtain FFP for the transportation and day care costs of ICF-DD members. CMS approved reimbursement for these costs retroactive to July 1, 2007.

The GF is in the CDDS budget on an accrual basis and the federal funds are on a cash basis in the Department's budget.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to higher rates.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to lower prior year expenditures anticipated in FY 2026-27.

ICF-DD TRANSPORTATION AND DAY CARE COSTS- CDDS**Methodology:**

1. FY 2025-26 includes a portion of payments for FY 2022-23 and FY 2023-24 expenditures.
FY 2026-27 includes a portion of payments for FY 2024-25 and FY 2025-26 expenditures.
2. The following estimates, on a cash basis, were provided by CDDS:

(Dollars in Thousands)

Fiscal Year	TF	CDDS GF	FFP Regular
FY 2025-26	\$169,998	\$84,999	\$84,999
FY 2026-27	\$156,230	\$78,115	\$78,115

GENERAL FUND	\$20,647,550	\$9,701,850
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of the Equity & Practice Transformation Payments.

Authority:

Budget Act of 2022 – AB 179 (Chapter 249, Statutes of 2022)

Interdependent Policy Changes:

N/A

Background:

The Department administers the Equity and Practice Transformation (EPT) Payments Program, which supports qualifying primary care providers (primary care pediatrics, family medicine, internal medicine, primary care obstetrician/gynecologists, or behavioral health providers of integrated behavioral health services in a primary care setting to Medi-Cal members). The program has a MCP incentive and payments to primary care practices to do the following: advance equity; address gaps in preventive, childhood, birth-related, and behavioral health care measures; reduce COVID-19 driven care disparities; support upstream interventions to address social drivers of health; improve primary care infrastructure; and prepare practices to accept risk-based contracts and move towards value-based care payment methodologies. Such actions align with the goals of the Medi-Cal Comprehensive Quality and Equity Strategy and the Bold Goals 50x2025 initiative. Practices are paid based on improvement in relevant clinical quality measures.

The payment calculations for 2024-2026 were revised following updated guidance received from CMS in March 2025 and are now in accordance with their guidelines based on the Medi-Cal member count from November 2024, excluding D-SNP members.

The Statewide Learning Collaborative (SLC) portion of the policy change is being moved to the new FRN 2652 EPTP – Statewide Learning Collaborative policy change, as per CMS guidance. However, when determining dollars spent in prior years, the Statewide Learning Collaborative is still being budgeted towards this policy change.

EQUITY & PRACTICE TRANSFORMATION PAYMENTS

DHCS is currently evaluating the appropriate use of any remaining unspent funds. At this time, unused funds may be considered as part of future reconciliation processes, subject to ongoing evaluation and policy considerations.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated payment timing estimates, an increase to the FMAP from previous assumptions, and the movement of some items previously budgeted with this policy change to the EPTP – Statewide Learning Collaborative policy change.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to all estimated remaining program payments being scheduled to be spent by the end of FY 2026-27 and the movement of some items previously budgeted with this policy change to the EPTP – Statewide Learning Collaborative.

Methodology:

1. The Budget Act for FY 2022-23 provides \$183.4 million TF (\$70 million GF), available for expenditure through June 30, 2027. The table below displays the estimated spending by Appropriation Year:

EQUITY & PRACTICE TRANSFORMATION PAYMENTS

Prior Years

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$52,389,000	\$48,351,000

Purpose:

This policy change estimates the cost of the Medi-Cal Physicians and Dentists Loan Repayment Program.

Authority:

SB 170 (Chapter 240, Statutes of 2021)
 AB-186 (Chapter 46, Statutes of 2022)
 Welfare & Institutions Code Section 14114
 Revenue & Taxation Code Section 31005
 Contract 18-95474

Interdependent Policy Changes:

Not Applicable

Background:

The California Healthcare, Research, and Prevention Tobacco Tax Act (Proposition 56, 2016), increased the excise tax rate on cigarettes and tobacco products and allocates a portion of the tobacco tax revenue to the Department for use as the non-federal share of health care expenditures, subject to appropriation by the Legislature.

SB 840 (Chapter 29, Statutes of 2018) appropriated \$220 million in Proposition 56 funding to the Medi-Cal Physicians and Dentists Loan Repayment Program and enacted Welfare & Institutions Code 14114. The program provides loan assistance payments to qualifying, recent graduate physicians and dentists that serve members of Medi-Cal and other specified health care programs.

Each cohort will receive the payments over five years.

SB 89 (Chapter 2, Statutes of 2020) appropriated an additional \$120 million in Proposition 56 funding and made the combined \$340 million available until June 30, 2029. SB 170 (Chapter 240, Statutes of 2021) transferred the balance of these appropriations to the Loan Repayment Program Account, Healthcare Treatment Fund.

MEDI-CAL PHY. & DENTISTS LOAN REPAYMENT PROG

SB 395 (Chapter 489, Statutes of 2021) increased the excise tax on electronic cigarettes. Revenue & Taxation Code Section 31005 allocates a portion of the increased revenue to the Physicians and Dentists Loan Repayment Program.

AB 186 (Chapter 46, Statutes of 2022) allocates a portion of remitted amounts of funds collected when Medi-Cal managed care plans do not comply with a minimum 85% medical loss ratio consistent with federal requirements to the program. AB 186 also:

- Requires the Department to expend all funds appropriated from the Loan Repayment Program Account of the Healthcare Treatment Fund before expending any funds from the Medi-Cal Loan Repayment Program Special Fund; and
- Deletes the provision making this program inoperative on January 1, 2026, thereby extending it indefinitely.

The Department has contracted with Physicians for a Healthy California to implement and administer the Proposition 56 funded Physicians and Dentists Loan Repayment Program pursuant to Welfare and Institutions Code section 14114(g).

Reason for Change:

There is an increase for FY 2025-26, from the prior estimate, due to updated payment timings. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to anticipating a lower amount of Cohort payments occurring in FY 2026-27.

Methodology:

1. Cohort 1 is expected to receive \$11.1 million each year for five years, with payments beginning in FY 2020-21. Cohort 2 is expected to receive \$10.3 million each year for five years, with payments beginning in FY 2021-22. Cohort 3 is expected to receive \$11.1 million each year for five years, with payments beginning in FY 2022-23. Cohort 4 is expected to receive \$11.3 million each year for five years, with payments beginning in FY 2023-24. Cohort 5 is expected to receive \$13.9 million each year for five years, with payments beginning in FY 2024-25.
2. The contract for the administrative costs is approximately \$1.8 million in FY 2025-26 and \$1.3 million FY 2026-27, with the payments being retrospective and invoices processed the month after services have been provided.
3. For each Cohort, awardee payments are issued retrospectively on an annual basis for five years after the program administrators complete an annual review and indicate the awardees comply with program requirements.

MEDI-CAL PHY. & DENTISTS LOAN REPAYMENT PROG

4. The estimated program expenditures for FY 2025-26 and FY 2026-27 are:

Fiscal Years	TF	SF
FY 2025-26	\$52,389,000	\$52,389,000

GENERAL FUND	\$50,000,000	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the one-time funding for Proposition 36 implementation activities.

Authority:

Homelessness, Drug Addiction, and Theft Reduction Act of 2024 (Proposition 36)

Interdependent Policy Changes:

Not Applicable

Background:

In November 2024, voters approved the Homelessness, Drug Addiction, and Theft Reduction Act of 2024 (Proposition 36), to reform laws that have increased homelessness, drug addiction, and theft throughout California. Proposition 36 allows people who possess illegal drugs to be charged with a “treatment-mandated felony,” instead of a misdemeanor, in some cases. This applies to people who (1) possess certain drugs (such as fentanyl, heroin, cocaine, or methamphetamine) and (2) have two or more past convictions for some drug crimes (such as possessing or selling drugs). Individuals would receive mental health or substance use disorder treatment. Those who complete treatment would have their charges dismissed. Those who do not complete treatment could serve up to three years in state prison.

A one-time allocation of \$50 million will be available for the Department of Health Care Services (DHCS) to provide non-competitive grants to county behavioral health departments to support the implementation of Proposition 36. Grant funding will be utilized for authorized treatment services in addition to activities to support planning and capacity building needed to expand and accelerate services. Allowable expenditures include capital for housing and treatment; hiring, training, and development of policies and procedures; support for information technology infrastructure costs; and changes needed for reporting data, and case tracking.

Reason for Change:

There is no change from the prior estimate, in FY 2025-26.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is due to the one-time allocation being fully expended in FY 2025-26.

PROPOSITION 36 FUNDING

Methodology:

1. Assume \$50 million GF is provided in FY 2025-26.

(Dollars in Thousands)

FY 2025-26	TF	GF
Proposition 36	\$50,000	\$50,000

Funding:

100% GF (4260-101-0001)

FEDERAL FUNDS	\$17,637,000	\$0
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$17,637,000	\$0

Purpose:

This policy change estimates the funding available for the California Advancing and Innovating Medi-Cal (CalAIM) Providing Access and Transforming Health (PATH) Initiative for the Whole Person Care (WPC) Services and Transition to Managed Care Mitigation Initiative.

Authority:

Penal Code Section 4011.11

Welfare & Institutions Code Sections 14011.10, 14132.275, 14184.800, and 14186

AB 133 (Chapter 133, Statutes of 2021)

AB 128 (Chapter 21, Statutes of 2021)

CalAIM Section 1115(a) Medicaid Demonstration

Families First Coronavirus Response Act (FFCRA)

Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

On December 29, 2021, the Centers for Medicare & Medicaid Services (CMS) approved the CalAIM Section 1115 Wavier Demonstration, which provided funding for the CalAIM PATH Initiative through December 31, 2026. The state is authorized up to \$1.85 billion (total computable) in expenditure authority for PATH. The PATH Initiative is to build up the capacity and infrastructure of on-the-ground partners and providers to successfully participate in CalAIM Enhanced Care Management (ECM) and Community Supports, and Justice Involved (JI) Services.

Whole Person Care Services and Transition to Managed Care Mitigation Initiative

Costs for the WPC Services and Transition to Managed Care Mitigation Initiative, an initiative under PATH, are budgeted in this policy. Costs for the other PATH initiatives, Technical Assistance (TA) Initiative, Collaborative Planning and Implementation Initiative, Capacity and Infrastructure Transition, Expansion and Development (CITED) Initiative, and JI Capacity Building Program are budgeted in the CalAIM – PATH policy change.

CALAIM - PATH WPC

Under the WPC Services and Transition to Managed Care Mitigation Initiative, services provided by former WPC Pilots were funded until the services transition to managed care coverage under CalAIM. This funding ended on April 1, 2024. All of PATH funding, except for WPC Mitigation Initiatives/Funding for Sustaining Services Through the Transition to Managed Care will be considered an administrative cost and will be paid at the 50% regular administrative expenditure matching rate. Funding for Sustaining Services Through the Transition to Managed Care will be matched at the federal medical assistance percentage (FMAP) matching rate as Medicaid services and benefits.

Support for Sustaining Reentry Demonstration Initiative Services Through Transition to Managed Care

PATH provides funding to former WPC Pilot Lead Entities to maintain reentry services currently provided through former WPC Pilots that do not transition to managed care until January 1, 2023, or later. Medi-Cal services for JI populations prior to release launched in October 2024. Pre-release and reentry services that map to required ECM and MCP-offered Community Supports Services provided by former WPC Pilot will be funded until services transition to managed care. This funding will be matched at the regular administrative matching rate (50%) for these specific PATH expenditures.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to some payments shifting from FY 2024-25 into FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to all payments being completed in September 2025.

Methodology:

1. The Department has awarded eight former WPC Lead Entities to receive PATH WPC Services and Transition to Managed Care Mitigation Initiative funding. Funding was provided through an invoicing process.
2. The Department payment was made through an Intergovernmental Transfer process. The Department informed the WPC Lead Entity when their invoice had been approved. The former WPC Lead Entity had seven days to wire 50% of their approved invoice amount to the Department. The Department provided the remaining 50% federal match amount. The total 100% approved invoice amount was paid back to the former WPC Lead Entity.
3. On a cash basis, PATH WPC Program costs are estimated to be:

(Dollars in Thousands)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of increasing the minimum wage for the Home and Community-Based Services (HCBS) providers.

Authority:

SB 3 (Chapter 4, Statutes of 2016)

Interdependent Policy Changes:

Assisted Living Waiver Expansion

Background:

The passage of AB 10 in 2013 set the minimum wage in California to \$10 an hour after January 1, 2016. SB 3 requires a schedule for a phased increase in the minimum wage from \$10.50 per hour to \$15 per hour by January 1, 2022, or January 1, 2023, depending on the size of the employer and general economic conditions, and link the minimum wage to the U.S. Consumer Price Index once the minimum wage reaches \$15 per hour.

Beginning January 1, 2023, an additional set of minimum wage increases will phase in over a 5-year period from \$15 per hour to \$17 per hour by January 1, 2027.

The minimum wage increase will result in increased costs for multiple long term care programs. HCBS are predominantly provided by individuals working for minimum wage, and this increase will raise the overall cost of HCBS for the Assisted Living Waiver (ALW), Waiver Personal Care Services (WPCS), and Personal Care Agencies (PCA).

The ALW offers Medi-Cal eligible members the choice of residing in an assisted living setting as an alternative to long-term placement in a nursing facility. The goal of the ALW is to facilitate nursing facility transition back into homelike and community settings or prevent skilled nursing admissions for members with an imminent need for nursing facility placement.

The Home and Community-Based Alternatives (HCBA) Waiver provides care management services to persons at risk for nursing home or institutional placement. WPCS is a benefit under

MINIMUM WAGE INCREASE FOR HCBS WAIVERS

the HCBA Waiver and was designed to assist waiver members with remaining safely in their residence and continuing to be part of the community. A PCA is a provider that employs individuals who provide services and is enrolled as an HCBA provider in the HCBA Waiver.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to assuming all rate increases, prior January 1, 2025, are captured in the base estimates. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to capturing the January 1, 2025, January 1, 2026, and January 1, 2027, rate increases in FY 2026-27.

Methodology:

Beginning January 1, 2025, the minimum wage increased from \$16.00 to \$16.50 per hour.

Beginning January 1, 2026, the minimum wage increased from \$16.50 to \$17.00 per hour.

Beginning January 1, 2027, the minimum wage will increase from \$17.00 to \$17.50 per hour.

GENERAL FUND	\$31,806,000	\$39,557,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates county behavioral health department costs to provide services for the Community Assistance, Recovery, and Empowerment Act (CARE).

Authority:

SB 1338 (Chapter 319, Statutes of 2022)
 SB 35 (Chapter 283, Statutes of 2023)
 SB 42 (Chapter 640, Statutes of 2024)
 SB 1400 (Chapter 647, Statutes of 2024)
 SB 1323 (Chapter 646, Statutes of 2024)

Interdependent Policy Changes:

Not Applicable

Background:

The CARE Act framework delivers mental health and substance use disorder services for individuals who lack decision-making capacity due to serious mental illness. The framework provides individuals with an individualized, appropriate range of services and supports consisting of behavioral health (BH) care, stabilization medications, housing, and enumerated services.

The CARE Act connects a person in crisis with a court-ordered CARE plan for up to 12 months, with the possibility to extend for an additional 12 months. If a participant cannot successfully complete a CARE plan, the individual may be referred by the court for a conservatorship, consistent with current law. For individuals whose prior conservatorship proceedings were diverted, those proceedings will resume under the presumption that no suitable alternatives to conservatorship are available. For individuals whose criminal cases were diverted, those proceedings will resume.

The counties of Glenn, Orange, Riverside, San Diego, Stanislaus, and Tuolumne and the City and County of San Francisco implemented the program as of October 1, 2023. Los Angeles County implemented as of December 1, 2023. The remaining counties implemented by December 1, 2024.

CARE ACT

SB 35 includes new notification requirements for the county behavioral health agencies effective with the implementation of the CARE Act.

SB 42 includes new administrative requirements related to outreach and engagement of individuals referred to the CARE Act for county behavioral health agencies effective September 27, 2024.

SB 1400 expands data collection and reporting requirements for county behavioral health agencies effective January 1, 2025.

SB 1323 requires the court, if the restoration of the defendant's mental competence is not in the interests of justice, to hold a hearing to consider granting mental health diversion or other programs such as CARE, to the defendant charged with a felony.

\$6 million General Fund (GF) is included in FY 2024-25, and \$3 million GF funding is included in FY 2025-26 and ongoing to the California Health and Human Services Agency for outreach contracts.

Reason for Change:

The change in FY 2025-26 from the prior estimate, is a decrease due to reduced forecasted accruals and cash flow for FY 2024-25 and FY 2025-26 services based on actual claiming to date.

The change from FY 2025-26 to FY 2026-27 in the current estimate, is due to the 3.09% projected rate increase and continued participation ramp-up.

Methodology:

1. The estimated accrual costs for CARE Act activities and Technical Assistance for FY 2024-25, FY 2025-26, and FY 2026-27 are reflected in the tables below.

(Dollars in Thousands)

FY 2024-25	TF	GF
CARE Act Activities	\$19,431	\$19,431
Technical Assistance	\$6,000	\$6,000
Total	\$25,431	\$25,431

(Dollars in Thousands)

GENERAL FUND	\$7,569,690	\$8,935,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the annual rate change posted in the Federal Register for services in Indian Health facilities.

Authority:

Public Law 93-638

Public Law 102-573 (Title 25, U.S.C. 1665c)

Interdependent Policy Changes:

Not Applicable

Background:

The Department implemented the Indian Health Services/Memorandum of Agreement 638 Clinics (IHS/MOA) between the federal IHS and the Centers for Medicare & Medicaid Services (CMS) on April 21, 1998. The agreement permits the Department to be reimbursed at 100% FFP for payments made by the State for services rendered to American Indians (AIs) through IHS tribal facilities.

Federal policy permits retroactive claiming of 100% federal financial participation (FFP) to the date of the MOA, July 11, 1996, or at whatever later date a facility qualifies and elects to participate as an IHS facility under the MOA.

The Department implemented the enrollment and reimbursement of Youth Regional Treatment Centers (YRTC) for services rendered to AI youths. Indian health clinics refer these youths to YRTCs for culturally appropriate in-patient substance use disorder treatment. The Department receives 100% FFP for YRTC services provided to eligible AI Medi-Cal members under the age of 21.

The per visit rate payable to the Indian health facilities is adjusted annually through changes posted in the Federal Register. These rates are set by IHS with the concurrence of the Federal Office of Management and Budget and are based on cost reports compiled by IHS.

INDIAN HEALTH SERVICES

Reason for Change:

There is no change, from the prior estimate, for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the rate increase captured in FY 2026-27 being higher than the rate increase captured in FY 2025-26.

Methodology:

1. Effective CY 2025, the updated per visit rate payable to the Indian health clinics increased \$82, from \$719 to \$801. The annual rate increase for the additional \$82 is estimated at \$13,845,000 TF.
2. Effective CY 2026, the updated per visit rate payable to the Indian health clinics increased by \$63, from \$801 to \$864. The retroactive rate increase from January through June 2026 is estimated at \$11,170,000 TF, and the annual rate increase for the additional \$63 is estimate at \$11,170,000 TF.
3. It is estimated, effective CY 2027, the updated per visit rate payable to the Indian health clinics will increase by \$84, from \$864 to \$948. The retroactive rate increase from January through June 2027 is estimated at \$15,637,000 TF for the additional \$84.
4. On a cash basis, the FY 2025-26 and FY 2026-27 estimates are:

Rate Increase	FY 2025-26	FY 2026-27
CY 2025 Rate Increase	\$13,845,000	\$0
Retro Jan-June 2026 Incr.	\$11,170,000	\$0
CY 2026 Rate Increase	\$0	\$11,170,000
Retro Jan-June 2027 Incr.	\$0	\$15,637,000
Total Rate Increase	\$25,015,000	\$26,807,000

*Totals may differ due to rounding.

Fiscal Year	TF	GF	FF
FY 2025-26	\$25,015,000	\$8,339,000	\$16,676,000
FY 2026-27	\$26,807,000	\$8,936,000	\$17,871,000

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to the California Department of Developmental Services (CDDS) for Infant Development Program (IDP) services for infants and toddlers ages 0 to 3 with or at risk of developmental disabilities.

Authority:

Interagency Agreement 11-88601

Interdependent Policy Changes:

Not Applicable

Background:

On October 9, 2015, State Plan Amendment (SPA) 11-040 was approved by the Centers for Medicare and Medicaid Services to extend Medi-Cal coverage for IDP services provided to Medi-Cal eligible infants and toddlers ages 0 to 3 with or at risk of developmental delay under the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit, retroactive to October 1, 2011. This SPA authorizes the Department to claim federal financial participation (FFP) for the provision of IDP services by the state's Regional Center network of nonprofit providers to persons with developmental disabilities.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to higher prior year expenditure, population growth, and service utilization.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to lower prior year expenditures for FY 2026-27.

INFANT DEVELOPMENT PROGRAM

Purpose:

This policy change estimates the costs to backfill the loss of federal Title X funding for family planning.

Authority:

AB 102 (Chapter 5, Statutes of 2025)

Interdependent Policy Changes:

Not Applicable

Background:

The Department implemented a backfill for the loss of federal Title X family planning funding to maintain and support the delivery of equitable, affordable, high quality, client-centered family planning services to patients with low-incomes across the state.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. There is a decrease from FY 2025-26 to FY 2026-27, in the current estimate, due to a one-time payment being disbursed in September 2025.

Methodology:

1. A payment was issued in September 2025 to backfill for the loss of federal Title X family planning funding.
2. The impact for FY 2025-26 is shown below:

BACKFILL LOST TITLE X FAMILY PLANNING FUNDING

(Dollars in Thousands)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs for the increased administrative expenses related to the active treatment and transportation services provided to members residing in Intermediate Care Facilities for the Developmentally Disabled (ICF-DD) and the costs of the increased rates due to the Quality Assurance Fee (QAF).

Authority:

Interagency Agreement (IA) 07-65896

Interdependent Policy Changes:

Not Applicable

Background:

The California Department of Developmental Services (CDDS) makes supplemental payments to Medi-Cal providers that are licensed as ICF-DDs, ICF-DD Habilitative, or ICF-DD Nursing, for transportation and day treatment services provided to Regional Center (RC) consumers. The services and transportation are arranged for and paid by the local RCs, which will bill CDDS on behalf of the ICF-DDs. On April 15, 2011, the Centers for Medicare and Medicaid Services approved a State Plan Amendment (SPA) for CDDS to provide payment, retroactive to July 1, 2007, to the ICF-DDs so that they can reimburse the RCs for arranging the services.

On April 8, 2011, the Department entered into an interagency agreement with CDDS for the reimbursement of administrative expenses due to the addition of active treatment and transportation services to members residing in ICF-DDs.

ICF-DDs are subject to a QAF based upon their Medi-Cal revenues, with the revenue used to increase rates for the ICF-DDs.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to actual expenditures.

ICF-DD ADMIN. AND QA FEE REIMBURSEMENT - CDDS

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to updated rate implementation and higher prior year expenditures for FY 2026-27.

Methodology:

The following estimates, on a cash basis, were provided by CDDS:

(Dollars in Thousands)

Fiscal Year	RC Admin Fee	QAF & ICF Fee Reimbursements	Total Funds	CDDS GF	DHCS GF	FFP
FY 2025-26	\$1,098	\$6,287	\$14,770	\$1,098	\$6,287	\$7,385

Purpose:

This policy change includes the costs of various miscellaneous one-time payments as directed by the Legislature.

Authority:

Budget Act of 2025 [SB 105 (Chapter 104, Statutes of 2025)]

Interdependent Policy Changes:

Not Applicable

Background:

The Budget Act of 2025 appropriates various one-time payments from the state General Fund (GF) for a variety of purposes. The Department of Health Care Services is the distributing entity for some of these funds.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to amendments made to the Budget Act of 2025, allocating funding for additional payments.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to funding for all items expiring at the end of FY 2025-26.

MISC. ONE-TIME PAYMENTS

Methodology:

1. The following items from the Budget Act of 2025—totaling \$12,550,000—are to be distributed by the Department of Health Care Services in FY 2025-26:
 - \$1,250,000 for Equality California to support the healthcare of transgender individuals and families.
 - \$750,000 for Equality California to support health access and education.
 - \$300,000 for the El Centro de Amistad for infrastructure.
 - \$5,000,000 for the County of Humboldt for support of the Mad River Behavioral Health Triage Center.
 - \$750,000 to the County of Humboldt for support of the Sorrel Leaf Healing Center.
 - \$3,500,000 to the County of Sonoma for the Alexander Valley Healthcare Center Project.
 - \$1,000,000 to the City and County of San Francisco for the new oncology clinic and chemotherapy center for Chinese Hospital.
2. The estimated costs in FY 2025-26 are as follows:

(Dollars in Thousands)

FY 2025-26	TF	GF
Misc. One-Time Payments	\$12,550	\$12,550
Total FY 2025-26	\$12,550	\$12,550

Purpose:

This policy change estimates the program costs to address new programs categorized as Urgent Needs and Emergent Issues in Children and Youth Behavioral Health Initiative (CYBHI).

Authority:

AB 179 (Chapter 249, Statutes of 2022)
 DHCS Agreement # 22-20444
 DHCS Agreement # 22-20432
 DHCS Agreement # 22-20435
 DHCS Agreement # 24-40088

Interdependent Policy Change:

Not Applicable

Background:

The CYBHI is a multiyear package of investments as part of the FY 2021-22 budget agreement. The CYBHI is intended to transform California's behavioral health system for children and youth aged 0-25 into a world-class, innovative, up-stream focused, ecosystem where all children and young adults are routinely screened, supported, and served for emerging behavioral health needs.

The COVID-19 pandemic has intensified already swelling children's behavioral health issues. Addressing these needs is vital to California's recovery and consistent with the state's priorities to improve behavioral health for all Californians.

The most glaring behavioral health challenges are borne inequitably by communities of color, low-income communities, LGBTQ+ communities, and in places where adverse childhood experiences are widespread and prominent. These investments align with the state's commitment and ongoing efforts to improve health equity.

The significant investment of one-time funds through the CYBHI will have a meaningful impact on outcomes for children and youth in the long-term. However, as the components of the CYBHI

CYBHI - URGENT NEEDS AND EMERGENT ISSUES

continue to be developed and implemented, there is an urgent and immediate need to continue to invest in efforts that address children's behavioral health. Through this proposal, the Department will invest additional resources in targeted efforts to address urgent and emergent issues in children and youth behavioral health. These proposals are consistent with and complementary of the investments in the Children and Youth Behavioral Health Initiative.

The Budget Act of 2022 provided \$120,500,000 in FY 2022-23, \$25,500,000 in FY 2023-24, \$29,000,000 in FY 2024-25, and \$2,000,000 in FY 2025-26 from the General Fund as part of a multiyear plan to provide \$177 million from the General Fund for the following:

- Leveraging of Emerging Technologies to Develop Next Generation Digital Supports for Remote Mental Health Assessment and Intervention (Next Generation Digital Therapeutics)
- School-Based Peer Mental Health Demonstration Project (High School Peer-to-Peer Program)
- Capacity Building Investments for Organizations Serving Justice-Involved Youth

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated anticipated expenditure amounts. The change in the current estimate, from FY 2025-26 to FY 2026-27, is a decrease due to contracted services concluding in FY 2025-26.

Methodology:

1. The Budget Act for FY 2022-23 provided \$120,500,000 in FY 2022-23, available through June 30, 2025. The table below displays the estimated spending and remaining funds by Appropriation Year:

CYBHI - URGENT NEEDS AND EMERGENT ISSUES

	TF	GF	FF
Appropriation Year 2022-23	\$120,500,000	\$120,500,000

IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$5,000,000	\$0
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$5,000,000	\$0

Purpose:

This policy change includes funding for the CalHOPE program.

Authority:

Budget Act of 2025

Interdependent Policy Changes:

Not Applicable

Background:

The CalHOPE program is a critical component of California's crisis continuum of care. The CalHOPE Peer-run Warm Line, operated by the Mental Health Association of San Francisco, is available, free of charge, to all Californians of all ages via telephone and text. It connects callers with trained peers (i.e., individuals with lived experience of mental health and/or substance use disorders) who have persevered through struggles with stress, anxiety, depression—emotions triggered by circumstances and events in everyday life. The peer counselors listen with compassion, provide non-judgmental support, and guide callers to additional resources that can provide hope and help them cope.

The CalHOPE Red Line, a peer support program operated by the California Consortium for Urban Indian Health (CCUIH), is a phone, live chat, and video chat service providing national, state, and county resources, referrals, and trauma-informed support for Urban Indian and Tribal populations. These include resources related to stress, anxiety, social services, and financial resources.

The peer-based warm line model is an evidence-based and community-defined model that reaches people in need of resources and support at a pivotal time in their lives and can, in many cases, prevent issues from escalating to a crisis point and utilization of scarce crisis support services. Additionally, the Warm Line is cited in many materials and websites related to emotional support for fires and other disasters.

CALHOPE

The CalHOPE program complements the digital behavioral health services portfolio under the Children and Youth Behavioral Health Initiative (CYBHI). Many of the CalHOPE resources are currently being sustained via the CYBHI virtual services platform and/or will be integrated into Soluna and BrightLife Kids, as applicable, for children, youth and young adults ages 0-26.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the limited-term allocations being fully expended in FY 2025-26.

Methodology:

1. A total of \$120 million was appropriated for CalHOPE for expenditure over two years, consisting of \$65.38 million General Fund (GF) and \$47.53 million Behavioral Health Services Fund (BHSF). In addition, the Budget Act of 2022 appropriated an additional one-time \$30 million (\$16.42 GF and \$13.58 million BHSF) to support the peer-run warm line. These funds were fully expended or encumbered by the end of FY 2024-25.
2. For FY 2025-26, one-time funding of \$5 million BHSF is appropriated for the CalHOPE program.
3. The estimated payments, on a cash basis, for FY 2025-26 is:

(Dollars in Thousands)

FY 2025-26	TF	BHSF
CalHOPE	\$5,000	\$5,000
Total FY 2025-26	\$5,000	\$5,000

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$3,994,000	\$3,314,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of reimbursing Mental Health Plans (MHPs), Drug Medi-Cal (DMC) State Plan counties and DMC-Organized Delivery System (ODS) counties the non-federal share of services provided to members enrolled as a result of the asset limit test increase and elimination.

Authority:

AB 133 (Chapter 143, Statutes of 2021)
 SPA 21-0053
 SB 108 (Chapter 35, Statutes of 2024)
 Budget Act of 2025

Interdependent Policy Changes:

Not Applicable

Background:

Prior to July 1, 2022, Medi-Cal members who were not subject to the Modified Adjusted Gross Income (MAGI) rules had to meet an asset limit of \$2,000. Pursuant to Chapter 143, Statutes of 2021, the Department increased, effective July 1, 2022, the asset limit test for Medi-Cal members not subject to the MAGI eligibility requirements to \$130,000 and then eliminated the asset limit test effective January 1, 2024. This change has resulted in an increase in the number of people who qualify for full scope Medi-Cal benefits and receive services through the Medi-Cal behavioral health delivery systems.

The Budget Act of 2025 re-establishes the asset limit test at \$130,000, effective January 1, 2026. Payments will be provided to counties for the non-federal share of specialty mental health and substance use disorder services provided to the additional Medi-Cal members enrolled, as a result of the asset limit test increase and elimination.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease, due to updated claims data showing fewer additional members served than originally projected.

ASSET LIMIT INCREASE & ELIM. - CNTY BH FUNDING

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease, due to the reinstatement of the asset limit at \$130,000, effective January 1, 2026. The re-instatement reduces the number of individuals who qualify for full scope Medi-Cal Benefits and associated behavioral health services.

Methodology:

1. The estimated accrual costs associated with the Asset Limit Increase and Elimination by program for FY 2024-25, FY 2025-26, and FY 2026-27 are shown below:

Asset Limit Increase and Elimination	FY 2024-25	FY 2025-26	FY 2026-27
SMHS	\$3,782,000	\$3,138,000	\$2,442,000
DMC	\$7,000	\$6,000	\$5,000
DMC-ODS (Required Services)	\$205,000	\$170,000	\$132,000
Total	\$3,994,000	\$3,314,000	\$2,579,000

2. On a cash basis, the FY 2024-25 payments totaling \$3,994,000 General Fund (GF) are estimated to be paid in FY 2025-26. The FY 2025-26 payments totaling \$3,314,000 GF are estimated to be paid in FY 2026-27.

(Dollars in Thousands)

FY 2025-26	TF	GF

TOTAL FUNDS	\$620,000	\$620,000
FEDERAL FUNDS	\$310,000	\$310,000
GENERAL FUND	\$310,000	\$310,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of workers' compensation coverage for Waiver Personal Care Services (WPCS) providers.

Authority:

In-Home Supportive Services v. Workers' Comp. Appeals Bd. (1984) 152 Cal.App.3d 720, 727 [199 Cal.Rptr. 697]
Interagency Agreement (IA) 22-20032

Interdependent Policy Changes:

Not applicable

Background:

The WPCS benefit is designed to assist the Home and Community-Based Alternatives Waiver participant in gaining independence in his or her activities of daily living and preventing social isolation. These services assist the waiver participant in remaining in his or her residence and continuing to be part of the community. A waiver participant must be enrolled in and receiving personal care services through the federally funded State Plan Personal Care Services program in order to be eligible for WPCS benefits. WPCS providers receive payment via the Case Management Information Payrolling System. The California Department of Social Services (CDSS) pays for the insurance claims for the WPCS providers and the Department reimburses CDSS for the costs. The current Workers' Compensation contract, IA 22-20032, was implemented effective July 1, 2022. The contract is an evergreen contract and can only be terminated by CDSS or the Department.

Reason for Change:

There is no change, from the prior estimate, for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The Department reimburses CDSS monthly for the costs of any WPCS program worker's compensation claims filed by eligible WPCS providers.

WPCS WORKERS' COMPENSATION

2. The CDSS reimbursement covers costs associated with monthly administrative fees for Third Party Administrator / Sub-contractor services, monthly fees required by the State Controller's Office to perform Checkwrite functions and standard activities associated with issuing worker's compensation payments, and monthly administrative costs accrued by CDSS and the Office of Risk and Insurance Management.
3. WPCS recipients represent approximately 1% of the population receiving In-Home Supportive Services so the Department is only responsible for reimbursing CDSS for 1% of the sub-contractor administrative fees.
4. Based on data provided by the CDSS, the total cost to be paid for workers' compensation is \$620,000 TF in FY 2025-26 and FY 2026-27.

Fiscal Year	TF	GF	FF
FY 2025-26	\$620,000	\$310,000	\$310,000
FY 2026-27	\$620,000	\$310,000	\$310,000

Funding:

50% Title XIX FFP / 50% GF (4260-101-0890/0001)

GENERAL FUND	\$54,739,000	\$51,474,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of federal fund (FF) repayments that the Department must make to the Centers for Medicare and Medicaid Services (CMS) for inappropriately claimed ancillary services for Medi-Cal members residing in Institutions for Mental Diseases (IMDs), both through Fee-For-Service (FFS) and Managed Care (MC) delivery systems.

Authority:

Title 42, Code of Federal Regulations 435.1009
Welfare & Institutions Code 14053.3

Interdependent Policy Changes:

Not Applicable

Background:

Ancillary services provided to Medi-Cal members who are ages 21 through 64 residing in IMDs are not eligible for federal reimbursement. Identifiers are currently not available in the Medi-Cal Eligibility Data System (MEDS) to indicate whether a Medi-Cal member is residing in an IMD. Consequently, the Department's Fiscal Intermediary (FI) may not deny any claims that are ineligible for reimbursement. The Department uses data from the mental health Client and Services Information (CSI) system to retrospectively identify the dates individuals were residents of an IMD for repayment of the FF, as required by CMS. This information is not known at the time the claims were processed and paid by the FI. The Department matches the data from the CSI system to the claims data to determine which claims were inappropriately reimbursed while the individual was a resident of an IMD.

While the Department intends to develop eligibility and claiming processes to stop inappropriate claiming and reimbursement for ancillary services, the current inappropriately paid services must be repaid to CMS.

Due to the Court of Appeals' decision for the County of Colusa case on July 9, 2014, the counties will not reimburse the State for IMD ancillary costs. The State is now financially

IMD ANCILLARY SERVICES

responsible for ancillary outpatient services provided to eligible individuals who are residing in an IMD.

For managed care, a base claims file of Client Identification Numbers (CIN) was utilized to identify capitation that was paid when a Medi-Cal member was admitted and stayed in an IMD.

CMS has estimated IMD deferrals of \$8 million federal funds per quarter. According to 42 CFR 430.40, when CMS issues a deferral of claims for federal financial participation (FFP), the state must immediately return the deferred FFP to the applicable Payment Management System (PMS) subaccount while the deferral is being resolved.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase in costs due to:

- Shifting the April -June 2024 FFS repayments and the October 2024 – March 2025 managed care repayments from FY 2024-25 to FY 2025-26,
- Shifting the January – March 2026 managed care repayments from FY 2025-26 to FY 2026-27, and
- Revising the projected FFS repayments.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in costs due to:

- FY 2025-26 includes some actual repayments whereas FY 2026-27 repayments are based on estimates,
- FY 2025-26 estimate includes five quarters of FFS repayments and managed care repayments, whereas FY 2026-27 estimate includes four quarters of FFS and managed care repayments, and
- Projected FFS quarterly repayments differ from FY 2025-26 to FY 2026-27.

Methodology:

1. The costs for ancillary services provided to Medi-Cal members in IMDs are in the Medi-Cal base estimate.
2. CMS defers the Department on a quarterly basis for the estimated unallowable expenditures for IMD ancillary services. The quarterly deferrals are immediately repaid while the Department continues to determine the actual repayments owed to CMS. The Department has repaid the deferrals received for FFY 2025 Q1 and FFY 2025 Q2 and estimates to repay FFY 2025 Q3 and FFY 2025 Q4 in FY 2025-26. The Department estimates to repay \$8 million per quarter for FFY 2026 Q1 through FFY 2026 Q4 in FY 2026-27.
3. The Department determines the actual FFS repayment owed for each quarter and submits the actual repayments to CMS. CMS may later release the amounts previously repaid based on the quarterly deferral letter. The FFS estimated repayment amounts for FY 2025-26 and FY 2026-27 are based on actual repayment amounts for the last twenty-five quarters, using an average for estimated repayments to future quarters.
4. The Department determines the actual managed care repayment owed for each quarter and submits the actual repayments to CMS. CMS may later release the amounts previously repaid based on the quarterly deferral letter. The managed care estimated repayment amounts for FY 2025-26 and FY 2026-27 are based on estimates of the past quarters.

IMD ANCILLARY SERVICES

5. For FY 2025-26, the Department estimates to repay ineligible FFS claims from April 2024 through June 2025 and ineligible managed care claims from October 2024 through December 2025.
6. For FY 2026-27, the Department estimates to repay ineligible FFS claims from July 2025 through June 2026 and ineligible managed care claims from January 2026 through December 2026.
7. The estimated IMD repayments are:

GENERAL FUND	-\$87,385,000	-\$90,303,000
OTHER FUNDS	\$87,385,000	\$90,303,000

Purpose:

This policy change reduces the General Fund and replaces those funds with Cigarette and Tobacco Products Surtax (CTPS/Proposition 99) funds from the Hospital Services, Physicians' Services, and Unallocated Accounts. This funding shift is identified in the management summary funding pages.

Authority:

California Tobacco Health Protection Act of 1988 (Proposition 99)
AB 75 (Chapter 1331, Statutes of 1989)

Interdependent Policy Changes:

Not Applicable

Background:

The CTPS/Proposition 99 funds are allocated to aid in the funding of the *Orthopaedic Hospital* settlement and other outpatient payments. The *Orthopaedic Hospital* settlement increased hospital outpatient rates by a total of 43.44% between 2001 and 2004.

This policy change supports healthcare coverage for members in the Medi-Cal program.

Reason for Change:

Dollars were revised from prior estimate to reflect updated revenues and expenditures related to Proposition 99.

CIGARETTE AND TOBACCO SURTAX FUNDS

OTHER FUNDS	\$1,281,900,000	\$1,424,027,000

Purpose:

This policy change estimates the funding for health care coverage for children in the Medi-Cal program due to the permanent extension of a quality assurance fee (HQAF) for hospitals authorized under Proposition 52.

For more information about the HQAF, see the Hospital QAF - FFS Payments, Hospital QAF - Managed Care Payments, and Managed Care Private Hospital Directed Payments policy changes.

Authority:

SB 239 (Chapter 657, Statutes of 2013)
Proposition 52 (2016)

Interdependent Policy Changes:

Not Applicable

Background:

Proposition 52, approved by California voters on November 8, 2016, permanently extended the HQAF program.

The Department received federal approval for the HQAF VI program period (July 1, 2019, through December 31, 2021) in February 2020. This HQAF program period is referred to as HQAF VI.

The Department received federal approval for the HQAF VII program period (January 1, 2022, through December 31, 2022) in September 2022. This HQAF program period is referred to as HQAF VII.

The Department received federal approval for the HQAF VIII program period (January 1, 2023, through December 31, 2024) in December 2023. This HQAF program period is referred to as HQAF VIII.

HOSPITAL QAF - CHILDREN'S HEALTH CARE

The Department is awaiting federal approval of the subsequent HQAF program period (HQAF IX) which includes payments for dates of service January 1, 2025, through December 31, 2025, submitted to the Centers for Medicare and Medicaid Services (CMS) in March 2025 via State Plan Amendments (SPAs) 25-0012 and 25-0013.

The Department will begin developing the subsequent program period (HQAF X) in FY 2025-26 Q1 which will include payments for the period of January 1, 2026, through December 31, 2026.

H.R. 1, enacted on July 4, 2025, contains provisions affecting the permissible size and structure of health care-related taxes. H.R. 1 also authorizes the federal Health and Human Services Secretary to approve a transition period of up to three years for impacted taxes. The Department has considered potential impacts of H.R. 1 on the HQAF and is awaiting further federal regulatory action and/or guidance.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- The HQAF VI Children's Net Benefit reconciliation payment was shifted from FY 2025-26 to FY 2026-27.
- The remaining HQAF VIII Cycle 8 Children's payment was shifted from FY 2024-25 to FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- The HQAF VI Children's Net Benefit reconciliation is expected to occur in FY 2026-27.
- The HQAF VII Children's Net Benefit reconciliation is expected to occur in FY 2026-27.
- The HQAF X Children's payments are expected to occur in FY 2026-27.

Methodology:

1. Payments for children's health care are estimated through the service period ending December 31, 2026, in this policy change.
2. SB 239 requires the Department to reconcile the funds for children's health care coverage based on the actual net benefit to the hospitals from the fee program.
3. The HQAF VIII program period covers a 24-month period from January 1, 2023, through December 31, 2024.
4. HQAF VIII payments are based on the HQAF VIII model that was approved by CMS.
5. HQAF IX estimated payments are based on the submitted version of the HQAF IX Fee and Payment model which is awaiting CMS approval. Payment timing and amounts will change.
6. HQAF X estimated payments are based on the submitted version of the HQAF IX Fee and Payment model which is pending CMS approval. Payment timing and amounts will change.
7. On an accrual basis, annual funds for children's health care coverage are estimated to be:

HOSPITAL QAF - CHILDREN'S HEALTH CARE

(Dollars in Thousands)

CY	Authority	HQAF VIII Period (24 months)	Remaining Amount
CY 2024	Proposition 52	10/01/24 to 12/31/24	\$20,000

(Dollars in Thousands)

CY	Authority	HQAF IX Period (Pending)	Amount
CY 2025	Proposition 52	01/01/25 to 12/31/25	\$1,261,900

(Dollars in Thousands)

CY	Authority	HQAF X Period (Pending)	Amount
CY 2026	Proposition 52	01/01/26 to 12/31/26	\$1,263,700

8. Four quarters of HQAF IX Children's Health Care coverage payments totaling an estimated \$1,261,900,000 are expected to be paid in FY 2025-26.
9. Four quarters of HQAF X Children's Health Care coverage payments totaling an estimated \$1,263,700,000 are expected to be paid in FY 2026-27.
10. HQAF VI Children's Health Care coverage savings for the FY 2019-20 through FY 2021-22 reconciliation of \$111,994,000 is estimated to be transferred from the Hospital Quality Assurance Revenue Fund to the General Fund (GF) in FY 2026-27. This amount is subject to change pending final approval.
11. HQAF VII Children's Health Care coverage reconciliation for the CY 2022 is estimated at \$48,333,000 and is anticipated to be transferred from the Hospital Quality Assurance Revenue Fund to the General Fund (GF) in FY 2026-27. This payment timing and projected amount are subject to change.
12. The remaining HQAF VIII Cycle 8 Children's Health Care coverage payment of \$20,000,000 was postponed. The payment is scheduled to be paid to the General Fund in Quarter 3 of FY 2025-26.
13. On a cash basis, the payments to health care coverage for children and the funding adjustment are:

HOSPITAL QAF - CHILDREN'S HEALTH CARE

GENERAL FUND	\$332,514,000	\$100,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the repayment of deferred claims to the Centers for Medicare and Medicaid Services (CMS).

Authority:

California Medi-Cal 2020 Section 1115(a) Medicaid Demonstration (Medi-Cal 2020)
Title 42, Code of Federal Regulations (CFR), 430.40

Interdependent Policy Changes:

Not Applicable

Background:

CMS reviews claims submitted by state Medicaid agencies to ensure federal financial participation (FFP) eligibility. Claims for which CMS questions the FFP eligibility are deferred and the state Medicaid agency is issued a deferral notice. Upon receipt of the deferral notice, the state Medicaid agency has 120 days to resolve the deferred claim.

When CMS issues a deferral to the state Medicaid agency, in accordance with the timelines set forth in 42 CFR 430.40, the state Medicaid agency must immediately return the deferred FFP to the applicable Payment Management System (PMS) subaccount while the deferral is being resolved. As part of the resolution process, the state Medicaid agency submits documentation in support of the deferred claim to CMS for review. If CMS determines the deferred claim is allowed, then the deferral is released, the funds are returned to the appropriate PMS subaccount, and the state Medicaid agency is notified that the funds are available to be redrawn.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to:

- Updating FFY 2025 Q1 through FFY 2025 Q3 repayments based on the actual deferrals for these quarters,
- Estimating an increase in repayments for FFY 2025 Q4 deferrals, and
- Estimating state only cost deferrals related to pharmacy rebates for deferrals through FFY 2023 Q1 will be returned to the GF in a FY outside of this Estimate.

CMS DEFERRED CLAIMS

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to:

- FY 2025-26 includes actual deferrals for FFY 2025 Q1 through FFY 2025 Q3, and
- FY 2025-26 estimates \$60 million in deferrals for FFY 2025 Q4 while FY 2026-27 estimates \$25 million per quarter in deferrals for FFY 2026 Q1 through FFY 2026 Q4.

Methodology:

1. The Department received CMS deferrals for FFY 2015 Quarter 1 through FFY 2025 Quarter 3.
2. In FY 2025-26, the Department estimates to repay a total of \$332.514 million FF, which includes actual CMS deferrals issued for FFY 2025 Quarter 1 through FFY 2025 Quarter 3 and \$60 million for FFY 2025 Quarter 4.
3. In FY 2026-27 the Department estimates to repay \$25 million per quarter for FFY 2026 Quarter 1 through FFY 2026 Quarter 4.
4. The Department will repay the following estimated deferred claims:

(Dollars in Thousands)

FY 2025-26	Total Estimated Repayment
FFY 2025 Quarter 1 (Oct-Dec 2024)	\$49,391
FFY 2025 Quarter 2 (Jan-Mar 2025)	\$58,117
FFY 2025 Quarter 3 (Apr-Jun 2025)	\$165,005

GENERAL FUND	-\$29,961,500	-\$32,460,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the technical adjustment in funding from Title XIX 50% federal financial participation (FFP) to Title XIX 100% FFP for services provided by Indian health facilities to American Indians (AIs) eligible for Fee-For-Service (FFS) Medi-Cal.

Authority:

Public Law 93-638
Public Law 102-573

Interdependent Policy Changes:

Not Applicable

Background:

The Department implemented the Indian Health Services/Memorandum of Agreement 638 Clinics (IHS/MOA) between the federal IHS and the Centers for Medicare & Medicaid Services (CMS) on April 21, 1998. The agreement permits the Department to be reimbursed at 100% FFP for payments made by the State for services rendered to AIs through IHS tribal facilities.

The Department implemented the enrollment and reimbursement of Youth Regional Treatment Centers (YRTC) for services rendered to AI youths. Indian health clinics refer these youths to YRTCs for culturally appropriate in-patient substance use disorder treatment. The Department receives 100% FFP for YRTC services provided to eligible AI Medi-Cal members under the age of 21.

Federal policy permits retroactive claiming of 100% FFP to the date of the MOA, July 11, 1996, or at whatever later date a clinic qualifies and elects to participate as an IHS facility under the MOA.

The per visit rate payable to the Indian health clinics is adjusted annually through changes posted in the Federal Register. These rates are set by IHS with the concurrence of the Federal Office of Management and Budget and are based on cost reports compiled by IHS.

INDIAN HEALTH SERVICES FUNDING SHIFT

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase in General Fund (GF) savings based on two additional quarters of actual expenditures, one of which was higher than previously estimated. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in GF savings due to revised quarterly adjustments based on actuals.

Methodology:

1. Assume a one quarter lag when the claims are adjusted from 50% GF / 50% FF to 100% FFP.
2. In FY 2025-26, it is estimated the Department will spend \$59,923,000 TF (\$29,962,000 GF). In FY 2026-27, it is estimated the Department will spend \$64,920,000 TF (\$32,460,000 GF).
3. Estimated expenditures for FY 2025-26 and FY 2026-27 are in the table below.

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
IHS FY 2025-26 Base exp. (50% GF / 50% FF)	(\$59,923)	(\$29,962)	(\$29,961)
IHS total expenditures (100% FF)	\$59,923	\$0	\$59,923
FY 2025-26 Total	\$0	(\$29,962)	\$29,962
FY 2026-27	TF	GF	FF
IHS FY 2026-27 Base exp. (50% GF / 50% FF)	(\$64,920)	(\$32,460)	(\$32,460)
IHS total expenditures (100% FF)	\$64,920	\$0	\$64,920
FY 2026-27 Total	\$0	(\$32,460)	\$32,460

*Totals may differ due to rounding.

Funding:

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	-\$2,541,324,000	\$0
OTHER FUNDS	\$2,541,324,000	\$0

Purpose:

This policy change estimates transactions related to the Medical Providers Interim Payment (MPIP) Fund loan from the General Fund.

Authority:

Government Code Section 16531.1

Interdependent Policy Changes:

Not Applicable

Background:

Government Code Section 16531.1 allows the Department to request a General Fund loan to support Medi-Cal operations if a budget is not passed by June 30 or if there is a deficiency. This loan comes in the form of a transfer from the General Fund of up to 10 percent of the amount appropriated from the General Fund for Medi-Cal benefit costs in the Budget Act of the most recent fiscal year, to the MPIP Fund.

In March 2025, the Department determined it would not have sufficient General Fund authority to continue making necessary payments in the Medi-Cal program through the end of the 2024-25 fiscal year. The Department received a loan to the MPIP fund which allows the Department to continue making payments while various other funding sources come in.

Reason for Change:

The change from the prior estimate for FY 2025-26 is an increase in available FY 2024-25 MPIP funds to offset General Fund, due to end of FY 2024-25 adjustments.

The change between fiscal years in the current estimate is due to the Department expecting to utilize FY 2024-25 MPIP loan funds in FY 2025-26, whereas there is no projected use or repayment of MPIP loan funds in FY 2026-27.

MEDICAL PROVIDER INTERIM PAYMENT LOAN

Methodology:

The Department had the ability to access \$3.44 billion in MPIP funds for FY 2024-25. The November 2025 budget assumes \$1.89 billion was used in FY 2024-25 and \$1.54 billion is available for use in FY 2025-26. Repayment of the FY 2024-25 MPIP loan is expected to occur in annual General Fund installments beginning in FY 2027-28, until the loan is fully repaid.

The Budget Act of 2025 provides for an additional \$1.0 billion in MPIP authority in FY 2025-26.

Funding:

Purpose:

This policy change budgets for the use of funds from the Healthcare Services Fines and Penalties Fund to support the Medi-Cal program in place of the General Fund (GF).

Authority:

AB 107 (Chapter 22, Statutes of 2024)

Interdependent Policy Change:

Not Applicable

Background:

The Budget Act of 2024, AB 107 (Chapter 22, Statutes of 2024), eliminated the Major Risk Medical Insurance Program and used the funds to support the Medi-Cal Program.

Reason for Change:

There is no change, for FY 2025-26, from the prior estimate. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the final transfer being made in FY 2025-26.

Methodology:

1. Funds are transferred from the Healthcare Services Fines and Penalties Fund (3311) to the GF.

TOTAL FUNDS	\$0	-\$51,500,000
FEDERAL FUNDS	\$0	-\$158,278,000
GENERAL FUND	\$0	\$106,778,000
OTHER FUNDS	\$0	\$0

Purpose:

This item estimates loss of federal funds and increased state costs resulting from a reduction in the federal medical assistance percentage (FMAP) from 90 percent to 50 percent for emergency services for certain members with unsatisfactory immigration status (UIS).

Authority:

H.R. 1, 119th Cong., Section 71110 (2025)

Interdependent Policy Changes:

Not Applicable

Background:

UIS members qualify for federal financial participation (FFP) for emergency services. Currently, UIS members that would qualify for Medi-Cal under the ACA expansion, if not for their immigration status, are eligible for federal funding for emergency services at the 90 percent enhanced FMAP. Other UIS members are eligible for FFP for emergency services at the standard of 50 percent FMAP.

H.R. 1 reduces the FMAP available for emergency services for UIS members that would be part of the ACA expansion population if not for their immigration status from 90 percent to 50 percent, effective October 1, 2026.

Reason for Change:

This is a new policy change as a result of the approval of H.R. 1.

Methodology:

1. This Policy Change includes only the effect on Fee-For-Service expenditures. The effect on all other types of service is included in their base or regular policy changes.
2. Assume this change in Federal funding will begin October 1, 2026, on a date of payment basis.

HR 1 - UIS EMERGENCY ACA FMAP ADJUSTMENT

3. The loss in Federal funding in FY 2026-27 is estimated to be -\$158,278,000. This includes a reduction in Federal funding for Disproportionate Share Hospitals (DPHs) of -\$51,500,000. The corresponding increase in unreimbursed CPE costs for DPHs is not included in the Medi-Cal Estimate or Budget.

Fiscal Year	TF	GF	FF	CF*
FY 2026-27	-\$51,500,000	\$106,778,000	-\$158,278,000	\$51,500,000

* County Funds are not included in the Total Fund.

IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	-\$134,637,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$134,637,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of eliminating adult dental benefits for members aged 19 and older with Unsatisfactory Immigration Status (UIS).

Authority:

Budget Act of 2025
WIC §14007.8(l)

Interdependent Policy Changes:

Not Applicable

Background:

Since January 1, 2024, pursuant to Welfare and Institutions Code (WIC) 14007.8, income-eligible individuals without satisfactory immigration status are eligible for full-scope Medi-Cal benefits. This provision was part of a broader initiative to extend full-scope Medi-Cal coverage to all income-eligible adults aged 26 through 49, regardless of immigration status.

The elimination of dental benefits for the UIS population, adults aged 19 and older, will take effect on July 1, 2026. The UIS population will continue to have access to emergency dental coverage, and members who are pregnant or within 12 months postpartum will maintain their dental coverage.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume implementation will be no sooner than July 1, 2026.
2. The impact of a full year of eliminating payments for dental benefits for Adult with UIS, assuming a lag in payment timing for services from the prior year is shown below:

ELIMINATE DENTAL FOR ADULT UIS

FEDERAL FUNDS	\$0	-\$171,018,000
GENERAL FUND	\$0	-\$114,011,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the impact of implementing improvements to residency verification processes related to eligibility and enrollment in the Medi-Cal program. This includes implementing an expansion of current work efforts related to the quarterly Public Assistance Reporting Information System (PARIS) Interstate Program Matches and the Residency Verification Program (RVP).

Authority:

AB 102 (Chapter 5, Statutes of 2025)
 Social Security Act, Title XIX 1903(r)(3)
 Social Security Act, Section 402 and 1137 (42 U.S.C. 602 and 42 U.S.C. 1320b-7)
 Contract 25-50052
 Contract 23-30285 A01
 Welfare & Institutions Code 14013.5 and 14043.5
 Welfare & Institutions Code 14005.39

Interdependent Policy Changes:

Not Applicable

Background:

Federal statute requires California to participate in the PARIS Interstate data sharing and match process under Social Security Act, Title XIX 1903(r)(3). The Department is the designated single state public assistance agency to facilitate data matching and operates the PARIS Interstate program under Sections 402 and 1137 of the Social Security Act, 42 U.S.C. 602 and 42 U.S.C. 1320b-7. Each quarter, the Department sends records of individuals receiving Medi-Cal to the federal government for data matching. The federal government then returns a match file with individuals receiving concurrent benefits in California and at least one other state.

The Welfare & Institutions Code 14005.39 requires the termination of Medi-Cal benefits without a redetermination if a Medi-Cal member is determined ineligible for Medi-Cal due to change of state residency. RVP performs periodic data matching with another vendor, LexisNexis Risk Solutions, to identify Medi-Cal members who are potentially living out-of-state.

RESIDENCY VERIFICATION IMPROVEMENTS

For PARIS Interstate and RVP, Maximus will utilize data provided by the Department and send residency verification letters to individuals who have active concurrent benefits or potentially reside out-of-state, requiring attestation under penalty of perjury that they reside in California. Members who fail to reply or confirm out-of-state residency will have their benefits closed and Maximus will mail a Notice of Action letter to the address on file.

A contract with Maximus US Services, Inc. (Contract No. 25-50052) was made effective July 1, 2025, and LexisNexis Risk Solutions FL, Inc. (Contract No. 23-30285-A01) was made effective January 1, 2024, to help continue these efforts. These contract costs are budgeted in the OTLICP, MCAP, Special Populations Admin Costs policy change.

Reason for Change:

There is a decrease for FY 2025-26 from the prior estimate, and an increase from FY 2025-26 to FY 2026-27 in the current estimate, due to the implementation date for these cost savings shifting to FY 2026-27.

Methodology:

1. Assume implementation will be no sooner than January 1, 2027.
2. The impact of implementing residency verification improvements is shown below:

(Dollars in Thousands)

 Liberty Dental Plan of California Contract #22-20513
 Welfare & Institutions Code, Section 14197.2
 Consolidated Appropriations Act of 2023

Interdependent Policy Changes:

Not Applicable

Background:

The DMC program provides a comprehensive approach to dental health care, combining clinical services and administrative procedures that are organized to provide timely access to primary care and other necessary services in a cost-effective manner. The Department contracts with three Geographic Managed Care (GMC) plans and three Prepaid Health Plans (PHP). These plans provide dental services to Medi-Cal members in Sacramento and Los Angeles counties.

DENTAL MANAGED CARE MLR RISK CORRIDOR

Each dental plan receives a monthly per capita rate for every recipient enrolled in their plan. DMC program recipients enrolled in contracting plans are entitled to receive dental benefits from dentists within the plan's provider network.

The Medi-Cal DMC plan contracts establish a single-sided risk corridor in the form of a minimum MLR of 85% beginning with the FY 2019-20 rating period. The Department will require DMC plans to remit necessary funds that do not meet the 85% threshold.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in recoupments due to known recoupments being completed in FY 2025-26.

Methodology:

1. The Department estimates total collections of \$1.5 million total funds in FY 2025-26. This amount is associated with the CY 2024 rating period.

GENERAL FUND	-\$1,750,000	-\$1,750,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from sanctions collected from the health plans.

Authority:

Welfare & Institutions Code (WIC) 14197.7

Interdependent Policy Changes:

Not Applicable

Background:

Starting FY 2022-23, the Department issued health plan quality sanctions for the Medi-Cal Managed Care Accountability Set (MCAS) Quality Sanctions program. These sanctions will continue annually. These amounts will be recouped and deposited into the General Fund.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Assume one collection period for each Calendar Year. The timing of the collection of appealed sanctions is dependent on the hearing results.

FEDERAL FUNDS	-\$1,878,000	-\$1,398,000
GENERAL FUND	-\$2,030,000	-\$1,513,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost to increase the capacity of the Assisted Living Waiver (ALW).

Authority:

SB 840 (Chapter 29, Statutes of 2018)

Interdependent Policy Changes:

Not Applicable

Background:

The ALW offers services in an assisted living or public subsidized housing setting to Medi-Cal members who would likely otherwise receive care in a skilled nursing facility. Eligibility into the ALW is based on a qualifying skilled nursing level of care which is captured through the assessment tool used by the Care Coordination Agencies to assess potential members.

The ALW expired on February 29, 2024, and reached the 7,500-slot capacity in FY 2024-25. Due to the growth of the program and continued high demand, the Department submitted a slot increase amendment to CMS for approval. On May 20, 2024, CMS approved the amendment to increase the allocated slots by about 1,800 each Waiver Year over the next five years.

Reason for Change:

There is a net decrease in savings for FY 2025-26, from the prior estimate, due to FY 2024-25 savings being captured in the base estimates and FY 2025-26 savings being captured in this policy change.

There is a net decrease in savings from FY 2025-26 to FY 2026-27, in the current estimate, due to a lower FY 2026-27 skilled nursing facility (SNF) rate, which captures less net savings.

Methodology:

1. Assume 2,220 members will transition in FY 2025-26 and 1,801 members in FY 2026-27.

ASSISTED LIVING WAIVER EXPANSION

2. Assume 60% of members come from long-term SNFs and 40% of members come from the community.
3. Beginning January 1, 2025, assume ALW costs increased due to the minimum wage increase from \$16.00 to \$16.50 an hour. Beginning January 1, 2026, assume an increase in ALW costs due to the minimum wage increase from \$16.50 to \$17.00 an hour. Beginning January 1, 2027, assume an increase in ALW costs due to the minimum wage increase from \$17.00 to \$17.50 an hour. Prospective minimum wage increases are budgeted in the Minimum Wage Increase for HCBS Waivers policy change.
4. Assume an average of 147 members will enroll per month in FY 2025-26 and 120 members in FY 2026-27.
5. Assume the average annual cost for waiver services is \$64,688.
6. Assume the average annual cost in an SNF is \$114,908 in FY 2025-26 and \$109,446 in FY 2026-27.

(Dollars in Thousands)

FY 2025-26	TF	GF	FF

GENERAL FUND	-\$3,780,970	-\$9,414,840
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the fiscal impact from automatically enrolling dual eligible Medicare and Medi-Cal enrollees into the Medicare Part A Buy-In program.

Authority:

SB 311 (Chapter 707, Statutes of 2023)
State Plan Amendment (SPA) 24-0011

Interdependent Policy Changes:

Not Applicable

Background:

SB 311 required the Department to enter into a Medicare Part A Buy-In Agreement with the Centers for Medicare and Medicaid Services (CMS). Effective January 1, 2025, Part A Buy-in was implemented upon system readiness and with the approval of SPA 24-0011 from CMS. The Medicare Part A Buy-In Agreement enables Qualified Medicare Beneficiary (QMB) eligible individuals to be automatically enrolled in Medicare Part A at any time of the year and shifts the costs for their hospital and initial skilled nursing facility services from Medi-Cal to Medicare as the primary payer. Medi-Cal also pays Medicare Part A premiums for QMB-eligible individuals but will no longer have to pay late enrollment penalties for individuals who do not enroll in Medicare Part A within the required time frame.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease in savings due to:

- The January 2025 QMB-eligible Medicare Part A premiums have transitioned to the Medicare Pmnts. – Buy-In Part A & B Premiums base policy change.
- The January 2025 managed care savings estimate is now reflected in the managed care base capitation rates.
- Slightly lower estimate of FFS impacts based on updated lags.

MEDICARE PART A BUY-IN PROGRAM

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase in savings due to:

- A full year of the January 2026 QMB income-disregard implementation in FY 2026-27.

Methodology:

1. This policy was implemented January 1, 2025.
2. Hospital inpatient and initial skilled nursing facility costs for individuals newly enrolled in Medicare Part A shifted from Medi-Cal to Medicare.
3. The State no longer has to pay late enrollment penalties for individuals who do not enroll in Medicare during open enrollment.
4. The State pays Part A premiums for QMB-eligible individuals that are currently not enrolled in Part A Buy-In without a requirement for a separate application.
5. Supplemental Security Income/State Supplementary Payment (SSI/SSP) eligible individuals who are dually eligible for Medicare Part A and B were automatically enrolled in QMB in the month following their SSI enrollment, effective January 1, 2025. SSI/SSP eligible individuals will continue to be enrolled in Part A Buy-In automatically.
6. Approximately 107,000 Medi-Cal members with Medicare Part B are eligible for Medicare Part A Buy-In based on actual enrollment. These Medi-Cal members were QMB-eligible and enrolled in Part A Buy-In automatically on January 1, 2025. The CY 2025 managed care savings impact of Part A Buy-In for managed care members are fully reflected in the managed care base capitation rates and are no longer in this policy change. In addition, the Medicare Part A premium impacts for the CY 2025 implementation are fully reflected in the Medicare Pmnts. – Buy-In Part A & B Premiums base policy change.
7. QMB income-disregard eligible individuals who are eligible for Medicare Part B shall be enrolled into Part A Buy-In no earlier than January 1, 2026. Approximately 15,650 Medi-Cal members would be enrolled in Part A Buy-In based on February 2025 Medi-Cal and Medicare Savings Program eligibility, once the QMB income-disregard effectuates. The Medicare Part A Buy-in impacts for the January 2026 QMB income-disregard for FFS and managed care members are captured in this PC.

GENERAL FUND	-\$7,373,000	-\$19,453,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the Home and Community-Based Alternatives (HCBA) Waiver.

Authority:

Welfare & Institutions Code, Section 14132.991

Interdependent Policy Changes:

HCBA Waiver Renewal Administrative Cost

Background:

The HCBA Waiver offers services in the home or community to Medi-Cal members who would otherwise receive care in a skilled nursing facility. Eligibility into the waiver is based on skilled nursing levels of care. The level of care is determined by the Medi-Cal member's medical need. The waiver is held to the principle of federal cost neutrality; thus, services are arranged so that the overall total costs for the waiver and Medi-Cal State Plan services cannot exceed the costs of facilities offering equivalent levels of care.

On February 2, 2023, the Centers for Medicare & Medicaid Services (CMS) approved an HCBA Waiver for a new five-year term, from January 1, 2023, through December 31, 2027. The new waiver term included phases in additional slots each Calendar Year, beginning on January 1, 2025. However, based on historical enrollment and attrition trends, it was determined that the waiver would reach capacity before the end of 2023. The Department submitted a waiver amendment to begin phasing in new slots on January 1, 2024; CMS approved the waiver amendment on December 11, 2023.

HCBA WAIVER EXPANSION

Under the new waiver term, the waiver:

- Describes services that are eligible for telehealth,
- Increases waiver slots beginning January 1, 2024, based on projected enrollment and attrition trends, and
- Increases the rates for Intermediate Care Facilities/Developmentally Disabled – Continuous Nursing Care.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease in savings due to assuming all waiver enrollments, prior to July 1, 2025, are captured in the base estimates. The decrease in savings also includes updated enrollment data and waiver rates, which are trending lower than previously estimated. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in savings due to the additional savings being realized from more members transitioning from a skilled nursing facility (SNF) to the HCBA waiver in FY 2026-27.

Methodology:

1. Assume there are 9,589 members in the HCBA Waiver in FY 2024-25.
2. Assume the annual cost per member is \$23,980.
3. Assume 600 new members will transition in FY 2025-26 and in FY 2026-27.
4. Assume 60% will be from long-term SNFs and 40% members will be from the community.
5. Assume the average monthly cost in a SNF is \$9,576 in FY 2025-26 and \$9,121 in FY 2026-27.

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Waiver Costs	\$7,793	\$3,931	\$3,862
Savings from SNF	(\$22,407)	(\$11,304)	(\$11,103)
Net Cost	(\$14,614)	(\$7,373)	(\$7,241)

GENERAL FUND	-\$14,951,000	-\$14,951,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the reimbursement of county funds for the Optional Targeted Low Income Children's Program (OTLICP).

Authority:

AB 1494 (Chapter 28, Statutes of 2012)

Interdependent Policy Changes:

Not Applicable

Background:

AB 1494 authorized the transition of all Healthy Family Program (HFP) subscribers into the Medi-Cal OTLICP. Effective January 1, 2013, HFP subscribers transitioned into OTLICP through a phase-in methodology.

Of the subscribers, an estimated 23,381 California Children Services (CCS) – HFP members shifted to CCS-OTLICP in FY 2013-14. CCS-HFP was funded with 65% FFP, 17.5% GF, and 17.5% county funds through September 30, 2015. From October 1, 2015, to September 30, 2019, CCS-HFP was funded with 88% FFP, 6% GF, and 6% county funds. From October 1, 2019, to September 30, 2020, CCS-HFP was funded with 76.5% FFP, 11.75% GF, and 11.75% county funds. Effective October 1, 2020, CCS-HFP is funded with 65% FFP, 17.5% GF, and 17.5% county funds. Under OTLICP, county shares remain the same.

Reason for Change:

There is an increase for FY 2025-26, from the prior estimate, due to actuals being higher than previously estimated. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

COUNTY SHARE OF OTLICP-CCS COSTS

Methodology:

1. The county share reimbursement for OTLICP-CCS in FY 2025-26, at 17.5% for quarter 1 through 4, is estimated to be \$14,951,000.
2. The county share reimbursement for OTLICP-CCS in FY 2026-27, at 17.5% for quarter 1 through 4, is estimated to be \$14,951,000.
3. The county share of OTLICP-CCS costs is estimated in the table below:

Fiscal Year	TF	GF	CF*
FY 2025-26	\$14,951,000	\$14,951,000	(\$14,951,000)
FY 2026-27	\$14,951,000	\$14,951,000	(\$14,951,000)

*County Funds are not included in the Total Fund.

Funding:

100% Title XXI State GF (4260-101-0001)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates county recoupments from psychiatric inpatient hospital claims approved and paid through the Fiscal Intermediary, and overpayments of Federal Financial Participation (FFP) related to members with unsatisfactory immigration status (UIS). These recoupments replenish General Fund (GF) used to reimburse the Centers for Medicare and Medicaid Services (CMS).

Authority:

AB 757 (Chapter 633, Statutes of 1994)

Interdependent Policy Changes:

Not Applicable

Background:Psychiatric Inpatient Hospital Claims

The Department consolidated the responsibility to provide inpatient and outpatient specialty mental health services under county mental health plans (MHP) of outpatient Specialty Mental Health Services (SMHS) in 1994 and inpatient services in 1997. The majority of hospitals providing inpatient SMHS receive payment via Medi-Cal's Fee-for-Service claims adjudication system. Medi-Cal pays the federal and non-federal share for psychiatric inpatient hospital services. The non-federal share is initially funded by GF and later reimbursed by subtracting the expenditure amount from each county's Mental Health Subaccount in the Sales Tax Account of the Local Revenue Fund.

The Department routinely adds aid codes to the Medi-Cal program. The Department and the former Department of Mental Health did not add new aid codes to the reporting structure used to identify the expenditure amounts for the Mental Health Subaccount. As a result, the Department did not identify and was not fully reimbursed for all of the psychiatric inpatient hospital service expenditures between CY 2011 and 2020.

COUNTY BH RECOUPMENTS

Medi-Cal Members with UIS

California provides state only full scope Medi-Cal services to certain immigrant populations who meet all Medi-Cal eligibility requirements except for their citizenship status. For these covered populations, FFP is only available for emergency and pregnancy-related services, and nonemergency and non-pregnancy related services are paid using state only funds. Affected populations include qualified non-citizens subject to the five-year bar, individuals who are Permanent Residents or Permanently Residing Under Color of Law, and individuals under 26 years of age who otherwise meet all Medi-Cal eligibility criteria (such as income and state residency) but for their citizenship status.

The Department has identified claiming for ineligible covered benefits and is required to return the federal funding to the CMS. The Department is recouping the amounts that were the responsibility of the county; specifically amounts associated with qualified non-citizens subject to the five-year bar and individuals who are Permanent Residents or Permanently Residing Under Color of Law. In FY 2021-22, the Department identified incorrect claiming for Medicaid Children's Health Insurance Program (MCHIP) members in which claims for emergency services were paid at an enhanced rate instead of 50% Federal Medical Assistance Percentage (FMAP).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase in estimated recoupments due to the inclusion of uncollected balance from FY 2024-25.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due FY 2025-26 including prior years uncollected recoupments.

Methodology:

1. Recoupments for both psychiatric inpatient claims and Medi-Cal members with UIS began in FY 2024-25 in Quarter 3 and are projected to continue through FY 2025-26 and FY 2026-27.
2. Psychiatric inpatient claim recoupments total \$190,277,000. Actual recoupments were \$63,426,000 in FY 2024-25, with an additional \$63,426,000 estimated for FY 2025-26, and \$63,425,000 for FY 2026-27.
3. Recoupment for claims related to Medi-Cal members with UIS total \$66,361,000. Actual collections were \$20,756,000 in FY 2024-25. An additional \$23,484,000 is estimated to be recouped in FY 2025-26, which includes a \$1,364,000 uncollected balance from FY 2024-25. The remaining \$22,121,000 is estimated for FY 2026-27.
4. The Department will recoup funds over a three-year period. FY 2025-26 and FY 2026-27 amounts reflect the estimated recoupment schedule. Amounts may differ due to rounding.

GENERAL FUND	\$0	-\$74,130,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy proposal estimates costs for establishing processes to complete redeterminations for the Affordable Care Act (ACA) Adult Expansion population for Medi-Cal every six months.

Authority:

H.R. 1, 119th Cong., Section 71107 (2025)

Interdependent Policy Change:

Not Applicable

Background:

Currently, Medi-Cal eligibility is renewed every 12 months unless a member reports a change in circumstances that could impact their eligibility. H.R. 1 increases the eligibility redetermination frequency for the ACA Adult Expansion (M1 aid code) from once per year to every six months, excluding Tribal members and pregnant individuals. This will mirror the current annual renewals process but on a semiannual basis.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume the policy implements no sooner than January 1, 2027.
2. Assume there are approximately 396,000 annual renewals for the ACA population over 12 months.
3. Total estimated savings for FY 2026-27 are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2026-27	(\$463,312)	(\$74,130)	(\$389,182)

TOTAL FUNDS	\$0	-\$3,500,000
FEDERAL FUNDS	\$0	-\$1,750,000
GENERAL FUND	\$0	-\$1,750,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the fiscal impact of sanctions collected from managed care plans (MCPs) for non-compliance with Network Adequacy and Timely Access to Care.

Authority:

Welfare & Institutions (W&I) Code 14197.7

Interdependent Policy Changes:

Not Applicable

Background:

In Calendar Year (CY) 2024, the Department began developing the policy and operational framework to begin sanctioning MCPs. As part of the California State Auditor's recommendation, the Department committed to sanctioning MCP's non-compliance with Network Adequacy and Timely Access to Care starting CY 2025.

All Plan Letter (APL) 25-006 (Timely Access Requirements) and APL 25-007 (Enforcement Actions: Corrective Action Plans, Administrative and Monetary Sanctions) were released in early CY 2025 and outlined the expectations for MCPs to meet Network Adequacy and Timely Access to Care standards and identified the enforcement actions to be taken based on the level of non-compliance.

Starting FY 2026-27, the Department will begin the process of issuing sanctions for non-compliance and will continue annually. These amounts will be recouped and deposited into the General Fund.

Reason for Change:

This is a new policy change.

MCP NETWORK ADEQUACY & TIMELY ACCESS SANCTIONS

Methodology:

1. Assume CY 2025 sanctions will be collected in FY 2026-27 and are estimated to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2026-27	(\$3,500)	(\$1,750)	(\$1,750)

Funding:

FEDERAL FUNDS	\$0	-\$13,464,650
GENERAL FUND	\$0	-\$9,607,350
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost to implement the federally mandated reduction of retroactive Medi-Cal coverage under House Resolution 1 (H.R. 1) from three months before an individual's application date to one month for the Adult Expansion population (M1 aid code) and two months for all other eligible groups, in accordance with enacted federal law.

Authority:

H.R. 1, 119th Cong., Section 71112 (2025)

Interdependent Policy Change:

Not Applicable

Background:

Currently, retroactive Medi-Cal coverage allows eligible individuals to receive Medi-Cal benefits for covered medical services received up to three months prior to the month of application if they would have been otherwise eligible during those retroactive months.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume the policy implements no sooner than January 1, 2027.
2. Assume H.R. 1 reduces retroactive Medi-Cal coverage from three months to one month for Adult Expansion population and two months for all other eligible groups.
3. Total estimated savings for FY 2026-27 are:

Fiscal Year	TF	GF	FF
FY 2026-27	(\$23,072,000)	(\$9,607,000)	(\$13,465,000)

FEDERAL FUNDS	\$0	-\$270,831,900
GENERAL FUND	\$0	-\$102,445,100
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost to implement federally mandated work requirements under House Resolution 1 (H.R. 1) for the Adult Expansion population (M1 aid code), in accordance with enacted federal law.

Authority:

H.R. 1, 119th Cong., Section 71119 (2025)

Interdependent Policy Change:

Not Applicable

Background:

Currently, Medi-Cal does not require individuals to participate in work or community engagement activities to maintain eligibility. Federal legislation signed in July 2025 introduced new work and community engagement requirements for the Adult Expansion population, effective January 1, 2027. Under this new policy, eligible individuals will need to meet minimum participation hours or qualify for exemptions to maintain Medi-Cal coverage.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume the policy implements no sooner than January 1, 2027.
2. Beginning October 1, 2026, HR 1 reduces the federal medical assistance percentage for Unsatisfactory Immigration Status (UIS) Federal Emergency ACA costs from 90% FF to 50% FF. The impact of this change is incorporated into the dollars of this policy change. For Fee-for-Service impacts, see the HR 1 - UIS Emergency ACA FMAP Adjustment policy change (FRN 2551).

HR 1 - FED WORK & COMMUNITY ENGAGEMENT REQUIREMENT

3. Assume members in the Adult Expansion population are estimated to be impacted by work requirements and may lose their Medi-Cal eligibility. Exemptions and members subject to work requirements are listed below:

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the repayment of federal funds to the Centers of Medicare and Medicaid Services (CMS) for pharmacy claims that were not priced under the approved Usual and Customary (U&C) pricing methodology and the savings from the ongoing reduced reimbursements following system corrections.

Authority:

State Plan Amendment (SPA) 17-002
Welfare & Institutions (W&I) code 14105.45

Interdependent Policy Changes:

Not Applicable

Background:

The CMS approved SPA 17-002 for pharmacy reimbursement methodology requires reimbursement for covered outpatient drugs to be the lower of:

1. The drug's ingredient cost plus a professional dispensing fee, or
2. The pharmacy's usual and customary (U&C) charge.

In early 2024, the Department identified a pricing logic error in Medi-Cal Rx claims processing where the lower U&C charges were not always used according to the approved pharmacy methodology. The error began with the implementation of the Medi-Cal Rx on January 1, 2022, due to changes in claims logic from the prior CA-MMIS system.

The Department implemented necessary policy and system logic changes on July 18, 2025, to ensure compliance with State Plan pharmacy reimbursement methodology for covered outpatient drugs, which will now appropriately consider the U&C charge field submitted by the provider to determine the appropriate pharmacy reimbursement rate.

Reason for Change:

This is a new policy change.

PHARMACY PAYMENT METHODOLOGY - USUAL AND CUSTOMARY

Methodology:

1. Assume the Department will repay CMS approximately \$97.2 million TF for overpayments made between January 1, 2022, and July 17, 2025.
2. On July 24, 2025, CMS issued deferral letters for Federal Fiscal Year (FFY) 2025 Quarter 1, Quarter 2, and Quarter 3, requesting repayment of approximately \$6.77 million per quarter for the Medi-Cal Rx pricing errors that led to pharmacy overpayments. The CMS deferral amounts are budgeted in the CMS Deferred Claims policy change.
3. Total estimated CMS repayment, without the CMS deferral, is \$76.9 million TF.
4. The necessary policy and system logic changes were implemented on July 18, 2025. Assume annual savings are estimated at \$53 million TF.
5. Total net impact of the CMS repayment and annual savings, for FY 2025-26 and FY 2026-27, are as follows:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
CMS Repayment	\$0	\$76,898	(\$76,898)
Ongoing Savings	(\$53,040)	(\$22,248)	(\$30,792)
Total	(\$53,040)	\$54,650	(\$107,690)

(Dollars in Thousands)

FY 2026-27	TF	GF	FF
Ongoing Savings	(\$53,040)	(\$21,980)	(\$31,060)
Total	(\$53,040)	(\$21,980)	(\$31,060)

PROP 35 - PROVIDER PAYMENT INCREASES

FISCAL REFERENCE NUMBER:2458

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$5,749,164,000
FEDERAL FUNDS	\$0	\$3,288,164,000
GENERAL FUND	\$0	\$2,461,000,000
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	\$5,749,164,000
FEDERAL FUNDS	\$0	\$3,288,164,000
GENERAL FUND	\$0	\$2,461,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs associated with increasing provider payments, pursuant to Proposition 35, effective January 1, 2025.

This policy change was previously titled "Medi-Cal Provider Payment Increases 2025 & Later."

Authority:

Protect Access to Health Care Act of 2024 (Proposition 35)

Interdependent Policy Changes:

Not Applicable

Background:

In November 2024, voters approved the Protect Access to Health Care Act of 2024 (Proposition 35), which makes the managed care organization (MCO) tax permanent, subject to federal approval, and specifies how revenues from the tax are to be allocated. Proposition 35 allocates revenues to cover the non-federal share of costs for increased capitation costs to Medi-Cal managed care plans that pay the tax, increased payments to Medi-Cal providers, and existing Medi-Cal costs. Proposition 35 creates additional funds from which MCO tax revenues are appropriated and spent.

The non-federal share of these provider payment increases will be borne by the Health Care Oversight & Accountability Subfund, item 4260-601-3443. The total amount of these provider payment increases will include matching federal funds for eligible services. This policy change identifies the use of General Fund (GF) for the payment increases. See the Prop 35 – Provider Payment Increase Funding policy change for the shift from the GF to item 4260-601-3443.

PROP 35 - PROVIDER PAYMENT INCREASES

Reason for Change:

The change for FY 2025-26, from the prior estimate, is due to delayed implementation of the Proposition 35 payments to FY 2026-27.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to the Proposition 35 payments starting in FY 2026-27 and an updated estimate of the Proposition 35 funding.

Methodology:

1. Cash basis amounts are based on accrual amounts and these amounts will be revised following finalization and approval of program specifications including payment mechanisms and timing.
2. On a cash basis, the total FY 2026-27 costs are estimated to be:

(Dollars in Thousands)

FY 2026-27	TF	GF	FF
Prop 35 - Provider Payment Increases	\$5,749,164	\$2,461,000	\$3,288,164
Total	\$5,749,164	\$2,461,000	\$3,288,164

Funding:

100% GF (4260-101-0001)

100% Title XIX FFP (4260-101-0890)

ENHANCED CARE MANAGEMENT RISK CORRIDOR**FISCAL REFERENCE NUMBER:2452**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	-\$21,000,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$21,000,000
OTHER FUNDS	\$0	\$0
% REFLECTED IN BASE	0%	0.0000%
IMPACT ON TOP OF BASE		
TOTAL FUNDS	\$0	-\$21,000,000
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$21,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs or savings from the implementation of the Enhanced Care Management (ECM) two-sided risk corridor.

Authority:

California Advancing and Innovating Medi-Cal (CalAIM) Initiative

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2022, the Department implemented a new ECM benefit in the Medi-Cal managed care delivery system. Medi-Cal managed care plans (MCPs) in counties without Whole Person Care pilots and/or Health Homes Programs implemented the new ECM benefit on July 1, 2022, for certain mandated populations of focus.

To protect the MCPs and the State against excessive gains/losses due to the implementation of the new benefit, the Department has established a two-sided, symmetrical risk corridor for each year from the calendar year (CY) 2022 rating period through the CY 2026 rating period, subject to the Centers for Medicare and Medicaid Services approval.

As a result of the COVID-19 national public health emergency, increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of CY 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to recoupments and repayments no longer occurring in FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase in recoupments due to recoupments occurring in FY 2026-27 and not in FY 2025-26.

ENHANCED CARE MANAGEMENT RISK CORRIDOR

Methodology:

1. The ECM risk corridor estimated recoupments for CY 2024 are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$0	\$0	\$0
FY 2026-27	(\$21,000)	(\$21,000)	\$0

FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$0	-\$120,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy estimates the savings achieved through the implementation of various operational improvements and efficiencies.

Authority:

Budget Act of 2026

Interdependent Policy Changes:

Not Applicable

Background:

The department will implement various operational improvements and efficiencies that will enhance the quality and value of care delivered through the Department's managed care delivery system by strengthening oversight, monitoring, and enforcement of managed care organizations. This includes designing a more effective operating model, improving accountability measures and enforcement tools, and building the Department's organizational capacity to ensure sustainable improvements and create efficiencies in line with cost and quality goals.

Reason for Change:

This is a new policy.

Methodology:

1. Savings are estimated to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2026-27	(\$120,000)	(\$120,000)	\$0

COUNTY ADMINISTRATION ALLOCATION**FISCAL REFERENCE NUMBER:1704**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,377,805,000	\$2,377,805,000
FEDERAL FUNDS	\$1,188,902,500	\$1,188,902,500
GENERAL FUND	\$1,188,902,500	\$1,188,902,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change reflects the allocation funded to counties for costs associated with Medi-Cal eligibility determination activities.

Authority:

Welfare & Institutions Code 14154
SB 159 (Chapter 40, statutes of 2024)

Interdependent Policy Changes:

Not Applicable

Background:

The Department is responsible for determining the appropriate allocation for funding county welfare department costs associated with Medi-Cal eligibility determinations. The Department establishes and maintains a cost control plan. The plan provides for the administrative costs that the counties incur for Medi-Cal eligibility determination activities. This estimate reflects the allocation to the counties utilizing recent workload data, county expenditure data, and other county-submitted information.

In FY 2018-19, the Department began including funding to implement the Affordable Care Act in this policy change. The Department uses the projected California Consumer Price index (CPI) change to adjust the total dollars available and applies similar adjustments as the county eligibility systems move to a single Statewide Automated Welfare System. With this increase, counties work to place members into the correct aid codes based on changes in circumstances, increase the percentage of completed and accurate eligibility determinations and annual redeterminations, and provide timely eligibility and enrollment data and reports to the Department.

In FY 2024-25, the Department implemented a freeze on California CPI increase adjustments for the allocation funded to the counties for costs associated with Medi-Cal eligibility determination activities. Costs associated with the California CPI freeze for county allocations were previously budgeted in the Freeze Medi-Cal County Administration Increase policy change. Those costs are now budgeted in the County Administration Allocation policy change.

Reason for Change:

There is no change from the prior estimate for FY 2025-26, or in the current estimate from FY 2025-26 to FY 2026-27.

COUNTY ADMINISTRATION ALLOCATION

Methodology:

1. The total rounded estimated FY 2025-26 and FY 2026-27 county administration costs are:

(Dollars in Thousands)

Total Allocation	TF	GF	FF
FY 2025-26	\$2,377,805	\$1,188,903	\$1,188,903
FY 2026-27	\$2,377,805	\$1,188,903	\$1,188,903

* Totals may differ due to rounding.

Funding:

50% Title XIX FF / 50% GF (4260-101-0890/0001)

SAWS**FISCAL REFERENCE NUMBER:214**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$244,497,000	\$213,376,000
FEDERAL FUNDS	\$239,607,250	\$213,355,250
GENERAL FUND	\$4,889,750	\$20,750
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates and reimburses the California Department of Social Services (CDSS) federal financial participation (FFP) for automated Eligibility Determination and Automated Benefit Computation.

Authority:

Welfare & Institutions Code 14154
 Interagency Agreement # 04-35639
 Interagency Agreement CalHEERS # 14-90510
 Affordable Care Act (ACA)
 SIRFRA 1099

Interdependent Policy Changes:

Not Applicable

Background:

The Statewide Automated Welfare Systems (SAWS) consists of one county consortium system: California Statewide Automated Welfare System (CalSAWS). SAWS project management is now the responsibility of the Office of Technology and Solutions Integration (OTSI) within the Health and Human Services Agency. The Department provides expertise to OTSI on program and technical system requirements for the Medi-Cal program and the Medi-Cal Eligibility Data System interfaces.

CalSAWS is the automated system used in all 58 Counties. The CalWIN was decommissioned after its final member counties migrated to CalSAWS in October 2023.

Reason for Change:

There is an increase for FY 2025-26, from the prior estimate, primarily due to new one-time project costs being added for implementing Budget Act of 2025 policies and House Resolution 1.

There is a decrease from FY 2025-26 to FY 2026-27, in the current estimate, due to one-time projects ending in FY 2025-26.

Methodology:

1. The following estimate was provided by CDSS on a cash basis:

SAWS

Line Item	FY 2025-26	FY 2026-27

Total	\$244,497,000	\$213,376,000

*Totals may differ due to rounding.

SAWS

2. Total estimated GF expenditures for FY 2025-26 and FY 2026-27 are:

GF Expenditure Items	FY 2025-26	FY 2026-27
Automation of CDCR Incarceration Reporting	\$241,000	\$0
BenefitsCal Release of Information	\$499,000	\$0
Full-Scope Medi-Cal Expansion Enrollment Freeze	\$1,468,000	\$0
HR 1 - CalSAWS System Costs	\$0	\$21,000
Premiums for Full-Scope Population	\$2,276,000	\$0
SB 1254 CalFresh Incarcerated Enrollment	\$405,000	\$0
Total	\$4,889,000	\$21,000

*Totals may differ due to rounding.

3. Assume an estimated cost of **\$244,497,000 TF (\$4,889,000 GF)** in **FY 2025-26** and **\$213,376,000 TF (\$21,000 GF)** in **FY 2026-27**.

Funding:

100% Title XIX FF (4260-101-0890)

100% State GF (4260-101-0001)

Enhanced CA 75/25 (4260-101-0890/0001)

CALWORKS APPLICATIONS**FISCAL REFERENCE NUMBER:217**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$99,217,000	\$99,217,000
FEDERAL FUNDS	\$49,608,500	\$49,608,500
GENERAL FUND	\$49,608,500	\$49,608,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Medi-Cal portion of the shared costs for processing applications which are submitted through the CalWORKs and/or CalFresh programs. These costs include staff and support costs.

Authority:

Welfare & Institutions Code 14154

Interdependent Policy Changes:

Not Applicable

Background:

Since 1998, the Department has shared in the costs for CalWORKs applications with the California Department of Social Services (CDSS). CDSS amended the claim forms and time study documents completed by the counties to allow CalWORKs application costs that are also necessary for Medi-Cal and CalFresh eligibility, to be shared between the three programs.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to the most recent quarters of available data provided by CDSS. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

- The estimated costs for FY 2025-26 and FY 2026-27 are provided on a cash basis by CDSS:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$99,217	\$49,609	\$49,608
FY 2026-27	\$99,217	\$49,609	\$49,608

*Totals may differ due to rounding.

Funding:

50% Title XIX FF / 50% GF (4260-101-0890/0001)

Medicaid Management Information Systems Enhanced Funding identified in the Enhanced Federal Funding policy change.

CASE MANAGEMENT FOR OTLICP**FISCAL REFERENCE NUMBER:1598**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$44,591,000	\$44,030,000
FEDERAL FUNDS	\$22,295,500	\$22,015,000
GENERAL FUND	\$22,295,500	\$22,015,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets the county administration costs associated with the ongoing costs for case management and redetermination of Optional Targeted Low Income Children's Program (OTLICP) members.

Authority:

AB 1494 (Chapter 28, Statutes of 2012)

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2013, the Healthy Families Program (HFP) subscribers began transitioning into Medi-Cal through a phase-in methodology. HFP sent current subscribers' applications and information to the counties. The final group transitioned November 1, 2013. The program has since been renamed as the OTLICP.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to lower estimated caseload trends in FY 2026-27.

Methodology:

1. The Department currently estimates the case management and redetermination for the former OTLICP members at \$4.00 Per Member Per Month.
2. The estimated average monthly OTLICP members for FY 2025-26 are 928,987 and 917,294 for FY 2026-27.
3. The estimated costs are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$44,591	\$22,296	\$22,296
FY 2026-27	\$44,030	\$22,015	\$22,015

*Totals differ due to rounding.

CASE MANAGEMENT FOR OTLICP

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

Medicaid Management Information Systems Enhanced Funding identified in the Enhanced Federal Funding policy change

LOS ANGELES COUNTY HOSPITAL INTAKES

FISCAL REFERENCE NUMBER:213

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$34,034,000	\$34,034,000
FEDERAL FUNDS	\$31,298,500	\$31,298,500
GENERAL FUND	\$2,735,500	\$2,735,500
OTHER FUNDS	\$0	\$0

Purpose:

The policy change estimates the costs for Patient Financial Services Workers (PFSWs) to process Medi-Cal applications taken in Los Angeles County hospitals.

Authority:

Welfare & Institutions Code (W&I) 14154

Interdependent Policy Changes:

Not Applicable

Background:

Los Angeles County uses PFSWs to collect and process Medi-Cal applications taken in Los Angeles County hospitals. Los Angeles County hospitals send applications processed by the PFSWs to the Los Angeles County Human Services Agency for final eligibility determination. W&I Section 14154 limits the reimbursement amount for PFSW intakes to the amount paid to Los Angeles County Department of Social Services (DPSS) eligibility workers for regular Medi-Cal intakes. The Department passes through the federal share for any costs not covered by the DPSS rate to the county.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to lower actual expenditure data for FY 2023-24 reconciliations. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The reimbursement rate is \$268 for both current year and budget year. Assume in FY 2025-26 and FY 2026-27, PFSWs will continue processing a base caseload of 2,215 per month.

FY 2025-26: 2,215 x \$268 x 12 = \$7,123,000 TF (\$3,562,000 GF)

FY 2026-27: 2,215 x \$268 x 12 = \$7,123,000 TF (\$3,562,000 GF)

2. The Department completed the FY 2023-24 reconciliation in FY 2024-25. The FY 2023-24 reconciliation amounts are final, and the FY 2024-25 reconciliation amounts are placeholders.

SAVE**FISCAL REFERENCE NUMBER:215**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$4,000,000	\$4,000,000
GENERAL FUND	-\$4,000,000	-\$4,000,000
OTHER FUNDS	\$0	\$0

Purpose:

The policy change estimates the technical adjustment in funding from Title XIX 50% Federal Financial Participation (FFP) to Title XIX 100% FFP for the Systematic Alien Verification for Entitlements (SAVE) system.

Authority:

Welfare & Institutions Code 14154

Interdependent Policy Changes:

Not Applicable

Background:

The Immigration Reform and Control Act of 1986 required states to use the SAVE system to verify immigrant status for Medi-Cal applicants beginning in October 1988. The counties complete time studies for eligibility workers and supervisors based on time spent for SAVE verifications. Beginning May of 2018, counties are federally required to use the web-based SAVE system for the third step of the SAVE process.

Reason for Change:

There is no change from the prior estimate for FY 2025-26, or in the current estimate from FY 2025-26 to FY 2026-27.

Methodology:

1. A reconciliation is completed 18 months after the end of each fiscal year to adjust funding received by counties from 50% FFP to 100% FFP.
2. The Medi-Cal accrual costs for SAVE reported over the last three years by the counties were:

Fiscal Year	Actual	Fiscal Year	Estimated
FY 2021-22	\$8,890,711	FY 2024-25	\$8,000,000
FY 2022-23	\$8,302,183	FY 2025-26	\$8,000,000
FY 2023-24	\$8,000,000	FY 2026-27	\$8,000,000

SAVE

3. Based on claims through June 2025, federal funds will be:

(Dollars in Thousands)

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

100% Title XIX FFP (4260-101-0890)

ENHANCED FEDERAL FUNDING**FISCAL REFERENCE NUMBER:1835**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$596,032,250	\$545,146,500
GENERAL FUND	-\$596,032,250	-\$545,146,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the savings from enhanced federal funding for certain eligibility determination functions.

Authority:

Not Applicable

Interdependent Policy Changes:

County Administration Allocation
CalWORKs Applications
Case Management for OTLCP

Background:

Generally, payments to counties for making Medi-Cal eligibility determinations are budgeted at 50% federal funding. However, the Centers for Medicare & Medicaid Services (CMS) published guidance that allows for federal funding at 75% for some of these activities. CMS considers certain eligibility determination-related costs to fall under Medicaid Management Information Systems (MMIS) rules for approval of enhanced funding. The enhanced 75% federal funding is available for costs of the application, on-going case maintenance, and renewal functions. Funding remains at 50% for policy, outreach, and post-eligibility functions.

There are various conditions required of a MMIS to secure the enhanced funding. There are also minimum critical success factors for accepting the new applications, making modified adjusted gross income determinations and coordination with Covered California. The Department submitted an Advanced Planning Document (APD) to secure CMS approval in January 2014 and received approval on September 29, 2014. The Department conducts an annual APD review and submits an update to CMS. CMS approved the APD for Federal Fiscal Year (FFY) 2025 on August 28, 2024.

Reason for Change:

The change from the prior estimate for FY 2025-26, is an increase in General Fund (GF) savings due to receiving more quarters of actual, audited, and updated claimed expenditure data from the California Department of Social Services (CDSS), which is used to identify and claim enhanced federal funding.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in GF savings due to updated estimated claim funding projections that utilize the expenditure trends from FY 2023-24 and FY 2024-25.

ENHANCED FEDERAL FUNDING

Methodology:

1. The effective date for the Department's APD was August 28, 2024.
2. The Department receives reports from CDSS identifying actual expenditure costs eligible for enhanced funding.
3. The Department utilizes actual, audited, and claimed expenditure data provided by CDSS to identify and claim Enhanced FFP and to estimate FFP for future quarters.
4. In FY 2025-26, the Department will claim payments for FY 2024-25 Quarters 2 through 4 and FY 2025-26 Quarter 1. In FY 2026-27, the Department will claim payments for FY 2025-26 Quarters 2 through 4 and FY 2026-27 Quarter 1.
5. The savings are estimated to be:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Title XIX at 50% FFP	(\$2,384,129)	(\$1,192,065)	(\$1,192,065)
Title XIX at 75% FFP	\$2,384,129	\$596,032	\$1,788,097
Total	\$0	(\$596,032)	\$596,032

FY 2026-27	TF	GF	FF
Title XIX at 50% FFP	(\$2,180,586)	(\$1,090,293)	(\$1,090,293)
Title XIX at 75% FFP	\$2,180,586	\$545,147	\$1,635,440
Total	\$0	(\$545,147)	\$545,147

*Totals may differ due to rounding.

Funding:

50% Title XIX FF/ 50% GF (4260-101-0890/0001)

75% Title XIX FF/ 25% GF (4260-101-0890/0001)

CALAIM - PATH**FISCAL REFERENCE NUMBER:2389**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$563,118,000	\$411,794,000
FEDERAL FUNDS	\$281,559,000	\$205,897,000
GENERAL FUND	\$231,732,000	\$163,949,000
OTHER FUNDS	\$49,827,000	\$41,948,000

Purpose:

This policy change estimates the funding available for the California Advancing & Innovating Medi-Cal (CalAIM) Providing Access and Transforming Health (PATH) Initiative.

Authority:

Penal Code Section 4011.11

Welfare & Institutions Code Sections 14011.10, 14132.275, 14184.800, 14184.700, and 14186 AB 133 (Chapter 133, Statutes of 2021)

AB 128 (Chapter 21, Statutes of 2021)

CalAIM Section 1115(a) Medicaid Demonstration

AB 107 (Chapter 22, Statutes of 2024)

Interdependent Policy Changes:

Not Applicable

Background:

On December 29, 2021, the Centers for Medicare & Medicaid Services (CMS) approved the CalAIM Section 1115 Waiver Demonstration, which provided funding for the CalAIM PATH Initiative through December 31, 2026. PATH was previously approved for \$1.44 billion. On January 26, 2023, the Department received federal approval under its CalAIM Section 1115 Waiver Demonstration for PATH capacity building funds to support the Justice-Involved Reentry Initiative for an additional \$410 million in capacity building funds to support the planning and implementation of pre-release and reentry services in the 90 days prior to an individual's release into the community, for a total budget of \$1.85 billion. The PATH Initiative is to build up the capacity and infrastructure of on-the-ground partners and providers to successfully participate in CalAIM Enhanced Care Management (ECM) and Community Supports, and Justice Involved Services. PATH is comprised of the following efforts.

ECM and Community Supports Capacity and Infrastructure Building

PATH will provide funding to transition, build, expand, and maintain infrastructure/capacity to support the implementation of ECM and Community Supports. This goal will be achieved through four initiatives:

- Technical Assistance (TA) Initiative: Virtual "marketplace" will be developed to provide technical support and off-the-shelf resources from vendors to establish the infrastructure development.
- Collaborative Planning and Implementation Initiative: Provide funding to regional facilitators approved by the Department. Support for regional collaborative planning and implementation efforts will include among managed care plans, providers, Community-Based Organizations (CBOs), county agencies, hospitals, tribes, and others to assess gaps and promote readiness.

CALAIM - PATH

- Capacity and Infrastructure Transition, Expansion and Development (CITED) Initiative: Direct funding to support capacity building and infrastructure for ECM and Community Support services. Entities, such as providers, CBOs, county agencies, hospitals, tribes, and other, that are contracted or plan to contract with a managed care plan can apply to receive funding for specific capacity needs to support the transition, expansion, and development of these specific services.

Justice-Involved (JI) Capacity Building Program

PATH funding supports the implementation of statewide CalAIM justice-involved initiatives. This includes support for implementation of pre-release Medi-Cal applications, enrollment, and suspension processes, as well as the delivery of Medi-Cal services in the 90 days prior to release. This goal will be achieved through two parts:

- Collaborative planning: Support for correctional agencies, county social services departments, county behavioral health agencies, managed care plans, and others so they can jointly design, modify, and launch new processes aimed at increasing enrollment in Medi-Cal and continuous access to care for justice-involved youths and adults.
- Capacity and Infrastructure: Support for correctional agencies, institutions, and other justice-involved stakeholders as they implement pre-release Medi-Cal enrollment and suspension processes.

Overall Program

Effective July 1, 2022, the Department has contracted with a Third-Party Administrator (TPA) to support the implementation of the PATH initiatives and serve as a fiscal administrator for all PATH initiatives except for the Whole Person Care (WPC) Mitigation initiative. The TPA supports implementation of the PATH CITED IGT and PATH JI IGT awards while the Department serves as the fiscal administrator to process all IGT payments.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to anticipating more payments because more initiatives are meeting their various milestones or deliverables. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to anticipating more payments in FY 2025-26.

Methodology:

1. PCG has been contracted to provide Fiscal Intermediary and Third-Party Administrative services for the CalAIM PATH initiatives from July 1, 2022, through June 30, 2027.
2. As part of the JI Capacity Building Program, in FY 2025-26, the Department is awarding Los Angeles County an additional \$59 million Total Fund via an intergovernmental transfer (IGT).
3. Assume all payments that do not require a State Share IGT will be made through a passthrough invoice process with PCG. All PATH Initiative participants will submit payment requests to PCG, and PCG will invoice the Department for the approved invoice amount and provide applicable documentation. The Department will process the passthrough invoice and make payment to PCG. PCG will have up to three business days to make that payment to the PATH grantee once funds are received from the Department.

CALAIM - PATH

- a. State Share IGT payments for the PATH CITED IGT and JI IGT awards will be processed in alignment with standard IGT procedure. Funding is federally matched at the 50% regular matching rate.
4. Assume TA Marketplace Vendors are paid based on completion of deliverables in their approved budgets and scope of work.
5. Assume the Collaborative Planning and Implementation Initiative facilitators are paid quarterly based on payment terms outline in their contract.
6. Assume approved applicants for the non-IGT CITED Initiative are paid based on completing milestones and quarterly reporting.
 - a. Assume approved CITED IGT applicants are paid based on completing milestones
7. Assume approved non-IGT JI applicants are paid based on completing milestones and required reporting.
 - a. Assume approved JI IGT applicants are paid based on completing milestones.
8. On a cash basis, all PATH Program costs are estimated to be:

(Dollars in Thousands)

COUNTY SPECIALTY MENTAL HEALTH ADMIN**FISCAL REFERENCE NUMBER:1721**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$285,065,000	\$300,771,000
FEDERAL FUNDS	\$274,896,000	\$285,839,000
GENERAL FUND	\$10,169,000	\$14,932,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the reimbursement for the county administrative costs for the Specialty Mental Health Services (SMHS) in the Medi-Cal (MC) program and the Children's Health Insurance Program (CHIP) administered by county mental health departments.

Authority:

Welfare & Institutions Code 14707.5
Welfare & Institutions Code 14711(c)
California Constitution Article XIII Section 36
CMS Final Rule (CMS-2333-F) (Parity Final Rule)
Title 42, Code of Federal Regulations Part 438

Interdependent Policy Changes:

Not Applicable

Background:

Counties may obtain federal reimbursement for costs associated with administering a county's mental health program. Counties must report their administration costs and direct facility expenditures quarterly. Along with administration costs, counties can claim reimbursement costs for county Quality Assurance and Utilization Review (QAUR), Performance Outcomes System (POS), Managed Care Regulations – Mental Health (MH), and MH Parity Final Rule.

The QAUR and POS responsibility for SMHS was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, state requirements enacted after September 30, 2012, that have an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides funding for the cost increase.

The Centers for Medicare and Medicaid Services (CMS) issued Final Rule CMS-2390-P on May 6, 2016. Final Rule 2390-P changed the Medicaid managed care regulations to reflect changes in the utilization of managed care delivery systems. And on March 30, 2017, CMS issued the Parity Final Rule, to strengthen access to mental health and substance use disorder services for Medicaid members.

As a result of the COVID-19 national public health emergency, an increased federal medical assistance percentage (FMAP) was made available to the Department. In general, the increased FMAP was only available through the end of Calendar Year 2023. However, based on the timing of claims submissions, increased FMAP for this policy change is still allowable.

COUNTY SPECIALTY MENTAL HEALTH ADMIN

The Department implemented, in FY 2025-26, the Behavioral Health Quality and Equity Framework to assist Behavioral Health Plans with improving on a set of Behavioral Health Performance Measures. Mental Health Plans will be able to claim reimbursement for these costs pursuant to Proposition 30.

Beginning in FY 2026-27, new costs to support Child and Adolescent Needs and Strengths (CANS) reporting are being added. This new reporting solution will integrate data collected into a single statewide database for both Department of Health Care Services (DHCS) and California Department of Social Services (CDSS) reporting.

Reason for Change:

The change in FY 2025-26, from the prior estimate, reflects minor fluctuations in county claiming activity for QAUR, POS, MH Parity Final Rule, MH Managed Care Regulations, and the BH Quality & Equity Framework.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to higher annual claiming projections and the addition of CANS Assessment costs beginning in FY 2026-27.

Methodology:

1. Mental Health administration costs are based on historical claims payment data. Assume 18.33% of each fiscal year claims will be paid in the year the services occur, 74.17% is paid in the following year, and 7.50% in the third year. For the CANS Assessment costs, however, no lags are assumed and costs are estimated to occur annually on a cash basis. The estimated costs are as follows:

Fiscal Year	Type	Accrual	FY 2025-26	FY 2026-27
FY 2023-24	Other Admin	\$353,437,000	\$26,509,000	\$0

Total			\$511,483,000	\$543,000,000

- Mental Health administration costs are shared between federal funds (FF) and county funds (CF). MC claims are eligible for 50% federal reimbursement. CHIP claims are eligible for 65% federal enhanced reimbursement.
- QAUR expenditures are shared between FF and CF. Pursuant to Proposition 30, General Fund (GF) is provided for levels of service that are provided above those levels mandated by the 2011 Realignment. Skilled professional medical personnel (SPMP) are eligible for enhanced federal reimbursement of 75%. All other personnel are eligible for 50% federal reimbursement.
- POS expenditures are eligible for reimbursement at 50%, and costs for clinical staffing are eligible for enhanced FF at 75%.
- Managed Care Parity related to pre-authorizations of outpatient services and concurrent reviews of SMHS inpatient admissions, must be conducted by a licensed mental health professional, which assumes a 75% / 25% Federal Medical Assistance Percentage (FMAP). The non-federal share is assumed to be funded with 50% CF and 50% GF pursuant to the California Constitution, Article 13, Section 36(c)(5)(A).
- For the Managed Care Regulations Final Rule claims, the non-federal share is funded with CF and GF, consistent with the California Constitution, Article 13, Section 36 (c)(5)(A).

COUNTY SPECIALTY MENTAL HEALTH ADMIN

7. BH Quality and Equity Framework funding is available for FY 2025-26 and FY 2026-27 in the amount of \$600,000 for SMHS and is assumed to be funded with 50% FF and 50% GF split.
8. Starting in FY 2026-27, annual CANS Assessment costs will be incurred to meet new reporting requirements. Assumed to be funded with 50% FF and 50% GF split.
9. On a cash basis, the amounts for FY 2025-26 and FY 2026-27 are:

Claim Type	FY 2025-26

INTERIM AND FINAL COST SETTLEMENTS-SMHS

FISCAL REFERENCE NUMBER:1757

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$266,418,000	\$102,926,000
FEDERAL FUNDS	\$266,418,000	\$102,926,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal funds (FF) for the interim and final cost settlements on Specialty Mental Health Services (SMHS) administrative expenditures.

Authority:

Welfare & Institutions Code 14705(c)

Interdependent Policy Changes:

Not Applicable

Background:

The Department reconciles interim payments to county cost reports for mental health plans (MHPs) for utilization review/quality assurance (UR/QA), mental health Medi-Cal administrative activities (MH MAA), and administration. The Department completes these interim settlements within two years of the end of the fiscal year. Final audit settlements are completed within three years of the last amended cost report the county MHPs submit to the Department.

The reconciliation process for each fiscal year may result in an overpayment or an underpayment to the county and will be handled as follows:

- For counties that have been determined to be overpaid, the Department will recoup any overpayments.
- For counties that have been determined to be underpaid, the Department will reimburse the federal funds.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to the following:

- A large portion of interim and final cost settlements, which were previously estimated in FY 2024-25, shifting to FY 2025-26.
- An increased average expenditure per interim settlement.
- A portion of FY 2021-22 interim settlements, FY 2022-23 interim settlements, and FY 2021-21 audit settlements shifting to FY 2026-27.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to a large number of interim and final audit settlements being processed in FY 2025-26, with the remaining settlements projected to occur in FY 2026-27 as the settlement process ends.

Methodology:

1. Interim cost settlements are based on the difference between each county MHP's filed cost report and the payments they received from the Department.

INTERIM AND FINAL COST SETTLEMENTS-SMHS

2. Final audit settlements are based on the difference between each county MHP's final audited cost report and the payments they received from the Department.
3. Cost settlements for administration, UR/QA, and MH MAA are each determined separately.
4. To estimate the expected expenditures for FY 2025-26 and FY 2026-27 for interim and final audit settlements not yet received, the following procedures are used:
 - The average expenditure of \$1,351,931 per interim settlement is determined by dividing the actual net outflow of \$102,746,744 from FY 2024-25 by 76, the number of interim settlement packages processed in FY 2024-25. The average recoupment of \$352,871 per final audit settlement is determined by dividing the net inflow, \$15,526,321, by 44, the number of final audit settlements processed in FY 2024-25.
 - The average expenditure per settlement is increased by 3% for fiscal years not yet received and is not present in calculating the averages in the prior step.
 - The total number of interim and final audit settlements expected to be processed for each fiscal year is multiplied by the average amount per settlement per fiscal year to determine the total amount to be processed for each fiscal year per settlement type.
 - There are no future payments expected to be made with Title XXI funding.
5. To determine final amounts for interim and final audit settlements for each fiscal year, the following amounts were totaled:
 - The estimated amounts per fund, per settlement type, per fiscal year forecasted for FY 2025-26 and FY 2026-27.
6. The net FF to be reimbursed and/or recouped in FY 2025-26 for interim settlements and final audit settlements are shown below:

Interim Settlements	TF	FF
FY 2015-16	\$1,352,000	\$1,352,000
FY 2016-17	\$2,785,000	\$2,785,000

TOTAL IMPACT		
TOTAL FUNDS	\$204,221,000	\$204,125,000
FEDERAL FUNDS	\$131,614,200	\$131,563,650
GENERAL FUND	\$72,606,800	\$72,561,350
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the California Children's Services (CCS) program county administrative cost.

Authority:

Health & Safety Code, sections 123800-123995
 AB 2724 (Chapter 73, Statutes of 2022)
 AB 133 (Chapter 143, Statutes of 2022)
 AB 118 (Chapter 42, Statutes of 2023)
 SB 184 (Chapter 47, Statutes of 2022)

Interdependent Policy Changes:

Not Applicable

Background:

The CCS program provides medical case management to all CCS clients. In counties with a population greater than 200,000 (independent counties), county staff determine program financial, residential, and medical eligibility including the evaluation and adjudication of service authorization requests (SARs). For counties with a population under 200,000 (dependent counties), the state shares case management activities. Dependent counties are responsible for the financial and residential verification and the Department's CCS clinical staff are responsible for medical eligibility determinations and SAR adjudications. The Children's Medical Services Network (CMS Net) case management database is utilized by CCS counties and the Department.

On July 1, 2018, the Department transitioned some of the case management and program administrative functions from the county to the County Organized Health Systems (COHS) health plans under the Whole Child Model (WCM). The WCM transition was completed on July 1, 2019.

AB 2724 authorizes the Department to contract with Kaiser Permanente as an alternative healthcare service plan in select WCM counties. On January 1, 2024, the Department implemented Kaiser Permanente in the following eight WCM counties: Marin, Napa, Orange, San Mateo, Santa Cruz, Solano, Sonoma, and Yolo.

On January 1, 2025, as authorized by AB 118, the Department transitioned some of the case management and program administrative functions from the county to the COHS health plans under the WCM in the following 12 counties: Butte, Colusa, Glenn, Mariposa, Nevada, Placer, Plumas, San Benito, Sierra, Sutter, Tehama, and Yuba. Some case management administrative

CCS PROGRAM COUNTY ADMINISTRATIVE BUDGET

functions also transitioned to Kaiser Permanente which operates as an alternate healthcare service plan in Mariposa, Placer, Sutter, and Yuba counties.

SB 184 sunset the Child Health and Disability Prevention (CHDP) program on June 30, 2024. Effective July 1, 2024, the Department redirected portions of the CHDP county budget allocation to fund the administrative costs of the Health Care Program for Children in Foster Care (HCPCFC), making HCPCFC a standalone program. The remaining portions of the CHDP county budget allocation were redirected to the CCS program to fund the new county workload established in the CCS Monitoring and Oversight (M&O) Memorandum of Understanding (MOU) that was to be effectuated July 1, 2025. The MOU has been deferred to an undetermined date. In the interim, counties may voluntarily participate in Monitoring and Oversight activities and sign the MOU. Counties which opt to participate may receive a share of the CCS M&O allocations.

SB 108 was amended to include provision 21 which extends flexibility to the counties to support the HCPCFC.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to reflecting updated per member, per month costs.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a slight decrease due to transitioning additional counties under Whole Child Model.

Methodology:

1. Starting in November 2024, the county administrative estimate is updated to reflect recent caseload and per member, per month cost data.
2. The CCS program county administrative costs for FY 2025-26 are \$187,255,000 and \$187,255,000 for FY 2026-27.
3. Assume administrative costs of \$1,057,000 in both FY 2025-26 and FY 2026-27 for the Medi-Cal expansion of undocumented children which are funded at 100% GF.
4. County data processing costs associated with CMS Net for CCS Medi-Cal are estimated to be \$3,852,000 in FY 2025-26 and \$4,150,000 in FY 2026-27.
5. Medi-Cal Optional Targeted Low Income Children Program (OTLICP) costs are separate from other Medi-Cal costs. Total Medi-Cal OTLICP costs listed below do not include county share of cost:

	FY 2025-26	FY 2026-27
County Administration:	\$32,417,000	\$32,417,000
County share of cost:	(\$2,627,000)	(\$2,627,000)
Total Medi-Cal OTLICP:	\$29,790,000	\$29,790,000

6. County data processing costs associated with CMS Net for OTLICP are estimated to be \$559,000 in FY 2025-26 and \$602,000 in FY 2026-27.

CCS PROGRAM COUNTY ADMINISTRATIVE BUDGET

7. Payments to the COHS health plans under the WCM are applied against the CCS program county administrative budget. On a cash basis the expenditures are estimated to be \$25,802,000 in FY 2025-26 and \$26,239,000 for FY 2026-27.
8. Enhanced, Title XIX (75% FFP), funding is available for Skilled Professional Medical Personnel for the Medi-Cal and OTLIP populations in FY 2025-26 and FY 2026-27.
9. To support the increased county administrative workload associated with new reporting requirements as specified by AB 133, the Department will proportionately reallocate the CHDP funding to counties utilizing a stratified methodology based on county specific CCS beneficiary caseload. The CCS Compliance M&O cost is estimated at \$10,138,000.

Purpose:

This policy change estimates costs for the behavioral health (BH) virtual services platform, which is a multi-prong digital BH strategy for California children and youth, ages 0-25, including but not limited to Soluna, BrightLife Kids, Cal-MAP, a statewide provider education and technical assistance campaign, and costs for promotion of various digital health tools.

Interdependent Policy Changes:

Not Applicable

Background:

Established as part of the Budget Act of 2021, the Children and Youth Behavioral Health Initiative (CYBHI) is a multiyear package of investments. The CYBHI intends to transform California's BH system for children and youth aged 0-25 into a world-class, innovative, up-stream focused, ecosystem where all children and young adults are routinely screened, supported, and served for emerging behavioral health needs.

In January 2024, the Department launched two new digitally-enabled behavioral health services apps for all children, youth, and families in California. Designed to meet the diverse needs of youth and families across the state, the new mental health apps are BrightLife Kids for parents, caregivers, and kids (aged 0-12), and Soluna for teens and young adults (aged 13-25). These apps provide free digital tools, resources, and virtual services to support behavioral health and emotional well-being. The Department is partnering with two well-established digital health companies, Brightline and Kooth US, respectively, to operate the apps. They offer access to highly qualified professional behavioral health coaches with appointments available in English and Spanish through video and chat, as well as all Medi-Cal threshold language via telephone. The programs also offer digital education and behavioral wellness support resources and exercises, a directory of resources to connect youth to local health resources in their areas, including live care navigation support, and moderated forums to connect users with other youth

CYBHI - BH SERVICES AND SUPPORTS PLATFORM

or caregivers. These resources are free to every California family, regardless of income, insurance coverage, or immigration status.

Through a partnership with the University of California, San Francisco Child and Adolescent Psychiatry Program (USCF CAPP), the Department also launched a statewide behavioral health eConsult service, the California Child and Adolescent Mental Health Access Portal (Cal-MAP), to provide pediatricians, primary care physicians and other practitioners (e.g., school-based service providers) access to consultation support from licensed behavioral health professionals, including psychiatrists. In addition to providing remote and real-time consultation support with behavioral health clinical experts, it offers access to behavioral health resources, tools and supports, including trainings to strengthen the workforce and improve the capacity of primary care providers and pediatricians to provide behavioral health treatment to children, youth and young adults.

The provider education and technical assistance campaign and the promotional campaigns are designed to drive adoption of these digital health strategies in coordination with community-based care to seamlessly integrate the BH virtual services platform into the larger behavioral health delivery systems.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27 is a decrease due to lower projected expenditures.

Methodology:

1. The Budget Act for FY 2022-23 provided \$230 million GF, available for expenditure through June 30, 2025. The Budget Act for FY 2023-24 provided an additional \$124,900,000. The Budget Act for FY 2025-26 provided an additional \$175,900,000. The proposed Budget Act for FY 2026-27 would add \$109,900,000. The table below displays the estimated spending and remaining funds by Appropriation Year:

CYBHI - BH SERVICES AND SUPPORTS PLATFORM

	TF	GF	FF
Appropriation Year 2022-23	\$230,000,000	\$230,000,000	\$0

MEDI-CAL RX - ADMINISTRATIVE COSTS**FISCAL REFERENCE NUMBER:2167**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$158,298,000	\$127,329,000
FEDERAL FUNDS	\$116,796,750	\$93,946,700
GENERAL FUND	\$41,501,250	\$33,382,300
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the Medi-Cal Rx administrative services contracts.

Authority:

Executive Order N-01-19

Interdependent Policy Changes:

Not Applicable

Background:

Executive Order N-01-19 required the Department to transition Medi-Cal pharmacy services into a FFS benefit. With this change, Medi-Cal pharmacy benefits are provided and managed through Medi-Cal Rx. To facilitate and support the managed care carve-out and ongoing management of the Medi-Cal pharmacy benefit, the Department procured, Magellan Medicaid Administration, Inc., to provide administrative services for Medi-Cal Rx. Medi-Cal Rx Assumption of Operations (AOO) began January 1, 2022. The initial contract was through September 2024 with five additional optional years. The Department has exercised the first optional year, October 2024 – September 2025.

Medi-Cal Rx provides modern pharmacy support systems, including:

- claims administration and utilization management services,
- pharmacy drug rebate administration, and
- provider and beneficiary support.

Effective July 1, 2020, a consulting and project management contractor was put in place to support the takeover of operations from the current Medi-Cal Fiscal Intermediary (FI) and managed care (MC) plans related to Medi-Cal Rx. The consultant contractor work efforts are expected to continue through FY 2025-26. An additional consultant will provide contract evaluation services.

The federal certification of the claims operation occurred in August 2023 and was retroactive to January 2022. This allowed the retroactive claiming of the claims services and the supporting contractor services to receive Title XIX 75% FF / 25% GF.

MEDI-CAL RX - ADMINISTRATIVE COSTS

Reason for Change:

The change in FY 2025-26, from the prior estimate is due to:

- Shifting payments from FY 2024-25 to FY 2025-26, and
- An increase in estimated contractor costs.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a decrease in estimated contractor costs.

Methodology:

1. Contractor costs are included in FY 2025-26 and FY 2026-27.
2. A portion of the Contractor costs estimated to occur in FY 2024-25 have been shifted to FY 2025-26.
3. The estimated cost for FY 2025-26 and FY 2026-27 is:

(Dollars in Thousands)

COUNTY & TRIBAL MEDI-CAL ADMINISTRATIVE ACTIVITIES

FISCAL REFERENCE NUMBER:1963

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$154,201,000	\$131,696,000
FEDERAL FUNDS	\$154,201,000	\$131,696,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets the federal financial participation (FFP) for claims submitted on behalf of local governmental agencies (LGAs) including American Indian/Alaskan Native Tribes and Tribal Organizations for Medicaid administrative activities.

Authority:

Welfare & Institutions Code (WIC) 14132.47

Interdependent Policy Changes:

Not Applicable

Background:

WIC 14132.47 authorizes the State to administer the County-based Medi-Cal Administrative Activities (CMAA) and Tribal Medi-Cal Administrative Activities (TMAA) claiming processes. CMAA and TMAA are voluntary programs that allow LGAs to receive federal reimbursement for allowable administrative activities upon entering into a contract with the Department. The Department submits claims on behalf of the LGAs, which includes counties and chartered cities, and Native American Indian tribes and tribal organizations to obtain FFP for certified public expenditures incurred through performing CMAA and TMAA. These activities assist Medi-Cal eligible persons to learn about, enroll in, and access services of the Medi-Cal program.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- FY 2023-24 Q1 CMAA invoice payments shifting from FY 2024-25 to FY 2025-26.
- Decreased estimate of CMAA FY 2024-25 Q1 payments.
- Increased estimate of TMAA FY 2023-24 Q2 to Q4 and FY 2024-25 Q1 payments.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- Decreased estimated payments due to the FY 2026-27 estimated payments and processing timelines for CMAA are assumed to resume to a standardized schedule.
- Increased payments from the assumed growth factor applied to the estimated FY 2024-25 and FY 2025-26 CMAA and TMAA payments.

Methodology:

County Medi-Cal Administrative Activities

1. The CMAA FY 2025-26 estimate includes the remaining actuals from FY 2023-24 Q1 to Q4 claims and estimated FY 2024-25 Q1 claims. The FY 2023-24 Q2 to Q4 claims are based on actual claims received for Q1. The estimated base payments for FY 2024-25 claims assume

COUNTY & TRIBAL MEDI-CAL ADMINISTRATIVE ACTIVITIES

a 4% growth factor from FY 2023-24, based on growth in CMAA and TMAA claims from FY 2018-19 through FY 2022-23.

CMAA FY 2025-26 Estimated Payments	
FY 2023-24 Q1 to Q4	\$121,094,000
FY 2024-25 Q1	\$32,413,000
Total	\$153,507,000

2. The CMAA FY 2026-27 estimate includes estimated claims for FY 2024-25 Q2 to Q4 and FY 2025-26 Q1. The estimated base payments for FY 2024-25 and FY 2025-26 claims assume a 4% growth factor from FY 2023-24, based on growth in CMAA and TMAA claims from FY 2018-19 through FY 2022-23.

CMAA FY 2026-27 Estimated Payments	
FY 2024-25 Q2 to Q4	\$97,240,000
FY 2025-26 Q1	\$33,710,000
Total	\$130,950,000

Tribal Medi-Cal Administrative Activities

1. The TMAA FY 2025-26 estimate includes the remaining actuals from FY 2023-24 Q2 to Q4 invoices and estimated claims for FY 2024-25 Q1 invoices. The FY 2023-24 Q2 to Q4 claims are based on actual claims received for FY 2023-24 Q1. The estimated base payments for FY 2024-25 invoices assume a 4% growth factor from FY 2023-24, based on growth in TMAA and CMAA claims from FY 2018-19 through FY 2022-23.

TMAA FY 2025-26 Estimated Payments	
FY 2023-24 Q2 to Q4	\$509,000
FY 2024-25 Q1	\$185,000
Total	\$694,000

2. The TMAA FY 2026-27 estimate includes estimated claims for FY 2024-25 Q2 to Q4 claims, and FY 2025-26 Q1 claims. The estimated base payments for FY 2024-25 and FY 2025-26 claims assume a 4% growth factor from FY 2023-24, based on growth in TMAA and CMAA claims from FY 2018-19 through FY 2022-23.

TMAA FY 2026-27 Estimated Payments	
FY 2024-25 Q2 to Q4	\$554,000
FY 2025-26 Q1	\$192,000
Total	\$746,000

COUNTY & TRIBAL MEDI-CAL ADMINISTRATIVE ACTIVITIES

3. Total CMAA and TMAA reimbursements for FY 2025-26 and FY 2026-27 on a cash basis are:

FY 2025-26	TF	FF
County MAA	\$153,507,000	\$153,507,000

FY 2026-27	TF	FF
County MAA	\$130,950,000	\$130,950,000
Tribal MAA	\$746,000	\$746,000
Total	\$131,696,000	\$131,696,000

Funding:

100% Title XIX FFP (4260-101-0890)

SCHOOL-BASED MEDI-CAL ADMINISTRATIVE ACTIVITIES

FISCAL REFERENCE NUMBER:235

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$138,123,000	\$132,200,000
FEDERAL FUNDS	\$138,123,000	\$132,200,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy changes budgets the federal financial participation (FFP) for claims submitted on behalf of Local Governmental Agencies (LGAs), Local Educational Consortia (LECs) and Local Educational Agencies (LEAs) for costs incurred through performing Medicaid administrative activities.

Authority:

AB 2377 (Chapter 147, Statutes of 1994)
 AB 2780 (Chapter 310, Statutes of 1998)
 Welfare and Institutions (W&I) Code 14132.47

Interdependent Policy Changes:

Not Applicable

Background:

AB 2377 authorized the State to implement the Medi-Cal Administrative Activities (MAA) claiming process. The Department submits claims on behalf of LGAs, which include counties and chartered cities, to obtain FFP for certified public expenditures incurred through performing Medicaid administrative activities. These activities assist Medi-Cal eligible persons to learn about, enroll in, and access services of the Medi-Cal program. AB 2780 allowed LEAs (including school districts and County Offices of Education) the option of claiming MAA through either their LECs (one of the State's eleven administrative districts) or through their LGAs.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to:

- Actual invoices received for FY 2023-24 Q1, previously projected to be paid in FY 2024-25, will be shifted to FY 2025-26.
- Actual invoices received for FY 2022-23 Q2-Q4 and FY 2023-24 Q1, used to estimate FY 2023-24 Q2-Q4 estimates, were higher than in the previous estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- FY 2026-27 has fewer quarters in the estimate than FY 2025-26 due to FY 2026-27 not including additional prior year invoices.
- FY 2026-27 estimates are higher due to applying a 4.47% ECI adjustment to the quarterly projections.

SCHOOL-BASED MEDI-CAL ADMINISTRATIVE ACTIVITIES

Methodology:

The FY 2025-26 estimate includes:

1. The FY 2023-24 Q1 Los Angeles LEC, Orange LEC, Sonoma LEC, and Stanislaus LEC actual invoices received. The invoices were projected to be paid in FY 2024-25 but will now be paid in FY 2025-26. (The ECI factor is not added to actual claim amounts.)
2. The estimated amount for invoices associated with FY 2023-24 Q2-Q4 and FY 2024-25 Q1, which is to be paid in FY 2025-26, is based on the actual invoice claims from FY 2022-23 Q2-Q4 and FY 2023-24 Q1, plus a 4.47% ECI adjustment factor.

The FY 2026-27 estimate includes:

1. The FY 2024-25 Q2-Q4 and FY 2025-26 Q1 estimated amounts are based on the estimated amounts from FY 2023-24 Q2-Q4 and FY 2024-25 Q1, plus an ECI adjustment factor of 4.47%.

FY 2025-26	TF	FF
FY 2023-24 Q1 Los Angeles LEC, Orange LEC, Sonoma LEC, and Stanislaus LEC	\$11,576,000	\$11,576,000
FY 2023-24 Q2-Q4	\$99,023,000	\$99,023,000
FY 2024-25 Q1	\$27,524,000	\$27,524,000
Total	\$138,123,000	\$138,123,000

Total	\$132,200,000	\$132,200,000

Funding:

100% Title XIX FFP (4260-101-0890)

DRUG MEDI-CAL COUNTY ADMINISTRATION**FISCAL REFERENCE NUMBER:1813**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$118,800,000	\$123,527,000
FEDERAL FUNDS	\$118,580,000	\$122,956,000
GENERAL FUND	\$220,000	\$571,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administrative costs reimbursements for counties who provide Drug Medi-Cal (DMC) services, and Utilization Review (UR) and Quality Assurance (QA) administrative costs under the Drug Medi-Cal Organized Delivery System (DMC-ODS) waiver.

Authority:

Welfare & Institutions Code, Section 14711 and Section 14124.24(a)(6)
 State Plan Amendment #09-022
 Drug Medi-Cal Organized Delivery System (DMC-ODS) Waiver

Interdependent Policy Changes:

Not Applicable

Background:

The DMC program provides certain medically necessary substance use disorder (SUD) treatment services. These services are provided by providers under contract with the counties or with the State. This policy change budgets administrative costs for SUD services under the state plan and the DMC-ODS waiver.

On August 13, 2015, the Department received approval from the Centers for Medicare and Medicaid Services (CMS) to implement the DMC-ODS waiver.

DMC County Administrative Costs

Starting July 1, 2014, as instructed by the Centers for Medicare & Medicaid Services (CMS), the Department changed its process for reimbursing counties for their administrative expenses through a quarterly claims and cost settlement process. Prior to that, counties were paid for their DMC expenses (services and administration) through certified public expenditure (CPE) as part of an all-inclusive rate.

Effective FY 2014-15, the DMC county administrative reimbursement process was changed as follows:

- Quarterly Interim Claims – Counties send their quarterly invoices no later than 60 days after the end of the quarter and are reimbursed federal financial participation (FFP) based on their total expenses. Costs are limited to a maximum of 15% of services provided. This process is optional for participating counties.
- Annual Cost Settlement - At the end of the fiscal year, counties are required to submit their cost report and year-end administrative expense report. Cost settlements are based on comparing actual expenditures against the audited cost reports.

DRUG MEDI-CAL COUNTY ADMINISTRATION

- Audit Settlement – The Department has the authority to audit the cost reports within three years of the cost settlement.

DMC County UR and QA Administrative Costs

DMC-ODS waiver services include the existing treatment modalities (ODF, IOT, NTP, and Perinatal RTS), and the additional new and expanded services. Participation in the waiver is voluntary for counties and implementation is estimated on a phase-in basis beginning February 2017. Counties that opt-in to participate in the DMC-ODS waiver may also opt-in to implement UR and QA activities to safeguard against unnecessary and inappropriate medical care and expenses. Federal funds (FF) reimbursement for these costs is available at 75% for skilled professional medical personnel (SPMP) and 50% for all other personnel.

Effective FY 2025-26, the Department plans to implement the Behavioral Health Quality and Equity (BH QI/HE Framework to assist Behavioral Health Plans (BHPs) improve a set of Behavioral Health Performance Measures. DMC-ODS Counties will be eligible to claim reimbursement for these costs under Proposition 30.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to more counties submitting county administration and UR and QA claims, as well as higher claims from counties that were already participating.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to the expectation that claiming trends will continue to rise, resulting in higher estimated county administration, UR and QA, and QI/HE funding claims for FY 2026-27.

Methodology:

1. DMC county administration and UR and QA administration expenditures are split between Federal, State and County Funds (CF).
2. UR and QA costs for SPMP will receive enhanced federal reimbursement of 75%. All other personnel will receive 50% federal reimbursement.
3. For counties that submit claims annually, assume claims will be submitted and paid during interim cost settlement.
4. Assume the BH QI/HE (UR and QA Administration QI/HE Funding) framework funding will be available for county claims in FY 2025-26 and FY 2026-27 for the DMC-ODS Waiver.

DRUG MEDI-CAL COUNTY ADMINISTRATION

5. The estimated DMC county administration, annual settlement, UR and QA administration, and UR and QA administration QI/HE costs for FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF	FF	CF
County Administration	\$71,474,000	\$0	\$35,737,000	\$35,737,000
UR and QA Administration	\$82,182,000	\$0	\$56,677,000	\$25,505,000
UR and QA Administration QI/HE Funding	\$178,000	\$89,000	\$89,000	\$0
Annual Settlements	\$52,285,000	\$131,000	\$26,077,000	\$26,077,000
Total	\$206,119,000	\$220,000	\$118,580,000	\$87,319,000

FY 2026-27	TF	GF	FF	CF

100% General Fund (4260-101-0001)

100% Title XIX FF (4260-101-0890)

CALAIM-BH-CONNECT WORKFORCE INITIATIVE**FISCAL REFERENCE NUMBER:2517**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$95,095,000	\$213,750,000
FEDERAL FUNDS	\$95,095,000	\$213,750,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal share of costs for the new Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT) Demonstration Workforce Initiative.

Authority:

Medicaid Section 1115 Demonstration Waiver
Welfare & Institutions Code 14184.400(c)

Interdependent Policy Changes:

Not Applicable

Background:

The Department received approval on December 16, 2024, from the Centers for Medicare and Medicaid Services (CMS) for the BH-CONNECT Demonstration, which aims to expand access to and strengthen the continuum of mental health services for Medi-Cal members living with significant behavioral health needs.

The BH-CONNECT Section 1115 Demonstration includes \$1.9 billion in total funds over the life of the demonstration for a workforce initiative. Of this amount, half will be funded with Medicaid matching funds, and 85 percent of the remaining state share will be covered by the Designated State Health Programs (DSHP) funding stream.

Proposition 1, from the recast Behavioral Health Services Act (BHSA), provides state-directed resources for the Department of Health Care Access and Information (HCAI) for the workforce initiative, accounting for the remaining 15 percent of the non-federal share of costs.

The BHSA state-directed funds and state General Fund equivalent to the amounts ultimately covered by DSHP funding are assumed to be included in the HCAI budget.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2026-27 reflecting a full year's cost.

CALAIM-BH-CONNECT WORKFORCE INITIATIVE

Methodology:

1. Assume payments for the BH-CONNECT Workforce Initiative will begin in January 2026.
2. The federal share of the BH-CONNECT Workforce Initiative is assumed to be approximately \$95 million FFP during the first demonstration year (DY 1), \$214 million FFP in DY 2 through DY 4, and \$213 million FFP in DY 5, for a total of \$950 million FFP.
3. Total estimated cost in FY 2025-26 and FY 2026-27, on a cash basis, is:

(Dollars in Thousands)

BH-CONNECT Workforce Initiative	TF	FF
FY 2025-26	\$95,095	\$95,095
FY 2026-27	\$213,750	\$213,750

Funding:

100% Title XIX FF (4260-101-0890)

BH TRANSFORMATION FUNDING FOR COUNTY BH DEPTS.**FISCAL REFERENCE NUMBER:2491**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$93,508,000	\$17,001,000
FEDERAL FUNDS	\$38,508,000	\$7,001,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$55,000,000	\$10,000,000

Purpose:

This policy change estimates funding to counties to begin administering the Behavioral Health Services Act (SB 326, Chapter 790, Statutes of 2023).

Authority:

SB 326 (Chapter 790, Statutes of 2023)
Budget Act of 2024 [SB 108 (Chapter 35, Statutes of 2024)]
Budget Act of 2025 [AB 102 (Chapter 5, Statutes of 2025)]

Interdependent Policy Changes:

Not Applicable

Background:

The Behavioral Health Services Act (BHSA) revises and recasts the Mental Health Services Act (MHSA) as the BHSA. Voters approved amendments to the MHSA at the March 5, 2024, statewide primary election. The BHSA clarifies that county behavioral health programs are permitted to use BHSA funds to treat primary substance use disorder conditions and makes conforming changes throughout the BHSA. This BHSA restructures current MHSA funding buckets; enhances the current process for local planning of various services funded by the BHSA; and for oversight, accountability, and reporting of BHSA funds.

In addition, the BHSA requires counties to prepare and submit a three-year Integrated Plan for Behavioral Health Services and Outcomes (Integrated Plan) and annual updates; and to prepare and submit to the State the annual Behavioral Health Outcomes and Accountability Transparency Report (Transparency Report). Counties will be required to implement new processes to prepare and submit the Integrated Plan and Transparency Report.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to a lower allocation of \$10 million to the Behavioral Health Services Fund (BHSF) for FY 2026-27, alongside a decrease in Federal Funds. This decreased allocation is associated with a lower than estimated receipt of reimbursement claims, compared to prior estimates.

Methodology:

1. The 2025 Budget Act includes \$55 million BHSF in FY 2025-26. It is assumed that \$10 million BHSF funding will be available in FY 2026-27.

BH TRANSFORMATION FUNDING FOR COUNTY BH DEPTS.

2. The following are the estimated costs in FY 2025-26 and FY 2026-27, on a cash basis:

(Dollars in Thousands)

Fiscal Year	TF	BHSF	FF
FY 2025-26	\$93,508	\$55,000	\$38,508
FY 2026-27	\$17,001	\$10,000	\$7,001

Funding:

100% Behavioral Health Services Fund (4260-101-3085)

100% Title XIX (4260-101-0890)

POSTAGE & PRINTING**FISCAL REFERENCE NUMBER:231**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$70,815,000	\$70,815,000
FEDERAL FUNDS	\$35,279,000	\$35,279,000
GENERAL FUND	\$35,536,000	\$35,536,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets postage and printing costs for items sent to or used by Medi-Cal members.

Authority:

Welfare & Institutions Code 14103.6, 14124.5, and 10725
 Title 42, Code of Federal Regulations (CFR), Section 435.905
 Title 45, Code of Federal Regulations (CFR), Section 164.520
 Title 26, Code of Federal Regulations (CFR), Section 1.6055
 California Revenue and Tax Code § 61005

Interdependent Policy Changes:

Not Applicable

Background:

Costs for mailing various legal notices and the costs for forms used in determining eligibility and available third-party resources are budgeted in the local assistance item since these costs are caseload driven. Under the federal Health Insurance Portability and Accountability Act (HIPAA), it is a legal obligation of the Medi-Cal program to send out a Notice of Privacy Practices (NPP) to each member household explaining the rights of members regarding the protected health information created and maintained by the Medi-Cal program. The notice must be sent to all new Medi-Cal and Breast and Cervical Cancer Treatment Program (BCCTP) enrollees and to existing members at least every 3 years. Postage and printing costs for the HIPAA NPP, Quarterly JvR ("Your Fair Hearing Rights"), Incarceration Verification Program, Earned Income Tax Credit (EITC), IRS Form 1095-B (1095-B), creation and mailing of the Notice for Requested Action (NFRA), Home Community Base Services and Waiver Personal Care Services notices, Third Party Liability (TPL) notices, and Public Assistance Reporting Information System are included in this item. IRS Form 1095-B is mailed by the Department to serve as proof of insurance for members enrolled in Medi-Cal and required to report their health insurance coverage to the Internal Revenue Service (IRS) and the Franchise Tax Board (FTB). The NFRA is a letter that the Department sends to members whose record contains inconsistent information that prevents it from being accepted by the IRS. This item also includes additional costs for printing, storage, and mailing of important Department publications and applications to counties and members on request.

Medi-Cal members receive health care services from medical or pharmacy providers enrolled in the Medi-Cal program. Providers must receive authorization from Medi-Cal in order to provide and/or be paid for some of these services. The form a provider uses to request authorization is called a Treatment Authorization Request (TAR).

POSTAGE & PRINTING

Postage and printing costs for notices and letters for the State-funded component of the BCCTP and the printing of EITC notices are 100% general fund (GF). Costs associated with IRS Form 1095-B are 50% GF and 50% federal fund.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to now including postage costs for the HR 1 - Fed Work & Community Engagement Requirement policy change. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Based on actuals, the reported population receiving Form 1095-B mailings for FY 2025-26 and FY 2026-27 is assumed to be 14,862,000.

2. Assume that the cost per mailing is \$0.82:

$$14,862,000 \text{ mailings} \times \$0.82 \text{ per mailing} = \$12,187,000 \text{ (rounded)}$$

3. Based on FY 2024-25 actuals, assume that 3% of 1095-B forms are resent due to member request for reprints or for corrected 1095-Bs. The cost to send a reprint/correction is \$0.82 per unit.

$$3\% \times 14,862,000 \text{ mailings} = 445,860 \text{ returned mailings}$$

$$445,860 \text{ returned mailings} \times \$0.82 \text{ per unit} = \$366,000 \text{ (rounded)}$$

4. Assume that NFRAs are sent to members for IRS reported errors found on Form 1095-B. The cost to process the Form 1095-B notices is \$0.82 per unit. Based on actuals, 124,400 NFRAs were mailed for FY 2024-25. Assume 124,400 mailers will be sent out to members for FY 2025-26 and FY 2026-27.

$$124,400 \text{ mailings} \times \$0.82 \text{ per mailing} = \$102,000 \text{ (rounded)}$$

5. TAR postage costs for Medi-Cal are assumed to be \$80,000 for FY 2025-26 and FY 2026-27.
6. Office of State Publishing costs for printing Family Planning, Access, Care, and Treatment program brochures are assumed to be \$150,000 in FY 2025-26 and FY 2026-27.
7. Postage costs for the HR 1 - Fed Work & Community Engagement Requirement policy change are assumed to be \$8,000,000 in FY 2025-26 and FY 2026-27.
8. The Department estimates the printing and postage costs for FY 2025-26 and FY 2026-27 are:

POSTAGE & PRINTING

CALAIM - POPULATION HEALTH MANAGEMENT**FISCAL REFERENCE NUMBER:2288**

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$69,660,000	\$57,141,000
FEDERAL FUNDS	\$66,861,000	\$49,219,150
GENERAL FUND	\$2,799,000	\$7,921,850
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for creating the Population Health Management (PHM) service under the California Advancing and Innovating Medi-Cal (CalAIM) policy.

Authority:

SB 129 (Chapter 69, Statutes of 2021)
AB 107 (Chapter 22, Statutes of 2024)
SB 101 Act of 2025
Contract # 22-20426 A01
Contract # 24-40170
Contract # 25-50067

Interdependent Policy Changes:

Not applicable

Background:

In alignment with the CalAIM Population Health Management strategy, the Department implemented a Medi-Cal Population Health Management service that utilizes Medi-Cal administrative and clinical data and information for the Department, Managed Care Plans, counties, providers, members, and other Department partners to use in support of the delivery of care for all Medi-Cal members. Information is available from many Medi-Cal delivery systems and programs, including but not limited to managed care, fee-for-service, specialty mental health, substance use disorder, dental services, long term services & supports, developmental disability services, in-home supportive services (IHSS), 1915c Waivers, Supplemental Nutrition Assistance Program (SNAP), Women, Infants, and Children (WIC), In Lieu of Services (ILOS), and Lab links. This service provides the Department and others with access to identifications of potential gaps in care, provider/care manager information, information on social determinates of health, population health analytics, health education, and tips for members. Additionally, the service provides Medi-Cal members with access to their administrative and clinical information, as appropriate. Clinical data will phase in over time.

Throughout the Medi-Cal program many of the services provided are provided and maintained through individual administrative functions and there is not currently a single process to bring these services together and provide a holistic approach to delivering Medi-Cal to Californians.

Population Health Management provides a service to access necessary information for many different parties and utilizing standard policies. The service will limit the burden on Medi-Cal members when receiving services and support many programs in Medi-Cal through a standardized approach. Additionally, this service will allow the Department to have an elevated view of the care provided to Medi-Cal members.

CALAIM - POPULATION HEALTH MANAGEMENT

Reason for Change:

The change from the prior estimate, for FY 2025-26, is decrease for GF due to the non-federal share having been encumbered through multi-year appropriations. There is a decrease from prior year to FY 2025-26 for FF due to updates to the applied Federal Financial Participation (FFP) splits. The change from FY 2025-26 to FY 2026-27, is a decrease due to projected contract deliverables.

Methodology:

1. The Budget Act for 2021-22 provided \$30 million from the General Fund (GF) and \$270 million in Federal Funds (FF) for this service, available to be spent through June 30, 2024. AB 107 reappropriated \$19,773,000 for encumbrance or expenditure through June 30, 2025. SB 101 Act of 2025 further reappropriated \$19,773,000 for encumbrance or expenditures through June 30, 2026.
2. Previously, this policy change was funded using only a FFP split of 90% FF and 10% GF. However, in accordance with the Centers for Medicare & Medicaid Services (CMS) approved Implementation Advanced Planning Document (IAPD), the Department has corrected the funding splits for FY 2025-26 and FY 2026-27. In addition, the Department is currently reconciling FY 2023-24 and FY 2024-25 to return approximately \$2.8 million dollars to the federal government for previous billings that were based on the incorrect FFP split. The refund occurred in October 2025.
3. Total estimated multiyear and ongoing expenditures for the program are:

	TF	GF	FF
SB 101 Reappropriated Amount	\$197,730,000	\$19,773,000	\$177,957,000
Federal Repayment	\$0	\$2,799,000	-\$2,799,000
FY 2025-26 Anticipated Expenditures (From previously re-appropriated amount)	\$79,795,000	\$10,135,000	\$69,660,000
FY 2026-27 Portion of Anticipated Expenditures (From previously re-appropriated amount)	\$49,966,000	\$6,839,000	\$43,127,000
FY 2026-27 Portion of Anticipated Expenditures (In addition to previously re-appropriated amount)	\$14,014,000	\$3,609,000	\$10,405,000

4. The total budgeted dollars for FY 2025-26 are **\$69,660,000**, and **\$57,141,000** for FY 2026-27.

CALAIM - POPULATION HEALTH MANAGEMENT**Funding:**

FY 2025-26	TF	GF	FF

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$53,303,000	\$56,679,000
FEDERAL FUNDS	\$53,303,000	\$56,679,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets the federal funds (FF) for claims submitted on behalf of specialty mental health plans (MHPs) for Medi-Cal Administrative Activities (MAA).

Authority:

Welfare & Institutions Code 14132.47
AB 2377 (Chapter 147, Statutes of 1994)

Interdependent Policy Changes:

Not Applicable

Background:

AB 2377 authorized the State to implement the MAA Claiming Process. The Specialty Mental Health (SMH) waiver program submits claims on behalf of MHPs to obtain federal financial participation (FFP) for MAA necessary for the proper and efficient administration of the SMH waiver program including outreach, contract administration, program planning, and policy development. These activities ensure that assistance is provided to Medi-Cal eligible individuals and their families for the receipt of SMH services.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a slight decrease due to updated funding split percentages between FF and county funds (CF).

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the projected growth in claims based on prior years' claiming trends.

Methodology:

1. County MHPs submit claims for reimbursement on a quarterly basis. In line with Short Doyle claiming deadlines, SMH MAA claims may be submitted up to one year after the close of a quarter.
2. Estimates for SMH MAA are based on nine years of actual claims data (from FY 2014-15 to FY 2022-23) and then projected out to future fiscal years using Excel's forecast model, which uses exponential smoothing.
3. Based on data, the expected reduction in claiming for Unsatisfactory Immigration Status (UIS) population members is now part of the forecast model in the estimate.

SMH MAA

4. This policy change will continue to use the current Certified Public Expenditure methodology and will not be included in the Intergovernmental Transfer methodology being implemented for the California Advancing and Innovating Medi-Cal (CalAIM).
5. Based on the updated claims deadlines, beginning for FY 2023-24 claims, assume 25% of claims will be paid in the year services occur (year one), 50% are paid in the following year (year two), and 25% are paid in the following year after that (year 3).

(Dollars in Thousands)

Fiscal Years	Accrual	FY 2025-26	FY 2026-27
2023-24	\$90,780	\$22,695	\$0
2024-25	\$96,918	\$48,459	\$24,230
2025-26	\$103,056	\$25,764	\$51,528
2026-27	\$109,193	\$0	\$27,298
Total		\$96,918	\$103,056

6. The SPMP are eligible for enhanced federal reimbursement of 75%. All other personnel are eligible for 50% federal reimbursement. Based on actual claims submitted for costs incurred in FY 2023-24 and FY 2024-25, assume 19.99% of costs are eligible for 75% reimbursement and the remaining 80.01% are eligible for 50% reimbursement. SMH MAA total expenditures are shared between FF and CF.
7. On a cash basis, the estimates for FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

	FY 2025-26			FY 2026-27

CALAIM - BH - CONNECT DEMONSTRATION ADMIN**FISCAL REFERENCE NUMBER:2398**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$41,866,000	\$41,866,000
FEDERAL FUNDS	\$20,933,000	\$20,933,000
GENERAL FUND	\$8,433,000	\$8,433,000
OTHER FUNDS	\$12,500,000	\$12,500,000

Purpose:

This policy change estimates the administrative costs of the Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT) Demonstration, which will expand access to and strengthen the continuum of mental health services for Medi-Cal members living with significant behavioral health needs.

Authority:

Medicaid Section 1115 Demonstration Waiver
Welfare & Institutions Code 14184.400(c)

Interdependent Policy Changes:

Not Applicable

Background:

California is facing a growing mental health crisis exacerbated by the COVID-19 pandemic. Since the pandemic, California hospitals report significant increases in the number of adolescents seeking psychiatric treatment in emergency departments, as well as long waitlists for psychiatric inpatient beds for children and adolescents. For adults, the situation is similarly serious. More than one in 20 adult residents in California is living with significant behavioral health needs, and the evidence continues to mount that individuals who are experiencing or at risk of homelessness and those involved in the justice system experience high rates of untreated mental illness and/or substance use disorder. Even so, approximately one-third of individuals enrolled in Medi-Cal and who are living with significant behavioral health needs do not receive any Medi-Cal Specialty Mental Health Services. As a result, the Department has made strengthening California's behavioral health system a top priority and is making many investments in expanding behavioral health services. The BH-CONNECT Demonstration was designed to expand on these investments, complement existing major behavioral health initiatives, and strengthen the continuum of care for Medi-Cal members.

On December 16, 2024, the Centers for Medicare & Medicaid Services (CMS) approved the BH-CONNECT demonstration that aims to expand access and strengthen the continuum of mental health services for Medi-Cal members living with significant behavioral health needs. The disparities addressed in the demonstration are based largely off California's 2022 Assessment, titled Assessing the Continuum of Care for Behavioral Health Services in California.

California's approved BH-CONNECT demonstration includes the following new initiatives: (1) Access, Reform and Outcomes Incentive Program, (2) Workforce Initiatives, (3) Activity Funds Initiative, (4) Serious Mental Illness Program, (5) Community Transition In-Reach Services, and (6) HRSN. The overall goals of this demonstration include:

CALAIM - BH - CONNECT DEMONSTRATION ADMIN

- Expand the continuum of community-based behavioral health services and evidence-based practices (EBPs) available through Medi-Cal.
- Strengthen family-based services and supports for children and youth living with significant behavioral health needs, including children and youth involved in child welfare.
- Invest in statewide practice transformations to better enable county behavioral health delivery systems and providers to support Medicaid beneficiaries living with significant behavioral health needs.
- Strengthen the workforce needed to deliver community-based behavioral health services to Medicaid beneficiaries.
- Reduce use of institutional care by those individuals most significantly affected by significant behavioral health needs.
- Shorten lengths of stay in institutional settings and support successful transitions to community-based care settings and community reintegration.
- Promote improved health outcomes, community integration, treatment and recovery for individuals who are homeless or at risk of homelessness and experiencing critical transitions.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a projected increase in administrative costs for SMHS – Statewide activities.

There is no change from FY 2025-26 to FY 2026-27, in the current estimate.

Methodology:

1. The BH-CONNECT demonstration will be implemented through a staged approach over multiple years, by December 31, 2026. Assume payments for the administrative activities will start in September 2025.
2. Total estimated administrative costs for the BH-CONNECT Demonstration, on a cash basis, is as follows:

(Dollars in Thousands)

FY 2025-26	TF	GF	FFP	IGT*
SMHS - Statewide	\$16,866	\$8,433	\$8,433	\$0
SMHS -Opt-in	\$25,000	\$0	\$12,500	\$12,500
Total	\$41,866	\$8,433	\$20,933	\$12,500

(Dollars in Thousands)

FY 2026-27	TF	GF	FFP	IGT*
SMHS - Statewide	\$16,866	\$8,433	\$8,433	\$0
SMHS -Opt-in	\$25,000	\$0	\$12,500	\$12,500
Total	\$41,866	\$8,433	\$20,933	\$12,500

Funding:

100% GF (4260-101-0001)

Title XIX FF (4260-101-0890)

Medi-Cal County Behavioral Health Fund (4260-601-3420)*

ACTUARIAL COSTS FOR RATE DEVELOPMENT**FISCAL REFERENCE NUMBER:1937**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$41,000,000	\$45,085,000
FEDERAL FUNDS	\$20,500,000	\$22,542,500
GENERAL FUND	\$20,350,000	\$22,392,500
OTHER FUNDS	\$150,000	\$150,000

Purpose:

This policy change estimates the costs for contracted actuarial rate development services and actuarial consulting for litigation related services.

Authority:

Welfare & Institutions Code 14301.1

Title 42, Code of Federal Regulations 438.4

Interdependent Policy Changes:

Not Applicable

Background:

Federal requirements for obtaining federal financial participation require that managed care capitation rates be actuarially sound. Actuarially sound capitation rates require:

- Having been developed in accordance with standards specified in Title 42, Code of Federal Regulations (CFR) 438.5, and generally accepted actuarial principles and practices,
- Being appropriate for the populations to be covered and the services to be furnished under the contract, and
- Being certified by an actuary as meeting applicable federal requirements specified in Title 42 CFR 438.4.

The Department entered into a contract with an actuarial services consultant to ensure development of actuarially sound capitation rates.

Due to legislation implementing changes to the Medi-Cal program, the Department continues to experience litigation cases. Ongoing litigation filed by managed care plans relating to capitation rates has resulted in significant time expended by actuarial staff in evaluating the cases and developing defense strategies.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27 in the current estimate, is an increase, due to increased actuarial workload related to the implementation of complex programs and policies necessitating more advanced analysis and additional resources.

ACTUARIAL COSTS FOR RATE DEVELOPMENT

Methodology:

1. This policy change collectively budgets for all actuarial services received for different managed care programs.
2. Per payment terms, 10% of the contractor's fees are withheld for six months pending completion of outstanding projects.
3. Per payment terms, the contractor fees overlap fiscal years due to billing for projects in the subsequent invoice month.
4. Specific costs are identified for existing workloads Hospital Quality Assurance Fee (HQAF) program and Consulting Actuaries costs; however, ongoing actuarial services are needed as these, and other new programs are integrated into the overall managed care delivery system rate setting process.
5. The FY 2025-26 and FY 2026-27 amounts on an accrual basis are estimated to be:

Policy	FY 2025-26	FY 2026-27
Ongoing Actuarial Services	\$39,700,000	\$43,910,000
HQAF Program	\$300,000	\$300,000
Consulting Actuaries	\$2,100,000	\$2,100,000
Total	\$42,100,000	\$46,310,000

The FY 2025-26 and FY 2026-27 amounts on a cash basis are estimated to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	HQAF	FF
FY 2025-26	\$41,000	\$20,350	\$150	\$20,500
FY 2026-27	\$45,085	\$22,392	\$150	\$22,543

Funding:

50% Title XIX FF / 50% GF (4260-101-0890/0001)

MEDI-CAL RECOVERY CONTRACTS**FISCAL REFERENCE NUMBER:1551**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$37,781,000	\$34,037,000
FEDERAL FUNDS	\$28,335,750	\$25,527,750
GENERAL FUND	\$9,445,250	\$8,509,250
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of third party liability contracts to identify and recover Medi-Cal expenditures from responsible third parties. The policy change also includes contracts for identification of private/group health coverage and the recovery of Medi-Cal expenditures, disability determinations, online database contracts to access public records, and data matches.

Authority:

Contracts:

Dept. of Industrial Relations (DIR) –	22-20079
Electronic Adjudication Management System (EAMS)	
Department of Social Services (CDSS)	20-10026
Department of Social Services (CDSS)	25-50018
Health Management Systems Inc. (HI)	18-95310 A03
RELX Inc.	23-30329

Interdependent Policy Changes:

Not Applicable

Background:

Since Medi-Cal is the payer of last resort, all legally responsible third parties must first be billed before the Medi-Cal program, unless certain restrictions apply. The above contracts provide:

- Data matches between the Department's Medi-Cal member eligibility file and the carrier's policy holder/subscriber file,
- Identification of private/group health coverage and the recovery of Medi-Cal expenditures when the private/group health coverage is the primary payer,
- Online access to research database services for public records of Medi-Cal members,
- Access to disability determinations for applicants requesting an exemption from estate recovery claims on the basis of a disability, and
- Cost avoidance activities.

For contingency-based contracts, when such insurance is identified, the vendor retroactively bills the third party to recover Medi-Cal paid claims. Payment to the vendor is contingent upon recoveries and may exceed the vendor's estimated recovery projections. Recoveries due to third party liability vendor activities are incorporated into the Base Recoveries policy change.

MEDI-CAL RECOVERY CONTRACTS

The Department awarded the Health Insurance contract (18-95310) to Health Management Systems, Inc. (HMS) with an effective date of December 1, 2018, and an expiration date of November 30, 2023.

On April 3, 2023, the Department obtained approval by the Centers for Medicare and Medicaid Services to extend the contract for an additional two years. The current, amended contract (18-95310 A03) runs through November 30, 2025. The contingency fee remains at 8.5%.

The Department has begun an Invitation for Proposal for a new contract term starting December 1, 2025, through November 30, 2030. The contractor and contingency fee are unknown at this time; however, for the purposes of projections it is assuming a stable contingency fee at 8.5%.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to:

- There is no change in Online Database Contracts from the prior estimate.
- For the HMS – Health Insurance Contract, the recovery amounts for FY 2025-26 are assumed to be lower, based on actual recoveries for FY 2024-25 and reflecting the new average recovery amounts for the remainder of the current contract, 18-95310 A03 (ending November 30, 2025).

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to:

- No change in the FY 2026-27 estimate for Online Database Contracts when compared to FY 2025-26.
- For the HMS – Health Insurance Contract, FY 2026-27 recoveries are projected to be lower than in FY 2025-26 because invoicing from the previous contract, 18-95310 A03, will have concluded. The assumption is that the new contract will return to baseline recovery amounts with a continued 8.5% contingency fee.

Methodology:

1. The amounts paid to the HMS contractor for HI is contingent upon recoveries. Assume the following recoveries for each fiscal year at the contracted contingency fee percentage. The HI recovery contract was recently amended to extend the timeframe to an additional two years. The term of this contract is from December 1, 2018, through November 30, 2025. Additional amounts for FY 2025-26 assume that the new HI contract will begin December 1, 2025, maintaining the previous contingency of 8.5%.

Recoveries x Contingency Fee % = Total Contingency Fee

Contractor	FY 2025-26 Recoveries	FY 2026-27 Recoveries	Contingency Fee %	FY 2025-26 Contingency Fee	FY 2026-27 Contingency Fee
HMS 18A03	\$444,050,000	\$400,000,000	8.50%	\$37,744,000	\$34,000,000

2. The amounts paid to the Online Database contractors are either based upon usage or billed at a flat monthly rate:

MEDI-CAL RECOVERY CONTRACTS

Online Database Contracts	FY 2025-26	FY 2026-27
Department of Industrial Relations - EAMS	\$5,000	\$5,000
Department of Social Services	\$4,000	\$4,000
RELX Inc.	\$28,000	\$28,000
Total	\$37,000	\$37,000

3. The payments shown below include recent recovery activity.

FY 2025-26	TF	GF	FF
Health Insurance	\$37,744,000	\$9,436,000	\$28,308,000
Online Database Contracts	\$37,000	\$9,000	\$28,000
Total	\$37,781,000	\$9,445,000	\$28,336,000

FY 2026-27	TF	GF	FF
Health Insurance	\$34,000,000	\$8,500,000	\$25,500,000
Online Database Contracts	\$37,000	\$9,000	\$28,000
Total	\$34,037,000	\$8,509,000	\$25,528,000

Funding:

75% Title XIX / 25% GF (4260-101-0001/0890)

ENTERPRISE DATA ENVIRONMENT

FISCAL REFERENCE NUMBER:252

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$37,761,000	\$30,263,000
FEDERAL FUNDS	\$27,661,150	\$22,276,400
GENERAL FUND	\$10,099,850	\$7,986,600
OTHER FUNDS	\$0	\$0

Purpose:

The policy change estimates the contract costs associated with the Enterprise Data Environment (EDE). EDE includes the Management Information System/Decision Support System (MIS/DSS), Management Administration Reporting Subsystem (MARS), Surveillance Utilization Reporting System (SURS), Data Warehouse Maintenance and Operations (M&O), and Data Warehouse Digital Support Services (Data Warehouse DSS).

Authority:

Contract #14-90129 A05

Contract # 21-10284

Centers for Medicare & Medicaid Services (CMS) Transformed Medicaid Statistical Information System (T-MSIS) Requirements

Interdependent Policy Changes:

Not Applicable

Background:

EDE manages the Data Warehouse, which hosts a variety of Medicaid-related data and makes it available for various programmatic uses. MIS/DSS, MARS, and SURS are critical components of gathering the insight necessary to make recommendations, adjust strategic initiatives, and better capture revenue. Data is a critical component of good decision-making, and good decision-making comes from comprehensive reporting, effective analytics, and subsequent implementation.

These systems are used by more than 20 different areas within the Department (i.e., Audits & Investigations, Managed Care Operations, Pharmacy Benefits, Provider Enrollment, Integrated Systems of Care, Third Party Liability and Recovery, and Accounting), several other State departments, such as the California Department of Public Health and the Department of Justice, and other approved entities. The Department uses these systems in various ways, including:

- CMS Reporting
- The Managed Care Quality and Monitoring Division in its monitoring of health plan performance,
- The Third-Party Liability and Recovery Division in its collection efforts, and
- The Audits and Investigations Division in its anti-fraud efforts.

Ongoing M&O are accomplished through a multi-year contract. This contract includes M&O of the data warehouse, help desk support, training, and refreshing of hardware and software to maintain peak performance.

ENTERPRISE DATA ENVIRONMENT

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals, adjusted projections, and delayed contract start and payment dates. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the conclusion of the Optum contract and turnover and takeover activities.

Methodology:

1. Optum contract #14-90129 A05 (MIS/DSS, MARS, and SURS) extends the current Optum contract to June 30, 2026, with one optional twelve-month extension to allow sufficient time to develop and implement successful turnover and takeover from Optum.
2. The Department is currently working to procure a new Data Warehouse M&O contract to take over support of the current data environment and transition the existing workload supported by the expiring contract for EDE. This will result in a six-month transition takeover period during which both contracts will be in place.
3. The Department is currently working to procure a new Data Warehouse DSS contract to provide product management, technical management, and business management services to EDE in support of the product owners and product managers' responsibilities. This contract includes three one-year optional contract extensions.
4. The Department is currently working to procure hardware, software, licenses, and subscription to support the Data Warehouse. The responsibility of all the hardware and software management for the Data Warehouse will gradually transition from Optum to the Department by July 2026.
5. SURS and MARS subsystems received CMS certification on August 31, 2020. The systems receive enhanced funding of 75%/25%.
6. The estimated breakdown of the SURS, MARS, MIS/DSS, Data Warehouse M&O, and Data Warehouse DSS costs are:

Subsystem	FY 2025-26	FY 2026-27
SURS Operational Costs (75%/25%)	\$8,398,000	\$1,214,000
MARS Operational Costs (75%/25%)	\$2,764,000	\$363,000
MIS/DSS Operational Costs (75%/25%)	\$17,217,000	\$4,972,000
MIS/DSS Operational Costs (50%/50%)	\$759,000	\$134,000
Data Warehouse Operational Costs (75%/25%)	\$6,333,000	\$19,000,000
Data Warehouse DSS Operational Costs (75%/25%)	\$2,290,000	\$4,580,000
Total	\$37,761,000	\$30,263,000

ENTERPRISE DATA ENVIRONMENT

 Maximus Contract 20-10025 A1 & A2
 Maximus Contract 25-50012
 Maximus Contract 25-50017
 Public Assistance Reporting Information System (PARIS) Contract 25-50052

Interdependent Policy Changes:

Not Applicable

Background:

Effective January 1, 2013, the Managed Risk Medical Insurance Board (MRMIB) contracted with Maximus to provide Single Point of Entry (SPE) and administrative vendor services for the Healthy Families Program (HFP), Access for Infants and Mothers (AIM), and the Child Health and Disability Prevention (CHDP) Program Gateway. The Department transitioned the HFP and County Children's Health Initiative Program (CCHIP) into the Medi-Cal program in September 2013. The AIM Program was transitioned from MRMIB to the Department as of July 1, 2014, and renamed Medi-Cal Access Program (MCAP). As HFP and AIM transitioned into Medi-Cal programs, including the MCAP and Optional Targeted Low-Income Children's Program (OTLICP), Maximus' role evolved, including closing SPE for HFP and CHDP Gateway by January 1, 2014, forwarding applications to county welfare departments (CWDs), and supporting Covered California referrals. AIM infants above 250% of the federal poverty level began transitioning into Medi-Cal Access Infants Program beginning November 1, 2013, through February 1, 2014.

All MRMIB programs and the Maximus contract transitioned to the Department on July 1, 2014, with Maximus continuing administrative services for MCAP, OTLICP. Effective October 1, 2019, CCHIP also transitioned to Maximus. Maximus' services have included application processing,

OTLCP, MCAP, SPECIAL POPULATIONS ADMIN COSTS

case management, premium collection (discontinued under SB 184), publication development, and other administrative functions, with contract updates to support expanded responsibilities, including External Quality Review Organization (EQRO) activities required by CCHIP. Due to application availability in the community, Maximus forwards any HFP applications it receives to the appropriate CWDs for a determination without the benefit of screening for accelerated enrollment.

Administrative Vendor Services:

Administrative vendor services include costs for the following services: application processing, call center rate per minute, transaction forwarding fee, processing letters and notices, printing and courier fees, and implementation costs.

Contract Costs:

Effective July 1, 2025, the Maximus contract (Contract No. 25-50012) was renewed through July 31, 2030. Through this contract, Maximus oversees operational expenditures incurred for delivering services such as postage, telephone minutes, printing, and payment processing. These items are reimbursed based on actual usage and are not considered part of the core ongoing administrative vendor services.

The PARIS contract (Contract No. 25-50052) was implemented on July 1, 2025, to prevent fraud, abuse, and improper payments by identifying Medi-Cal members who are receiving benefits in another state. Maximus will provide the Department with document design, printing, mailing, response scanning, response reporting, call center and response portal website administration services.

EQRO is required to validate performance measures, evaluate performance improvement projects, conduct focus studies, monitor encounter data activities, conduct an annual survey, and perform other EQRO activities for the duration of the contract (Contract No. 20-10359). In July 2014, the Department became responsible for having the EQRO conduct the annual survey and other EQRO activities under the terms of the contract. Effective January 1, 2024, the EQRO contract was updated to account for additional projects and activities. During this time, the Department transitioned to an updated Managed Care Plan landscape, impacting External Quality Review projects and activities due to changes in the reporting unit structure. This transition supports the CMS Protocol 4: Network Adequacy Validation across all plans, and incorporates SB 1019 requirements, which are aimed at addressing the historically low utilization of Medi-Cal Non-Specialty Mental Health Services.

Hearing Aid Coverage for Children Program:

Effective July 1, 2021, AB 89 (Chapter 7, Statutes of 2020) authorized HACCP. This new state-only program serves California children who are not eligible for Medi-Cal and/or hearing-related coverage through California Children's Services Program and live in a household with income up to 600% of the federal poverty level. HACCP was initially available to children under 18 without insurance or whose insurance does not cover hearing aids and related services. Effective January 1, 2023, AB 179 (Chapter 249, Statutes of 2022) expanded the age criteria for HACCP to children under the age of 21, and broadened coverage to children who had other insurance with coverage of \$1,500 or less for hearing aids. Effective July 1, 2025, the Hearing Aid Coverage for Children Program (HACCP) transitioned to its own Maximus contract (Contract No. 25-50017).

OTLICP, MCAP, SPECIAL POPULATIONS ADMIN COSTS

Medi-Cal Publications:

Effective January 2017, administrative costs include publication costs for Medi-Cal special populations. Publication costs include developing, editing, updating, and performing readability evaluation of member materials as well as translation, printing, mailing, shipping, and formatting materials for uploading into the California Statewide Automated Welfare System.

Effective July 1, 2025, the Maximus contract for Medi-Cal Printing Maximus (Contract No. 20-10025 A1 & A2) has been renewed through July 1, 2026, to comply with the ADA, Section 205 amendment to the 1973 Rehabilitation Act, Title 42, California Code of Regulations, Section 11135, 7405, & 11546.7. The Department is required to ensure equal access to all information, resources, and opportunities afforded by technology. The Department must also make sure all communications are accessible, including appropriate readability, to members requiring "Alternate Formats" including braille, large font, digital data discs, etc., and translations into threshold languages in compliance with Title 2, California Code of Regulations, Section 14101(a)(4).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to additional Medi-Cal Publications costs related to printing and accessibility compliance. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to projected lower overall contract costs in FY 2026-27.

Methodology:

1. This estimate is based on an average of actual usage and processing of the applications, postage, and vendor contract rates and services.
2. Contract costs are eligible for Title XXI 65/35 FMAP, and Title XIX 50/50 FMAP. The EQRO contract cost is eligible for Title XIX 50/50 FMAP only. The HACCP contract costs are eligible for 100% GF.
2. Administrative vendor services costs are eligible for Title XIX 50/50 FMAP. HACCP administrative vendor costs are eligible for 100% GF.
3. Contract costs and administrative vendor service costs by program are as follows:

(Dollars in Thousands)

Program	FY 2025-26	FY 2026-27
OTLICP	\$14,106	\$13,361
MCAP	\$5,397	\$5,138
CCHIP	\$4,418	\$4,241
HACCP	\$3,407	\$3,145

4. Contract costs and administrative vendor service costs by cost category are as follows:

 Contract # 24-40228
 Contract # 25-50172

Interdependent Policy Changes:

Not Applicable

Background:

CMS requires the Department to create flexible systems, which support interactions between the federal government and their state partners. Through MITA, the Department develops the ability to streamline the process to access information from various systems, which result in cost-effectiveness. CMS will not approve Advance Planning Documents (APDs) or provide enhanced federal funding to the Department without adherence to MITA.

To operate more effectively and efficiently, the Department takes steps to achieve the maturity goals of the MITA Framework and focus strategic planning, system changes, and modernization around Department-wide business processes and enterprise organizational change management rather than focusing on separate program needs. These steps prevent the Department from potentially duplicating efforts regarding hardware, software, and resources across the enterprise.

This Enterprise MITA support services help mature the business processes and position the Department to be more flexible as it serves the growing number of members. Enacting the MITA Framework and associated governance also allows the Department to react to federal and state

MITA

laws more quickly and accurately. Additionally, the Department is better prepared to use the immense amounts of Medicaid data collected daily to better manage the program.

The Department conducts an annual MITA State Self-Assessment required by CMS, which includes a State MITA roadmap. Additionally, CMS requires Medi-Cal Enterprise Systems Certification in order to approve ongoing enhanced funding.

Integral in the Department's MITA governance is the Portfolio Management tool, which houses MITA data/roadmap information, and overall facilitates the Department's project portfolio and governance process.

Pursuant to an IA with the Regents of the University of California, San Diego (UCSD), an analyst and programmer provides support for data management and analytics to assist the Department in reaching MITA maturity.

MITA planning activities to improve provider management information occur and assess efforts necessary for a consolidated provider data repository, improving consumer-facing provider directories, and collecting provider network information from behavioral health and managed care dental plans.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a net decrease due to updated actuals, adjusted projection calculations, and delayed contract start and payment dates. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to adjusted projection calculations and new MITA contracts.

Methodology:

1. FY 2025-26 and FY 2026-27 contract amounts are associated with the MITA initiative throughout the Department in order to meet federal regulations and guidelines.
2. FY 2025-26 and FY 2026-27 include the cost of the MITA support services and UCSD IA estimates.
3. The projected costs are:

FY 2025-26	APD	TF	GF	FF
Enterprise MITA Support Services	MITA	\$26,799,000	\$3,404,000	\$23,395,000
UCSD IA	MITA	\$502,000	\$64,000	\$438,000
Enterprise Certification Support Services	MITA	\$3,551,000	\$451,000	\$3,100,000
Provider Management	PROV.	\$290,000	\$37,000	\$253,000
Total		\$31,142,000	\$3,956,000	\$27,186,000

MITA

FY 2026-27	APD	TF	GF	FF
Enterprise MITA Support Services	MITA	\$38,585,000	\$4,901,000	\$33,684,000
UCSD IA	MITA	\$502,000	\$64,000	\$438,000

50% Title XIX / 50% GF (4260-101-0001/0890)

ELECTRONIC VISIT VERIFICATION M&O COSTS**FISCAL REFERENCE NUMBER:2505**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$28,192,000	\$39,580,000
FEDERAL FUNDS	\$28,192,000	\$39,580,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Electronic Visit Verification (EVV) Maintenance and Operations (M&O) contract costs for the California Department of Social Service (CDSS), California Department of Aging (CDA), California Department of Public Health (CDPH), and California Department of Developmental Services (CDDS).

Authority:

Interagency Agreements (IA):
 CDSS IA 18-95714
 CDA IA 25-50009
 CDPH IA 25-50008
 CDDS IA 25-50007

Interdependent Policy Changes:

Not Applicable

Background:

EVV is a telephone and computer-based method that electronically verifies in home service visits. EVV solutions must verify type of service performed, individual receiving the service, date of the service, location of service delivery, individual providing the service, and time the service begins and ends. Pursuant to Subsection I of Section 1903 of the Social Security Act (SSA)(42 U.S.C. 1396b), all states must implement EVV for Medicaid-funded Personal Care Services (PCS) and Home Health Care Services (HHCS) that require an in-home visit by a provider. This applies to PCS provided under SSA sections 1905(a)(24), 1915(c), 1915(i), 1915(j), 1915(k), or a waiver under section 1115; and HHCS provided under section 1905(a)(7) of the SSA or a waiver of the State Plan.

In California, EVV impacts all PCS and HHCS provided under the Medi-Cal state plan and under several Medicaid waiver programs. These services are provided in California through programs managed by multiple state departments which the Department currently has contracts with: CDSS, CDA, CDPH, and CDDS.

EVV is in the M&O phase during the contract renewal process. The CDSS and CDA contract costs were previously budgeted in the Personal Care Services and Department of Aging Administrative Costs policy changes, respectively. The M&O costs for CDSS and CDA shifted into this policy change for FY 2025-26. This policy change also includes M&O costs for the CDDS and CDPH contracts.

ELECTRONIC VISIT VERIFICATION M&O COSTS

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to updated projections.

Methodology:

1. Assume the total M&O costs for CDSS, CDA, CDPH, and CDDS are as follows:

FY 2025-26	TF	GF	FF
CDSS	\$24,575,000	\$0	\$24,575,000
CDA	\$212,000	\$0	\$212,000
CDPH	\$98,000	\$0	\$98,000
CDDS	\$3,307,000	\$0	\$3,307,000
Total	\$28,192,000	\$0	\$28,192,000

FY 2026-27	TF	GF	FF
CDSS	\$35,987,000	\$0	\$35,987,000
CDA	\$184,000	\$0	\$184,000
CDPH	\$98,000	\$0	\$98,000
CDDS	\$3,311,000	\$0	\$3,311,000
Total	\$39,580,000	\$0	\$39,580,000

Funding:

Title XIX 100% FF (4260-101-0890)

EMSA - CALIFORNIA POISON CONTROL SYSTEM SVCS.**FISCAL REFERENCE NUMBER:2402**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$23,357,000	\$18,291,000
FEDERAL FUNDS	\$23,357,000	\$18,291,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match to the Emergency Medical Services Authority (EMSA) via an Interagency Agreement (IA) for providing services to Medi-Cal members offered by the California Poison Control System (CPCS).

Authority:

Interagency Agreement (IA) 19-96235
IA 24-40021

Interdependent Policy Changes:

Not Applicable

Background:

CPCS is a statewide network of health care professionals that provides free treatment advice and assistance to people over the telephone in case of exposure to poisonous or hazardous substances. CPCS, through a contract between EMSA and the University of California, San Francisco, manages more than 245,000 poison cases each year. CPCS reduces morbidity and mortality associated with harmful exposure and ingestions; it also decreases utilization of Emergency Medical Services (EMS) and emergency department resources. The population served includes everyone with any type of exposure, children and limited-resource populations benefit extensively. CPCS provides poison prevention help and information to the public and health professionals through a toll-free hotline that is accessible 24 hours per day, seven days a week. Calls received by CPCS include ingestion of potentially toxic products, potential allergic reactions to products, and over-the-counter medications.

Uninsured and Medi-Cal population use constitute 21% and 20%, respectively, of the cases managed by CPCS. The Department and EMSA provide services for Medi-Cal members through utilization of Title XXI Social Security Act reimbursable services offered by the CPCS.

The Department has an IA with EMSA to provide the aforementioned services. The cost for such services may vary year by year. The current IA 24-40021 was executed in September 2024 and is effective from the start of FY 2024-25 through FY 2028-29. The Department draws down and passes through the Medicaid federal funds to EMSA. The non-federal share of the reimbursement is paid for by EMSA.

Reason for Change:

The change in FY 2025-26 from the prior estimate, is an increase due to higher FY 2024-25 invoices estimated to be paid in FY 2025-26 Q1.

EMSA - CALIFORNIA POISON CONTROL SYSTEM SVCS.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease in assumed invoice amounts occurring in FY 2026-27.

Methodology:

1. The Department provides Federal Financial Participation (FFP) reimbursements to EMSA based on invoices received in accordance with the signed IA.
2. Contracted annual expenditures are paid on a quarterly basis where three quarters are paid in the same fiscal year, and the fourth quarter is paid in the following fiscal year.
3. On September 25, 2024, the Department approved a new contract beginning in FY 2024-25 through FY 2028-29 in the amount of \$91.3 million.
4. It is assumed the payments to EMSA will be made as follows on a cash basis:

(Dollars in Thousands)

FY 2025-26	TF	FF
FY 2024-25 Q4	9,783	9,783
FY 2025-26 Q1-Q3	\$13,574	\$13,574
Total	\$23,357	\$23,357

(Dollars in Thousands)

FY 2026-27	TF	FF
FY 2025-26 Q4	\$4,524	\$4,524
FY 2026-27 Q1-Q3	\$13,767	\$13,767
Total	\$18,291	\$18,291

Funding:

100% Title XXI FF (4260-101-0890)

HCBA WAIVER ADMINISTRATIVE COST**FISCAL REFERENCE NUMBER:2152**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$22,396,000	\$24,113,000
FEDERAL FUNDS	\$11,098,000	\$11,948,000
GENERAL FUND	\$11,298,000	\$12,165,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administrative cost of the Home and Community-Based Alternatives (HCBA) Waiver.

Authority:

Welfare and Institutions Code, Section 14132.991

Interdependent Policy Changes:

Not Applicable

Background:

The HCBA Waiver (Waiver) offers services in the home or community to Medi-Cal members who would otherwise receive care in a skilled nursing facility. Eligibility into the Waiver is based on skilled nursing levels of care. The level of care is determined by the Medi-Cal member's medical need. The Waiver is held to the principle of federal cost neutrality; thus, services are arranged so that the overall total costs for the Waiver and Medi-Cal State Plan services cannot exceed the costs of facilities offering equivalent levels of care.

On February 2, 2023, the Centers for Medicare & Medicaid Services (CMS) approved an HCBA Waiver for a new five-year term, from January 1, 2023, through December 31, 2027. The new Waiver term includes phases in additional slots each Calendar Year, beginning on January 1, 2025. However, based on historical enrollment and attrition trends, it was determined that the Waiver would reach capacity before the end of 2023. The Department submitted a Waiver amendment to begin phasing in new slots on January 1, 2024; CMS approved the Waiver amendment on December 11, 2023.

Although administrative payments will increase with higher enrollment into the Waiver, the State will ultimately save funding with more members receiving services in a community setting instead of in an institution.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight decrease due to updating projections using more recent expenditure data. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the growth trend in administrative costs.

Methodology:

1. Assume there are 9,589 members in the HCBA Waiver in FY 2024-25.
2. Assume 600 new members will be enrolled in FY 2025-26 and in FY 2026-27.

HCBA WAIVER ADMINISTRATIVE COST

3. Assume 100% of all current and new Waiver members will enroll with a Waiver Agency and receive administrative services.
4. Assume the Waiver administration costs include Waiver Agency reconciliation payments.

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$22,396	\$11,298	\$11,098

PAVE SYSTEM**FISCAL REFERENCE NUMBER:1932**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$21,350,000	\$15,599,000
FEDERAL FUNDS	\$15,525,300	\$11,300,850
GENERAL FUND	\$5,824,700	\$4,298,150
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs for the ongoing maintenance and operations (M&O) of the Provider Application and Validation for Enrollment (PAVE) system.

Authority:

Title 42, Code of Federal Regulations 455 Subpart E – Provider Screening and Enrollment
Contract # 15-92256 A05
Contract # 25-50199

Interdependent Policy Changes:

Not Applicable

Background:

The Department deployed an enrollment portal and associated business process application to digitize provider management activities to comply with provider integrity mandates under the Affordable Care Act. Some of the requirements are:

- Monthly database checks on enrolled providers and associated entities that manage, own, or have a controlling interest;
- Enroll all ordering, referring, or prescribing providers that bill claims to Medi-Cal;
- Periodic checks of all enrolled providers against various exclusionary databases as well as the Social Security Death Master File; and
- Revalidation of all providers every five years.

Reason for Change:

The change from the prior estimate, FY 2025-26, is an increase due to updated actuals, adjusted projections, and new change requests. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to adjusted projections and the completion of change requests.

Methodology:

1. The Department continues to add programs and benefits to PAVE on a phase-in basis. M&O costs continue to increase due to the inclusion of additional providers, which increases system volume and associated support activities.
2. Funds are based on the monthly service fee associated with using the PAVE system, which is influenced by the number of providers in the system, the number of calls received in the call center, and other key metrics. With these numbers constantly increasing, the monthly rates continuously increase as more providers apply and are enrolled.
3. The FY 2025-26 and FY 2026-27 costs are as follows:

PAVE SYSTEM

FY 2025-26	TF	GF	FF
Provider Cost	\$20,456,000	\$5,378,000	\$15,078,000
Help Desk Cost	\$894,000	\$447,000	\$447,000
Total	\$21,350,000	\$5,825,000	\$15,525,000

FY 2026-27	TF	GF	FF
Provider Cost	\$14,769,000	\$3,883,000	\$10,886,000
Help Desk Cost	\$830,000	\$415,000	\$415,000

CAPMAN**FISCAL REFERENCE NUMBER:1318**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$19,188,000	\$18,635,000
FEDERAL FUNDS	\$14,235,250	\$13,752,500
GENERAL FUND	\$4,952,750	\$4,882,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the contract costs to make improvements, maintain, and operate the existing Capitation Payment Reporting system (CAPMAN).

Authority:

Affordable Care Act (ACA) of 2010
 AB 1602 (Chapter 655, Statutes of 2010)
 SB 900 (Chapter 659, Statutes of 2010)
 CAPMAN Prime Vendor #22-20001
 CAPMAN Support Services #23-30073
 CAPMAN Discovery & Planning #24-40128

Interdependent Policy Changes:

Not Applicable

Background:

The Health Insurance Portability and Accountability Act (HIPAA) impose transaction requirements, including 5010 and Operating Rules. The CAPMAN system was implemented by the Department in July 2011. The HIPAA-compliant transaction automated and improved the capitation calculation process. CAPMAN allows detailed reporting at the member level while increasing the efficacy of monthly reconciliations and supporting research efforts to perform recoveries. In May 2019, a paperless accounting interface was implemented to interface between the Department's CAPMAN and the State Controller's Office (SCO).

Due to the ACA and the expansion of Medi-Cal Managed Care, the Department implemented additional functionalities in CAPMAN to accommodate the influx of new members. Modifications to the accounting interface were made to enhance the system to incorporate Electronic Funds Transfer (EFT). The paperless accounting interface increases the Department's efficiency. The system will be maintained on an ongoing basis, as new functionality is required.

The Department's administrative activities related to CAPMAN include the following contract and other related costs:

CAPMAN Prime Vendor Contracts

The CAPMAN Prime Vendor Contracts provides services, which include enhancements and maintenance needed to keep up with current technology, new federal and state mandates, and a paperless accounting interface. The contract is effective October 3, 2022, through October 2, 2027.

CAPMAN

CAPMAN Support Services:

The Support Services contract provides services in product management, infrastructure performance monitoring, and infrastructure services. The contract is effective October 12, 2023, through October 11, 2027.

Hardware/Software

Hardware/Software includes costs for licensed software used by the CAPMAN system and cloud infrastructure.

Discovery & Planning

The CAPMAN system requires planning for continuously increasing healthcare policies and populations to support complex growth. Discovery & Planning contract will provide technical, business, and solution expertise to evaluate the current and future Managed Care Capitation Payment business needs and the support technology system(s). The contract is effective June 2, 2025, through June 1, 2026, and includes one optional extension year.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated actuals, adjusted projection calculations, and delays in Discovery & Planning contract start and payment dates. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the completion of the Discovery & Planning contract.

Methodology:

Total costs are estimated to be:

FY 2025-26	TF	GF	FF
CAPMAN Prime Vendor	\$12,058,000	\$3,170,000	\$8,888,000
Support Services	\$2,941,000	\$774,000	\$2,167,000
Hardware/Software	\$3,511,000	\$923,000	\$2,588,000
Discovery & Planning	\$678,000	\$86,000	\$592,000
Total	\$19,188,000	\$4,953,000	\$14,235,000

FY 2026-27	TF	GF	FF
CAPMAN Prime Vendor	\$11,959,000	\$3,144,000	\$8,815,000
Support Services	\$2,940,000	\$773,000	\$2,167,000
Hardware/Software	\$3,610,000	\$949,000	\$2,661,000
Discovery & Planning	\$126,000	\$16,000	\$110,000
Total	\$18,635,000	\$4,882,000	\$13,753,000

Funding:

PASRR**FISCAL REFERENCE NUMBER:1720**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$11,019,000	\$9,047,000
FEDERAL FUNDS	\$8,264,250	\$6,785,250
GENERAL FUND	\$2,754,750	\$2,261,750
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the contractor costs for the Preadmission Screening and Resident Review (PASRR) Level II evaluations.

Authority:

Title 42, Code of Federal Regulations 483.100-483.136, 483.200-483.206
Keystone Peer Review Organization, LLC (KEPRO) Interagency Agreement (IA) #23-30140, #25-50077

Interdependent Policy Changes:

Not Applicable

Background:

As mandated by federal regulations, the Department contracts with an independent contractor to complete all Level II PASRR evaluations. Under the PASRR service contract, evaluators travel to facilities and conduct Level II Evaluations. A Level II Evaluation consists of a face-to-face mental status examination and psychosocial assessment of individuals identified with or suspected to have a mental illness upon admission to a nursing facility. The findings of this evaluation result in a determination of need, determination of appropriate setting, and a set of recommendations for services to inform the individual's plan of care. The contractor's licensed clinical evaluators conduct the Level II Evaluations and enter their findings into the PASRR system.

The Department awarded the PASRR contract (#23-30140) to KEPRO, LLC, effective July 1, 2023, with an expiration date of June 30, 2026. Due to evaluations exceeding projections, contract #23-30140 was terminated on July 31, 2025. The funds initially allocated for this contract will be applied to the remaining invoices for FY 2024-25.

The Department awarded a new PASRR contract (#25-50077) to KEPRO, LLC effective July 1, 2025, through June 30, 2027, with one optional extension through June 30, 2028.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to invoices from FY 2024-25 being processed in FY 2025-26.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to FY 2025-26 including more prior years costs.

PASRR

Methodology:

1. Expenditures for PASRR service contract #23-30140 expired on July 31, 2025. The new PASRR service contract (#25-50077) began on July 1, 2025.
2. The PASRR payments on a cash basis are estimated at:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Evaluations	\$11,019	\$2,755	\$8,264

(Dollars in Thousands)

FY 2026-27	TF	GF	FF

PUBLIC HEALTH REGISTRIES SUPPORT

FISCAL REFERENCE NUMBER:1370

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$10,996,000	\$21,996,000
FEDERAL FUNDS	\$10,996,000	\$21,996,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administrative costs for California Department of Public Health (CDPH) programs that the Department is supporting under Medicaid Enterprise Systems (MES) funding.

Authority:

Code of Federal Regulations, Title 42, Part 433
 Interagency Agreement CAIR (Pending)
 Interagency Agreement CalREDIE (Pending)
 Advance Planning Document (CA-2021-01-16-MMIS-IAPD-Public Health Registries APD update forthcoming)

Interdependent Policy Changes:

Not Applicable

Background:

The Department works with the CDPH in support of the California Immunization Registry (CAIR) and California Reportable Disease Information Exchange (CalREDIE) projects. The Centers for Medicare & Medicaid Services (CMS) originally approved federal funding for the CAIR and CalREDIE projects in the 2021 Public Health Registries Advance Planning Document (APD), which covered the fiscal year (FY) 2021-22. For FY 2022-23, CDPH was able to utilize emergency COVID funding and did not submit an APD. CDPH had also determined no funding was needed for FY 2024-25. However, CDPH will be submitting an APD for FY 2025-26 and FY 2026-27 to include the addition of the Vaccine Management System (VMS).

The Department is currently working with CDPH to draft Interagency Agreements for administrative costs related to Medicaid share of the projects described below:

- CAIR is the secure, confidential, statewide computerized immunization information system for California residents. Funding allows CAIR to create and maintain a fully-utilized and fully-interactive system to improve immunization coverage to protect Californians from vaccine-preventable diseases. CAIR is anticipated to include CA-Vaccine Management System, which is a centralized vaccine management system that is utilized statewide. The system focuses on vaccine supply management, vaccine clinic administration, and download and remediation of digital vaccine records.
- CalREDIE is California's secure system for electronic disease reporting and surveillance. Funding allows CalREDIE to improve the efficiency of surveillance activities and the early detection of public health events through complete and timely surveillance of statewide information.

PUBLIC HEALTH REGISTRIES SUPPORT

- VMS supports vaccine ordering, clinic management, public scheduling, and public access to CAIR records. The VMS suite consists of three key modules. MyCAVax is the system that is used for providers to order vaccine and manage vaccine inventory. My Turn provides additional clinic management tools and connects to CAIR to send vaccine administration data. The third component, the Digital Vaccine Record (DVR) uses CAIR data to provide the public with an electronic copy of their vaccine administration data. While CAIR and VMS are two systems, they are closely tied together and provide the state with the tools for the full vaccine management lifecycle from vaccine ordering, inventory management, and administration.

Once the APD is submitted and approved, the programs will receive enhanced federal funding (75% Federal Fund (FF) / 25% General Fund). CDPH plans on submitting and receiving APD approval from CMS during FY 2025-26.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to addition of VMS costs and changes in contract costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due a full year of costs for CAIR, CalREDIE and VMS.

Methodology:

- For the CAIR and CalREDIE, the non-federal share is budgeted by CDPH. This policy change budgets the Title XIX FF that will be provided to CDPH per the contracts through an interagency agreement.
- CAIR and CalREDIE are determined to not need certification by CMS and would qualify for 75% Title XIX funding with an approved APD.

FY 2025-26	TF	CDPH GF	FF
CalREDIE (50% FF/50% GF)	\$730,000	\$183,000	\$548,000
CAIR (50% FF/50% GF)	\$3,747,000	\$937,000	\$2,810,000
VMS (75% FF/25% GF)	\$10,184,000	\$2,546,000	\$7,638,000
Total FY 2025-26	\$14,661,000	\$3,666,000	\$10,996,000
FY 2026-27	TF	CDPH GF	FF
CalREDIE (75% FF/25% GF)	\$1,461,000	\$365,000	\$1,096,000
CAIR (75% FF/25% GF)	\$7,495,000	\$1,874,000	\$5,621,000
VMS (75% FF/25% GF)	\$20,372,000	\$5,093,000	\$15,279,000
Total FY 2026-27	\$29,328,000	\$7,332,000	\$21,996,000

SDMC SYSTEM M&O SUPPORT**FISCAL REFERENCE NUMBER:1732**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,974,000	\$5,428,000
FEDERAL FUNDS	\$4,487,000	\$2,714,000
GENERAL FUND	\$4,487,000	\$2,714,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Behavioral Health administrative costs including infrastructure and contractor's costs to perform the ongoing maintenance and operations (M&O) support for the Short-Doyle/Medi-Cal (SDMC) system.

Authority:

Contract #22-20171

Contract #24-40015

SB 326 (Chapter 790, Statutes of 2023)

Interdependent Policy Changes:

Not Applicable

Background:

Behavioral Health claims for Specialty Mental Health Services (SMHS) and Substance Use Disorder Services (SUDS) are adjudicated for payment in the SDMC system. The Department uses two (2) accounting systems for the payment of claims. Short-Doyle Medi-Cal Application Remediation Technology (SMART) supports the accounting and payment of SUDS and United States Ledger (USL) Financials for SMHS. These accounting systems are used to process the adjudicated claim for payment by the State Controller's Office (SCO), reconciliation, and generation of 835 Remittance Advice. These payments are directed to Mental Health Programs (MHP) in each of the California Counties.

The Department's administrative activities related to Behavioral Health include the following contract and other related costs:

SDMC Prime Vendor Contract

The SDMC Prime Vendor Contract provides services which include enhancements and maintenance needed to keep up with current technology, and new federal and state mandates. The contract is effective July 1, 2022, through June 30, 2027.

USL Financials

The USL Financials contract provides licensing and support for SMHS. This accounting system is used to process the adjudicated claim for payment by SCO, reconciliation, and generation of 835 Remittance Advice. The contract is effective July 1, 2024, through June 30, 2027.

SDMC Zero Dollar Claiming

To comply with the mandates of the Behavioral Health Services Act (BHSA), the SDMC Zero Dollar Claiming contract will provide services to modify the existing SDMC system to provide both counties and providers with a standardized and automated reporting mechanism to submit

SDMC SYSTEM M&O SUPPORT

behavioral health service data. These modifications will enable the Department to perform robust compliance oversight to evaluate if counties are maximizing federal financial participation of Medi-Cal, monitor county progress towards health outcome goals based on their allotted funding, and establish a longitudinal data record on clients that move in and out of Medi-Cal over their lifetime. This contract is necessary to ensure the Department secures complete, standardized individual service-level data for prioritized behavioral services (e.g., both reimbursable and non-reimbursable) by June 30, 2026.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated actuals, adjusted projection calculations, and a new service contract for Zero Dollar Claiming. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to adjusted projection calculations and completion of the Zero Dollar Claiming contract.

Methodology:

FY 2025-26	TF	GF	FF
M&O	\$8,974,000	\$4,487,000	\$4,487,000
Total	\$8,974,000	\$4,487,000	\$4,487,000

FY 2026-27	TF	GF	FF
M&O	\$5,428,000	\$2,714,000	\$2,714,000
Total	\$5,428,000	\$2,714,000	\$2,714,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

ELECTRONIC ASSET VERIFICATION PROGRAM**FISCAL REFERENCE NUMBER:2002**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,632,000	\$10,909,000
FEDERAL FUNDS	\$4,316,000	\$5,454,500
GENERAL FUND	\$4,316,000	\$5,454,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administrative costs associated with implementing an electronic asset verification program (AVP) and periodic data matching services (Appriss for Incarceration Verification Program (IVP), Death*, Residency, and Commercial Mail Receiving Agency (CMRA) – inputs/matches) with LexisNexis Risk Solutions (LNRS). The current contract for AVP services with LNRS is required under federal law and includes a 60-month lookback period requirement for Long Term Care (LTC)/Nursing Facility Level of Care (NFLOC) applicants, members, and their responsible relatives.

Authority:

AVP:

Welfare & Institutions Code (W&I), Section 14013.5, 14043.5

Title 42 U.S. Code, Sections 1396w and 1383(e)(1)

California Financial Code, Section 293

Deficit Reduction Act of 2005

State Plan Amendment (SPA) 09-003 and 23-0030

Contract 20-10158 (January 1, 2024, removed Periodic Data Matching)

Periodic Data Matching:

Welfare & Institutions Code (W&I), Section 14005.39, 14043.5

Title 42 U.S. Code, Section 495.368

Payment Integrity Information Act of 2019

Contract 23-30285 (Commenced January 1, 2024)

Contract 20-10158

Interdependent Policy Changes:

Not Applicable

Background:

Section 1940 of the Social Security Act requires that the State implement an asset verification program for use in Non-Modified Adjusted Gross Income (Non-MAGI) eligibility determinations or redeterminations for all Aged, Blind or Disabled (ABD) applicants and members through requests to financial institutions. The law further stipulates that the program be consistent with the approach taken by the Social Security Administration (SSA) under 42 U.S. Code Section 1383(e)(1); this includes the requirement that the program be administered electronically. The SPA 09-003, Asset Verification System, was approved on April 16, 2009, and State legislation (W&I, Section 14013.5 and Financial Code, Section 293) was enacted to implement the federal requirements.

ELECTRONIC ASSET VERIFICATION PROGRAM

Financial institutions provide data that could indicate assets and property not reported by the applicant or member. If information is obtained indicating unreported assets, the applicant or member must provide additional supporting documentation before an eligibility determination or redetermination is made.

The Department reimburses financial institutions when obtaining asset information for ABD members. The reimbursement rate is based on volume with an average of \$4.00 per query.

Program expenditures are reduced when supplemental asset data increases the accuracy of eligibility determinations for the ABD population or detects unreported assets that result in the discontinuance of a member.

The Department conducted a pilot of the asset verification program in order to determine the success of the program in identifying unreported assets and to assist with the development of the program. The pilot concluded in April 2017, and implementation began in December 2017. Due to changes in federal law, and unforeseen delays in internal and external work efforts due to the ongoing COVID-19 public health emergency, the Department's objective is full electronic implementation by the end of 2021.

A first contract amendment was executed on June 14, 2021. This amendment increased the number of annual AVP inputs from 1,000,000 to 1,380,000 to accommodate growth in the ABD renewal population and new at-application request functionality. It also added 240,000 annual Appriss inputs for incarceration verification services since a previous vendor contract expired and those services are available through LNRS.

A second contract amendment was executed on June 28, 2022. This amendment extended the contract by an additional six months from June 2023 to December 31, 2023, for all services stated in the contract. The contract amendment also increases the scope of data matching activities for FY 2022-23 to include Appriss, Death, Residency, and CMRA matching activities. This additional scope of contract work is needed to obtain data matching files that will leverage high value data sources to prevent fraud and abuse by identifying Medi-Cal members who are deceased, residing out-of-state, or have a residential address that is identified as a CMRA.

A third contract amendment was executed on December 14, 2023. The amendment removes the periodic data matching services (Appriss, Death*, Residency, and CMRA matches/inputs) and significantly reduces the volume of AVP inputs purchased from LNRS to align with the elimination of assets for Non-MAGI programs on January 1, 2024. Due to federal asset transfer and Period of Ineligibility (POI) requirements for individuals seeking LTC/NFLOC necessitating a 60-month lookback period, the Department will continue to purchase AVP inputs for LTC applicants, members, and their responsible relatives after January 1, 2024. The Department anticipates this contract will continue until December 31, 2028, or until the remaining POIs expire.

A fourth contract amendment was executed on March 4, 2024. This amendment increased the number of AVP inputs for the remainder of FY 2023-24 to 27,000/month, since the Department exceeded its previous allotment of 21,000/inputs designated for January 1, 2024, through June 30, 2024. This amendment ensured the Department would not continue incurring overages charged at \$6.99/input, and could continue running asset verification queries on applicants, their responsible relatives, and members seeking LTC/NFLOC to determine whether they made asset transfers for less than fair market value during the 5-year lookback period. The Department

ELECTRONIC ASSET VERIFICATION PROGRAM

continues to anticipate that this contract will continue until December 31, 2028, or until the remaining POIs expire.

A fifth contract amendment was executed on June 19, 2024. This amendment, which begins in FY 2024-25, purchases an additional 10,500 inputs/month for five fiscal years to continue running asset verification inquiries. The Department anticipates this contract will continue until December 31, 2028, or until the remaining POIs expire.

The Department anticipates a higher volume of AVP requests beginning in November 2025, due to the reinstatement of Asset Verification business processes. This is because the Department runs its annual renewal file two months prior to the beneficiary's actual redetermination date (i.e., a November 2025 renewal file covers redeterminations due in January 2026). A sixth contract amendment to formalize these changes is in progress and is expected to be executed on or before November 1, 2025.

Appriss, Death*, Residency, and CMRA matches/inputs were separated from the 20-10158 scope of work and shifted to a new contract 23-30285. The new contract for periodic data matching services was executed January 1, 2024, and will continue through December 31, 2026.

A first amendment for 23-30285 was executed on July 31, 2024. Due to vendor changes, LexisNexis will no longer offer Appriss and Accurant services after December 31, 2024. As a result, the Department contracts these services out through Equifax. This PC includes the cost of that contract.

*Includes the ten Accurant licenses provided by LNRS.

Reason for Change:

The change for FY 2025-26, from the prior estimate, is an increase due to a higher projected volume of AVP requests. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to incorporating an anticipated contract amendment.

Methodology:

1. The policy does not apply to applicants or recipients of federal Supplemental Security Income/State Supplementary Payment, whose assets are collected and valued by SSA prior to making an eligibility determination.
2. The Department continues to send AVP requests for LTC applicants, members, and their responsible relatives even after asset elimination on January 1, 2024, due to federal asset transfer and POI requirements for individuals seeking LTC/NFLOC. The Department will reinstate AVP in its entirety starting January 1, 2026, where AVP will be used to determine or redetermine Medi-Cal eligibility for ABD applicants, members, and their responsible relatives.
3. The combined reimbursement rate for AVP and periodic data matching services, based on estimated query volumes, is estimated to be $\$103,880 + \$276,383 = \$380,263/\text{month}$ from July 2025 through October 2025; $125,000 \text{ inputs} \times \$4.85/\text{input} = \$606,250 + \$276,383 = \$882,633/\text{month}$ from November through December 2025; and $125,000 \text{ inputs} \times \$4.85/\text{input} = \$606,250 + \$284,675 = \$890,925/\text{month}$ from January through June 2026.

ELECTRONIC ASSET VERIFICATION PROGRAM

4. The combined reimbursement rate for AVP and periodic data matching services, based on estimated query volumes, is estimated to be 125,000 inputs x \$5.00/input = \$624,437.50 + \$284,675 = \$909,112.50 from July 2026 through December 2026; and 125,000 inputs x \$5.00/input = \$624,437.50 + \$284,675 = \$909,112.50 from January 2027 – June 2027.
5. The Department is in the process of securing a contract amendment for the assumption of the reinstatement of asset verification. FY 2026-27 estimated costs are based on the revised price quote received from LexisNexis in August 2025 (prices per input are rounded).

The table below summarizes FY 2025-26 and FY 2026-27 costs:

Time Period	Monthly Rate	Months	Cost
July – October 2025	\$380,263	4	\$1,521,052
November – December 2025	\$882,633	2	\$1,765,266
January– June 2026	\$890,925	6	\$5,345,550
FY 2025-26		12	\$8,631,868

Time Period	Monthly Rate	Months	Cost
July – December 2026	\$909,112.50	6	\$5,454,675
January – June 2027	\$909,112.50	6	\$5,454,675
FY 2026-27		12	\$10,909,350

6. The estimated vendor costs are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$8,632	\$4,316	\$4,316
FY 2026-27	\$10,909	\$5,454	\$5,455

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

CALAIM - JUSTICE INVOLVED MAA**FISCAL REFERENCE NUMBER:2447**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,000,000	\$90,000,000
FEDERAL FUNDS	\$4,000,000	\$45,000,000
GENERAL FUND	\$4,000,000	\$45,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs for reimbursing counties and state partners for Medi-Cal Administrative Activities (MAA) claims for MAA provided to the justice-involved population 90 days prior to release.

Authority:

Penal Code Section 4011.11

Welfare & Institutions Code Sections 14011.10, 14132.275, 14184.800, and 14186

AB 133 (Chapter 143, Statutes of 2021)

Interdependent Policy Change:

Not Applicable

Background:

In January 2023, California became the first state to secure federal approval to provide targeted Medicaid services to Medi-Cal-eligible individuals in state prisons, county jails, and youth correctional facilities during the 90 days prior to their release. Under a Medicaid 1115 demonstration waiver granted by the Centers for Medicare & Medicaid Services (CMS), California's Department of Health Care Services will work with state agencies, counties, providers, and community-based organizations to create a coordinated reentry process. This initiative aims to bridge critical gaps in care for justice-involved individuals by connecting them with physical and behavioral health services prior to release, ultimately improving health outcomes, reducing disparities, and advancing health equity across the state.

Inmates leaving correctional facilities are at increased risk of poor health outcomes due to high rates of mental illness, substance use disorders, complex medical conditions, and unmet social needs such as housing insecurity, unemployment, and transportation. In California, average monthly Medicaid costs for justice-involved individuals following release are about twice the monthly costs for these members prior to incarceration. California Advancing & Innovating Medi-Cal (CalAIM) seeks to improve outcomes for this population by mandating county inmate pre-release application processes, allowing Medi-Cal reimbursement for services in the 90 days prior to release, and ensuring a facilitated referral and linkage ("warm hand-off") to behavioral health services, both to providers in managed care networks and to county behavioral health departments.

CALAIM - JUSTICE INVOLVED MAA

The federal Medicaid 1115 demonstration waiver authorizes one-time funding opportunities to correctional agencies through Providing Access and Transforming Health to build up the capacity and infrastructure of on-the-ground partners to successfully participate in the Medi-Cal delivery system as California widely implements justice involved services under CalAIM. The Department will establish a Justice-Involved MAA to ensure county and state participants may have access to an ongoing revenue stream for these activities no later than October 1, 2025, pending CMS approval.

CalAIM's justice involved initiative helps California address poor health outcomes and disproportionate risk of illness and accidental death among justice-involved Medi-Cal eligible adults and youth as they re-enter their communities. To facilitate these activities on an ongoing basis, the Department is proposing to seek federal authority to expand MAA performed by state and county partners for this population. MAA includes activities such as:

- Medi-Cal outreach,
- Facilitating Medi-Cal applications,
- Referrals of Medi-Cal services, and
- Coordination of Medi-Cal services.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to a shift in program implementation from July 2025 to October 2025. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a full year of costs occurring in FY 2026-27.

Methodology:

1. Assume the MAA program for the justice-involved population will be established by FY 2025-26 Quarter 2, subject to the necessary approvals being obtained from CMS.
2. Assume MAA claiming will begin in FY 2025-26 Quarter 2 by 75% of potential claiming units, with the first half of MAA payments anticipated for payment in Quarter 4 due to an estimated 6-month lag in claims submission and processing.
3. Assume the General Fund will be used for the non-federal share of the MAA claims.
4. Total estimated costs for FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$8,000	\$4,000	\$4,000
FY 2026-27	\$90,000	\$45,000	\$45,000

Funding:

50% Title XIX FF / 50% GF (4260-101-0890/0001)

PROTECTION OF PHI DATA**FISCAL REFERENCE NUMBER:1452**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$7,881,000	\$5,757,000
FEDERAL FUNDS	\$3,940,500	\$2,878,500
GENERAL FUND	\$3,940,500	\$2,878,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the upgrades to the infrastructure and ongoing costs of maintaining and securing electronic Protected Health Information (PHI).

Authority:

Contract # 24-40191

Contract # 24-40188

Interdependent Policy Changes:

Not Applicable

Background:

The Department has implemented security processes, technologies, and backup systems to protect, monitor, and secure electronic PHI data to minimize the amount of encrypted data flowing across the Wide Area Network. These systems contain Medi-Cal member information that is considered confidential and/or PHI by federal and state mandates.

The current protection of these systems will:

- Secure and protect the Department's electronic data from unauthorized disclosure;
- Protect the privacy of Medi-Cal members;
- Avoid costs to notify millions of people if a large breach does occur; and
- Maintain the Department's public image and integrity by protecting the confidentiality and privacy of the information that it maintains on its customers.

The Department is continuing its effort in protecting PHI data and will continue to implement and improve security processes and technologies to ensure the Confidentiality, Integrity, and Availability of PHI data and establish accountability for the Department's administrators and employees with access to PHI data. These ongoing efforts ensure that new and current systems adhere to the Principles of Confidentiality, Integrity, and Availability in the most secure manner available. Privileged Access Management (PAM) looks into the entire privileged account lifecycle, starting from granting and revoking permissions of these accounts to having a fail-proof password change cycle. Vulnerability management looks at known vulnerabilities in software and systems, reducing the risk of cyberattacks by patching and correcting known vulnerabilities that could lead to data breaches. In addition, it helps the Department comply with HIPAA regulatory requirements, by maintaining up-to-date security measures and ensuring the protection of sensitive data.

The Department is also continuing to enhance current security tools and services to reduce its inherent risk pertaining to account compromise, privilege escalation, and lateral movement. These ongoing efforts also will have the residual effect of deterring breaches and cutting off the

PROTECTION OF PHI DATA

spread of ransomware before it is allowed to propagate across the organization. In addition, the Department continues to migrate data from on-premises servers to the Department's Amazon Web Services (AWS) cloud in an immutable format that ransomware cannot infect.

Reason for Change:

The change from the prior estimate, for FY 2025-26 is a slight increase due to adjusted projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the completion of Security Enhancement Consulting Services, adjusted projections, and delayed contract start and payment dates for Identity Access Management (IAM) and Vulnerability Management Consulting Services.

Methodology:

1. The costs include annual licensing, hardware, and software maintenance and support for:
 - a. Backup and Recovery System is a solution that stores, protects data and prevents data loss by delivering data archival, monitoring, access control, encryption at rest, backup, and point-in-time recovery.
 - b. Database Activity Monitoring (DAM) system is a database firewall that has data security profiles designed to protect databases, monitor activities, provide staff access control, and capture security events. The Department is in the process of upgrading systems to provide better safeguards and security.
 - c. PAM is a solution that requires privileged users to "check out" their individual privileged account that logs all actions performed by that user in the privileged session. Workforce Password Manager (WPM) is an addition to PAM that covers access to devices, software, and cloud containers.
 - d. Cloud Security Protection is a solution that ensures secure internet access for all users, and private applications without directly exposing the Department network to the internet. It protects internet access such as sandboxing, botnet protection, and advanced threat detection to prevent malware, ransomware, and phishing attacks.
 - e. Automated security and compliance solutions are essential for managing security, privacy, and compliance throughout the software development lifecycle (SDLC). These solutions protect sensitive data by identifying and addressing security gaps, monitoring unauthorized access, and ensuring adherence to relevant regulations. By leveraging automation and data fusion, they enhance the maturity of Security Operations Centers (SOC), enabling quicker detection and response to security events, improving operational security, and reducing costs.
2. The annual costs include modifying configurations, implementation, assessments, and contracted personnel to perform the administrative functions of the solution.
 - a. Security Enhancement operations functionality requires two or more resources to remediate security findings such as exposure to ransomware, and provide risks assessments to prevent exposure to confidential and sensitive data.
 - b. Cybersecurity Enhancement operations functionality requires two or more resources to review the Department's current threat landscape by enhancing cybersecurity operations to secure and protect data, applications, and resources. This includes establishing standardized and repeatable processes and procedures.

PROTECTION OF PHI DATA

- c. IAM operations functionality requires two or more resources to ensure that the organization's IAM framework is robust, versatile, and up to date with the latest industry standards and compliance requirements, intricate processes involving the management of digital identities, authentication methods, access controls, and regulatory compliance.
- d. Vulnerability Management operations functionality requires two or more resources to review known vulnerabilities in software and systems, reducing cyberattack risk. This includes establishing standardized and repeatable processes and procedures to ensure sensitive data protection. Furthermore, these processes and procedures must be regularly evaluated and updated to ensure they remain effective.

3. The following amounts are based upon the latest projections of cost:

Fiscal Year	TF	GF	FF
FY 2025-26	\$7,881,000	\$3,940,000	\$3,941,000
FY 2026-27	\$5,757,000	\$2,878,000	\$2,879,000

*Totals may differ due to rounding

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

BHSF - PROVIDER ACES TRAININGS

FISCAL REFERENCE NUMBER:2414

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$7,415,000	\$0
FEDERAL FUNDS	\$3,707,000	\$0
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$3,708,000	\$0

Purpose:

This policy change estimates the cost to train providers on delivering Adverse Childhood Experiences (ACEs) screenings funded with Behavioral Health Services Funds (BHSF).

Authority:

Budget Act of 2022 [AB 178 (Chapter 45, Statutes of 2022)]
Budget Act of 2023 [AB 102 (Chapter 38, Statutes of 2023)]
Budget Act of 2024 [AB 107 (Chapter 22, Statutes of 2024)]
Budget Act of 2025

Interdependent Policy Changes:

Not Applicable

Background:

Effective July 1, 2022, the Department was approved to extend funding for provider trainings for ACEs screenings using available BHSF. A total of \$135.1 million TF (\$67.55 million BHSF) was estimated over a three-year period with \$44.1 million TF (\$22.05 million BHSF) in FY 2022-23, \$45.5 million TF (\$22.75 BHSF) in FY 2023-24, and \$45.5 million TF (\$22.75 million BHSF) in FY 2024-25.

An additional \$2 million TF (\$1 million BHSF) was approved to continue the program in FY 2025-26.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to no additional funds allocated for FY 2026-27.

BHSF - PROVIDER ACES TRAININGS

Methodology:

- The table below displays the estimated spending and remaining funds by Appropriation Year.

(Dollars in Thousands)

	TF	BHSF	FF*
Appropriation Year 2024-25	\$45,500	\$22,750	\$22,750
Estimated in FY 2024-25	\$40,085	\$20,042	\$20,043
Estimated in FY 2025-26	\$5,415	\$2,708	\$2,707
Total Estimated Remaining	\$0	\$0	\$0
Appropriation Year 2025-26	\$2,000	\$1,000	\$1,000
Estimated in FY 2025-26	\$2,000	\$1,000	\$1,000
Total Estimated Remaining	\$0	\$0	\$0

- The provider trainings costs, funded with BHSF, are estimated to be \$7,415,000 TF (\$3,708,000 SF) in FY 2025-26.

(Dollars in Thousands)

FY 2025-26	TF	BHSF	FF*
Appropriation Year 2024-25	\$5,415	\$2,708	\$2,707
Appropriation Year 2025-26	\$2,000	\$1,000	\$1,000
Total FY 2025-26	\$7,415	\$3,708	\$3,707

*Federal funds authority is newly requested for the fiscal year in which funds are anticipated to be expended.

Funding:

Behavioral Health Services Fund (4260-101-3085)
100% Title XIX (4260-101-0890)

MOBILE VISION SERVICES**FISCAL REFERENCE NUMBER:2467**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$6,933,000	\$6,933,000
FEDERAL FUNDS	\$4,506,000	\$4,506,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$2,427,000	\$2,427,000

Purpose:

This policy change estimates the costs of providing Mobile Vision Services.

Authority:

SB 502 (Chapter 487, Statutes of 2023)

SPA 24-0012

Contract 24-40114

Welfare & Institutions Code section 14132.58 (c) (1)

Interdependent Policy Changes:

Not Applicable

Background:

Mobile vision services will be accessible at school sites statewide through mobile optometric service providers to uninsured children in low-income school districts at no cost to the State General Fund. The Department contracted with a Third-Party Administrator to fund the program through private donations and federal funding.

Reason for Change:

There is no change from the prior estimate for FY 2025-26, or in the current estimate from FY 2025-26 to FY 2026-27.

Methodology:

1. For budgeting purposes, assume implementation no later than June 30, 2025.
2. Assume Special Fund (SF) expenditures will flow through the Vision Services Children's Health Insurance Program (CHIP) - Health Services Initiative (HSI) SF.
3. The total estimated expenditures for mobile vision services are:

(Dollars in Thousands)

FY 2025-26	TF	SF	FF
Federal Fund Match	\$0	(\$4,506)	\$4,506
Program Expenditures	\$6,933	\$6,933	\$0
Total	\$6,933	\$2,427	\$4,506

MOBILE VISION SERVICES

FY 2026-27	TF	SF	FF

MEDCOMPASS SOLUTION**FISCAL REFERENCE NUMBER:1982**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$6,812,000	\$5,771,000
FEDERAL FUNDS	\$5,020,850	\$4,253,900
GENERAL FUND	\$1,791,150	\$1,517,100
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates contractor costs to implement the MedCompass system changes and ongoing licensing and operations costs.

Authority:

Title XIX of the Federal Social Security Act 1903(a) (3)
Contract # 24-40001

Interdependent Policy Changes:

Not Applicable

Background:

MedCompass is a Software-as-a-Service (SaaS) solution that was implemented for the Integrated Systems of Care Division (ISCD) with a solution provider, AssureCare. MedCompass replaced the Case Management Information System and Microsoft Access Databases that ISCD used to manage cases under the Home and Community-Based Alternatives Waiver, Early Periodic Screening, Diagnostics and Treatment, and Assisted Living Waiver Programs.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated actuals and utilization of the contract's additional services. The change from FY2025-26 to FY 2026-27, in the current estimate, is a decrease due to no additional service costs.

Methodology:

1. The NCB contract, 24-40001, with AssureCare, LLC began on August 1, 2024, to continue delivering M&O support services. The contract ends on January 31, 2029, and includes one optional two-year term.
2. The MedCompass system was certified in May 2021 and currently claims applicable costs at 75% FF/ 25% GF.
3. The FY 2025-26 and FY 2026-27 costs are as follows:

FY 2025-26	TF	GF	FF
Licensing Fees	\$3,839,000	\$1,009,000	\$2,830,000
IaaS Managed Services M&O	\$660,000	\$174,000	\$486,000
SaaS Ongoing Operation Support	\$783,000	\$206,000	\$577,000
Additional Services	\$1,530,000	\$402,000	\$1,128,000
Total	\$6,812,000	\$1,791,000	\$5,021,000

MEDCOMPASS SOLUTION

FY 2026-27	TF	GF	FF
Licensing Fees	\$4,181,000	\$1,099,000	\$3,082,000

SaaS Ongoing Operation Support	\$870,000	\$229,000	\$641,000
Total	\$5,771,000	\$1,517,000	\$4,254,000

Funding:

75% Title XIX / 25% GF (4260-101-0890/0001)

100% Title XIX FFP (4260-101-0890)

100% GF (4260-101-0001)

65% Title XXI / 35% GF (4260-101-0890/0001)

NEWBORN HEARING SCREENING PROGRAM**FISCAL REFERENCE NUMBER:1824**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$6,220,000	\$6,313,000
FEDERAL FUNDS	\$3,110,000	\$3,156,500
GENERAL FUND	\$3,110,000	\$3,156,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Newborn Hearing Screening Program's (NHSP) contract service costs.

Authority:

AB 2780 (Chapter 310, Statutes of 1998)
Health & Safety Code Section 123975 and Sections 124115 - 124120.5
Contract 24-40060

Interdependent Policy Changes:

Not Applicable

Background:

The NHSP contracts with Hearing Coordination Centers (HCC) to provide technical assistance and consultation to hospitals in the implementation and ongoing execution of facility hearing screening programs. The HCCs also track and monitor every infant who, based on their initial hearing screening, is referred for follow-up services. The HCCs provide a database that assists the NHSP in collection and reporting of infant hearing screening data. The information collected includes screening and diagnostic services provided to newborns and infants who are deaf or hard-of-hearing.

- HCC contract #24-40060 began July 1, 2024, and expires June 30, 2027.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The increase from FY 2025-26 to FY 2026-27, in the current estimate, is due to terms of the awarded three-year contract.

Methodology:

1. The NHSP contract combines the HCC and Data Management services into one contract. Costs for FY 2025-26 and FY 2026-27 are \$6,220,123 and \$6,313,425, respectively.
2. The anticipated NCSP costs for FY 2025-26 and FY 2026-27 are as follows:

Fiscal Year	TF	GF	FF
FY 2025-26	\$6,220,000	\$3,110,000	\$3,110,000
FY 2026-27	\$6,313,000	\$3,156,000	\$3,157,000

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

COUNTY COMPLIANCE WITH INTEROPERABILITY FINAL RULE**FISCAL REFERENCE NUMBER:2334**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$6,131,000	\$5,164,000
FEDERAL FUNDS	\$3,792,000	\$3,192,000
GENERAL FUND	\$2,339,000	\$1,972,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs for funding counties to implement changes to stay in compliance with the federal data exchange standards and regulations of the Interoperability Final Rule.

Authority:

Interoperability Final Rule (CMS-9115-F)
Behavioral Health Information Notice (BHIN): 22-068

Interdependent Policy Changes:

Not Applicable

Background:

On May 1, 2020, the Centers for Medicare and Medicaid Services (CMS) published the "Interoperability and Patient Access for Medicare Advantage Organization and Medicaid Managed Care Plans, State Medicaid Agencies, Children's Health Insurance Program (CHIP) Agencies and CHIP Managed Care Entities, Issuers of Qualified Health Plans on the Federally-Facilitated Exchanges, and Health Care Providers," (referred to as "CMS Interoperability and Patient Access final rule") to further advance interoperability for Medicaid and CHIP providers and improve members access to their data. State Medicaid agencies, Medicaid managed care plans, CHIP agencies, and CHIP managed care entities must implement this final rule in a manner consistent with existing guidance and the recently published "21st Century Cures Act: Interoperability, Information Blocking, and the ONC Health IT Certification Program" final rule (referred to as the ONC 21st Century Cures Act final rule), by the Office of the National Coordinator for Health Information Technology, published in the Federal Register on May 1, 2020.

The CMS Interoperability Rule requires Mental Health Plans (MHPs) and Drug Medi-Cal Organized Delivery System (DMC-ODS) counties, hereafter referred to as Behavioral Health Plans (BHPs), to implement and maintain a secure, standards-based Patient Access Application Programming Interface (API) and a publicly accessible, standards-based Provider Directory API that can connect to mobile applications and be available through a public-facing digital endpoint on each BHP's website. BHPs must also comply with 42 Code of Federal Regulations (CFR) 438.242, 45 CFR 170.215, the provider directory information requirements specified in 42 CFR 438.10, and the public reporting and information blocking components of the CMS Interoperability Rule 45 CFR Part 171.

COUNTY COMPLIANCE WITH INTEROPERABILITY FINAL RULE

The CMS Interoperability and Patient Access final rule requires Medicaid managed care plans and CHIP managed care entities to comply with a members request to have their health data transferred from payer to payer by January 1, 2022. Given the federal mandate, this proposal results in a Proposition 30 impact where the non-federal share of costs for counties to come into compliance is split between counties and the state. Federal law already requires Medicaid managed care plans to comply with the data exchange standards and regulations, which includes various Medi-Cal programs including the Medi-Cal BHPs. The Department began verifying compliance for these requirements starting July 1, 2023.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to data being revised to exclude counties that are fully compliant with the Interoperability Final Rule, and a reduction in estimated expenses for partially compliant counties.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is a decrease due to ADT requirements ending June 30, 2025, and the remaining claims from the ADT requirements are estimated to be completed in FY 2025-26.

Methodology:

1. Assume reimbursements to counties for incurred expenses will begin in September 2025.
2. The estimated payments in FY 2025-26 and FY 2026-27, on a cash basis, are as follows:

(Dollars in Thousands)

Interoperability Final Rule	TF	GF	FF	CF
FY 2025-26	\$8,470	\$2,339	\$3,792	\$2,339
FY 2026-27	\$7,136	\$1,972	\$3,192	\$1,972

Funding:

100% Title XIX FF (4260-101-0890)

100% General Fund (4260-101-0001)

DRUG MEDI-CAL PARITY RULE ADMINISTRATION**FISCAL REFERENCE NUMBER:2206**

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$5,875,000	\$5,875,000
FEDERAL FUNDS	\$3,917,000	\$3,917,000
GENERAL FUND	\$1,958,000	\$1,958,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administration cost related to Parity Rule activities for Drug Medi-Cal (DMC) counties.

Authority:

42 Code of Federal Regulations (CFR) Part 438
Welfare & Institutions (W&I) Code, Section 14197.1

Interdependent Policy Changes:

Not Applicable

Background:

The federal Parity Rule prescribes requirements states must address to ensure Medicaid members are able to access mental health and substance use disorder (SUD) services in the same way they are able to access physical health services.

Specifically, according to Title 42 of the CFR, Part 438.910 and 438.920, parity applies to DMC counties because parity protects the enrollees of medical/surgical Medi-Cal Managed Care Plan, and those Managed Care Plan enrollees could be receiving their substance use disorder services in either a DMC-ODS or DMC county. Furthermore, the W&I Code, Section 14197.1 gives the Department the authority to ensure that all SUD benefits are provided in compliance with the Parity Rule.

Through continued assessment of the Parity Rule, the Department has identified additional requirements that are necessary to align standards for member access to SUD treatment services with standards and requirements for access to medical/surgical health services.

Effective January 1, 2023, the Department standardized and aligned requirements for SUD services with the requirements for medical/surgical health services for the DMC counties, as specified in the DMC county contracts.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Payments for the Parity Rule activities will begin in November 2025.

DRUG MEDI-CAL PARITY RULE ADMINISTRATION

2. Assume claims for the first three quarters (Q1 – Q3) will be paid in the same fiscal year and claims for the last quarter (Q4) will be paid the following fiscal year.
3. Non-federal share of the costs will be funded through 50% General Fund (GF) and 50% CF for Parity Rule activities.
4. The estimated Parity Rule administrative costs for FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF	FF	CF
DMC Administration - Regular	\$7,539,000	\$1,885,000	\$3,769,000	\$1,885,000
DMC Administration - UR & QA	\$294,000	\$73,000	\$148,000	\$73,000
Total	\$7,833,000	\$1,958,000	\$3,917,000	\$1,958,000

FY 2026-27	TF	GF	FF	CF
DMC Administration - Regular	\$7,539,000	\$1,885,000	\$3,769,000	\$1,885,000
DMC Administration - UR & QA	\$294,000	\$73,000	\$148,000	\$73,000
Total	\$7,833,000	\$1,958,000	\$3,917,000	\$1,958,000

Funding:

100% General Fund (4260-101-0001)

100% Title XIX FF (4260-101-0890)

PACES**FISCAL REFERENCE NUMBER:1972**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$3,686,000	\$3,736,000
FEDERAL FUNDS	\$2,716,800	\$2,753,900
GENERAL FUND	\$969,200	\$982,100
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs to modify the Department's existing Post Adjudicated Claims and Encounters System (PACES) to stay in compliance with federal law.

Authority:

Section 1903(i) (4) of the Social Security Act
 Title 42 of the Code of Federal Regulations (CFR), Part 438
 Title 22 of the California Code of Regulations, Section 51476
 Contract # 22-20002

Interdependent Policy Changes:

Not Applicable

Background:

Federal law mandates the Department to collect and report on Medi-Cal claims and encounters, whether they be submitted as part of a Fee-for-Services or a contracted managed care arrangement. PACES plays a vital role in the collection of encounter and provider network data from Medi-Cal's numerous managed care plans. PACES accepts encounter transactions from both medical and dental managed care plans as well as encounter-related pharmacy transactions. PACES also accepts medical and dental provider network data from Medi-Cal's managed care plans. This data is used to ensure that managed care plans are meeting the department's network adequacy requirements.

PACES Interfaces and New Data Sources

42 CFR 438.10(e) (2) (vi) requires the Department to provide Medi-Cal enrollees with provider directory information for contracted managed care entities on a regular basis. Furthermore, 42 CFR 438.68 requires the Department to enforce network adequacy standards for contracted managed care entities. In order to fulfill these federal regulations, the Department must collect provider network information from participating managed care organizations as well as managed models, such as county behavioral health systems, that are considered managed care for the purpose of regulation.

The Department expanded the use of the 274 transactions to the county mental health plans and the Drug Medi-Cal Organized Delivery System counties. Extending the 274 processes to behavioral health allows the Department to monitor the networks within those models.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight increase due to higher cloud service costs, updated actuals, and adjusted projections. The change from FY 2025-26 to FY

PACES

2026-27, in the current estimate, is an increase due to higher cloud service costs and adjusted projections.

Methodology:

1. A 5-year contract for M&O services with a vendor began in December 2022 and will continue through December 2027.
2. Include costs for ongoing cloud platforms and services.
3. Total costs are estimated to be:

FY 2025-26	TF	GF	FF
M&O	\$3,133,000	\$824,000	\$2,309,000
Cloud Services	\$553,000	\$145,000	\$408,000
Total	\$3,686,000	\$969,000	\$2,717,000

FY 2026-27	TF	GF	FF
M&O	\$3,132,000	\$823,000	\$2,309,000
Cloud Services	\$604,000	\$159,000	\$445,000
Total	\$3,736,000	\$982,000	\$2,754,000

Funding:

75% Title XIX / 25% GF (4260-117-0001/0890)

65% Title XXI / 35% GF (4260-101-0001/0890)

100% State GF (4260-101-0001)

CALAIM - INMATE PRE-RELEASE PROGRAM ADMIN**FISCAL REFERENCE NUMBER:2413**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,746,000	\$2,746,000
FEDERAL FUNDS	\$1,373,000	\$1,373,000
GENERAL FUND	\$1,373,000	\$1,373,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for county social services agencies to process Medi-Cal applications in support of the Mandatory County Pre-Release mandate, effective January 1, 2023.

Authority:

Penal Code Section 4011.11

Welfare & Institutions Code Sections 14011.10, 14132.275, 14184.800, and 14186

AB 133 (Chapter 143, Statutes of 2021)

Interdependent Policy Change:

Not Applicable

Background:

California is requesting federal authority necessary to implement California Advancing & Innovating Medi-Cal (CalAIM), a framework that encompasses broad-based delivery system, program and payment reform across the Medi-Cal program. CalAIM recognizes the opportunity to move California's whole-person care approach – first authorized by the Medi-Cal 2020 Section 1115 demonstration – to a statewide level, with a clear focus on improving health and reducing health disparities and inequities. Collectively, the Section 1115 CalAIM demonstration and Section 1915(b) waiver, along with related contractual and Medi-Cal State Plan changes, will enable California to fully execute the CalAIM initiative, providing benefits to certain high needs, hard-to-reach populations, with the objective of improving health outcomes for Medi-Cal members and other low-income people in the state.

Inmates leaving correctional facilities are at extremely high risk of poor outcomes due to high rates of mental illness, substance use disorders, complex medical conditions, and unmet social needs such as housing insecurity, unemployment, and inadequate social connections. CalAIM proposes to improve outcomes for this population by mandating county inmate pre-release application processes, allowing Medi-Cal reimbursement for services in the 90 day time period prior to release, and to ensure a facilitated referral and linkage ("warm hand-off") to behavioral health services, both to providers in managed care networks and to county behavioral health departments.

This policy change estimates costs for County Social Services Departments to support the processing of Mandatory County Pre-Release Applications:

- To mandate all counties implement a county inmate pre-release Medi-Cal application process by January 1, 2023, which would include collaboration with county jails, probation offices, and youth correctional facilities.

CALAIM - INMATE PRE-RELEASE PROGRAM ADMIN

- To ensure the majority of county inmates/juveniles that are eligible for Medi-Cal and are in need of ongoing physical or behavioral health treatment receive timely access to Medi-Cal services upon release from incarceration.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Assume the Mandatory County Pre-Release Applications implemented on January 1, 2023.
2. Assume funding will also support the new costs to counties to implement the above mentioned initiatives, including developing new services tailored to clients with criminal justice involvement, training for staff and providers, developing new programs and processes to meet the mandate requirements.
3. Total estimated costs for FY 2025-26 and FY 2026-27 are:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$2,746	\$1,373	\$1,373
FY 2026-27	\$2,746	\$1,373	\$1,373

Funding:

50% Title XIX FF / 50% GF (4260-101-0890/0001)

STATEWIDE VERIFICATION HUB**FISCAL REFERENCE NUMBER:2358**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,589,000	\$0
FEDERAL FUNDS	\$2,330,100	\$0
GENERAL FUND	\$258,900	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Statewide Verification Hub (SVH) funding for the multi-departmental effort that will see the planning, design, development, and implementation of a data repository service hub to facilitate better data matches and enhance the efficiency of programmatic administration.

Authority:

Welfare & Institutions Code 14005.37 and 14013.3
 42 Code of Federal Regulations 435.945, 435.948, 435.949 and 435.952
 22 California Code of Regulations 50167, 50167.2 and 50168
 Contract #22-20592 A01

Interdependent Policy Changes:

Not Applicable

Background:

The SVH is an agency-wide Information Technology (IT) solution that will improve California families' access to services by streamlining the eligibility verification process for many California Health and Human Services Agency (CalHHS) means-tested programs, initially focused on CalFresh, California Work Opportunity and Responsibility to Kids (CalWORKs), Medi-Cal, and childcare program areas. While upholding Californians' privacy and security, the new IT effort developed a modernized and leverageable Hub that connects eligibility case management systems with near real-time data, such as income information, identity validators, non-cash assets, demographics, vital statistics, immigration status, etc. This data is necessary to support eligibility and benefit level determinations for means-tested human services programs, as well as federally mandated Income Eligibility Verification System data matches.

The Office of Technology and Solutions Integration Director is the executive project sponsor for SVH, with formal project sponsorship from the Department and the California Department of Social Services.

The project will work to create a holistic view of the current business process across CalFresh, CalWORKs, Medi-Cal, and childcare programs areas. This includes creating detailed process maps, county and customer worker journey maps, detailed data maps, and existing technical architecture. As a result, the project will be able to identify:

- Documents to create and guide the need for the future SVH by identifying the to-be functional and service architectures, while developing a robust alternative analysis of proposed solutions for the SVH.
- A recommended solution approach that aligns the needs of county users while prioritizing customer experience.

STATEWIDE VERIFICATION HUB

- Features and functionality that will substantially enhance transparency around eligibility verification and/or determination and benefit and/or aiding-level determinations, while improving the capacity of the State to report upon utilization rates, measures, and outcomes of eligibility verifications for means-tested human services programs.

Pursuant to the Code of Federal Regulations 95.610, the SVH Planning Advance Planning Document (PAPD) was submitted to the Centers for Medicare and Medicaid Services (CMS) to describe the State of California's plan for developing the SVH project. The PAPD describes the planning activities that the SVH project will complete, including business discovery, requirements gathering, market research and developing a proof of concept.

The primary objective and scope of the PAPD is to request enhanced federal financial participation (FFP) to cover staff salary and benefits, and as needed, procure technical consultant assistance to complete the identified work documented in the PAPD. These activities are necessary to fully document the existing business and technical architecture, identify and catalog all business requirements, engage in a robust alternatives' analysis, and prepare to undertake a proof-of-concept approach to development and eventual solution implementation of the SVH. This PAPD requests Eligibility and Enrollment funding in accordance with 42, Code of Federal Regulations 433.112 for planning activities from now until the submission of the Implementation Advance Planning Document.

The initial SVH PAPD was submitted to CMS in October 2021 to request funding from October 1, 2021, through September 30, 2023, which later resulted in DHCS/CDSS SVH Interagency Agreement (IA): DHCS 21-10376. The SVH Project is a multi-year project and as the funding in the previous PAPD ended September 30, 2023, a new SVH PAPD was submitted to CMS to request additional funding to support activities related to planning and development for the SVH project from October 1, 2023, through September 30, 2025. The new PAPD was approved by CMS on November 1, 2023. An IA amendment was initiated due to the PAPD approval; however, the SVH IA amendment package was not executed timely and the contract expired June 30, 2024. A new IA contract #24-40092 was initiated; however, it was not executed by the end of FY 2024-25. The Department of General Services (DGS) Procurement reclassified this IAA as an IT contract instead. As a result, a new IT contract will be developed moving forward.

An As-Needed APD for FFY 2024-25 requesting FFP and contract amendment approval for SVH Technical Services contract amendment #22-20592 A01 was submitted to CMS on August 7, 2024, and was approved by CMS on September 12, 2024. The contract includes consulting and professional services with technical support to continue developing SVH, as well as project management (PM)/SVH Senior PM to provide supportive consulting and professional services with project management and technical support to the Department.

The Project submitted the Annual PAPD FFY 2025-26 updates to CMS on May 15, 2025, to request FFP and contract amendment approval for CDSS Technical Services and Consultation contract to support continued activities related to the SVH project and was approved by CMS on July 8, 2025. This request includes completing the business and technical discovery activities associated with the California Department of Technology Project Approval Lifecycle (PAL) Stage 2 Alternatives Analysis, and activities associated with procurement of systems integration services for the PAL Stage 3.

STATEWIDE VERIFICATION HUB

Reason for Change:

There is an increase in FY 2025-26, from the prior estimate, due to a new IT services contract being executed in FY 2025-26. There is a decrease from FY 2025-26 to FY 2026-27, in the current estimate, due to the funding expiring in FY 2026-27, and a request for new funding is still pending submission.

Methodology:

1. Assume Design, Development, and Implementation cost for the Medicaid Management Information System are budgeted at 90% FF / 10% GF.
2. The Department estimates SVH costs for FY 2025-26 and FY 2026-27 to be:

Fiscal Years	TF	GF	FF
FY 2025-26	\$2,589,000	\$259,000	\$2,330,000
FY 2026-27	\$0	\$0	\$0

Funding:

90% FF/10% GF (4260-101-0890/0001) (Design, Development, and Implementation of Medicaid Management Information System)

DATA ANALYTICS**FISCAL REFERENCE NUMBER:1902**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,367,000	\$2,626,000
FEDERAL FUNDS	\$2,029,500	\$2,304,500
GENERAL FUND	\$337,500	\$321,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates costs to support Medi-Cal and the California Health Interview Survey (CHIS) contract services and other data analytics as necessary.

Authority:

Interagency Agreement (IA) 21-10053 A1
 IA 23-30378
 IA 25-50161

Interdependent Policy Changes:

Not Applicable

Background:

CHIS is a random-dial telephone survey that asks questions on a wide range of health topics. CHIS is conducted on a continuous basis allowing it to provide a detailed picture of the health and health care needs of California's large and diverse population. The survey provides statewide information on the overall population including many racial and ethnic groups, as well as county-level information for most counties to aid with health planning, priority setting, and to compare health outcomes in numerous ways.

The University of California, Los Angeles (UCLA) Center for Health Policy Research conducts CHIS in collaboration with the California Department of Public Health (CDPH) and the Department. The Department contracts directly with UCLA to utilize the CHIS for program needs and performance. The current contract is funded by federal funds; the non-federal share is paid through certified public expenditures (CPEs). The Department's current contract with UCLA is effective from July 1, 2021, through June 30, 2027, after a three-year extension was exercised in March 2024.

As of January 2023, the Department contracted with UCLA to fund the addition of a Caregiving Module to the CHIS. The contract is funded with 50% federal funds and 50% general fund; the non-federal share is not paid through CPEs.

The Department is in the process of developing a new interagency agreement with University of California Berkeley (UCB). This collaboration with UCB will assist with data analysis and evidence-based policy and programming solutions. The collaboration will enable senior Medi-Cal leadership to draw on expertise from the UCB-University of California, San Francisco Computational Precision Health program and the Center for Healthcare Marketplace Innovation to assist the Department with analysis of multiple data streams to identify trends and impacts of changes in procedure, programming and reimbursement, and offer evidence-based options to strengthen effective and equitable response.

DATA ANALYTICS

Reason for Change:

The change from the previous estimate, for FY 2025-26, is a small decrease due to the revised start of the UCB IA. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to increased Caregiving Module contract costs and a full year of UCB IA costs in FY 2026-27.

Methodology:

1. On an accrual basis, beginning FY 2023-24, the maximum reimbursable amount for CHIS is \$1,400,000 FF annually.
2. Beginning January 2023, funding from the Department for the Caregiving Module will be added to the CHIS. This portion of CHIS funding will not be eligible for CPEs.
3. Beginning FY 2025-26, the amount on an accrual basis for the IA-UCB is \$583,444 FF, but on a cash basis is \$291,667 FF.
4. The estimated administrative costs reimbursements for CHIS, the Caregiving Module, and the IA-UCB for FY 2025-26 and FY 2026-27, on a cash basis, are:

FY 2025-26	TF	GF	FF
FY 2024-25 Claims	\$350,000	\$0	\$350,000
FY 2025-26 Claims	\$1,050,000	\$0	\$1,050,000
FY 2024-25 Caregiving Module	\$99,000	\$50,000	\$50,000
FY 2025-26 Caregiving Module	\$576,000	\$288,000	\$288,000
FY 2025-26 IA - UCB	\$292,000	\$0	\$292,000
Total	\$2,367,000	\$337,000	\$2,029,000

FY 2026-27	TF	GF	FF
FY 2025-26 Claims	\$350,000	\$0	\$350,000
FY 2026-27 Claims	\$1,050,000	\$0	\$1,050,000
FY 2025-26 Caregiving Module	\$192,000	\$96,000	\$96,000
FY 2026-27 Caregiving Module	\$451,000	\$225,000	\$225,000
FY 2025-26 IA-UCB	\$583,000	\$0	\$583,000
Total	\$2,626,000	\$321,000	\$2,305,000

*Totals may differ due to rounding.

100% Title XIX FF (4260-101-0890)

50% Title XIX FF / 50% GF (4260-101-0890/0001)

MEDICARE - MEDI-CAL OMBUDSPERSON PROGRAM**FISCAL REFERENCE NUMBER:2321**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,200,000	\$2,200,000
FEDERAL FUNDS	\$1,100,000	\$1,100,000
GENERAL FUND	\$1,100,000	\$1,100,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the Department's contract with public or private entities for the purpose of assisting dual eligible members with enrollment, benefit, and access questions for Medicare and Medi-Cal managed care plans.

Authority:

AB 133 (Budget Act of FY 2021-22)
Contract 22-20371

Interdependent Policy Changes:

Not Applicable

Background:

The Health Omnibus within the 2021 Budget Act requires that the Department contract with public or private entities to assist dual eligible members understand their health care coverage options, overcome barriers in their access to care, and address eligibility and enrollment barriers. The ombudsperson service is performed by an independent, third-party firm, allowing for more objective analysis and observation, and is designed to:

- Assist potential enrollees,
- Assist enrollees filing appeals and complaints when needed, and
- Investigate, negotiate, and resolve enrollee problems/complaints with Medicare Advantage plans and Dual Eligible Special Needs Plans.

The Budget Act of FY 2021-22 requires the Department to oversee a contract that will continue this independent ombudsperson program to provide these services to dual eligible members statewide in 2023 and ongoing. This contract is intended to enable the continuation and expansion of the Cal MediConnect (CMC) Independent Ombudsman, which offered ombudsperson services to CMC members. An amendment to this contract is expected to be made to extend vendor services beyond the December 31, 2025, contract end date.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. Annual contract costs are \$2,200,000 TF in FY 2025-26 and FY 2026-27.
2. The contract began in January 2023.
3. The anticipated costs for FY 2025-26 and FY 2026-27 of this contract are:

MEDICARE - MEDI-CAL OMBUDSPERSON PROGRAM

Fiscal Year	TF	GF	FF
FY 2025-26	\$2,200,000	\$1,100,000	\$1,100,000
FY 2026-27	\$2,200,000	\$1,100,000	\$1,100,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

MFP/CCT SUPPLEMENTAL FUNDING**FISCAL REFERENCE NUMBER:2392**

	FY 2025-26	FY 2026-27

GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets supplemental funding in Money Follows the Person (MFP) that the Centers for Medicare and Medicaid Services (CMS) made available to state MFP grantees to support planning and capacity building activities.

Authority:

Federal Deficit Reduction Act (DRA) of 2005 (P.L. 109-171), Section 6071
 Affordable Care Act (ACA) (P.L. 111-148), Section 2403
 Medicaid Extenders Act of 2019 (P.L. 116-3), Section 2
 Medicaid Services Investment and Accountability Act of 2019 (P.L. 116-16), Section 5
 Sustaining Excellence in Medicaid Act of 2019 (P.L. 116-39), Section 4
 Further Consolidated Appropriations Act, 2020 (P.L. 116-94), Section 205
 Coronavirus Aid, Relief, and Economic Security (CARES) Act, 2020 (P.L. 116-136) Section 3811
 Consolidated Appropriations Act, 2021 (P.L. 108-361) Section 204
 Contract #22-20091-A3

Interdependent Policy Changes:

Not Applicable

Background:

On September 23, 2020, CMS notified MFP state grantees of a supplemental funding opportunity for those that operate MFP Demonstration programs. The Department developed a proposal to submit to CMS to receive up to \$5 million in supplemental funding for planning and capacity building activities to accelerate long-term care system transformation design and implementation, and to expand home and community-based services capacity. The Department submitted their proposal for supplemental funding to CMS on June 30, 2021.

On July 27, 2021, CMS approved the Department's MFP Supplemental Funding application. CMS approved the Department's request for \$5 million in supplemental funding to conduct a statewide Gap Analysis and Multiyear Roadmap of its Home and Community-Based Services (HCBS) and Managed Medi-Cal Long-Term Supports and Services (LTSS) programs and networks. The Department's project narrative identified how the funding will be utilized for planning and capacity building activities to accelerate long-term care system transformation design and implementation, and to expand HCBS capacity.

In July 2022, the Department selected Mathematica to conduct the MFP Supplemental Funding – Gap Analysis and Multiyear Roadmap. The contract between Mathematica and the Department was fully executed on October 6, 2022, retroactive to September 1, 2022, through June 30, 2025. The Department intends to roll over unspent funds from the first year of the

MFP/CCT SUPPLEMENTAL FUNDING

contract to the outyears through a contract amendment; those funds will be used to assist Mathematica with implementing the Multi-Year Roadmap.

In May 2024, CMS released the Access Rule and Quality Measures requirements for states implementing HCBS. Due to the size of California's expansive HCBS population, complexities around the different Waiver/State Plan authorities, and the current lack of infrastructure, the Department requires additional support to implement the large-scale statewide effort to ensure compliance with the requirements. To establish compliance, CMS has permitted states to request additional MFP Supplemental Funding. The Department used the additional supplemental funding to amend the Mathematica and Assurecare contracts as follows:

- The Mathematica contract was amended to conduct additional qualitative data collection and provide the Department with technical assistance to build its capacity to report HCBS access and quality measures, as required by CMS' Ensuring Access to Medicaid Services final rule; and
- The Assurecare contract was amended to allow updates to the existing CCT database, MedCompass, to include the new CMS access rule requirements.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease based on updated actuals. There is no change, from FY 2025-26 to FY 2026-27, in the current estimate.

Methodology:

1. Assume MFP supplemental funding can be spent in the year it was awarded and for four years after, as long as grant funding remains available.
2. Assume the Department was awarded \$4,193,000 in CY 2024 for the amended Mathematica contract to implement the new CMS Access Rule requirements.
3. Assume the Department was awarded \$5,707,000 in CY 2025 for the amended Mathematica contract for continued support in implementing the required performance improvement projects in the MFP demonstration.
4. Assume the Department spent \$1,837,000 TF in FY 2024-25.
5. Assume the Department will spend \$2,116,000 TF in FY 2025-26 and FY 2026-27.

Fiscal Year	TF
FY 2025-26	\$2,116,000
FY 2026-27	\$2,116,000

Funding:

MFP Federal Grant (4260-106-0890)

T-MSIS**FISCAL REFERENCE NUMBER:1768**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,721,000	\$1,720,000
FEDERAL FUNDS	\$1,299,700	\$1,298,800
GENERAL FUND	\$421,300	\$421,200
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for the maintenance and operations (M&O) of the Extract, Transform, and Load (ETL) data solution used to transmit data to the Transformed Medicaid Statistical Information System (T-MSIS). It estimates the cost for design, development, and implementation (DDI) for the planning, analysis, and testing to achieve technical compliance with the Centers for Medicare & Medicaid Services (CMS) standard operating procedure guidelines for production implementations that impact T-MSIS reporting.

Authority:

Affordable Care Act (ACA)
 Medicaid Managed Care Final Rule
 42 Code of Federal Regulations 433.120
 CMS Informational Bulletin: T-MSIS State Compliance
 Contract #22-20364 A02

Interdependent Policy Changes:

Not Applicable

Background:

The CMS requires data in a standardized format from the states to review system projects related to the ACA. The Department implemented an enterprise-wide ETL data solution to modernize and streamline the data transmission processes from the Department to the CMS T-MSIS. The project provides modern capabilities to improve business processes by collecting comprehensive data regarding the cost, quantity, and quality of health care provided for Medi-Cal members. Data transferred to the T-MSIS includes claims, eligibility, third-party liability, managed care, and provider information.

On May 28, 2025, CMS issued a State Health Official (SHO) letter #25-002 reaffirming CMS expectations regarding the quality of Medicaid and Children's Health Insurance Program (CHIP) data in T-MSIS and outlining the compliance impact of deviating from T-MSIS reporting requirements. In this letter CMS refers to CMS SHO Letter #18-008, dated August 18, 2018, and March 18, 2019, CMS and CHIP Services Information Bulletin (CIB) addressing T-MSIS State Compliance, reminded states of the potential for reduced Federal Financial Participation (FFP) for state systems that fail to produce T-MSIS data in a manner that complies with applicable federal requirements.

Furthermore, eligibility for enhanced FFP for Medicaid Enterprise System (MES) systems expenditures requires states to meet federal reporting requirements and maintain compliance with federal regulations, including 42 CFR 433.116. T-MSIS data must be:

- Submitted and received by CMS in a required format for processing,

T-MSIS

- Complete, timely, and accurate, and
- Submitted and recorded without deleting or degrading historical data submissions

SHO Letter 25-002 emphasizes T-MSIS Data Quality (DQ) Compliance, stating that in January 2022, the Outcomes Based Assessment (OBA) methodology replaced the T-MSIS Priority Items (TPI), as the new DQ assessment methodology. SHO 25-002 rescinds the use of TPIs established in CMS SHO Letter #18-008 as the assessment framework for T-MSIS data quality compliance and replaces it with the OBA framework.

The process of assessing DQ compliance begins with CMS monitoring a state's DQ assessment. If a state's DQ assessment does not meet quality targets for two consecutive monthly reporting periods, CMS will notify the state about the potential risk of a compliance action for failure to meet T-MSIS submission requirements.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to updated actuals and adjusted projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a slight decrease due to adjusted projections.

Methodology:

1. CMS approved FFY 2024-25 IAPD in April 2024 for enhanced funding of ongoing M&O (75% Title XIX / 25% GF) activities, which include the annual renewal of software licenses for T-MSIS ETL data solutions and staff training costs. The Department submitted an IAPDU for FFY 2025-26 and is awaiting CMS approval.
2. The SOP testing contract began on April 3, 2023, and will end on April 2, 2027. This is for DDI (90% Title XIX/10% GF) activities.

FY 2025-26	TF	GF	FF
DD&I	\$1,495,000	\$393,000	\$1,102,000
M&O	\$226,000	\$29,000	\$197,000
Total	\$1,721,000	\$422,000	\$1,299,000

FY 2026-27	TF	GF	FF

M&O	\$226,000	\$29,000	\$197,000
Total	\$1,720,000	\$421,000	\$1,299,000

Funding:

75% Title XIX / 25% GF (4260-101-0890/0001)
 90% Title XIX / 10% GF (4260-101-0890/0001)
 65% Title XXI / 35% GF (4260-101-0890/0001)
 100% State GF (4260-101-0001)

SSA COSTS FOR HEALTH COVERAGE INFO.

FISCAL REFERENCE NUMBER:237

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$1,704,000	\$1,788,000
FEDERAL FUNDS	\$852,000	\$894,000
GENERAL FUND	\$852,000	\$894,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of obtaining Supplemental Security Income/State Supplementary Payment (SSI/SSP) recipient information from the Social Security Administration (SSA).

Authority:

Social Security Act 1634(a)

Interdependent Policy Changes:

Not Applicable

Background:

The Department uses SSI/SSP information from the SSA to defer medical costs to other payers. The SSA administers the SSI/SSP programs. The SSI program is a federally funded program, which provides income support for persons aged 65 or older and qualified blind or disabled individuals. The SSP is a state program which augments SSI. The Department receives SSI/SSP information about health coverage and assignment of rights to medical coverage from the SSA. The SSA bills the Department quarterly for this activity.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase based on the average projection using the actual billed amounts from the SSA for FY 2022-23, FY 2023-24, and FY 2024-25.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase based upon the most current actual billings from SSA for FY 2023-24, FY 2024-25, and the projected billings for FY 2025-26.

Methodology:

1. The following projections are averaged based upon the most current actual billings from the SSA.

Fiscal Year	TF	GF	FF
FY 2025-26	\$1,704,000	\$852,000	\$852,000
FY 2026-27	\$1,788,000	\$894,000	\$894,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

MEDI-CAL ELIGIBILITY DATA SYSTEM (MEDS)**FISCAL REFERENCE NUMBER:1441**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,333,000	\$1,333,000
FEDERAL FUNDS	\$884,750	\$884,750
GENERAL FUND	\$448,250	\$448,250
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the maintenance and operations (M&O) expenses resulting from legislative mandates, federal and/or state directives, and Medi-Cal program policy changes, which impact the Medi-Cal Eligibility Data System (MEDS).

Authority:

Not Applicable

Interdependent Policy Changes:

Not Applicable

Background:

The MEDS is a statewide database containing eligibility information for public assistance programs administered by the Department and other departments. MEDS provides users with the ability to perform multi-program application searches, verify program eligibility status, enroll members in multiple programs, and validate information on application status. Funding is required for the following M&O functions:

- MEDS Master Client Index maintenance;
- Data matches from various federal and state agencies;
- Supplemental Security Income termination process support;
- Medi-Cal application alerts;
- Medicare Modernization Act Part D buy-in process improvements;
- Eligibility renewal process;
- Reconciling county eligibility data used to support the counties in Medi-Cal eligibility determination;
- Supporting eligibility and enrollment functions; and
- Enabling counties to perform online statistical analysis and MEDS-alert reporting as well as allowing them to track and report county workers' MEDS transactions.

MEDS generates Client Index Numbers (CIN) to uniquely identify Medi-Cal members. CINs can be used to identify members for public assistance programs, including Temporary Assistance for Needy Families, In-Home Support Services, and other Health and Human Services programs such as Covered California's Advance Premium Tax Credit.

The Department implements MEDS functionality to support the Medi-Cal program related to member eligibility and interfacing with the county consortia and state and county business partners. The California Department of Technology (CDT) houses MEDS and charges the Department for all associated data storage, processing, networking, data archiving, and backup

MEDI-CAL ELIGIBILITY DATA SYSTEM (MEDS)

costs. CDT invoices the Department on a monthly basis for the services provided. CDT data center charges change based on the volume of members enrolled within the MEDS system.

Reason for Change:

The change from the prior estimate, for FY 2025-26 is an increase due to internal billing audits and associated corrections. There is no change from FY 2025-26 to FY2026-27 in the current estimate.

Methodology:

1. Reporting and tracking costs include non-production support costs consisting of CDT data center charges for development, testing, quality assurance, and not all system-related charges related to essential M&O functions.
2. M&O costs include, but are not limited to, the MEDS Reconciliation Process for both the counties and the State, Third Party Liability file matches related to recipients that may have other health coverage, and Medicaid-related system and production support costs to cover the M&O functions described in the background section.
3. M&O and Reporting and Tracking costs include quarterly reconciliation for OTECH services incorrectly billed, resulting in retro-corrections of expenses.
4. The projected costs for FY 2025-26 and FY 2026-27 are:

FY 2025-26	TF	GF	FF
Reporting and Tracking (50% FF / 50% GF)	\$460,000	\$230,000	\$230,000
Maintenance & Operations (75% FF / 25% GF)	\$873,000	\$218,000	\$655,000
Total	\$1,333,000	\$448,000	\$885,000

FY 2026-27	TF	GF	FF
Reporting and Tracking (50% FF / 50% GF)	\$460,000	\$230,000	\$230,000
Maintenance & Operations (75% FF / 25% GF)	\$873,000	\$218,000	\$655,000
Total	\$1,333,000	\$448,000	\$885,000

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

75% Title XIX / 25% GF (4260-101-0890/0001)

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for provider recruitment, education, and support for the Family Planning, Access, Care, and Treatment (Family PACT) program.

Authority:

Interagency Agreement 19-96361 A1
Interagency Agreement 25-50070
AB 1464 (Chapter 21, Statutes of 2012)

Interdependent Policy Changes:

Not Applicable

Background:

The Family PACT program has two main objectives, to increase (1) access to services for low-income women and men, including adolescents; and (2) the number of providers who serve these clients. Education and support services are provided to the Family PACT providers and potential providers, as well as clients and potential clients. Services include, but are not limited to:

- Public education, awareness, and direct client outreach;
- Provider enrollment, recruitment, and training;
- Training and technical assistance for medical and non-medical staff;
- Education and counseling services;
- Preventive clinical services;
- Sexually transmitted infection/human immunodeficiency virus training and technical assistance services; and
- Toll-free referral number.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to projected higher contract costs. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The administrative costs for the Family PACT program are estimated in the table below:

Fiscal Years	TF	GF	FF
FY 2025-26	\$1,100,000	\$550,000	\$550,000
FY 2026-27	\$1,100,000	\$550,000	\$550,000

FAMILY PACT PROGRAM ADMIN.

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

RECOVERY INCENTIVES CONTINGENCY MANAGEMENT ADMIN

FISCAL REFERENCE NUMBER:2362

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,046,000	\$1,275,000
FEDERAL FUNDS	\$1,046,000	\$1,275,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change, previously titled “HCBS SP – Contingency Management Admin.,” estimates the administrative costs of adding the Recovery Incentives Program Contingency Management (CM) in select Drug Medi-Cal Organized Delivery System (DMC-ODS) waiver counties as an optional evidence-based Medi-Cal benefit under the federally approved CalAIM Section 1115(a) Waiver Program.

Authority:

Budget Act of 2021 [SB 129 (Chapter 69, Statutes of 2021)]
CalAIM 1115 Demonstration Waiver

Interdependent Policy Changes:

Not Applicable

Background:

The Centers for Medicare and Medicaid Services (CMS) approved the addition of CM as an optional benefit in DMC-ODS counties as part of the 1115 Demonstration Waiver renewal, as a pilot, beginning July 1, 2022 through December 31, 2026. CM uses small motivational incentives combined with behavioral health treatment and has been shown in repeated meta-analyses to be the most effective treatment for stimulant use disorder. This benefit was originally approved in the 2021 Budget Act, funded by the Home & Community-Based American Rescue Plan (HCBS ARP) Fund.

This policy change budgets administrative costs for CM services under the CalAIM 1115 Demonstration Waiver. The Department will extend the Recovery Incentives Program as an optional CM benefit for all DMC-ODS counties who opt-in to cover CM as a DMC-ODS service in alignment with the timeline of the CalAIM 1115 Demonstration waiver (through December 31, 2026). Counties can voluntarily opt-in to this benefit, and those who do will be responsible for the non-federal share of payments.

The Department plans to extend the CM benefit in the next CalAIM 1115 Demonstration waiver renewal.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a decrease due to a reduction in the anticipated number of operational CM provider sites and subsequent member utilization.

The change in the current estimate, from FY 2025-26 to FY 2026-27, is an increase due to the transition from the pilot phase to full program implementation, reflecting anticipated expansion into additional DMC-ODS counties.

RECOVERY INCENTIVES CONTINGENCY MANAGEMENT ADMIN

Methodology:

1. CM was added as an optional service to the CalAIM 1115 Waiver Demonstration Waiver effective January 1, 2022, and the services began in April 2023.
2. Reimbursements for the county administrative costs began in May 2023.
3. Updated forecast using the costs for CM services and recovery incentives as the basis to estimate associated administrative costs.
4. Total estimated administrative costs for CM, on a cash basis, is as follows:

(Dollars in Thousands)

Contingency Management Admin	TF	FF	CF
FY 2025-26	\$2,092	\$1,046	\$1,046
FY 2026-27	\$2,550	\$1,275	\$1,275

Funding:

100% Title XIX (4260-101-0890)

MMA - DSH ANNUAL INDEPENDENT AUDIT**FISCAL REFERENCE NUMBER:266**

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$588,000	\$613,000
FEDERAL FUNDS	\$294,000	\$306,500
GENERAL FUND	\$294,000	\$306,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the administrative costs of contracting for the annual independent audit of the Disproportionate Share Hospital (DSH) program.

Authority:

Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA)
Title 42, Code of Federal Regulations, Section 455.300 et. seq.

Interdependent Policy Changes:

Not Applicable

Background:

The MMA requires an annual independent certified audit that primarily certifies:

1. The extent to which DSH hospitals have reduced their uncompensated care costs to reflect the total amount of claimed expenditures made under section 1923 of the MMA.
2. That DSH payment calculations of hospital-specific limits include all payments to DSH hospitals, including supplemental payments.

DSH-eligible Designated Public Hospitals participating in the Global Payment Program are not subject to the DSH audit.

The audits are funded with 50% Federal Financial Participation and 50% General Fund (GF). The Centers for Medicare and Medicaid Services (CMS) released the final regulation and criteria for the annual certified audit in 2008. Each fiscal year's annual audit and report is due to CMS by December 31st.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to the actual invoices for the months of May 2025 through June 2025 coming in lower than previously projected.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to slightly lower estimated invoices for the FY 2026-27 budget period based on the estimated contractor hours.

Methodology:

1. The DSH Audit contract began on March 1, 2025, and is valid through June 30, 2029. The initial contract period is 28 months with an estimated budget of \$1,551,000, and two optional 12-month extensions (estimated budget of \$705,000 and \$799,000, respectively), for a total contract cost of \$3.06 million.

MMA - DSH ANNUAL INDEPENDENT AUDIT

2. In FY 2025-26, the Department will make payments for the FY 2021-22 and FY 2022-23 audit invoices.
3. In FY 2026-27, the Department will make payments for the FY 2022-23 and FY 2023-24 audit invoices.

Fiscal Year	TF	GF	FF
FY 2025-26	\$588,000	\$294,000	\$294,000
FY 2026-27	\$613,000	\$306,000	\$307,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

HEALTH INFORMATION EXCHANGE INTEROPERABILITY**FISCAL REFERENCE NUMBER:2159**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$500,000	\$1,000,000
FEDERAL FUNDS	\$450,000	\$900,000
GENERAL FUND	\$50,000	\$100,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost to administer data exchange activities to support care for Medi-Cal members. The policy change also estimates the cost to deploy and operate the Department's health information exchange (HIE) activities.

Authority:

21st Century Cures Act of 2016
Title 42, Code of Federal Regulations, Section 431.60
Title 42, Code of Federal Regulations, Section 457.730
Title 45, Code of Federal Regulations, Section 170.213
Title 22, California Code of Regulations, Section 51476
CMS Interoperability and Patient Access Final Rule (CMS-9115-F)
CMS Interoperability and Prior Authorization Final Rule (CMS-0057-F)

Interdependent Policy Changes:

Not Applicable

Background:

In FY 2022-23, the Department piloted the Authorization to Share Confidential Medi-Cal Information (ASCMi) Form and consent management service pilot, an initiative to streamline consent-to-share processes and improve health information exchange (HIE) across key areas, including substance use disorder (SUD). The Department also developed an HIE Roadmap focused on California Advancing and Innovating Medi-Cal (CalAIM), which included recommendations on how HIE should be utilized to achieve Departmental goals.

To continue building on the efforts of ASCMi and the HIE Roadmap, to implement the requirements under the federal Interoperability rules, and to facilitate the improved care coordination desired by CalAIM initiatives, the Department needs to plan for consent management and associated identity management services.

The Interoperability and Patient Access Rule, finalized by the Centers for Medicare and Medicaid Services (CMS) in 2020, requires Medicaid organizations and other entities to implement a Patient Access Application Programming Interface (API) through which members can access their health information through a third-party vendor of their choosing. In order to share information through the third-party vendor, the Department must collect consent from the member to share their information with the third-party vendor. The Interoperability and Prior Authorization Rule, finalized by CMS in 2024, also requires Medicaid organizations and other entities to implement a Payer to Payer API, which supports care continuity by enabling data to follow an individual as they move to different health plans. Since both APIs require Medi-Cal to

HEALTH INFORMATION EXCHANGE INTEROPERABILITY

exchange a member's data with another payer, consent is required from the member for some components of the data such as that governed by 42 CFR Part 2.

Many CalAIM initiatives are focused on improving care coordination for members for which consent to share data is essential. Through CalAIM, the Department is partnering with entities in disparate sectors, including housing and homeless programs, the justice system, education, foster youth programs, and other social services organizations. Such organizations may or may not be covered by the Health Insurance Portability and Accountability Act (HIPAA) and may have different data privacy and data sharing rules than Medi-Cal and other health care providers. Furthermore, data elements used to capture an individual's identity may also be disparate across these organizations. As such, consent and associated identity management services are essential to confirm data shared with these new partners has been consented to by the correct individual.

The funds requested will support planning for the consent management services. The Department has been approved at 90 percent enhanced federal financial participation from CMS by updating the Interoperability Advance Planning Document (APD) through September 2025. An APD update requesting funding beyond September 2025 was submitted in July 2025.

Reason for Change:

The change for FY 2025-26, from the prior estimate, is a decrease due to a delayed start to the contracted services. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a full year of contract costs.

Methodology:

FY 2025-26	TF	GF	FF
Consent Management Services	\$500,000	\$50,000	\$450,000
Total	\$500,000	\$50,000	\$450,000

FY 2026-27	TF	GF	FF
Consent Management Services	\$1,000,000	\$100,000	\$900,000

CCT OUTREACH - ADMINISTRATIVE COSTS**FISCAL REFERENCE NUMBER:1556**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$364,000	\$364,000
FEDERAL FUNDS	\$364,000	\$364,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change budgets the federal funding to cover California Community Transitions (CCT) administrative costs to increase the community-based network of service providers that serve the CCT-eligible population.

Authority:

Federal Deficit Reduction Act (DRA) of 2005 (P.L. 109-171), Section 6071
 Affordable Care Act (ACA) (P.L. 111-148), Section 2403
 Medicaid Extenders Act of 2019 (P.L. 116-3), Section 2
 Consolidated Appropriations Act, 2021 (P.L. 108-361) Section 204
 California Department of Aging (ADRC) 21-10023

Interdependent Policy Changes:

Not Applicable

Background:

Pursuant to the ACA, on September 3, 2010, the Centers for Medicare and Medicaid Services (CMS) authorized the Department to draw down \$750,000 in MFP Rebalancing Demonstration supplemental grant funding. The Department allocated the supplemental grant funding to implement an assessment tool to improve the ability of Skilled Nursing Facilities/Nursing Facilities, states, and other qualified entities to identify members who are interested in returning to the community. The Department is collaborating with the Aging and Disability Resources Connection (ADRC) programs, CCT lead organizations, and other community-based providers to increase the community-based network of service providers that serve the CCT-eligible population. This supplemental grant funding does not require matching funds. The California Department of Aging oversees and administers the ADRC programs. The costs were 100% federally funded.

Beginning January 1, 2016, the Department began allocating MFP grant funding to continue efforts that were initiated under the supplemental grant to increase community-based network of service providers that serve the CCT-eligible population. These activities qualify as administrative marketing and outreach activities, which are 100% federally funded through the MFP grant.

On January 24, 2019, the federal Medicaid Extenders Act of 2019 was passed into law and authorized MFP state grantees to continue to transition members to through December 31, 2019, using available MFP funding. The Extenders Act provided CMS with authority to allocate new funding to state grantees for FY 2019-20, to allow funding appropriated through the Extenders Act to be spent through 2023.

CCT OUTREACH - ADMINISTRATIVE COSTS

On December 27, 2020, the President signed the Consolidated Appropriations Act, 2021 into law, which included an extension of the MFP grant through FFY 2023 and appropriated funding through FFY 2023. Under the Act, the CCT Program received grant funding to continue to transition eligible members through September 2023 and up to four years after, as long as grant funding remains available.

On December 29, 2022, the President signed the Consolidated Appropriations Act of 2023 into law, which appropriates additional funding for each fiscal year 2024 through 2027. Unexpended grant funds awarded for any fiscal year can continue to be spent for up to four additional years, through September 30, 2031.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to increased contract costs. There is no change, in the current estimate, from FY 2025-26 to FY 2026-27.

Methodology:

1. Assume \$364,000 from the MFP grant administrative funding is expected to be paid in FY 2025-26 and FY 2026-27.
2. In January 2024, the contract was amended for Calendar Year (CY) 2024. The contract was amended for CY 2025.
3. Estimated costs are based on the approved contract budget which includes proposed expenditures for the following activities:
 - ADRC planning and implementation,
 - ADRC/MFP collaborative strategic planning,
 - Minimum Data Set (MDS) 3.0 Section Q referrals policy development,
 - MDS is a federally-mandated process for assessing members receiving care in certified skilled nursing facilities. The process provides a comprehensive assessment of member's current health conditions, treatments, abilities, and plans for discharge. It is administered to all members upon admission, quarterly, yearly, and whenever there is a significant change in a member's condition. Section Q is the part of the MDS designed to explore meaningful opportunities for nursing facility residents to return to community settings.
 - MDS/Options counseling training sessions, and
 - One or more local contact agency (LCA) in the ADRC network provides individualized Hospital-to-Home or Nursing Facility-to-Home transition services. LCA staff will be trained to provide Options Counseling to nursing home members who have expressed interest in returning to the community.
 - ARDC Workgroup.

HEALTH PLAN OF SAN MATEO DENTAL INTEGRATION EVAL**FISCAL REFERENCE NUMBER:2438**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$186,000	\$152,000
FEDERAL FUNDS	\$93,000	\$76,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$93,000	\$76,000

Purpose:

This policy change estimates costs for the statutorily mandated external program evaluation of the Health Plan of San Mateo (HPSM) Dental Integration.

Authority:

SB 849 (Chapter 47, Statutes of 2018)

Interdependent Policy Changes:

Not Applicable

Background:

Chapter 47, Statutes of 2018 authorizes HPSM to evaluate the integration of dental benefits into the Medi-Cal Managed Care Plan in San Mateo County. The HPSM Dental Integration began January 1, 2022. In accordance with the Welfare & Institutions Code Section 14184.90(f), the Department is required to contract with an external entity to conduct, complete, and publish an evaluation of HPSM Dental Integration no later than December 31, 2026. State funds for the evaluation will be provided by HPSM to the Department, and the Department will request federal matching funding through the Cost Allocation Plan. In total, \$500,000 will be available for this evaluation over the course of the contract.

The Department executed the contract on April 3, 2024, effective February 1, 2024, through December 31, 2026, with the evaluation produced during the final year.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the completion of the evaluations.

Methodology:

Total costs are estimated to be:

Fiscal Year	TF	GF Reimb.	FF
FY 2025-26	\$186,000	\$93,000	\$93,000
FY 2026-27	\$152,000	\$76,000	\$76,000

HEALTH PLAN OF SAN MATEO DENTAL INTEGRATION EVAL**Funding:**

FY 2025-26	TF	GF Reimb.	FF
100% Title XIX FF (4260-101-0890)	\$93,000	\$0	\$93,000
Reimbursement GF (4260-601-0995)	\$93,000	\$93,000	\$0
Total	\$186,000	\$93,000	\$93,000

FY 2026-27	TF	GF Reimb.	FF
100% Title XIX FF (4260-101-0890)	\$76,000	\$0	\$76,000
Reimbursement GF (4260-601-0995)	\$76,000	\$76,000	\$0
Total	\$152,000	\$76,000	\$76,000

CMS DEFERRED CLAIMS - OTHER ADMIN**FISCAL REFERENCE NUMBER:2123**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	-\$282,975,000	\$0
GENERAL FUND	\$282,975,000	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the repayment of administrative deferred claims to the Centers for Medicare and Medicaid Services (CMS).

Authority:

California Medi-Cal 2020 Section 1115(a) Medicaid Demonstration (Medi-Cal 2020)
Title 42, Code of Federal Regulations (CFR), 430.40

Interdependent Policy Changes:

Not Applicable

Background:

CMS reviews claims submitted by state Medicaid agencies to ensure federal financial participation (FFP) eligibility. Claims for which CMS questions the FFP eligibility are deferred and the state Medicaid agency is issued a deferral notice. Upon receipt of the deferral notice, the state Medicaid agency has 120 days to resolve the deferred claim.

When CMS issues a deferral to the state Medicaid agency, in accordance with the timelines set forth in 42 CFR 430.40, the state Medicaid agency must immediately return the deferred FFP to the applicable Payment Management System (PMS) subaccount while the deferral is being resolved. As part of the resolution process, the state Medicaid agency submits documentation in support of the deferred claim to CMS for review. If CMS determines the deferred claim is allowed, then the deferral is released, the funds are returned to the appropriate PMS subaccount, and the state Medicaid agency is notified that the funds are available to be redrawn.

The administrative deferred claims are included in this policy change and are separate from the CMS Deferred Claims policy change. See the CMS Deferred Claims policy change for more information.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to no administrative deferrals were received during the May 2025 Estimate therefore this policy change was not active in the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to assuming the Federal Fiscal Year (FFY) 2025 Quarter 1 and FFY 2025 Quarter 3 administrative deferrals will no longer continue so no administrative CMS deferrals or resolved deferrals are estimated in FY 2026-27.

CMS DEFERRED CLAIMS - OTHER ADMIN**Methodology:**

1. The Department received \$221,534,000 in administrative deferrals for FFY 2025 Quarter 1 and \$61,441,000 in administrative deferrals for FFY 2025 Quarter 3.

FY 2025-26	Total Estimated Repayment
FFY 2025 Quarter 1 (Oct-Dec 2024)	\$221,534,000
FFY 2025 Quarter 3 (April-June 2025)	\$61,441,000
Total FY 2025-26	\$282,975,000

Funding:

FY 2025-26	TF	GF	FF
100% Title XIX FFP (4260-101-0890)	(\$282,975,000)	\$0	(\$282,975,000)
100% Title XIX GF (4260-101-0001)	\$282,975,000	\$282,975,000	\$0
Total Funds	\$0	\$282,975,000	(\$282,975,000)

DESIGNATED STATE HEALTH PROGRAMS**FISCAL REFERENCE NUMBER:2459**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	\$178,255,000	\$346,856,000
GENERAL FUND	-\$178,255,000	-\$346,856,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal financial participation (FFP) received for Certified Public Expenditures (CPEs) from certain Designated State Health Programs (DSHP) and the savings to the General Fund (GF) from the reduction in state spending.

Authority:

California Advancing and Innovating Medi-Cal (CalAIM) Section 1115(a) Medicaid Demonstration
California Behavioral Health Community-Based Organized Networks of Equitable Care and Treatment (BH-CONNECT) Section 1115 Demonstration

Interdependent Policy Changes:

CalAIM PATH
CalAIM - BH-CONNECT Workforce Initiative

Background:

On January 26, 2023, the Centers for Medicare and Medicaid Services (CMS) approved DSHP within the CalAIM Section 1115 Demonstration renewal effective January 1, 2023, to December 31, 2026. On December 16, 2024, CMS approved a new Medicaid Section 1115 Demonstration, BH-CONNECT, effective January 1, 2025, to December 31, 2029, to increase access to and improve behavioral health services for Medi-Cal members statewide.

The Department will utilize additional FFP received through DSHP to support the CalAIM Providing Access and Transforming Health (PATH) Supports and the BH-CONNECT Workforce Initiative. The PATH program will support services and capacity building, including payments for supports, infrastructure, interventions, and services to complement the array of care authorized in the consolidated waiver request. The BH-CONNECT Workforce Initiative will support workforce recruitment and retention of behavioral health care practitioners serving Medi-Cal.

DSHP are funded by state funds. Those expenditures are used to draw FFP, which is then used to credit the GF. The CalAIM waiver authorizes the Department to claim up to a total of \$646.425 million in FFP over a four-year period for the approved DSHPs listed below, and the State must contribute \$114.075 million in original, non-freed up DSHP funds over the 5-year demonstration period towards PATH. The BH-CONNECT waiver authorizes the Department to claim up to a total of \$807.5 million in FFP over a five-year period for the expenditures of the Department of Developmental Services under the Lanterman Act, and the State must contribute \$142.5 million in original, non-freed up DSHP funds over the 5-year demonstration period towards BH-CONNECT.

DESIGNATED STATE HEALTH PROGRAMS

The total amount of DSHP FFP that the State may claim in all demonstration years combined may not exceed the non-federal share of amounts actually expended by the State for the DSHP-funded initiatives.

- Song-Brown Health Care Workforce Training - Steven M. Thompson Physician Corp Loan Repayment Program (STLRP)	

Reason for Change:

There is no change in FY 2025-26, from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to estimating a full year of DSHP BH-CONNECT claiming in FY 2026-27.

Methodology:

- DSHP CalAIM claiming is effective January 1, 2023.
- DSHP BH-CONNECT claiming is effective January 1, 2025, and claiming will commence in the April-June quarter of 2026.
- CMS does not intend to approve new or extend existing requests for federal matching funds for DSHP. Thus, any DSHP claiming reflected in this estimate which occurs after the end of the approved demonstration period, is solely the cash basis for claiming qualified expenditures during the approved period.
- The estimated total net impact on a cash basis is:

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
DSHP CalAIM	\$0	(\$161,606)	\$161,606
DSHP BH-CONNECT	\$0	(\$16,649)	\$16,649
Total DSHP	\$0	(\$178,255)	\$178,255

DESIGNATED STATE HEALTH PROGRAMS

(Dollars in Thousands)

FY 2026-27	TF	GF	FF
DSHP CalAIM	\$0	(\$161,606)	\$161,606
DSHP BH-CONNECT	\$0	(\$185,250)	\$185,250
Total DSHP	\$0	(\$346,856)	\$346,856

Funding:

MEDICAL FI BO & IT COST REIMBURSEMENT**FISCAL REFERENCE NUMBER:2115**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$62,572,000	\$63,471,000
FEDERAL FUNDS	\$45,155,350	\$45,710,600
GENERAL FUND	\$17,416,650	\$17,760,400
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost reimbursements for the Medical Fiscal Intermediary (FI) Business Operations and Information Technology, Maintenance and Operations (IT M&O) contracts.

Authority:

Gainwell Contract # 18-95357
IBM Contract # 18-95302

Interdependent Policy Changes:

Not Applicable

Background:

The FI contracts require the FIs to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations and IT M&O contracts started in October 2019. The FI Business Operations contract term is five years with two one-year optional extensions. The IT M&O is five years with two one-year optional extensions from October 1, 2023 through September 30, 2025. The IBM amendment #3 will update the FI contract for two additional one-year extensions from October 1, 2025 through September 30, 2027.

Various costs incurred by the contractor while performing responsibilities under the contract are reimbursed by the Department using a cost reimbursement, or direct cost, pricing methodology. These costs are not a part of the bid price of the contract and are paid dollar for dollar, with no overhead or profit included. Any of the following costs may be cost reimbursed under the contract:

- Postage
 - Postal rates utilized to mail documents to providers, members, the State, the federal government, or any other Medi-Cal or State program-related business. Return envelope postage is also reimbursable.
- Parcel Services and Common Carriers
 - The actual charges paid for parcel services and common carriers for the delivery of: Medi-Cal and other health program claim and Treatment Authorization Request (TAR) forms to providers; and documents, materials, and equipment to providers, members, and state or federal offices.
- Equipment and Services (personal computers, monitors, printers, related equipment, and software)

MEDICAL FI BO & IT COST REIMBURSEMENT

- Installation and monthly charges for data lines;
- Purchase, lease, installation, and maintenance of desktops for State staff at Field Offices and Contractor facilities; and
- Point-of-Sale (POS) devices.
- Facilities Lease, Improvement, Modifications
 - The direct costs for the Medi-Cal Operations Center (MOC) as well as any required modifications and improvements.
- Consultant Contracts
 - Consultant contracts utilized for operational project oversight that are paid through Cost Reimbursement.
- Telecommunications and Data Center
 - Telephone Toll Charges – Actual telecommunication charges paid for by the contractor for maintaining toll-free lines available to providers and members, telephone lines for audio text equipment, computer media claims, TAR submissions, the print and distribution center, on-line pharmacy claims processing and on-line eligibility verification, and any other member or provider use lines. Excludes all other direct or indirect costs associated with telephone toll charges.
 - Data Center Access – Actual charges incurred by the contractor for access to records contained in the Medi-Cal Eligibility Data System and the utilization of the telecommunications network, as charged by the Department of Technology Services Data Center.
- Other Cost Reimbursable Items
 - Equipment and furniture for the Field Office Automation Group (FOAG).
 - The Department has established a rate policy which applies to the contract and defines lodging, mileage, and meal expense reimbursement for travel expenses.
 - Drug Use Review (DUR) work performed on behalf of the Department to provide DUR research, articles for DUR publication, attend conferences, and submit monthly/quarterly reports.
 - Special Training which falls outside the required training scope, as defined by the contract, and directly relates to California Medicaid Management Information System (CA-MMIS) support activities.
- Sales Tax
 - The Department will reimburse the contractor only for the actual sales and/or use tax paid by the Contractor to the California Board of Equalization for the operations of this contract.
- Audits and Research
 - Annual audits for the Electronic Data Processing Application System shall be cost reimbursed for the direct cost of the audit as paid to the independent auditor by the contractor, excluding procurement costs or effort expended by the contractor.

MEDICAL FI BO & IT COST REIMBURSEMENT

- Change Order and/or Amendments
 - Certain costs associated with Contract Change Orders/ Amendments can be paid through Cost Reimbursement.

Costs under these categories consist of direct costs, or subsets thereof, which can be specifically identified with the particular cost objective.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to higher cost estimates for Consultant Contracts and Equipment & Services, and decreased estimates for Postage, Parcel Services, Facilities Improvements, and Other Cost Reimbursable Items.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net increase due to higher cost estimates for all categories except Facilities Improvements, which decreased.

Methodology:

1. Contract costs are shared between Federal Funds (FF) and General Funds (GF).
2. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract, CPI adjustments are applied annually to the contract cost.

FY 2025-26	TF	GF	FF
Postage	\$2,281,000	\$1,116,000	\$1,165,000
Parcel Services & Common Carriers	\$423,000	\$207,000	\$216,000

GENERAL FUND	\$14,259,250	\$9,256,150
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the Gainwell Medical Fiscal Intermediary (FI) contract Change Orders (i.e. Change Requests).

Authority:

Gainwell Contract # 18-95357
 IBM Contract # 18-95302
 SB 853 (Chapter 717, Statutes of 2010)
 Welfare & Institutions Code Section 14105.05

Interdependent Policy Changes:

Not Applicable

Background:

The Gainwell FI contracts require the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations (BO) and Information Technology Maintenance and Operations (IT M&O) FI contracts started in October 2019. The Gainwell BO FI contract term is five years with five (5) one-year optional extensions. The IBM amendment #3 will update the FI contract for two additional one-year extensions from October 1, 2025 through September 30, 2027.

Modifications resulting in changes to contractor responsibilities are initiated by Change Orders (CO) and billed separately from contract operations. A CO is a documentable increase of effort identified as having a direct relation to the administration of the contract that is above the volume of the required work within the scope and above the normal costs of the contract. Either or both of the FI contractors may be required to engage in a CO project and their respective scope is determined at the initiation phase. IT infrastructure services estimated in this policy change are comprised of work that is outside the scope of work that is estimated in the Medical Infrastructure and Data Management Services policy change.

At the time the contract was procured it is unknown how many COs are needed as it may require increased level of work and effort. The Department has agreed to reimburse the FI for all documentable expenses that are a direct result of CO efforts. The BO FI costs are determined during the analysis phase of a CO. The IT Infrastructure, Development, and Operations costs are estimated based on the preliminary pricing bids that have been submitted by the IT M&O contractor.

MEDICAL FI BO & IT CHANGE ORDERS

While COs are generally not known at the time the contract was executed, in this case, the COs were identified and known but detailed scope and line item costs were not finalized. The items were termed “unanticipated tasks” by the Department of General Services when they approved the contract.

Effective October 1, 2025, the IBM amendment shifts ongoing expenses for File Maintenance, RAIS Extension Support, Liaison Services, TPL Liaison Services, and API Connect Change Orders from this policy change to the Medical FI BO IT Development and Operations Services policy change.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net increase due to:

- Higher costs from the completion of SURGE project, partially offset by reductions in other CO expenditures,
- New expenditures added for CO-23 Drug Rebate, Qradar Licenses, and Turnover, and
- MF to Cloud expenditures are no longer anticipated as a cost.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to the following:

- The expiration of the COs, with no costs budgeted in FY 2026-27: SURGE Phase 2 SoftSole, SURGE Phase 2 IBM SG, Qradar Licenses, and Turnover,
- Lower estimated costs for Stabilization and Testing Services,
- The shift of ongoing COs (File Maintenance, RAIS Extension Support, Liaison Services, TPL Liaison Services, and API Connect) to the Medical FI BO IT Development and Operations Services policy change, and
- Increased projections for the remaining COs.

Methodology:

1. Certain costs, such as software and travel expenses, can be paid through cost reimbursements. These costs are budgeted in the Medical FI BO & IT Cost Reimbursement policy change.
2. The contract allows for overhead and profit to be included in CO expenses (not to exceed thirty-percent). The FI itemizes the actual costs, overhead, and profit on the invoices submitted to the Department.
3. Contract costs are shared between Federal Funds (FF) and General Funds (GF).
4. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract, Consumer Price Index (CPI) adjustments are applied annually to the contract cost.

MEDICAL FI IT DEVELOPMENT AND OPERATIONS SERVICES

FISCAL REFERENCE NUMBER:2119

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$46,180,000	\$50,974,000
FEDERAL FUNDS	\$34,038,400	\$37,571,900
GENERAL FUND	\$12,141,600	\$13,402,100
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of the IBM Medical Fiscal Intermediary (FI) contract IT Development and Operations Services.

Authority:

IBM Contract # 18-95302

Interdependent Policy Changes:

Not Applicable

Background:

The IBM FI contract requires the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Contract Effective Date (CED) for the FI IT Maintenance and Operations (IT M&O) contract started in October 2018. The FI contract term is five years with two one-year optional extensions from October 1, 2023 through September 30, 2025. The IBM amendment #3 will update the FI contract for two additional one-year extensions from October 1, 2025 through September 30, 2027.

IT Development and Operations Services of the Medical FI IT M&O contract are performed and paid under either an hourly rate or a fixed price where the FI provides a set cost per contract year for the services provided under that portion of the contract. IT Development and Operations Services include the following Application Maintenance and Support Services (AMSS):

- Application Development Services
- Application M&O Services
- Project Management Office

Effective October 1, 2025, the IBM amendment shifts on-going expenses for File Maintenance, RAIS Extension Support, Liaison Services, TPL Liaison Services, and API Connect Change Orders from the Medical FI BO IT Change Orders policy change to this policy change.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to IBM amendment updates that shifted costs from the Medical FI BO IT Change Orders policy change to this policy change.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to higher ongoing costs related to the IBM amendment updates in FY 2026-27.

MEDICAL FI IT DEVELOPMENT AND OPERATIONS SERVICES**Methodology:**

1. Costs are paid under an hourly rate or via a fixed price negotiated during the procurement phase of the contract.

GENERAL FUND	\$11,676,250	\$9,948,050
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of data management expenses such as networking, infrastructure costs, as well as the Medical Fiscal Intermediary (FI) Information Technology Maintenance and Operations (IT M&O) contract for infrastructure services.

Authority:

IBM Contract # 18-95302

Interdependent Policy Changes:

Not Applicable

Background:

The FI contracts require the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the FI IT M&O contract started in October 2019. The FI contract term is five years with two one-year optional extensions. The Department has begun transferring hosting services and data to the cloud in an effort to increase stability and reduce costs. These non-FI Contract costs, as well as IT M&O costs, are captured in this policy change.

IT Infrastructure Services of the Medical Application Hosting and Managed Network Support Services (AH/MNS) include:

- Mainframe Data Center Operations Services
- Midrange Data Center Operations Services
- Midrange Storage Operations Services
- Managed Network Services
- Disaster Recovery
- Service Delivery Management, Asset Management, and Facilities
- Fixed Security Services
- Hardware and Refresh
- Software

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to the pending IBM contract amendment, which reduces costs for all service categories except software, which is projected to increase.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is a net decrease due to Midrange Data Center Operations Services and Midrange Storage Operations Services no

MEDICAL INFRASTRUCTURE & DATA MGT SVCS

longer being projected, increased software costs, and decreased costs for all other service categories.

Methodology:

1. IT M&O costs are paid under an hourly rate or via a fixed price negotiated during the procurement phase of the contract.
2. Contract costs are shared between Federal Funds (FF) and General Funds (GF).
3. Network Management and cloud services are provided through an agreement with the California Department of Technology.

OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the other estimated costs of the Gainwell Medical Fiscal Intermediary (FI) contract.

Authority:

Gainwell Contract # 18-95357

Interdependent Policy Changes:

Not Applicable

Background:

The Gainwell FI contract requires the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations FI contract started in October 2019. The FI contract term is five years with five (5) one-year optional extensions.

Some functions and services of the Gainwell Medical FI contract are performed and paid using a fixed price payment methodology. For fixed price categories, the Contractor is paid a fixed rate for certain annual services.

Costs under this category consist of payment to the contractor for contract services, such as:

- **Process Appeals** - The Contractor reviews the appeal documents and the claim history, and either rejects the appeal or approves and resubmits the claim for processing. The Contractor regularly provides information to the providers regarding claim appeal status, denial reasons, and estimated payment dates, as appropriate. All appeal information is recorded in the California Medicaid Management Information System (CA-MMIS) Appeals subsystem.
- **Support Audits** - The Contractor is required to plan, track, and coordinate audit support tasks, gather data or other information requested for the audit, and obtain all information necessary to present a complete and accurate audit response to the Department for review and approval.
- **Process Drug Rebates** – The Contractor processes drug rebates in order to create invoices submitted to manufacturers which generate revenue received by the Department in excess of \$4 billion annually.

MEDICAL FI BO OTHER ESTIMATED COSTS

- Provide Litigation Support - The Contractor's litigation support includes, but is not limited to, planning, tracking, and coordinating litigation support tasks, developing responses to subpoenas and other legal requests, and providing written and oral testimony on behalf of the Department.
- Service Delivery Support – The Contractor performs broad management, administrative, and supporting services that apply to the delivery of all business, information technology, and facilities services while conforming to standardized process, protocols, templates, and tools as prescribed by the Department.
- Publish Provider Communications – The Contractor assists with the development and distribution of provider communications related to provider billing as well as related processes and procedures. Provider communications take many forms, such as bulletins targeted to the different provider types, forms, public content forums, Provider Manual changes, Medi-Cal website content, provider letters, news articles, system alerts, user guides, technical documents, and education and training opportunities.
- Conduct Provider Outreach and Education – The Contractor conducts centralized and regional provider outreach and education activities, and provides on-site support resources and specialists focused on small providers, and out-of-state providers to address specific provider issues.
- Print and Mail Medi-Cal Information - The Department requires the Contractor to print and mail information of any type, as approved by the Department, to audiences, identified by the Department, on a scheduled and ad hoc basis. The Contractor is also required to create, update, and manage forms, including developing and maintaining a Master Index of Forms. The Contractor prints 1099s, Departmental standard forms, ad hoc forms as requested, and reports monthly regarding these activities.
- Perform Proactive Provider Research - The Contractor conducts research and reviews provider customer services data from multiple sources to identify trends, systemic issues, needs, and concerns. The findings lead to recommendations for development of provider communication materials, provider educational materials, policy changes, and process and procedural improvements for review by the Department. The Contractor prepares position papers, problem statements, and reports for review and approval by the Department prior to taking any action. The Contractor also develops and submits content changes directly to outreach and training teams for inclusion in ongoing services.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to the Consumer Price Index (CPI) adjustment.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to an increase to the CPI adjustment for FY 2026-27.

Methodology:

1. Other estimated costs are paid using fixed pricing methodology. The contract stipulates an annual rate for each of the services defined above.

MEDICAL FI BO OTHER ESTIMATED COSTS

2. Costs are shared between Federal Funds (FF) and General Funds (GF).
3. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract, CPI adjustments are applied annually to the contract cost.

GENERAL FUND	\$5,832,600	\$5,901,200
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Telephone Service Center (TSC) costs of the Gainwell Medical Fiscal Intermediary (FI) contract.

Authority:

Gainwell Contract # 18-95357

Interdependent Policy Changes:

Not Applicable

Background:

The FI contracts require an FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations FI contract started in October 2019. The FI contract term is five years with five (5) one-year optional extensions.

The TSC functions and services of the Gainwell Medical FI contract are paid using a fixed price and a variable pricing methodology. For fixed price categories, the Contractor is paid a fixed rate for certain annual services. Variable pricing methodology is based on estimated volume-driven metrics and account for increases in actual volumes. The costs are calculated using a fixed annual rate for transactions up to a State-specified volume and a per-transaction rate for transactions which exceed that volume. Variable pricing is also known as "fixed plus."

The TSC provides telephone and chat services to providers and members in three areas. Each TSC service area utilizes telecommunications infrastructure, Customer Relationship Management application(s), and the records repository which are implemented and maintained by the contractor.

- Provider Customer Services (variable pricing)
- Member Customer Services (variable pricing)
- Financial Services (fixed price)

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to lower estimated Provider Customer Services expenditures and higher Member Customer Services and Financial Services expenditures.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the Consumer Price Index (CPI) adjustment applied in FY 2026-27.

MEDICAL FI BO TELEPHONE SERVICE CENTER

Methodology:

1. TSC costs are paid using variable price rates based on volumes within a maximum threshold. The contract stipulates an annual fixed price for services up to a specified volume and a per-transaction price for services which exceed that volume.
2. Costs are shared between Federal Funds (FF) and General Funds (GF).
3. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract, CPI adjustments are applied annually to the cost.

FY 2025-26	TF	GF	FF

OTHER FUNDS	\$11,000	\$11,000

Purpose:

This policy change estimates the operational costs of the Gainwell Medical Fiscal Intermediary (FI) contract.

Authority:

Gainwell Contract # 18-95357

DHCS Contract # 22-20044

Interdependent Policy Changes:

Not Applicable

Background:

The FI contracts require an FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Gainwell Business Operations FI contract started in October 2019. The Gainwell Business Operations FI contract term is five years with five (5) one-year optional extensions.

The Operations functions and services of the Gainwell Medical FI contract are paid using a variable pricing methodology. The variable pricing methodology is based on estimated volume-driven metrics and account for increases in actual volumes. The costs are calculated using a fixed annual rate for transactions up to a State-specified volume and a per-transaction rate for transactions which exceed that volume. Variable pricing is also known as "fixed plus."

Operations constitute contractual responsibilities required for the contractor to administer and operate the California Medicaid Management Information System (CA-MMIS). These cost categories consist of:

- Process Paper Claims – The Contractor is responsible for the manual entry of claim data into the CA-MMIS Claims system for adjudication, when those claims are received on paper (mail or fax), rather than electronically.
- Process Suspended Claims - The Contractor uses CA-MMIS subsystems and applications to manually adjudicate suspended claims and address suspended claims issues, in accordance with program policy, system validations, established rates, and state and federal statutes and regulations.

MEDICAL FI BUSINESS OPERATIONS

- **Manage Records** - The Contractor is required to provide a comprehensive Manage Records service that results in preservation, protection and maintenance of all official Medi-Cal records according to State, Federal, Contractual, or program requirements. The Contractor acts as “Custodian of Records” for the Medi-Cal program, including certifying record authenticity, managing electronic access to records, performing manual research and record retrieval, and producing “acceptable copies.”
- **Process Member Card Request** – The Contractor is responsible for the production and distribution of Benefit Identification Cards to Medi-Cal members, and Health Access Program cards to public health providers.
- **Process Paper Treatment Authorization Request (TAR)** – The Contractor is responsible for the entering of TAR data into the TAR system for review and/or adjudication of TARs and TAR Appeals, including the scanning of paper TARs and attachments so that an official record is stored and made available for further use by TAR adjudicators in the Records Repository.

The FI has provided state-specified volumes for each of the above categories. The Department estimates operations costs by applying the rates established by the contract to the projected volumes for the current and budget year.

During the transition of FI's on October 2019, from Conduent to DXC, DHCS Contract #22-20044 remains active and services accounted for with the County Medi-Cal Services Program which is paid through GF reimbursements in this policy change. The Department sends the program invoices for services in Provider Master File Transmission, Denial of Misrouted Claims previously known as Adjudicated Claim Lines (ACL), Benefits Identification Cards, (BIC), and Medi-Cal Automated Eligibility Verification System (AEVS).

Reason for Change:

The change in FY 2025-26, from the prior estimate, is an increase due to the Consumer Price Index (CPI) adjustment.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a higher cost increase from the CPI adjustment in FY 2026-27.

Methodology:

1. Operation costs are paid using fixed plus pricing methodology with a rate for an annual volume threshold and a rate for each transaction which exceeds that threshold.
2. Projected volumes are established by the Department using trends and counts from previous years and the FI rate established by the contract is applied to the respective volume.
3. Costs are shared between Federal Funds (FF), General Fund (GF), and GF Reimbursements.
4. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract, CPI adjustments are applied annually to the cost.

MEDICAL FI BUSINESS OPERATIONS

5. County Medi-Cal Services Program (CMSP) is billed annually for services agreed upon in the Incoming Funds Request (IFR) agreement # 22-20044.

- FY 2025-26 cost estimate includes services for FY 2025-26.
- FY 2026-27 cost estimate includes services for FY 2026-27.

MEDICAL FI BO HOURLY REIMBURSEMENT**FISCAL REFERENCE NUMBER:2113**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$12,843,000	\$12,998,000
FEDERAL FUNDS	\$9,466,700	\$9,580,800
GENERAL FUND	\$3,376,300	\$3,417,200
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the hourly reimbursement costs of the Gainwell Medical Fiscal Intermediary (FI) contract.

Authority:

Gainwell Contract # 18-95357

Interdependent Policy Changes:

Not Applicable

Background:

The Gainwell FI contracts require the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations FI contract started in October 2019. The FI contract term is five years with five one-year optional extensions.

Under the Gainwell Medical FI contract, certain activities are reimbursed on an hourly basis by the Department. The rate paid to the contractor consists of all direct and indirect costs required to support these activities, plus profit. Hourly reimbursed items under the contract consist of Medical Review Services and Service Changes.

- **Medical Review Services** - The Contractor provides drug utilization review, Formulary File analysis, medical review consultation, and Treatment Authorization Request (TAR) adjudication. An outcome of the Contractor's Medical Review Services is a reduction in excessive treatment and expense while remaining fully compliant with State and Federal requirements and Medi-Cal policy.
- **Service Changes** - The collection of activities performed by the Contractor's Business Services staff to ensure any changes to the California Medicaid Management Information System (CA-MMIS) Business Services either improve the efficiency of and/or minimize the disruption to related services.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is a net decrease due to lower estimated Medical Review Services expenditures and higher Service Changes expenditures.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the Consumer Price Index (CPI) adjustment applied in FY 2026-27.

MEDICAL FI BO HOURLY REIMBURSEMENT**Methodology:**

1. Hourly costs are paid using hourly rates which vary depending on the service being performed and the expertise required.
2. Costs are shared between Federal Funds (FF) and General Funds (GF).
3. Beginning contract year 3 and each year thereafter through the end of the Gainwell contract CPI adjustments are applied annually to the contract cost.

MEDICAL FI BO MISCELLANEOUS EXPENSES**FISCAL REFERENCE NUMBER:2114**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,266,000	\$1,243,000
FEDERAL FUNDS	\$919,550	\$902,500
GENERAL FUND	\$346,450	\$340,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost of miscellaneous expenses of the Gainwell Medical Fiscal Intermediary (FI) contract.

Authority:

Gainwell Contract # 18-95357

Interagency Agreement (IA) # 20-10163, 21-10145 A01, 21-10005 A02, 22-20086 and 23-30195

Interdependent Policy Changes:

Not Applicable

Background:

The FI contracts require the FI to process claims submitted by Medi-Cal providers for services rendered to Medi-Cal members. The Assumption of Operations for the Business Operations FI contract started in October 2019. The Gainwell FI contract term is five years with five (5) one-year optional extensions.

Under the Medi-Cal FI contract, services classified as miscellaneous expenses are paid using a fixed pricing methodology and include IAs, Optional Contract Services (OCS), and Facilities provisioning.

Pursuant to an IA with the Department, the California State Controller's Office (SCO) issues warrants to Medi-Cal providers and the California State Treasurer's Office (STO) provides funds for warrant redemption.

Pursuant to an IA with the California Department of Consumer Affairs (CDCA), Medical Board of California, the Department purchases licensure data. This data gives the Department the ability to verify prospective providers are currently licensed prior to enrollment in the Medi-Cal program. It also enables the Department to verify the validity of the referring provider license number on Medi-Cal claims.

OCS are contractor-proposed methods of providing services, functions, and procedures above contract requirements to improve the California Medicaid Management Information System (CA-MMIS) performance. Unlike regular operations activities, OCS are not always part of the FI budget. Costs in this category are due to the contractor proposing an OCS and the Department approving the OCS.

MEDICAL FI BO MISCELLANEOUS EXPENSES

The FI is required to provide and manage the Medi-Cal Operations Center (MOC) where the Department and contractors supporting the Medi-Cal program can be co-located with adequate security to ensure protection of the sensitive information and data consumed and produced by the program.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to a net decrease in IA claims.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a decrease in IA claims for the Provider Verification Files.

Methodology:

1. Miscellaneous costs are paid using fixed pricing methodology. The contract stipulates an annual rate for each of the services defined above.
2. Costs are shared between Federal Funds (FF) and General Funds (GF).

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$38,103,000	\$38,103,000
FEDERAL FUNDS	\$19,337,250	\$19,337,250
GENERAL FUND	\$18,765,750	\$18,765,750
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the operational costs of the Health Care Options (HCO) program for the #17-94437 contract with Maximus.

Authority:

HCO Contract #17-94437

Interdependent Policy Changes:

Not Applicable

Background:

The enrollment broker contractor for the HCO program is responsible for enrolling Medi-Cal members into managed care health plans within three Medi-Cal managed care health plan models including Two-Plan, Regional, and Geographic Managed Care. The broker also enrolls members with two Dental Managed Care plan models; one in Sacramento County where enrollment is mandatory, and one in Los Angeles County, where enrollment is voluntary. The contractor assumed operations on October 1, 2018. Operations for the contractor are based on a fixed-price bid.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals and adjusted projections. There is no change from FY 2025-26 to FY 2026-27, in the current estimate.

Methodology:

1. Operations costs are fixed price rates based on volumes within the minimum and maximum ranges under the HCO contract. These are based on agreed-upon contracted bid rates in the contract.

The broker also enrolls members into two Dental Managed Care plan models; one in Sacramento County, where enrollment is mandatory, and one in Los Angeles County, where enrollment is voluntary. The contractor assumed operations on October 1, 2018. Cost reimbursements are direct costs incurred by the enrollment contractor while performing responsibilities under the contract that are in addition to fixed operations costs.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals and adjusted projections. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to adjusted projections and the execution of a new service contract, and vendor takeover/turnover activities.

Methodology:

1. Takeover and turnover costs for Cost Reimbursement, ESR Hourly Reimbursement, and Operations policy changes are captured in the Cost Reimbursement policy change for the new HCO program contract effective March 1, 2026.
2. Contract costs are shared between GF and FF.

HCO ESR HOURLY REIMBURSEMENT

FISCAL REFERENCE NUMBER:2053

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$15,484,000	\$15,484,000
FEDERAL FUNDS	\$7,858,100	\$7,858,100
GENERAL FUND	\$7,625,900	\$7,625,900
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Enrollment Services Representative's (ESRs) hourly reimbursement for the Health Care Options (HCO) program under the #17-94437 contract with Maximus.

Authority:

HCO contract # 17-94437

Interdependent Policy Changes:

Not Applicable

Background:

The enrollment broker contractor for the HCO program is responsible for enrolling Medi-Cal members into managed care health plans within three Medi-Cal managed care health plan models including Two-Plan, Regional, and Geographic Managed Care. The broker also enrolls members into two Dental Managed Care plan models; one in Sacramento County, where enrollment is mandatory, and one in Los Angeles County, where enrollment is voluntary. Assumption of operations for the new contractor began October 1, 2018. An important goal of the HCO program is to provide every Medi-Cal applicant/member, who shall be required or is eligible to enroll in a medical and/or dental plan under the Medi-Cal Managed Care program, with the opportunity to receive a face-to-face presentation describing that individual's rights and enrollment choices as well as a fundamental introduction to the managed health care delivery system. The primary objective of the HCO presentation is to educate applicants/members to make an informed plan choice. An effective educational program ultimately increases the number of potential eligible enrollees who choose a plan prior to or during the informing process, thereby avoiding auto-assignment (default assignment) to a plan. This program is conducted by the enrollment contractor with the use of ESRs in county offices statewide.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight increase due to updated actuals and adjusted projections. There is no change from FY 2025-26 to FY 2026-27, in the current estimate.

Methodology:

1. The hourly reimbursement costs are fixed price hourly rates for full-time equivalent ESR staff at county offices statewide.
2. The estimated costs for FY 2025-26 and FY 2026-27 are based on 217.5 ESRs.

DENTAL FI-DBO ADMIN 2022 CONTRACT**FISCAL REFERENCE NUMBER:2380**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$167,402,000	\$124,722,000
FEDERAL FUNDS	\$123,269,500	\$91,828,500
GENERAL FUND	\$44,132,500	\$32,893,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the total administrative cost for operations, cost reimbursable items, and billable labor for the Fiscal Intermediary-Dental Business Operations (FI-DBO) contract.

Authority:

Contract 22-20181

Interdependent Policy Changes:

Not Applicable

Background:

The Department selected Gainwell Technologies LLC as the FI-DBO vendor, and the resulting Contract Effective Date (CED) was October 1, 2022. The FI-DBO is a multi-year contract that provides business operations services for the Medi-Cal Dental Program including, but not limited to, claim and Treatment Authorization Request adjudication, Customer Service Center operations, and member and provider outreach. The administrative cost of the FI-DBO consists of reimbursement for operations, cost reimbursement, and billable labor. The administrative cost will be paid through a combination of payment methods including fixed price, variable price, cost reimbursement, and billable labor.

Operations constitutes all contractual responsibilities required for the contractor to administer and operate the FI-DBO. Operations costs are reimbursed through a combination of fixed price and fixed plus variable price payment methods, across payment categories as defined in Exhibit B, Attachment I, Provision 3. In addition, the FI-DBO will take on an increase of services transferred from FI, which include Printing, Postage, Parcel Services & Common Carrier.

A two percent (2%) withhold will be administered on Member Outreach and Provider Outreach invoices, to account for performance standards evaluating year-over-year increases in volume, in accordance with Exhibit B, Attachment I, Provision 7.A. The 2% withhold will be held from each monthly invoice until the end of each Contract Year, pending contractor substantiation that annual performance outcomes are met. If the FI-DBO does not meet required performance standards, the 2% withhold will not be released.

The Department will reimburse various cost, in arrears, incurred by the FI-DBO in fulfilling its requirements under the contract, referred to as cost reimbursement. These items are in addition to operations and are not part of the contract bid price. The cost reimbursement payment method is limited to direct cost within the following categories, as defined in Exhibit B, Attachment I, Provision 4:

DENTAL FI-DBO ADMIN 2022 CONTRACT

- Postage
- Parcel Services and Common Carriers
- Office Automation
- Printing
- Travel and Special Training Sessions
- Facilities Improvements
- Audits and Research
- Sales/Use Tax
- Change Orders and/or Contract Amendments
- Consultant Contracts
- Services and Subscriptions
- Annual Risk Assessments
- Conventions, Provider Enrollment Workshops, and Health Fairs
- Telephone Toll Charges
- Language Line
- Clinical Screening
- Translation and Alternative Format Services
- Other Cost Reimbursable Items

In addition, certain activities are reimbursed as billable labor by the Department, subject to written pre-approval from the Department. The rate paid to the contractor consists of all direct and indirect costs required to support these activities.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to updated Cost Reimbursable invoice data and delayed payment of FY 2024-25 Operations costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the delayed payment of Operations costs finishing in FY 2025-26.

Methodology:

1. Operations cost are a combination of fixed price and fixed plus variable price for defined payment categories under the FI-DBO contract.
2. A two percent (2%) withhold will be held from monthly Perform Member Outreach and Conduct Provider Outreach invoices, until the end of each Contract Year pending Contractor substantiation that annual performance outcomes are met. The withhold is based on actual invoices received.
3. Operations Costs:

Fiscal Year	TF	GF	FF

DENTAL FI ADMINISTRATION 2016 CONTRACT**FISCAL REFERENCE NUMBER:2006**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$18,580,000	\$18,808,000
FEDERAL FUNDS	\$13,926,000	\$14,098,000
GENERAL FUND	\$4,654,000	\$4,710,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the total cost for operations, cost reimbursable items, and hourly reimbursables for the 2016 Dental Fiscal Intermediary (FI).

Authority:

Contract 16-93286

Interdependent Policy Changes:

Not Applicable

Background:

A contract amendment was executed to change the FI contractor's name from DXC Technology Services (DXC) to Gainwell Technologies LLC (Gainwell). Gainwell assumes all contractual responsibilities and obligations under the multi-year FI contract from 2016 for the FI services of the Medi-Cal Dental Program. The administrative costs consist of reimbursement for operations, cost reimbursables, and hourly reimbursable costs.

Operations constitute all contractual responsibilities required for the contractor to administer and operate the FI. Only direct costs of certain operations are eligible for cost reimbursement. All other costs are included in fixed price components. These cost categories consist of a combined document count of claims, including Federally Qualified Health Center (FQHC) claims for the Dental Transformation Initiative program, and Treatment Authorization Requests (TAR), paid on a per document basis.

Cost reimbursements are direct costs incurred by the enrollment contractor while performing responsibilities under the contract that are in addition to fixed operations costs. Various costs incurred by the contractor while performing responsibilities under the contract will be reimbursed by the Department. These costs are not a part of the bid price of the contract. Any of the following costs may be cost reimbursed under the contract:

1. Data Center Access
2. Special Training Sessions
3. Facilities Improvement and Modifications
4. Personal Computers, Monitors, Printers, Related Equipment, and Software
5. Cost Reimbursed Audits and Research
6. Independent Contractor Consideration
7. Annual Risk Assessments
8. Miscellaneous
9. Cost Reimbursement Invoice

DENTAL FI ADMINISTRATION 2016 CONTRACT

Certain activities are reimbursed on an hourly basis by the Department. The rate paid to the contractor consists of all direct and indirect costs required to support these activities. The hourly reimbursed area consists of the Systems Group (SG). A Notice of Change (NOC) was executed June 10, 2024, which will increase usage of SG Hours.

Costs related to Printing, Parcel Service and Common Carriers, and Postage have completely shifting to Fiscal Intermediary – Dental Business Operation (FI-DBO). A portion of the costs for front end services was also moved to the FI-DBO contractor.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated invoice data. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to rate changes for several categories of services.

Methodology:

1. Operations costs are fixed price rates based on scanned claim and TAR document volumes within minimum and maximum ranges under the FI contract.
2. Check write expenditures are associated with the cost of sending payment to providers, based on adjudicated claims from the FI-DBO.

FY 2025-26	TF	GF	FF
Scanned Claims/TAR	\$9,337,000	\$2,334,000	\$7,003,000
Check Write	\$278,000	\$70,000	\$208,000
Total	\$9,615,000	\$2,404,000	\$7,211,000

FY 2026-27	TF	GF	FF
Scanned Claims/TAR	\$9,358,000	\$2,339,000	\$7,019,000
Check Write	\$283,000	\$71,000	\$212,000
Total	\$9,641,000	\$2,410,000	\$7,231,000

3. Cost reimbursements are based on actual invoices.

Fiscal Year	TF	GF	FF
FY 2025-26	\$36,000	\$18,000	\$18,000
FY 2026-27	\$32,000	\$16,000	\$16,000

4. Hourly Reimbursables:

System Group	TF	GF	FF
FY 2025-26	\$8,929,000	\$2,232,000	\$6,697,000
FY 2026-27	\$9,135,000	\$2,284,000	\$6,851,000

DENTAL FI ADMINISTRATION 2016 CONTRACT

5. Total Administration Cost:

PERSONAL CARE SERVICES

FISCAL REFERENCE NUMBER:236

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$619,619,000	\$665,992,000
FEDERAL FUNDS	\$619,619,000	\$665,992,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change provides Title XIX federal financial participation (FFP) to the California Department of Social Services (CDSS) for the county cost of administering two In-Home Supportive Services (IHSS) programs: the Personal Care Services Program (PCSP) and the IHSS Plus Option (IPO) program. Title XIX FFP is also provided to CDSS for the IHSS Case Management & Information Payrolling System (CMIPS) Legacy and CMIPS II.

Authority:

Interagency Agreement (IA) 03-75676
IA 09-86307 IPO
IA 18-95714

Interdependent Policy Changes:

Not Applicable

Background:

The IHSS programs, PCSP and IPO, enable eligible individuals to remain safely in their own homes as an alternative to out-of-home care. The PCSP and IPO program provide benefits that include domestic services, non-medical personal care services, and supportive services. The Medi-Cal program includes PCSP in its schedule of benefits.

Both the CMIPS Legacy and CMIPS II are currently used to authorize IHSS payments and provide CDSS and the counties with information such as wages, taxes, hours per case, cost per hour, caseload, and funding ratios.

Reason for Change:

There is an increase from the prior estimate for FY 2025-26, and from FY 2025-26 to FY 2026-27 in the current estimate, due to updated expenditure data provided by CDSS.

Methodology:

1. On an accrual basis, CDSS estimated FY 2025-26 expenditures at \$546,827,000 FFP and FY 2026-27 expenditures at \$588,423,000 FFP.
2. On a cash basis, the estimates below were provided by CDSS.

PERSONAL CARE SERVICES

 SB 644 (Chapter 983, Statutes of 2022)
 Contract # 22-20089
 Contract # 24-40004
 Contract # 24-40172
 Contract # 25-50173

Interdependent Policy Changes:

LGBT Disparities Reduction Act (AB 1163)

Background:

California established Covered California to provide competitive health care coverage for individuals and small employers. CalHEERS determines an applicant's eligibility for subsidized coverage. In creating this one-stop-shop experience, states are required to use a single, streamlined application for the applicants to apply for all applicable health subsidy programs. The application may be filed online, in person at a county social services agency, by mail, or by telephone. To meet this requirement, the Department and Covered California formed a partnership to acquire a Systems Integrator to design and implement CalHEERS as the business solution that allows the required one-stop shopping, making health insurance eligibility purchasing easier and more understandable.

The Department is responsible for the coordination, clarification, and implementation of Medi-Cal regulations, policies, and procedures to ensure the accurate and timely determination of Medi-Cal eligibility for applicants and members. The Department also works with the county welfare department consortiums to develop the business rules necessary to implement eligibility policy and maintain the records of members in the county eligibility systems and MEDS.

CalHEERS was programmed to provide Modified Adjusted Gross Income eligibility determinations for individuals seeking coverage through Covered California and Medi-Cal. In order to provide seamless integration with the CalHEERS system, the Department designed and

CALHEERS DEVELOPMENT

implemented technology solutions for the ongoing maintenance of MEDS and Health Exchange Medi-Cal Interface (HEMI) web services.

The Affordable Care Act (ACA), enacted in 2010 offers additional enhanced federal funding for developing/upgrading Medicaid eligibility systems and for interactions of such systems with the ACA-required health benefit exchanges. The Department receives enhanced federal funding for the requirements validation, design, development, testing, and implementation of MEDS-related system changes needed to interface with CalHEERS. The majority of CalHEERS' costs are shared between Covered California and Medi-Cal. For any design, development, and implementation (DD&I) or maintenance and operations (M&O) activities that are not eligible for federal reimbursement, costs are funded 100% by either the Department or Covered California, as applicable.

The Department submitted an As Needed Advance Planning Document (IAPDU) for CalHEERS to increase funding in FFY 2025 and FFY 2026 and newly introduced funding for FFY 2027 as well as an informational update to the Sponsor cost share between the Department (86.53%) and Covered California (13.67%). The Department submitted an IADPU for the HEMI project in August 2024 to request additional funding for FFY 2025 and FFY 2026. Centers for Medicare & Medicaid Services (CMS) approved the FFY 2025-26 annual OAPD on October 17, 2024. The Department added two new HEMI contracts, one for a Web Developer and one for Quality Assurance Testers. Under both projects, approval for enhanced federal funding will remain in effect until September 30, 2026.

Reason for Change:

CalHEERS

The change in FY 2025-26, from the prior estimate, is a slight decrease due to changes in the annual cost allocation between Covered California and the Department. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to the transition of the system integrator vendor and planned resumption of costs associated with the retrieval of Commercial Source of Income (CSI) from the CMS data Service Hub which are necessary to comply with new bi-annual verification requirements under federal law, a support service contract, and the purchase of a financial management tool for the CalHEERS financial management unit.

HEMI

The change in FY 2025-26, from the prior estimate, is an increase due to updated actuals, adjusted projections, and higher Global IT Service and reconciliation costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to completion of the Global IT Service contract.

The overall change in FY 2025-26, from the prior estimate, is an increase due to contract and administrative costs necessary for M&O for the CalHEERS system. The overall change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to CalHEERS adjusted projections.

Methodology:

1. CalHEERS' costs are shared between Covered California and Medi-Cal based on the approved Cost Allocation Plan.
 - Effective FY 2021-22, costs for all Medi-Cal activities that are not eligible for federal reimbursement are identified separately from Title XIX and Title XXI;
 - All costs directly attributable to the Department are the responsibility of the Department;

CALHEERS DEVELOPMENT

- Effective October 1, 2024, the cost share is 13.45% from Covered California and 86.55% from the Department;
 - Effective FY 2023-24, Implementation of Eligibility Functionality for Family PACT Program will follow the reimbursement rates only under Title XIX at 90% and the Department at 100% GF;
 - Effective FY 2024-25, ongoing costs for retrieval of CSI data from the CMS Hub will follow the reimbursement rates only under Title XIX at 75% and 100% from the Department, which is a cost share of 13.45% from Covered California and 86.55% from the Department.
2. Costs incurred are for CalHEERS' DD&I and M&O activities, which have different FFP reimbursement percentages.
- The DD&I portion of costs is eligible for:
 - i. Title XIX at 90% federal reimbursement;
 - ii. Title XXI at 65% federal reimbursement.
 - The M&O portion of costs is eligible for:
 - i. Title XIX at 75% federal reimbursement;
 - ii. Title XXI at 65% federal reimbursement.
3. The estimates are as follows:

FY 2025-26	TF	GF	FF
Title XIX (90% FF / 10% GF)	\$26,341,000	\$2,634,000	\$23,707,000

MATERNAL AND CHILD HEALTH**FISCAL REFERENCE NUMBER:234**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$109,422,000	\$95,644,000
FEDERAL FUNDS	\$109,422,000	\$95,644,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to the California Department of Public Health (CDPH) for the Maternal, Child, and Adolescent Health (MCAH) programs.

Authority:

Interagency Agreement 07-65592
SB 852 (Chapter 25, Statutes of 2014)

Interdependent Policy Changes:

Not Applicable

Background

The MCAH program administers the following services:

- Conducts outreach to pregnant and parenting adolescents who are potentially eligible for Medi-Cal;
- Assists Medi-Cal enrolled members in accessing covered services.
- Recruits providers for Medi-Cal's Comprehensive Perinatal Services Program (CPSP) and provides technical assistance regarding CPSP enhanced services to Medi-Cal members;
- Administers programs that offer prenatal care guidance for a target population, provides case management services, and conducts follow-up to improve access to early obstetrical care services for Medi-Cal enrolled pregnant women;
- Administers programs for preventive and primary care services for children and youth; and
- Administers programs for family-centered, community-based, comprehensive health services to children with special health care needs;
- MCAH State Operations ensures the provision of statutorily required programs by developing systems to protect and improve the health of women of reproductive age, infants, children, adolescents, and their families.

The MCAH program includes the following services:

- Black Infant Health (BIH): Group intervention and case management services to pregnant and parenting African American Medi-Cal eligible women in an effort to reduce the high death rate for African American infants as well as decrease health and social inequities for African-American women and infants. Effective July 1, 2014, SB 852 restored the General Fund for the BIH Program.
- Comprehensive Perinatal Services Program (CPSP) and Prenatal Care Guidance (PCG): Provides a wide range of services to Medi-Cal enrolled pregnant women, from conception through 60 days postpartum, case management services, and conduct follow-

MATERNAL AND CHILD HEALTH

- up to improve access to early obstetrical and post-partum care (60-days following the delivery) for Medi-Cal enrolled pregnant women.
- Adolescent Family Life Program (AFLP): Case management services for Medi-Cal-eligible pregnant adolescents to address the social, health, educational, and economic consequences of adolescent pregnancy by providing comprehensive case management services to pregnant and parenting adolescents and their children. The AFLP emphasizes the promotion of positive youth development, focusing on and building upon the adolescents' strengths and resources to work toward:
 - 1) Improving the health of the pregnant and parenting adolescent;
 - 2) Improving graduation rates;
 - 3) Reducing repeat pregnancies; and
 - 4) Improving linkages and creating networks for pregnant and parenting adolescents.
 - The California Home Visiting Program (CHVP) focuses on young, low-income mothers and provides a wider range of home visiting models based on varying family needs.
 - Perinatal Equity Initiative (PEI): Expands the scope of interventions that close gaps in current programming offered through the BIH program to further improve black infant birth outcomes and reduce infant mortality.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to adjusted projections of anticipated payments. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the projection of anticipated payments.

Methodology:

1. The Department claims Title XIX federal funds with Certified Public Expenditures from local agencies.
2. The estimates are budgeted on a cash basis based on the anticipated payment timing of invoices.
3. The costs for FY 2025-26 are estimated to be \$109,422,000 Federal Funds and \$95,644,000 Federal Funds for FY 2026-27.

Funding:

100% Title XIX FFP (4260-101-0890)

CDDS ADMINISTRATIVE COSTS**FISCAL REFERENCE NUMBER:243**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$143,979,000	\$99,990,000
FEDERAL FUNDS	\$143,979,000	\$99,990,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match for the California Department of Developmental Services (CDDS) administrative costs.

Authority:

Interagency Agreement (IA)

Interdependent Policy Changes:

Not Applicable

Background:

CDDS administrative costs are comprised of Developmental Centers (DC)/State Operated Facility (SOF) Medi-Cal Administration, DC/SOF Medi-Cal Eligibility, Home and Community Based Services (HCBS) Waiver Administration, Regional Centers (RC) Medicaid Administration, Regional Centers Nursing Home Reform (NHR), and Targeted Case Management (TCM).

The General Fund is included in the CDDS budget on an accrual basis and the federal funds in the Department's budget are on a cash basis.

Reason for Change:

The change in FY 2025-26, from the prior estimate, is due to updated expenditure data using recent expenditure trends.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to FY 2025-26 and FY 2026-27 estimates reflecting updated expenditure trend data.

Methodology:

CDDS provides the following cash estimates of its administrative cost components:

CDDS ADMINISTRATIVE COSTS

FY 2025-26		DHCS FFP	CDDS GF	IA #

Interagency Agreement (IA) 24-40002
Budget Act of 2017
SB 184 (Chapter 47, Statutes of 2022)

Interdependent Policy Change:

Not Applicable

Background:

On January 1, 2010, the Department, in collaboration with CDSS, implemented the following requirements of the federal Fostering Connections to Success and Increasing Adoptions Act of 2008:

- Connect and support relative caregivers,
- Improve the outcome for children in foster care,
- Provide for tribal foster care and adoption access,
- Improve incentives for adoption, and
- Require Title IV-B state and county agencies to develop a plan for ongoing oversight and coordination of health care services for children in foster care.

CDSS and the Department implemented the HPCFC through the former Child Health and Disability Prevention (CHDP) Program so counties can employ public health nurses to help foster care children access health-related services including the review and monitoring of foster children under treatment with psychotropic medications.

HPCFC CASE MANAGEMENT

The responsibility for HPCFC was realigned to the counties in 2011 as part of 2011 Public Safety Realignment. Pursuant to Proposition 30, legislation enacted after September 30, 2012, that has an overall effect of increasing the costs already borne by a local agency for programs or levels of service mandated by 2011 Realignment shall apply to local agencies only to the extent that the state provides annual funding for the cost increase. Local agencies are not obligated to provide programs or levels of service required by legislation, above the level for which funding has been provided. Therefore, funding for the remaining non-federal costs for counties is 100% General Funds.

SB 184 authorized the Department to sunset the CHDP Program on June 30, 2024. Effective July 1, 2024, the Department redirected portions of the former CHDP Program county budget allocation to fund the administrative costs of the HPCFC, making HPCFC a standalone program. Remaining portions of the former CHDP Program county budget allocation were redirected to the California Children's Services (CCS) program to fund the new county workload created due to the implementation of CCS Compliance Monitoring and Oversight.

Reason for Change:

There is no change from the prior estimate for FY 2025-26, or from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. CDSS provides the annual Local Revenue Fund of \$13,671,000 for FY 2025-26 and FY 2026-27.

(Dollars in Thousands)

FY 2025-26	TF	GF	FF
Base Allocation	\$32,682	\$8,171	\$24,511
Psychotropic Medication Monitoring and Oversight	\$6,600	\$1,650	\$4,950
Caseload Relief	\$15,400	\$3,850	\$11,550
Total	\$54,682	\$13,671	\$41,011
FY 2026-27	TF	GF	FF
Base Allocation	\$32,682	\$8,171	\$24,511
Psychotropic Medication Monitoring and Oversight	\$6,600	\$1,650	\$4,950
Caseload Relief	\$15,400	\$3,850	\$11,550
Total	\$54,682	\$13,671	\$41,011

*Totals may differ due to rounding.

2. Assume CDSS reimburses the GF to the Department 60 days after the end of each fiscal quarter.

HPCFC CASE MANAGEMENT

(Dollars in Thousands)

Fiscal Year	TF	FF	GF Reimb.	CDSS GF	CF*

Budget Act of 2017
SB 184 (Chapter 47, Statutes of 2022)
SB 108 (Chapter 35, Statutes of 2024)

Interdependent Policy Change:

Not Applicable

Background:

Senate Bill (SB 184) authorized the Department to sunset the Child Health and Disability Prevention (CHDP) Program on June 30, 2024. Effective July 1, 2024, the Department redirected the former CHDP Program budget allocation to fund the administrative costs of the HPCFC and the California Children's Services (CCS) Compliance Monitoring and Oversight Program to support retention of former CHDP Program local positions through the exploration of new partnerships and roles and/or through bolstering existing programs that can leverage the former CHDP Program expertise.

Where the former CHDP Program was the source of funding for HPCFC administrative activities, the HPCFC operates autonomously to cover allowable non-clinical expenses and existing non-clinical local positions. Remaining portions of the former CHDP Program county budget allocation was redirected to the CCS Program to fund new county workload created due to the implementation of CCS Monitoring and Oversight, effective July 1, 2025. Counties received the funds in FY 2024-25 to assist with implementation activities.

SB 108 extended flexibility from FY 2024-25 to FY 2025-26 to the counties regarding appropriate staffing necessary to implement and operationalize the HPCFC Program Manual requirements.

HCPCFC ADMIN COSTS

Reason for Change:

There is no change, for FY 2025-26, from the prior estimate. This is no change, from FY 2025-26 to FY 2026-27, in the current estimate.

Methodology:

1. On July 1, 2024, HCPCFC administrative activities began.
2. The estimate costs are as follows:

Fiscal Years	TF	GF	FF
FY 2025-26	\$23,757,000	\$11,879,000	\$11,878,000
FY 2026-27	\$23,757,000	\$11,879,000	\$11,878,000

 IA 25-50008
 AB 1559 (Chapter 565, Statutes of 2014)
 SB 853 (Chapter 717, Statutes of 2010)

Interdependent Policy Changes:

Not Applicable

Background:

The Department has existing IAs with CDPH to allow for the provision of Title XIX federal funds as reimbursement to CDPH. The non-federal matching funds will be budgeted by CDPH. This policy change is for the following program support costs:

- Office of Acquired Immunodeficiency Syndrome (AIDS)
- Center for Health Care Quality (CHCQ)
- Skilled Nursing Facilities (SNF)

The Office of AIDS operates and administers the Human Immunodeficiency Virus (HIV)/AIDS waiver. The HIV/AIDS waiver program provides services designed to allow people with HIV or AIDS to remain in their homes, stabilize their health, improve their quality of life, and avoid costly institutional care.

The CHCQ program has the responsibility for regulatory oversight of health facilities, certified nurse assistants, home health aides, certified hemodialysis technicians, and licensed nursing home administrators. The CHCQ contract estimate includes reimbursements for the following programs:

- Healthcare Workforce Branch - Registry Unit,
- Nurse Aide Training and Competency Evaluation Program,
- Centralized Application Branch – Provider Certification Unit, and

FFP FOR DEPARTMENT OF PUBLIC HEALTH SUPPORT COSTS

- Intermediate Care Facility for the Developmentally Disabled Continuous Nursing Pilot Project Waiver.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to adjusted projections of anticipated payments. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to projections of anticipated payments.

Methodology:

1. CDPH provides the General Fund match.
2. The following estimates have been provided on a cash basis by CDPH.
3. Cash basis expenditures vary from year to year based on when claims are actually paid.
4. Total costs are estimated to be:

FY 2025-26	TF	FF
FY 2022-23 Claims	\$2,338,000	\$2,338,000
FY 2024-25 Claims	\$4,983,000	\$4,983,000
FY 2025-26 Claims	\$491,000	\$491,000
Total	\$7,812,000	\$7,812,000

FY 2026-27		
FY 2023-24 Claims	\$6,790,000	\$6,790,000
FY 2024-25 Claims	\$4,120,000	\$4,120,000
FY 2025-26 Claims	\$342,000	\$342,000
FY 2026-27 Claims	\$494,000	\$494,000
Total	\$11,746,000	\$11,746,000

Funding:

100% Title XIX FFP (4260-101-0890)

DEPARTMENT OF AGING ADMINISTRATIVE COSTS**FISCAL REFERENCE NUMBER:253**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$7,393,000	\$6,996,000
FEDERAL FUNDS	\$7,393,000	\$6,996,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Title XIX federal financial participation (FFP) provided to the California Department of Aging (CDA) for administrative costs related to services provided to Medi-Cal eligible members in Community-Based Adult Services (CBAS) and Multipurpose Senior Services Program (MSSP).

Authority:

Interagency Agreements:
CBAS 03-76137
MSSP 01-15976
MSSP/CBAS 22-20173

Interdependent Policy Changes:

Not Applicable

Background:

CDA coordinates with the Department to obtain FFP for the administrative costs for services related to Medi-Cal members. CDA budgets the matching General Fund (GF). In addition, CDA implemented the Medicaid EVV in conjunction with the Department and the Office of Systems Integration. The EVV project ended on June 30, 2025. CDA will receive an enhanced matching rate for this project.

Reason for Change:

There is a decrease from the prior estimate for FY 2025-26, and from FY 2025-26 to FY 2026-27 in the current estimate, due to updated expenditure data provided by CDA.

Methodology:

1. Assume EVV costs shift into the Electronic Visit Verification M&O Costs policy change beginning in FY 2025-26.
2. The estimates below were provided by CDA on a cash basis.

DEPARTMENT OF AGING ADMINISTRATIVE COSTS

Program Support	FY 2025-26		FY 2026-27	
CBAS Support	CDA GF	FFP	CDA GF	FFP
FY 2024-25 DOS	\$977,000	\$1,153,000	\$0	\$0
FY 2025-26 DOS	\$3,963,000	\$3,328,000	\$1,216,000	\$387,000
FY 2026-27 DOS	\$0	\$0	\$3,452,000	\$3,839,000
Total CBAS	\$4,940,000	\$4,481,000	\$4,668,000	\$4,226,000
MSSP Support

FEDERAL FUNDING FOR HEALTH CARE PAYMENTS DATA PROG**FISCAL REFERENCE NUMBER:2244**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,052,000	\$7,872,000
FEDERAL FUNDS	\$8,052,000	\$7,872,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal reimbursement process between the Department and the Department of Health Care Access and Information (HCAI) for the Health Care Payments Data Program (HPD).

Authority:

Health & Safety Code 127671-12674
Interagency Agreement (IA) # 20-10306 A1

Interdependent Policy Changes:

Not Applicable

Background:

The HPD creates a process to collect health care data in a standardized format in one statewide system and provides greater transparency regarding health care costs, quality, and equity. The system is managed by HCAI and includes data for all Medi-Cal members. The information can be used to inform policy decisions regarding the provision of quality health care, reduce disparities, and reduce health care costs while preserving consumer privacy.

This policy change provides the Department the appropriate mechanism to transfer the federal portion of the HPD system costs to HCAI. HCAI is providing the state share.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a slight decrease due to the conclusion of a contract. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to the conclusion of a contract in the previous fiscal year.

Methodology:

- Costs are estimated at \$8,052,000 for FY 2025-26 and \$7,872,000 for FY 2026-27.

Fiscal Years	TF	GF	FF
FY 2025-26	\$8,052,000	\$0	\$8,052,000
FY 2026-27	\$7,872,000	\$0	\$7,872,000

Funding:

100% Title XIX FF (4260-101-0890)
100% Title XXI FF (4260-101-0890)

CLPP CASE MANAGEMENT SERVICES**FISCAL REFERENCE NUMBER:239**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$8,157,000	\$6,779,000
FEDERAL FUNDS	\$8,157,000	\$6,779,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to the California Department of Public Health (CDPH) for administrative costs associated with Childhood Lead Poisoning Prevention (CLPP) Program case management services.

Authority:

Interagency Agreement 07-65689

Interdependent Policy Changes:

Not Applicable

Background:

The CLPP Program provides services to the community for the purpose of increasing awareness regarding the hazards of lead exposure, reducing lead exposure, and increasing the number of children assessed and appropriately blood tested for lead poisoning as defined by the Medi-Cal State Plan and CDPH. Specifically, the program services include the following:

- Offers home visitation, environmental home inspections, and nutritional assessments to families of children found to be severely lead-poisoned.
- Provides telephone contacts and educational materials to families of lead-poisoned and lead-exposed children.
- Provides information and education to the general public, medical providers, and community-based organizations.
- Provides targeted case management and environmental investigation services with associated administrative activities to lead-burdened children who are Medi-Cal members and meet the case definition of lead poisoning.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is an increase due to delayed FY 2024-25 payments, updated actuals, and adjusted projections of anticipated payments. The change from FY 2025-26 to FY 2026-27, in the current estimate, is a decrease due to no delayed FY 2024-25 payments and the projection of anticipated payments.

Methodology:

1. Cash basis expenditures vary from year to year based on when claims are actually paid.
2. The estimates are provided by CDPH on a cash basis.

CLPP CASE MANAGEMENT SERVICES

3. The costs for FY 2025-26 are estimated to be \$8,157,000 and \$6,779,000 for FY 2026-27.

Funding:

100% Title XIX FFP (4260-101-0890)

CALIFORNIA SMOKERS' HELPLINE**FISCAL REFERENCE NUMBER:1680**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$2,390,000	\$3,063,000
FEDERAL FUNDS	\$2,390,000	\$3,063,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal financial participation (FFP) provided to the California Department of Public Health (CDPH) for administrative costs related to California Smoker's Helpline (Helpline) services provided to Medi-Cal members.

Authority:

Affordable Care Act Section 4107
Interagency Agreement (IA) 13-90417

Interdependent Policy Change:

Not Applicable

Background:

CDPH funds statewide smoker helpline services and counseling to Medi-Cal members through the University of California, San Diego. The Helpline services follow the Centers for Medicare and Medicaid Services guidelines and the Department policies for providing services to Medi-Cal members. CDPH ensures the Helpline services include specially trained counselors to provide free telephone-based counseling, education, and support to Medi-Cal members who currently smoke or have recently quit smoking.

The Department has an existing IA with CDPH to enable the State to receive 50% FFP for Helpline services administrative costs beginning July 1, 2013.

Reason for Change:

The change from the prior estimate, for FY 2025-26, is a decrease due to updated actuals and adjusted projections of anticipated payments. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to projections of anticipated payments.

Methodology:

1. The Helpline services administrative costs are based on expenditure data for services provided to Medi-Cal members. CDPH submits invoices for 50% reimbursement of actual and allowable administrative costs.
2. The estimates are budgeted on a cash basis based on the anticipated payment timing of invoices.
3. The estimated administrative cost reimbursements, for FY 2025-26 and FY 2026-27, on a cash basis are:

CALIFORNIA SMOKERS' HELPLINE

CALHHS AGENCY HIPAA FUNDING**FISCAL REFERENCE NUMBER:257**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,749,000	\$1,908,000
FEDERAL FUNDS	\$874,500	\$954,000
GENERAL FUND	\$874,500	\$954,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates and reimburses the California Health and Human Services (CalHHS) Agency the total funds for qualifying Health Insurance Portability and Accountability Act (HIPAA) activities related to Medi-Cal.

Authority:

Interagency Agreement (IA) 23-30066 A1

Interdependent Policy Changes:

Not Applicable

Background:

The Policy and Governance group has been established at the Center for Data Insights and Innovation (formerly Office of Health Information Integrity), within the CalHHS Agency, to coordinate HIPAA implementation and set policy requirements for state departments impacted by HIPAA that utilize Title XIX funding. This funding supports state Agency positions and contracted staff to assist in the implementation of HIPAA. These staff provide oversight and subject matter expertise on HIPAA rules.

A three-year IA beginning July 1, 2023, has been executed and payments started in August 2023. An amendment to IA 23-30066 to add \$500,000 to FY 2025-26 for increased HIPAA Compliance Project Management team contract costs was executed on February 27, 2025.

Reason for Change:

The change for FY 2025-26, from the prior estimate, is a decrease due to updated subcontractor costs. The change from FY 2025-26 to FY 2026-27, in the current estimate, is an increase due to a full year of the subcontractor cost.

Methodology:

The CalHHS Agency prioritizes HIPAA projects so that the most critical projects are implemented first.

Cash Basis	Total Funds	DHCS FF	DHCS GF
FY 2025-26	\$1,749,000	\$874,500	\$874,500

50% HIPAA FF/ 50% HIPAA GF (4260-117-0890/0001)

MEDI-CAL INPATIENT SERVICES FOR INMATES**FISCAL REFERENCE NUMBER:1665**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,144,000	\$1,189,000
FEDERAL FUNDS	\$1,144,000	\$1,189,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to the California Department of Corrections and Rehabilitation (CDCR)/California Correctional Health Care Services (CCHCS) for administrative costs related to the Inmate Eligibility Program.

Authority:

AB 1628 (Chapter 729, Statutes of 2010)
 SB 1399 (Chapter 405, Statutes of 2010)
 AB 396 (Chapter 394, Statutes of 2011)
 AB 80 (Chapter 12, Statutes of 2020)
 SB 184 (Chapter 47, Statutes of 2022)
 Interagency Agreement #25-50004

Interdependent Policy Changes:

Not Applicable

Background:

AB 1628 (Chapter 729, Statutes of 2010) authorizes the Department and the CDCR/CCHCS to:

- Claim federal reimbursement for inpatient hospital services to Medi-Cal eligible adult inmates in State correctional facilities when these services are provided off the grounds of the facility. As part of these provisions, the CCHCS is claiming federal financial participation (FFP) for their administrative costs to operate the Inmate Eligibility Program. The federal funds provided to the CCHCS are included in the Medi-Cal inpatient hospital costs policy changes.

SB 1399 (Chapter 405, Statutes of 2010) authorizes the Board of Parole Hearings to:

- Grant medical parole to permanently medically incapacitated State inmates. State inmates granted medical parole are potentially eligible for Medi-Cal. When a State inmate is granted medical parole, the CCHCS submits a Medi-Cal application to the Department to determine eligibility. Previously these services were funded through the CDCR with 100% GF.

AB 396 (Chapter 394, Statutes of 2011) authorizes the Department, counties, and the CDCR to:

- Claim FFP for inpatient hospital services provided to Medi-Cal eligible juvenile inmates in State and county correctional facilities when these services are provided off the grounds of the facility. Previously, these services were paid 100 percent by the CDCR or the county. The County Administration Allocation Policy Change covers the county FFP associated with Medi-Cal eligibility determination activities for county inmates.

MEDI-CAL INPATIENT SERVICES FOR INMATES

AB 80 (Chapter 12, Statutes of 2020) conforms the suspension of benefits for juveniles, as defined under state law, with the existing federal law, the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act (SUPPORT Act). The definition of juvenile has changed (both State and County) to include individuals under the age of 21 or individuals enrolled in the former foster youth group under the age of 26. "Eligible Juveniles," as defined by the SUPPORT Act, only impacts Medi-Cal suspension of benefits policies and does not impact eligibility age restrictions or age requirements for general Medi-Cal programs.

SB 184 (Chapter 47, Statutes of 2022) requires County Welfare Departments to suspend Medi-Cal benefits for all inmates of a public institution for the duration of their incarceration. State law requires the suspension of Medi-Cal benefits for any individual, regardless of age, who is a Medi-Cal beneficiary at the time of their incarceration. This amendment allows counties to activate suspended Medi-Cal benefits upon release from the public institution without requiring a new application, as long as they remain otherwise eligible for Medi-Cal throughout their incarceration.

Reason for Change:

There is a decrease from the prior estimate for FY 2025-26, and an increase in the current estimate from FY 2025-26 to FY 2026-27, due to updated contract costs in FY 2025-26 and a slight increase in contract costs in FY 2026-27.

Methodology:

1. Implementation of the Inmate Eligibility Program began April 1, 2011.
2. Effective FY 2025-26, administrative costs are in accordance with Interagency Agreement #25-50004.
3. Reimbursements for administrative costs began in March 2011.
4. The federal share of ongoing administrative costs is **\$1,144,000** in **FY 2025-26** and **\$1,189,000** in **FY 2026-27**.

Funding:

100% Title XIX FF (4260-101-0890)

VETERANS BENEFITS**FISCAL REFERENCE NUMBER:232**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$1,100,000	\$1,100,000
FEDERAL FUNDS	\$1,100,000	\$1,100,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the Title XIX federal funding provided to the California Department of Veterans Affairs (CDVA) for distribution to County Veteran Service Officers (CVSO) for identifying veterans eligible for Veterans Affairs (VA) benefits.

Authority:

AB 1807 (Chapter 1424, Statutes of 1987)
California Military & Veterans Code 972.5
Interagency Agreement (IA) #20-10053 A1

Interdependent Policy Changes:

Not Applicable

Background:

AB 1807 permits the Department to make available federal Medicaid funds in order to obtain additional VA benefits for Medi-Cal members, thereby reducing costs to Medi-Cal. An IA exists with the CDVA. CVSOs help identify additional VA benefits and refer the veteran to utilize those services instead of Medi-Cal. This process avoids costs for the Medi-Cal program. The previous IA expired on June 30, 2020, and was renewed effective July 1, 2020, as an evergreen contract.

Reason for Change:

There is no change from the prior estimate for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. The contract amount is estimated to be \$1,100,000 for FY 2025-26 and FY 2026-27. The non-federal match is budgeted by CDVA.

FY	FY 2025-26			FY 2026-27		
Cash Basis	TF	CDVA GF	DHCS FF	TF	CDVA GF	DHCS FF
Administrative	\$724,000	\$362,000	\$362,000	\$724,000	\$362,000	\$362,000

VITAL RECORDS

FISCAL REFERENCE NUMBER:1774

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$883,000	\$883,000
FEDERAL FUNDS	\$879,000	\$879,000
GENERAL FUND	\$4,000	\$4,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the expenditures related to improving delivery of Vital Records data and to provide certified copies of birth and death records, as needed, to the Department.

Authority:

Contract 15-92272

Contract 25-50021

Interdependent Policy Changes:

Not Applicable

Background:

California birth, death, fetal death, still birth, marriage, and divorce records are maintained by the CDPH Vital Records. Information collected in these records is necessary to support core functions of the Department as represented in the Medicaid Information Technology Architecture (MITA) business functions. The MITA, a Centers for Medicare and Medicaid Services (CMS) initiative, fosters an integrated business and information technology transformation across the Medicaid enterprise in an effort to improve the administration and operation of the Medicaid program.

Historically, the Department has received Vital Records data from CDPH in a case-by-case and manual manner. In order to improve efficiency and advance MITA maturity, the Department has received CMS approval for enhanced FFP to establish automated and timely processes to receive Vital Record data from CDPH. CMS approved the contract in June 2016.

Beginning July 2018, the Department entered into a contract with CDPH to provide certified copies of vital records as required for business needs.

Reason for Change:

There is no change from the previous estimate for FY 2025-26. There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. On a cash basis, the estimated cost to deliver records data is \$1,167,000 TF in FY 2025-26 and \$1,167,000 TF in FY 2026-27. The Department receives 75% FFP for ongoing costs to obtain vital records data, with the 25% state share provided by the CDPH Health Statistics Special Fund (HSSF).
2. On a cash basis, the annual contract to provide certified copies is \$8,000 TF (\$4,000 GF).

VITAL RECORDS

3. On a cash basis, for both contracts, assume three quarters will be paid in the current fiscal year and the remaining quarter will be paid in the subsequent fiscal year. The estimated reimbursements for FY 2025-26 and FY 2026-27 on a cash basis are:

KIT FOR NEW PARENTS**FISCAL REFERENCE NUMBER:249**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$509,000	\$290,000
FEDERAL FUNDS	\$509,000	\$290,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the federal match provided to the California Children and Families Commission (CCFC) for providing the "Kit for New Parents" to parents of Medi-Cal eligible newborns.

Authority:

Interagency Agreement (IA) #23-30146

Interdependent Policy Changes:

Not Applicable

Background:

The Department entered into an IA with the CCFC to allow the Department to claim Title XIX federal funds (FF) for the "Kit for New Parents" distributed to parents of Medi-Cal eligible newborns by the CCFC (Proposition 10).

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

The change from FY 2025-26 to FY 2026-27, in the current estimate, is due to a decrease in the quantity of existing stock to be distributed.

Methodology:

1. The annual number of kits estimated at full ramp up is 150,000.
2. An estimated 150,000 kits are estimated to be distributed in FY 2025-26. An estimated 85,354 kits are estimated to be distributed in FY 2026-27. Of these kits, 43.38% are expected to be distributed to Medi-Cal eligible newborns.
3. Each kit, basic or custom, costs \$15.63.
4. In prior years, CCFC invoiced DHCS on a yearly basis. In FY 2022-23, CCFC started invoicing on a quarterly basis.

KIT FOR NEW PARENTS

5. The Department will pay for the estimated cost of kits distributed to parents of Medi-Cal eligible newborns, shown in the table below.

	Annual Number of Kits	Medi-Cal	Total Medi-Cal Kits	Cost per kit	Total Cost (Accrual)
FY 2025-26	150,000	43.38%	65,070	\$15.63	\$1,017,000
FY 2026-27	85,354	43.38%	37,027	\$15.63	\$579,000

6. Assume the Department will pay \$509,000 TF in FY 2025-26 and \$290,000 TF in FY 2026-27 for kits to new parents of Medi-Cal eligible newborns.

FY 2025-26	TF
FY 2025-26	\$1,017,000
FFP Total (50%)	\$509,000

FY 2026-27	TF
FY 2026-27	\$579,000
FFP Total (50%)	\$290,000

Fiscal Year	TF	FF
FY 2025-26	\$509,000	\$509,000
FY 2026-27	\$290,000	\$290,000

Funding:

100% Title XIX FF (4260-101-0890)

MERIT SYSTEM SERVICES FOR COUNTIES**FISCAL REFERENCE NUMBER:263**

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$202,000	\$211,000
FEDERAL FUNDS	\$101,000	\$105,500
GENERAL FUND	\$101,000	\$105,500
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the cost for the interagency agreement (IA) with the California Department of Human Resources (CalHR).

Authority:

IA #12-89476

Interdependent Policy Changes:

Not Applicable

Background:

Federal regulations require that any government agency receiving federal funds have a civil service exam, classification, and pay process. Many counties do not have a civil service system that meets current state regulations. The Merit System Services Program was established under the State Personnel Board and is now administered by CalHR to administer personnel services for the counties that do not have a civil service system. In addition, CalHR reviews the merit systems in the remaining counties to ensure that they meet federal civil service requirements.

The Department reimburses CalHR via an IA for Merit System Services. The agreement continues indefinitely, until terminated, or until there is a change in scope of work affecting the cost.

Reason for Change:

The change from the prior estimate for FY 2025-26, and the change from FY 2025-26 to FY 2026-27 in the current estimate, is an increase due to an updated contract.

Methodology:

1. CalHR provided the estimates on a cash basis.
2. The estimated reimbursement is \$202,000 TF (\$101,000 GF) in FY 2025-26 and \$211,000 TF (\$105,000 GF) in FY 2026-27.

Funding:

50% Title XIX / 50% GF (4260-101-0890/0001)

PIA EYEWEAR COURIER SERVICE

FISCAL REFERENCE NUMBER:1114

	<u>FY 2025-26</u>	<u>FY 2026-27</u>
TOTAL IMPACT		
TOTAL FUNDS	\$944,000	\$944,000
FEDERAL FUNDS	\$472,000	\$472,000
GENERAL FUND	\$472,000	\$472,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates courier services costs for Prison Industry Authority (PIA) eyewear.

Authority:

Interagency Agreement (IA) #23-30067

Interdependent Policy Changes:

Not Applicable

Background:

The California PIA fabricates eyeglasses for Medi-Cal members. Since July 2003, the Department has had an IA with PIA to reimburse them for one-half of the courier costs for the pick-up and delivery of orders to optical providers. The two-way courier service ensures members have continued access with no disruption to optical services. SB 78 (Chapter 38, Statutes of 2019) restored optician and optical lab services, including providing eyeglasses, to eligible individuals 21 years of age and older beginning January 1, 2020.

Reason for Change:

There is no change in FY 2025-26 from the prior estimate.

There is no change from FY 2025-26 to FY 2026-27 in the current estimate.

Methodology:

1. PIA contracts with a courier service company for the pick-up and delivery of orders to optical providers. The Department is responsible for one-half of the delivery cost per package, with no fuel surcharge. There is a one-quarter lag between services provided and payment of the invoice. Four quarterly invoices are estimated to be paid in each fiscal year.
2. The PIA courier contract delivery cost of \$2.95 per package is effective from September 1, 2022 through June 30, 2026.
3. The program contract is expected to be extended for two years through June 30, 2028.

PIA EYEWEAR COURIER SERVICE

4. The costs for the estimated packages in FY 2025-26 and FY 2026-27 are assumed below:

Fiscal Year	Total Packages	Cost per Package	TF	GF	FF
FY 2025-26	320,000	\$2.95	\$944,000	\$472,000	\$472,000
FY 2026-27	320,000	\$2.95	\$944,000	\$472,000	\$472,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

EPTP - STATEWIDE LEARNING COLLABORATIVE**FISCAL REFERENCE NUMBER:2562**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$6,900,000	\$2,900,000
FEDERAL FUNDS	\$3,450,000	\$1,450,000
GENERAL FUND	\$3,450,000	\$1,450,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs of the Equity & Practice Transformation Payments – Statewide Learning Collaborative.

Authority:

Budget Act of 2022 – AB 179 (Chapter 249, Statutes of 2022)

Interdependent Policy Changes:

N/A

Background:

The Department administers the Equity and Practice Transformation (EPT) Payments Program, which supports qualifying primary care providers (primary care pediatrics, family medicine, internal medicine, primary care obstetrician/gynecologists, or behavioral health providers of integrated behavioral health services in a primary care setting to Medi-Cal members). The program has a Population Health Learning Center to provide the learning collaborative and serve as the program office to do the following: advance equity; address gaps in preventive, childhood, birth-related, and behavioral health care measures; reduce COVID-19 driven care disparities; support upstream interventions to address social drivers of health; improve primary care infrastructure; and prepare practices to accept risk-based contracts and move towards value-based care payment methodologies. Such actions align with the goals of the Medi-Cal Comprehensive Quality and Equity Strategy and the Bold Goals 50x2025 initiative. Practices are paid based on improvement in relevant clinical quality measures.

The Statewide Learning Collaborative was previously a part of the Equity & Practice Transformation Payments policy change. This item has been moved into its own policy change as per CMS guidance.

Reason for Change:

This is a new policy change.

Methodology:

1. The estimated costs in FY 2025-26 are as follows:

FY 2025-26	TF	GF	FF
Statewide Learning Collaborative	\$6,900,000	\$3,450,000	\$3,450,000
Total FY 2025-26	\$6,900,000	\$3,450,000	\$3,450,000

EPTP - STATEWIDE LEARNING COLLABORATIVE

2. The estimated costs in FY 2026-27 are as follows:

FY 2026-27	TF	GF	FF
Statewide Learning Collaborative	\$2,900,000	\$1,450,000	\$1,450,000
Total FY 2026-27	\$2,900,000	\$1,450,000	\$1,450,000

Funding:

50% Title XIX / 50% GF (4260-101-0001/0890)

STATE ONLY CLAIMING ADJUSTMENTS - ADMIN.**FISCAL REFERENCE NUMBER:2559**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$0
FEDERAL FUNDS	-\$600,000,000	-\$600,000,000
GENERAL FUND	\$600,000,000	\$600,000,000
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the costs related to correctly accounting for state-only local assistance administrative expenditures related to members with unsatisfactory immigration status (UIS).

Authority:

Not Applicable

Interdependent Policy Changes:

Not Applicable

Background:

The Department has initiated a comprehensive review of its methodologies and systems for allocating and claiming Medicaid administrative costs related to state-only funded services. California provides state-only full-scope Medi-Cal services to certain immigrant populations who meet all Medi-Cal eligibility requirements except for their citizenship status. For these covered populations, FFP is only available for emergency and pregnancy-related services. Non-emergency and non-pregnancy related services are paid using state-only funds. When federal funds are incorrectly claimed for these populations, such funding must be returned to CMS.

The Department has implemented an interim downward adjustment to its administrative claiming methodology beginning with the administrative claim for the quarter ended March 31, 2025. Specifically, a portion of administrative costs that have previously been funded with federal funds and state funds, will now be funded 100% General Fund.

Reason for Change:

This is a new policy change.

Methodology:

1. The Department will prospectively reduce administrative claims to CMS based on a rough estimate of expenditures that should be state-only, while examining administrative claim methodologies in greater detail to refine the amount of expenditure that should be funded as state-only. The roughly estimated annual impact of these prospective adjustments is \$600 million.

STATE ONLY CLAIMING ADJUSTMENTS - ADMIN.

2. The FY 2025-26 and FY 2026-27 prospective adjustments are estimated to be:

(Dollars in Thousands)

Fiscal Year	TF	GF	FF
FY 2025-26	\$0	\$600,000	(\$600,000)
FY 2026-27	\$0	\$600,000	(\$600,000)

Funding:

100% GF (4260-101-0001)

TRANSFORMING MATERNAL HEALTH PROVIDER INFR PYMT**FISCAL REFERENCE NUMBER:2552**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$3,500,000
FEDERAL FUNDS	\$0	\$3,500,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates federal funding provided for Transforming Maternal Health Provider Infrastructure Payments to participating providers within a five-county region in California's Central Valley.

Authority:

Budget Act of 2026

Interdependent Policy Changes:

Not Applicable

Background:

The Transforming Maternal Health (TMaH) is a ten-year Medicaid and Children's Health Insurance Program delivery and payment model designed to improve maternal health outcomes, reduce costs, and address serious gaps in health care. TMaH is funded and implemented through a cooperative agreement with the Centers for Medicare and Medicaid Services (CMS). This policy change budgets the use of the allocated funding for provider infrastructure payments as specified in the federal cooperative agreement. Additionally, these payments address one of the key pillars of the TMaH model by assisting providers in building the infrastructure needed to participate in a value-based payment model.

Reason for Change:

This is a new policy change.

Methodology:

1. The total costs for TMaH Infrastructure Payments are 100% federally funded and estimated to be \$3,500,000 FF in FY 2026-27.

Funding:

100% Title XIX FF (4260-101-0890)

HR 1 - PROHIBITED ENTITIES SYSTEMS COSTS**FISCAL REFERENCE NUMBER:2564**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$722,000	\$0
FEDERAL FUNDS	\$0	\$0
GENERAL FUND	\$722,000	\$0
OTHER FUNDS	\$0	\$0

Purpose:

This policy change estimates the system costs to implement H.R. 1, Section 71113 (2025), which prohibits federal financial participation (FFP) for providers that meet the definition of a "prohibited entity."

Authority:

H.R. 1, 119th Cong., Section 71113 (2025)

Interdependent Policy Changes:

Not Applicable

Background:

H.R. 1, Section 71113 (2025), enacted on July 4, 2025, prohibits FFP for providers that meets the definition of a "prohibited entity." System changes are anticipated in FY 2025-26 to implement this requirement.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume the system costs to implement the changes, for FY 2025-26, are:

FY 2025-26	TF	GF
System Costs – H.R. 1 – Prohibited Entities	\$722,000	\$722,000
Total	\$722,000	\$722,000

Funding:

FI 100% GF (4260-101-0001)

HR 1 - HEALTH ENROLLMENT NAVIGATORS**FISCAL REFERENCE NUMBER:2567**

	FY 2025-26	FY 2026-27
TOTAL IMPACT		
TOTAL FUNDS	\$0	\$4,000,000
FEDERAL FUNDS	\$0	\$2,000,000
GENERAL FUND	\$0	\$0
OTHER FUNDS	\$0	\$2,000,000

Purpose:

This policy change estimates the funding for providing appropriate health navigation to Community Health Centers (CHCs) and Regional Clinic Associations (RCAs) due to House Resolution 1 (H.R. 1) to ensure Medi-Cal eligible individuals enroll or retain coverage.

Authority:

Budget Act of 2026

Interdependent Policy Changes:

Not Applicable

Background:

CHCs and RCAs reach out to marginalized populations and help eligible individuals apply and successfully complete the health coverage enrollment process, retain coverage, navigate the health care system, and gain timely access to medical care through community-based care management.

This funding for outreach, enrollment, retention, and community-based assistance with utilization and care management will help Medi-Cal eligible individuals enroll or maintain enrollment in health care coverage and have access to the care they need as H.R. 1 implements.

Reason for Change:

This is a new policy change.

Methodology:

1. Assume this policy implements in FY 2026-27.

INTRODUCTION

The Medi-Cal Benefit Estimate can be segregated into three main components: (1) the Fee-for-Service (FFS) base expenditures, (2) the base policy changes, and (3) regular policy changes. The FFS base estimate is the anticipated level of FFS program expenditures assuming that there will be no changes in program direction and is derived from a 32-month historical trend analysis of actual expenditure patterns. The base policy changes anticipate the Managed Care, Medicare Payments, and non-FFS Medi-Cal program base expenditures. The regular policy changes are the estimated fiscal impacts of any program changes which are either anticipated to occur at some point in the future or have occurred so recently that they are not yet fully reflected in the base expenditures. The combination of these three estimate components produces the final Medi-Cal Benefit Estimate.

FEE-FOR-SERVICE BASE ESTIMATES

The FFS base expenditure projections for the Medi-Cal estimate are developed using regression equations based upon the most recent 32 months of actual data. Independent regressions are run on user, units/user and dollars/unit for each of 48 6 aid categories within 11 different service categories. The general functional form of the regression equations is as follows:

$$\begin{aligned}\text{USERS} &= f(\text{TND}, \text{S.QV}, \text{O.QV}, \text{Eligibles}) \\ \text{CLAIMS/USER} &= f(\text{TND}, \text{S.QV}, \text{O.QV}) \\ \text{\$/CLAIM} &= f(\text{TND}, \text{S.QV}, \text{O.QV})\end{aligned}$$

WHERE:	USERS	= Monthly Unduplicated users by service and aid category.
	CLAIMS/USER	= Total monthly claims or units divided by total monthly unduplicated users by service and aid category.
	\\$/CLAIM	= Total monthly dollars divided by total monthly claims or units by service and aid category.
	TND	= Linear trend variable.
	S.QV	= Seasonally adjusting qualitative variable.
	O.QV	= Other qualitative variable (as appropriate) to reflect exogenous shifts in the expenditure function (e.g. rate increases, price indices, etc.)
	Eligibles	= Actual and projected monthly eligibles for each respective aid category incorporating various lag calculations for aid category within the service category.

Following the estimation of coefficients for these variables during the period of historical data, the independent variables are extended into the projection period and multiplied by the appropriate coefficients. The monthly values for users, units/user and dollars/unit are then multiplied together to arrive at the monthly dollar estimates and summed to annual totals by service and aid category.

FEE-FOR-SERVICE SERVICE CATEGORIES

Medi-Cal categorizes providers into Provider Types. For estimating purposes, the Medi-Cal Estimate groups these provider types into 11 Service Categories. This information is provided below.

Note: The Fee-For-Service delivery system includes the cost of care for those eligibles in the FFS delivery system, it also includes costs for items excluded in the Managed Care delivery model capitation.

Physicians

- Physicians
- Physician Group

Other Medical

• Audiologist	• Free Clinic
• Certified Nurse Midwife	• Community Clinic
• Chiropractor	• Chronic Dialysis Clinic
• Certified Pediatric/Family Nurse Practitioner	• Multispecialty Clinic
• Clinical Laboratory	• Surgical Clinic
• Group Pediatric/Family Nurse Practitioner	• Exempt From Licensure Clinic
• Nurse Anesthetist	• Rehabilitation Clinics
• Occupational Therapist	• County Clinic Not Associate With A Hospital
• Optometrist	• Birthing Centers-Primary Care Clinic
• Optometric Group	• Clinic-Otherwise Undesignated
• Physical Therapist	• Outpatient Heroin Detox Center
• Podiatrist	• Alternative Birthing Center
• Psychologist	• Respiratory Care Practitioner
• Certified Acupuncturist	• Health Access Program (Formerly Family PACT)
• Rural Health Clinic & FQHC	• Group Respiratory Care Practitioner
• Employer/Employee Clinic	• Indian Health Services (MOU)
• Speech Therapist	• Licensed Midwife

County and Community Outpatient

- County Hospital Outpatient
- Community Hospital Outpatient

Pharmacy

- Pharmacies or Pharmacists

County Inpatient

- County Hospital Inpatient
- Consists of Designated Public Hospitals. The Designated Public Hospitals are paid based on an interim per diem rate utilizing Certified Public Expenditures. DPH payments are 100% federal funds and the DPH pays the State's match. More information is available at the Department's website (www.dhcs.ca.gov).

Community Inpatient

- Community Hospital Inpatient
- Consists of Non-Designated Public Hospitals, Private Hospitals, and some Designated Public Hospitals. The Non-Designated Public Hospitals and Private Hospitals are paid using a Diagnosis Related Group payment methodology. The Designated Public Hospitals are paid based on an interim per diem rate utilizing Certified Public Expenditures. DPH payments are 100% federal funds and the DPH pays the State's match. More information is available at the Department's website (www.dhcs.ca.gov).

Nursing Facilities

• Long Term Care Nursing Facility • Long Term Care Intermediate Care Facility (NF-A) • Pediatric Subacute Care – Long Term Care • These three provider types include Nursing Facility - Level A (NF-A), Nursing Facility – Level B (NF-B),	Distinct Part Skilled Nursing Facilities of General Acute Care Hospitals (DP/NF-Bs), Distinct Part Adult Subacute Units for General Acute Care Hospitals (DP/SA), Rural Swing Beds, Institution for Mental Diseases, Acute and Transitional Inpatient Care Administrative Days (Administrative Days Level 1)

ICF-DD

- Long Term Care Intermediate Care Facility/Developmentally Disabled

Medical Transportation

- Ground Medical Transportation
- Air Ambulance Transportation

Other Services

Community Based Adult Services (CBAS)
- Assistive Device & Sick Room Supply Dealers
- Blood Banks
- Fabricating Optical Laboratory
- Optometric Supplies
- Hearing Aid Dispensers
- Home Health Agency -Home & Comm. Based Services
- Optometric Supplies (from Dispensing Opticians, Optometrists, Optometric Group)
- Orthotists
- Portable X-Ray
- Prosthetists
- Genetic Disease Testing
- Medicare Crossover Provider Only
- Certified Hospice Service
- Local Education Agency
- EPSDT Supplemental Services Provider
- HCBS Congregate Living Health Facility
- HCBS Personal Care Agency
- RVN Individual Nurse Provider
- HCBS Professional Corporation
- AIDS Waiver Provider
- Multipurpose Senior Services Program
- CCS/GHPP Non-Institutional
- Independent Diagnostic Center (Medicare Crossover Provider Only)
- ALWPP Residential Care Facility for the Elderly
- ALWPP Care Coordinator
- HCBS Private Non-Profit Proprietary Agency
- Clinical Nurse Specialist (Medicare Crossover Provider Only)

Home Health

- Home Health Agency (except Home & Community Based Services)

CHANGES TO ESTIMATE

Aid Categories Regrouping and Other Changes to Estimate:

Starting in November 2025, several changes were made to the Estimate:

- Aid categories used for estimating enrollment and expenditures were reduced from 18 to six to better align with categories used for managed care rate setting. Below is a crosswalk between the old and new aid categories.

<u>New Aid Category</u>	<u>Old Aid Category</u>
<u>Title 19 Children (0 to 20 years)</u>	<u>PA-AFDC, MN-AFDC, MI-C, POV 185, POV 133</u>
<u>Title 19 Adults (21 years and older)</u>	<u>PA-AFDC, H-PE, MN-AFDC, MI-C, MI-A, POV 185</u>
<u>Title 21</u>	<u>POV 250, POV 100</u>
<u>ACA Expansion</u>	<u>Newly</u>
<u>Seniors and Persons with Disabilities (SPDs)</u>	<u>PA-OAS, PA-ATD, MN-OAS, MN-ATD</u>
<u>Long Term Care (LTC) Aid Codes</u>	<u>LT-OAS, LT-ATD, MI-A</u>

- County Administration and Other Administration were consolidated into one category, Administration.
- The policy changes for the eleven Fee-For-Service Base (FFS Base) categories (Physicians to Home Health) now include the federal financial participation (FFP) for certain populations. This includes ACA expansion population at 90% FFP, Children's Health Insurance Program (CHIP) at 65% FFP, Designated Public Hospitals (DPHs) at 100% FFP and non-emergency services for individuals without satisfactory immigration status at 100% General Fund. Previously, the FFS Base was budgeted at the 50% FFP and technical adjustments were built into the Estimate through policy changes.

AFFORDABLE CARE ACT

Effective January 1, 2014, the Affordable Care Act (ACA) established a new income eligibility standard for Medi-Cal based upon a Modified Adjusted Gross Income (MAGI) of 133% of the federal poverty level (FPL) for pregnant women, children up to age 19, and parent/caretaker relatives. In addition, the former practice of using various income disregards to adjust family income was replaced with a single 5% income disregard. The ACA simplified the enrollment process and eliminated the asset test for MAGI eligible. Existing income eligibility rules for aged, blind, and disabled persons did not change.

The ACA allows current members of Medi-Cal to continue to enroll in the program and granted the option for states to expand eligibility under MAGI standards to a new group of individuals: primarily adults, age 19-64, without a disability and who do not have minor children.

The ACA also imposed a tax upon those without health coverage, which will likely encourage many individuals who are currently eligible, but not enrolled in Medi-Cal to enroll in the program. Since January 2014, the Department has experienced significant growth in Medi-Cal enrollment as result of the ACA. The tax upon those without health coverage ceased to be effective, January 1, 2019. Effective January 1, 2020, California established an equivalent penalty on individuals without health coverage.

For those newly eligible adults in the expansion group, the ACA provides California with enhanced Federal Financial Participation (FFP) at the following rates:

- 100% FFP from calendar years 2014 to 2016,
- 95% FFP in 2017,
- 94% FFP in 2018,
- 93% FFP in 2019,
- 90% FFP in 2020 and beyond.

For those who are currently eligible, but not enrolled in Medi-Cal, enhanced FFP will not be available.

Beginning in October 2015, the ACA increased the Children's Health Insurance Program (CHIP) Federal Medical Assistance Percentage provided to California by 23 percent, to 88 percent FFP, up from 65 percent. This increase has now phased out and the state once again receives 65 percent FFP for CHIP, effective October 2020.

In response to the federal ACA mandate and State legislative direction, the Department chose the Health and Human Services Secretary-approved plan option, which allows the Department to seek approval for the same full scope Medi-Cal benefits received by existing members. This option requires the selection of a private market reference plan to define the Essential Health Benefits (EHB) offered in the Alternative Benefit Plan (ABP).

The Standard Blue Cross/Blue Shield PPO (FEHB) Plan was selected as the EHB reference plan, as it allows the Department to provide an ABP package that most closely reflects existing State Plan benefits and thereby avoids disparity between the benefits received by new and existing members.

HOME AND COMMUNITY BASED SERVICES

Long-Term Care Alternatives

Medi-Cal includes various Long-Term Services and Supports (LTSS) that allow medically needy, frail older adults, and persons with disabilities to avoid unnecessary institutionalization. The Department administers these alternatives either as State Plan benefits or through various types of waivers.

State Plan Benefits

In-Home Supportive Services (IHSS)

IHSS helps eligible individuals pay for services so that they can remain safely in their own homes. To be eligible, individuals must meet at least one of the following:

- 65 years of age or older,
- Disabled,
- Blind, or
- Have a medical certification of a chronic, disabling condition that causes functional impairment expected to last 12 consecutive months or longer or result in death within 12 months and be unable to remain safely at home without the services.

Children with disabilities are also eligible for IHSS. IHSS provides housecleaning, meal preparation, laundry, grocery shopping, personal care services (such as bowel and bladder care, bathing, grooming and paramedical services), accompaniment to medical appointments, and protective supervision for individuals with a mental impairment(s).

The four IHSS programs are:

1. Personal Care Services Program (PCSP)
This program provides personal care services including but not limited to non-medical personal services, paramedical services, domestic services, and protective supervision.
2. IHSS Plus Option (IPO)
This program provides personal care services but also allows the recipient of services to select a family member as a provider.
3. Community First Choice Option (CFCO)
This program provides personal care services to those who would otherwise be institutionalized in a nursing facility.
4. Residual (members are not full-scope Medi-Cal; State-only program with no FFP)

Senate Bill 616 was enacted on October 4, 2023, and provided additional sick leave benefits to all employees working within the state of California, including IHSS workers. Beginning July of 2024, IHSS workers were granted up to five days per year of sick leave usage. Prior to SB 616, IHSS workers were only granted up to three days per year of sick leave usage.

HOME AND COMMUNITY BASED SERVICES

Targeted Case Management (TCM)

The TCM Program provides specialized case management services to Medi-Cal members who are developmentally disabled. These members can gain access to needed medical, social, educational, and other services. TCM services include:

- Needs assessment
- Development of an individualized service plan
- Linkage and consultation
- Assistance with accessing services
- Crisis assistance planning
- Periodic review

1915(i) HCBS State Plan Services

The 1915(i) State Plan Services program provides Home and Community-Based Services (HCBS) to persons with developmental disabilities (DD) who are Regional Center consumers but do not meet nursing facility level of care criteria required for enrollment in the HCBS Waiver of Persons with DD. As of February 1, 2016, Behavioral Health Treatment (BHT) services for 1915(i) participants under the age of 21 is a state plan benefit and paid through the managed care delivery system or fee-for-service for members not eligible to enroll into managed care. The 1915(i) State Plan Amendment (SPA) was approved from October 1, 2011, through September 30, 2016. The Department submitted a SPA to renew the 1915(i) Waiver, effective October 1, 2016, through September 30, 2021. CMS approved the 1915(i) State Plan for a new 5-year term, effective October 1, 2021, through September 30, 2026.

The DD rate increase, as outlined in ABX2-1 (Chapter 3, Statutes of 2016). The Department and the California Department of Developmental Services (CDDS) submitted a SPA reflecting the rate changes. CMS approved the SPA on September 29, 2016, with a July 1, 2016, effective date. Rate increases include several different increase models including a 5% rate increase on services and survey-based increases on wages.

The Department submitted a SPA to update the service specifications for respite care as required by CMS' companion letter to:

- Remove group-supported employment and specialized therapeutic services,
- Add housing access, family support, occupational therapy, physical therapy, and family/consumer training services, and
- Add Enhanced Behavioral Supports Home (EBSH) as a new setting for habilitation-community living arrangement services.

This amendment also established reimbursement methodologies for EBSH and incentive payments for individual supported employment providers, effective July 1, 2018.

HOME AND COMMUNITY BASED SERVICES

The Department submitted a SPA to add the following:

- Community Crisis as a provider type under Behavioral Intervention Services,
- Categorically and medically needy limits, and
- The associated rate methodology.

The approved effective date was October 2, 2018.

The Department submitted a SPA to make changes to the reimbursement methodology to implement a one-year rate increase for certain services in high-cost counties. CMS approved the SPA, effective May 1, 2019.

The Department submitted a Disaster Relief (DR) SPA renewal for the 1915(i) Home and Community-Based Service State Plan Benefit. CMS approved the State Plan for a five-year term effective October 1, 2021, through September 30, 2026.

The Department submitted a SPA to add state-operated mobile crisis teams as a provider type under Behavioral Intervention Services and rate methodologies for state-operated services for the developmentally disabled. CMS approved DR SPA 21-0049 on December 15, 2021.

The Department submitted a consolidated DR SPA, which included reimbursement rates for specified providers from January 1, 2020, to December 31, 2021, as authorized under W&I Code section 4691.12, effective March 1, 2020. Additionally, the DR SPA added Intensive Transition Services and Speech-Language Pathology Assistants as a new provider type, effective July 1, 2020, as well as increased payment rates through the end of the Public Health Emergency, effective January 16, 2021. CMS approved the consolidated DR SPA 21-0050 on December 22, 2021.

The Department submitted DR SPA 21-0031 to implement a rate increase for minimum wage. CMS approved the SPA, effective January 1, 2022.

The Department submitted a SPA 21-0040 to begin implementation of the rate models as described in the 2019 Rate Study. CMS approved the SPA, effective April 1, 2022.

The Department submitted a DR SPA 22-0037 for a temporary modification of the service scope for selected services in response to the public health emergency. This DR SPA requests a retro-effective date of September 1, 2020. CMS approved the SPA on July 22, 2022, effective March 1, 2020.

The Department submitted a DR SPA 22-0038 to add Self-Directed Services and Technology Services, as well as the increase to incentive payments for Prevocational and Supported Employment Services. This SPA was approved on September 28, 2022, effective July 1, 2021.

The Department submitted SPA 22-0058 for a rate increase per the California Budget Act of 2022. CMS approved the SPA on December 7, 2022, effective January 1, 2023.

The Department submitted a DR SPA 22-0050 to expand participation direction for habilitation services. CMS approved the SPA on December 16, 2022, effective March 1, 2020.

HOME AND COMMUNITY BASED SERVICES

The Department submitted SPA 22-0048 proposing to make various flexibilities under the public health emergency permanent, as well as additional services and a new provider type. CMS approved the SPA on April 14, 2023, effective April 14, 2023.

The Department submitted SPA 23-0024 to add Coordinated Family Supports service that provides coordination of services and supports that allow adults to continue living in their family home. CMS approved the SPA on November 1, 2023, effective November 1, 2023.

The Department submitted SPA 23-0036 to authorize reimbursement rate increases for Independent Living services, Habilitation/Community Living Arrangement services, Participant-directed Day services and Supported Employment services, and Day Services paid rates pursuant to a cost study. CMS approved the SPA on December 29, 2023, for dates of service on or after January 1, 2024.

On January 9, 2024, the Department submitted SPA 24-0001 to CMS requesting to modify the definition of target population to include children under five, add participant-directed services as a new service, add budget authority for participant direction of services, and add additional incentive payments for assisting individuals to obtain competitive integrated employment. The Department has requested an effective date of January 10, 2024, for SPA 24-0001.

On June 26, 2024, CMS approved SPA 24-0005. This amendment added group homes for children with special health care needs as a new provider of community living arrangement services. Moreover, the amendment added participant-direction as a service delivery method for self-directed support services. The effective date is July 1, 2024.

On September 24, 2024, the Department submitted SPA 24-0028 to:

- Implement the final round of rate increases from a 2019 rate study,
- Add a new service called Person-Centered Future Planning,
- Increase the rate for Financial Management Services, and
- Allow participant-direction for Community Living Arrangement Services.

CMS approved the amendment on December 19, 2024, with an effective date of January 1, 2025.

Waivers

Medi-Cal operates and administers various HCBS waivers that provide medically needy, frail seniors, and persons with disabilities with services that allow them to live in their own homes or community-based settings instead of being cared for in facilities. These waivers require the program to meet federal cost-neutrality requirements so that the total cost of providing waiver services plus medically necessary State Plan services are less than the total cost incurred at the otherwise appropriate facility plus State Plan costs. The following waivers require state cost neutrality: Medi-Cal Waiver Program (MCWP), formerly known as the Acquired Immunodeficiency Syndrome (AIDS) Waiver; Assisted Living Waiver (ALW); Home and Community-Based Alternatives (HCBA) Waiver; Multipurpose Senior Services Program (MSSP); HCBS Waiver for Persons with DD; and Self-Determination Program (SDP) Waiver for

HOME AND COMMUNITY BASED SERVICES

Persons with DD. A member may be enrolled in only one HCBS waiver at a time. If a member is eligible for services from more than one waiver, the member may choose the waiver that is best suited to their needs.

Assisted Living Waiver (ALW)

The ALW pays for assisted services and supports, care coordination, and community transition in 15 counties (Sacramento, San Joaquin, Los Angeles, Riverside, Sonoma, Fresno, San Bernardino, Alameda, Contra Costa, San Diego, Kern, San Mateo, San Francisco, Santa Clara, and Orange). Waiver participants can elect to receive services in a Residential Care Facility for the Elderly (RCFE), an Adult Residential Facility (ARF) or through a home health agency while residing in publicly subsidized housing. CMS approved a renewal of the ALW on February 28, 2019, effective from March 1, 2019, to February 28, 2024.

~~Through California's HCBS Spending Plan, CMS approved the Department's proposal to add 7,000 slots to the ALW in the effort to eliminate the current ALW waitlist. The addition of these slots is enabling the Department to provide sufficient capacity to enroll all waitlisted members and to clear pending enrollments, while still providing a cushion for continued growth.~~

On October 27, 2021, the Department submitted an ALW technical amendment to increase the maximum number of waiver slots **by 7,000** to CMS for approval with a retroactive implementation date of July 1, 2021. ~~On~~ **Through California's HCBS Spending Plan, on** January 7, 2022, CMS approved the amendment with a retroactive implementation date of July 1, 2021. CMS informed the Department that agencies could immediately start enrolling members on the waitlist. ~~As of December 2023, approximately 5,100 slots have been released for transitioning members for placement into the ALW.~~ **As of June 2024, all 7,000 slots have been released for transitioning members for placement into the ALW.**

On February 16, 2024, CMS approved a new five-year waiver term for the ALW effective March 1, 2024. CMS also approved an ALW technical amendment to increase the maximum number of waiver slots for waiver year (WY) 5 of the 2019-2024 waiver term on January 22, 2024. This amendment increases the number of waiver slots for waiver year 5 by 1,800 and had a retroactive effective date of January 1, 2024. Due to the growth of the program and continued high demand, the Department submitted a slot increase amendment to CMS for approval. On May 20, 2024, CMS approved the amendment to increase the allocated slot by about 1,800 for Waiver Years 2-5 of the current waiver term. The approved number of waiver slots are as follows:

- WY 1 (2024) 14,544
- WY 2 (2025) 16,344
- WY 3 (2026) 18,144
- WY 4 (2027) 19,944
- WY 5 (2028) 21,744

HOME AND COMMUNITY BASED SERVICES

On October 30, 2024, the Department submitted an ALW amendment to increase the WY 1 slots to align with the WY 2 capacity due to continued growth of the program. On November 12, 2024, CMS approved the amendment, and WY 1 slots are now 16,344, as opposed to 14,544.

Community-Based Adult Services (CBAS)

AB 97 (Chapter 3, Statutes of 2011) eliminated Adult Day Health Care (ADHC) a Medi-Cal optional benefit. A lawsuit was filed challenging elimination of ADHC (*Darling et al. v. Douglas et al.*), resulting in a settlement agreement between DHCS and the plaintiffs. The settlement agreement eliminated the ADHC program effective March 31, 2012, and replaced it with a new program called CBAS. CBAS is an outpatient, facility-based program that delivers skilled nursing care, social services, therapies, personal care, family/caregiver training and support, nutrition services, and transportation to approved members. CBAS provides necessary medical and social services to individuals with intensive health care needs. CBAS became a managed care benefit effective April 1, 2012, through an amendment to the Bridge to Reform 1115 Medicaid waiver. Under the Bridge to Reform Waiver, CBAS was authorized for a temporary extension through December 31, 2015. The Department submitted an 1115 waiver called the California Medi-Cal 2020 Demonstration, which was approved on December 30, 2015, for five years. CBAS continued to be a waiver benefit under this new waiver until December 31, 2020. There is no cap on enrollment into this service. The Department received CMS approval of its proposal to apply a one-year extension of this waiver to December 31, 2021, due to the COVID-19 public health emergency. On December 29, 2021, the Department received approval of the new **California Advancing and Innovating Medi-Cal** (CalAIM) Section 1115 demonstration waiver for a five-year renewal, with an amendment. This new waiver period is December 31, 2021, through December 31, 2026, and maintains the CBAS benefit.

Due to the COVID-19 pandemic, CBAS centers were not able to provide services in a congregate setting beginning the second half of March 2020. In response, the Department and the California Department of Aging (CDA) developed a new CBAS service delivery model, known as Temporary Alternative Services (TAS). Under this model, CBAS centers provided limited individual in-center activities, as well as telephonic, telehealth and in-home services to CBAS members. This temporary model was effective through September 30, 2022, at which point CBAS returned to full congregate in-person service delivery.

The renewed 1115 Waiver includes an ongoing remote services option for CBAS. Under certain unique circumstances, CBAS Emergency Remote Services (ERS) may be provided in response to the individual's person-centered needs. This is for CBAS members who have unique circumstances and are time limited to facilitate availability for services when members are not able to access in person services. CBAS ERS became available on October 1, 2022.

Pursuant to the Budget Act of 2019, the Department implemented the structure of provider supplemental payments for qualified CBAS services funding the state share with revenues from the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Proposition 56). The supplemental payments structure was subject to suspension on June 30, 2021. The Budget Act of 2021 removed this suspension. The 2022 Governor's Budget shifted the state funding source of these supplemental payments to the General Fund.

HOME AND COMMUNITY BASED SERVICES

Assembly Bill (AB) 119 (Chapter 13, Statutes of 2023) authorized a Managed Care Organization (MCO) Provider Tax effective April 1, 2023, through December 31, 2026. MCO tax revenues were expected to be used to support the Medi-Cal program's new targeted provider rate increases and other investments that advance access, quality, and equity for Medi-Cal members and promote provider participation in the Medi-Cal program. Pursuant to the 2023 Budget Act and AB 118 (Chapter 42, Statutes of 2023), the Department implemented the first phase of Targeted Rate Increases, effective January 1, 2024.

The 2024 Budget Act and Senate Bill (SB) 159 (Chapter 40, Statutes of 2024) authorized new targeted Medi-Cal provider rate increases from the MCO Tax to be effective January 1, 2025, and January 1, 2026. However, Proposition 35 on the November 2024 ballot was approved by voters, a measure that implements the existing tax on managed health care insurance plans to be permanent. The MCO Tax initiative investments that were planned to be effective in 2025 and 2026 became inoperable since both cannot be fiscally sustained.

Home and Community-Based Alternatives (HCBA) Waiver

The HCBA Waiver provides Medi-Cal members with long-term medical conditions, who meet the adult or pediatric acute hospital, subacute, or nursing facility (NF) Level of Care (LOC), with the option of returning to and/or remaining in their home or home-like setting in the community in lieu of institutionalization. The Department contracts with Waiver Agencies for the purpose of performing waiver administration functions and providing the Comprehensive Care Management waiver service. The Waiver Agencies are responsible for functions, including: member enrollment, LOC evaluations, person-centered care/service plan review and approval, waiver service authorization, utilization management, provider enrollment/network development, quality assurance activities and reporting to the Department.

The Department maintains an active role in the waiver administration by determining all waiver participant eligibility, setting enrollment goals, and providing continuous, ongoing monitoring and oversight. On September 29, 2021, the Department submitted a waiver renewal application for the HCBA Waiver for a new five-year term, January 1, 2023, through December 31, 2027. The waiver was set to expire on December 31, 2021; however, the Department received a fifth 90-day temporary extension, to March 26, 2023. CMS issued a formal approval for the new waiver on February 2, 2023, and the new HCBS Waiver term became effective on January 1, 2023. The Department's new HCBA waiver was not scheduled to add slots until January 1, 2025, based on past projected enrollment and attrition trends. However, as a result of increased enrollments, it was determined that the waiver would reach capacity before the end of 2023. To address this, the Department submitted a waiver amendment to CMS to add 1,800 additional slots to each of the four remaining waiver years, beginning with waiver year two, effective January 1, 2024. CMS approved the waiver amendment on December 11, 2023.

The following changes included in the waiver renewal application will have an impact on the Medi-Cal budget: the addition of new waiver services, a rate increase for Personal Care Agencies in response to the statewide minimum wage increase, and additional waiver slots beginning on January 1, 2024, based on projected enrollment and attrition trends.

HOME AND COMMUNITY BASED SERVICES

On March 13, 2025, CMS approved an additional waiver amendment. With this amendment, the Department is increasing the number of paid sick leave hours available for Waiver Personal Care Services (WPCS). The effective date of the amendment is July 1, 2024.

Medi-Cal Waiver Program (MCWP)

Local agencies, under contract with the California Department of Public Health (CDPH), and Office of AIDS (CDPH/OA), provide home and community-based services as an alternative to nursing facility care or hospitalization.

Services provided include:

- Administrative Expenses
- Attendant care
- Case management
- Financial supplements for foster care
- Home-delivered meals
- Homemaker services
- In-home skilled nursing care
- Minor physical adaptations to the home
- Non-emergency medical transportation
- Nutritional counseling
- Nutritional supplements
- Psychotherapy

Members eligible for the program must be Medi-Cal members whose health status qualifies them for nursing facility care or hospitalization, in an aid code with full benefits and not enrolled in the Program of All-Inclusive Care for the Elderly (PACE). Waiver participants must also have a written diagnosis of HIV disease or AIDS, certified by the nurse case manager to be at the nursing facility level of care, and score 60 or less using the Cognitive and Functional Ability Scale assessment tool. Children under 13 years of age are eligible if they have been certified by the nurse case manager as HIV/AIDS symptomatic. All waiver participants must have a home setting that is safe for both the client and service providers.

The Department, on behalf of CDPH, submitted a waiver renewal application for the MCWP for a new five-year term, effective January 1, 2022, through December 31, 2026. In December 2022, the Department received its fifth 90-day temporary extension of the waiver that was set to expire, December 31, 2021. This temporary extension expired on March 26, 2023. Due to the delay in the review/approval process, CMS and the Department agreed to a new five-year term. Rather than retroactively authorizing the MCWP to a January 1, 2022, start date, CMS agreed to set the effective date to January 1, 2023, extending the waiver term to December 31, 2027.

Multipurpose Senior Services Program (MSSP) Waiver

The ~~California Department of Aging (CDA)~~ currently contracts with local agencies statewide to provide social and health care management for frail elderly clients who are at risk of placement in a nursing facility but who wish to remain in the community. The MSSP arranges for and monitors the use of community services to prevent or delay premature institutional placement of

HOME AND COMMUNITY BASED SERVICES

these individuals. Members eligible for the program must be 60 years of age or older, live within an MSSP site service area, be able to be served within MSSP's cost limitations, be appropriate for care management services, be currently eligible for Medi-Cal, not be simultaneously enrolled in another Medi-Cal HCBS Waiver or receive other Medi-Cal Managed Care Plan Enhanced Care Management (ECM) services benefits, and can be certified for placement in a nursing facility. Services provided by MSSP include adult day care centers, household and personal care assistance, protective supervision, care management, respite, transportation, meal services, social services, minor home repair/maintenance, and communication services. The program provides services under a federal 1915(c) HCBS Waiver. The Department submitted a waiver renewal application on March 28, 2019. The MSSP Waiver ended on June 30, 2019, and CMS approved a 90-day temporary extension to resolve CMS' questions related to the renewal application. The Department responded to all requests for additional information, and CMS approved and renewed the MSSP Waiver on November 1, 2019, for an additional five-year term, effective July 1, 2019. The MSSP renewal application was submitted to CMS on March 29, 2024. Following the renewal application submission, CMS issued three rounds of subsequent requests for additional information and granted a 90-day extension set for September 29, 2024. The Department provided responses to all requests for additional information, and on September 25, 2024, the Department and CDA received CMS' approval of the renewed MSSP waiver to be effective between July 1, 2024, through June 30, 2029.

The MSSP benefit was scheduled to be carved out from the Coordinated Care Initiative (CCI), subject to CMS approval, effective January 1, 2021. This proposed carveout was delayed to January 1, 2022, due to the postponement of the ~~California Advancing and Innovating Medi-Cal~~ (CalAIM) initiative and the COVID-19 public health emergency. With the delay of CalAIM, the Department submitted a 12-month extension request to CMS for the Medi-Cal 2020 waiver, extending its term through December 31, 2021.

The Department carved out the MSSP benefit through the MSSP waiver within CCI counties, effective January 1, 2022. MSSP operates as a waiver benefit in all CCI demonstration counties (except San Mateo County), as it did prior to the implementation of CCI in 2014.

In 2019, AB 74 (Chapter 23, Statutes of 2019) was approved, which provides a one-time-only supplemental funding for expenditure over a three-year period. The supplemental funding will fund **support** waiver care management and care management support payments. The Budget Act of 2021 extended this supplemental funding and increased the number of program slots, effective January 1, 2022.

CMS approved the waiver amendment on May 16, 2023, effective July 1, 2023, to transition MSSP billing codes to be converted to the National HCPCS codes. The Department is submitting a subsequent amendment to CMS to change the effective date for the code conversion to January 1, 2024, to allow for sufficient time for MSSP sites to implement the code conversion.

Home and Community-Based Waiver for Persons with Developmental Disabilities (HCBS-DD)

The HCBS-DD Waiver provides home and community-based services to persons with developmental disabilities who are Regional Center consumers as an alternative to care

HOME AND COMMUNITY BASED SERVICES

provided in a facility that meets the Federal requirement of an intermediate care facility for the developmentally disabled; in California, Intermediate Care Facility/Developmentally Disabled-type facilities, or a State Developmental Center. As of February 1, 2016, BHT services for Waiver participants under the age of 21 is a state plan benefit paid through fee-for-service or the managed care delivery system.

The Department submitted a renewal application to CMS on December 22, 2016, and received approval on December 7, 2017. The approved capacity of unduplicated recipients for this waiver is 130,000 in 2018, 135,000 in 2019, 140,000 in 2020, 145,000 in 2021, 150,000 in 2022, 155,000 in 2023, and up to 179,000 individuals by December 31, 2027. The waiver is approved from January 1, 2023, through December 31, 2027.

The Department submitted a numerous Waiver Amendment Amendments to reflect state regulatory changes. For instance, a rate increase to Home Health Aide and Skilled Nursing Services to align them with increases to Medi-Cal, as authorized by the 2018 Budget Act. The appropriation in the 2018 Budget Act will be applied to increase the payment rates for certified Home Health Aides, Licensed Vocational Nurses, and Registered Nurses. This does not result in a change to the rate methodology. The Amendment was approved with an effective date of July 1, 2018.

The Department submitted a Waiver Amendment to provide time limited rate increases in specific geographic areas for providers of Community-Based Day Services, In-Home Respite Agencies, and providers of Community Living Arrangement Services under the Alternative Residential Model. This amendment also includes Community Crisis Homes as a new provider type under Behavioral Intervention Services, adds Community-Based Adult Services as a new waiver service, and adds Adult Day Health Care Center as a provider type under Community-Based Adult Services. The approved effective date was May 1, 2019.

The Department submitted an additional Waiver Amendment as a result of SB 81 (Chapter 28, Statutes of 2019), which provided CDDS with time-limited funding to provide supplemental rate increases for specified services, effective January 1, 2020, through December 31, 2021. The amendment was approved with an effective date of January 1, 2020.

The Department submitted a Waiver Amendment to add the State-Operated Mobile Crisis Team as a provider type under Behavioral Intervention Services. The amendment also adds rate methodologies for specified provider types under Behavior Intervention Services and Community Living Arrangement Services. The amendment was approved with an effective date of April 1, 2020.

The Department submitted a Waiver Amendment to add Speech-Language Pathologist Assistant as a provider type for Speech, Hearing, and Language services. The amendment also adds services to transition members placed at Institutions for Mental Diseases into alternative community settings. The amendment was approved with an effective date of January 19, 2021.

The Department submitted a Waiver Amendment for a time-limited rate increase for Independent Living Program (ILP) providers, pursuant to AB 79, with an effective term of

HOME AND COMMUNITY BASED SERVICES

January 1, 2021, through December 31, 2021. The amendment was approved with an effective date of January 1, 2021.

The Department submitted a Waiver Amendment to implement a rate model as described in the 2019 DDS Rate Study. The Waiver Amendment was approved by CMS with an effective date of April 1, 2022.

The Department submitted an Appendix K to implement a rate increase for minimum wage that was approved by CMS with an effective date of January 1, 2022.

The Department submitted an Appendix K to increase incentive payments to be paid to service providers of Supported Employment (Individual) and Prevocational Services. CMS approved the Appendix K on August 11, 2022, effective July 1, 2021.

The Department submitted the HCBS-DD waiver renewal to CMS on September 30, 2022. CMS approved the waiver renewal for a new five-year term effective January 1, 2023, through December 31, 2027. The waiver renewal contains changes to include previously approved Appendix K flexibilities made permanent, provides rate increases for the second stage of the 2019 Rate Study, and adds Group Homes for Children with Special Health Care Needs as a provider type under Community Living Arrangement Services.

The Department submitted an Appendix K making retainer payments available from August 19 through September 18, 2023, due to Hurricane Hilary. CMS approved the Appendix K on September 6, 2023.

The Department submitted a Waiver Amendment to add Coordinated Family Supports as a waiver service. The Waiver Amendment was approved by CMS with an effective date of December 1, 2023.

The Department submitted a Waiver Amendment to modify the definition of target population to include children under 5 years of age, increase rates for independent living programs, adult residential homes and participant directed Day Service and Supported Employment, add participant-directed services as a new service, add budget authority for participant direction of services, add additional incentive payments for assisting individuals to obtain competitive integrated employment, and add supplemental payments for: completion of surveys for eligible providers of community living arrangement services and direct service providers as workforce capacity initiatives, certifications gained in trained employment services, and for direct service professionals who use a language or medium of communication other than English more than 50% of their time. The Waiver Amendment was approved by CMS, effective January 10, 2024.

An additional amendment was submitted to add telehealth as a delivery method for specific services, group homes for children with special health needs, and participant-direction as a service method. The amendment was approved by CMS and became effective July 1, 2024.

HOME AND COMMUNITY BASED SERVICES

On September 24, 2024, the Department submitted a waiver amendment to:

- Implement the final round of rate increases from a 2019 rate study,
- Add a new service called Person-Centered Future Planning,
- Increase the rate for Financial Management Services, and
- Allow participant-direction for Community Living Arrangement Services.

CMS approved the amendment on December 19, 2024, with an effective date of January 1, 2025.

The Department submitted an Appendix K making retainer payments from February 3, 2024, through March 3, 2024; for the following services in this waiver: community living arrangement services, behavioral intervention services, and day services; due to waiver participants impacted by the storms in Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Ventura counties. CMS approved the Appendix K on March 28, 2024.

The Department submitted several Appendix Ks from April 2024 – ~~December 2024~~ **January 2025**. ~~Seventeen~~ **Eighteen** Appendix Ks focused on retainer payments for participants' services that may have been impacted by California wildfires. While one Appendix K focused on retainer payments for participants' services that may have been impacted by a northern California earthquake.

Home and Community-Based Self Determination Program (SDP) Waiver for Persons with Developmental Disabilities

The SDP waiver provides home and community-based services to persons with developmental disabilities that are able to self-direct and are Regional Center consumers. The SDP waiver is an alternative to care provided in a facility that meets the federal requirement of an Intermediate Care Facility/Developmentally Disabled-type facility, or a State Developmental Center. The estimated capacity of unduplicated recipients for the SDP is 1,000 for waiver year 1, and 2,500 for waiver years 2 and 3. The SDP will transition DD waiver participants, who can self-direct their care, at no additional cost to the General Fund. CMS approved this waiver on June 6, 2018, with an effective date of July 1, 2018. This waiver is for a three-year period, ending June 30, 2021. The State renewed the waiver for a five-year period with an effective date of July 1, 2021, ending on June 30, 2026.

As of February 1, 2016, BHT services for Waiver participants under the age of 21 is a state plan benefit and paid through fee-for-service, or the managed care delivery system.

The California Department of Developmental Disabilities engaged in a stakeholder process to obtain stakeholder input regarding recommended changes to include in the waiver renewal application that was submitted to CMS in March 2021. CMS approved the waiver renewal for a new five-year term, effective July 1, 2021, through June 30, 2026.

HOME AND COMMUNITY BASED SERVICES

Managed Care Programs

Program of All Inclusive Care for the Elderly (PACE)

PACE is a federally defined, comprehensive, and capitated managed care model program that delivers fully integrated services. PACE covered services include all medical long-term services and supports, dental, vision and other specialty services, allowing enrolled members who would otherwise be in an intermediate care facility or in a skilled nursing facility to maintain independence in their homes and communities. Participants must be 55 years or older and determined by the Department to meet the Medi-Cal regulatory criteria for nursing facility placement. PACE participants receive their services from a nearby PACE Center where clinical services, therapies, and social interaction take place.

SCAN Health Plan

SCAN is a Medicare Advantage Special Needs Plan that contracts with the Department to provide services for dually eligible Medicare/Medi-Cal beneficiaries residing in Los Angeles, Riverside, San Bernardino, and San Diego counties. SCAN provides all services in the Medi-Cal State Plan, including home and community-based services to SCAN members who are assessed at the Nursing Facility Level of Care and nursing home custodial care. The eligibility criteria for SCAN specifies that a member be at least 65 years of age, have Medicare A and B, have full scope Medi-Cal with no share of cost and live in SCAN's approved service. SCAN does not enroll individuals with End Stage Renal Disease.

Special Grant

California Community Transitions/Money Follows the Person (CCT/MFP) Rebalancing Demonstration Grant

In January 2007, CMS awarded the Department a grant for the Money Follows the Person Rebalancing Demonstration Grant, called ~~California Community Transitions~~ **CCT in California**. This grant is authorized under section 6071 of the federal Deficit Reduction Act of 2005 and was extended by the Patient Protection and Affordable Care Act of 2010.

On April 18, 2018, the federal Medicaid Services Investment and Accountability Act of 2019 was signed into law and appropriated additional federal funding for CMS to allocate state grantees for FY 2019-20.

On January 24, 2019, the Medicaid Extenders Act of 2019 was signed and authorized MFP state grantees to continue to transition eligible members through December 31, 2019, using available MFP funding. The Extenders Act provided CMS with the authority to allocate new

HOME AND COMMUNITY BASED SERVICES

funding to state grantees for calendar year 2019, to allow funding appropriated through the Extenders Act to be spent through 2023.

On August 6, 2019, the Sustaining Excellence in Medicaid Act of 2019 was signed and appropriated additional federal funds for allocation to MFP state grantees.

On December 20, 2019, the Further Consolidated Appropriations Act, 2020 amended the DRA of 2005 to extend the term of the MFP grant by five months, from January 1, 2020, to May 22, 2020.

On March 18, 2020, the Families First Coronavirus Response Act (FFCRA) was enacted. Section 6008 of the FFCRA provides a temporary 3.1% Federal Medical Assistance Percentage (FMAP) increase to MFP services under Section 1905(b) of the Social Security Act. The increase is being applied retroactively beginning January 1, 2020, and extends through the last day of the calendar quarter in which the COVID-19 public health emergency period, including any extensions, terminates.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act extended the term of the MFP grant from May 22, 2020, to November 30, 2020. On December 27, 2020, the President signed the Consolidated Appropriations Act of 2021, which includes an extension of the MFP grant through federal fiscal year (FFY) 2023 and appropriates \$450 million for FFY 2022, and \$450 million for FFY 2023. Under the Act, the CCT Program will receive grant funding to continue to transition eligible members through September 2023 and up to four years after, as long as grant funding remains available.

On September 23, 2020, CMS notified state MFP grantees of a supplemental funding opportunity for states that operate MFP Demonstration programs, and that plan to continue participating in MFP after FFY 2019-20. California developed a proposal to submit to CMS to receive up to \$5 million in supplemental funding for planning and capacity building activities to accelerate long-term care system transformation design and implementation, and to expand HCBS capacity. The Department submitted its application to CMS on June 30, 2021. On July 27, 2021, CMS approved the Department's MFP Supplemental Funding application. CMS approved the Department's request for \$5 million in supplemental funding to conduct a statewide Gap Analysis and Multiyear Roadmap of its Home and Community-Based Services (HCBS) and Managed Medi-Cal Long-Term Supports and Services (MLTSS) programs and networks. The Department's project narrative identified how the funding will be utilized for planning and capacity building activities to accelerate long-term care system transformation design and implementation, and to expand HCBS capacity. The Department selected Mathematica as its contractor to perform the Gap Analysis and prepare the Multiyear Roadmap. The Department finalized the contract on October 6, 2022, with a retroactive start date of September 1, 2022.

The grant requires the Department to develop and implement strategies for transitioning Medi-Cal members who have resided continuously in ~~health care facilities~~ **qualified healthcare inpatient facility** for 90 days or longer back to a federally-qualified residence. Under the Consolidated Appropriations Act of 2021, effective January 26, 2021, the 90-day minimum stay requirement was reduced to 60 days. **Also, per the Consolidated Appropriations Act of**

HOME AND COMMUNITY BASED SERVICES

2021, days that a beneficiary received short-term rehabilitative services are allowed to be counted towards the minimum stay requirement.

In April 2022, CMS issued a Memorandum to state grantees to announce a change to the FFP available for MFP supplemental services as well as the types of allowable services. Effective January 1, 2022, CMS-approved supplemental services will be fully covered by MFP grant funds at a federal reimbursement rate of 100%. The Department continues to evaluate options for implementing additional supplemental services through the updated process identified by CMS.

Beginning January 1, 2021, SB 214 created a temporary program that revises the current requirement for members residing in an inpatient facility from 90 days and longer to less than 90 days. The temporary program requires the Department to end enrolling specified members by the end of December 31, 2022, and end providing services at the end of December 31, 2023. However, SB 214 was invalidated due to federal legislation that modified the criteria for the MFP grant. As a result, the Department proposed amendments to the statute through trailer bill language to align the state-funded CCT population with the new federal requirements.

On July 27, 2021, AB 133 was approved by the Governor and chaptered by the Secretary of State. Approval of AB 133 allowed for the rollout of a state-funded CCT-like program. AB 133 aligns state statute with the amended federal statute, by reducing the required period of residence in an inpatient facility from 90 days to 60 days. The State-funded, CCT-like program allows CCT Lead Organizations to provide transition services to Medi-Cal members who have not yet met the federal, MFP residency eligibility criteria, as a way to help reduce the amount of time members are required to remain in an institution during the COVID-19 PHE. **Additionally, on September 30, 2022, SB 281 was approved by the Governor and chaptered by the Secretary of State. Approval of SB 281 allowed for the state-funded CCT-like program to have a requirement for the Department to cease the enrollment of beneficiaries commencing January 1, 2026, and to cease providing those services commencing January 1, 2027. The repeal date, per SB 281, is January 1, 2028.**

On December 29, 2022, the President signed the Consolidated Appropriations Act of 2023 into law, which extends the MFP grant indefinitely and appropriates additional funding for each fiscal year through 2024-27. Unexpended grant funds awarded for any fiscal year can continue to be spent for up to four additional years, through September 30, 2031.

The population that is eligible for the state-funded program are residents of **qualified healthcare** inpatient facilities who meet the eligibility criteria to enroll in the federally-funded ~~Money Follows the Person (MFP) Rebalancing Demonstration, with one exception (MFP is known as California Community Transitions (CCT) in our state).~~ To be eligible for the federally-funded program, a member is required to have been a resident of ~~an~~ **a qualified healthcare** inpatient facility for at least 60 days the state-funded program removes the 60-day eligibility

HOME AND COMMUNITY BASED SERVICES

criteria to provide transition coordination services to members residing in ~~SNF~~ **a qualified healthcare inpatient facility** who meet all other MFP/CCT enrollment criteria, including:

- At least one day of their stay in the facility must be funded by Medicaid; and
- The member would continue to require skilled nursing care in a facility if not for the transition coordination and home and community-based long-term services and supports provided/secured for them through the CCT program.

1115 WAIVER-MH/UCD, BTR, MEDI-CAL 2020, AND CALAIM 1915(b) WAIVER

1115 Waiver—MH/UCD & BTR The Medi-Cal Hospital/Uninsured Care Section 1115(a) Medicaid Demonstration (MH/UCD) ended on October 31, 2010, and the California Bridge to Reform Section 1115(a) Medicaid Demonstration (BTR) ended on December 31, 2015. The Medi-Cal 2020 Section 1115(a) Medicaid Demonstration (Medi-Cal 2020) was approved effective January 1, 2016, for five years. Due to the COVID-19 pandemic impact on the state's health care delivery systems CMS approved a one-year extension. The Medi-Cal 2020 waiver ended on December 31, 2021.

The CalAIM Section 1115 Demonstration, for the service period of January 1, 2022, through December 31, 2026, has been approved by CMS. In addition, the CalAIM Section 1915(b) Demonstration was also approved for the same January 1, 2022, through December 31, 2026, service period. Together, the CalAIM Section 1115 and the 1915(b) waivers, along with State Plan Amendments approved by CMS, move tested initiatives from prior federal waivers to statewide rollout, benefiting all Medi-Cal members. More information about CalAIM impacts is included in the CalAIM section later in this document.

With the 1115 and 1915(b) waiver renewals, nearly all elements of the Medi-Cal managed care, SMHS, dental managed care, and the DMC-ODS delivery systems are streamlined to a single authority under the CalAIM Section 1915(b) Waiver. See the Department's website for more information about the CalAIM waivers: <https://www.dhcs.ca.gov/provgovpart/Pages/CalAIM-1115-and-1915b-Waiver-Renewals.aspx>

MANAGED CARE

Medi-Cal Managed Care Rates

Managed care capitation rates paid to Medi-Cal managed care plans are developed to provide for the reasonable, appropriate, and attainable projected costs under the plan's contract. Base rates are developed utilizing primarily plan-reported cost and utilization data by category of service (e.g., Inpatient Hospital, Emergency Room, Physician Primary Care, Physician Specialty) for each rating category of aid (COA). Actuaries review the base data for reasonableness and make adjustments to remove identified inefficiencies and align the base data to the services and populations that are covered in the future rating period.

Trends and programmatic changes, as well as administrative and underwriting gain loads, are then applied to arrive at plan-specific rates.

In counties with more than one non-specialty plan, capitation rates are risk adjusted to better reflect the match of a plan's expected costs to their members' health risk. Capitation rates are risk adjusted for the Child, Adult, Seniors, and Persons with Disabilities (SPD), and Affordable Care Act Optional Expansion (ACA OE) COAs.

Historically, risk adjustment was performed using the Medicaid Rx risk adjustment model developed by the University of California, San Diego. Each member in the Child, Adult, SPD, and ACA OE COAs who meets certain criteria is assigned a risk score. Member scores are aggregated for each plan operating in a county and a county-average rate is then developed for each COA in a budget-neutral manner based on the sum of the plan-specific rates weighted for each plan's enrollment. For rating periods from July 2018 through December 2022, each plan's final rate is a blend that gives 75% weight to the county-average rate and 25% weight to the plan-specific rate. County Organized Health Systems (COHS) rates are not risk adjusted due to the presence of only one plan in each county.

The risk adjustment policy is examined on an annual basis and adjusted if necessary. As of January 2023, the Department transitioned to the CDPS+Rx risk adjustment model, which combines the diagnostic-based Chronic Illness and Disability Payment System (CDPS) model and the pharmacy-based Medicaid Rx model. For more information on CDPS+Rx, see <https://cdps.ucsd.edu/>.

For the calendar year (CY) 2023 rating period, subject to federal approval, the Department considers plans' performance on select quality measures to inform adjustments to the 75%/25% blend. In all Two-Plan and Regional Model counties (except San Benito) where a significant difference in quality performance between the two plans is observed, the blend will be adjusted in the direction that is favorable to the higher-performing plan. The weight given to the county-average rate may be reduced to as little as 50% or increased to as much as 100%. For the CY 2024 rating period, 100% of the rate, except for select services, are risk adjusted. In addition, the CY 2024 rating period rates for members with unsatisfactory immigration status (UIS) are subject to risk adjustment.

Occasionally, when deemed necessary, the State will implement supplemental payments to help mitigate risk for unpredictable utilization trends. For example, the State has implemented supplemental payments for the costs of maternity services related to labor/delivery and

MANAGED CARE

Behavioral Health Treatment (BHT) for children. BHT supplemental payments are discontinued and captured within base rates, as of the CY 2023 rating period.

The State implemented a one-time 18-month rating period for the period of July 1, 2019, through December 31, 2020, to aid in future prospective rate development as federally required. Beginning with CY 2021, rates are developed annually on a calendar year basis thereafter.

Managed Care Organization Taxes

AB 119 (Chapter 13, Statutes of 2023) authorized a new MCO Enrollment Tax effective April 1, 2023, through December 31, 2026. Similar to the prior tax, this tax is tiered based on whether an enrollee is a Medi-Cal enrollee or other enrollee. CMS approved the proposed tax structure in December 2023. On March 27, 2024, the Department submitted an MCO tax structure amendment to CMS for CY 2024 and forward. On June 30, 2024, a modification to that amended MCO tax waiver request was submitted. Approval of the amended MCO tax structure is currently pending with CMS.

Federally Qualified Health Center Alternative Payment Methodology (FQHC APM)

The FQHC APM is a voluntary program aimed towards moving FQHCs from their current volume-based reimbursement model to a capitated value-based model. The program will fund FQHCs through Managed Care Plans with a Per Member Per Month payment for each assigned member to their site. This funding will be equivalent to what they were projected to have received under their Prospective Payment System (PPS) volume-based model. For FQHCs that are suited to participating in the APM, the capitation payment will improve revenue stability and provide additional flexibilities to provide alternative services that are not rendered by a PPS eligible provider. The FQHC APM is currently targeted for implementation date of no sooner than July 1, 2024, subject to CMS approval. The program is currently working toward finalizing program policies as well as preparing a SPA for submission to CMS.

Coordinated Care Initiative (CCI) Program

The 2017 Budget extended the Cal MediConnect (CMC) program and the mandatory enrollment of dual eligible members and the integration of long-term services and supports, except In-Home Supportive Services (IHSS), into managed care. IHSS was removed from capitation rate payments effective January 1, 2018. MSSP was removed from capitation rate payments effective January 1, 2022.

As part of the California Advancing and Innovating Medi-Cal (CalAIM) initiative's standardized mandatory enrollment of dual eligibles members and statewide integration of long-term care into managed care, the CCI pilot program sunset December 31, 2022.

Fee-for-Service (FFS) Expenditures for Managed Care Beneficiaries

Managed care contracts require health plans to provide specific services to Medi-Cal enrolled members. Medi-Cal services that are not delegated to contracting health plans remain the responsibility of the Medi-Cal FFS program. When a member who is enrolled in a Medi-Cal

MANAGED CARE

managed care plan is rendered a Medi-Cal service that has been explicitly excluded from their plan's respective managed care contract, providers must seek payment through the Medi-Cal FFS program. The services rendered in the above scenario are commonly referred to as "carved out" services. "Carved-out" services and their associated expenditures are excluded from the capitation payments and are reflected in the Medi-Cal FFS paid claims data.

In addition to managed care carve-outs, the Department is required to provide additional reimbursement through the Medi-Cal FFS program to Federally Qualified Health Center/Rural Health Clinic providers who have rendered care to members enrolled in managed care plans. These providers are reimbursed for the difference between their prospective payment system rate and the amount they receive from managed care health plans. These FFS expenditures are referred to as "wrap-around" payments.

Excluding pharmacy costs covered under Medi-Cal Rx, FQHC "wrap-around" payments and California Children's Services "carve-out" expenditures account for the largest share of FFS expenditures generated by Medi-Cal members enrolled in managed care plans.

Under CalAIM, long term care (LTC) services that were previously "carved-out" of managed care in non-COHS, non-CCI counties, were integrated into managed care. Under the historical policy, managed care members in non-COHS, non-CCI counties were disenrolled from managed care plans one month after the month of admission to an LTC facility, at which point the FFS delivery system would be responsible for providing all State Plan services. With the managed care "carve-in," both the member and related ongoing LTC expenditures will remain in the managed care delivery system. The carve-in is effective January 1, 2023, for skilled nursing facility services, and January 1, 2024, for other institutional LTC services including intermediate care facility for the developmentally disabled and subacute care facility services.

LTC services were not "carved-out" of managed care in COHS and CCI counties. Therefore, there was no change to managed care plans' responsibility regarding LTC services within these counties.

COVID-19 Risk Corridor

As a result of the unprecedented effects of the COVID-19 pandemic, Section 14301.11 of the Welfare and Institutions Code established a two-sided risk corridor for rating periods occurring within July 1, 2019, through December 31, 2020, to mitigate potentially significant upward or downward risk associated with the pandemic that were not determinable at the time of rate development. The risk corridor calculation will be performed at the **MCP Medi-Cal Managed Care Plan (MCP)** level (statewide) across all counties or rating regions in which the MCP operates, and across all population groups and applicable rate cells. The Department has collected and is reviewing data from MCPs needed to perform the calculations. Payments and recoupments are anticipated to occur in FY 2024-25.

MANAGED CARE

Managed Care Procurement

The objective of the managed care procurement process is to procure commercial plans to provide high quality, accessible, and cost-effective health care through established networks of organized systems of care, which emphasize primary and preventive care. The draft Request for Proposal (RFP) 20-10029 was released on June 1, 2021. The RFP provided procurement information and a sample of the updated and restructured MCP Contract. The RFP process was used to procure commercial health plans in the following Plan Model types: Two-Plan, Geographic Managed Care (GMC), and Regional Models. The Department released the final RFP on February 9, 2022, and announced the intent to award contracts to selected managed care plans on August 25, 2022. On December 30, 2022, the Department cancelled RFP #20-10029 for the Medi-Cal Managed Care Plans and announced an agreement to deliver Medi-Cal services to Medi-Cal managed care members in 21 counties across the state with an operational start date of January 1, 2024.

The RFP was not used to procure the COHS Plans, or Local Initiative Plans in Non-COHS counties, or Plans operating in Single-Plan Model counties. Based on conditional approvals for County Plan Model changes effective January 1, 2024, San Benito County and Mariposa County will join Central California Alliance for Health (CCAH) and Butte, Colusa, Glenn, Nevada, Placer, Plumas, Sierra, Sutter, Tehama, and Yuba Counties will join Partnership Health Plan as part of the COHS Plan model. As with the commercial plans in the Managed Care Procurement, all final County Plans Model changes have an operational start date of January 1, 2024, contingent on passing all Plan operational readiness activities.

Quality Withhold and Incentive Program

For the CY 2024 rating period and future periods, subject to CMS approval, the Department implemented a hybrid Quality Withhold and Incentive program for contracted Medi-Cal managed care plans. This program withholds a percentage of the lower bound capitation for all categories of aid. The lower bound capitation withhold percentage may change across rating periods, subject to actuarial soundness and quality goals. No sooner than July 1, 2025, the CY 2024 results can be calculated and earned withhold dollars distributed back to the managed care plans. Unearned withhold dollars will roll over into a separate incentive program to pay managed care plans for meeting specified performance metrics on the quality measures.

Unsatisfactory Immigration Status Risk Corridor

For the CY 2024 rating period, the department will utilize a two-sided risk corridor for the UIS Adult and UIS Optional Expansion categories of aid rates due to the potential impact of the expansion of full scope coverage to all beneficiaries ages 26 to 49, regardless of immigration status. Also, for the CY 2024 rating period, a two-sided risk corridor will be utilized for the San Benito County capitation rates. This risk corridor is related to the shift from voluntary managed care to mandatory managed care. Calculations will occur after the rating periods have concluded.

MANAGED CARE

Directed Payments

Effective with the CY 2026 rating period and authorized by SB 177 (2023-24), a Cost-Based Reimbursement Clinics Directed Payment shall be implemented. This directed payment would shift program funds from existing pass-through payment programs. Payments are not expected to occur by FY 2026-27.

Hospital Directed Payment Increases

Consistent with the 2024-25 Budget Act, the Department is increasing state-directed payments to private and public hospitals beginning with the CY 2025 program year. All increases are contingent on receipt of all necessary federal approvals. On a cash basis, these increased amounts will pay starting in FY 2026-27 due to the time lag associated with complete claims and/or performance data being available and other requirements necessary to operate a federally compliant directed payment program.

For private hospitals, the Department anticipates increasing the annual amount of Private Hospital Directed Payments (PHDP) by approximately \$6 billion. This increase will correspond with increased hospital quality assurance fee revenues beginning with the Hospital Quality Assurance Fee (HQAF) IX program period commencing January 1, 2025. These increased revenues will provide additional support for health care coverage for children in the Medi-Cal program estimated at over \$700 million annually. The PHDP increases are in addition to new directed payments for children's hospitals, which are budgeted in the Children's Hospital Directed Payment policy change.

For designated public hospitals (DPH), the Department anticipates increasing the annual amount of Enhanced Payment Program (EPP) and DPH Quality Incentive Pool (QIP) payments by more than \$2.6 billion. For district and municipal public hospitals (DMPH), the Department anticipates increasing the annual amount of District Hospital Directed Payments (DHDP) and DMPH QIP payments by more than \$500 million.

Emergency Services FMAP for UIS Members.

CMS published State Medicaid Director Letter (SMDL) # 25-003 on September 30, 2025, reinterpreting section 1903(v) of the Social Security Act to prohibit states from claiming federal funds for emergency services coverage provided to UIS members through at-risk capitation payments. The SMDL indicates that CMS "generally does not expect to take enforcement action" until the start of first Medicaid managed care rating period beginning one year after the publication date, i.e., January 1, 2027, for California. DHCS is analyzing the programmatic, operational, and other implications of this SMDL and potential compliance options.

PROVIDER RATES

Provider Rates Reimbursement Methodology and the Quality Assurance Fee for Freestanding Nursing Facility Level Bs & Freestanding Subacute Level B Facilities

The Medi-Cal Long-Term Care Reimbursement Act (Article 3.8 of Chapter 7 of Part 3 of Division 9 of Welfare and Institutions Code, beginning with section 14126) requires the Department to develop a cost-based, facility-specific reimbursement rate methodology for Freestanding Nursing Facility Level-Bs (FS/NF-Bs), and Freestanding Subacute Nursing Facility, Level Bs (FSSA/NF-Bs). Rates are updated annually and are established based on the most recent audited cost report data.

The rate methodology developed by the Department computes facility-specific, cost-based per diem payments for FS/NF-Bs and FSSA/NF-Bs based on five cost categories, which are subject to limits. Limits are set based on expenditures within geographic peer groups. Costs specific to one category may not be shifted to another cost category. Additionally, the budget and authorizing legislation sets maximum annual year-over-year increases.

Labor: This category has two components: direct resident care labor costs and indirect care labor costs.

- Direct resident care labor costs include salaries, wages and benefits related to routine nursing services defined as nursing, social services and personal activities. Costs are limited to the 95th percentile of each facility's peer group.
- Indirect care labor includes costs related to staff support in the delivery of patient care including, but not limited to, housekeeping, laundry and linen, dietary, medical records, in-service education, and plant operations and maintenance. Costs are limited to the 95th percentile of each facility's peer group.

Indirect care non-labor: This category includes costs related to services that support the delivery of resident care including the non-labor portion of nursing, housekeeping, laundry and linen, dietary, in-service education, pharmacy consulting costs and fees, plant operations and maintenance costs. Costs are limited to the 75th percentile of each facility's peer group.

Administrative: This category includes costs related to allowable administrative and general expenses of operating a facility including administrator, business office, home office costs that are not directly charged and property insurance. This category excludes costs for caregiver training, liability insurance, facility license fees and medical records. Costs are limited to the 50th percentile.

Fair rental value system (FRVS): This category is used to reimburse property costs. The FRVS is used in lieu of actual costs and/or lease payments on land, buildings, fixed equipment and major movable equipment used in providing resident care. The FRVS formula recognizes age and condition of the facility. Facilities receive increased reimbursement when improvements are made.

PROVIDER RATES

Direct pass-through: This category includes the direct pass-through of proportional Medi-Cal costs for property taxes, facility license fees, caregiver training costs, and new state and federal mandates including the facility's portion of the QAF.

Reimbursement Methodology for Other Long-Term Care Facilities

The reimbursement methodology is based on a prospective flat-rate system, with facilities divided into peer groups by licensure, level of care, bed size and geographic area in some cases. Rates for each category are determined based on data obtained from each facility's annual or fiscal period closing cost report. Audits conducted by the Department result in adjustments to the cost reports on an individual or peer-group basis. Adjusted costs are segregated into four categories:

Fixed Costs (Typically 10.5 percent of total costs). Fixed costs are relatively constant from year to year, and therefore are not updated. Fixed costs include interest on loans, depreciation, leasehold improvements and rent.

Property Taxes (Typically 0.5 percent of total costs). Property taxes are updated 2% annually, as allowed under Proposition 13.

Labor Costs (Typically 65 percent of total costs). Labor costs (i.e., wages, salaries, and benefits) are the majority of operating costs in a nursing home. The inflation factor for labor is calculated by DHCS based on reported labor costs.

All Other Costs (Typically 24 percent of total costs). The remaining costs, "all other" costs, are updated by the California Consumer Price Index.

Mandates & Quality Assurance Fee. The Department projects the cost of complying with new state or federal mandates and the Quality Assurance Fee (QAF).

Methodology by Type of LTC Facility

Projected costs for each specific facility are peer grouped by licensure, level of care, and/or geographic area/bed size.

Intermediate Care Facilities (Freestanding Nursing Facilities-Level A, NF-A) are peer-grouped by location. Reimbursements are equal to the median of each peer group.

Distinct Part (Hospital-Based) Nursing Facilities-Level B (DP/NF-B) are grouped in one statewide peer group. DP/NF-Bs are paid their projected costs up to the median of their peer group. When computing the median, facilities with less than 20 percent Medi-Cal utilization are excluded.

PROVIDER RATES

Intermediate Care Facilities for the Developmentally Disabled, Developmentally Disabled-Habilitative, and Developmentally Disabled-Nursing (ICF/DD, ICF/DD-H, ICF/DD-N) are peer grouped by level of care and bed size. Reimbursements are established at the 65th percentile of the group's projected costs.

Adult Subacute Care Facilities are grouped into two statewide peer groups: hospital-based providers and freestanding nursing facility providers. Subacute care providers are reimbursed their projected costs up to the median of their peer group.

Pediatric Subacute Care Units/Facilities are grouped into two peer groups: hospital-based nursing facility providers (Distinct Part Pediatric Subacute (DP/PSA) facilities) and Freestanding Pediatric Subacute (FS/PSA) facilities. There are different rates for ventilator and non-ventilator patients. Reimbursement is based on a model since historical cost data were not previously available. The FS/PSA reimbursement rates equal the lesser of the facility's costs as projected by the Department, or the rate based on the class median rates, broken down by ventilator and non-ventilator.

COVID-19 Impact on Long-Term Care Facilities

In response to the increased cost pressures incurred by the COVID-19 outbreak, the Department with CMS's approval has provided the following long-term care facilities with rate increase equal to 10 percent of their regular 2019-20 total reimbursement amount:

- Freestanding Skilled Nursing Facilities Level-B (FS/SNF-B)
- Nursing Facilities Level-A (NF-A)
- Distinct Part Skilled Nursing Facilities Level-B (DP/SNF-B)
- Freestanding Adult Subacute Facilities (FSSA)
- Distinct Part Adult Subacute Facilities (DP/SA)
- Distinct Part Pediatric Subacute Facilities (DP/PSA)
- Freestanding Pediatric Subacute Facilities (FS/PSA)
- ICF/DD (including ICF/DD-Habilitative, and ICF/DD-Nursing)

This increase does not apply to state-owned Skilled Nursing Facilities or ICFs, including Developmental Centers and Veterans Homes. The increased amounts are inclusive of add-ons, and the FS/PSA and the ICF/DD Proposition 56 supplemental payments.

The COVID-19 rate increases are effective March 1, 2020. For FS/SNF-Bs and FSSAs, the COVID-19 rate increase will continue through December 31, 2023. For ICF-DDs, rates after the end of the public health emergency (PHE) will be the greater of the annually updated regular rate or the total reimbursement on the last day of the PHE, inclusive of the COVID-19 rate increase.

PROVIDER RATES

In accordance with the 2023 Budget Act, and pending federal approval, for dates of service July 1, 2023, through December 31, 2023, FS/PSA reimbursement rates will be set at the total per diem rate in effect on August 1, 2022, inclusive of an amount equivalent to the COVID-19 PHE rate increase then in effect. For dates of service on or after January 1, 2024, FS/PSA rates shall be the greater of:

- (1) the reimbursement rate established by the applicable State Plan reimbursement methodology, or
- (2) the reimbursement rate in effect for the facility on December 31, 2023, inclusive of the amount equivalent to the COVID-19 PHE rate increase.

For all other facilities, the COVID-19 rate increase continued until the expiration of the PHE on May 11, 2023. Following expiration of the PHE, rates reverted to their regular levels.

AMERICAN RESCUE PLAN ACT

CalAIM is a comprehensive set of proposals that collectively are intended to: (1) identify and manage member risk and need through whole person care approaches and addressing the social determinants of health, (2) move Medi-Cal to a more consistent and seamless system by reducing complexity and increasing flexibility, and (3) improve quality outcomes, reduce health disparities, and drive delivery system transformation and innovation through value-based initiatives, modernization of systems, and payment reform. See <https://www.dhcs.ca.gov/calaim> for more information.

Initial components of CalAIM launched in the beginning of 2022 and the remaining components will go live over the next several years. Where fiscal impacts have been identified, policy changes have been included in the Medi-Cal Estimate to budget needed funding. Other components of the CalAIM proposal do not have estimated fiscal impacts in the Medi-Cal Estimate at this time, but are described hereafter:

1. Managed Care Specialty Mental Health Services Carve-Out

Under CalAIM, the Department is standardizing benefits provided through Medi-Cal managed care plans statewide. With some exceptions, regardless of a member's county of residence or the plan they are enrolled in, they will have the same set of benefits delivered through their Medi-Cal managed care plan as they would in another county or plan. Effective July 1, 2023, the Specialty Mental Health Services benefits that are currently within the scope of services delivered by Kaiser Permanente in Solano and Sacramento Counties are planned to be carved out and instead provided through the Specialty Mental Health Services delivery system. This resulted in a reduction in capitation paid to managed care plans, accounted for in the appropriate managed care base policy changes in the Estimate.

2. Updated Criteria for Specialty Mental Health Services

The Department is modifying the criteria for specialty mental health services to align with state/federal requirements and more clearly delineate and standardize the benefit statewide, effective January 1, 2022. As part of this effort, the Department is also seeking to identify and implement screening and transition of care tools that shall be used to determine the appropriate level of care for mental health services, effective January 1, 2023.

3. BH Administrative Integration

Research indicates that approximately 50% of individuals who have a serious mental illness have a co-occurring substance use disorder and that those individuals benefit from integrated treatment. The State provides Medi-Cal covered SUD and SMHS through two separate county-operated delivery systems, which makes it difficult for counties to provide integrated treatment to individuals who have co-occurring disorders. For example, counties participating in mental health and substance use disorder managed care are subject to two separate annual quality assessments, two separate post payment chart audits, and two separate reimbursement and cost reporting methods. In order to comply with these separate processes, counties providing integrated treatment to a Medi-Cal member must document the SUD service separately from the specialty mental health service. The purpose of this

AMERICAN RESCUE PLAN ACT

proposal is to make necessary state and county changes that would provide SUD and SMHS through one delivery system. Efforts to begin working on integration are targeted for January 1, 2022, aiming for a single county contract for SUD and mental health treatment starting January 1, 2027.

4. BH Regional Contracting

The Department recognizes that some counties have resource limitations often due simply to their size and the number of members residing in their county. Therefore, the Department is encouraging counties to develop regional approaches to administer and deliver SMHS and SUD services to Medi-Cal members. There are a variety of options available to counties, including a Joint Powers Authority to operate such services for a multi-county region (e.g., Sutter/Yuba). Counties could also pool resources to contract with an administrative services organization/third-party administrator or other entity, such as the County Medical Services Program, to create administrative efficiencies across multiple counties. Small counties, rural/frontier counties, and counties with shared population centers or complementary resources should consider opportunities for regional partnership. Furthermore, the Department is interested in discussing how counties not currently seeking DMC-ODS participation may be more interested in doing so through a regional approach and/or how services provided under SUD fee-for-service might also be provided through a regional approach. The Department is committed to working with counties to offer technical assistance and support to help develop regional contracts and establish innovative partnerships.

5. Enhancing CCS Oversight and Monitoring and Oversight

The California Children's Services (CCS) program provides case management, diagnostic, treatment, and physical and occupational therapy services to children and youth with special health care needs.

CCS members are best served when their care is delivered in a standardized and consistent manner across the State. Through the CalAIM initiative, the State shall ensure consistent high-quality standard of care, compliant with federal and State guidelines, is provided to all qualified members. As part of this initiative, the Department will implement new processes and procedures to provide enhanced monitoring and oversight of all 58 counties to ensure optimal care is provided for this medically fragile population. To implement this enhanced monitoring and oversight, the Department will develop a robust strategic compliance program that includes, but is not limited to review of all current standards and guidelines for the CCS program; development and implementation of auditing tools to assess county operations and compliance; analysis and evaluation of the findings gathered during audits (desk, on-site and/or virtual) to identify gaps and vulnerabilities across counties within these programs; implementation of corrective action plans as necessary; tracking trends; and, along with input from our county partners and other stakeholders, establishing goals, metrics, performance measures, and milestones to ensure counties are conducting provider oversight and providing the necessary medical and dental care for members. The Department will also enter into a Memorandum of Understanding with each county that will

AMERICAN RESCUE PLAN ACT

outline the State and county responsibilities to hold both entities accountable for action/in-action. **The initial MOU implementation date of July 1, 2025 has been deferred to a date yet to be determined based on further county and stakeholder engagement.**

~~After initial deployment of the enhanced monitoring and oversight,~~ **Until the MOU is executed,** the Department will continue to ~~conduct ongoing surveys, be proactive with emerging developments, and monitor trends~~ **counties** to ensure high-quality consistent care. ~~The Department will allow sufficient time for counties to implement and adjust to this new structure prior to engaging in any sort of progressive action. The Department will continue this robust~~ **with** strategic compliance oversight in order to preserve and improve the overall health and well-being of these vulnerable populations **population.** **Toward this effort, until an MOU is executed, counties can voluntarily opt to participate in the newly established additional monitoring and oversight functions to be eligible to invoice the state for additional monitoring and oversight funding.**

6. Enhancing Eligibility Oversight & Monitoring

The Enhancing County Eligibility Oversight and Monitoring initiative within the CalAIM proposal was precipitated by recent audits performed by federal and state oversight agencies which found weaknesses in the Department's oversight practices, and suggest that both increased monitoring and the development and implementation of additional oversight activities are needed to reduce erroneous eligibility determinations and facilitate increased accuracy in the administration of the Medi-Cal and CHIP programs. Due to the continuous coverage requirement in the federal Families First Coronavirus Response Act (FFCRA) signed into law on March 18, 2020, and instruction to counties to halt all Medi-Cal renewal processes and negative actions through the duration of the Public Health Emergency (PHE), this CalAIM initiative will be delayed accordingly. The implementation dates selected will be based on resumption of normal county business processes as we continue to navigate the PHE, with a measure of time built in afterward for counties to process and clean-up the resulting backlog. By December 31, 2023, DHCS will have implemented enhanced county oversight and monitoring activities to include lifting the current hold-harmless policy and reinstating county performance standards, publishing a public facing county performance dashboard, and taking steps toward fiscal sanctions for counties which do not demonstrate sufficient improvement in meeting performance expectations or are unresponsive.

7. Regional Managed Care Capitation Rates

As part of the CalAIM initiative, the Department is transitioning the development of Medi-Cal managed care plan rates from a county-based model to a regional rate model over the course of multiple years. The move to regional rates has two main benefits. The first benefit is a decreased number of distinct actuarial rating cells that are required and submitted to the Centers for Medicare and Medicaid Services (CMS) for review and approval. The reduction in rating cells simplifies the presentation of rates to CMS with a goal of allowing the Department to pursue/implement financing advancements and innovations utilizing a more flexible rate model. The second benefit of regional rates is that it allows cost averaging

AMERICAN RESCUE PLAN ACT

across multiple plans. This will continue to incentivize plan cost efficiencies, as plan rates will be inclusive of the costs within the multi-county region. This shift produces a larger base for averaging rather than just the experience of plans within a single county.

8. CalAIM DMC-ODS Renewal

The Department received CMS approval to renew the DMC-ODS program and incorporate additional services and benefits, effective January 2022. Through the new CalAIM 1115 Demonstration, the Department will continue the:

- Waiver of the IMD exclusion to secure federal Medicaid matching funds for DMC-ODS services that are provided in an IMD to individuals over 21 and under 65, and
- Continuation of the DMC-ODS Certified Public Expenditure (CPE) Protocols. CPE protocols would continue until Behavioral Health Payment Reform begins.

Effective January 1, 2022, the rest of the DMC-ODS transitioned from the 1115 Waiver Demonstration to the 1915(b) waiver authority, and corresponding State Plan Amendments (SPA) and Behavioral Health Information Notices, incorporating improvements to improve quality and access, based on the experience of the first five pilot years. The Department has conducted outreach efforts to encourage counties to participate in the DMC-ODS waiver and new counties have expressed interest in participating.

9. CalAIM Major Organ Transplant Risk Corridor

Effective January 1, 2022, all organ transplant benefits were standardized and carved into MCP covered benefits statewide for all Medi-Cal managed care members. This will continue to reduce complexity and ensure continuity of care without burdening members transitioning from one delivery system to another.

To protect the managed care health plans and the State against excessive gains/losses due to the implementation of the new benefits, the Department has established a two-sided, symmetrical risk corridor for the CY 2022 rating period, subject to CMS approval.

Calculations are anticipated to begin no sooner than January 1, 2024. A risk corridor will also be in place for the CY 2023 and CY 2024 rating periods, with calculations starting no sooner than 12 months after the end of each rating period.

10. Transitional Care Services

Effective January 1, 2025, the Department proposes transitional rent services as a new Community Support for qualifying individuals in the Medi-Cal Managed Care delivery system. The California BH-CONNECT demonstration would cover these transitional rent services for individuals in the Specialty Mental Health Services, Drug Medi-Cal (DMC), and DMC-Organization Delivery System. Transitional rent services will be closely coordinated across delivery systems, with other housing-related supports offered as Medi-Cal Community Support services, and with other non-Medi-Cal funded housing services.

AMERICAN RESCUE PLAN ACT

11. Foster Care Model of Care

Effective January 1, 2025, the Department proposes to revise the model of care for current and former foster children or youth, children or youth entering or at risk of re-entering the foster system, and the families and caregivers of these children and youth, including the Former Foster Youth program and those individuals transitioning out of foster programs and services at age 26 to the Medi-Cal managed care delivery system.

On March 11, 2021, the President signed the American Rescue Plan Act (ARPA) of 2021. ARPA includes several major provisions related to Medicaid. Most notably, ARPA: (1) provides 100 percent federal funding for COVID-19 vaccine administration, as described in the COVID-19 Vaccine Administration policy change; (2) adjusts the allocation of federal Disproportionate Share Hospital payments to account for an unintended interaction with increased FMAP previously provided under the Families First Coronavirus Response Act; (3) provides an additional temporary increase in the FMAP for certain home and community-based services, including behavioral health services; and (4) provides various funding streams related to behavioral health, described in greater detail below.

12. Behavioral Health Funding in ARPA

The ARPA provides various funding streams related to behavioral health. Some of these funding streams, such as that provided through Section 9813 (described immediately below) would come through the Medicaid program. Others would come in the form of additional grant funding outside of Medicaid.

Section 9813 provides 85 percent Medicaid match for qualifying community-based mobile crisis intervention services for twelve quarters during the five-year period starting April 1, 2022. Crisis response is a key gap in the state's system of behavioral health (BH) care. The Estimate includes a policy change to use the 85 percent Medicaid match in the Mobile Crisis Services policy change.

Sections 2701 and 2702 provide additional funding that would be made available to California counties using existing processes with additional workload to amend allocations and contracts. The funding is administered by Substance Abuse and Mental Health Services Administration and must be spent by September 23, 2025.

Section 2703 provides grant funding to support mental and behavioral health training for health care professionals, para-professions, and public safety officers. In order to spend the additional unanticipated funding made available through ARPA, the Department will need to develop policy and administration protocols. At this time, additional amounts allocated to California is still unknown.

Sections 2706 and 2707 provide funding to award grants to support states, local, tribal, and territorial governments; tribal organizations, nonprofit community-based organizations; and primary behavioral health organizations. Section 2706 grant awards will go toward supporting community-based overdose prevention programs, syringe services programs,

AMERICAN RESCUE PLAN ACT

and other harm reduction services, with a focus on drug misuse. Section 2707 grant awards will go towards addressing increased community behavioral health needs exacerbated by the COVID-19 pandemic (e.g., training the mental and behavioral health workforce using telehealth to deliver services).

In addition to the funding above, the American Rescue Plan Act also included funding to state and local governments. The funds are distributed to states, tribes, and territories based on a formula that considers the state's share of the nation's unemployment. The ARPA funds can be used for specific purposes including addressing public health impacts, negative economic impacts, and water, sewer, and broadband. State and local governments have until December 31, 2024, to expend the ARPA funds. Specified ARPA funds to California are deposited into the Coronavirus Fiscal Recovery Fund of 2021.

INFORMATION ONLY

ELIGIBILITY

1. Impact of SB 708 on Long-Term Care for Individuals with Unsatisfactory Immigration Status

Section 4 of SB 708 (Chapter 148, Statutes of 1999) reauthorizes state-only funded long-term care for individuals with unsatisfactory immigration status currently receiving the benefit (including aliens who are not lawfully present). Further, it places a limit on the provision of state-only long-term care services to individuals with unsatisfactory immigration status who are not entitled to full-scope benefits and who are not legally present. This limit is at 110% of the FY 1999-00 estimate of members unless the legislature authorizes additional funds. SB 708 does not eliminate the uncodified language that the *Crespin* decision relied upon to make the current program available to eligible new members. Because the number of undocumented immigrants receiving State-only long-term care has not increased above the number in the 1999-00 base year, no fiscal impact is expected due to the spending limit.

AFFORDABLE CARE ACT

1. Realignment

Under the Affordable Care Act, county costs and responsibilities for indigent care are expected to decrease as uninsured individuals obtain health coverage. The State, in turn will bear increased responsibility for providing care to these newly eligible members through the Medi-Cal expansion. The budget sets forth two mechanisms for determining county health care savings that, once determined, will be redirected to fund local human services programs. The 12 public hospital counties and the 12 non-public/non-County Medical Services Program counties have selected one of two mechanisms. Option 1 is a formula that measures health care costs and revenues for the public hospital county Medi-Cal and uninsured population and non-public/non-CMSP county indigent population. Option 2 is redirection of 60% of a county's health realignment allocation plus 60% of the maintenance of effort. Assembly Bill (AB) 85 (Chapter 24, Statutes of 2013) as amended by Senate Bill 98 (Chapter 358, Statutes of 2013) lays out the methodology for the formula in Option 1 and requires the department to perform the calculation. AB 85 also sets targets, and a process to meet the targets, for the number of newly eligible Medi-Cal members who will be default assigned to County Public Hospital health systems as their managed care plan primary care provider. Public hospital health systems will be paid at least cost for their new Medi-Cal population.

BENEFITS

1. Child Health and Disability Prevention (CHDP) Program

~~Only~~ **On** July 1, 2024, the Department discontinued the CHDP program. Foster children and youth will continue to receive services through the Health Care Program for Children in Foster Care (HCPCFC), which was preserved as a standalone, locally self-administered program.

INFORMATION ONLY

In addition, the Department launched the Children's Presumptive Eligibility (CPE) Program to replace CHDP Gateway. The CPE Program expanded provider access to include all applicable Medi-Cal providers. The majority of children and youth under the age of 21 will be enrolled into an MCP, through which they will receive ~~all~~ **covered** medically necessary ~~services~~ **benefits**. This aligns with the Department's goal under CalAIM to reduce administrative complexities. This transition ~~enhances coordination of care and increases standardization of care across Medi-Cal by consolidating~~ **clarifies that care management responsibilities for children/youth** **fall under Population Health Management requirements as provided** under the Medi-Cal managed care plans **MCP contract with the Department**.

2. Palliative Care Services Implementation

SB 1004 (Chapter 574, Statutes of 2014) requires the Department to:

- Establish standards and provide technical assistance for Medi-Cal managed care plans to ensure delivery of palliative care services;
- Establish guidance on the medical conditions and prognoses that render a beneficiary eligible for the palliative care services;
- Develop a palliative care policy that, to the extent practicable, is cost neutral to the General Fund on an ongoing basis;
- Define palliative care services; and
- Provide access to curative care for members eligible for palliative care.

Services are available concurrently with curative care and care is provided through a coordinated interdisciplinary team.

HOME & COMMUNITY BASED-SERVICES

1. No additional information.

BREAST AND CERVICAL CANCER TREATMENT

1. No additional information.

PHARMACY

1. Pharmacy Clinical Laboratory Improvement Amendments (CLIA)-Waived Tests

The Department plans to allow pharmacy providers that possess a CLIA Certificate of Waiver to be billed and reimbursed on a medical claim for CLIA-waived tests within their scope of practice as defined by the California State Board of Pharmacy. CLIA-waived tests are low complexity or simple point-of-care tests. Section 493, Title 42 of the Code of Federal Regulations and the Clinical Laboratory Improvement Amendments of 1988 allow waived tests to be performed in settings that have obtained a CLIA Certificate of Wavier from the federal Centers for Medicaid and Medicaid Services (CMS).

INFORMATION ONLY

California Business and Professions Code Section 4052.4 expanded the scope of pharmacists to perform specific Food and Drug Administration (FDA)-approved and authorized CLIA-waived tests. Pharmacists must have completed necessary training, and the pharmacy must be appropriately licensed by California Department of Public Health.

2. Value Based Purchasing

The Department is exploring opportunities to enhance state supplemental drug rebate agreements by implementing new value-based purchasing (VBP) agreements on cell and gene (CGT) treatments and other high-cost therapies.

The Department received federal Centers for Medicare and Medicaid Services (CMS) approval on May 22, 2024, for its VBP agreement template through SPA 24-0009. The Department has identified at least two CGT and other high-cost therapies that may be good candidates for VBP agreements and has engaged those manufacturers to further discuss and negotiate terms. The Department intends to execute at least these two VBP agreements, but potentially others as well, sometime in late 2025, which would then start yielding rebates in mid-2026.

In addition, the Department submitted an application for participation in CMS' CGT Access Model, which will allow for outcomes-based agreements (OBAs) for two sickle cell disease (SCD) therapies, Bluebird (LYFGENIA) and Vertex (CASGEVY). The pricing and outcome measures negotiated by CMS and the pharmaceutical manufactures will allow Medi-Cal to collect both federal (statutory) rebates and state supplemental rebates for these two SCD therapies. Assuming Medi-Cal members begin receiving these CGT therapies beginning in fiscal year 2025-26, the Department can then expect to receive rebates in late 2025 or early 2026.

DRUG MEDI-CAL

1. Traditional Healers and Natural Helpers

The Department proposes to add Traditional Healers and Natural Helpers as allowable provider types of DMC-ODS services when delivered by DMC-certified Indian Health Care Providers (IHCPs). IHCPs are limited to a health care program operated by the Indian Health Service (IHS), or by an Indian Tribe, Tribal Organization, or Urban Indian Organization (otherwise known as an I/T/U) as those terms are defined in section 4 of the Indian Health Care Improvement Act (25 U.S.C. 1603). The purpose of this request is to support the Department's focus on advancing health equity and provide culturally appropriate options and improve access to SUD treatment for American Indians and Alaska Natives with SUD. In the CalAIM Section 1115 demonstration renewal request submitted June 30, 2021, DHCS requested that CMS grant expenditure authority as necessary for federal reimbursement for covered DMC-ODS services delivered to DMC-ODS members by Natural Helpers and Traditional Healers at DMC-certified IHCPs. CMS did not approve this request as part of their December 29, 2021, CalAIM Section 1115 demonstration approval. This proposal to add Traditional Healers and Natural Helpers is still contingent on CMS approval.

INFORMATION ONLY**MENTAL HEALTH****1. Short-Term Residential Therapeutic Program/Qualified Residential Treatment Programs**

Congress enacted the Family First Prevention Services Act (FFPSA) on February 9, 2018. One of the intents of the FFPSA is to restrict the use of congregate care, unless absolutely necessary, by limiting Title IV-E maintenance payments to specific congregate care settings meeting defined requirements. The FFPSA added Qualified Residential Treatment Programs (QRTS) as one of those congregated care settings that may be used when specific criteria are met. In California, STRTPs are equivalent to QRTS. QRTS may be determined to meet criteria as an Institution for Mental Disease (IMD) in Title XIX, which prohibits federal reimbursement for covered services provided to members who are residents of an IMD. The Department wrote CMS and asked for STRTPs not to be considered as IMDs; CMS responded that it could not give this blanket approval and would require the Department to individually assess each STRTP to determine if it is an IMD. The Department completed its assessments and determined that three facilities are IMDs. Pending approval and implementation of the SMI/SED Demonstration Waiver, the state anticipates receiving federal reimbursement for services provided to members in those STRTP facilities that are assessed to be IMDs, exempting STRTPs from the standard length of stay limitations for a two-year period.

2. 9-8-8 Crisis Line

The National Suicide Hotline Designation Act of 2020 launched a national 9-8-8 suicide prevention and mental health crisis line on July 16, 2022, and gives authority for states to issue a fee to support state operations. Vibrant Health funded California to do implementation planning in this fiscal year; funding was granted to the Department, and the Department in turn contracted with the Lifeline Call Centers, with Didi Hirsch as lead, to lead a stakeholder process that started on February 1, 2021, and ended on January 31, 2022, with a final report by February 15, 2022. The Department will fund crisis call centers with \$20 million to support building capacity during the current fiscal year. In addition, the American Rescue Plan Act allows states to implement a new Medicaid benefit, Mobile Crisis Response Services, with an 85% federal match for the first three years of services for 12 quarters during the five-year period starting April 2022. The interplay between this mobile crisis benefit and the 9-8-8 implementation is still to be determined.

1115 WAIVER—MH/UCD & BTR/WAIVER 2020**1. Waiver 2020 Negative Balance and Deferral Repayment**

The Special Terms and Conditions (STC) of the California Medi-Cal 2020 Demonstration Waiver (Medi-Cal 2020) requires California's resolution of all existing negative Payment Management System (PMS) subaccount balances and deferred claims.

INFORMATION ONLY

- Negative PMS subaccount balances: Pursuant to STC 164 of the Medi-Cal 2020 waiver, negative PMS subaccount balances for federal fiscal year (FFY) 2013 and prior must be resolved by the end of the Medi-Cal 2020 waiver period (December 31, 2021). California and the Centers for Medicare and Medicaid Services (CMS) continue to actively work toward the resolution of these negative PMS subaccount balances. In June of 2017, due to the progress made to date, the CMS waiver team verbally declared that the STC 164 requirements had been met and that they would be sending written confirmation. Written confirmation from CMS is still pending. STC 164 requires that, for any negative PMS subaccount balances remaining after June 30, 2017, CMS will issue a demand letter and require California to return sufficient funding to bring the PMS subaccount balances to \$0. California has submitted adjustments to resolve a significant portion of the negative PMS subaccount balances via Quarters 1 and 2 of the 2016 grant year. If CMS disallows adjustments or claims, California will have the right to appeal them. STC 164 further requires that, for negative PMS subaccount balances identified in CMS' demand letter, California will need to repay CMS, in regular quarterly installments, with interest, by the end of the Medi-Cal 2020 waiver (December 31, 2021) or in three years from CMS' approval of California's repayment schedule, whichever is longer. Interest begins on the date of CMS' demand letter.

Repayment of deferred claims: Claims for which California has drawn down federal funding but CMS has deferred on or before June 30, 2017, CMS will issue a disallowance, triggering the appeal process. However, if the appeal is unsuccessful, California will be required to reimburse the federal funding. The deferred claims reimbursement will not be subject to interest. Some deferred claims contribute to the negative PMS subaccount balances, mentioned above, and may be liquidated through the negative PMS subaccount balance resolution. California is actively working to resolve these deferrals and the total federal funding reimbursement is unknown at this time. California will begin the FFY quarterly payments when the amounts are finalized.

Ongoing deferred claims repayment: In the past, California has not returned federal funding on CMS deferred claims until after the deferred claim was officially disallowed. Pursuant to the STCs of the Medi-Cal 2020 waiver, California must begin complying with 42 Code of Federal Regulations 430.40, which requires the immediate repayment of federal funding for deferred claims while the deferral is being resolved. Upon its determination that the claim is allowable, CMS will release the funding and allow California to utilize the federal funding. CMS disallowances fluctuate quarter to quarter, resulting in an unpredictable federal fund repayment amount.

The County Administration CMS Deferred Claims policy change will be deactivated until funds are available in the ADM-16 account to be reclaimed, of which \$8.21 million remains.

INFORMATION ONLY

MANAGED CARE

1. CalAIM – Managed Care SMHS Carve-Out

Specialty Mental Health Services (SMHS) benefits are currently within the scope of certain Medi-Cal managed care plans in two counties (Partnership in Solano, for certain enrollees, and Kaiser in Sacramento). Effective January 1, 2025, the SMHS benefits will be fully carved out from these managed care plans' responsibility and be provided through the Behavioral Health delivery system.

PROVIDER RATES

1. No additional information.

SUPPLEMENTAL PAYMENTS

1. Capital Project Debt Reimbursement

In February 2014, Los Angeles County requested reimbursement of a \$322 million bond project for the Construction, Renovation and Reimbursement Program (CRRP). The project was completed in April 2014.

The Department determined Los Angeles County's Harbor UCLA Surgery Emergency Replacement project was eligible under the CRRP and proceeded to provide CRRP supplemental reimbursement of \$176M in allowable principal, with an effective date of April 1, 2018.

COVID-19

1. No additional information.

OTHER: AUDITS AND LAWSUITS

1. Managed Care Potential Legal Damages

~~Three health plans filed lawsuits against the Department challenging the Medi-Cal managed care rate setting methodology for rate years 2002 through 2005. The cases are referred to as:~~

- ~~• *Health Net of California, Inc. v. DHCS*~~
- ~~• *Blue Cross of California, Inc., dba Anthem Blue Cross v. DHCS*~~
- ~~• *Molina Healthcare of California, Inc., v. DHCS*~~

INFORMATION ONLY

On June 13, 2011, judgment was issued in favor of Plaintiffs in the Health Net, Blue Cross, and Molina Healthcare cases. In all of the cases, the trial court determined that the Department had breached its contract with the managed care plans for the years in question. On November 2, 2012, the Department and Health Net entered into a settlement agreement resolving the Health Net lawsuit. Similarly, the Department has entered into settlement agreements with Blue Cross and Molina in mid/late 2013. The amount of payment due is contingent on each plan's profits, and the settlement accounting is scheduled to occur as follows, subject to applicable run-out and reconciliation periods provided in the settlement terms, and contractual risk corridor calculations: *Molina* (January 1, 2018); *Blue Cross* (January 1, 2019); *Health Net* (January 1, 2020).—

2. Hinkle, et al. v. Kent, et al.

Plaintiffs (individual Medi-Cal members and other similarly situated individuals) and Plaintiff California Council of the Blind allege that the Defendants (including the Department, Alameda County, Contra Costa County, and San Diego County) have failed to provide effective communication to blind individuals, by neglecting to identify and track people who need alternative, accessible formats and neglecting to respond appropriately to requests for alternative, accessible formats. These failures allegedly denied Plaintiffs and other putative class members' critical information about their health benefits, discriminate against them on the basis of their disabilities, and violate their due process rights under the United States Constitution. Plaintiffs seeks certification of the class action, a declaration from the court that all Defendants are in violation of Section 504 of the Rehabilitation Act of 1973, Section 1557 of the Affordable Care Act, the California Unruh Civil Rights Act, and other California statutes and implementing regulations. Plaintiffs also seek injunctive relief ordering Defendants to comply with the law and to: 1) provide all information provided to Medi-Cal applicants and members to Plaintiffs and similarly situated individuals in their requested alternative format; and 2) in consultation with Plaintiffs, develop a plan that includes any policy changes necessary for a durable remedy.

Plaintiffs filed their Complaint on October 22, 2018. Initial disclosures and an answer to the Complaint were filed on February 1, 2019. The parties reached a settlement after several years of discussions and mediation. Under the settlement agreement, the Department agreed to pay Plaintiffs' attorneys fees in the amount of \$1.55 million. On December 20, 2024, the court granted preliminary approval of the settlement agreement and certified the settlement class. The final fairness hearing to approve **court has approved** the settlement agreement. is scheduled for May 9, 2025.

3. Kent v. Phillip

The Department filed an estate recovery complaint to recover capitation payments made on behalf of a Medi-Cal members, consistent with state and federal policy. In response, the member's heirs filed a class action cross-complaint in San Luis Obispo Superior Court alleging the Department only has authority to recoup the costs of actual services rendered, and not the cost of capitation payments made on behalf of members enrolled in Medi-Cal managed care. On January 16, 2019, the court denied the Department's motion for judgement on the pleadings. On October 27, 2021, the court denied the Department's motion for summary judgment, and the Department filed a writ petition, which the Court of

INFORMATION ONLY

Appeal summarily denied. Subsequently, a class action was certified, and the parties stipulated to consolidate the trial and hearing on writ of mandate. On June 7, 2024, the Court held that under Welfare and Institutions Code section 14009.5, the Department can only recoup the value of actual services rendered and cannot recover capitation payments. On July 1, 2024, the Court determined that its interpretation of section 14009.5 applied retroactively and requires the Department to reprocess all past and present estate recovery claims. Judgment was entered on September 9, 2024, and the Department filed a Notice of Appeal on November 1, 2024. **The Department has filed its opening brief. The Respondent's brief is due for filing on November 21, 2025.**

4. Avenal Community Health Center, et al. v. Michelle Baass, et al.

~~This case was originally designated as Community Health Center Alliance, et al. v. Will Lightbourne, et al. On October 29, 2020, the Community Health Center Alliance for Patient Access (CHCAPA) and its constituent Federally Qualified Health Center (FQHC) members sued the Department and Director Lightbourne in the Eastern District Court of California. Plaintiffs' Complaint alleged that the Department's transition of the pharmacy benefit from Medi-Cal managed care to the Medi-Cal Rx fee-for-service delivery system prevented FQHCs from receiving the full extent of the cost-based Prospective Payment System (PPS) reimbursement for pharmacy services mandated under federal law. Plaintiffs sought to enjoin the implementation of the Medi-Cal Rx transition, along with the State's extension of the Medi-Cal 2020 demonstration project (which authorizes managed care generally) on procedural grounds.~~

~~Plaintiffs contended that the primary impact of the transition of the pharmacy benefit from Medi-Cal managed care to Medi-Cal Rx on FQHCs will be to deprive California FQHCs of the opportunity to profit on their drug sales to Medi-Cal managed care plans, which FQHCs purchase at discounted 340B rates. Furthermore, Plaintiffs also claimed that other aspects of the State's PPS reimbursement to FQHCs violated federal law, particularly for FQHCs who decide to "carve-in" the costs of pharmacy services to their PPS rate. In this regard, Plaintiffs alleged that the inflation-based growth rate for PPS rates would prevent FQHCs from receiving adjustments to their PPS rate to account for increases in pharmaceutical costs that exceed inflation, and that California's process for adjusting PPS rates violated federal law by limiting those adjustments to 80 percent of the per visit increase in costs.~~

~~On December 29, 2021, the federal Centers for Medicare and Medicaid Services (CMS) announced its approval of the State's CalAIM Section 1915(b) waiver, including the transition of pharmacy coverage from managed care to the fee-for-service delivery system. As a result, on December 30, 2021, plaintiffs filed an amended complaint against both the Department and CMS seeking to enjoin the Medi-Cal Rx transition. On January 10, 2022, the court denied Plaintiffs' motion for a temporary restraining order. The Department filed a motion to dismiss on February 8, 2022. On July 17, 2023, the District Court granted defendants' Motions to Dismiss. The court found that CMS's determinations and approvals were not arbitrary and capricious. With the dismissal of the underlying claims, the court also granted dismissal of the purported claim for declaratory relief. Plaintiffs appealed, and the case was redesignated as Avenal Community Health Center, et al v. Michelle Baass, et al. The U.S. Court of Appeals for the Ninth Circuit affirmed the District Court's dismissal on October 8, 2024. Plaintiffs did not seek a writ of certiorari from the United States Supreme~~

INFORMATION ONLY

~~Court, as the deadline to do so was January 6, 2025. Accordingly, the case is set to be closed.~~

5. Angel Care Enterprises, Inc. Dba Cole Home v. CDPH et al.

On January 5, 2023, Cole Home filed a petition for writ of mandate pursuant to Code of Civil Procedure section 1085. The petitioner alleges that it was not paid for Medi-Cal services provided to its clients from March 12, 2020, to April 21, 2021, which was allegedly improperly decertified. Cole Homes wants the Departments to rescind their prior decertification, from March 12, 2020, to April 21, 2021, and process and pay its claims from the period during which it was decertified.

6. AHMC Anaheim Regional Medical Center, et al. v. DHCS, et al.

On April 13, 2022, 31 California hospitals filed a petition for writ of mandate under California Code of Civil Procedure section 1085 challenging the Department's payments to hospitals for inpatient services under the All Patients Refined Diagnosis Related Groups (APR-DRG) methodology. Under APR-DRG, some hospitals receive cost outlier payments, which are add-on payments to the APR-DRG base payment for hospital stays that are exceptionally expensive. Petitioners assert that the Department failed to follow procedural requirements prior to implementing this methodology, exceeded statutory authority and failed to ensure the APR-DRG program, including outlier payments, remained budget neutral. Prior to filing their writ petition, Petitioners filed approximately 30 administrative appeals with the Department's Office of Administrative Hearings and Appeals (OAHA) wherein they disputed the Department's implementation of APR-DRG and the outlier policy. Appeals that reached the formal appeal level were dismissed by OAHA for lack of jurisdiction or withdrawn by the Petitioners. On May 24, 2022, petitioners filed an Amended Verified Writ Petition and Complaint adding an allegation that the challenged policy is arbitrary and capricious. On January 6, 2025, the court narrowed the issues presented in the case to one, by granting the Department's Motion for Summary Judgment. In favor of the Department, the court found that budget neutrality is not required of the APR-DRG program under the statute, that the program is neither arbitrary nor capricious, and that it does not violate the Due Process Clause. The court further held that the outlier policy does not violate the contract clause of the state and federal Constitutions. Leaving one issue for resolution, the court granted petitioners' Motion for Summary Adjudication, in part, finding that the Department failed to properly notice the legislature prior to posting Bulletin 518, before properly posting Bulletin 531 one year later. ~~The case is set for further briefing and hearing in February 2025.~~

On March 19, 2025, the court heard oral arguments on the parties' supplemental briefing submitted in response to the court's questions regarding: (i) whether the Department can reissue Bulletin 518 and retain the overpayments; and (ii) whether Bulletin 531 is similarly void due to its internal reference to Bulletin 518. On May 30, 2025, the court issued its order and decision granting petitioners' writ of mandate in part. In its decision, the court held Bulletin 518 is invalid and ordered the Department to return, with interest, funds recouped from and payments made to hospitals due to

INFORMATION ONLY

the Outlier Recalculation Policy for SFY 2016-17. The court further held Bulletin 531 is valid.

7. Ocean S. v. County of Los Angeles, et. al.

Plaintiffs are several individuals ages seventeen to twenty who are either in extended foster care or will be in extended foster care in Los Angeles County and purport to be a representative class for a class action lawsuit. The Department, the California Health and Human Services Agency (CHHSA), the California Department of Social Services (CDSS), and Los Angeles County (including the Department of Children and Family Services, and Department of Mental Health) are also named as defendants, including the respective directors of these entities.

Plaintiffs primarily allege that the County of Los Angeles did not provide sufficient support and placement settings to transition age foster youth. The Department is named as a defendant to the extent that Plaintiffs and similarly situated members of the class do not have access to behavioral health services covered under Medicaid/Medi-Cal and have been placed in more restrictive settings than is necessary for their condition ("Medicaid Act claim," "Integration Mandate (Olmstead) claim," and "general discrimination/methods of administration claim"). Plaintiffs are seeking declaratory relief, preliminary and permanent injunctive relief, and attorneys' fees and costs.

~~On September 21, 2023, Plaintiffs served a First Amended Complaint. The Department, CHHSA, CDSS, and the County of Los Angeles filed motions to dismiss. With respect to the Department, the motion to dismiss: (1) the Medicaid Act claim was granted with leave to amend; (2) the Integration Mandate (Olmstead) claim was granted with leave to amend; and (3) the general discrimination/methods of administration claim was denied. The court also determined that as to one of the named plaintiffs (Monaie T.), the First Amended Complaint did not plead sufficient facts to demonstrate that the plaintiff has a disability. Plaintiffs filed a Second Amended Complaint on August 12, 2024. The Defendants again filed motions to dismiss. The hearing on these motions is February 24, 2025.~~

The Department, CHHSA, CDSS, and Los Angeles County previously filed motions to dismiss. These motions were granted in part and denied in part. Plaintiffs filed a Second Amended Complaint on August 12, 2024. Defendants again filed motions to dismiss. On March 3, 2025, the court took the matter under submission. Los Angeles County filed a motion to certify for interlocutory appeal the District Court's order denying its motion to dismiss for lack of subject matter jurisdiction, which was granted. The Ninth Circuit accepted Los Angeles County's appeal and stayed further trial court proceedings.

8. Dee v. Sacramento County Board of Supervisors et al.

~~Petitioner's daughter is a Medi-Cal member who receives Specialty Mental Health Services (SMHS) from the Sacramento County Mental Health Plan (MHP). Petitioner alleges that, despite many requests, the MHP has failed to timely provide her daughter with necessary SMHS.~~

INFORMATION ONLY

~~Petitioner filed the petition on October 11, 2024. The petition alleges that the Department abused its discretion by adopting the ALJ's decision to dismiss the appeal following the State Fair Hearing on Petitioner's claim. In addition, the petition alleges that the Department abused its discretion by failing to adequately monitor the MHP, and that the Department failed to perform its ministerial duty to provide Medi-Cal members with the opportunity to challenge adverse benefit determinations through the State Fair Hearing process. The petition has not yet been properly served.~~

9. Highland Outpatient Clinic Administrative Audit Appeal

Highland Outpatient Clinic (Highland), a division of Alameda Health System, filed an administrative audit appeal challenging the Department's 2012 fiscal period audit adjustments of Federally Qualified Health Center (FQHC) encounter visits and the allocation of hospital-based costs. While the appeal was pending, Highland submitted fee-for-service medical and dental claims and received supplemental hospital reimbursement for services that may have been considered FQHC visits but for the Department's adjustments. Highland would like the Department to reverse FQHC audit adjustments to the reported encounter visits, adjust annual FQHC reconciliation payments based on the new FQHC payment rate, and convert any fee-for-service claims paid while the appeal was pending to FQHC visits paid at a Prospective Payment System (**PPS**) rate. Highland has been unable to provide verifiable data that would allow the Department to determine which paid fee-for-service claims could have been billed as FQHC visits. **The parties have reached a tentative agreement in principle for an agreed upon adjusted PPS rate and Highland agrees to accept the fee-for-service payments and supplemental reimbursements as payment in full for the claims made via fee-for-service.**

10. Audit of California Department of Health Care Services Capitation Payments (A-04-21-07097)

The Office of Inspector General (OIG) conducted an audit to determine if California made unallowable capitation payments on behalf of members with multiple Client Index Numbers (CINs). Based on OIG's sample results, California made unallowable capitation payments totaling approximately \$31.4 million (\$15.7 million Federal share) on behalf of members who had multiple CINs during the audit period of July 1, 2015, through June 30, 2019.

As of December 31, 2022, the Department repaid \$15,722,587 and continues to review capitation payments outside of OIG's audit period. The Department will refund any unallowable payments identified, but any amounts to be repaid and the timing of repayments is currently unknown.

11. In the matter of Liberty Dental Plan of California, Inc. (Appeal # MC24-0224-756-MF)

Liberty Dental filed a notice of dispute as to the Department's Medi-Cal dental managed care plan rates for Contract Years 2022, 2023, and 2024 due to the addition of the lab-processed crowns benefit, and appealed the Department's Contracting Officer Decision affirming those rates to OAH. The legislature added lab-processed crowns as a Medi-Cal dental benefit effective July 1, 2022. In its appeal, Liberty Dental

INFORMATION ONLY

argues that this new benefit required the Department to redetermine the Contract Year 2022 rate. Liberty Dental also asserts that the Contract Year 2023 and 2024 rates do not adequately consider this benefit, so the rates are not actuarially sound. Liberty projected that the cost impact is \$534,000 for Contract Year 2022, \$1,150,000 for Contract Year 2023, and \$504,000 for Contract Year 2024, totaling \$2.2 million. The parties have reached an agreement for Liberty Dental to withdraw their appeal in exchange for a payment of \$870,000 for the lab-processed crowns benefit for Contract Year 2022.

OTHER: REIMBURSEMENTS

1. Federal Upper Payment Limit

The Upper Payment Limit (UPL) is computed in the aggregate by hospital category, as defined in federal regulations. The federal UPL limits the total amount paid to each category of facilities to not exceed a reasonable estimate of the amount that would be paid for the services furnished by the category of facilities under Medicare payment principles. Payments cannot exceed the UPL for each of the three hospital categories.

2. Accrual Costs Under Generally Accepted Accounting Principles

Medi-Cal has been on a cash basis for budgeting and accounting since FY 2004-05. On a cash basis, expenditures are budgeted and accounted for based on the fiscal year in which payments are made, regardless of when the services were provided. On an accrual basis, expenditures are budgeted and accounted for based on the fiscal year in which the services are rendered, regardless of when the payments are made. Under Generally Accepted Accounting Principles (GAAP), the state's fiscal year-end financial statements must include an estimate of the amount the state is obligated to pay for services provided but not yet paid. This can be thought of as the additional amount that would have to be budgeted in the next fiscal year if the Medi-Cal program were to be switched to an accrual basis.

3. Refund of Recovery

CMS requested the Department prepare reconciliations of grant awards vs. federal draws for all fiscal years. The Department determined FFP was overpaid on some recovery activities. As a result of this determination, the Department is correcting the reporting of overpayments on the CMS 64 report. The Department expects a one-time refund of \$240 million FFP for federal FY 2007 through 2011 and \$34 million FFP ongoing each month.

4. Payment Deferrals

The Department issues weekly payments for Fee-For-Service providers. This process is referred to as the checkwrite. Starting in FY 2004-05, the Department implemented (1) an additional week of claim review prior to the release of provider payments starting in July 2004, this shifts the payment of the Fee-For-Service checkwrite by one week, and (2) the

INFORMATION ONLY

last checkwrite in June of each fiscal year has been delayed until the start of the next fiscal year.

OTHER: RECOVERIES**1. Recovery Audit Contractor (RAC)**

Title 42 Code of Federal Regulations Section 455.500 through 455.518 requires that States enter into contract with one or more RACs for the purpose of identifying underpayments and overpayments and recouping overpayments. The RAC Program's mission is to reduce improper Medi-Cal payments through the efficient detection and collection of overpayments, the identification of underpayments, the reporting of fraudulent and/or criminal activities, and the implementation of actions that will prevent future improper payments.

State Plan Amendment (SPA) 20 – 0017 provided the Department exemption from contracting with a RAC through February 1, 2022. Effective February 1, 2022, CMS approved SPA 21-0067 to establish a new RAC. The previous RAC contract was effective from July 1, 2021, to June 30, 2024. The new RAC contract is effective from July 1, 2024, to June 30, 2027. The RAC will be paid on a contingency basis determined by the amounts recovered from overpayments identified, and the refunded amounts of identified underpayments not to exceed the contract amount of \$3 million without a contract amendment to increase the contract amount.

OTHER: MISCELLANEOUS**1. Vital Records**

The Department has two contracts with CDPH to obtain vital records data. One contract allows the Department to obtain electronic data files of birth, death, and fetal death records from CDPH. The second contract allows the Third Party Liability Recovery Division, the Audits & Investigations Division, and the Medi-Cal Eligibility Division to request certified copies of birth, death, marriage, divorce, and fetal death records of Medi-Cal members from CDPH. The Department may amend the contract for certified copies to include other divisions as appropriate.

2. Electronic Visit Verification

Electronic Visit Verification (EVV) is a telephone and computer-based method that electronically verifies in-home service visits. EVV systems must verify type of service performed; individual receiving the service; date of the service; location of service delivery; individual providing the services; and time the service begins and ends. Section 1903 of the SSA [42 U.S.C. 1396b(l)] requires all states to implement EVV for Medicaid-funded Personal Care Services (PCS) and Home Health Care Services (HHCS) that require an in-home visit by a provider. In California, EVV impacts all PCS and HHCS provided under the Medi-Cal state plan and under several Medicaid waiver programs, including those Medicaid programs administered by the Department, CDSS, the California Department of Developmental Services (CDDS), the California Department of Aging (CDA), and the California Department of Public Health (CDPH).

INFORMATION ONLY

The State implemented two EVV systems, ~~EVV Phase I known as Case Management Information and Payrolling System (CMIPS)~~ and ~~EVV Phase II known as California Electronic Visit Verification (CalEVV)~~. CMIPS was implemented on July 1, 2023, via the existing CMIPS for PCS with a self-directed model and primarily impacts self-directed IHSS and ~~Waiver Personal Care Services~~ **WPCS**. CalEVV for PCS was implemented on January 1, 2022, and January 1, 2023, for HHCS, via a new CalEVV solution for PCS and HHCS with an agency model. This model includes all PCS and HHCS provided under all Medicaid authorities, including the State Plan, and waiver programs administered by the Department, DDS, CDA, CDSS, and CDPH.

1. State Controller's Office Interagency Agreement

The Department initiated an interagency agreement with the State Controller's Office (SCO) in FY 2016-17 to transition checkwrite services away from the Fiscal Intermediary (FI). Due to competing priorities, the Department put this project on hold. The Department initially planned to restart this work in FY 2017-18. However, due to lack of resources to fully support the project, a pending enterprise solution to the Federal Drawdown Reporting (FDR) system, as well as no legal mandate to transition the services at the time, the Department halted the project until the FDR could be properly implemented.

The Department does intend to work in the future with the SCO to alter the current check write function, which the FI is currently responsible for. The FI will continue to fulfill duties related to checkwrite until a new process has been implemented between the SCO and the Department. This complex effort will require multiple phases in order to alter the current system to allow for SCO takeover of the check write function. Costs to consider in the future pertain to analyzing business processes, system testing, updating the CD-MMIS and enabling the SCO systems the ability to perform the check write function.
