

Have You Registered for CalEVV?

Please reference the [Self-Registration Quick Reference Guide](#)¹ for step-by-step instructions on how to register for **California Electronic Visit Verification (CalEVV)**. Register through the [CalEVV Provider Self-Registration Portal](#)² or visit our [CalEVV website](#)³ for more information regarding provider self-registration and access to onboarding resource guides, training videos, frequently asked questions, and more!

Why Register for CalEVV?

Providers and caregivers who render MediCal-funded Personal Care Services (PCS) and Home Health Care Services (HHCS) are required to register for CalEVV, per the 21st Century Cures Act federal mandate.

Providers who fail to comply with EVV requirements may be subject to corrective actions up to and including denial of payment and sanctions.

Does CalEVV Apply to Me?

Refer to the [Provider Types and Codes](#)⁴ document on our [Department of Health Care Services \(DHCS\) CalEVV website](#)³ to determine which services are EVV impacted. If providers and caregivers bill to any of the Healthcare Common Procedure Coding System (HCPCS) and/or service codes listed, then EVV applies.
