Linking Rendering Providers to a Medi-Cal Enrolled Facility-Based Group that is Reporting Additional Facility Locations in a Supplemental Application

Step 1: Create a Supplemental application adding 1 or more Facility-Based locations. All locations being added must be entered before completing any rendering applications.

The rendering name and NPI are asked for when you create each location. However, this does not replace or fulfill the affiliation requirement. At least 2 new rendering or RS applications must be submitted separately for each facility-based group location after this Supplemental application has been completed, and the steps for how to do that follow in this document. Failure to submit two new rendering applications or RS affiliations for each facility-based group location will result in denial of your supplemental application.

	cords per page.									

Step 3: Enter the NPI of the rendering provider. A new rendering application will be generated if the rendering is not enrolled. If the rendering is currently enrolled, a Rendering-S application will generate.

Create Affiliation Application	An Affiliation application will be created 🛛 🗙
Enter the provider's NPI you would like to affiliste with: National Provider Identification (NPI) yalue is required	Please select. Create Affiliation Application to generate this affiliation application between Rendering NPI: and MEDICAL CORP, otherwise click on Cancel to return to My-Applications main option. To be able to submit this affiliation application, counter e-signatures are required. Rendering NPI: and 'MEDICAL CORP will need to sign the affiliation application. If it is and 'MEDICAL CORP will need to sign the affiliation application.

Step 4: Go to the "Group Info – Service Address" subtab. This will display each location that was created in the Supplemental and any locations that are already enrolled for the group. Select all locations where the rendering provider needs to be affiliated.

Step 5: Once everything in the rendering or RS application is completed including required e-signatures, submit the application(s) to DHCS Provider Enrollment Division.

Note: Complete steps 2-5 for each additional rendering provider.
