

Advancing Medi-Cal Rx

September 2023

Guiding Principles

» Focus on commitments:

- Minimize disruption and ensure safe and timely delivery of pharmacy benefits
- Standardize benefits through a single delivery system
- Improve access through a broad pharmacy network
- Apply statewide utilization management protocols
- Strengthen California's ability to negotiate supplemental drug rebates

» Drive to program goals through key partnerships with:

- Advocates
- Associations
- Pharmacies
- Prescribers

Strategic approach will continue:

- » Phased, iterative approach, informed by data and lessons learned
- » Stakeholder discussions and incorporation of feedback in planning and evaluation of implementation
- » A 30-day advance notice prior to system enhancements
- » A 90-day advance notice prior to changes for pediatric (21 and younger) member prior authorization requirements

Medi-Cal Rx Reinstatement

- » **Phase II:** Prior Authorization (PA) requirements for New Start prescriptions for adults 22 and older reinstated – **Completed**
- » **Phase III:** Retirement of the Transition Policy for renewing prescriptions for adults 22 and older – **Completed**
- » **Phase IV:** Reinstatement of utilization management claim edits and PA requirements for enteral nutrition products for adults 22 and older – **In progress through 2023**

Phase IV: Completion of Reinstatement

P4/L4 11/10/2023

Reinstate Utilization Management (UM) edit for Diagnosis
Retire Transition Policy for Enteral Nutrition Products

Postponed
until
December

Reinstatement Phase II-Phase IV

Performance

- » As of August 2023, PA requirements have been reinstated for 98% of pharmacy products for adults 22 years of age and older with only Enteral Nutrition products remaining.
- » Since September 2022, Medi-Cal Rx hosted more than 100 Reinstatement dedicated webinars with stakeholders to support successful implementation.
- » Between January 1 and August 28, 2023, Medi-Cal Rx:
 - Processed more than 387,000 PAs with an average PA review time of less than one hour.
 - Answered more than 377,000 calls with an average speed to answer of less than 30 seconds.
 - Processed more than 110 million paid point of sale pharmacy claims.

Shared Successes

Based on stakeholder feedback and collaboration:

- » The Contract Drug List (CDL) has been expanded to include more pediatric medications and/or formulations for improved access.
- » Enteral Nutrition criteria has been updated and an Enteral Nutrition-specific PA fax form was created to enhance the provider experience.
- » Claims response messaging has been modified for greater clarity and direction for pharmacists.
- » CoverMyMeds (CMM) adoption goals have been exceeded, with 80% of all PAs submitted via CMM, enabling auto-resolution (real-time approval or change in therapy) for 58% (as of June 2023).

Critical Learnings

» **Lead time is critical**

- Stakeholder preparedness requires awareness and ability to align with changes
 - Cascade/spread of information
 - System and/or process changes

» **Successful operation requires ongoing review of current processes for quality improvement, efficient processes, and system stability**

- Reduction in administrative burden
- Removal of barriers that hinder timely access to pharmacy benefits

» **Continued stakeholder engagement is critical**

- Foster key partnerships for cycle of continuous learning and improvement

» **Pediatric population should have same experience as adult population**

- Ensure safe and timely access with appropriate utilization controls
- Eliminate redundant processes for providers

Advancing Medi-Cal Rx

- » Cornerstone of strategy remains stakeholder partnership
 - Transparency
 - Advance notice of change including how stakeholders must prepare
 - Inclusion of feedback in planning and evaluation of implementation
- » Focus will shift from reinstatement to system and program enhancements
 - Leverage successful operational practices
 - Investigate and resolve identified issues as they arise
 - Consistently review current processes for quality improvement
 - Establish sustainable, efficient system for delivery of pharmacy benefit administration
