

Attachment 4: Coding and Coverage for Bone Conduction Hearing Devices(s), Related Equipment, and Accessories

HCPCS® Level II or National Code ¹	Description	Applicable Limits
L8690	Auditory osseointegrated device, includes all internal and external components ²	Sound Processor- 1 unit for each ear/side
L8692	Auditory osseointegrated device, external sound processor, used without osseointegration, body worn, includes headband or other means of external attachment ³	Sound Processor- 1 unit for each ear/side
L8691	Auditory osseointegrated device, external sound processor, replacement	With adequate justification, one replacement of external component every 5 years
L8693	Auditory osseointegrated device abutment, any length, replacement only ⁴	With adequate justification, one replacement of external component every 5 years
L8694	Auditory osseointegrated device, transducer/actuator, replacement only, each	With adequate justification, one replacement every 5 years

¹ Current Procedural Terminology (CPT®), developed by the American Medical Association, is part of the Healthcare Common Procedure Coding System (HCPCS). HCPCS is a standardized coding system which enables use of a code to denote a specific healthcare-related procedure, service, or supply. All requests to the CCS Program must be submitted using HCPCS Level II (National) codes; HCPCS Level III codes (i.e., Local or "Z" codes) should not be used.

² Denotes initial device implantation, not replacement. For reimbursement purposes, codes denoting surgical procedures associated with device implantation are to be reported separately.

³ Denotes device or systems which do not include surgically implanted components.

⁴ Denotes initial surgical implantation of the abutment (mechanical or magnetic component). Codes denoting surgical procedures for device implantation are to be reported separately for reimbursement purposes.

HCPCS® Level II or National Code¹	Description	Applicable Limits
L8618	Transmitter cable for use with cochlear implant or auditory osseointegrated device, replacement	Up to 8 in each 12month period, for each device
L 8621	Zinc Air battery for use with auditory osseointegrated sound processor	Up to 96 in each 12month period, for each device
L8624	Lithium-ion battery for use with cochlear implant or auditory osseointegrated device speech processor, ear level, replacement, each	Up to 2 replacements for each device, in each 12-month period
L8625	External recharging system for Li ion battery for use with cochlear implant or auditory osseointegrated device speech processor, replacement only, each	1 replacement for each device or side in each 12-month period
L9900	Orthotic and prosthetic supply, accessory, and/or service component of another L Code.	2 replacement Headbands or Softbands in each 12-month period; 110 adhesive stickers in each 12-month period for each ADHEAR device
L7510	Repair of prosthetic device, repair or replace minor parts	none
V5267	Hearing aid or assistive listening device/supplies/accessories, not otherwise specified	Accessories, including FM system
