10:24:41 From Sayida Peprah-Wilson (Dr/She/Her) Diversity Uplifts, Inc. to Everyone:

Great to hear that the glitches regarding gender diversity and billing have been resolved.

10:26:17 From Sydney Turner, Health Net to Everyone:

How frequently is DHCS updating the doula density graphic?

10:26:23 From Sandra Rosenblum to Everyone:

Doula density graphic reflects a lot of overlap because of doulas that have signed up to serve multiple counties. For example, there are 9 doulas listed for my county, but only one actually resides in the county and the rest live far enough away to make serving our county kind of unrealistic, except occasionally.

10:26:38 From Samsarah Morgan to Everyone:

Will a doula or doulas be present at all meetings where they are being discussed? If not I request this to happen as it seems that folks still don't know the room of the doula?

10:27:03 From Mia Janay to Everyone:

Numbers on the Doula Density are individual doulas? For example, Merced county 7 means 7 individual doulas?

10:28:04 From Ed Torres to Sydney Turner, Health Net And all panelists:

Good morning Sydney Turner, please place your question in the Q&A section and it will be answered. Thank you

10:28:05 From Jim Elliott to Everyone:

10:54:45 From Ajira Darch to Everyone:

Yes.

10:55:03 From Ajira Darch to Everyone:

If we can have that connected to demographics as well, that would be helpful

10:55:41 From vrindavani (they/them) to Everyone:

The doula directory does not allow to filter by ethnicity - so having something separately that indicates the demographics of doulas would be great

10:55:57 From vrindavani (they/them) to Everyone:

RIGHT!

10:56:05 From vrindavani (they/them) to Everyone:

10:56:21 From Stephanie Vandagriff to Hosts and panelists:

Absolutely

10:56:32 From vrindavani (they/them) to Everyone:

It's not equitable, it's not sustainable

10:57:30 From Frontline Doula Hub to Everyone:

Agreed

10:58:21 From Sabia Wade to Hosts and panelists:

And there's a lack of understanding that funders that would usually fund doula nonprofits have now changed their strategy based on thinking doulas are getting paid by MCPs so we also aren't able to get funding from other sources they way we would before

10:58:48 From Ajira Darch to Everyone:

That part @Sabia Wade

10:58:55 From Bambi Cisneros to Hosts and panelists:

<https://www.dhcs.ca.gov/individuals/Pages/MMCDHealthPlanDir.aspx>

10:59:01 From Khefri Riley to Everyone:

Example of complaint collected from feedback form. This is regarding Anthem Blue Cross: "They are completely incapable of processing LOA (Letter of Agreement) claims. We are a company that does billing for several doulas and we have experienced this issue countless times despite resubmitting information over and over and over again -- when you submit an LOA claim, you have to submit it via mail with a copy of the LOA and the provider's W9. Anthem loses the supporting documentation (the LOA and mostly the W9) EVERY SINGLE TIME and then they deny the claim saying that there's missing documentation. Every time! Even when we have called, they found the documentation, and then resubmitted the claim, they will deny the claim for the SAME REASON. It's unbelievable. We're completely at a loss. These poor doulas are missing several thousands of dollars. Many tell

me they're going to stop supporting Anthem clients because it's been impossible to get paid. "

10:59:38 From Pooja Mittal to Hosts and panelists:

It would be great to have DHCS be able to provide an easy two pager around the codes and billing for doulas. The plans can help provide the information. We need to make it easier for the doulas.

From the Feedback form about LA Care: "I have claims that have not been paid that are over a year old, as well as contracting issues"

11:00:04 From Robert Lancione to Everyone:

MCPs are difficult to work with. their credentialing is more difficult than PAVE. and, they often don't reply to requests for information or updates.

Hi Bambi, this list that you shared is for Medi-Cal members to reach contacts at MCPS:

11:00:35 From Lindsey (Loula) to Everyone:

Bambi, how do we reach out to you? What is the specific info you're referring to?

11:00:45 From Michel Huizar to Everyone:

doulabenefit@dhcs.ca.gov on slide 18

11:00:47 From Khefri Riley to Everyone:

One of the most concerning issues is doula's having to stop delivering services due to non payment, such as this feedback received about Molina: "Lack of support, late replies when following up on claims resulting in longer periods of not receiving payment. Currently, I have had to delay postpartum care for a Molina client, because they have no updates on my claim for a birth that happened in August. I still have not been paid, so I cannot offer postpartum support without knowing that I will get paid eventually."

11:00:56 From Sabia Wade to Hosts and panelists:

And the lack of recognition that we aren't huge enterprises like hospitals and clinics, we don't have reserve to wait for payments for months and especially years.

11:00:59 From Mikaela (they/she) Chumash Land/Simi Valley, CA to Everyone:

There are MCPs who have doula's who have been waiting for a year to contract

11:01:24 From Ajira Darch to Everyone:

11:01:25 From Tess Waxman to Hosts and panelists:

Anthem is impossible to work with. They owe me thousands of dollars for claims from over a year ago, and I can't get any information about the appeals I submitted.

11:01:29 From Robert Lancione to Everyone:

Molina is also slow and often non-responsive

11:01:45 From Ajira Darch to Everyone:

Just to clarify from a plan perspective=- are doulas experiencing not getting paid at all? Or is this specifically about the difference in payment between the old rate and new rate?

11:02:01 From Meng Fang (Santa Clara County) to Everyone:

doula services can be underutilized by Medi-cal member, especially if they don't know about the doula benefit.

I do want to lift up that as of November 1, 2024, we have 490 individual enrolled doulas in Medi-Cal and my colleagues in managed care can provide information on MCP contracts to date.

11:04:48 From Ed Torres to Everyone:

Good morning, my name is Ed Torres with DHCS and I am the representative that sends out requests for enrolled doula providers to be included in the doula directory. Please know that approximately 500 doula providers have enrolled in Medi-Cal. Of those 500 doula providers, 290 providers have given permission to be listed in the directory. The MCPs use the directory to contact doulas so approximately 1/3 of providers are not known to the plans because they have not given permission to be listed in the directory. Thank you.

11:04:54 From Tess Waxman to Hosts and panelists:

11:07:58 From Sabia Wade to Hosts and panelists:

In the name of research, can we all pull together how many individual doulas and orgs are thousands of dollars behind on payments and how it's impacting the outcome of the benefit? That's the emergency happening that doesn't seem to be held as priority in this space. If Doulas are resourced, the clients will be accessed, resourced and utilizing this benefit.

11:21:17 From Sabia Wade to Hosts and panelists:

I appreciate your words and I believe most of us, if not all, recognize the work being done. We're aiming not to minimize the work being done but we are bringing to light that the doulas are not doing well more often. If the doulas aren't doing well, the clients can't feel the positive impact at the amount they should feel it two years in.

I can concur that nationally, our issue still pale in comparison to other states numbers of doulas enrolling and being paid. I can also report that many doulas are reporting that IEHP is doing a great job enrolling and paying them. Also, a doula recently reported that Alameda Alliance is now paying them the current rate. We are always hoping to hear more good reports from doulas, but we will also keep lifting up concerns, as they come in.

The doula benefits success is on the back of doulas but everyone else is guaranteed their checks every two weeks but we aren't? It's a big disconnect.

11:25:04 From Kairis Joy Chiaji to Everyone:

The CA Doula Benefit has been spectacularly designed. It's the fact that the reality for the doula providers does not match. The frustration is when we bring it forward we keep getting referred to the design and for specifics that we have consistently provided for the past year.

@MCP representatives: Much appreciation for the <https://www.dhcs.ca.gov/services/medi-cal/Documents/24-746-Doula-Guidance-for-Hosps.pdf> which is directed at facilities. Is there a MCP champion that can offer other MCP their best internal practices for streamlining credentialing/enrollment, billing and reimbursement including staff training and internal evaluation of your processes? The TA and training focus needs to be on MCPs in addition to hospitals and doulas themselves. . There is an imperative here not only to do "as well as" you've been doing for other providers, but to do better than because most doulas are sole or small

group providers who do not have the financial safety net or administrative support of large institutions. When processes are slow or delayed, they are without an income and the workforce cannot scale up.
