California Outcomes Measurement System--Treatment Overview of Reports

The Department of Alcohol and Drug Programs (ADP) has installed the report programs of the output subsystem component of the California Outcomes Measurement System--Treatment (CalOMS Tx). The CalOMS Tx project was implemented to achieve the following objectives:

- Effectively manage and improve the provision of treatment services provided to AOD clients at the State, county and provider levels.
- Meet federal and State reporting requirements, including reporting obligations to other State agencies.
- Report to the Administration, Legislature, federal government, county boards of supervisors, provider boards of directors and other third-party payers information regarding the effectiveness of AOD programs in California.

The CalOMS output subsystem contains a variety of reports (listed below) and other informational tools that counties and direct providers (C/DPC) can use to more effectively analyze and interpret the AOD treatment data they have reported in CalOMS Tx.

The following pages contain an overview of the reports available within CalOMS Tx. When selecting a report, a report request “screen” is displayed to allow the user to select filter options through several drop-down menus prior to generating each report. In this document, the report request “screens” are shown before each of the sample reports. The first screen is what the county or provider would see when selecting a report through the ITWS Portal. The second screen is what internal ADP staff would see when generating a report.

TX Outcome Reports—a series 16 reports that can provide many different views of your CalOMS treatment data. This includes:

- **Assessing Services**
 - Source of Referral
 - Types of Service/Modality
 - Waiting List
- **Service Utilization**
 - Completion Rates
 - Length of Stay
- **Changes During Treatment**
 - Alcohol and Drug Use
 - Criminal Justice
 - Employment/Education
 - Living Arrangement
 - Medical/Health Issues
 - Mental Health Issues
 - Social Support Issues
- **Treatment Population**
 - Client Characteristics
 - Demographics
 - Parent and Child Status
 - Substance Use

Data Quality and Compliance Report—provides summary and supporting metrics regarding the timeliness, completeness, and accuracy of your CalOMS Tx data submissions.

Error and Submission Detail Report—provides record-by-record summaries of all errors encountered during your CalOMS Tx data submissions.

Open Admissions Report—lists all of your open AOD treatment admissions older than a user-selected number of months.

Parolee Services Network (PSN) Report—provides quarterly summary data on clients enrolled in this program; only applicable to counties participating in the PSN program.

SACPA Program Management Report— provides quarterly summary data on clients treated under the SACPA program.

Services Provided Outside County Report—provides a listing of AOD treatment services performed by providers located outside your county at your request.

Open Providers Report—lists all providers for the selected county that are open according to the Master Provider File (MPF) anytime during the selected report month.

The main content area is titled "California Outcomes Measurement System" and "Outcome Measures Report Filter". It includes a "Help" link. Below the title, there is a description: "These reports provide a variety of outcome data views that result from your selection of the filter parameters presented below."

The filter parameters are as follows:

- Report: Changes During Treatment, Alcohol and Drug Use
- Start Date: 3/1/2006 End Date: 3/31/2006 (MM/DD/YYYY)
- Special Population: All
- Primary Drug: All
- Service Modality: All
- Treatment Frame: Service (Admission to Discharge)
- Primary Group
 - C/DCP: McKissoon County
 - Provider: 590001 - Sunrise Recovery, 590002 - New Beginnings, 590003 - Marjorie's House of Recovery, 590004 - Miracles Happen, 590005 - Horizon Health Services
 - Buttons: Select All, Select, Remove, Remove All
- Comparison Group
 - C/DCP: Statewide
 - Provider: C/DCP Wide

At the bottom of the filter section, there are "View" and "Data Extract" buttons.

A callout box with a black border and white background contains the text: "Note: For the Changes During Treatment series of reports, the option to select a Treatment Frame is provided." An arrow points from this box to the "Treatment Frame" dropdown menu.

The footer of the page contains the text: "Conditions of Use | Privacy Notice | Email Webmaster".

Selection Parameters

Reporting Period:

Flexible Date Ranges

Data Selection Point:

Based on either Admission or Discharge/Annual Update data

Special Population:

All
Under 18
Women
Pregnant Women
Men
Needle Users
Homeless
Medi-Cal Eligible
CalWORKS
Veteran
Disabled
Parent of Minor Child
Mental Illness Diagnosis
SACPA (both Court/Probation and Parole)
SACPA (Court/Probation)
SACPA (Parole)
Drug Court (DCP and CDCI)
Drug Court Partnership (DCP)
Comprehensive Drug Court Implementation (CDCI)
Dependency Court

Race:

White/Caucasian
Black/African-American
Asian
American Indian and Alaska Native
Pacific Islander
Other
Multi Racial

Ethnicity:

Hispanic or Latino
Not Hispanic or Latino

Age At Admission:

Flexible Age Ranges (5 to 105)

Primary Drug:

All
Alcohol
Heroin
Other Opiates
Cocaine/Crack
Marijuana/Hash
Methamphetamine
Other Stimulants
Club Drugs
Other

Service Modality:

All
Day Care Rehabilitative
Detox (hospital)
Detox (non-hospital)
NTP Maintenance¹
NTP Detoxification²
Outpatient (medication)
Outpatient Detox (medical)
Outpatient Detox (non-medical)
Outpatient Drug Free
Residential (30 days or less)
Residential (31 days or more)

CA Fiscal Year:

Current FY (to date)
Previous FY

Treatment Frame (only available on Changes During Treatment reports):

Service (Admission to Discharge)
Update (Admission to Last Annual Update)

¹ NTP Maintenance is defined as Outpatient Services and Medication Prescribed as Methadone, LAAM or Buprenorphine (Suboxone)

² NTP Detoxification is defined as Outpatient Detoxification and Medication Prescribed as Methadone, LAAM or Buprenorphine (Subutex)

- ❖ This report provides information about the source of referral for AOD treatment clients, including their court-ordered referral status.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - Court Ordered is defined as SACPA, CDCI, DCP, Non SACPA Court, DUI/DWI.

Sample Data

Changes During Treatment, Alcohol and Drug Use

California Outcomes Measurement System

- ❖ This report provides information about the changes clients experienced in the use of their primary drug of choice—broken out in four categories: abstinence, reduction, no change, and increase—during the 30-day periods immediately prior to their admission to and discharge from AOD treatment. This includes summary and detailed client characteristics tables. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ Also included is a table that indicates the frequency of clients' alcohol use during the 30-day periods immediately prior to their admission to and discharge from AOD treatment for those clients whose primary and secondary drugs of choice were not alcohol.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ This report includes data for clients whose primary drug of choice identified at discharge was either the same as that identified at admission or was indicated as "None." This report excludes data for clients whose primary drug of choice at discharge was a different drug than that identified at admission.
- ❖ The data are based on service counts ("N") at two distinct points in time—during the 30-day periods immediately prior to their admission to and discharge from treatment. The data reflect each client's experience across the completed AOD treatment service set but not unique clients: for example, one client may have had more than one matching admission and discharge service set during the reporting period. This may result in multiple counts for the same client. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

- (1) - This report shows client data where the client's primary drug identified at discharge was either the same primary drug identified at admission or "None".
- (2) - For clients whose primary and secondary drug are not alcohol

Changes During Treatment, Criminal Justice

California Outcomes Measurement System

Report Period based on: Admission Date

Created By: Psoresi

Report Period: 1/1/2006 to 1/1/2007

Date Created: 6/26/2007 9:40:22 AM

Service Modality: All

Special Population: All

Primary Drug: All

Treatment Frame: Service (Admission to Discharge)

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Your County

Provider: C/DCP Wide

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

- ❖ This report provides information about the changes clients experienced in their criminal justice involvement during the 30-day periods immediately prior to their admission to and discharge from AOD treatment. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ This includes a summary table and a detailed client characteristics table for all clients that had any form of criminal justice involvement during these periods—as measured by arrests, jail days, or prison days.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—the 30-day periods prior to their admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

California Outcomes Measurement System

Report Period based on: Admission Date

Report Period: 1/1/2006 to 1/1/2007

Service Modality: All

Special Population: All

Primary Drug: All

Treatment Frame: Service (Admission to Discharge)

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Your County

Provider: C/DCP Wide

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

Sample Data

Changes During Treatment, Employment/Education

California Outcomes Measurement System

- ❖ This report provides information about the changes clients experienced in their employment or educational/job training status between their admission to and discharge from AOD treatment. This includes summary and detailed client characteristics tables for employed and unemployed clients as well as those in school or undergoing job training. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields, as well as records for clients under 16 years of age for the employment-related tables.
- ❖ The data are based on service counts ("N") at two distinct points in time—admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the changes in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

- (1) - For this report, the following tables report data for clients identified as "employed" if they are working "full time" (35 or more hours per week) or "part-time" (fewer than 35 hours per week).
- (2) - Client counts may overlap between the three Employment/Education categories shown.
- (3) - This table reports data for clients identified as unemployed, in the labor pool, and either seeking or not seeking employment. It does not include data on clients not in the labor pool.

Changes During Treatment, Living Arrangement

California Outcomes Measurement System

Report Period based on: Admission Date

Created By: Psoresi

Report Period: 1/1/2006 to 1/1/2007

Date Created: 6/26/2007 9:41:33 AM

Service Modality: All

Special Population: All

Primary Drug: All

Treatment Frame: Service (Admission to Discharge)

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Your County

Provider: C/DCP Wide

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

- ❖ This report provides information about the changes clients experienced in the status of their living arrangements between their admission to and discharge from AOD treatment. This includes a summary table and a detailed client characteristics table for clients who were homeless. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Sample Data

Changes During Treatment, Medical/Health Issues

California Outcomes Measurement System

- ❖ This report provides information about the changes clients experienced in their medical/health status during the 30-day periods immediately prior to their admission to and discharge from AOD treatment. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ This includes a summary table and a detailed client characteristics table for all clients that had any form of medical/health issues during these periods—as measured by emergency room visits, overnight hospital stays, or other physical health problems.
- ❖ This report also includes a table regarding AOD clients' HIV/AIDS test status (at admission and at discharge), including whether clients had been tested for HIV/AIDS and, if tested, whether they had obtained the test results. Note: CalOMS does not collect nor does this report address the results of any HIV/AIDS tests that may have been taken.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—the 30-day periods prior to their admission to and discharge from treatment (the HIV/AIDS test status table is measured at admission and discharge). The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Similar cell sizes also increase the potential risk of communicating protected health information (PHI).

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

- ❖ This report provides information about the changes clients experienced in their mental health status during the 30-day periods immediately prior to their admission to and discharge from AOD treatment. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ This includes a summary table and a detailed client characteristics table for all clients that had any form of mental health issues during these periods—as measured by receiving outpatient emergency services for mental health needs, 24-hour hospital or psychiatric facility stays, or taking prescribed medication for mental health needs.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—the 30-day periods prior to their admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

- ❖ This report provides information about the changes clients experienced in the status of three social support indicators during the 30-day periods immediately prior to their admission to and discharge from AOD treatment. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ This includes a summary and a detailed client characteristics table for each of the three social support indicators, including whether the client: was living with an AOD user, had not participated in any social support activities (e.g., 12-step programs; other religious, community, self-help meetings, etc.), or had experienced serious family conflicts.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—the 30-day periods prior to their admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Date Created: 6/26/2007 9:47:44 AM

Sample Data

- ❖ This report provides information about the treatment completion rates experienced by AOD treatment clients, including detailed characteristics about clients who did and who did not complete their treatment.
- ❖ The data were collected during client discharges from AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment discharge during the selected reporting period.
- ❖ This report excludes data for clients whose discharges were due either to the client's death or incarceration.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).
- ❖ Note: The "Fiscal Year" filter selection is not used by this report despite being listed above.

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - The following data does not include clients who left before treatment completion due to death or incarceration.

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

Sample Data

- ❖ This report provides information about the lengths of stay experienced by AOD clients during treatment, including a specific breakout for clients receiving NTP services/modalities.
- ❖ The data were collected during client discharges from AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment discharge during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).
- ❖ Note: The "Fiscal Year" filter selection is not used by this report despite being listed above.

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - Client counts under NTP Maintenance overlap with the Outpatient and Residential sub groups.

Treatment Admissions, Client Characteristics

California Outcomes Measurement System

Report Period based on: Admission Date

Created By: Psoresi

Report Period: 1/1/2006 to 1/1/2007

Date Created: 6/26/2007 9:48:43 AM

Service Modality: All

Special Population: All

Primary Drug: All

Fiscal Year: 2006-07

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Your County

Provider: C/DCP Wide

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

Sample Data

- ❖ This report provides information about AOD treatment client characteristics in the following categories: employment status, education level, legal status, special needs, HIV/AIDS test status, and communicable disease diagnosis.
- ❖ The table regarding AOD clients' HIV/AIDS test status indicates whether clients were tested for HIV/AIDS and, if tested, whether they obtained the test results. Note: CalOMS does not collect nor does this report address the results of any HIV/AIDS tests that may have been taken.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - As is done for the other categories in the "Special Needs" table, the percent (%) value for 'Pregnant at Admission' is calculated using the total number of admissions during the reporting period and not just female admissions.

Sample Data

- ❖ This report provides information about the parental status of AOD treatment clients, including clients with minor children, parental rights and child custody, and the unique number of minor children of AOD clients.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts (“N”) and not unique clients (except where noted in the final table—Actual Number of Minor Children of Unique Clients). This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - This report includes the total number of clients' minor children. It does not indicate the number of minor children in treatment or accompanying the parent/client to treatment.

Treatment Admissions, Substance Use

California Outcomes Measurement System

Report Period based on: Admission Date

Created By: Psoresi

Report Period: 1/1/2006 to 1/1/2007

Date Created: 6/21/2007 12:50:14 PM

Service Modality: All

Special Population: All

Primary Drug: All

Fiscal Year: 2004-05

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Your County

Provider: C/DCP Wide

Comparison Group:

C/DCP: Statewide

Provider: C/DCP Wide

Sample Data

- ❖ This report provides information about the primary and secondary drugs of choice for AOD treatment clients, including route of administration, frequency of use, age of first use, and the number of prior treatment episodes.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

CalOMS Data Quality and Compliance Report Screen

Interface Screen (used by ADP Staff)

The screenshot shows a web browser window titled "CalOMS - Data Quality/Compliance Report Filter - Microsoft Internet Explorer provided by ADP". The address bar shows the URL: <https://caloms.adp.ca.gov/caloms/DataQualityAndComplianceReport.aspx>. The page content includes a navigation menu on the left with categories: Reports & Extracts, Outcome Measures, System Management, Security Management, and Change Password. The main content area is titled "California Outcomes Measurement System Data Quality/Compliance Report Filter" and contains a description: "This report contains data quality and compliance information for a selected report month." Below this are several form fields: "C/DCP:" with a dropdown menu showing "Your County"; "Report Month:" with dropdowns for "January" and "2007"; "Reference Month:" with dropdowns for "January" and "2007"; and "Include NTP Maintenance:" with a dropdown menu showing "Yes". At the bottom of the form area are two buttons: "View" and "Data Extract". The footer of the page contains links for "Conditions of Use", "Privacy Notice", and "Email Webmaster", along with copyright information: "© 2005 State of California version 3.5". The Windows taskbar at the bottom shows the Start button, a taskbar with "CalOMS - Data Quality...", and system tray icons including Internet, a clock showing 8:04 AM, and other background applications.

Data Quality and Compliance Report

California Outcomes Measurement System

C/DCP: Your County

Report Month: January 2007

Reference Month: January 2007

NTP Maintenance: Yes

Created By: Psoresi

Date Created: 7/12/2007 8:25:57 AM

- ❖ This report provides information to enable counties and direct providers to monitor and evaluate their performance in meeting established CalOMS data quality and compliance reporting standards.
- ❖ The report includes a high-level summary overview that indicates whether the county's or direct provider's CalOMS performance is compliant based on five measures that address CalOMS data quality standards for timeliness, completeness, and accuracy.
- ❖ Three support tables are included so counties and direct providers can monitor and evaluate the underlying data being measured.
- ❖ Note: The "Total Provider Count" and "# of Reporting Providers" counts in the Summary Metrics for Selected Report Month table on page 3 of this report may not be accurate as a result of a known issue regarding provider type (county contracted vs. ADP direct contract providers). Consequently, compliance measure CM-1 (Number of Providers Not Reporting) will not be used at this time. This issue will be resolved in an upcoming CalOMS Tx system release to be implemented in the summer of 2007.

*****Important*****

Protect all CalOMS reports as protected health information (PHI). At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Data Quality Measures Performance Summary for Selected Report Month

Compliant?	Measure & Description
NO	TM-1: Total Late Submissions shall not exceed 5% for any report month.
NO	TM-2: Total Late Re-Submissions shall not exceed 5% for any report month.
NO	CM-1: # Not Reporting (number of providers not reporting service or no activity) shall equal 0 for each report month.
NO	CM-2: Total % Records Late shall not exceed 1% for each report month as measured in the 6th submission month.
Yes	AM-1: % Records Rejected shall not exceed 5% for each report month.

USE GUIDE: This summary provides an "at-a-glance" view of your performance on ADP's data quality measures for the selected Report Month. Use subsequent pages to explore failures identified in this summary or for ongoing monitoring of data quality information. "----" indicates that this measure cannot be evaluated yet.

USE GUIDE: Use this summary to track metrics for the selected report month as compared to prior report months and the same month last year. You can track record volume (Total Records Received) as well as general metrics on timeliness (On-Time, Late). You can also see if admissions and discharges are in balance (Adm/Discharge Ratio) and how well your providers are reporting.

The screenshot shows a web browser window titled "CalOMS - Error and Submission Detailed Report - Microsoft Internet Explorer provided by ADP". The address bar shows the URL: <https://caloms.adp.ca.gov/caloms/SubmissionDetailedReport.aspx>. The page content includes a navigation menu on the left with categories like "Reports & Extracts", "Outcome Measures", "System Management", "Security Management", and "Change Password". The main content area features a header "California Outcomes Measurement System" and "Error and Submission Details Report Filter". Below this, there is a descriptive paragraph: "This report contains detailed file submission information for files submitted between the specified start and end dates. Accepted and rejected submissions are included, as well as error information. The C/DCP receives this report for each submission." The filter section includes input fields for "Start Date" (01/01/2006) and "End Date" (06/01/2006), a dropdown for "C/DCP" (Your County), and a "Record Status" dropdown (All). There are "View" and "Data Extract" buttons. The footer contains links for "Conditions of Use", "Privacy Notice", and "Email Webmaster", along with copyright information: "© 2005 State of California version 3.5". The Windows taskbar at the bottom shows the Start button, open applications, and the system clock at 11:23 AM.

This report lists open treatment Admission records (those that have not been followed by a corresponding Discharge) where it has been longer than the specified number of months since the record was first opened or since the most recent Annual Update, if appropriate.

Note: Selecting a small number in the "Number of Months" field below may result in a very large report due to the large number of open Admissions records that would satisfy the search criteria.

The screenshot shows a web browser window titled "CalOMS - Parolee Services Network Report Filter - Microsoft Internet Explorer provided by ADP". The address bar shows the URL: <https://caloms.adp.ca.gov/caloms/ParoleeServicesNetworkReport.aspx>. The page content includes a header for "California Outcomes Measurement System" with a "Help" link. Below the header is a navigation menu with categories: "Reports & Extracts" (containing links for Submission Mgmt, Monthly Control - C.DCP, Monthly Control - Prov, MPF Conflicts, Parolee Services Network, SACPA Report, and Manage Reports), "Outcome Measures" (containing links for Data Quality/Compliance, Services Outside County, Open Admissions, and Err Submission Details), "System Management" (containing links for Manage Contacts, Manage System Codes, and Convert from CADDs), "Security Management" (containing links for Manage Users, Manage Roles, Manage Tasks, and Access of Data Files), "Change Password", and "Logout". The main content area features a description: "This report provides quarterly summary information for the Parolee Services Network program." Below this is a "Fiscal Year" dropdown menu set to "2006-07" and a "County" dropdown menu set to "Your County". There are two buttons: "View" and "Data Extract". At the bottom of the page, there are links for "Conditions of Use", "Privacy Notice", and "Email Webmaster", along with the copyright notice "© 2005 State of California version 3.5". The Windows taskbar at the bottom shows the Start button, several open applications (Inbox - Microsoft Out..., CalOMS - Parolee Ser..., Document3 - Microso...), and the system tray with the time "12:14 PM". A large "Sample Data" watermark is overlaid diagonally across the page.

Parolee Services Network - County Quarterly Summary Report

California Outcomes Measurement System

Fiscal Year: 2006-07

Created By: Psoresi

C/DCP: Your County

Date Created: 7/16/2007 12:23:21 PM

- ❖ This report fulfills the Interagency Agreement (IA) between the Department of Alcohol and Drug Programs (ADP) and the Department of Corrections and Rehabilitation (CDCR), to submit a quarterly report on the Parolee Services Network (PSN) project which ADP administers for CDCR.
- ❖ The PSN report provides information about AOD treatment clients who are parolees in the PSN project and is broken down into detailed client characteristics and admission counts for each quarter of the fiscal year and as cumulative to date.
- ❖ With the exception of the "Unique Clients Served" category, the data are based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one AOD admission or discharge during the reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the

The screenshot shows a web browser window titled "CalOMS - SACPA Program Management Report Filter - Microsoft Internet Explorer provided by ADP". The address bar shows the URL "https://caloms.adp.ca.gov/caloms/SACPAReport.aspx". The page content includes a navigation menu on the left with categories like "Reports & Extracts", "Outcome Measures", "System Management", and "Security Management". The main content area features a header "California Outcomes Measurement System" and "SACPA Program Management Report Filter". Below the header, there is a description: "This report provides quarterly summary information for clients in the SACPA and Drug Court programs." The interface includes three dropdown menus for "Fiscal Year" (set to 2006-07), "County" (set to Your County), and "Population" (set to All SACPA). There are "View" and "Data Extract" buttons below the filters. At the bottom of the page, there are links for "Conditions of Use", "Privacy Notice", and "Email Webmaster", along with the copyright notice "© 2005 State of California version 3.5". The Windows taskbar at the bottom shows the Start button, several open applications, and the system tray with the time 12:25 PM.

SACPA Program Management Report

California Outcomes Measurement System

Fiscal Year: 2006-07

Created By: Psoresi

C/DCP: Your County

Date Created: 7/16/2007 12:24:19 PM

Special Population: All SACPA

- ❖ This report provides information about AOD treatment clients in the SACPA and Drug Court programs; it is broken down into detailed client characteristics and admission and discharge counts for each quarter and cumulative totals for the selected fiscal year.
- ❖ The data are based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one AOD admission or discharge during the reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

CalOMS Services Provided Outside County Report Screen

Interface Screen (used by Counties and Direct Contract Providers)

The screenshot shows a web browser window titled "CalOMS - Services Provided Outside County Report Filter - Microsoft Internet Explorer provided by ADP". The address bar shows the URL: <https://mhitws.cahwnet.gov/itws/calomstps/ITWSCountriesProvidingServicesReport.aspx>. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar contains Back, Forward, Stop, Home, Search, and Favorites buttons. The address bar also includes a Google search box, a Go button, and a list of bookmarks. The page content features a navigation menu with links for Home, Systems, CALOMS Information, Functions, Utilities, Support, and Logout. The main heading is "CalOMS Services Provided Outside County Report" with a subtitle "Services Provided Outside County Report Filter" and a "Help" link. Below the heading, a text box states: "This report lists all Counties and Direct Contracted Providers that have reported providing AOD services on behalf of the requestor." The form includes two date input fields labeled "Start Date:" and "End Date:" with a "(MM/DD/YYYY)" format hint, and a dropdown menu for "Requester Name:" currently set to "Your County". At the bottom of the form are "View" and "Data Extract" buttons. A footer note reads: "This site is best viewed with Internet Explorer version 5.5 and above." and a copyright notice: "©2004 California Department of Mental Health, Information Technology". The Windows taskbar at the bottom shows the Start button, several application icons, and the system tray with the time "2:38 PM". A large blue "Sample Data" watermark is overlaid diagonally across the page.

Services Provided Outside County

California Outcomes Measurement System

Report Period: 1/1/2006 to 6/1/2006

Created By: Psoresi

County: Your County

Date Created: 7/12/2007 1:28:56 PM

- ❖ This report provides information about AOD treatment services performed for a county by providers located outside the county.
- ❖ The report provides the following information regarding each AOD treatment admission being provided by the out-of-county providers: provider ID, provider name, provider participant ID, form serial number,
- ❖ This report can be used by the paying county to verify that the resulting AOD client treatment admission data, for the treatment services for which they have paid, has been successfully reported to the CalOMS

*****Important*****

Protect all CalOMS reports as protected health information (PHI). At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and

Report Month: April 2008

County: YOUR COUNTY

Created By: Psoresi

Date Created: 7/8/2008 9:55:21 AM

- ❖ This report lists all providers for the selected county that are open, according to the MPF, any time during the selected report month.
- ❖ All providers listed on this report are currently providing at least one type of CalOMS service.
- ❖ This report provides the following information regarding each Open Provider: ID (Provider ID), NPI (National Provider ID), Provider Name, Address, Service Types (Non-Res/Outpatient/Recovery, Non-Res/Outpatient Day, Non-Res/Outpatient Detox, Res Detox (Hospital), Res Detox (Non-Hospital), Res Recovery <31 days, Res Recovery >30 days), Methadone Status (Outpatient Methadone Maint., Outpatient Methadone Detox.), and Submittal Information (Reporting Provider?, Provider No Activity?)
- ❖ The following fields on this report represent data as of when the report was created ('Date Created'), not as of the 'Report Month': ID (Provider ID), NPI (National Provider ID), Provider Name, Address, Service Types (Non-Res/Outpatient/Recovery, Non-Res/Outpatient Day, Non-Res/Outpatient Detox, Res Detox (Hospital), Res Detox (Non-Hospital), Res Recovery <31 days, Res Recovery >30 days), and Methadone Status (Outpatient Methadone Maint., Outpatient Methadone Detox.)
- ❖ The following fields on this report represent data as of 'Report Month', not as of when the report was created ('Date Created'): Submittal Information (Reporting Provider?, Provider No Activity?)
- ❖ Service Types may include both historical and current information for each provider.

*****Important*****

Protect all CalOMS reports as protected health information (PHI). At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).
