1. Provision of Services

This Intergovernmental Agreement is entered into by and between the Department of Health Care Services (DHCS) and the Contractor for the purpose of identifying and providing for covered Drug Medi-Cal (DMC) services for substance use disorder (SUD) treatment in the Contractor's service area pursuant to Sections 11848.5(a) and (b) of the Health and Safety Code (hereinafter referred to as HSC), Sections, 14021.51 – 14021.53, and 14124.20 – 14124.25 of the W&I Code, Sections and Title 22 of the California Code of Regulations (hereinafter referred to as Title 22), Sections 51341.1, 51490.1, and 51516.1, and Part 438 of the Code of Federal Regulations (hereinafter referred to as 42 CFR 438).

- A. It is further agreed this Intergovernmental Agreement is controlled by applicable provisions of: (a) the W&I Code, Chapter 7, Sections 14000, et seq., in particular, but not limited to, Sections 14100.2, 14021, 14021.5, 14021.6, 14043, et seq., (b) Title 22, including but not limited to Sections 51490.1, 51341.1 and 51516.1; and (c) Division 4 of Title 9 of the California Code of Regulations (hereinafter referred to as Title 9).
- B. It is understood and agreed that nothing contained in this Intergovernmental Agreement shall be construed to impair the single state agency authority of DHCS.
- C. The objective of this Intergovernmental Agreement is to make SUD treatment services available to Medi-Cal beneficiaries through utilization of federal and state funds available pursuant to Title XIX or Title XXI of the Social Security Act for reimbursable covered services rendered by certified DMC providers. These services shall be provided through a Prepaid Inpatient Hospital Plan (PIHP) as defined in 42 CFR 438.2.
- D. Awards under the Medical Assistance Program (CFDA 93.778) are no longer excluded from coverage under the Health and Human Services (HHS) implementation of the A-102 Common Rule, 45 CFR part 92 (*Federal Register*, September 8, 2003, 68 FR 52843-52844). This change is effective for any grant award under this program made after issuance of the initial awards for the second quarter of Federal Fiscal Year 2004. This program also is subject to the requirements of 45 CFR part 95 and the cost principles under Office of Management and Budget Circular A-87 (as provided in *Cost Principles and Procedures for Developing Cost Allocation Plans and Indirect Cost Rates for Agreements with the Federal Government*, HHS Publication ASMB C-10, available on the Internet at <http://www.dol.gov/oasam/boc/ASMB C-10.pdf>).
- E. The Drug Medi-Cal Organized Delivery System (DMC-ODS) is a Medi-Cal benefit provided by, and within, this county (Contractor) through a county operated PIHP as defined in 42 CFR 438.2. The Medi-Cal DMC-ODS waiver program covers only drug Medi-Cal services and is limited to the coverage of DMC-ODS services. Accordingly, the following provisions of 42 CFR 438 are not applicable to the DMC-ODS waiver: 1) obtaining information regarding advanced directives (42 CFR 438.6(i)), 2) marketing activities (42 CFR 438.104), 3) providing emergency post-stabilization services (42 CFR 438.114), 4) solvency standards (42 CFR 438.116), 5) women's health services (42 CFR 438.206(b)(2) and 6) identification of individuals with special health care needs (42 CFR 438.208(c)(1) (there is no difference in the provision of services for special needs populations and any other covered population under the DMC-ODS waiver program). In

Exhibit A, Attachment I
Program Specifications

addition, no family planning services, including abortion procedures, are provided through the DMC-ODS waiver; therefore 42 CFR 431.51(b)(2) and 441.202 are not applicable. Finally, the disclosure requirements set forth in 42 CFR 455.100-104 are not applicable to the DMC-ODS waiver given that each PIHP is county owned and operated.

Under this DMC-ODS waiver program, free choice of providers is restricted. That is, beneficiaries enrolled in this program must receive DMC-ODS services through a single county operated PIHP. Based on this service delivery model, DHCS has requested, and CMS has granted approval to waive the following provisions for the DMC-ODS delivery model: 1) choice of PIHP (42 CFR 438.52), 2) allowance of disenrollment (42 CFR 438.56) (beneficiaries shall be provided with a choice of providers within the PIHP and an opportunity to change providers whenever feasible), and 3) notice required by 42 CFR 438.10(f)(3).

This Agreement requires Contractor to ensure the availability and accessibility of adequate numbers of facilities, service locations, service sites, and professional, allied and supportive personnel to provide medically necessary services, and ensure the authorization of services for urgent conditions. The DMC-ODS waiver program provides for automatic mandatory enrollment of all Medi-Cal beneficiaries in the single PIHP operating in the county in which the beneficiary resides. PIHPs in a very small county or in any one geographic area may have a limited number of providers for a particular service. If additional providers are not needed to meet general access requirements, Contractor is not obligated to contract with additional providers to provide more choices for an individual beneficiary.

This Agreement requires Contractor to provide all information that meets the content requirements of 42 CFR 438.10. This Agreement also requires Contractor to provide this information to all potential and actual beneficiaries upon their request, when they first access services under the DMC-ODS waiver and, within 30 days of any change. Any additional information distribution requirements are not required under this Agreement.

Pursuant to 42 CFR 438.100, the Contractor shall comply with any applicable Federal and State laws that pertain to beneficiary rights and shall ensure that its staff and affiliated providers take those rights into account when furnishing services under this Agreement to beneficiaries. Contractor shall provide information regarding these rights to potential and current beneficiaries as specified in Section 14 of this Agreement since the notice required by 42 CFR 438.10(f)(3) has been waived.

DHCS shall have in effect safeguards against conflicts of interest on the part of State and local officers and employees and agents of the State who have responsibilities relating to this Agreement or the default enrollment process as described by 42 CFR 438.58.

- F. Contractor shall not receive payment for services not available under this Agreement in accordance with 42 CFR 438.60:

Exhibit A, Attachment I
Program Specifications

- 1) DHCS must ensure that no payment is made to a provider other than the Contractor for services available under the Intergovernmental Agreement between the DHCS and the Contractor, except when these payments are provided for in Title XIX of the Act, in 42 CFR, or when DHCS has adjusted the capitation rates paid under the Intergovernmental Agreement, in accordance with §438.6(c)(5)(v), to make payments for graduate medical education.

G. Provider Specifications

The following requirements shall apply to Contractor and subcontractor staff:

- 1) Professional staff must be licensed, registered, certified or recognized under California scope of practice statutes. Professional staff shall provide services within their individual scope of practice and receive supervision required under their scope of practice laws. Nothing in the DMC-ODS Pilot overrides any EPSDT requirements.

Medical necessity for an adolescent individual (an individual under the age of 21) is determined using the following criteria:

 - i. The adolescent individual must be assessed to be at risk for developing a SUD; and
 - ii. The adolescent individual must meet the ASAM adolescent treatment criteria.
- 3) For an individual to receive ongoing DMC-ODS services, the Medical Director, licensed physician, or LPHA shall reevaluate that individual's medical necessity qualification at least every six months through the reauthorization process and determine that those services are still clinically appropriate for that individual. For an individual to receive ongoing Opioid Treatment Program/Narcotic Treatment Program (OTP/NTP) services, the Medical Director, licensed physician, or LPHA must reevaluate that individual's medical necessity qualification at least annually through the reauthorization process and determine that those services are still clinically appropriate for that individual.
