DSRIP Semi-Annual Reporting Form

CA 1115 Waiver - Delivery System Reform Incentive Payments (DSRIP)

Reporting Form Instructions

Dates Reports are Due

DPH systems submit this report to the State twice a year:

DY 6 (6-month)	March 2, 2011
DY 6 (year-end)	May 15, 2011
DY 7 (6-month)	March 31, 2012
DY 7 (year-end)	September 30, 2012
DY 8 (6-month)	March 31, 2013
DY 8 (year-end)	September 30, 2013
DY 9 (6-month)	March 31, 2014
DY 9 (year-end)	September 30, 2014
DY 10 (6-month)	March 31, 2015
DY 10 (year-end)	September 30, 2015

Use of This Reporting Form

All DPH systems must use this Reporting Form template for reports starting May 15, 2011. For the year-end report, DPH systems will include the year-end narrative, the year-end report, and reattach the previously submitted 6-month report. The State reserves its right to modify the Reporting Form as experience is gained with its use. The State is looking for DPHs to include as much detail as possible in their narrative responses throughout the Reporting Form. Given the timeframe the State has to review and make payment, the State will exercise its right to further review the submitted Reporting Forms even after payment is made and, if necessary, recoup payment if it is determined on further review that a milestone was not met.

DPH systems should follow the instructions at the top of each tab for completing the form. DPH systems must complete information for items marked "*" for every project and every milestone included in the DPH's plan for that DY. Regardless of whether there is any progress made on a particular milestone, DPH systems must include ALL of the milestones included in their plans for that DY in the Reporting Form and report progress or no progress so that the form appropriately calculates the total denominator of the achievement values for purposes of accurate payment. DPH systems should not include any milestones from any other DYs other than the DY for which the report is due.

For milestones that can receive partial payment (e.g, the milestone is "achieve 90% compliance with the bundle"), please complete the numerator and denominator information for that milestone, and include the targeted achievement under "DY Target" for calculation of a 0, 0.25, 0.5, 0.75, or 1 achievement value. For an "all-or-nothing" milestones (e.g., the milestone is "join a sepsis collaborative"), please use the "yes/no" drop-down menu and under "DY Target" enter "yes". For some milestones that are "yes/no," but are also the reporting of data (e.g., the milestone is "report baseline data"), it may make sense to use the "yes/no" drop-down menu, under "DY Target" enter "yes", and include the actual data in the numerator and denominator for reporting purposes only (the payment will be based on selecting "yes" or "no").

For each applicable milestone, in addition to providing an in-depth description of how the milestone was achieved, please also provide an in-depth description of why a milestone was not achieved or only partially achieved, for the purposes of understanding systemic issues/patterns. If DPH systems are reporting at the 6-month mark and a milestone is partially met or not achieved because it will be more fully achieved by the year-end of the DY, the DPH system may note that it is on track to meet the milestone within the DY. As stated above, the State is looking for DPHs to include as much detail as possible in their narrative responses throughout the Reporting Form.

For the DY's 6-month (or first) semi-annual reporting period, the completion of certain milestones may warrant full payment, while others may be eligible for only up to 50% payment. Given that the Reporting Form does not have the ability to determine this, DPH systems must apply the appropriate calculation to the applicable milestones' achievement value(s). For example, if a milestone is "reporting of data only" (e.g., Category 3) and requires 12 months of data in order to recieve payment but the DPH system has only 6 months of data available, they would be eligible for 50% completion (i.e., the DPH system would multiply the 'achievement value' by .5) by the semi-annual report deadline.

Payment amounts are in Total Computable (i.e., federal incentive and non-federal share provided by DPHs). Indicate all payment amounts as a whole number (i.e., do not round, do not show in millions with decimals). For the 6-month report (first semi-annual report of the DY), DPHs would not have received any prior funding for the DY and therefore should enter "0" for all of the DPH's projects under: "Incentive Funding Already Received in DY."

This reporting form is counting all of those milestones that are ***required*** for all DPHs in Categories 3-4 in DY7 currently. The reporting form will need to be revised accordingly for future DYs to also automatically count required milestones for those DYs.

This past year we added 1.5 FTE by hiring two physicians to provide services in the Primary Medicine Clinic. The physician who provides 0.5 FTE in the Primary Medicine Clinic spends the other 0.5 FTE as the hospital's Physician Director of Clinical Informatics. In this role he has implemented many IT processes to help improve the efficiency of the clinics. Increasing providers and efficiencies is directly tied to our goal of expansion of medical homes.

We have implemented i2iTracks, a disease management registry in both of our adult primary care clinics mentioned in our DSRIP Plan, namely the Primary Medicine Clinic and the Family Medicine Clinic. In addition we have implemented i2i Tracks in our Internal Medicine Clinic. The implementation required the alignment of stakeholders from IT, clinic administration, and clinic staff. The technical challenges were significant due to the necessity of integrating with many complex data sources. Our Mirth open source interface engine and our internal IT talent provided the horsepower for the interfacing. Together with data capture and manual data entry by the medical assistants in the clinics, the i2iTracks database is a rich repository of clinical and operational

Medical home assignment is initially and currently focused on the following patient populations: 1) patients with chronic conditions of diabetes mellitus and depression, 2) patients with high Emergency Department utilization, and 3) high-risk patients that fall under the category of Seniors and Persons with Disabilities (SPD). The goal is to improve health outcomes. The hospital has partnered with the Health Plan of San Joaquin (HPSJ) and County Behavioral Health Services to identify patients who would benefit from care provided in a medical home environment. Case managers from the HPSJ assist in care coordination of their members directly in our clinics. The implementation of i2iTracks disease registry management software has made possible assignment of

This data is from September 2011 through February 2012. We have begun using a new disease management registry program called i2iTracks in our primary care clinics. This new program will provide real-time data to the clinicians to help them provide patient centered, proactive efficient patient care leading to better outcomes. Because there are many places where a patient can be vaccinated, it is theorized that the vaccination rate reported here is much lower than the actual rate. Next influenza season we will be implementing a better screening process so that we can account for our patients who received their vaccination at another location.

The data reported here is July through December 2011. We have been measuring CLIP form completion compliance for several years. Our compliance rates are slowly improving. We have found that our PICC nurses are very compliant with form completion. Our improvement efforts will be focused on physician compliance. We have studied CLABSI vs. CLIP Form Completion compliance and have not found a relationship. We have a very low CLABSI rate so it is logical to deduce that the physicians are implementing the CLIP practices, they just aren't documenting it. We have a difficult task getting physician buy-in on completing a form they consider unnecessary. We are looking forward to continuing our Collaborative with other public hospitals through the SNI

Information Technology has been able to furnish a report listing all the surgeries performed at regular intervals. Charts are being reviewed to ensure all infections are captured. In addition we are working with the California Department of Corrections and Rehabilitation (CDCR) so that they can report suspected surgical site infections on patients who have returned to prison.
