Memorandum

To: DHCS 1115 Waiver Whole Person Care Team
From: Greg Diederich, Director, San Joaquin County Health Care Services Agency
Date: April 7, 2017
Re: San Joaquin County Whole Person Care 2nd round application summary of changes

Below is a high-level overview of our expansion application changes including references to application sections:

Section 2.3 Target Populations (page 10): Increased the projected enrollment for the homeless or at risk of homelessness target population, increasing by 50 enrollees consistently for each program year two through five. Corresponding adjustments made to estimated capacity of services at the end of the pilot as well as projection of unique clients served throughout the pilot were also made in this section.

Section 5.5 Funding Request (pages 32-33): Added \$6,769 in program years two through five under Administrative Infrastructure to support travel costs to send up to eight members from participating entities to the semi-annual Learning Collaborative meetings and corresponding adjustments in section subtotals.

Section 5.5 Funding Request (pages 34-36): Increased requested funding to support additional recuperative care/medical respite services both in bed days and the addition of enhanced Care Management Services to the scope of services to be directly provided by our identified Respite and Recuperative Care partner along with various corresponding adjustments for subtotals listed in this section to sync with the revised budget worksheet.

Please let me know what additional questions or concerns you may have.

Sincerely,

Greg Diederich, Director

Health Care Services Agency
