

March 1, 2024

To: Tribal Chairpersons, Designees of Indian Health Programs, and Urban Indian Organizations

Subject: Addendum to Notice of Proposed Change to the Medi-Cal Program

The purpose of this letter is to provide an update to the Tribal Notice for State Plan Amendment (SPA) 24-0007, released on February 23, 2024. The enclosed update provides information regarding not adding Psychological Associate services to the list of billable services for Federally Qualified Health Centers (FQHC), Rural Health Clinics (RHC), and Tribal FQHCs, effective January 1, 2024

If additional information is needed, please send an email to [Angeli.Lee@dhcs.ca.gov](mailto:Angeli.Lee@dhcs.ca.gov) or by mail to the address below:

Enclosure

**Department of Health Care Services (DHCS)  
Tribal and Designees of Indian Health Programs Notice  
Addendum**

**PURPOSE**

The purpose of this addendum is to inform Tribal Chairpersons and Designees of Indian Health Programs and Urban Indian Organizations that Psychological Associate services will not be added to the list of billable services for Federally Qualified Health Centers (FQHC), Rural Health Clinics (RHC), and Tribal FQHC, effective January 1, 2024, through State Plan Amendment (SPA) 24-0007. DHCS will still seek to add services by Licensed Professional Clinical Counselors (LPCC) Associate Professional Clinical Counselors (APCC) in FQHCs and RHCs to the Alternative Benefit Plan (ABP) through this proposed SPA. SPA 24-0007 will also update the ABP to add Psychiatric Residential Treatment Facilities (PRTFs) as settings where inpatient psychiatric services can be provided to Medi-Cal members under 21 years of age.

**BACKGROUND**

SPA 24-0007 updates the ABP to reflect the updates made by SPA 23-0037 and will be made by SPA 24-0003 and SPA 24-0015.

- SPA 23-0037 authorized LPCCs to bill for LPCC encounters in FQHCs, RHCs, and Tribal FQHCs.
- SPA 24-0003 seeks to add PRTFs as a setting where inpatient psychiatric services to beneficiaries under 21 years of age can be provided. SPA 24-0003 also seeks to clarify that inpatient psychiatric services can be provided to Medi-Cal members under 21 years of age in psychiatric hospitals and hospitals with inpatient psychiatric programs.
- SPA 24-0015 will authorize LPCCs to bill for APCC encounters in FQHCs, RHCs, and Tribal FQHCs.

**SUMMARY OF PROPOSED CHANGES**

SPA 24-0007 aligns the ABP with updates made by SPAs 23-0037, 24-0003, and 24-0015. The federal Centers for Medicare and Medicaid Services approved SPA 23-0037 on January 22, 2024, to authorize LPCCs as health care professionals who are eligible to provide reimbursable Medi-Cal mental and behavioral health services to Medi-Cal members served by FQHCs, RHCs, and Tribal FQHCs. SPA 24-0003 will add PRTFs as a setting where inpatient psychiatric services can be provided to Medi-Cal members under 21 years of age. SPA 24-0015 will authorize APCCs as health care professionals who are eligible to provide reimbursable Medi-Cal mental and behavioral health services to Medi-Cal members served by FQHCs, RHCs, and Tribal FQHCs.

The proposed effective date for SPA 24-0007 is January 1, 2024.

**IMPACT TO TRIBAL HEALTH PROGRAMS (THPs)**

DHCS does not anticipate an impact to THPs if they participate in Medi-Cal as an Indian Health Services-Memorandum of Agreement clinic. However, if a THP participates in Medi-Cal as a Tribal FQHC, this proposed SPA will identify a LPCC as a billable provider and APCC as billable services. Adding LPCCs and APCC to the list of behavioral health professionals at Tribal FQHCs will expand flexibility and access for

Medi-Cal members to receive the various mental and behavioral health services they need.

THPs may be able to make referrals to Medi-Cal members to receive inpatient psychiatric services in PRTFs. DHCS anticipates Medi-Cal members that receive referrals will be able to better access these services, likely improving their health outcomes.

### **IMPACT TO FEDERALLY QUALIFIED HEALTH CENTERS (FQHCs)**

To the extent that FQHCs and RHCs provide behavioral health services, this aligns the ABP with SPA 23-0037 and SPA 24-0015 and is expected to expand access by increasing the number of health care professionals eligible to provide these services to patients served by FQHCs and RHCs. Adding LPCCs and APCCs to the list of behavioral health professionals will expand flexibility and access for Medi-Cal members to receive the various mental and behavioral health services they need.

In addition, FQHCs may be able to make referrals for Medi-Cal members to receive inpatient psychiatric services in PRTFs. DHCS anticipates Medi-Cal members that receive referrals will be able to better access these services, likely improving their health outcomes.

### **IMPACT TO AMERICAN INDIAN MEDI-CAL MEMBERS**

DHCS anticipates American Indian Medi-Cal members served by FQHCs, RHCs, and Tribal FQHCs will have increased access to mental and behavioral health services, which is expected to improve health outcomes for those receiving services. The addition of PRTFs will also likely result in increased access to inpatient psychiatric services for American Indian Medi-Cal members under 21 years of age as it will allow for the provision of the psychiatric services to members under 21 years of age to be provided in an additional setting that is not a hospital.
