2022 Seclusion & Restraint Data

Facility Types defined
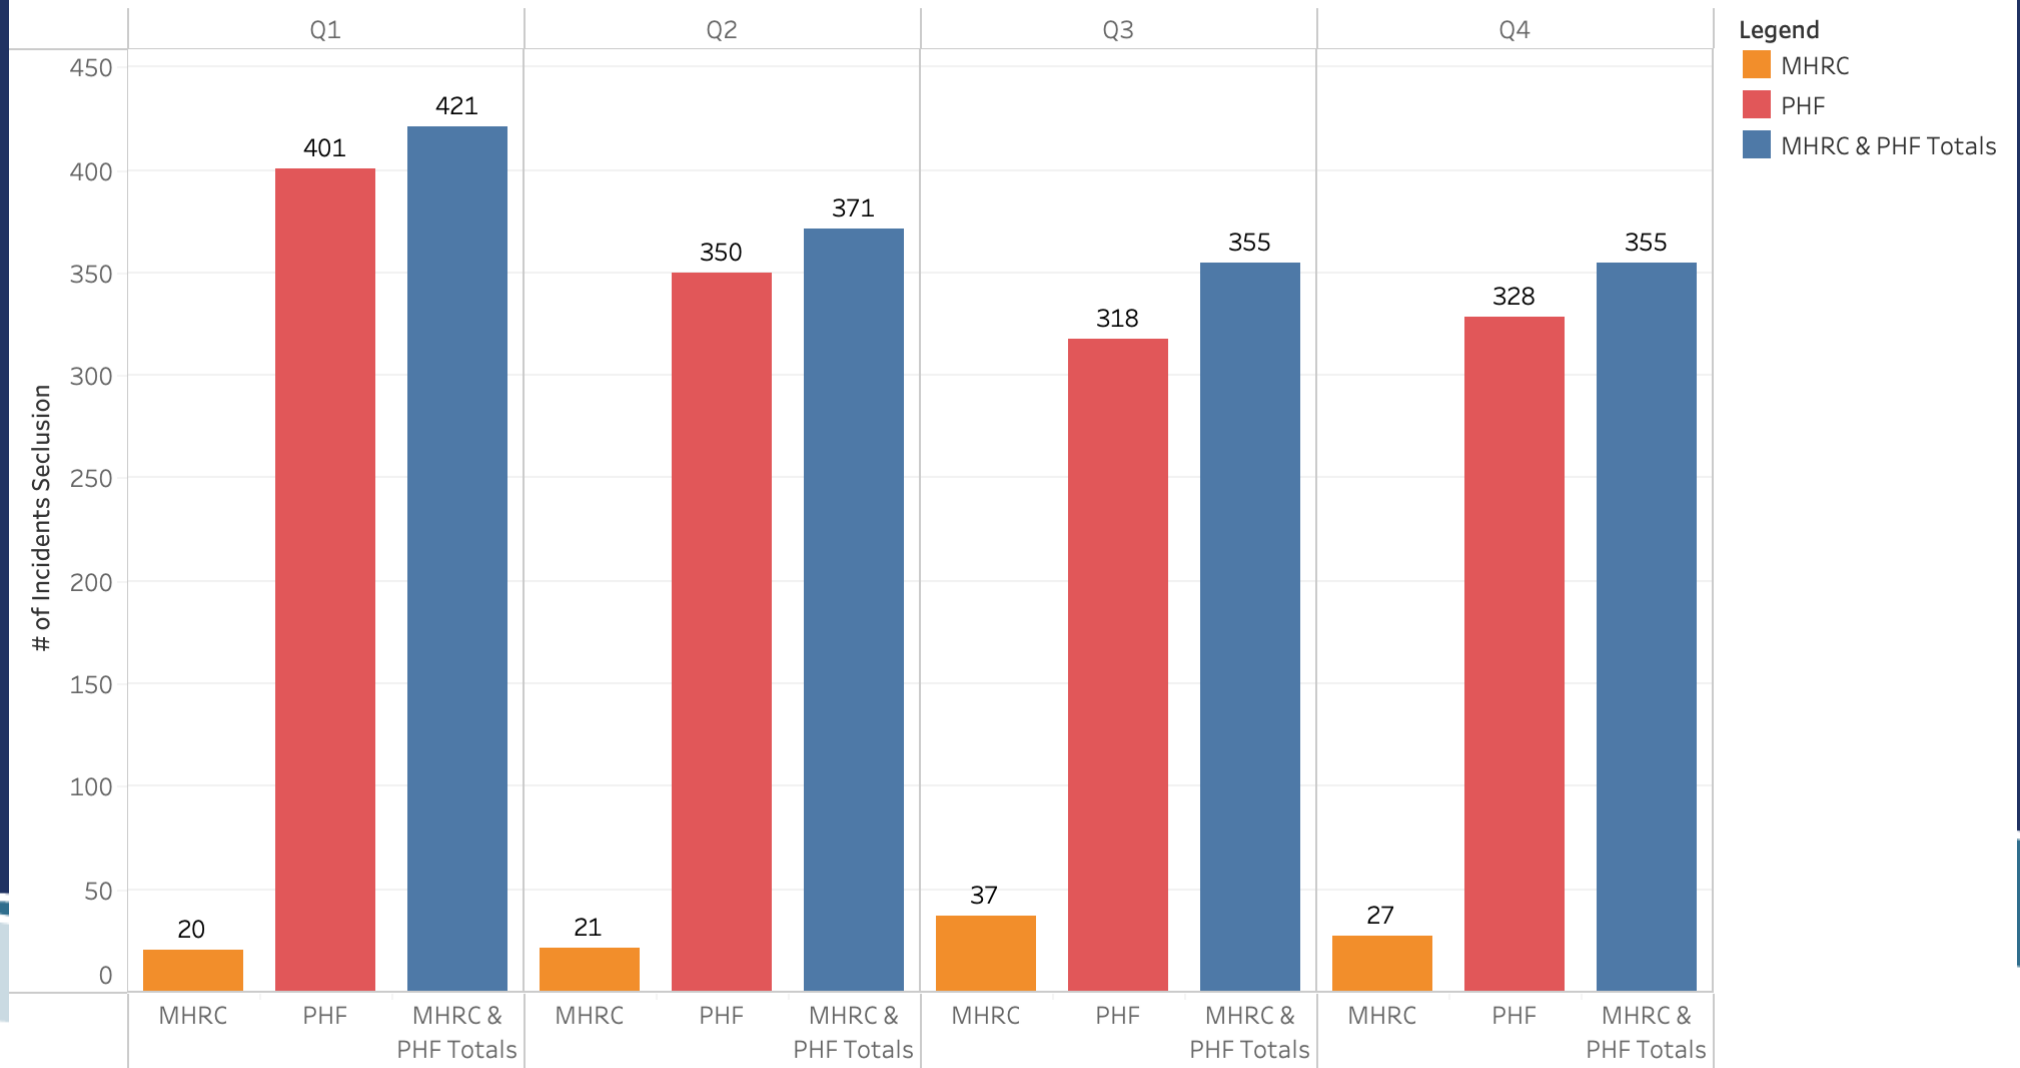

» Mental Health Rehabilitation Centers (MHRCs) provide 24-hour intensive support and rehabilitative services designed to assist persons, 18 years or older, with mental disorders who would have been placed in a state hospital or another mental health facility to develop skills to become self-sufficient and capable of increasing levels of independence and functioning.

» Psychiatric Health Facilities (PHFs) provide 24-hour inpatient acute psychiatric care for mentally disordered, incompetent, or other persons described in Division 5 (commencing with Section 5000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code.

Methods

» Data is collected from MHRCs and PHFs every quarter, with reporting due dates on October 15th, January 15th, April 15th, and July 15th.

» Data is reported across the following categories:

- Number of involuntary medication administrations
- Number of injuries related to seclusion and restraint
- Number of deaths from seclusion and restraint*
- Number of seclusion incidents
- Number of restraint incidents
- Total time of seclusion incidences at a facility, reported in hours and minutes
- Total time of restraint incidences at a facility, report in hours and minutes
- Please visit the DHCS website for definitions of seclusion and restraint

» Data is published only at the facility type level

» Averages are calculated across facility types (time spent in seclusion or restraint divided by the number of facilities).

*There were 0 deaths from seclusion and restraint during SFY 2021-2022. Therefore, no graph was created.
