This dashboard provides an overview of children's health and demographic measures for children enrolled in Medi-Cal, California's Medicaid program. Key features of this document include a broad range of measures across physical health, mental health, managed care, and key demographics, as well as updated overall enrollment data. This document was developed in partnership with the Medi-Cal Children's Health Advisory Panel (MCHAP) and other stakeholders.

Figures 1 and 2: Enrollment and Delivery System Trends for Children Enrolled in Medi-Cal, by Quarter

Notes: Figure 1 shows total enrollment and enrollment by delivery system for children aged 0-20 in Medi-Cal. Figure 2 shows the percentage of children enrolled in Fee-for-Service (FFS) or a Medi-Cal managed care plan (MC). Enrollment data is reported through June 2024. June 2024 data extracted in August 2024 from the Medi-Cal Eligibility Data System (MEDS). The last month of each quarter is reported as the quarterly metric (i.e., 2024 Q2 is June 2024 data).
