Richard Golfin III, Chief Compliance Officer Via Email  
Alameda Alliance for Health  
1240 S. Loop Rd.  
Alameda, CA 94502

RE: Department of Health Care Services Medical Audit

Dear Mr. Golfin III:

The Department of Health Care Services (DHCS), Audits and Investigations Division conducted an on-site Medical Audit of Alameda Alliance for Health, a Managed Care Plan (MCP), from April 13, 2021 through April 23, 2021. The audit covered the period of June 1, 2019 through March 31, 2021.

The items were evaluated and 4 of 30 findings were repeat findings on the subsequent 2023 Medical Audit; therefore, DHCS will assess remediation for the 4 repeat findings in the 2023 Corrective Action Plan (CAP). As such, DHCS accepts and will provisionally close the 2021 CAP with findings 3.8.2, 4.1.3, 4.1.4 and 4.1.5 still needing remediation. The open findings are transferred to the 2023 CAP which has the same findings. The enclosed documents will serve as DHCS' final response to the MCP's 2021 CAP. Closure of this CAP does not halt any other processes in place between DHCS and the MCP regarding the deficiencies in the audit report or elsewhere, nor does it preclude the DHCS from taking additional actions it deems necessary regarding these deficiencies.

Please be advised that in accordance with Health & Safety Code Section 1380(h) and the Public Records Act, the final audit report and final CAP remediation document (final Attachment A) will be made available on the DHCS website and to the public upon request.

If you have any questions, please reach out to CAP Compliance personnel.

Sincerely,

[Signature on file]

Lyubov Poonka, Chief  
Audit Monitoring Unit  
Managed Care Quality and Monitoring Division  
Department of Health Care Services

Enclosures: Attachment A (CAP Response Form)

**ATTACHMENT A**  
**Corrective Action Plan Response Form**

**Plan:** Alameda Alliance for Health

**Review Period:** 06/01/2019 – 03/31/2021

**Audit Type:** Medical Audit and State Supported Services

**CAP Submitted:** 04/13/2021 – 04/23/2021

MCPs are required to provide a CAP and respond to all documented deficiencies included in the medical audit report within 30 calendar days, unless an alternative timeframe is indicated in the CAP Request letter. MCPs are required to submit the CAP in Word format that will reduce turnaround time for DHCS to complete its review. According to ADA requirement, the document should be at least 12 pt.

The CAP submission must include a written statement identifying the deficiency and describing the plan of action taken to correct the deficiency, and the operational results of that action. The MCP shall directly address each deficiency component by completing the following columns provided for MCP response: 1. Finding Number and Summary, 2. Action Taken, 3. Implementation Documentation, and 4. Completion/Expected Completion Date. The MCP will be required to include project timeline with milestones in a separate document for each finding. Supporting documentation should accompany each Action Taken. If supporting documentation is missing, the MCP submission will not be accepted. For policies and other documentation that have been revised, please highlight the new relevant text, and include additional detail such as title of the document, page number, revision date, etc. in the column "Supporting Documentation" to assist DHCS in identifying any updates that were made by the plan. For deficiencies that require short-term corrective action, implementation should be completed within 30 calendar days. For deficiencies that may be reasonably determined to require long-term corrective action for a period longer than 30 days to completely remedy or operationalize, the MCP is to indicate that it has initiated remedial action and is on the way towards achieving an acceptable level of compliance. In those instances, the MCP will be required in addition to the above steps, to include the date when full compliance will be achieved. Policies and procedures submitted during the CAP process must still be sent to the MCP's Contract Manager for review and approval, as applicable in accordance with existing requirements.

**Please note, DHCS expects the plan to take swift action to implement improvement interventions as proposed in the CAP, therefore DHCS encourages all remediation efforts to be in place no later than month 6 of the CAP, unless prior approval for an extended implementation effort is granted by DHCS.**

DHCS will maintain close communication with the MCP throughout the CAP process and provide technical assistance to confirm the MCP provides sufficient documentation to correct deficiencies. Depending on the volume and complexity of deficiencies identified, DHCS may require the MCP to provide weekly updates, as applicable.

				<p>A separate compliance team was developed to address Privacy matters only. A dedicated Privacy Resource was hired, the Privacy Compliance Specialist. The MCP developed a dedicated Privacy Email to triage and immediate address privacy related questions and referrals. The MCP instituted the Privacy &amp; Security Joint Taskforce/Workgroup to oversee and develop corporate direction and strategy. The MCP instituted the release of periodic work-from-home MEMOs to reiterate Privacy Rules and best practices for a remote workforce. Beginning July 2021 and ending in February 2022, HIPAA Privacy training was delivered to each Department at the MCP. The training covered the Plan reporting timelines for suspected Privacy incidents. A training was also provided at an all staff, company-wide meeting in July 2021. New employee Onboarding Training includes suspected incident reporting timelines (2021 DHCS CAP deliverable for finding 4.3.1 additional Q 4_5_22, Page 1).</p> <p><b>The corrective action plan for finding 4.3.1 is accepted.</b></p>
