QIP POLICY LETTER 24–005

TO: ALL MEDI-CAL MANAGED CARE HEALTH PLANS
ALL QIP ENTITIES

SUBJECT: APPROVED COMMUNITY PARTNERSHIPS FOR PY 7

PURPOSE:
This QIP Policy Letter (QPL) informs QIP DMPH entities and Medi-Cal managed care health plans (MCPs) of community partnerships approved by DHCS for Program Year (PY) 7. It also provides procedures for DMPHs on how to apply for modifications to the approved applications and instructions for future application submissions for entities who wish to include community partner data in subsequent QIP Program Years.

POLICY:
The participating QIP DMPH entities listed in Attachment 1, *Approved DMPH PY 7 Community Partners,* have been approved by DHCS to include contracted community partner data on selected measures in their QIP data submissions for PY 7. For additional details on the DMPH Community Partner policies, refer to the QIP PY7 Program Policies and QPL-24-004. For an overview of QIP data sharing responsibilities for MCPs (which includes community partner data), refer to QPL 22-005.

Modifications
If a DMPH experiences a change that affects the information within its application on which the approval is based, the DMPH must report this change to DHCS within ten business days. DHCS will address modifications on a case-by- case basis. All applications, notifications, and modification requests should be submitted to the DMPH's QIP liaison.

Future Applicants
For future submissions, an updated PY application template will be emailed from the QIP mailbox and available on eQIP. DHCS must receive new applications no later than 60 calendar days after the release of the applicable QIP PY Reporting Manual.
