¹This list is representative of entities that may make up the majority of public providers, but it is not all-inclusive and may include some providers who are either not, or no longer are, providing GEMT services.

As such, this list is intended to be part of the public provider identification process in order to ensure providers receive timely reimbursement of the PP-GEMT add-on. For the avoidance of doubt, the responsibility of identifying a provider's "public status" is that of the MCP. As such, this list should be used as a reference but should not replace MCP policies and procedures used to ensure that eligible public providers are identified and reimbursed appropriately.

This list is updated as of April 11, 2024.
