Whole Person Care Pilot Program
Second Round - New Applicants

California Department of Health Care Services
January 27, 2017
Agenda

1. Welcome and Overview
2. Second Round Application Timeline
3. Application Overview
4. WPC Pilot Budget for New Applications
5. Initial Selection Criteria
6. Special Terms and Conditions (STC) Attachments
7. Questions and Answers
8. Discussion
# Whole Person Care Pilots

**Second Round - New Application Overview**

**Whole Person Care (WPC) Pilots:**
5-year program (began January 1, 2016) authorized under Medi-Cal 2020 Section 1115 Waiver

<table>
<thead>
<tr>
<th>Goal</th>
<th>Activities</th>
<th>Second Round Funding</th>
</tr>
</thead>
<tbody>
<tr>
<td>• To test locally-based initiatives that will coordinate physical health, behavioral health, and social services for beneficiaries who are high users of multiple health care systems and continue to have poor health outcomes.</td>
<td>• WPC Pilots will identify target populations, share data between systems, coordinate care in real time, and evaluate individual and population health progress.</td>
<td>• Approximately $120 million total funds are available annually.</td>
</tr>
</tbody>
</table>

Second Round
Application Timeline
Second Round Application Timeline - 2017

- **January 13:** Revised Application and Budget Instructions released
- **March 1:** WPC Applications due
  - No extensions will be granted beyond this due date
- **March 1 – July 1:**
  - DHCS reviews applications and sends written questions to applicants as necessary
  - Applicant written responses sent to DHCS and reviewed
- **July 2:** DHCS makes final decisions and notifies applicants
- **July 12:** WPC Lead Entities provide formal acceptance to DHCS
Application Overview
Application Structure

Section 1: Lead Entity & Participating Entity Information

Section 2: General Information & Target Population(s)

Section 3: Services, Interventions, Care Coordination, & Data Sharing

Section 4: Performance Measures, Data Collection, Quality Improvement, & Ongoing Monitoring

Section 5: Financing
Application Elements

- **Section 1: Lead Entity and Participating Entity Information**
  - Lead Entity and contact person
  - Participating entities and their role in WPC Pilot
  - Letters from participating providers and other relevant stakeholders

- **Section 2: General Information and Target Population(s)**
  - Geographic area
  - Community and target population needs
  - Communications plan
  - Target population(s)
Application Elements

- **Section 3: Services, Interventions, Care Coordination, & Data**
  - Services available to beneficiaries not otherwise covered/directly reimbursed by Medi-Cal, including housing services
  - Interventions to integrate services for target population(s), including Plan-Do-Study-Act (PDSA)
  - Care coordination activities
  - Data sharing

- **Section 4: Performance Measures, Data Collection, Quality Improvement, & Ongoing Monitoring**
  - Performance measures (universal and variant)
  - Data collection, analysis and reporting activities
  - Quality improvement activities, including PDSA
  - Monitoring of participating entity performance
Application Elements

- **Section 5: Financing**
  - Financing structure, including how payments will be distributed and any financing and/or saving arrangements
  - Diagram of flow of funds from the Lead Entity to participating entities
  - List of entities that will provide the non-federal share
  - Relationship between the pilot funding and the provision of services
  - Requested funding amount and description for each individual item; separate annual and total funding requests
  - Budget Narrative – comprehensive discussion of costs with justification
WPC Pilot Budget for New Applications
General Budget Requirements for New Applications

Total Available Funding

- For this second round of applications, a total statewide annual funding of approximately $120 million is available. WPC Pilots approved in the first round of applications may apply for expansion with additional funding.

Year 1 Funding for New Applications

- Payments based on the submission of the WPC Pilot’s approved application and baseline data.
- Payments: 75% for application and 25% for baseline data.

Exclusions

- Budgets cannot include payment for services reimbursable through Medi-Cal.
- In addition to the exclusion for Medi-Cal funded services, WPC cannot be used to fund local responsibilities for health care or social services that are mandated by state or federal laws, or to fund services for which state or federal funding is already provided.
General Budget Requirements for New Applications

- New budget requests should be based on the following 48-month budget breakdown:
  - Two 6-month periods
    - PY 1 New Applicants: January 1 - June 30, 2017,
    - PY 2 limited (Ltd): July 1 - December 30, 2017; and
  - Three additional 12-month periods
    - PY 3: January 1 – December 31, 2018
    - PY 4: January 1 – December 31, 2019
    - PY 5: January 1 – December 31, 2020
- Budgets for PY 1 and PY 2 are each 50% of the annual budgets requested for PYs 3-5
Budget Development

There are three components to the Budget submissions:

- Section 5 Financing Structure
- Budget Narrative
- Budget Summary and Detail
Budget Development

- Budget requirements are stated in the Special Terms and Conditions (STCs), FAQ, and Revised Application.
- The Revised Budget Instructions provides additional guidance regarding the level of detail needed.
- Applicant shall use the Budget Narrative as the vehicle to describe and justify why certain elements are included and valued in the proposal.
## Budget Guidelines for New Applications

Budget requests should include:

| Information on deliverables related to infrastructure, interventions, bundled services, pay-for-reporting/outcomes, and incentives for providers |
| Associated payment amounts requested for each individual deliverable for which funding is proposed |
| Justification of estimated costs or value associated with each deliverable |
| Details regarding all components of the requested budget to ensure costs adhere to State guidelines and requirements |
Budget Guidelines for New Applications

Budget requests should:

- Include annual total funds requested (both federal funds and non-federal share) over the pilot years.
- Be based on a 48-month budget: two 6-month periods and three 12-month periods, starting January 1, 2017.
- Show PY 1 - New and PY 2 - Ltd amounts equal to 50% of the annual budgets requested in PYs 3-5.
- Relate PY 2 Ltd through PY 5 funding directly to WPC activities described in the Application and Budget Narrative.
- Not include costs for services reimbursable through Medi-Cal.
Budget Guidelines for New Applications

Payment: Is based on completed deliverables - actual services provided, metrics reported, and metric outcomes achieved - as reported in the mid-year and annual reports

PY 1 New funding will be based on the approved application and complete, timely, accurate submission of baseline data in the annual report
Budget Categories

Infrastructure
- Administrative
- Delivery

Services and Interventions
- FFS Services
- Bundled PMPM Services

Reporting, Quality and Incentives
- Pay for Metric Reporting
- Pay for Metric Outcome Achievement
- Incentives for Downstream Providers
# Administrative Infrastructure

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
<tbody>
<tr>
<td>• To build the programmatic supports necessary to plan, build and run the pilot</td>
<td>• Core program development and support</td>
<td>• E.g. Staffing:</td>
</tr>
<tr>
<td></td>
<td>• Administrative Staffing (no service-related staffing)</td>
<td>• Number of FTEs</td>
</tr>
<tr>
<td></td>
<td>• IT infrastructure</td>
<td>• Roles and responsibilities of the staffing model for administrative infrastructure</td>
</tr>
<tr>
<td></td>
<td>• Program governance</td>
<td>• Training</td>
</tr>
<tr>
<td></td>
<td>• Training</td>
<td>• Ongoing data collection</td>
</tr>
<tr>
<td></td>
<td>• Ongoing data collection</td>
<td>• Marketing materials</td>
</tr>
</tbody>
</table>
## Delivery Infrastructure

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
<tbody>
<tr>
<td>• To support the non-administrative infrastructure needed to implement the pilot</td>
<td>• Advanced medical home&lt;br&gt;• Mobile street team infrastructure&lt;br&gt;• Community resource database&lt;br&gt;• IT workgroup&lt;br&gt;• Care management tracking and reporting portal</td>
<td>• E.g. Mobile street team infrastructure&lt;br&gt;• Cost for related components (e.g. vehicle cost, staffing, training, consulting, amortized use, etc.)</td>
</tr>
</tbody>
</table>
## Services and Interventions

### FFS Services

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
<tbody>
<tr>
<td>• New services provided in the pilot to support the WPC provided to eligible enrollees&lt;br&gt;• FFS Services are single per encounter payments for a discrete service</td>
<td>• Mobile Care Coordination&lt;br&gt;• Outreach and Engagement&lt;br&gt;• Medical respite&lt;br&gt;• Sobering center</td>
<td>• Services to be reimbursed on a per encounter or unit basis&lt;br&gt;• Costs used to determine proposed service rate&lt;br&gt;• Total projected cost based on the number of projected encounters</td>
</tr>
</tbody>
</table>
## Services and Interventions

### PMPM Bundle

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
</table>
| - New services provided in the pilot to support the WPC provided to eligible enrollees | - Comprehensive complex care management  
- Housing support services  
- Long term care diversion bundle | - Total allocated costs used to determine proposed PMPM value (i.e. salaries, services, overhead, equipment, contracted services, etc.)  
- Total projected cost based on the number of projected member months |
Incentive Payments for Downstream Providers

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
</table>
| • WPC Pilots may request funding for a defined amount associated with pilot payments to downstream providers for achievement of specific operational and quality deliverables that are critical for the pilot’s overall success | • Increasing data sharing  
• Participating in learning collaboratives  
• Reducing ED utilization, and others | • Total maximum amount of funding for the incentive payments for each applicable deliverable |
## Reporting

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of Detail</th>
</tr>
</thead>
</table>
| • WPC Pilots are encouraged to propose the pay for metric reporting structure that they believe provides the most incentive, both to pilot lead organization as well as to downstream providers | • Universal and/or Variant Metrics  
• Reporting number of ED visits  
• Reporting percentage of avoided hospitalizations  
• Reporting individuals with follow up after hospitalization | • Incentive payments made to the Lead Entity for reporting the specific metric, including any related incentive payments made to downstream providers  
• Breakdown of the incentive payment on a per year/per metric basis  
• Attachments GG and MM requirements |
### Quality

<table>
<thead>
<tr>
<th>Description</th>
<th>Examples</th>
<th>Level of detail</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Pay for Metric Outcomes Achievement</td>
<td>• Universal and/or Variant Metrics related to quality</td>
<td>• E.g. 90% of beneficiaries will have a follow up after hospitalization for mental illness:</td>
</tr>
<tr>
<td>• WPC Pilots must include at least one pay for metric outcome achievement item in their application.</td>
<td>• Decrease number of ED visits by set %</td>
<td>• Incentive payments made to the Lead Entity for achieving specific outcomes metrics</td>
</tr>
<tr>
<td>• Goals must be included that progress each PY and show improvement of at least 5% over previous PY's improvement.</td>
<td>• Increased number of avoided hospitalizations by a set %</td>
<td>• Breakdown of the incentive payment on a per year/per metric basis</td>
</tr>
<tr>
<td></td>
<td>• Increased percentage of individuals who have a follow up after hospitalization</td>
<td>• Attachment MM requirements</td>
</tr>
</tbody>
</table>
Budget Narrative

Provides

• a vehicle for the applicant to describe the budget approach (e.g. incentive payments)
• additional information to explain and provide the rationale for an applicant’s budget model, including proposed rates and/or PMPM values

Must include

• a description of the funds requested and how their use will support the proposal
• a justification of estimated costs or value associated with each deliverable
The Budget Narrative should include the following categories (when applicable):

- Administrative Infrastructure
- Delivery Infrastructure
- Incentive Payments for Downstream Providers
- FFS Services
- Bundled PMPM Services
- Pay for Metric Reporting
- Pay for Metric Outcomes Achievement
Budget Summary and Detail
<table>
<thead>
<tr>
<th>WPC Applicant Name:</th>
<th>Enter LE Name on Summary Tab</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Federal Funds</strong></td>
<td></td>
</tr>
<tr>
<td>PY 1 Annual Budget Amount Requested</td>
<td>7,500,000</td>
</tr>
<tr>
<td>PY 2 Annual Budget Amount Requested</td>
<td>7,500,000</td>
</tr>
<tr>
<td>PYs 3-5 Annual Budget Amount Requested</td>
<td>15,000,000</td>
</tr>
<tr>
<td><strong>IGT</strong></td>
<td></td>
</tr>
<tr>
<td>PY 1 Annual Budget Amount Requested</td>
<td>7,500,000</td>
</tr>
<tr>
<td>PY 2 Annual Budget Amount Requested</td>
<td>7,500,000</td>
</tr>
<tr>
<td>PYs 3-5 Annual Budget Amount Requested</td>
<td>15,000,000</td>
</tr>
<tr>
<td><strong>Total Funds</strong></td>
<td></td>
</tr>
<tr>
<td>PY 1 Annual Budget Amount Requested</td>

<td>15,000,000</td>
</tr>
<tr>
<td>PYs 3-5 Annual Budget Amount Requested</td>
<td>30,000,000</td>
</tr>
</tbody>
</table>

The total funds should reflect the equal split of Federal Fund and IGT.

Budgets for PYs 1 and 2 are each 50% of the annual budget requested for PYs 3-5.

Budgets for PYs 3-5 are equal to 100% of the annual budget requested.
Detail needed for each budget category should be provided in budget narrative.

Initial Selection Criteria
Initial Selection Criteria

- **Competitive process**
  - No limit on the number of WPC Pilot applications that can be received. Total awards will be limited by remaining funds available.

- DHCS will assess whether applications meet the WPC Pilot goals and requirements outlined in the Medi-Cal 2020 waiver Special Terms and Conditions and Attachments.

- DHCS will evaluate applications in two phases:
  - Phase 1: Application Quality and Scope; and
  - Phase 2: Funding Decision

- A numerical score will be given for Phase 1, which will be factored into the Phase 2 funding decision.
Initial Selection Criteria

Phase 1: Quality and Scope of Application

- Scored based on specified criteria
- Minimum qualifying score is 77 points out of a total of 105 possible points
- Must receive a pass score on all pass/fail criteria
- Applicants that achieve at least the minimum score may qualify for bonus points for including priority program elements

Phase 2: Funding Decision

- Appropriateness of funding request and quality of application financing responses
- Comparisons to similarly-sized pilots
- Assessment of available funds relative to applications received
# Application Scoring

Special Terms and Conditions (STC) Attachments
WPC Attachments

- **WPC Reporting and Evaluation (Attachment GG):** Mid-year and annual reporting requirements and evaluation process.

- **WPC Pilot Requirements and Application Process (Attachment HH):** Application submission and review process, pilot funding, termination process, and WPC Learning Collaboratives.

- **WPC Pilot Requirements and Metrics (Attachment MM):** Performance metrics (universal and variant), incorporation of Plan-Do-Study-Act (PDSA), and reporting requirements.
All WPC Pilots are required to report on the same set of universal metrics, which include four (4) health outcomes measures and three (3) administrative measures.

**Health Outcomes Measures**
- Ambulatory Care
- Inpatient Utilization
- Follow-up After Mental Health Illness Hospitalization
- Initiation and Engagement of Alcohol and Other Drug Dependence Treatment

**Administrative Measures**
- Comprehensive Care Plan
- Care Coordination, Case Management, and Referral Infrastructure
- Data and Information Sharing Infrastructure
Variant Metrics

Variant metrics are specific to the WPC target population(s), strategies, and interventions.

Each WPC Pilot must report on a minimum of four variant metrics, or for WPC Pilots implementing a housing component, five variant metrics:

- **Variant Metric 1**: One *administrative metric* in addition to the universal care coordination and data sharing metrics
- **Variant Metric 2**: One *standard health outcomes metrics* (e.g., HEDIS) applicable to the WPC Pilot population across all PYs for each target population (choose one from menu in Attachment MM)
- **Variant Metric 3**: One *alternative health outcomes metric*; or for WPC Pilots utilizing the PHQ-9, report on the Depression Remission at Twelve Months (NQF 0710) metric
- **Variant Metric 4**: One *alternative health outcomes metric*; or for WPC Pilots including a severely mentally ill (SMI) target population, report on the Adult Major Depression Disorder (MDD): Suicide Risk Assessment (NQF 0104) metric
- **Variant Metric 5**: One housing specific metric specific; for WPC Pilots implementing a housing component (choose one from menu in Attachment MM)
Questions & Answers
Question: If a participating entity is a collaborative with membership of its own, does it need to submit letters of participation for all of its members?

Answer: The participating entity only needs to submit one letter of participation that includes a list of the members that are part of the collaborative.

Question: May counties add participating entities after the application is submitted and over the course of the pilot?

Answer: Yes.
### Question:
How should pilots approach establishing the pilot goals and outcomes?

### Answer:
Pilot goals should be ambitious but realistic. The outcomes should reflect the interventions that are being proposed in the application.
**Question:** What will happen if a WPC Pilot is not achieving the goals it set out in its application?

**Answer:** DHCS would undertake a multi-step process for addressing interventions that are not leading to improvements. DHCS will first work with the WPC pilot to identify strategies to improve as part of the pilot PDSA (Plan, Do, Study, Act) process. If no improvement is made, a corrective action plan will be developed.
| **Question:** What will happen if a WPC Pilot does not achieve an outcome established in the application submission? |
| **Answer:** If pilots do not achieve an outcome established in the application, they will not receive the funding that was tied to achieving that outcome. WPC Pilots will have an opportunity to update target outcomes for the latter years of the demonstration as the Pilot progresses. |
**Question:** If a pilot chooses a PMPM payment structure, and enrollment exceeds expectations, will payments be capped at the budgeted amount?

**Answer:** Yes, payments will be made up to the pilot’s maximum budgeted amount for each identified PMPM item. If you have more than one PMPM item in your budget, each will have their own maximum budget amount.
**Question:** Can the target population grow over time?

**Answer:** Yes; however, payments will not exceed the pilot’s annual budgeted amount per budget item. Pilots can allow for a phased-in enrollment over budget years to accommodate growth over time.
**Question:** Attachment GG (B)(iv) articulates, “payment in an amount proportional to the progress toward achievement of the WPC Pilot Goals based on the approved WPC Pilot application shall be paid to the WPC Pilot Lead Entity…” Does that mean that funding will fluctuate with outcomes from year to year?

**Answer:** Yes. The pilot will be paid based on completed deliverables, (such as services actually provided, metric reported, or metric outcome achieved). The payment for any deliverable will not exceed the DHCS approved budget amount for that item, for that budget year.
Question: What are the rules regarding the use of WPC funding for pre-existing services that could be rolled into a pilot? (Supplantation)

Answer: A goal of the WPC pilots is to address a current gap or need in the community. Items noted in the Application Selection Criteria reflect pilot priorities, including:

- Demonstrates the community need for the pilot and how the pilot will address the need
- Scope is ambitious but realistic/achievable
- Tests new interventions and strategies

Also, see the FAQ for more information on the exclusion for Medi-Cal funded services, other federally funded services, and current local responsibilities for health care or social services.
**Question:** Which outcome metrics need to be tied to incentive financing?

**Answer:** DHCS requires that pilots include at least one “pay for metric outcome achievement” item in their application. Other than this requirement, pilots have flexibility to design their funding requests and deliverables, as approved by DHCS in the application. See the Revised Budget Instructions document for more information.
**Question:** Can funds be used to purchase a Health Care Center for the WPC?

**Answer:** WPC funds may not be used to purchase, or build, a building. WPC pilot funds can support other capital infrastructure expenses when they are:
1. For items like minor rehabilitation or maintenance;
2. Allocated to the WPC enrollees during the program year in which the expense was incurred;
3. One component of a service; and/or
4. Proportional to the utility for one individual during the single encounter or PMPM payment timeframe.
Question: Can you clarify if the match for the IGT will be sent up each year or if we are expected to send the entire 5-year amount at one time.

Answer: For new applicants, Year 1 IGT and State payments are made in 2017 for the application and baseline data deliverables. Year 2-5 IGT and State payments will be made semi-annually and are based on the pilot’s reported deliverables completed, such as actual services provided, metrics reported, and metric outcomes achieved.
**Question:** May a managed care plan (MCP) divert savings resulting from reduced ER and Inpatient Care for the WPC population to a County Housing Pool, and how would this impact their rate-setting?

**Answer:** The WPC pilot program does not have any specific rules for what a MCP can do with its savings. The MCP’s future rates will be developed based on the usual actuarial process based on actual utilization – with no added calculation for MCP savings allocated to the housing pool. There is no DHCS/MCP savings sharing arrangement built into the WPC.
