

Statewide Aggregate Specialty Mental Health Services Performance Dashboard

Department of Health Care Services 2017 Medi-Cal Specialty Mental Health Performance Dashboard

Pursuant to the requirements of the 1915(b) Specialty Mental Health Services (SMHS) Waiver [Special Terms and Conditions #1](#), the SMHS Performance Dashboard makes available to the public data on SMHS provided to Medi-Cal eligible beneficiaries by Mental Health Plans (MHPs) and their contracted organizational providers. To protect patient privacy, all data is published in accordance with the [DHCS Public Aggregate Reporting Guidelines](#). Following publication of the statewide aggregate SMHS Performance Dashboard, DHCS will produce county-specific MHP SMHS Performance Dashboards. These dashboards will be published on the DHCS and MHP websites beginning January 2018. Producing state-level and county-specific dashboards will make information on the performance of California's SMHS readily available to the public and meets the requirements and intention of the 1915(b) SMHS Waiver Special Terms and Conditions.

The statewide aggregate SMHS Performance Dashboard includes two sets of charts and tables that include demographics of children and youth, and adult and older adult populations by age, gender, race, and ethnicity. The first set of charts and tables focus on demographics and service utilization of children and youth age 0 through 20 and the second set focuses on the same data elements for adults age 21 and older. All reports are based on approved claims data for SMHS provided to Medi-Cal eligible beneficiaries.

The charts and tables also include service utilization data that is displayed by dollar amount and units of service. Two types of penetration rate information are provided and categorized by demographic characteristics. Additionally, tables include a point-in-time "snapshot" of populations entering, exiting, and continuing services over a two-year period. Time-to-step-down tables provide data covering the past four years of the time-to-step-down services following psychiatric inpatient discharge. The 2016 SMHS Performance Dashboard includes trend information by displaying information for fiscal years 2012-13, 2013-14, 2014-15, and 2015-16. Subsequent Performance Dashboards will also include updated and additional information as new fiscal year data becomes available.

Notations on the chart and tables define measures used, such as the penetration rate, or explain anomalies in the data. Areas where data is suppressed in order to comply with Public Aggregate Reporting Guidelines, to prevent the release of patient health information, is also noted.

Arriving, Exiting, and with Service Continuance by Fiscal Year
Statewide as of August, 2017**

Category	Description (Please refer to the Measures Catalog for more detailed descriptions on all Performance Outcomes System measures.)
Arrivals	Adults that did not receive any SMHS within 3 months of their first date of service in the Fiscal Year.
Service Continuance	Adults receiving continuous services with no breaks in service greater than 90 days for a period of at least 2 years (>= 2 YR) or a period of 1 to 2 years (< 2 YR).
Exiting	Adults that did not receive any SMHS within 3 months after their last date of service in the Fiscal Year.
Arriving & Exiting	A distinct category in which Adults met both the criteria for Arrivals and Exiting above for the fiscal year.
Service Continuance & Exiting	A distinct category in which Adults had at least 2 years of Service Continuance going into the Fiscal Year and then Exited within the same Fiscal Year.
