EDMUND G. BROWN JR.
GOVERNOR

**Department of Health Care Services
California Children's Services (CCS) Redesign Goals
January 20, 2015**

Consistent with the DHCS Stakeholder Engagement Initiative, the CCS stakeholder process is designed to openly engage in communication with stakeholders for the purpose of improving health care delivery and quality of care to CCS eligible children. This process is also intended to embrace the core values embodied by the Triple Aim: better health, better health care, and lower costs. The CCS Redesign goals listed below are provided to the CCS Redesign Stakeholder Advisory Board (RSAB), to restate and clarify the goals of the CCS redesign process.

1. **Implement Patient and Family Centered Approach:** Provide comprehensive treatment, and focus on the whole-child rather than only their CCS eligible conditions.
2. **Improve Care Coordination through an Organized Delivery System:** Provide enhanced care coordination among primary, specialty, inpatient, outpatient, mental health, and behavioral health services through an organized delivery system that improves the care experience of the patient and family.
3. **Maintain Quality:** Ensure providers and organized delivery systems meet quality standards and outcome measures specific to the CCS population.
4. **Streamline Care Delivery:** Improve the efficiency and effectiveness of the CCS health care delivery system.
5. **Build on Lessons Learned:** Consider lessons learned from current pilots and prior reform efforts, as well as delivery system changes for other Medi-Cal populations.
6. **Cost-Effective:** Ensure costs are no more than the projected cost that would otherwise occur for CCS children, including all state-funded delivery systems. Consider simplification of the funding structure and value-based payments, to support a coordinated service delivery approach.
