

State of California—Health and Human Services Agency Department of Health Care Services

EDMUND G. BROWN JR. GOVERNOR

Date: September 30, 2015

CCS Information Notice: 15-09

TO: ALL CALIFORNIA CHILDREN SERVICES (CCS) COUNTY PROGRAM ADMINISTRATORS, MEDICAL CONSULTANTS, CHIEF/SUPERVISING THERAPISTS, LEAD THERAPISTS, STATE ADMINISTRATORS, MEDICAL CONSULTANTS AND THERAPY CONSULTANTS

SUBJECT: ICD-10 CODES FOR THE MEDICAL THERAPY PROGRAM (MTP)

The purpose of this information notice is to notify county CCS MTPs that Medi-Cal and the CCS Program will begin using ICD-10 Codes to categorize the diagnosis for CCS MTP eligible conditions, and provide a chart that identifies codes commonly used for MTP eligibility. This chart should be used to supplement the ICD-10-CM manual. The chart was developed by a collaborative statewide workgroup of CCS county MTP Physical Therapists (PT), Occupational Therapists (OT) and state therapy consultants in an effort to promote uniform statewide data entry and collection.

## **Implementation**

Beginning October 1, 2015 the CCS MTP will begin using the ICD-10 codes for identifying MTP eligible conditions. When completing the Patient Therapy Record (PTR), the primary <u>MTP</u> eligible diagnosis will be entered into the Primary Diagnosis box. It is only necessary to provide a secondary MTP (treatment) diagnosis when the primary does not adequately identify the MTP eligible condition. Authorizations for services or items with date of service (DOS) prior to October 1, 2015 can utilize ICD-9 codes. Any authorization or DOS on or after October 1, 2015 must use the new ICD-10 codes. The list provided is not all inclusive, and county CCS programs may need to refer to the ICD-10-CM manual and/or consult the Medi-Cal website to determine an appropriate code.

CCS Information Notice: 15-09 Page 2 September 30, 2015

Any questions regarding the content of this letter should be addressed to Jeff Powers, PT Consultant at (916) 327-3027 or via e-mail at <u>jeff.powers@dhcs.ca.gov</u>.

Sincerely,

## ORIGINAL SIGNED BY V. DAVID BANDA ON BEHALF OF LOUIS R. RICO

Louis R. Rico, Chief Systems of Care Division

In an effort to standardize diagnostics codes for a more accurate count of the major diagnoses seen in the MTP this list was created, however, it is not meant to be exhaustive but to capture the most common MTP eligible diagnoses. In instances where there are multiple codes that could be used, an attempt was made to select the one code that covers the vast majority of cases and is the most encompassing. The ICD-10 codes are listed in series of billable and non-billable codes. All of the codes under the ICD-10 column in this document are billable. For specific series codes, refer to ICD-10-CM book or ICD10Data.com.

The wording on the Patient Therapy Record (PTR) will be changed to MTP Primary diagnosis (required) and MTP Secondary diagnosis (optional). In the meantime, Primary MTP Diagnosis will be entered in the Primary Diagnosis box and Secondary MTP Diagnosis will be entered in the Treatment diagnosis box until the form is modified.

In some instances, the MTP Primary Diagnosis and the CCS General Program Diagnosis are the same. However in cases where it is not, the MTP primary diagnosis must be entered either first or second in the child's eligibility record to ensure that services and equipment related to the MTP eligible condition are not denied. Below are some examples:

General Program Primary	Neoplasm of the bone
Medical Therapy Program Primary	Amputation

General Program Primary	Uncontrolled seizures	
Medical Therapy Program Primary	Cerebral Palsy, Quadriplegia	
Conserved Data success Dataset and	Canadanad Dalay Diala air	

General Program Primary	Cerebral Palsy, Diplegia
Medical Therapy Program Primary	Cerebral Palsy, Diplegia

NS: indicates non-specific and non-billable
