CHDP PROGRAM LETTER NO.: 13-07

TO: ALL COUNTY CHILD HEALTH AND DISABILITY PREVENTION (CHDP)  
PROGRAM DIRECTORS, DEPUTY DIRECTORS, MEDICAL CONSULTANTS  
AND STATE STAFF

SUBJECT: HEALTH ASSESSMENT DATA FOR FISCAL YEAR 2011-2012

The Department of Health Care Services, Systems of Care Division has prepared the enclosed statistical report regarding CHDP services provided during the period of July 1, 2011 through June 30, 2012.

If you have any questions or need further information, please contact Ms. Cynthia Hicks at (916) 322-8708.

Original Signed By

Louis R. Rico, Chief  
Systems of Care Division

Enclosure

# **EXECUTIVE SUMMARY**

## **CHILD HEALTH AND DISABILITY PREVENTION**

### **ANNUAL REPORT FOR FISCAL YEAR 2011-2012**

#### **Purpose of Report**

The Child Health and Disability Prevention (CHDP) Annual Report for Fiscal Year July 1, 2011 to June 30, 2012 (FY11-12) provides aggregate level data drawn from the Confidential Screening/Billing Report (PM-160) form used for fee-for-service (FFS) reimbursement of services, and/or for reporting preventive health assessment services. The display of the data in this report is intended to provide a detailed view of the health assessment services provided to CHDP eligible children and youth as reported to the California Department of Health Care Services (DHCS) during FY11-12.

#### **Eligible Children And Youth**

CHDP eligible children and youth are those whose gross family incomes are at or below 200 percent of the Federal Poverty Level (FPL), age restriction for full-scope Medi-Cal of less than 21 years of age, presumptive Medi-Cal eligibility (the Gateway process), or children and youth with no health insurance for health assessments who must be less than 19 years old.

#### **Funding Sources**

Data is divided into five groups according to how the providers were reimbursed for their services. These groups are:

- Medi-Cal Fee-For-Service (FFS),
- presumed eligible for Medi-Cal FFS (Gateway),
- FFS paid by the State and funded solely by State General Fund (State Only),
- Medi-Cal Managed Care providers, and
- a total of all services (All Funding Groups).

The data for each group in this report is correlated by age, ethnic group, and county of residency.

### **Comparison Between FY10-11 and FY11-12**

CHDP provided services to a total of 2,230,179 children and youth in FY11-12, a decrease of two percent from FY10-11. Although there was an overall slight decrease in total served, the Medi-Cal FFS population decreased by 17 percent while the population in Medi-Cal Managed Care only increased by four percent.

#### **Comparison of Children and Youth Served for Fiscal Year 2010-2011 and 2011-2012**

Funding Source	Children And Youth Served FY10-11	Children And Youth Served FY11-12	Difference From Previous Year	Percent Difference From Previous Year
FFS	358,028	296,854	-61,174	-17%
Gateway	273,382	267,340	-6,042	-2%
State Only	28,959	27,527	-1,432	-5%
MCMC	1,581,415	1,638,459	57,044	4%
All Funding Groups	2,274,819	2,230,179	-44,640	-2%

### **Confidential Screening/Billing Report (PM-160)**

There are two types of Confidential Screening/Billing Report (PM-160) forms. The Standard PM-160 is used to bill and report preventive health services on a FFS basis rendered to Medi-Cal and non-Medi-Cal eligible children and youth. The Information Only PM-160 is used to meet Federal Medicaid requirements for reporting preventive health services rendered to Medi-Cal recipients who are enrolled in a MCMC plan in which CHDP services are capitated or receiving services from a Federally Qualified Health Center (FQHC), Rural Health Clinic (RHC) or Indian Health Clinic (IHC) [also known as Tribal Health Clinics (THCs)].

## **Providers**

CHDP providers consist of solo and group pediatric and family practice physicians and nurse practitioners, community and RHC, school district clinics and laboratories. Providers submit Standard and Information Only PM-160 forms to the DHCS' fiscal intermediary (Xerox) for processing.

### **Provider Types Fiscal Year 2011-2012**

	Total	Medi-Cal	Gateway	State-Only
Physician Group Practice	48.4%	46.4%	49.7%	34.2%
Physician Solo Practices	33.6%	38.5%	30.5%	11.8%
Rural Health Clinics				37.1%

Provider type was not indicated on the Information Only PM-160 forms submitted to Xerox by MCMC providers, FQHC, RHC or IHC. Those providers were excluded when provider type percentages were calculated.

## **Services Provided**

CHDP children and youth receive health assessments services according to the age-based CHDP periodicity schedule or when the assessments are considered medically necessary. A completed health assessment includes:

- a health history and an unclothed physical examination;
- dental, nutritional, and developmental assessments;
- a vision and a hearing test;
- appropriate immunizations;
- a tuberculin test;
- laboratory screening tests to include testing for blood lead;
- anticipatory guidance; and
- appropriate health education to include the harmful effects of using tobacco products and exposure to secondhand smoke. When an abnormality is found on the assessment, there is an intervention or a referral.

## **Conclusion**

The number of children served by CHDP over the past five years has remained relatively constant. In FY07-08, 1,947,575 children were served by CHDP. In FY11-12, CHDP provided services to 2,230,179 children (an average 2.9 percent per year increase). However, immunizations, as part of the services provided to CHDP eligible children and youth, show a slight decrease in FY11-12.

During FY11-12, CHDP clients received 5,439,112 individual immunizations. This is a decrease of 178,053 or 3.2 percent from FY10-11 when 5,617,165 immunizations were administered.

The data also indicates CHDP health history and physical exam screenings have resulted in a reduction in health risks for children. A health risk reduction is defined as a diagnosis made and treatment started or a diagnosis pending and a return visit scheduled or a referral to another examiner for diagnosis or treatment. Out of the 1,907,402 CHDP health screens provided in FY11-12, 377,144 (17.15 percent) children had health risks reduced due to preventive health exams.

Through the CHDP program, eligible children and youth receive periodic preventive health exams. Preventive health exams have helped children stay healthy, providers find health problems early, and been able to help providers and families find answers too many health questions. Preventive health exams enable children and youth with suspected problems to be referred for diagnosis and treatment. The CHDP program is instrumental in identifying many health problems that can be prevented or corrected, or reduce the severity through early detection.

# **CHILD HEALTH AND DISABILITY PREVENTION ANNUAL REPORT FISCAL YEAR 2011-2012 OVERVIEW AND FINDINGS**

## **OVERVIEW**

### **Program Description**

The Child Health and Disability Prevention (CHDP) is a preventive program that delivers periodic health assessments and services to low income children and youth in California. The CHDP program provides care coordination services to assist families with medical appointment scheduling, transportation, and access to diagnostic and treatment services. Health assessments are provided by enrolled private physicians, local health departments, community clinics, managed care health plans, and some local school districts. The CHDP program is administered by the Department of Health Care Services (DHCS), Systems of Care Division in partnership with local county CHDP programs.

Children eligible for the CHDP program are from families with incomes at or below 200 percent of the Federal Poverty Level (FPL); children up to 21 years of age are eligible for full scope Medi-Cal. Children presumed to be eligible for Medi-Cal (the Gateway process) and children who have no form of health insurance are eligible for CHDP services up to age 19.

CHDP participants receive completed health assessments according to the age-based CHDP periodicity schedules or when assessments are considered to be medically necessary. A completed health assessment includes: a health history and an unclothed physical examination; dental, nutritional, and developmental assessments; a vision and a hearing test; appropriate immunizations; a tuberculin test; laboratory screening tests to include testing for blood lead; anticipatory guidance; and appropriate health education to include the harmful effects of using tobacco products and exposure to secondhand smoke. When a health assessment provider discovers a health risk during the assessment, the CHDP participant is treated or referred to another provider.

Reimbursement to providers is made either through the fee-for-service (FFS) system for providers who are not part of a managed care health plan, or through Medi-Cal managed care health plans for providers who are part of the health plan's network of providers. FFS providers are required to complete a Confidentiality Screening/Billing Report (PM-160) claim form to receive reimbursement through the DHCS' fiscal intermediary: Xerox. Medi-Cal Managed Care (MCMC) providers are also required to complete and submit a PM-160 form; however, the PM-160 form in this instance is the PM-160 Information Only form. The Information Only PM-160 form is utilized only for the purposes of data gathering and is not used for reimbursement purposes. For a listing of the provider types see Table 3, page VIII of this report.

Three of the CHDP provider types (Federally Qualified Health Clinics (FQHC), Rural Health Clinics (RHC), and Indian Health Clinics(IHC)) are reimbursed in a manner that is different from other FFS providers. Health care providers working for these clinics, as opposed to other FFS provider types, render CHDP services to full-scope Medi-Cal

CHDP participants or CHDP participants pre-enrolled in full-scope Medi-Cal through the Gateway process. For each health assessment rendered according to the CHDP periodicity schedule, these clinics receive a payment, but that payment is also considered to be reimbursement for any follow-up services rendered to the CHDP participant on the day of the health assessment. Services rendered after the day of the health assessment are not covered by the payment. Billing for health assessments at the higher all-inclusive rate is submitted to Xerox on a form other than a PM-160.

## **Data**

CHDP data are derived from Confidential Screening/Billing Report (PM160) forms submitted by providers. Duplicate records are identified and eliminated from the data by sorting the data with an identifier constructed of several pieces of information that can identify an individual. These data are submitted to the federal Centers for Medicare and Medicaid Services (CMS) on an annual basis.

As previously indicated, for service providers that bill directly to Xerox, the data collected on CHDP participants and the services they receive are obtained from the Standard PM-160. Providers who do not bill directly to Xerox submit an Information Only PM-160. This Information Only PM-160 form contains data only on services rendered to CHDP children.

The collected data that are presented in this report are often arrayed by funding source. The funding sources are: All Funding Group, Regular Medi-Cal FFS, Gateway (presumptive eligibility Medi-Cal FFS), State Only, and MCMC plan. The Medi-Cal FFS funding source data describes CHDP participants whose service providers render services to full-scope Medi-Cal children and youth and are reimbursed through FFS. Gateway funding source data describe data from CHDP participants whose service providers render services to children and youth who are pre-enrolled in full-scope Medi-Cal through the Gateway process and are also reimbursed through FFS. The State Only funding source data consist of data on children and youth who have limited scope emergency Medi-Cal in the month they are present for a CHDP health assessment. Their health assessments are reimbursed on a FFS basis through the State General Fund. The Information Only funding source data describes full-scope Medi-Cal CHDP participants whose service providers are reimbursed through MCMC health plans.

CHDP operational responsibility is delegated to local governments in all 58 California counties as well as the cities of Berkeley, Long Beach, and Pasadena. Local CHDP responsibilities include provider recruitment, review and approval; provider education and quality assurance; liaison with schools and various community agencies; education and outreach to families of eligible CHDP children; and assistance to providers and families in obtaining CHDP services.

## FINDINGS

### Recipient Demographics

Data from the Standard PM-160 and Information Only PM-160 forms indicate that during FY11-12 the CHDP program providers delivered preventive health services to an estimated 2,230,179 children, a two percent decrease in the number of children receiving CHDP services over the previous year. See Table 1.

**Table 1. Number and Percent Change for CHDP  
Children Served FY00-01 through FY11-12**

<b>Fiscal Year</b>	<b>Children Served</b>	<b>Children Served Previous Fiscal Year</b>	<b>Change From Previous Fiscal Year</b>	<b>Percent Change From Previous Fiscal Year</b>
FY11-12	2,230,179	2,274,819	-44,640	-2.0%
FY10-11	2,274,819	2,291,689	-16,870	-0.7%
FY09-10	2,291,689	2,195,155	96,534	4.4%
FY08-09	2,195,155	1,947,575	247,580	12.7%
FY07-08	1,947,575	2,016,558	-68,983	-3.4%
FY06-07	2,016,558	2,038,833	-22,275	-1.1%
FY05-06	2,038,833	2,093,105	-54,272	-2.6%
FY04-05	2,093,105	2,065,237	27,868	1.3%
FY03-04	2,065,327	2,114,480	-49,153	-2.3%
FY02-03	2,114,480	2,087,243	27,237	1.3%
FY01-02	2,087,243	2,193,157	-105,914	-4.8%
FY00-01	2,193,157	2,228,326	-35,169	-1.6%

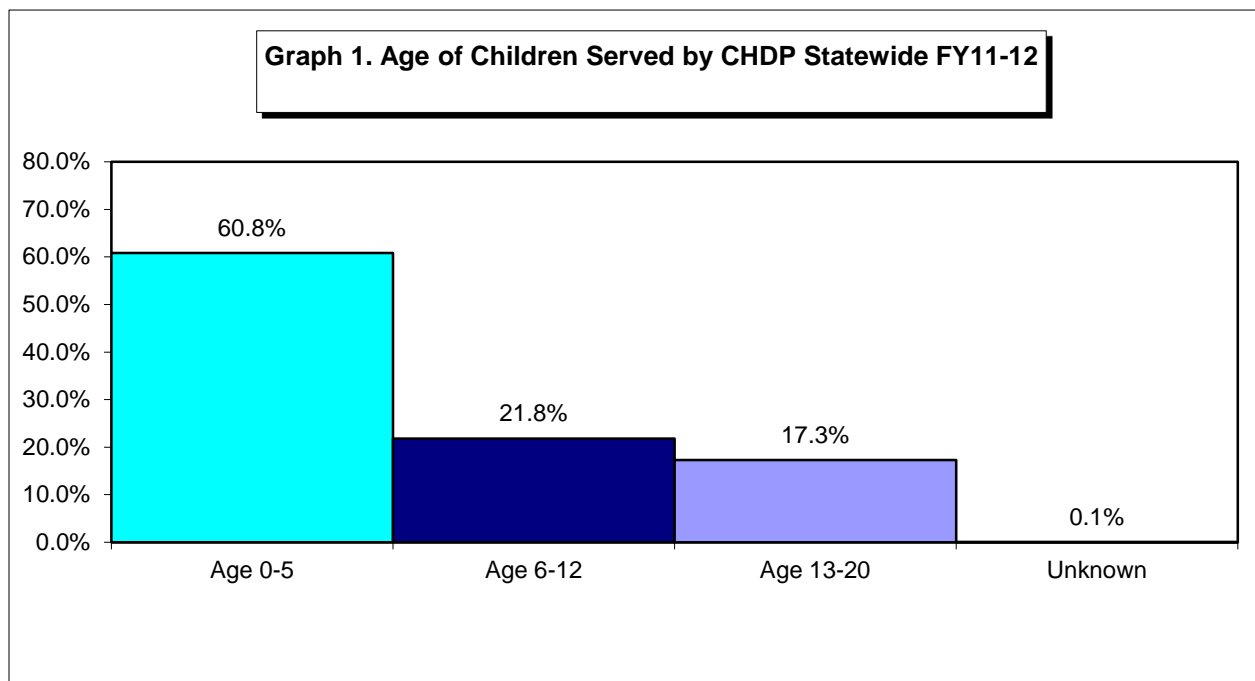

The number of children served over the last twelve years has essentially remained the same with a low of 1,947,575 (FY07-08) to a high of 2,291,689 (FY09-10), a total fluctuation of 344,114 with the average number of children served being 2,129,010 per year. According to the California Department of Finance (DOF), while the total California population has increased from 33,871,648 in 2000 to 37,253,956 in 2010, the population of persons under 18 years has only increased slightly from 9,249,829 in 2000 to 9,295,040 in 2010, a difference of 45,211.

A comparison of CHDP data by funding source shows that 61,174 fewer Medi-Cal FFS children were reported in FY11-12 than in FY10-11, a 17.1 percent decrease. See Table 2. During FY11-12, the number of children who were enrolled in Medi-Cal through the Gateway process decreased by 6,042 children, or 2.2 percent, from the previous year. The number of State Only Funded CHDP children decreased from the previous year by 1,432, or 4.9 percent. CHDP received 24,008 more Information Only PM-160s during FY11-12 than in FY10-11, an increase of 1.5 percent.

**Table 2. Children Served by CHDP Statewide  
FY00-01 through FY11-12**

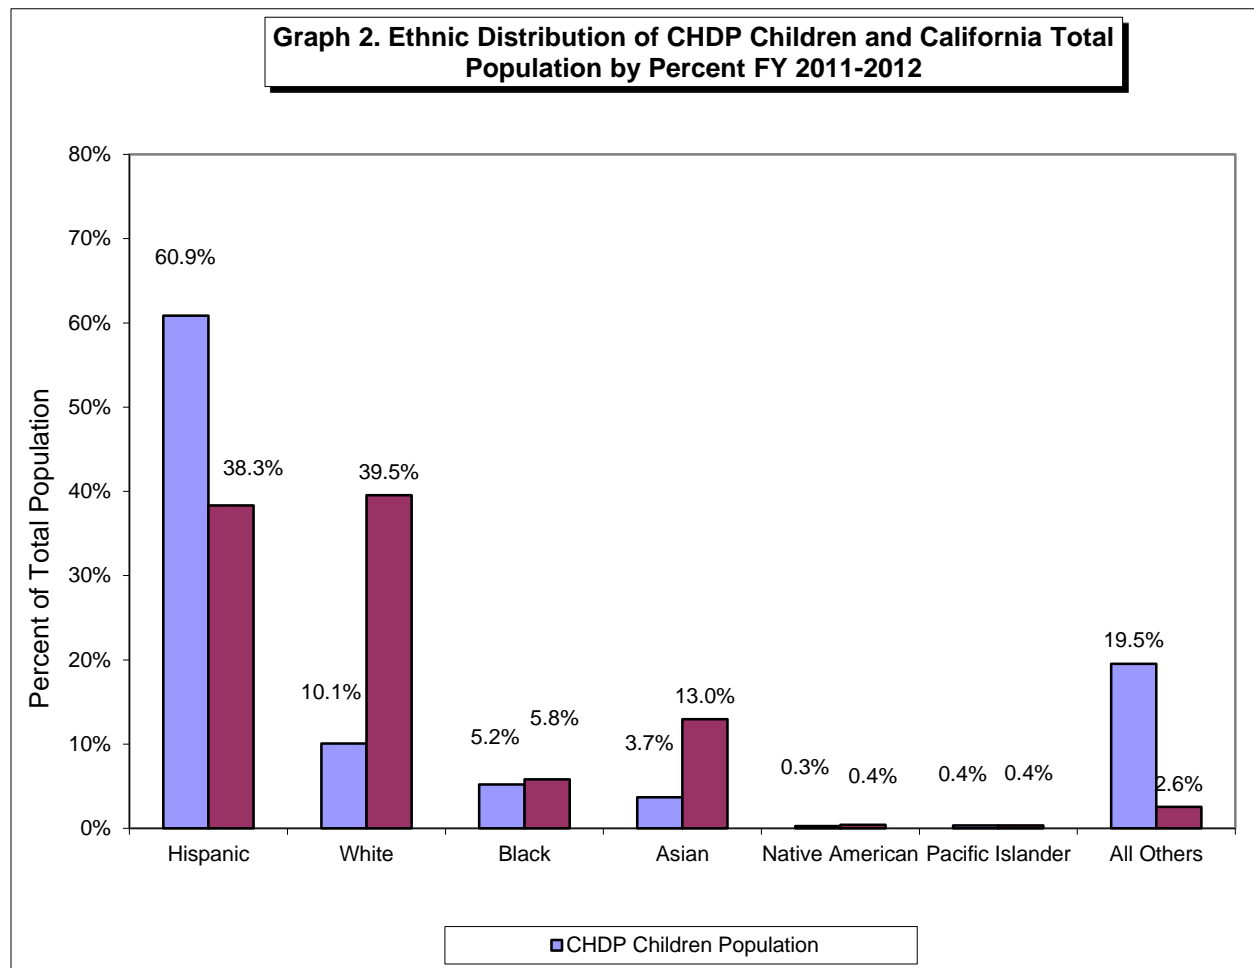

Fiscal Year	Children Served				
	Medi-Cal FFS	Gateway FFS	State Only	Information Only	Total
FY11-12	296,854	267,340	27,527	1,638,458	2,230,179
FY10-11	358,028	273,382	28,959	1,614,450	2,274,819
FY09-10	406,504	276,844	25,863	1,581,415	2,291,689
FY08-09	414,533	299,130	27,499	1,452,507	2,195,155
FY07-08	405,479	334,351	28,333	1,179,412	1,947,575
FY06-07	396,145	349,154	30,025	1,241,234	2,016,588
FY05-06	398,292	387,702	31,997	1,220,842	2,038,833
FY04-05	419,832	458,821	38,016	1,176,436	2,093,105
FY03-04	416,518	420,383	227,030	1,001,306	2,065,237
FY02-03	381,995	0	846,111	886,374	2,114,480
FY01-02	391,332	0	938,661	757,250	2,087,243
FY00-01	398,789	0	1,059,324	735,044	2,193,157

Of the 2,230,179 children who received services through the CHDP program during FY11-12, 60.8 percent were age 0 to 5 years old, 21.8 percent were age 6 to 12 years old, and 17.3 percent were age 13 to 20 years old. Out of all of the PM-160 data, there was no indication of age on 0.1 percent of the children. See Graph 1.

In FY11-12 the ethnic distribution of the 2,230,179 children who received medical services as a result of the CHDP program is as follows: 60.9 percent Hispanic, 10.1 percent White, 5.2 percent Black, 3.7 percent Asian, 0.3 percent Native American, and 0.4 percent Pacific Islander. All other ethnic groups comprised 19.5 percent of the children. See Graph 2

According to DOF's most current California population estimate, the ethnic composition of the population was 38.3 percent Hispanic, 39.5 percent White, 5.8 percent Black, 13.0 percent Asian, 0.4 percent Native American, and 0.4 percent Pacific Islander. All other ethnic groups comprised 2.8 percent of the population<sup>1</sup>. See Graph 2.

The gender composition of CHDP children served during FY11-12 was 1,094,713 (49.1 percent) females and 1,128,544 (50.6 percent) males. For 6,922 (0.3 percent) of the population from all of the PM-160 data, the gender was not indicated. For a detailed distribution of CHDP gender data by county, see Table 82 in Section IX in this report.

<sup>1</sup> State of California, Department of Finance, Report P-3: State and County Population Projections by Race/Ethnicity, Detailed Age, and Gender, 2010-2060. Sacramento, California, January 2013.

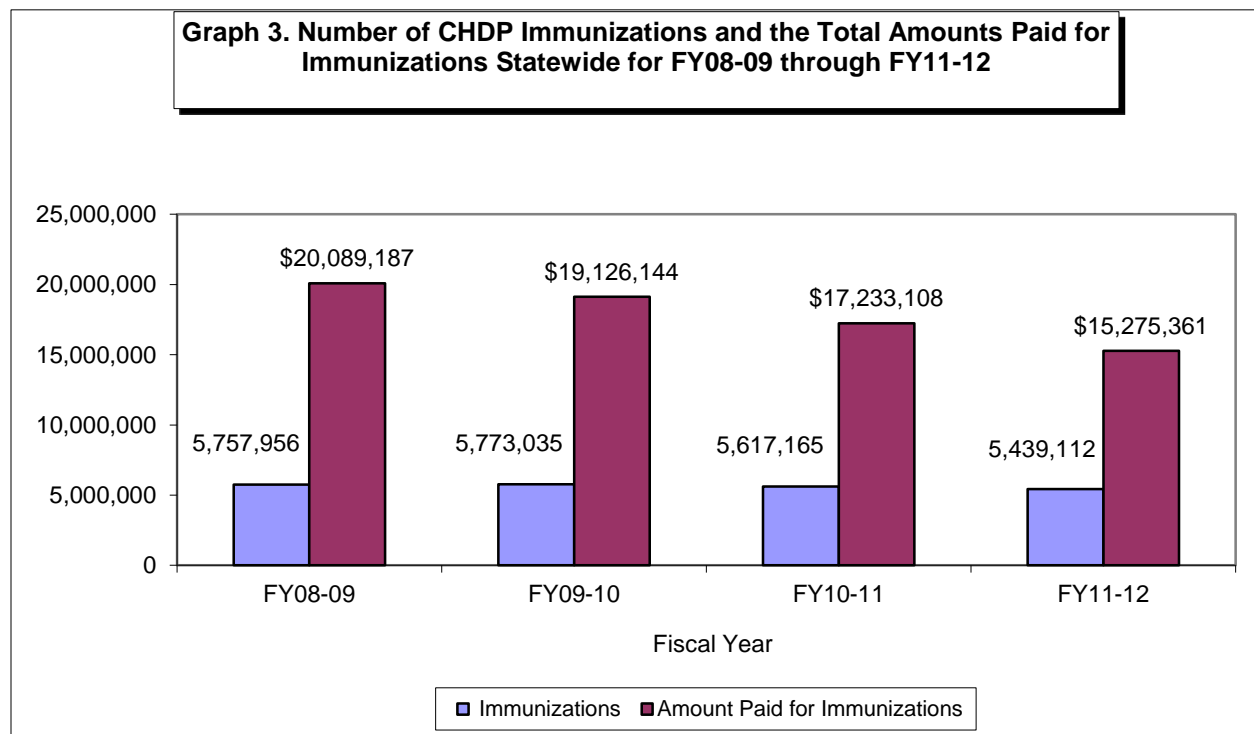

## Immunizations

CHDP providers administer immunizations based on the CHDP Periodicity Schedules. Depending on the type of immunization, a child can be protected from one disease or several diseases. For example, the vaccine DTaP will protect a child from diphtheria, tetanus, and pertussis while another type of vaccine such as HepA only protects a child from the Hepatitis A virus.

The reimbursement rates for CHDP immunizations are listed in the “*CHDP Vaccine Benefit and Reimbursement Table*” that is in the “*Rates: Maximum Reimbursement for CHDP*” section of the “*CHDP Provider Manual*”. The rate of reimbursement includes the cost of the vaccines and the cost that the provider is reimbursed for administering the vaccines. The rate of reimbursement for an immunization depends on who pays for the vaccine. There are two sources of payment for vaccines that are administered by CHDP providers: (1) the Vaccines for Children (VFC) program and (2) CHDP providers. The VFC program provides free pediatric vaccines to physicians’ offices for administration to eligible children from low income families. All CHDP children and youth through the age 18 are eligible for VFC. The reimbursement rate for vaccines administered to CHDP participants that are not covered by the VFC program, such as Measles or Meningococcal Conjugate Vaccine for participants over 18 years-old, are listed in the “*CHDP Vaccine Benefit and Reimbursement Table*”. Providers are reimbursed at a set rate for the cost of the vaccines that they have purchased as well as the cost of administering those vaccines.

During FY11-12, CHDP children received 5,439,112 individual immunizations. This is a decrease of 178,053 immunizations or 3.2 percent from FY10-11 when 5,617,165 immunizations were administered. See Graph 3. This decrease can be principally attributed to changes and additions to the CHDP Periodicity Schedules.

The cost for the immunizations in FY11-12 totaled \$15,275,361.33, making the cost per immunization \$2.81. The cost per immunization for FY10-11 was \$3.07. The average cost per immunization decreased by \$0.26 (8.4 percent) from FY10-11. The lower cost per immunization is due to changes and additions to the CHDP Periodicity Schedules.

### **Type of Providers**

During FY11-12, there were 15 provider types who submitted Standard PM-160 forms to Xerox, DHCS' fiscal intermediary. Data gathered from Information Only PM-160 forms did not indicate provider type. Therefore, percentages were calculated excluding children who receive CHDP services from providers that are reimbursed through MCMC plans and those providers who work in FQHCs, RHCs, and IHCs.

Physician Group Practice provided CHDP services to 48.4 percent of the total children served, 46.4 percent of Medi-Cal children, 52.2 percent of the children enrolled through the Gateway process, and 34.2 percent of the State Funded children. Physician Solo Practices provided CHDP services to 33.6 percent of the total children served, 38.5 percent of the Medi-Cal children, 30.5 percent of the Gateway children, and 11.8 percent of the State Funded children. RHCs provided services to 37.1 percent of the State Funded children. See Table 3.

\* Represents numbers 4 or less. As per Office of Management and Budget, Office of Information and Regulatory Affairs, Statistical and Science Policy. Statistical Policy Working Paper 22, (Second version, 2005) Report on Statistical Disclosure Limitation. D.2.b. The Threshold Rule. p. 15. Washington, DC: U.S. Government Printing Office.

## **Expenditures**

MCMC health plans are required to submit Information Only PM-160 forms to Xerox when they render CHDP services to eligible children and youth. FQHCs, RHCs, and IHCs are also required to submit an Information Only PM-160 form when they provide CHDP services to full-scope Medi-Cal and Gateway children and youth. The Information Only PM-160 form is specifically used as a reporting form rather than a billing form. Expenditure data are unavailable for this group of children and were not included when calculating the average cost per child for CHDP services.

During FY11-12, a combined total of \$48,210,545 was paid for Medi-Cal FFS funded, Gateway funded services, and State funded services to CHDP eligible children. See Table 4. This is a decrease of \$4,960,718 or 9.3 percent from the \$53,171,263 paid in FY10-11.

Of the \$48,210,545 paid for CHDP services in FY11-12, \$22,960,260 was paid for services to 296,854 Medi-Cal Funded children (see Table 2) at a cost of \$77.35 per child.

In FY11-12 the Gateway Funded process, which pre-enrolls children in full scope Medi-Cal, paid providers \$23,195,423 for services to 267,340 children (see Table 2) at a calculated cost of \$86.76 per child.

For State Funded CHDP services, providers were paid \$2,054,862 for CHDP preventive health exams and services to 27,527 children (see Table 2). The cost per child for FY11-12 was \$74.65.

## **Target Population**

The CHDP target population is comprised of children eligible for Medi-Cal less than 21 years of age and non Medi-Cal eligible children less than 19 years of age from families with incomes under 200 percent of the FPL. Children that meet those criteria qualify for health services through the CHDP program although they may not use the services. The CHDP estimated target population for FY11-12 was 6,332,320<sup>2</sup>.

The total number of children actually served by CHDP was 2,230,179 and accounted for 35.2 percent of the target population. More than half (64.8 percent) of the target population was not served by the CHDP program. The Medi-Cal funded estimated target population was 4,800,875. This population includes Regular Medi-Cal FFS, Gateway (Presumptive eligibility Medi-Cal FFS), and Information Only children and youth. CHDP services were rendered to 2,202,652 CHDP participants which are 45.9 percent of the target population. The number of State Funded children served was 27,527 and the target population for State Funded children was 1,531,445 resulting in the State funded children being 1.8 percent of the target population). See Graph 4.

<sup>2</sup> Data Sources

State of California, Department of Health Care Services. Beneficiaries by Age and Gender By County, July 2009. Report Date: July 2010.

(<sup>a</sup>) Cells were blanked because counts were too small to allow proper statistical de-identification per HIPAA guidelines (Alpine Total = 11).

Department of Health Care Services. August, 2010.

Counties Identified with \*\* had populations less than 50,000 in 2006. Data for these counties have been censored ( - - - - ) to protect the confidentiality of Medi-Cal recipients.

(<sup>b</sup>): Births are reported by county in which the Medi-Cal beneficiary resides per the Medi-Cal eligibility file.

Table 1: Population Age and Sex Characteristics

**Note:** Users interested in comparing CDPs between 2010 and 2000 will want to carefully examine the geographical boundaries or land area (found in Table 2) of such CDPs as boundaries may have significantly changed between the two years.

Estimates of Total Population under age 18 derived from the U.S. Census Bureau, 2006-2010 American Community Survey (ACS).

## **California Counties That Served Over 50,000 Children in FY11-12**

During FY11-12, eleven California counties each served over 50,000 CHDP participants. Combined these counties served 1,762,890 children which is approximately 79.1 percent of the CHDP participants statewide. Out of the eleven counties, Los Angeles served the most children at 619,578. This number represents 35.1 percent of the total children served by the eleven counties and 27.8 percent of the total children served statewide by CHDP. See Graph 5.

## **Tables**

Data previously discussed are presented in greater detail in the following tables. These tables are grouped into eleven sections. Sections I through IV provide the count of children and youth served and the health assessments provided. The sections are arrayed by funding source. Section V provides the count of specific assessments, and the tables are arrayed by age, ethnicity, and county. Section VI provides data on health care providers. Section VII provides data on immunizations that CHDP eligible children and youth receive. Section VIII describes data on other tests given to CHDP participants. In Sections IX through XI, the data are arrayed by county.
