# CHILD HEALTH AND DISABILITY PREVENTION ANNUAL REPORT FY 2009-2010 OVERVIEW AND FINDINGS

## OVERVIEW

### Program Description

The Child Health and Disability Prevention (CHDP) is a preventive program that delivers periodic health assessments and services to low income children and youth in California. CHDP provides care coordination to assist families with medical appointment scheduling, transportation, and access to diagnostic and treatment services. Health assessments are provided by enrolled private physicians, local health departments, community clinics, managed care plans, and some local school districts.

CHDP eligible children and youth are those whose gross family incomes are at or below 200 percent of the Federal Poverty Level (FPL). Age is also a factor in eligibility. CHDP participants who receive CHDP services as a result of being enrolled in full-scope Medi-Cal have to be less than 21 years of age. Participants who receive CHDP services through pre-enrolling in full-scope Medi-Cal because of presumptive Medi-Cal eligibility (the Gateway process) or those children and youth who have no health insurance for health assessments must be less than 19 years old.

CHDP participants receive completed health assessments from CHDP providers according to the age-based CHDP periodicity schedule or when the assessments are considered medically necessary. A completed health assessment includes the following: a health history and an unclothed physical examination; dental, nutritional, and developmental assessments; a vision and a hearing test; appropriate immunizations; a tuberculin test; laboratory screening tests to include testing for blood lead; anticipatory guidance; and appropriate health education to include the harmful effects of using tobacco products and exposure to secondhand smoke. When a health assessment provider discovers a health risk during the assessment, the CHDP participant is treated or referred to another provider.

Reimbursement of the providers consists of two processes: Medi-Cal fee-for-services (FFS), and Medi-Cal Managed Care (MCMC). In the first process, FFS, services are provided and the provider submits a billing and information form called a PM 160 to CMS's fiscal intermediary, HP Enterprise Services (HP). When the billing is approved by HP, the fiscal intermediary reimburses the provider.

Providers are grouped into 15 provider types in the CHDP program. These provider types include solo practice physicians, group practice physicians, outpatient clinics, and so on. Three of these provider types, federally qualified health clinics (FQHCs), rural health clinics (RHCs) and Indian health clinics (IHCs), use a different form of FFS billing. Health care providers working for these clinics, as opposed to other FFS provider types, render CHDP services to full-scope Medi-Cal CHDP participants or CHDP participants pre-enrolled in full-scope Medi-Cal through the Gateway process. For each health assessment rendered according to the CHDP periodicity schedule, these clinics receive a payment, but that payment is also considered to be reimbursement for any

follow-up services rendered to the CHDP participant on the day of the health assessment. Services rendered after the day of the health assessment are not covered by the payment. Billing for health assessments at the higher all-inclusive rate is submitted to HP on a form called a UB-04.

The second process for provider reimbursement is through MCMC. Providers are members of networks of organized systems of care that emphasize primary and preventative care. These providers render services to CHDP children or youth who are eligible for full-scope Medi-Cal and are reimbursed by their organized systems of care.

In addition to provider reimbursement, another administrative responsibility of CMS is the collection of data on CHDP children and youth and the CHDP services provided to them. This data collection is a federal requirement. For those service providers that bill directly to HP, the data collected on CHDP participants and the services they receive are obtained from the standard PM 160s. Providers who do not bill directly to HP submit to HP a PM 160 called an Information Only PM 160. This PM 160 contains data only on services rendered to CHDP children.

The collected data that are presented in this report are often arrayed by funding source. The funding sources are: All Funding, Regular Medi-Cal FFS, Gateway (presumptive eligibility Medi-Cal FFS), State Only, and Information Only. The Medi-Cal FFS funding source data describes CHDP participants whose service providers render services to full-scope Medi-Cal children and youth and are reimbursed through FFS. Gateway funding source data describe data from CHDP participants whose service providers render services to children and youth who are pre-enrolled in full-scope Medi-Cal through the Gateway process and are also reimbursed through FFS. The State Only funding source data consist of data on children and youth who have limited scope emergency Medi-Cal in the month they present for a CHDP health assessment. Their health assessments are reimbursed on a FFS basis by the State General Fund. The Information Only funding source data describes full-scope Medi-Cal CHDP participants whose service providers are reimbursed through Medi-Cal Managed Care.

CHDP operational responsibility is delegated to local governments in all 58 California counties as well as the cities of Berkeley, Long Beach, and Pasadena. Local CHDP responsibilities include provider recruitment, review and approval; provider education and quality assurance; liaison with schools and various community agencies; education and outreach to families of eligible CHDP children; and assistance to providers and families in obtaining CHDP services. Administration of CHDP at the State level is the responsibility of the Systems of Care Division (SCD) of California's Department of Health Care Services (DHCS).

## **DATA**

CHDP data are derived from Confidential Screening/Billing Report (PM 160) forms submitted by providers. Duplicate records occur when more than one PM 160 is submitted for an individual child. Duplicate records are removed by sorting out records with identical Medi-Cal Identification Numbers. If a record has the same Medi-Cal Identification Number as some other records, those other records are deleted.

## FINDINGS

### Recipient Demographics

Data from Standard PM 160 and Information Only PM 160 forms indicate that during FY09-10 the CHDP program providers delivered preventive health services to an estimated 2,291,689 children, a 4.4 percent annual increase in the number of children receiving CHDP services over the previous year. See Table 1. From FY98-99 through FY07-08, the total number of children receiving CHDP services decreased; however, there were 96,534 more children in FY09-10 than in FY08-09 who received CHDP services.

**Table 1. Number and Percent Change for CHDP  
Children Served FY95-96 through FY09-10**

<b>Fiscal Year</b>	<b>Children Served</b>	<b>Children Served Previous Fiscal Year</b>	<b>Change From Previous Fiscal Year</b>	<b>Percent Change From Previous Fiscal Year</b>
FY09-10	2,291,689	2,195,155	96,534	4.4%
FY08-09	2,195,155	1,947,575	247,580	12.7%
FY07-08	1,947,575	2,016,558	-68,983	-3.4%
FY06-07	2,016,558	2,038,833	-22,275	-1.1%
FY05-06	2,038,833	2,093,105	-54,272	-2.6%
FY04-05	2,093,105	2,065,237	27,868	1.3%
FY03-04	2,065,327	2,114,480	-49,153	-2.3%
FY02-03	2,114,480	2,087,243	27,237	1.3%
FY01-02	2,087,243	2,193,157	-105,914	-4.8%
FY00-01	2,193,157	2,228,326	-35,169	-1.6%
FY99-00	2,228,326	2,228,361	-35	0.0%
FY98-99	2,228,361	2,285,697	-57,336	-2.5%
FY97-98	2,285,697	2,188,669	97,028	4.4%
FY96-97	2,188,669	2,100,410	88,259	4.2%
FY95-96	2,100,410	2,016,615	83,795	4.2%

A comparison of FY09-10 CHDP data to FY08-09 CHDP data by funding source shows that 8,029 fewer Medi-Cal FFS children were reported in FY09-10 than in FY08-09, a 1.9 percent decrease. See Table 2. During FY09-10, the number of children who were enrolled in Medi-Cal through the Gateway process decreased by 22,286 children, or 7.5 percent, from the previous year. The number of State Funded CHDP children decreased from the previous year by 1,636, or 6.0 percent. CHDP received 128,908 more Information Only PM 160s during FY09-10 than in FY08-09. That is an increase of 8.9 percent.

**Table 2. Children Served by CHDP Statewide  
FY95-96 through FY09-10**

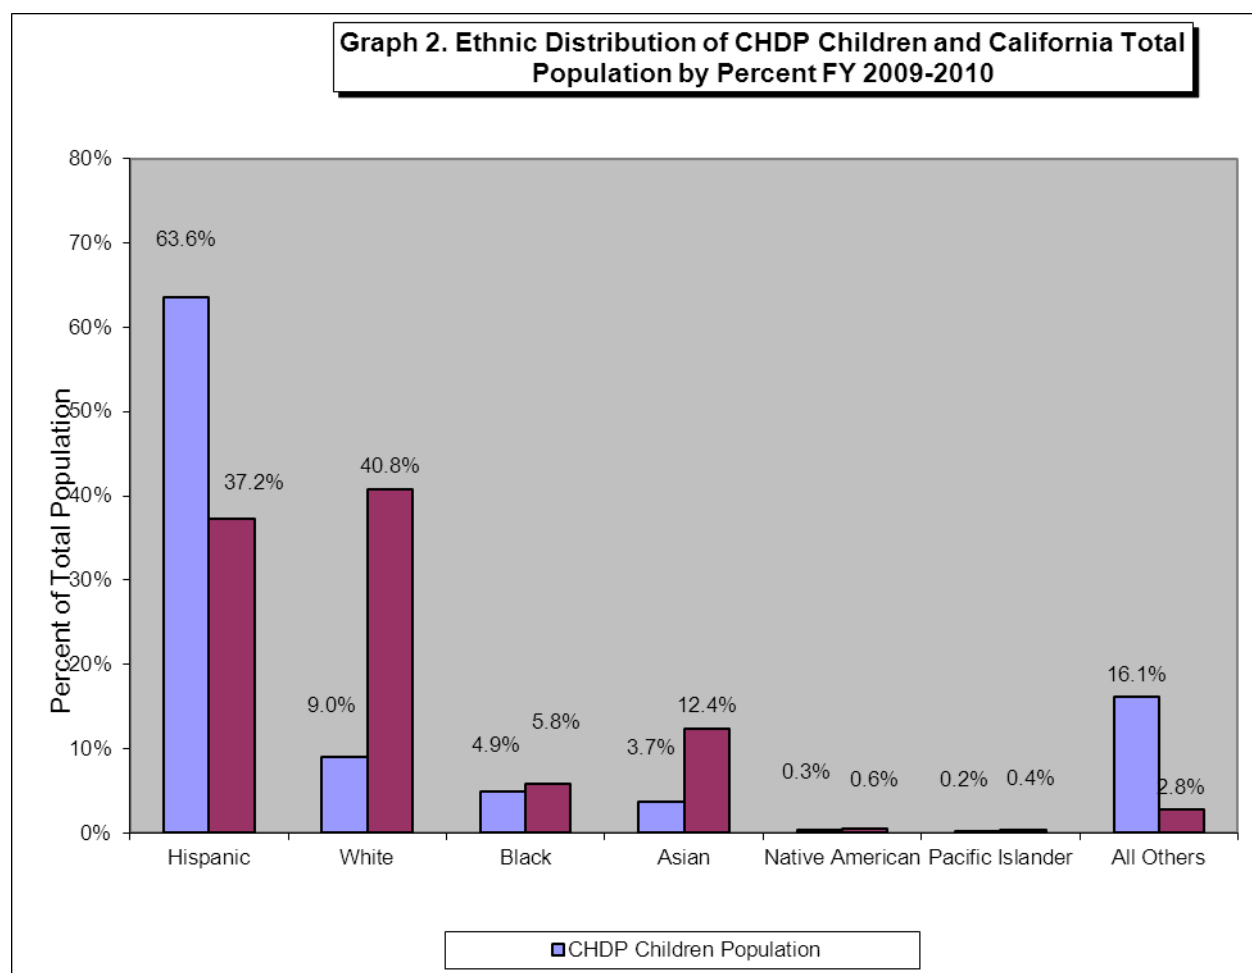

Fiscal Year	Children Served				
	Medi-Cal-Funded	Gateway-Funded	State-Funded	Info-PHP-Funded	Total
FY09-10	406,504	276,844	25,863	1,581,415	2,291,689
FY08-09	414,533	299,130	27,499	1,452,507	2,195,155
FY07-08	405,479	334,351	28,333	1,179,412	1,947,575
FY06-07	396,145	349,154	30,025	1,241,234	2,016,588
FY05-06	398,292	387,702	31,997	1,220,842	2,038,833
FY04-05	419,832	458,821	38,016	1,176,436	2,093,105
FY03-04	416,518	420,383	227,030	1,001,306	2,065,237
FY02-03	381,995	0	846,111	886,374	2,114,480
FY01-02	391,332	0	938,661	757,250	2,087,243
FY00-01	398,789	0	1,059,324	735,044	2,193,157
FY99-00	426,968	0	1,105,533	695,825	2,228,326
FY98-99	505,080	0	1,097,961	625,320	2,228,361
FY97-98	794,476	0	1,048,696	442,525	2,285,697
FY96-97	984,559	0	905,654	298,456	2,188,669
FY95-96	1,101,758	0	841,766	156,886	2,100,410

Of the 2,291,689 children who received services through the CHDP program during FY09-10, 66.3 percent were age 0 to 5 years old, 20.2 percent were age 6 to 12 years old, and 13.5 percent were age 13 to 20 years old. PM 160 data did not indicate the age of 0.1 percent of the children. See Graph 1.

In FY09-10 the ethnic distribution of the 2,291,689 children who received medical services as a result of the CHDP program was as follows: 63.6 percent Hispanic, 9.0 percent White, 4.9 percent Black, 3.7 percent Asian, 0.3 percent Native American, and 0.2 percent Pacific Islander. All other ethnic groups comprised 16.1 percent of the children. See Graph 2

According to the California Department of Finance's most current California population estimate, the ethnic composition of California's population was 37.2 percent Hispanic, 40.8 percent White, 5.8 percent Black, 12.4 percent Asian, 0.6 percent Native American, and 0.4 percent Pacific Islander. All other ethnic groups comprised 2.8 percent of the population<sup>1</sup>. See Graph 2.

The gender composition of CHDP children served during FY09-10 was 1,137,216 (49.7 percent) females and 1,146,200 (50.0 percent) males. For 7,913 (0.3 percent) of the population, the gender was not indicated in the PM 160 data. For a detailed distribution of CHDP gender data by county, see Table 82 in Section IX in this report.

<sup>1</sup> State of California, Department of Finance, California County Race / Ethnic Population Estimates and Components of Change by Year, July 1, 2000-2008. Sacramento, California, June 2010.

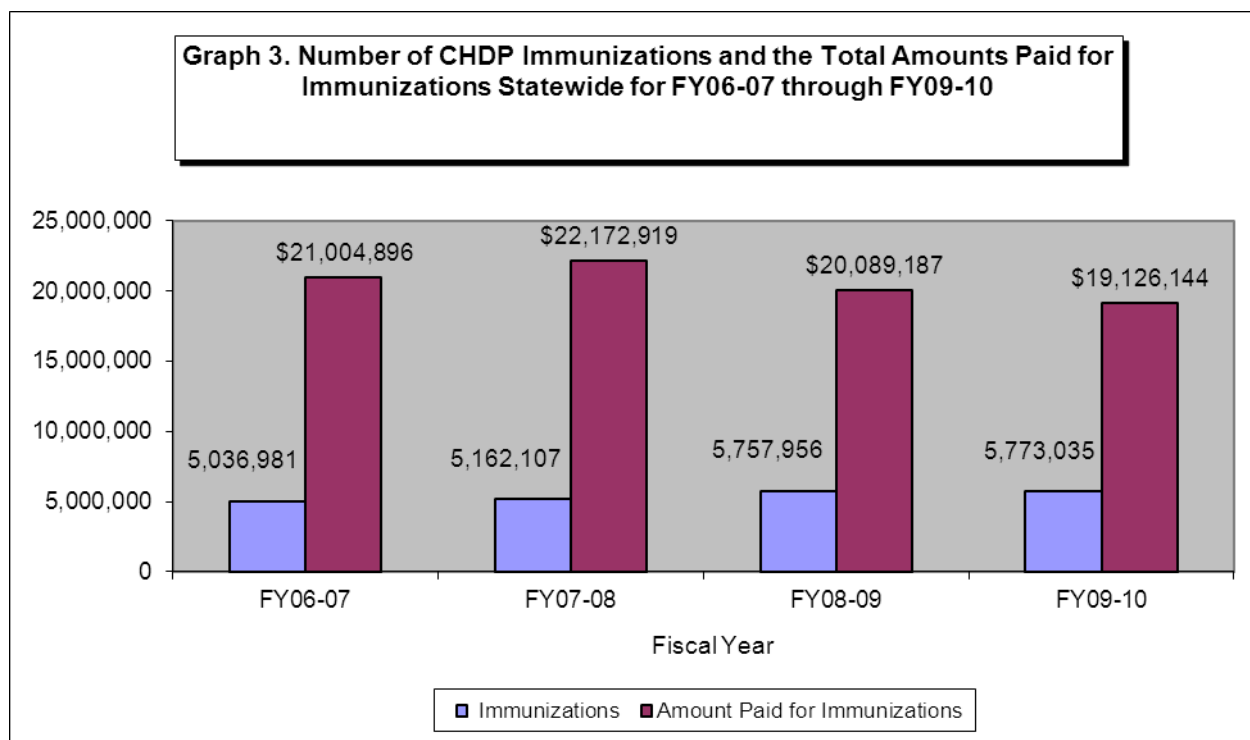

## **Immunizations**

CHDP providers administer immunizations following the *Recommended Childhood and Adolescent Immunizations Schedule*. Depending on the type of immunization, a child can be protected from one disease or several diseases. For example, the vaccine DTaP will protect a child from diphtheria, tetanus, and pertussis while another type of vaccine such as HepA only protects a child from the Hepatitis A virus.

The reimbursement rates for CHDP immunizations are listed in the “CHDP Vaccine Benefit and Reimbursement Table” that is in the “Maximum Reimbursement Section” of *The CHDP Provider Manual*. The rate of reimbursement consists of the cost of the vaccines and the cost that the provider is reimbursed for administering the vaccines. Therefore, the rate of reimbursement for an immunization depends on who pays for the vaccine. There are two sources of payment for vaccines that are administered by CHDP providers: (1) the Vaccines for Children (VFC) program and (2) CHDP providers. The VFC program provides free pediatric vaccines to physicians’ offices for administration to eligible children from low income families. All CHDP children and youth through the age 18 are eligible for VFC. The reimbursement rate for vaccines administered to CHDP participants that are not covered by the VFC program, such as Measles or Meningococcal Conjugate Vaccine for participants over 18 years-old, are listed in the “CHDP Vaccine Benefit and Reimbursement Table.” Providers are reimbursed at a set rate for the cost of the vaccines that they have purchased as well as the cost of administering those vaccines.

During FY09-10, CHDP children received 5,773,035 individual immunizations. This is an increase of 15,079 immunizations or 0.2 percent ( $15,079/5,773,035 = 0.002$ ) from FY08-09 when 5,757,956 immunizations were administered. See Graph 3. This increase can be principally attributed to changes and additions to the *Recommended Childhood and Adolescent Immunizations Schedule*.

The cost for the immunizations in FY09-10 totaled \$19,126,144, making the cost per immunization \$3.31 ( $\$19,126,144/5,773,035 = \$3.31$ ). The cost per immunization for FY08-09 was \$3.49. The average cost per immunization decreased by \$0.18 (2.5 percent) for FY09-10. The lower cost per immunization is due to changes and additions to the *Recommended Childhood and Adolescent Immunizations Schedule*.

### **Type of Providers**

During FY09-10, there were 15 provider types who submitted Standard PM 160s to CHDP's fiscal intermediary. Data gathered from Information Only PM 160s did not indicate provider types. Therefore, percentages were calculated excluding children who receive CHDP services from providers that are reimbursed through Medi-Cal Managed Care and those providers who work in FQHCs, RHCs, and IHCs.

Physician Group Practice provided CHDP services to 42.7 percent of the total children served, 41.5 percent of Medi-Cal children, 45.4 percent of the children enrolled through the Gateway process, and 31.4 percent of the State Funded children. Physician Solo Practices provided CHDP services to 37.2 percent of the total children served, 38.3 percent of the Medi-Cal children, 37.6 percent of the Gateway children, and 15.1 percent of the State Funded children. RHCs provided services to 34.9 percent of the State Funded children. See Table 3.

## **Expenditures**

Medi-Cal Managed Care providers are required to submit Information Only PM 160s to CHDP's fiscal intermediary when they render CHDP services to eligible children and youth. FQHCs, RHCs, and IHCs are also required to submit an Information Only PM160 when they provide CHDP services to full-scope Medi-Cal and Gateway children and youth. The Information Only PM 160 form is specifically used as a reporting form rather than a billing form. Expenditure data are unavailable for this group of children. Therefore, those children were not included in calculating the average cost per child for CHDP services.

During FY09-10, a combined total of \$57,436,517 was paid for Medi-Cal FFS funded, Gateway funded services, and State funded services to CHDP eligible children. See Table 4. This is a decrease of \$1,895,465 or 3.2 percent from the \$59,331,982 paid in FY08-09.

Of the \$57,436,517 paid for CHDP services in FY09-10, \$31,995,243 was paid for services to 406,504 Medi-Cal Funded children (see Table 2) at a cost of \$78.71 per child ( $\$31,995,243 / 406,504 = \$78.71$ ).

In FY09-10 the Gateway Funded process, which pre-enrolls children in full scope Medi-Cal, paid providers \$23,505,786 for services to 276,844 children (see Table 2) at a calculated cost of \$84.91 per child ( $\$23,505,786 / 276,844 = \$84.91$ ).

For State Funded CHDP services, providers were paid \$1,935,488 for CHDP preventive health exams and services to 25,863 children (see Table 2). The cost per child for FY09-10 was \$72.37 ( $\$1,935,488 / 25,863 = \$74.84$ ).

### **Target Population**

The CHDP target population is comprised of children eligible for Medi-Cal less than 21 years of age and non Medi-Cal eligible children less than 19 years of age from families with incomes under 200 percent of the FPL. Children that meet those criteria qualify for health services through the CHDP program although they may not use the services. The CHDP estimated target population for FY09-10 was 5,103,059<sup>2</sup>.

The total number of children actually served by CHDP was 2,291,689 and accounted for 44.9 percent (2,291,689/5,103,059 =0.449) of the target population. More than half (55.1 percent) of the target population was not served by the CHDP program. The Medi-Cal funded estimated target population was 3,443,080. This population includes Regular Medi-Cal FFS, Gateway (Presumptive eligibility Medi-Cal FFS), and Information

<sup>2</sup> Data Sources

Estimated Population Age 0-18 derived from State of California, Department of Finance, *Race/Ethnic Population with Age and Sex Detail, 2000-2050, 2006, (Year 2006.txt), 2007.*

Percent of Persons Between 100-200% FPL derived from Census of Population and Housing 2000 [California]: Summary File 3, *P88. Ratio of Income in 1999 to Poverty Level, 2000.*

Medi-Cal Funded Target Population Under 21 derived from State of California, Department of Health Care Services, *Medical Assistance Program Statistical Report Calendar Year 2006, Table 17, Persons Certified Eligible by County, Sex, Age, July 2006, 2007.*

Medi-Cal Funded Births 100-200% derived from State of California, Department of Health Care Services, *Medi-Cal Funded Deliveries Calendar Year 2005, 2005-13 Deliveries to Medi-Cal Beneficiaries, by Beneficiary County and Ethnicity, Calendar Year 2005.*

County/City Population derived from *California Statistical Abstract, Table B-4 Total Population California Counties and Cities 2006.*

Only children and youth. CHDP services were rendered to 2,264,763 CHDP participants which are 65.8 percent of the target population ( $2,264,763/3,443,080=0.658$ ). The number of State Funded children served was 25,863 and the target population for State Funded children was 1,659,979 resulting in the State funded children being 1.6 percent of the target population ( $25,863/1,659,979=0.016$ ). See Graph 4.

### **California Counties That Served Over 50,000 Children in FY09-10**

During FY09-10, thirteen California counties each served over 50,000 CHDP participants. These counties combined served approximately 82.5 percent of the CHDP participants statewide. In FY09-10 Los Angeles served the most children at 660,114, which represents 28.8 percent of the total children served statewide by CHDP. See Graph 5.

## **Tables**

Data previously discussed are presented in greater detail in the following tables. These tables are grouped into 11 sections. The first four sections provide the count of children and youth served and the health assessments provided. The sections are arrayed by funding source. Section V provides the count of specific assessments, and the tables are arrayed by age, ethnicity, and county. Section VI provides data on health care providers. Section VII provides data on immunizations that CHDP eligible children and youth receive. Section VIII describes data on other tests given to CHDP participants. In Sections IX through XI, the data are arrayed by county.
