EXECUTIVE SUMMARY
CHILD HEALTH AND DISABILITY PREVENTION
ANNUAL REPORT FOR FISCAL YEAR 2010-2011

Purpose of Report

The Children's Medical Services (CMS) Child Health and Disability Prevention (CHDP) Annual Report for July 1, 2010 to June 30, 2011 (FY10-11) provides summarizations of data drawn from the billing and information forms submitted by providers to CHDP for reimbursement and information. The display of the data is intended to provide a detailed view of the services provided by the CHDP program. The data are divided into five groups according to how the providers are reimbursed for their services. These groups are: Medi-Cal Fee-for-Service (FFS), presumed eligible for Medi-Cal FFS (Gateway), FFS paid by the State (State Only), and Medi-Cal Managed Care (MCMC) providers. The data for each group are correlated by age, ethnic group, and county. MCMC providers do not send billing information to CHDP.

Clients Served

CHDP eligible children and youth are those whose gross family incomes are at or below 200 percent of the Federal Poverty Level (FPL), age restriction for full-scope Medi-Cal of less than 21 years of age, presumptive Medi-Cal eligibility (the Gateway process), or children and youth with no health insurance for health assessments who must be less than 19 years old.

- In FY10-11 2,274,819 children were served. This is a decrease of 0.7 percent from the previous year.
- In FY10-11 358,028 Medi-Cal fee-for-service children were served. This is a decrease of 11.9 percent from the previous year.
- In FY10-11 273,382 Gateway (presumed Medi-Cal fee-for-service eligible) children were served. This is a decrease of 1.3 percent from the previous year.
- In FY10-11 28,959 State Only (funded solely by State General Fund) children were served. This is an increase of 12.0 percent from the previous year.
- In FY10-11 1,581,415 Information Only children were served. This is an increase of 2.1 percent from the previous year.

Providers

During FY10-11, there were 15 provider types who submitted Standard PM 160s to CHDP's fiscal intermediary. Percentages were calculated excluding children who

receive CHDP services from providers that are reimbursed through Medi-Cal Managed Care and for those providers who work in Federally Qualified Health Centers (FQHCs), Rural Health Centers (RHCs), and Indian Health Centers (IHCs).

- Physician Group Practice provided CHDP services to 45.7 percent of the children (excluding MCMC children) served during FY10-11. This provider group also provided services to 43.6 percent of Medi-Cal children, 49.7 percent of the children enrolled through the Gateway process, and 33.5 percent of the State Funded children.
- Physician Solo Practices provided services to 34.8 percent of the CHDP children (excluding the MCMC children). This provider group also provided services to 37.6 percent of the Medi-Cal children, 33.7 percent of the Gateway children, and 12.2 percent of the State Funded children.
- RHCs provided services to 36.6 percent of the State Funded children.

Services Provided

CHDP participants receive completed health assessments from CHDP providers according to the age-based CHDP periodicity schedule or when the assessments are considered medically necessary. A completed health assessment includes the following: a health history and an unclothed physical examination; dental, nutritional, and developmental assessments; a vision and a hearing test; appropriate immunizations; a tuberculin test; laboratory screening tests to include testing for blood lead; anticipatory guidance; and appropriate health education to include the harmful effects of using tobacco products and exposure to secondhand smoke. When an abnormality is found on the assessment, there is an intervention or a referral.

Vaccinations as part of the services provided to CHDP participants also increased in FY10-11.

- During FY10-11, CHDP children received 5,617,165 individual immunizations.
- This is a decrease of 155,870 immunizations or 2.7 percent from FY09-10 when 5,773,035 immunizations were administered.
- This decrease can be principally attributed to changes and additions to the *Recommended Childhood and Adolescent Immunizations Schedule*.

CHILD HEALTH AND DISABILITY PREVENTION ANNUAL REPORT FY 2010-2011 OVERVIEW AND FINDINGS

OVERVIEW

Program Description

The Child Health and Disability Prevention (CHDP) is a preventive program that delivers periodic health assessments and services to low income children and youth in California. CHDP provides care coordination to assist families with medical appointment scheduling, transportation, and access to diagnostic and treatment services. Health assessments are provided by enrolled private physicians, local health departments, community clinics, managed care plans, and some local school districts.

CHDP eligible children and youth are those whose gross family incomes are at or below 200 percent of the Federal Poverty Level (FPL). Age is also a factor in eligibility. CHDP participants who receive CHDP services as a result of being enrolled in full-scope Medi-Cal have to be less than 21 years of age. Participants who receive CHDP services through pre-enrolling in full-scope Medi-Cal because of presumptive Medi-Cal eligibility (the Gateway process) or those children and youth who have no health insurance for health assessments must be less than 19 years old.

CHDP participants receive completed health assessments from CHDP providers according to the age-based CHDP periodicity schedule or when the assessments are considered medically necessary. A completed health assessment includes the following: a health history and an unclothed physical examination; dental, nutritional, and developmental assessments; a vision and a hearing test; appropriate immunizations; a tuberculin test; laboratory screening tests to include testing for blood lead; anticipatory guidance; and appropriate health education to include the harmful effects of using tobacco products and exposure to secondhand smoke. When a health assessment provider discovers a health risk during the assessment, the CHDP participant is treated or referred to another provider.

Reimbursement of the providers consists of two processes: Medi-Cal fee-for-services (FFS), and Medi-Cal Managed Care (MCMC). In the first process, FFS services are provided and the provider submits a billing and information form called a PM 160 to CMS's fiscal intermediary, Affiliated Computer Services (ACS). When the billing is approved by ACS, the fiscal intermediary reimburses the provider.

Providers are grouped into 15 provider types in the CHDP program. These provider types include solo practice physicians, group practice physicians, outpatient clinics, and so on. Three of these provider types, federally qualified health clinics (FQHCs), rural health clinics (RHCs) and Indian health clinics (IHCs), use a different form of FFS billing. Health care providers working for these clinics, as opposed to other FFS provider types, render CHDP services to full-scope Medi-Cal CHDP participants or CHDP participants pre-enrolled in full-scope Medi-Cal through the Gateway process. For each health assessment rendered according to the CHDP periodicity schedule, these clinics receive a payment, but that payment is also considered to be reimbursement for any

follow-up services rendered to the CHDP participant on the day of the health assessment. Services rendered after the day of the health assessment are not covered by the payment. Billing for health assessments at the higher all-inclusive rate is submitted to ACS on a form called a UB-04.

The second process for provider reimbursement is through MCMC. Providers are members of networks of organized systems of care that emphasize primary and preventative care. These providers render services to CHDP children or youth who are eligible for full-scope Medi-Cal and are reimbursed by their organized systems of care.

In addition to provider reimbursement, another administrative responsibility of CMS is the collection of data on CHDP children and youth and the CHDP services provided to them. This data collection is a federal requirement. For those service providers that bill directly to ACS, the data collected on CHDP participants and the services they receive are obtained from the standard PM 160s. Providers who do not bill directly to ACS submit a PM 160 called an Information Only PM 160. This PM 160 contains data only on services rendered to CHDP children.

The collected data that are presented in this report are often arrayed by funding source. The funding sources are: All Funding, Regular Medi-Cal FFS, Gateway (presumptive eligibility Medi-Cal FFS), State Only, and Information Only. The Medi-Cal FFS funding source data describes CHDP participants whose service providers render services to full-scope Medi-Cal children and youth and are reimbursed through FFS. Gateway funding source data describe data from CHDP participants whose service providers render services to children and youth who are pre-enrolled in full-scope Medi-Cal through the Gateway process and are also reimbursed through FFS. The State Only funding source data consist of data on children and youth who have limited scope emergency Medi-Cal in the month they present for a CHDP health assessment. Their health assessments are reimbursed on a FFS basis by the State General Fund. The Information Only funding source data describes full-scope Medi-Cal CHDP participants whose service providers are reimbursed through Medi-Cal Managed Care.

CHDP operational responsibility is delegated to local governments in all 58 California counties as well as the cities of Berkeley, Long Beach, and Pasadena. Local CHDP responsibilities include provider recruitment, review and approval; provider education and quality assurance; liaison with schools and various community agencies; education and outreach to families of eligible CHDP children; and assistance to providers and families in obtaining CHDP services. Administration of CHDP at the State level is the responsibility of the Systems of Care Division (SCD) of California's Department of Health Care Services (DHCS).

DATA

CHDP data are derived from Confidential Screening/Billing Report (PM 160) forms submitted by providers. Duplicate records occur when more than one PM 160 is submitted for an individual child. Duplicate records are removed by sorting out records with identical Medi-Cal Identification Numbers. If a record has the same Medi-Cal Identification Number as some other records, those other records are deleted.

FINDINGS

Recipient Demographics

Data from Standard PM 160 and Information Only PM 160 forms indicate that during FY10-11 the CHDP program providers delivered preventive health services to an estimated 2,274,819 children, a 0.7 percent annual decrease in the number of children receiving CHDP services over the previous year. See Table 1.

**Table 1. Number and Percent Change for CHDP
Children Served FY00-01 through FY10-11**

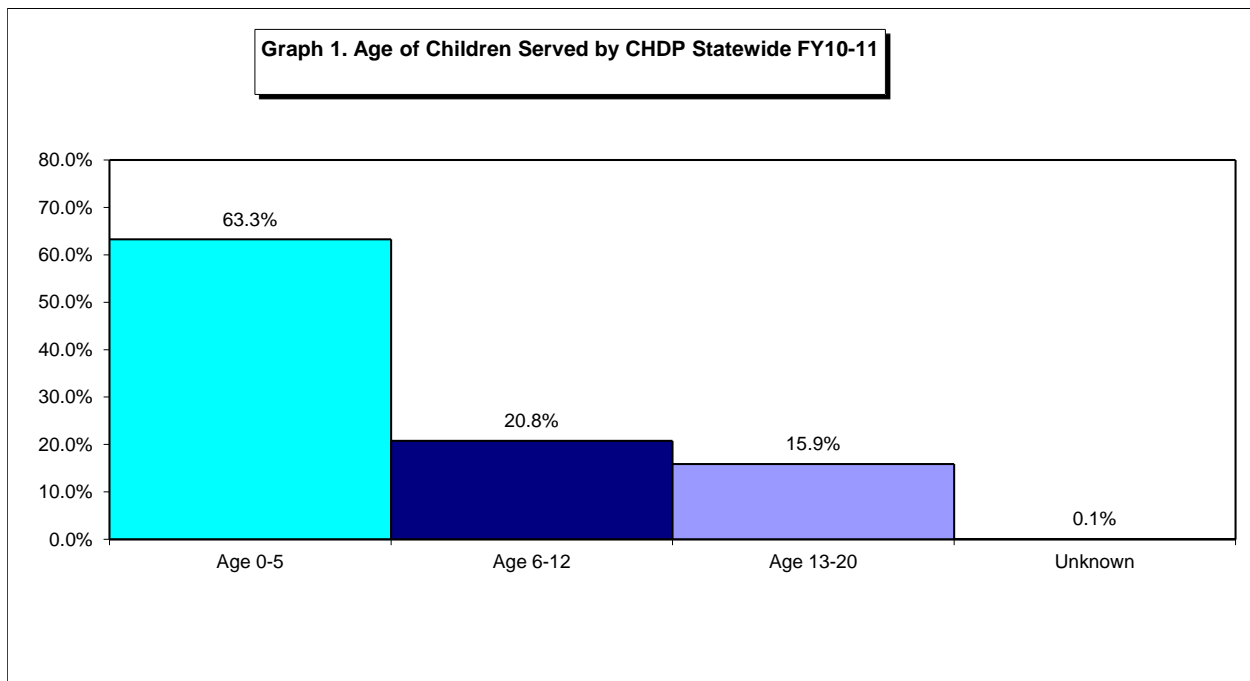

Fiscal Year	Children Served	Children Served Previous Fiscal Year	Change From Previous Fiscal Year	Percent Change From Previous Fiscal Year
FY10-11	2,274,819	2,291,689	-16,870	-0.7%
FY09-10	2,291,689	2,195,155	96,534	4.4%
FY08-09	2,195,155	1,947,575	247,580	12.7%
FY07-08	1,947,575	2,016,558	-68,983	-3.4%
FY06-07	2,016,558	2,038,833	-22,275	-1.1%
FY05-06	2,038,833	2,093,105	-54,272	-2.6%
FY04-05	2,093,105	2,065,237	27,868	1.3%
FY03-04	2,065,327	2,114,480	-49,153	-2.3%
FY02-03	2,114,480	2,087,243	27,237	1.3%
FY01-02	2,087,243	2,193,157	-105,914	-4.8%
FY00-01	2,193,157	2,228,326	-35,169	-1.6%

A comparison of FY10-11 CHDP data to FY09-10 CHDP data by funding source shows that 48,476 fewer Medi-Cal FFS children were reported in FY10-11 than in FY09-10, an 11.9 percent decrease. See Table 2. During FY10-11, the number of children who were enrolled in Medi-Cal through the Gateway process decreased by 3,462 children, or a 1.3 percent drop from the previous year. The number of State Funded CHDP children rose from the previous year by 3,096, or 12.0 percent. CHDP received 33,035 more Information Only PM 160s during FY10-11 than in FY09-10. That is an increase of 2.1 percent over the previous year.

**Table 2. Children Served by CHDP Statewide
FY00-01 through FY10-11**

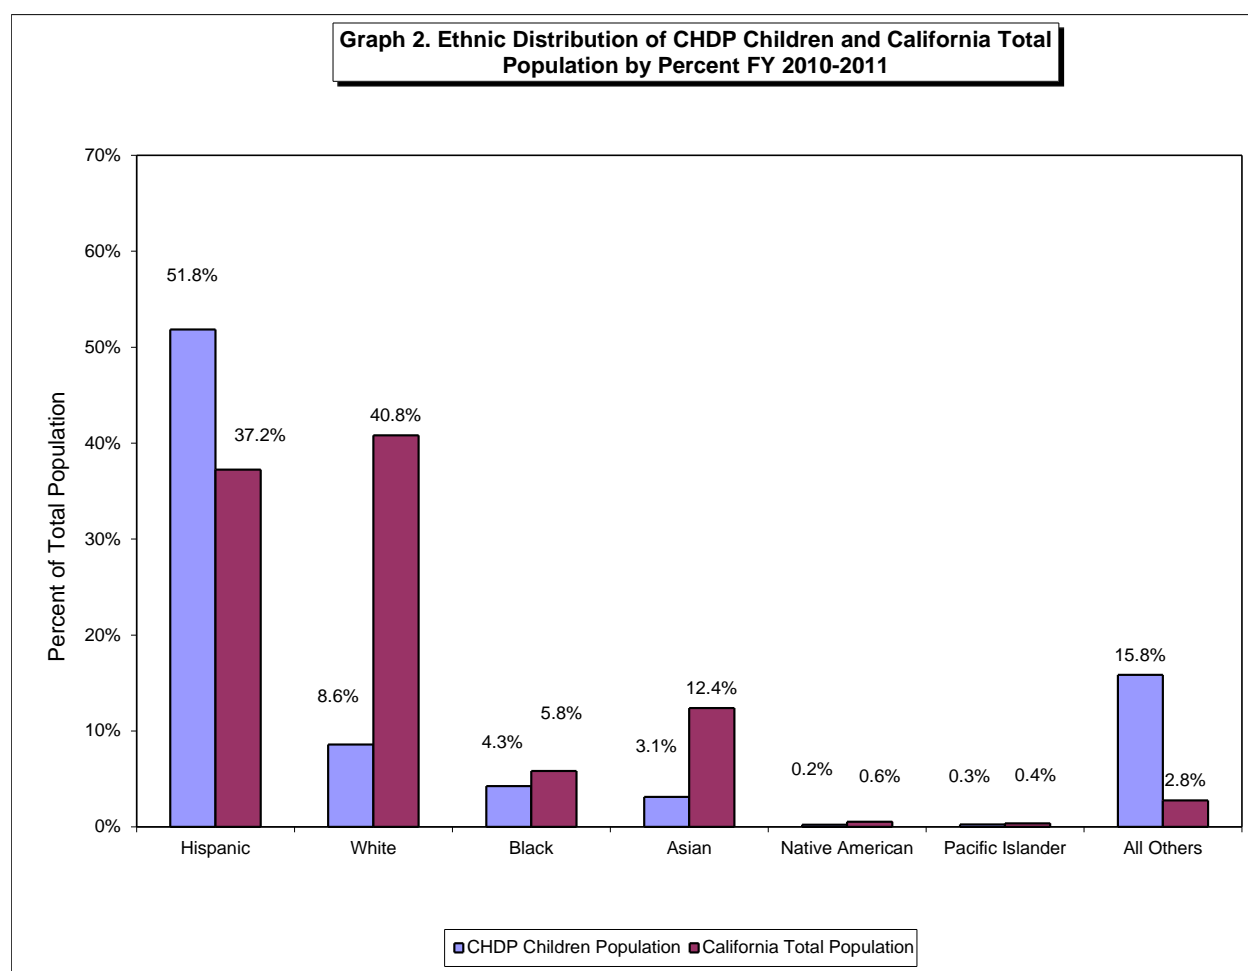

Fiscal Year	Children Served				
	Medi-Cal FFS	Gateway FFS	State Only	Information Only	Total
FY10-11	358,028	273,382	28,959	1,614,450	2,274,819
FY09-10	406,504	276,844	25,863	1,581,415	2,291,689
FY08-09	414,533	299,130	27,499	1,452,507	2,195,155
FY07-08	405,479	334,351	28,333	1,179,412	1,947,575
FY06-07	396,145	349,154	30,025	1,241,234	2,016,588
FY05-06	398,292	387,702	31,997	1,220,842	2,038,833
FY04-05	419,832	458,821	38,016	1,176,436	2,093,105
FY03-04	416,518	420,383	227,030	1,001,306	2,065,237
FY02-03	381,995	0	846,111	886,374	2,114,480
FY01-02	391,332	0	938,661	757,250	2,087,243
FY00-01	398,789	0	1,059,324	735,044	2,193,157

Of the 2,274,819 children who received services through the CHDP program during FY10-11, 63.3 percent were age 0 to 5 years old, 20.8 percent were age 6 to 12 years old, and 15.9 percent were age 13 to 20 years old. PM 160 data did not indicate the age of 0.1 percent of the children. See Graph 1.

In FY10-11 the ethnic distribution of the 2,274,819 children who received medical services from the CHDP program was as follows: 51.8 percent Hispanic, 8.6 percent White, 4.3 percent Black, 3.1 percent Asian, 0.2 percent Native American, and 0.3 percent Pacific Islander. All other ethnic groups comprised 15.8 percent of the children. See Graph 2.

According to the California Department of Finance's most current California population estimate, the ethnic composition of California's population was 37.2 percent Hispanic, 40.8 percent White, 5.8 percent Black, 12.4 percent Asian, 0.6 percent Native American, and 0.4 percent Pacific Islander. All other ethnic groups comprised 2.8 percent of the population¹. See Graph 2.

¹ State of California, Department of Finance, California County Race / Ethnic Population Estimates and Components of Change by Year, July 1, 2000-2008. Sacramento, California, June 2010.

The gender composition of CHDP children served during FY10-11 was 1,120,901 (49.2 percent) females and 1,144,848 (50.3 percent) males. For 9,070 (0.3 percent) of the population, the gender was not indicated in the PM 160 data. For a detailed distribution of CHDP gender data by county, see Table 82 in Section IX in this report.

Immunizations

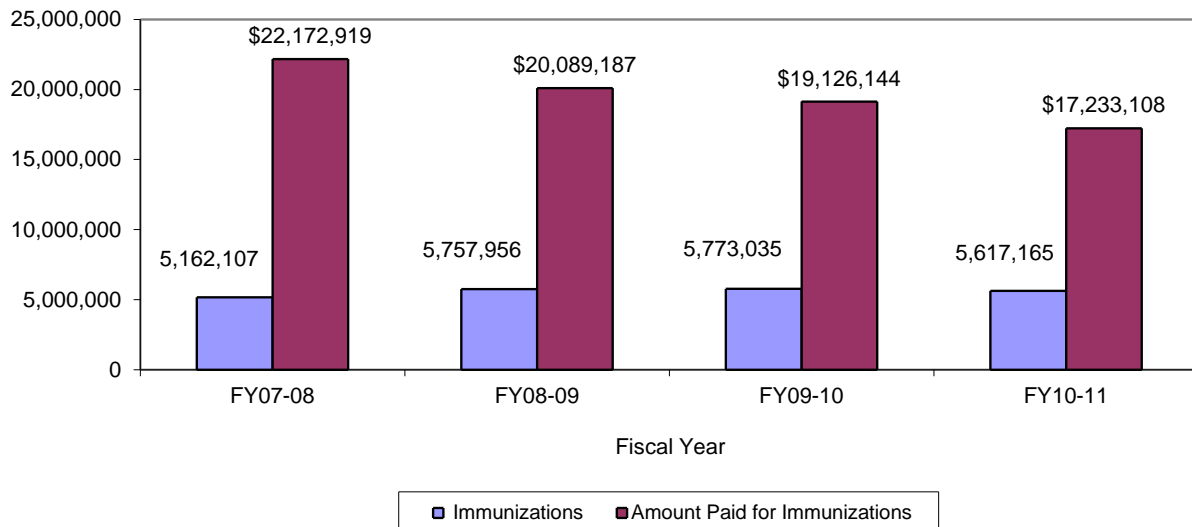

CHDP providers administer immunizations following the *Recommended Childhood and Adolescent Immunizations Schedule*. Depending on the type of immunization, a child can be protected from one disease or several diseases. For example, the vaccine DTaP will protect a child from diphtheria, tetanus, and pertussis while another type of vaccine such as HepA only protects a child from the Hepatitis A virus.

The reimbursement rates for CHDP immunizations are listed in the “CHDP Vaccine Benefit and Reimbursement Table” that is in the “Maximum Reimbursement Section” of *The CHDP Provider Manual*. The rate of reimbursement consists of the cost of the vaccines and the cost that the provider is reimbursed for administering the vaccines. Therefore, the rate of reimbursement for an immunization depends on who pays for the vaccine. There are two sources of payment for vaccines that are administered by CHDP providers: (1) the Vaccines for Children (VFC) program and (2) CHDP providers. The VFC program provides free pediatric vaccines to physicians’ offices for administration to eligible children from low income families. All CHDP children and youth through the age 18 are eligible for VFC. The reimbursement rate for vaccines administered to CHDP participants that are not covered by the VFC program, such as Measles or Meningococcal Conjugate Vaccine for participants over 18 years-old, are listed in the “CHDP Vaccine Benefit and Reimbursement Table.” Providers are reimbursed at a set rate for the cost of the vaccines that they have purchased as well as the cost of administering those vaccines.

During FY10-11, CHDP children received 5,617,165 individual immunizations. This is a decrease of 155,870 immunizations or 2.7 percent ($155,870/5,617,165 = 0.027$) from FY09-10 when 5,773,035 immunizations were administered. See Graph 3.

The cost for the immunizations in FY10-11 totaled \$17,233,108, making the cost per immunization \$3.07 ($\$17,233,108 / 5,617,165 = \3.07). The cost per immunization for FY09-10 was \$3.31. The average cost per immunization decreased by \$0.25 (7.4 percent) for FY10-11. The decrease in the number of immunizations and the cost per immunization is due to changes and additions to the *Recommended Childhood and Adolescent Immunizations Schedule*.

Graph 3. Number of CHDP Immunizations and the Total Amounts Paid for Immunizations Statewide for FY07-08 through FY10-11

Type of Providers

During FY10-11, there were 15 provider types who submitted Standard PM 160s to CHDP's fiscal intermediary. Data gathered from Information Only PM 160s did not indicate provider types. Therefore, percentages were calculated excluding children who receive CHDP services from providers that are reimbursed through Medi-Cal Managed Care and those providers who work in FQHCs, RHCs, and IHCs.

Physician Group Practice provided CHDP services to 45.7 percent of the total children served, 43.6 percent of Medi-Cal children, 49.7 percent of the children enrolled through the Gateway process, and 33.5 percent of the State Funded children. Physician Solo Practices provided CHDP services to 34.8 percent of the total children served, 37.6 percent of the Medi-Cal children, 33.7 percent of the Gateway children, and 12.2 percent of the State Funded children. RHCs provided services to 36.6 percent of the State Funded children. See Table 3.

Expenditures

Medi-Cal Managed Care providers are required to submit Information Only PM 160s to CHDP's fiscal intermediary when they render CHDP services to eligible children and youth. FQHCs, RHCs, and IHCs are also required to submit an Information Only PM160 when they provide CHDP services to full-scope Medi-Cal and Gateway children and youth. The Information Only PM 160 form is specifically used as a reporting form rather than a billing form. Expenditure data are unavailable for this group of children. Therefore, those children were not included in calculating the average cost per child for CHDP services.

During FY10-11, a combined total of \$53,171,263 was paid for Medi-Cal FFS funded, Gateway funded services, and State funded services to CHDP eligible children. See Table 4. This is a decrease of \$4,265,254 or 7.4 percent from the \$57,436,517 paid in FY09-10.

Of the \$53,171,263 paid for CHDP services in FY10-11, \$27,584,728 was paid for services to 358,028 Medi-Cal Funded children (see Table 2) at a cost of \$77.05 per child ($\$27,584,728 / 358,028 = \77.05).

In FY10-11 the Gateway Funded process, which pre-enrolls children in full scope Medi-Cal, paid providers \$23,400,041 for services to 273,382 children (see Table 2) at a calculated cost of \$85.59 per child ($\$23,400,041 / 273,382 = \85.59).

For State Funded CHDP services, providers were paid \$2,186,494 for CHDP preventive health exams and services to 28,959 children (see Table 2). The cost per child for FY10-11 was \$75.50 ($\$2,186,494 / 28,959 = \75.50).

Target Population

The CHDP target population is comprised of children eligible for Medi-Cal less than 21 years of age and non Medi-Cal eligible children less than 19 years of age from families with incomes under 200 percent of the FPL. Children that meet those criteria qualify for health services through the CHDP program although they may not use the services. The CHDP estimated target population for FY10-11 was 5,103,059².

The total number of children actually served by CHDP was 2,274,819 and accounted for 44.5 percent ($2,274,819/5,103,059=0.445$) of the target population. More than half (55.5 percent) of the target population was not served by the CHDP program. The Medi-Cal funded estimated target population was 3,443,080. This population includes Regular Medi-Cal FFS, Gateway (Presumptive eligibility Medi-Cal FFS), and Information Only children and youth. The actual number of CHDP children who received Medi-Cal FFS, Gateway, and Information Only services for FY2010-2011 was 2,245,860, which is

² Data Sources

Estimated Population Age 0-18 derived from State of California, Department of Finance, *Race/Ethnic Population with Age and Sex Detail*, 2000-2050, 2006, (Year 2006.txt), 2007.

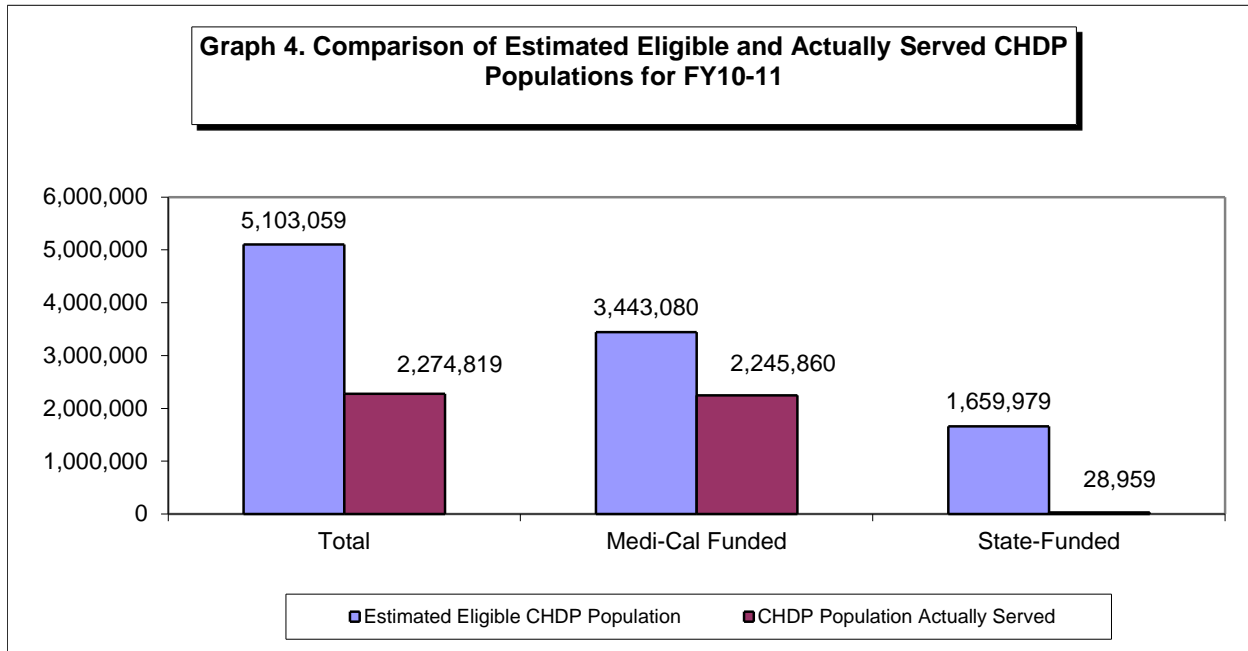

Percent of Persons Between 100-200% FPL derived from Census of Population and Housing 2000 [California]: Summary File 3, *P88. Ratio of Income in 1999 to Poverty Level*, 2000.

Medi-Cal Funded Target Population Under 21 derived from State of California, Department of Health Care Services, *Medical Assistance Program Statistical Report Calendar Year 2006*, Table 17, *Persons Certified Eligible by County, Sex, Age, July 2006*, 2007.

Medi-Cal Funded Births 100-200% derived from State of California, Department of Health Care Services, *Medi-Cal Funded Deliveries Calendar Year 2005*, *2005-13 Deliveries to Medi-Cal Beneficiaries, by Beneficiary County and Ethnicity, Calendar Year 2005*.

County/City Population derived from *California Statistical Abstract*, Table B-4 *Total Population California Counties and Cities 2006*.

Funded children served was 28,959 and the target population for State Funded children was 1,659,979 resulting in the State funded children being 1.7 percent of the target population ($28,959/1,659,979=0.017$). See Graph 4.

California Counties That Served Over 50,000 Children in FY10-11

During FY10-11, twelve California counties each served over 50,000 CHDP participants. These counties combined served approximately 79.5 percent of the CHDP participants statewide. In FY10-11 Los Angeles served the most children at 600,675, which represents 26.4 percent of the total children served statewide by CHDP. See Graph 5.

Tables

Data previously discussed are presented in greater detail in the following tables. These tables are grouped into 11 sections. The first four sections provide the count of children and youth served and the health assessments provided. The sections are arrayed by funding source. Section V provides the count of specific assessments, and the tables are arrayed by age, ethnicity, and county. Section VI provides data on health care providers. Section VII provides data on immunizations that CHDP eligible children and youth receive. Section VIII describes data on other tests given to CHDP participants. In Sections IX through XI, the data are arrayed by county.
