Attachment I – Community-Based Adult Services Program Transition Plan
Background

1915(c) Waivers
The Federal government authorized the “Medicaid 1915(c) Home and Community-Based Services (HCBS) Waiver program” in 1981 under Section 2176 of the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35). It is codified in section 1915(c) of the Social Security Act. The original legislative intent of the HCBS Waiver program was to slow the growth of Medicaid (Medi-Cal in California) spending by providing services in less expensive settings. In order to contain costs, the federal legislation limited waiver services to individuals who would be institutionalized if the services were not provided. However, the costs of those waiver services cannot be higher than what they would cost in an institutional setting.

The law permitted states to waive certain Medicaid program requirements and in doing so, deviate from Medicaid requirements, such as providing services only in certain geographic areas (“waive statewideness”). The HCBS Waiver program also allowed states flexibility to offer different types of services to individuals with chronic disabilities. Prior to this, with the origin of Medicaid in 1965, beneficiaries could only receive comprehensive long-term care in institutional settings.

The initial waiver application is approved by the Centers for Medicare & Medicaid Services (CMS) for three years with additional renewal applications needing to be approved every five years. The waiver can be designed for a variety of targeted diagnosis-based groups including individuals who are elderly, and those who have physical, developmental, or mental health disabilities, or other chronic conditions such as Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome (HIV/AIDS). The waiver can be designed to offer a variety of services including case management, personal attendant services, adult day health care services, habilitation services, day treatment services, psychosocial rehabilitation services, mental health services, and other services specifically requested by the state. 1915(c) HCBS waivers have subsequently become mechanisms for many states, including California, to provide Medicaid-funded community-based, long-term care services and supports to eligible beneficiaries.

1915(i) State Plan Program
Starting January 1, 2007, the Deficit Reduction Act of 2005 (DRA) gave states a new option to provide HCBS through their State Plans. Once approved by CMS, State Plans do not need to be renewed nor are they subject to some of the same requirements of waivers. Under this option, states set their own eligibility or needs-based criteria for providing HCBS. States are allowed to establish functional criteria in relation to certain services. The DRA provision eliminated the skilled need requirement and allowed states to cover Medicaid beneficiaries who have incomes no greater than 150 percent of the federal poverty level and who satisfy the needs-based criteria. The Patient Protection and Affordable Care Act of 2010 created several amendments
including elimination of enrollment ceilings, a requirement that services must be provided statewide, and other enrollment changes.

1915(k) Community First Choice (CFC) State Plan Program
CFC services are provided in consumer-controlled homes. The provision of community-based services and supports are the most integrated setting appropriate to the individuals’ needs without regard to age, type or nature of disability, severity of disability or the form of home and community-based services and supports that the individual requires in order to lead an independent life.

By being in the community and self-directing care, the individual is able to control their environment to the maximum extent consistent with their capabilities and needs. 1915(k) consumers have the ability to be active in their community and are able to seek employment by utilizing any available resources. These resources could be their CFC provider or their local community that they reside in.

CFC consumers select their residential setting of a home or abode of their own choosing. The CFC consumer chooses who their provider will be and that the services will be provided in the home of the individual or a residential setting, such as an apartment where the individual pays rent through a landlord / occupant agreement, or if the individual is living in a home owned by their family.

Community-Based Adult Services (CBAS) 1115 Waiver
See Attachment I – Community-Based Adult Services Transition Plan

New Home and Community-Based Setting Requirements
In early January 2014, CMS announced it had finalized important rules that affect HCBS waiver programs and 1915(i) State Plan program provided through Medicaid/Medi-Cal, and subsequently published the regulations in the Federal Register on January 16, 2014. The rules became effective 60 days from publication, or March 17, 2014. These final regulations are CMS 2249-F and CMS 2296-F.

Prior to the final rule, home and community based (HCB) setting requirements were based on location, geography, or physical characteristics. The final rules define HCB settings as more process and outcome-oriented, guided by the consumer’s person-centered service plan by:
1. Being integrated in and supporting full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
2. Giving individuals the right to select from among various setting options, including non-disability specific settings and an option for a private unit in a residential setting.
3. Ensuring individuals’ rights of privacy, dignity and respect, and freedom from coercion and restraint.
4. Optimizing autonomy and independence in making life choices, including daily activities, physical environment and with whom to interact.
5. Facilitating choice regarding services and supports, and who provides them.

For Medicaid/Medi-Cal provider-owned or controlled HCB settings, the provider must offer:
6. A legally enforceable agreement between the provider and the consumer that allows the consumer to own, rent or occupy the residence and provides protection against eviction.
7. Privacy in units including lockable doors, choice of roommates and freedom to furnish and decorate units.
8. Options for individuals to control their own schedules including access to food at any time.
9. Individuals the freedom to have visitors at any time.
10. A physically accessible setting.

Any modification(s) of the new requirements can only be made on an individual basis, supported by a specific and individually assessed need and justified in the person-centered service plan. Documentation of all of the following is required:
- Identification of a specific and individualized assessed need.
- The positive interventions and supports used prior to any modification(s) to the person-centered plan.
- Less intrusive methods of meeting the need that have been tried but did not work.
- A clear description of the condition(s) that is directly proportionate to the specific assessed need.
- Review of regulations and data to measure the ongoing effectiveness of the modification(s).
- Established time limits for periodic reviews to determine if the modification(s) is still necessary or can be terminated.
- Informed consent of the individual.
- An assurance that interventions and supports will cause no harm to the individual.
HCBS Programs in California Affected by the Final Rules

Program Responsibilities
California’s HCBS programs, which are the focus of this Statewide Transition Plan are either directly administered or overseen by the Department of Health Care Services (DHCS) as the single state agency for Medicaid/Medi-Cal. However, several of the HCBS waivers and the 1915(i) State Plan program are administered jointly by DHCS and the State or local entity with program responsibility. Administrative teams comprised of employees from the State department/entity with program responsibility exist at DHCS, the California Department of Public Health (CDPH), the Department of Developmental Services (DDS), the California Department of Aging (CDA), and the San Francisco Department of Public Health (SFDPH). The SFDPH administers a HCBS Waiver program in accordance with terms of an Agreement with DHCS.

Existing HCBS Waivers and the corresponding State department/entity with program responsibility are as follows:
1. MSSP Waiver (0141), CDA, Long Term Care & Aging Services
2. HIV/AIDS Waiver (0183), CDPH, Office of AIDS
3. DD Waiver (0336), DDS, Community Services
4. ALW (0431), DHCS, Long-Term Care Division
5. NF/AH Waiver (0139), DHCS, Long-Term Care Division
6. IHO Waiver (0457), DHCS, Long-Term Care Division
7. SFCLSB Waiver (0855), SFDPH
8. PPC Waiver (0486), DHCS, Systems of Care Division

The existing 1915(i) SPA is administered by DDS.

California’s HCBS 1915(c), 1915(k), 1115 Waiver – CBAS Program, and 1915(i) State Plan Program
California currently an approved 1915(i) State Plan program that allows the State to access federal financial participation for services provided to individuals with developmental disabilities who do not meet the institutional level-of-care criteria required for participation in the DD Waiver, which is described in greater detail below.
California currently administers the following eight 1915(c) HCBS Waivers:

- **Multipurpose Senior Services Program (MSSP) Waiver.** The objective of this program is to provide opportunities for frail seniors age 65 or older to maintain their independence and dignity in community settings by preventing or delaying avoidable nursing facility placement. Care management is the cornerstone of this waiver and involves beneficiary assessment; person-centered care planning; service arrangement, delivery and monitoring; as well as coordinating the use of existing community resources. The 39 MSSP sites maintain wait lists independently; average wait in days statewide is 91 (during October 1, 2012 through December 31, 2012). The waiver was approved on July 1, 2009 and, at this time, is operating under a CMS-approved extension.

  MSSP Waiver provider types include all of the following:
  - Adult Day Program (Adult Day Care Center; Adult Day Support Center)
  - Building Contractor or Handyman/Private Nonprofit or Proprietary Agency
  - Congregate Meals Setting
  - Home Health Agency
  - Licensed/Certified Professionals
  - Private Nonprofit or Proprietary Agency
  - Registered Nurse
  - Social, Legal, and Health Specialists
  - Social Worker Care Manager
  - Title III (Older Americans Act)
  - Translators/Interpreters
  - Transportation Providers

- **HIV/AIDS Waiver.** The purpose of this waiver is to allow persons of all ages with mid- to late-stage HIV/AIDS to remain in their homes through a continuum of care designed to stabilize and maintain an optimal level of health, improve quality of life, and provide an alternative to institutional care in hospitals or nursing facilities. Services include, but are not limited to, enhanced care management, homemaker and attendant care services, nutritional counseling and supplements, psychotherapy, and non-emergency medical transportation. The current waiver was approved on January 1, 2012.

  HIV/AIDS Waiver provider types include all of the following:
  - Building Contractor or Handyman
  - Clinical Psychologist
HCBS Waiver for Persons with Developmental Disabilities (DD Waiver). The purpose of this waiver is to serve beneficiaries of all ages in their own homes and community settings as an alternative to placement in hospitals, nursing facilities or intermediate care facilities for persons with developmental disabilities (ICF/DD). Community-based services for individuals with developmental disabilities are provided through a statewide system of 21 private non-profit corporations known as regional centers. Regional centers provide fixed points of contact in the community for persons with developmental disabilities and their families. The DD Waiver has been in operation since 1982 to assist in funding services for individuals who live in the community and who meet the ICF/DD level-of-care requirement. DD Waiver beneficiaries live in the setting of their choice, such as with their families, in their own homes or apartments, or in licensed settings. There is no wait list for eligible beneficiaries. The current waiver was approved on March 29, 2012.

DD Waiver provider types include all of the following:
  - Adaptive Skills Trainer
  - Adult Residential Facility
  - Adult Residential Facility for Persons with Special Health Care Needs
  - Associate Behavior Analyst
- Behavior Analyst
- Behavior Management Consultant
- Behavioral Technician/Para-professional
- Building Contractor or Handyman
- Camping Services
- Certified Family Home; Foster Family Home
- Child Day Care Facility; Child Day Care Center; Family Child Care Home
- Client/Parent Support Behavior Intervention Training
- Clinical Psychologist
- Contractor
- Creative Arts Program
- Crisis Intervention Facility
- Crisis Team – Evaluation and Behavioral Intervention
- Day-Type Services (Activity Center, Adult Day Care Facility, Adult Development Center, Behavior Management Program, Community-Based Training Provider, Socialization Training Program; Community Integration Training Program; Community Activities Support Service)
- Dentist
- Dental Hygienist
- Dietitian; Nutritionist
- Dispensing Optician
- Driver Trainer
- Durable Medical Equipment Provider
- Facilitators
- Family Home Agency: Adult Family Home/Family Teaching Home
- Financial Management Services Provider
- Group Home
- Hearing and Audiology Facilities
- Home Health Agency
- Home Health Aide
- Independent Living Program
- Independent Living Specialist
- Individual (Landlord, Property Management)
- Individual or Family Training Provider
- In-Home Day Program
- Licensed Clinical Social Worker
- Licensed Psychiatric Technician
- Licensed Vocational Nurse
- Marriage Family Therapist
- Occupational Therapist
- Occupational Therapy Assistant
- Optometrist
- Orthoptic Technician
- Parenting Support Services Provider
- Personal Assistant
- Personal Emergency Response Systems Provider
- Physical Therapist
- Physical Therapy Assistant
- Physician/Surgeon
- Psychiatrist
- Psychologist
- Public Transit Authority
- Public Utility Agency, Retail and Merchandise Company, Health and Safety Agency, Moving Company
- Registered Nurse
- Residential Care Facility for the Elderly
- Residential Facility – Out of State
- Respite Agency
- Small Family Home
- Social Recreation Program
- Special Olympics Trainer
- Speech Pathologist
- Sports Club, e.g., YMCA, Community Parks and Recreation Program; Community-Based Recreation Program
- Supported Employment
- Supported Living Provider
- Translator/Interpreter
- Transportation Provider
- Vehicle Modification and Adaptations
- Work Activity Program

- **Assisted Living Waiver (ALW).** This waiver offers eligible seniors and persons with disabilities age 21 and over the choice of residing in either a licensed Residential Care Facility for the Elderly or an independent publicly subsidized housing with Home Health Agency services as alternatives to long-term institutional placement. The goal of the ALW is to facilitate nursing facility transition back into community settings or prevent skilled nursing admissions for beneficiaries with an imminent need for nursing facility placement. Eight care coordinator agencies serving seven counties independently maintain wait lists. The current waiver was approved on March 1, 2009.

  ALW provider types include the following:
  - Care Coordination Agency
  - Home Health Agency in Public Subsidized Housing
  - Residential Care Facility for the Elderly

- **Nursing Facility/Acute Hospital (NF/AH) – Transition and Diversion Waiver.** This waiver offers services in the home to Medi-Cal beneficiaries with long-term medical conditions, who meet the acute hospital, adult subacute, pediatric subacute, intermediate care facility for the developmentally disabled – continuous nursing care and Nursing Facility A/B levels of care with the option of returning and/or remaining in their home or home-like setting in the community in lieu of institutionalization. The current NF/AH Waiver was approved on January 1, 2012.

  NF/AH Waiver provider types include all of the following:
  - Behavioral Therapist
  - Durable Medical Equipment Provider
  - Employment Agency
  - Home and Community-Based Continuous Care Facility
  - Home Health Agency
  - Home Health Aide
  - In-Home Support Services Public Authority
  - Intermediate Care Facility for the Developmentally Disabled – Continuous Nursing Care
• **In-Home Operations (IHO) Waiver.** This waiver serves eligible individuals who: 1) were previously enrolled in a DHCS-administered HCBS waiver prior to January 1, 2002, and who require direct care services provided primarily by a licensed nurse; or 2) have been receiving continuous care in a hospital for 36 months or longer and have physician-ordered direct care services that are greater than those available in the NF/AH waiver for the beneficiary’s level of care. The current waiver was approved on January 1, 2010.

IHO Waiver provider types include all of the following:
- Associate Clinical Social Worker (ACSW)
- Durable Medical Equipment Provider
- Employment Agency
- Home and Community-Based Continuous Care Facility
- Home Health Agency
- Home Health Aide
- In-Home Support Services Public Authority
- Licensed Clinical Social Worker
- Licensed Psychologist
- Licensed Vocational Nurse
- Marriage Family Therapist
- Personal Care Agency
- Private Nonprofit or Proprietary Agency
- Professional Corporation
- Registered Nurse
- Waiver Personal Care Services Provide
Waiver Personal Care Services Provider

- **San Francisco Community Living Support Benefit (SFCLSB) Waiver.** This waiver utilizes certified public expenditures for provision of waiver services to persons with disabilities age 21 and over who reside in the City and County of San Francisco and who are either homeless, residing in a nursing facility, or are at imminent risk of entering a nursing facility. Eligible individuals can move into licensed Community Care Facilities (CCFs) or Direct Access to Housing (DAH) sites (e.g., private homes). Services consist of care coordination, community living support benefits, and behavior assessment and planning in both CCFs and DAHs; and home delivered meals and environmental accessibility adaptations in DAH sites.

SFCLSB Waiver provider types include all of the following:
- Adult Residential Facility
- Clinical Psychologist
- Durable Medical Equipment Provider, Building Contractor or Handyman Private Nonprofit or Proprietary Agency
- Home Delivered Meal/Meal Preparation Vendor
- Home Health Agency
- Licensed Clinical Social Worker
- Marriage Family Therapist
- Not-For-Profit Case Management Agency
- Private Nonprofit or Proprietary Agency
- Residential Care Facility for the Elderly
- Therapist (Various Specializations)

- **Pediatric Palliative Care (PPC) Waiver.** This waiver offers children with life limiting conditions a range of home-based hospice-like services while they maintain the option of receiving curative treatment. According to diagnosed need and an approved plan of care, services include: care coordination, expressive therapies, family training, individual and family caregiver counseling/bereavement services, pain and symptom management, personal care and respite care.

PPC Waiver provider types include all of the following:
- Agency Certified Nursing Assistant
- Art Therapist
- Associate Clinical Social Worker
- Child Life Specialist
- Congregate Living Health Facility
1915(k) Community First Choice – In-Home Supportive Services. The goal of the IHSS program is to allow you to live safely in your own home and avoid the need for out of home care. Services are typically provided in the consumers’ own home. This could be a house, apartment, or the home of a relative.

1915(k) CFC services include:
- Personal care services like dressing, bathing, feeding, toileting
- Paramedical services like helping with injections, wound care, colostomy and catheter care under the direction of a licensed medical professional
- House cleaning
- Cooking
- Shopping
- Laundry
- Accompaniment to and from medical appointments

Community-Based Adult Services Program (CBAS). See Attachment I of the Statewide Transition Plan for details.

California’s Statewide Transition Plan

This Statewide Transition Plan identifies the framework and strategy for achieving and maintaining compliance with the federal requirements for HCB settings in California.
California’s HCBS waiver and 1915(i) State Plan program differ significantly in the populations they serve, their size and complexities, and their statutory and regulatory structures, among other differences. The largest and most complex is the DD Waiver and the 1915(i) State Plan program, where the programs serve approximately 130,000 consumers in the provision of a vast array of residential and nonresidential services that are separately licensed and/or regulated. Eligibility is invisible to these consumers, serving strictly as an identifier in the documentation and federal billing processes; however, participation in the DD Waiver is not required to access the State’s full array of available developmental services. Providers are not separately identified for DD Waiver or 1915(i) State Plan program purposes; therefore, all providers potentially utilized for HCBS must be in compliance with the HCB setting requirements. For the DD Waiver, the entire system, serving over 270,000 consumers, is potentially affected by the new requirements.

In contrast, the SFCLSB Waiver, with 17 beneficiaries, represents the smallest 1915(c) waiver in California. Eligibility is open only to San Francisco residents who meet level of care eligibility and require at least one of six available services.

This Statewide Transition Plan identifies at a high level the commitments and requirements that each of the eight HCBS waivers and 1915(i) State Plan program will meet. The specific approach and details of each program’s transition process will reflect the input and guidance of the particular program’s stakeholders, and the unique structure and organization of the program itself. The complexity of each task will vary significantly across programs.

Resources to address and implement the many changes necessary to be in compliance with the regulations are and will continue to be limited. When resources are needed, they must be raised and vetted through the annual legislative budget process, which only allows for new resources prospectively, typically in the upcoming state budget year. Therefore, careful thought and analysis must go into every aspect of implementation in an effort to achieve compliance as cost effectively as possible. Since program systems and processes have long been established in California, standard processes will be considered for modification to bring about and ensure ongoing compliance, such as revising existing monitoring and oversight protocols to incorporate the regulatory requirements, utilizing available data, such as the National Core Indicator (NCI) and expanding existing complaint and appeal processes to allow for consumer and/or provider due process when disputes arise.

**Stakeholder Input**

To achieve compliance, California will strongly emphasize inclusive stakeholder processes that analyze and guide every aspect of implementation. Essential involvement will come from consumers in an originating role. Their input concerning how they experience community inclusion and freedom of choice will be critical for system changes and implementation strategies. Also
essential is provider input. Providers are the backbone of the system, so that services and choices are available to consumers. How the regulations are implemented may affect the viability of providers as sustainable businesses. Stakeholder processes will also include entities and experts who are impacted by or are knowledgeable about the various topics, including, in particular, the California Department of Social Services as the licensing agency (Community Care Licensing [CCL]) for many of the HCB settings.

As the State continues this process the stakeholder processes will be further defined with ongoing stakeholder input and will evolve over time as implementation phases progress, as described below. With the benefit of stakeholder input, specificity will be added and/or modifications will be made to the various components identified in this Statewide Transition Plan.

Following are summaries of California’s efforts to elicit stakeholder input and subsequent comments received to date on the Statewide Transition Plan (STP).

DHCS posted the first STP draft to the DHCS website on September 19, 2014, followed by a 30-day stakeholder input period. DHCS posted the second STP draft on November 7, 2014, followed by another 30-day stakeholder input period, which ended on December 8, 2014. In addition, DHCS posted general public interest notices about impending meetings regarding development of the STP in the California Regulatory Notice Register on March 3, 2014 and April 25, 2014. The Register is available in public libraries as well as other public places. DHCS also hosted two stakeholder conference calls on October 21, 2014, and December 2, 2014. Other notices were sent by the individual departments with responsibility for specific waivers; e.g., CDPH communicated directly with HIV/AIDS Waiver stakeholders; CDA with MSSP sites; DDS with regional centers.

More than 250 beneficiaries, providers, advocates, and other stakeholders participated in the stakeholder calls combined. DHCS established a dedicated email box to receive stakeholder input. DHCS received over 230 emails of stakeholder input, and five mailed letters. Approximately 65% of stakeholder input was received directly from beneficiaries and their families, 20% was received from providers, and 15% from advocates. We received valuable feedback during this extensive stakeholder input process and have summarized these comments in Appendix A.

**Implementation of the HCB Setting Requirements**

Following is a description of the various phases of implementation that California will undertake to achieve compliance with the HCB setting requirements. California will move forward concurrently with many of the components. As described previously, the details of implementation will vary significantly across the HCBS Waiver and 1915(i) SPA program and be
integrally guided by stakeholders. As remedial strategies are solidified, actions and timelines will be identified to track progress against realistic objectives.

Consistent with the above, additional State resources must be requested via the State legislative and budget processes. To ensure awareness of these needs, staff from the California Department of Finance and State Legislature attend ongoing stakeholder meetings.

Education and Outreach
As an important early step, information and education on the requirements of the HCB setting requirements and the regulations generally will be provided to State departments/entities, consumers and families, regional centers, providers, advocacy groups and other interested stakeholders throughout the State on a continuous and ongoing basis. Additionally, beneficiaries will be informed of the ongoing methods for providing input, being involved and staying informed as implementation progresses. Ongoing communication methods will be developed with stakeholder input.

Systematic Assessment of Statutes, Regulations, Policies and Other Requirements
The statutes, regulations, policies and other requirements for residential and nonresidential HCB settings will be reviewed and analyzed jointly by DHCS and the State departments/entities responsible for operating each HCBS Waiver or 1915(i) State Plan program to determine the extent to which the State’s written program standards comply with federal regulations. Stakeholders are encouraged to participate in and provide input to the assessment process. The assessment process will be completed by July 1, 2015, although modifications may be needed as implementation progresses. A summary of results of this assessment can be found in Appendix B.

The assessment of program standards was completed according to each new HCB federal requirement and its relationship to the specific HCB setting being assessed. The standards governing each setting will be assessed to allow determination whether each standard is in compliance, out of compliance or whether the standard is silent on the federal requirement.

Compliance Determination Process for HCB Settings
The State departments/entities will be responsible for ensuring appropriate provision of HCBS by all providers that serve, or may serve Medi-Cal beneficiaries.

An initial sample of on-site assessments will be completed and further on-site assessments will be conducted based on provider/beneficiary self-surveys. All presumed non-HCB settings will have an on-site assessment completed. The final number of settings will be a statistically valid sampling.
The final list of settings to have an on-site assessment will be completed and reported with timeframes for completion of the on-site assessments and a plan for bringing sites into compliance as needed. Information will be provided on how the assessments are to be conducted, including licensing reviews, provider qualifications reviews and support coordination visit reports. In addition, a list of the entities conducting the assessments, including advocacy and stakeholder group representatives, and the provider self-survey and survey team assessment tools will be provided.

Following is an initial listing of HCB settings that have been assessed [see page numbers below] for inclusion in and compliance with the federal requirements:

- Adult Day Program (Adult Day Care Center, Adult Day Support Center) [Pg. 27]
- Adult Family Home/Family Teaching Home [Pg. 29]
- Adult Residential Facility (Includes Adult Residential Facility for Persons with Special Health Care Needs) [Pg. 31]
- Certified Family Home; Foster Family Home [Pg. 35]
- Child Day Care Facility; Child Day Care Center; Family Child Care Home [Pg. 37]
- Community-Based Adult Services [See Attachment I - Community-Based Adult Services Program Transition Plan – Appendix V]
- Congregate Living Health Facility [Pg. 38]
- Congregate Meal Site [Pg. 42]
- Day-Type Services (Activity Center, Adult Day Care Facility, Adult Development Center, Behavior Management Program, Community-Based Training Provider, Socialization Training Program; Community Integration Training Program; Community Activities Support Service) [Pg. 45]
- Group Home [Pg. 46]
- Residential Care Facility for the Elderly [Pg. 48]
- Small Family Home [Pg. 54]
- Work Activity Program [Pg. 56]
The compliance determination process includes all of the following:

- On-site evaluations of individual settings will be conducted for the following purposes:
  - On-site evaluations will be conducted at settings that, pursuant to CMS regulations, are presumed not to be HCB settings and for which evidence will be provided to CMS for application of the heightened scrutiny process. Such settings will be identified with stakeholder input throughout the implementation process.
  - For all other settings, a sample of on-site evaluations will be conducted. The sample results will be used to inform the stakeholder process as changes are made to the system to ensure monitoring and ongoing compliance through standard processes, such as licensing and/or certification. The sample results will also be used to guide the process of bringing HCB settings into compliance. The State has conducted initial On-Site Assessments of a sample of HCB settings. The results are summarized in Appendix C.

- DHCS has developed a department survey assessment tool for use in the on-site evaluations of HCB settings. The assessment tool includes questions that relate to each new federal requirement that will be used to determine if the HCB setting meets or does not meet the required federal rule. The assessment tools may be modified to address specific provider types and will become the assessment tools utilized by the appropriate State departments/entities administering the program.

  The On-Site Assessment Tool will be maintained in the appropriate State department/entity file for each HCBS waiver or 1915(i) State Plan program.

- DHCS has also developed a Provider Self-Survey Tool, which will be forwarded to all HCB settings for completion. The results of these provider self-surveys will be reviewed by the appropriate State department/entity administering the program, and may trigger on-site assessments when indicators of non-compliance are identified.

- In addition to the Provider Self-Survey Tools, DHCS is developing a Beneficiary Self-Survey Tool, which will be distributed to beneficiaries through the appropriate State department/entity administering the program. DHCS is seeking advocate and stakeholder input on this Beneficiary Self-Survey Tool, which will be available in the fall of 2015.

- Using the completed self-surveys, a sample of the HCB settings will be selected for on-site evaluation. The on-site evaluations will be conducted by a survey team that includes representation from at least two of the following: State personnel, case managers or other representatives of case management entities, licensing entities, representatives of
consumer advocacy organizations, and/or other stakeholders. The State will provide training for all members of the survey teams. Finalization of the on-site evaluation process will not occur without stakeholder input.

The responsibility for ensuring completion of these on-site evaluations rests with the State department/entity responsible for the program as specified under “HCBS Programs in California Affected by the Final Rules” section of this document. As on-site assessments are completed for a sample of settings by provider type category, if a pattern of non-compliance is identified this may trigger a full review of all settings comprising the provider type category. The on-site evaluations will be ongoing until remedial strategies are identified that will incorporate ongoing monitoring protocols into existing processes.

- The written results of each on-site evaluation will be forwarded back to the HCB setting with specific information regarding improvements that will be required in order for the setting to come into compliance with the federal requirements and a timeline for completion. Follow up of the compliance issues will be the responsibility of the administering State department/entity.

Completed evaluations, including documentation of any required follow-up actions as a result of the on-site evaluations, will be maintained in the appropriate State file for each HCBS Waiver or 1915(i) State Plan program.

- The evaluation results will be used to inform the stakeholder process as strategies are developed and changes are made to ensure monitoring and ongoing compliance with the federal regulations.

- The outcome of the site-specific assessments will be reported by each requirement and each HCB site where a site-specific assessment was conducted. Remedial actions will be developed to include timelines, milestones and a description of the monitoring process to ensure timelines and milestones are met.

- For settings presumed not to be HCB settings, the results of the on-site assessment will substantiate that the setting does not have the characteristics of an institution and does meet the HCB setting requirements.

- The final report of the compliance determination process will detail the number of HCB settings that are fully compliant with the requirements, partially compliant with the requirements and will require modifications, cannot meet the requirements and require removal from the program with/without relocation of individuals, and the number of settings that are presumptively non-HCB, but for which justification will be provided that these settings may not
have the characteristics of an institution and do have the qualities of a HCB setting. Once completed, this report will be available on the DHCS Statewide Transition Plan website.

The State will develop remedial actions to bring settings into compliance with the new requirements, including relocation of beneficiaries if required. At this time, California does not anticipate that relocation of beneficiaries will be necessary, unless identified on an individual basis through the person-centered planning process. However, should it become necessary, relocation of beneficiaries will include reasonable notice and other due processes to beneficiaries, a description of the timeline for relocation, and the number of beneficiaries impacted. The process must assure that beneficiaries, or their parental or legal guardian, through the person-centered planning process, are given the opportunity, the information, and supports to make an informed choice of an alternate HCB setting that aligns, or will align, with the settings requirements, and that critical services/supports are in place in advance of the individual’s transition.

Role of Person-Centered Planning
Even though implementation of the new federal regulations affecting the person-centered planning process is not technically part of this Statewide Transition Plan, person-centered planning is inextricably linked to the HCB setting requirements. The State department/entity responsible for program administration will use a stakeholder process to evaluate the role of person-centered planning as it relates to determining compliance with the federal regulations, assessing consumer satisfaction with the setting options, and other possible community integration issues. Strategies may be developed to utilize information from the person-centered planning process to improve service delivery under the federal regulations.

Appeal Processes
With stakeholder input, appeal and complaint processes will be identified or developed which allow the HCB setting and/or the consumer(s) to raise or dispute compliance-related issues.

Compliance Monitoring
Each HCBS Waiver and 1915(i) State Plan program, in consultation with stakeholders, will use the self-assessments, on-site evaluations and/or other data collection methods, to be determined, to develop remedial strategies and monitor progress toward compliance with the federal regulations. All State-level and individual-setting level remedial actions will be completed by no later than March 17, 2019.
The State will ensure that HCB settings remain in compliance with the new requirements by utilizing current ongoing licensing and/or certification processes for both residential and non-residential settings, as well as current Waiver monitoring and oversight processes.

Plan Updates and CMS Reporting
During the implementation period, progress on this Statewide Transition Plan will be continuously monitored and reported to CMS, as needed.
Appendix A – Stakeholder Input

(Bold text indicates frequently received comments)

As an overview of comments received, beneficiaries and their family members were most concerned with the choice of homes and programs, including congregate housing and sheltered workshops. Advocates indicated that congregate housing and sheltered workshops tend to isolate beneficiaries, and believe residents and participants in these settings will need to be relocated. Further, advocates have asserted that beneficiaries must be a part of the assessment team and actively involved in all aspects of the STP process. Providers have commented that assessing a category of settings may not be adequate as there is diversity among settings within a category. In addition, providers have raised concerns about funding and resources should modifications be necessary to come into compliance.

State Response Reference Key:

(1)  No action to be taken; outside of STP purview.
(2)  Language in the Statewide Transition Plan has been added or modified due to stakeholder input.
(3)  Compliance determination will be made once the Provider Self-Survey, Beneficiary Self-Survey, and On-Site Assessment have been completed.
(4)  The State will continue its education and outreach to meet the needs of agencies, stakeholders, and beneficiaries as the Statewide Transition Plan is implemented.

Consumers and Family:

(1) California HCBS Requirements must not become stricter than federal regulations.
(1) HCBS requirements are not uniform across the state, i.e. 4 beds vs 6 beds limitations in residential facilities. There is not enough supply of residential facilities and imposing new regulations could shrink this number further.
(1) DD Consumers should be allowed to live with different level types, i.e. Level 2 living with Level 4a or 4b.
(1) Difficult to find appropriate/stimulating day programs and housing.
(1) DDS should take a more active role ensuring Regional Centers are providing services in a uniform manner.
(1) IPPs should include a description of services that were requested but were not delivered due to insufficient supply.
(1) More jobs available to consumers, including full-time, $9/hr. positions.
Add language relative to parental or guardian choice of services/settings for children. STP does not specify Plan for children under 18 years; therefore, the STP assumes children’s needs are the same as adults.

Please permit Group Homes, Farmsteads, Gated Communities, Disability-Specific Housing, Intentional Communities, and Clustered Group Settings.

Day Programs, Work Programs, and Sheltered Work Programs must remain an appropriate setting.

There are 73,000 Californians with severe forms of autism. We need to maximize autism housing options including those congregate in nature.

Ensure that community inclusion requirements do not exclude rural HCBS housing options

**Advocates:**

1. State should use pre-existing tools, such as the National Core Indicator (NCI), for assessing settings, and to narrow down the services and sites requiring assessment.
2. Ensure that a consumer is part of all on-site evaluation survey teams. In addition, a family member and/or consumer advocate, and one provider should also be included.

1. The ALW should be available statewide
2. Conduct an adequate number of on-site evaluations. If the State plans to submit any setting to the heightened scrutiny process, it should perform an on-site assessment.
3. Compliance may be determined using self-assessments, provider assessments, and consumer/family input through the person-centered planning process.
4. While assessing settings by category will be useful, on-site evaluations must be conducted.
5. Settings that “cluster” people with disabilities will have to undergo major architectural changes to comport to the new rules. The STP must include a plan for transferring these participants to more integral settings.
6. DHCS must develop a plan to expand investment of state funds in order to implement the rules properly.
7. To comply with the Federal Rules, additional investments in health care infrastructure for adults with developmental disabilities will be required.
STP states California does not anticipate relocation of consumers, but gated communities and ICF-DDs are presumed not to have the qualities of HCBS. California must take steps to increase availability of services in integrated settings and have these options available if/when consumers are transitioned.

Stakeholder input process must be made accessible to people with sensory impairments. DHCS should develop a communication plan for education and outreach. A consumer must be part of all assessment teams, and consumer self-assessments should be required to self-assess their living arrangements in day programs.

On-site evaluations must include each provider category listed in the plan in every county in the state; and consumers/families should be consulted during on-site reviews for greater accuracy.

Take steps to obtain robust and candid stakeholder input. Convene focus groups for the sharing of personal experiences. Allow stakeholder input through multiple channels: mail, website, dedicated telephone and fax numbers. More robust education and outreach.

Provide transparency in Transition Plan Activities: accurate assessments of providers; publish a list of providers and an initial assessment of HCB setting compliance.

Provide specifics in assessments, so as to allow for more meaningful responses. Federal Rules tend to be vague; comments suggest specific assessment questions to be used to determine HCB setting compliance.

Sheltered workshops are not integrated as all workers have developmental disabilities, and these workers do not integrate with non-disabled workers. California should ensure that individuals have access to supported employment services that help people find real jobs that pay real wages, and that workers with disabilities work alongside non-disabled workers.

California should reject new applications for clustered and congregate projects, gated communities, and Intermediate Care Facilities, and should stop placing consumers in these settings.

Sheltered workshops are not considered by many with disabilities as a community-based service. The STP should include a plan to transition people out of sheltered workshops into individual support employment.

The state does not positively state which current services are already meeting the settings requirements, which do not, and which require further review.

What is the deadline for HCB setting and/or consumers receiving the assessment questionnaire?

DHCS must develop guidance for every state department involved in the HCB setting implementation process so that state departments know how they must conduct the transition/implementation process.

Consumers must be involved in the stakeholder and implementation process.

A list of HCB settings that are NOT being scrutinized should be prepared for stakeholders.

STP should more specifically identify the state’s intention to form work groups and/or use existing committees to look at implications specific to populations served.

No information or direction is found on Regional Center websites RE: the STP.

Education and Outreach section of STP does not define who will provide training to stakeholders.
(4) Follow consistent principles, across state departments, in implementation of the Federal Rules.

Providers:

(1) Add home health agencies and case management companies to the list of settings for compliance determination.

(1) HCPS providers have had their pay rates frozen for 15 years. Wage disparity between HCB settings and institutions limits HCB providers' ability to recruit and retain staff.

(2) Suggest language to be added to the background sections of the HIV/AIDS Waiver, DD Waiver, ALW, NF/AH Waiver, IHO Waiver, SFCLSB Waiver, PPC.

(2) Ensure consumers are given adequate choice of service/setting.

(2) Departments should be able to use an assessment tool that applies to their programs, not a generic tool used across all programs. Further, survey teams need to be trained on the tool and the definition and meaning of HCB Setting rules. Assessment Template must be reliable and valid.

(2) (4) Establish a standing stakeholder monitoring and advisory committee for issues related to people eligible for DD Services.

(2) Development of assessment tools, evaluation of settings, program modifications, and supporting individuals through service transition will require resources, which must be included in the state's budget for community-based developmental services.

(2) (4) Changes that must be made to bring a setting into compliance will likely require funding so the STP should be clear about this. The STP should recognize that if changes are necessary, adequate funding must be made available to affect them.

(3) Adult Development Center is available statewide. Contra Costa County has 7 different settings, some of which are 100% in the community with no facility involved; others are 50% on the site and 50% in the community. Assessments must be made of individual settings, not to the category as a whole.

(4) Consumers transitioning from school to adult services have not been properly informed of new federal rules. STP contains no suggestion of how issues RE: child to adult services will be addressed; no information on the Department of Education website.

(4) DSS-CCL has authority to grant or revoke licenses for residential and non-residential settings; therefore, the state must establish timelines for making necessary modifications to the statutes and regulations for these programs.
Appendix B - Systematic Assessment Summary

The following is an assessment summary, by setting type, of the statutes, regulations, policies and other requirements for all HCB settings listed in the “Compliance Determination Process for HCB Settings” section. The complete assessment of findings is available upon request. For reference, the HBC Setting Requirement numbers in the tables below correspond to the following:

1. Being integrated in and supporting full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
2. Giving individuals the right to select from among various setting options, including non-disability specific settings and an option for a private unit in a residential setting.
3. Ensuring individuals’ rights of privacy, dignity and respect, and freedom from coercion and restraint.
4. Optimizing autonomy and independence in making life choices, including daily activities, physical environment and with whom to interact.
5. Facilitating choice regarding services and supports, and who provides them.

For Medicaid/Medi-Cal provider-owned or controlled HCB settings, the provider must offer:

6. A legally enforceable agreement between the provider and the consumer that allows the consumer to own, rent or occupy the residence and provides protection against eviction.
7. Privacy in units including lockable doors, choice of roommates and freedom to furnish and decorate units.
8. Options for individuals to control their own schedules including access to food at any time.
9. Individuals the freedom to have visitors at any time.
10. A physically accessible setting.

**1915(k), 1915(c) HCBS Waivers HIV/AIDS and IHO Settings**

The characteristics of home and provider settings are not addressed in State regulations, Waiver language, or applicable Waiver documentation; therefore, a systematic assessment and remedial strategies are not necessary.
Appendix C - Initial On-Site Assessments

DHCS conducted On-Site Assessments on a sample of the State’s Congregate Living Health Facilities during May, 2015. The following is a summary of findings. For reference, the HBC Setting Requirement numbers in the table below correspond to the following:

1. Being integrated in and supporting full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
2. Giving individuals the right to select from among various setting options, including non-disability specific settings and an option for a private unit in a residential setting.
3. Ensuring individuals’ rights of privacy, dignity and respect, and freedom from coercion and restraint.
4. Optimizing autonomy and independence in making life choices, including daily activities, physical environment and with whom to interact.
5. Facilitating choice regarding services and supports, and who provides them.

For Medicaid/Medi-Cal provider-owned or controlled HCB settings, the provider must offer:

6. A legally enforceable agreement between the provider and the consumer that allows the consumer to own, rent or occupy the residence and provides protection against eviction.
7. Privacy in units including lockable doors, choice of roommates and freedom to furnish and decorate units.
8. Options for individuals to control their own schedules including access to food at any time.
9. Individuals the freedom to have visitors at any time.
10. A physically accessible setting.
