TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

NOTICE IS HEREBY GIVEN that the Department of Food and Agriculture (herein after referred to as "Department") is proposing to take the action described in the Informative Digest.

A public hearing is not scheduled for this proposal. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than **15 days prior to the close of the written comment period**. Any person interested may present statements or arguments in writing relevant to the

action proposed to the person designated in this Notice as the contact person **on or before 5:00 p.m., July 4, 2005.**

Following the public hearing, if one is requested, or following the written comment period if no public hearing is requested, the Department, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

AUTHORITY AND REFERENCE

Pursuant to the authority vested by sections 407, 32515 and 34001 of the Food and Agricultural Code, and to implement, interpret or make specific sections 32920, 32920.5, 34001.5 of said Code, the Department is considering adding section 581 to Article 19 of Chapter 1, Division 2, of Title 3 of the California Code of Regulations as follows:

**INFORMATIVE DIGEST/POLICY
STATEMENT OVERVIEW**

Existing Law, Food and Agricultural Code section 34001 sets forth the requirements for pasteurizing milk and provides specific heating times and temperatures. This section also authorizes the Department of Food and Agriculture (Department) to review and approve processes of milk pasteurization that have been demonstrated to be equally efficient as those processes specified in section 34001. Food and Agricultural Code section 32515 specifies that the term “pasteurized” means that the milk or milk product has been subjected to a process that is described in Chapter 8 (commencing with section 34001), or other process which has been demonstrated to be equally efficient and has been approved by the Department.

In compliance with section 34001, et seq., the Department has in place requirements for operators of pasteurization equipment under sections 582, 583, 584, and 585 of Article 19, of Chapter 1, Division 2 of Title 3 of the California Code of Regulations. However, these requirements do not allow for the consideration of alternatives to pasteurization pursuant to sections 34001 and 32515.

Therefore, the Department is proposing to adopt new section 581 to update Article 19 of Chapter 1, Division 2 of Title 3 of the California Code of Regulations to designate the requirements for pasteurization, and allow for uniform evaluation of pasteurization equivalency consistent with current technology

and research. This proposal specifies the method for the public to submit proposals to the Department for review and determination of equivalency to authorized pasteurization technologies. This proposal will also make California consistent with federal definitions of pasteurization and ensure that California’s milk regulatory program complies with the Grade “A” Pasteurized Milk Ordinance, 2003 Revision, of the United States Department of Health and Human Services, Public Health Service/Food and Drug Administration.

FISCAL IMPACT STATEMENTS

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None

Nondiscretionary Costs/Savings to Local Agencies: None

Local Mandate: None

Cost to Any Local Agency or School District for Which Government Code Section 17561 Requires Reimbursement: None

Business Impact: The Department has made an initial determination that this proposed regulatory action would not result in any significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states. This proposal does not impose any fees, nor requires changes to existing milk and milk products plants in California. It establishes the process by which the effectiveness and safety of new and innovative pasteurization technologies may be evaluated by the Department. This proposal affects individuals and businesses choosing to apply to the Department for approval of alternatives to pasteurization as defined in Food and Agricultural Code section 34001. It imposes the following paperwork requirement upon persons or businesses engaged in the dairy industry:

- *Paperwork:* The person or business choosing to apply for pasteurization equivalency is to submit their proposal in writing to the Department. The only cost anticipated for this requirement would be the person or business incurring mailing costs to submit their proposal to the Department.

In making this determination, the Department has not considered alternatives that would lessen any adverse economic impact on businesses and invites the public to submit such proposals during the written comment period. Submissions may include the following considerations:

- The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to businesses.
- The consolidation or simplification of compliance and reporting requirements for businesses.

- The use of performance standards rather than prescriptive standards.
- Exemption or partial exemption from the regulatory requirements for businesses.

Impact on Jobs/New Businesses: The Department has determined that this regulatory proposal will not have any impact on the creation of jobs or businesses or the elimination of jobs or existing businesses or the expansion of businesses in California. This proposal does not impose any fees, nor requires changes to existing milk and milk products plants in California. It establishes the process by which the effectiveness and safety of new and innovative pasteurization technologies may be evaluated by the Department.

Cost Impacts on Private Persons or Entities: The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. This proposal does not impose any fees, nor requires changes to existing milk and milk products plants in California. It establishes the process by which the effectiveness and safety of new and innovative pasteurization technologies may be evaluated by the Department. This proposal affects persons or entities choosing to apply to the Department for approval of alternatives to pasteurization as defined in Food and Agricultural Code section 34001. It imposes the following paperwork requirement upon persons or entities engaged in the dairy industry:

- *Paperwork:* The person or entity choosing to apply for pasteurization equivalency is to submit their proposal in writing to the Department. The only cost anticipated for this requirement would be the person or entity incurring mailing costs to submit their proposal to the Department.

Effect on Housing Costs: None

EFFECT ON SMALL BUSINESS

The Department has determined that the proposed regulations would affect small businesses.

CONSIDERATION OF ALTERNATIVES

The Department must determine that no reasonable alternative which it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action described in this Notice.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing (if a hearing is requested from the public), or during the public comment period.

INITIAL STATEMENT OF REASONS

The Department has prepared an initial statement of reasons for the proposed action and has available all the information upon which the proposal is based.

TEXT OF PROPOSAL

Copies of the exact language of the proposed regulations and of the initial statement of reasons, and all the information upon which the proposal is based, may be obtained at the hearing or prior to the hearing (if a hearing is requested) or during the public comment period upon request from the Department of Food and Agriculture, 1220 N Street, Room A-114, Sacramento, California 95814.

AUTHORITY AND REFERENCE

Authority: Section 8804(b) and (i), Education Code.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Senate Bill 620 (Chapter 759, Statutes of 1991) established the Healthy Start Support Services for Children Act. The Healthy Start initiative overcomes barriers to healthy productive lives for children in need of assistance by: creating a learning environment that is optimally responsive to the physical, emotional, and intellectual needs of each child; by fostering inter-agency collaboration and communication at the local level to more efficiently and effectively deliver human support services to children and their families; by encouraging the full use of existing agencies, professional personnel, and public and private funds to ensure that children are ready and able to learn, and to prevent duplication of services and unnecessary expenditures; and encouraging the development of a local interagency oversight mechanism that includes a records system to evaluate cost and effectiveness, and the development of a process of self-assessment of those records and the way in which they are used, to improve the effectiveness of the services.

In addition to *Education Code* sections 8800 et seq., regulations were adopted in 1992 and 1993. These proposed revised regulations provide needed technical clean-up of inaccuracies in the adopted regulations.

The proposed regulations also remove unneeded reformatting requirements; provide a more realistic timeline for appeals, which will ensure that grant funds reach local education agencies in a timely manner; add guidance for the awarding of grants; remove consultation requirements regarding appeals with the Healthy Start Support Services for Children Program Council; reestablish the intent of the legislature for a competitive request for applications process; and add federal confidentiality requirements for student records and medical records.

DISCLOSURES REGARDING THE PROPOSED ACTION

The State Board has made the following initial determinations:

Mandate on local agencies and school districts: None

Cost or savings to any state agency: None

Costs to any local agency or school district which must be reimbursed in accordance with Government Code section 17561: None

Other non-discretionary cost or savings imposed on local educational agencies: None

Cost or savings in federal funding to the state: None

Significant, statewide adverse economic impact directly affecting business including the ability of California businesses to compete with businesses in other states: None

Cost impacts on a representative private person or businesses: The State Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Adoption of these regulations will not:

- (1) create or eliminate jobs within California;
- (2) create new businesses or eliminate existing businesses within California; or
- (3) affect the expansion of businesses currently doing business within California.

Significant effect on housing costs: None

Effect on small businesses: The proposed amendments to the regulations do not have an effect on small businesses because the regulations only relate to local school districts and not to business practices.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5(a)(13), the State Board must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the attention of the State Board, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

The State Board invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The amendments would establish an alternative to the existing method for determining the pupil-teacher ratio; authorize multi-year funding determinations; make clarifying changes to the determination of funding request forms and calculations; make technical changes that include removal of language no longer in effect, renumbering, and typographical errors; and establish a policy for review and approval of funding determination requests submitted by nonclassroom-based virtual or online charter schools.

Significant effect on housing costs: None

Effect on small businesses: The proposed regulations would not have a significant adverse economic impact on any business because they relate only to public charter schools and not to small business practices.

**TITLE 11. COMMISSION ON
 PEACE OFFICER STANDARDS
 AND TRAINING**

NOTICE OF PROPOSED REGULATORY ACTION

**Regulations 1005, 1060 and Procedure D-2 to
 Grant Continuing Professional Training Credit
 for Anti-Terrorism and Weapons of Mass
 Destruction Training**

Notice is hereby given that the Commission on Peace Officer Standards and Training (POST) proposes to amend regulations in Chapter 2 of Title 11 of the California Code of Regulations. This proposal is made pursuant to the authority vested by Penal Code sections 13503 (powers of the Commission on POST) and 13506 (Commission on POST authority to adopt regulations). This proposal is intended to interpret, implement, and make specific Penal Code sections 13503(e) (Commission on POST authority to develop and implement programs to increase the effectiveness of law enforcement, including programs involving training and education courses), 13510 (Commission on POST authority to adopt and amend rules establishing minimum standards for California local law enforcement officers) and 13510.5 (Commission on POST authority to adopt and amend standards for certain other designated California peace officers).

**INFORMATIVE DIGEST/POLICY
 STATEMENT OVERVIEW**

Since the terrorist attacks in September 2001, many governmental agencies at the federal, state, and local level have developed new training courses dealing

with anti-terrorism and weapons of mass destruction (WMD). These courses range from awareness levels through the more complex and complicated required training and certification protocols.

At present, POST recognizes specific non-certified training courses presented out-of-state for the purposes of satisfying the Continuing Professional Training (CPT) requirement. These courses are identified on the POST Non-Certified Training Notification form, POST 2-213, and in Procedure D-2-3.

This proposal would amend Commission Procedure D-2-3 and POST Form 2-213 to permit non-POST-certified courses on anti-terrorism and WMD solely to satisfy the Continuing Professional Training (CPT) requirement. These courses would remain non-reimbursable by POST and limited solely to satisfying CPT requirements. Additionally, Regulations 1005 and 1060 would be amended to reflect the proposed revision date.

Courses that have been developed by any agency of the federal government that deal with anti-terrorism or weapons of mass destruction would be eligible for CPT credit. This includes training courses developed and certified by the Department of Defense, Department of Energy, Department of Justice, Department of Transportation, Environmental Protection Agency, and courses from the Department of Homeland Security (which includes the Office for Domestic Preparedness, the Federal Emergency Management Agency, and the Federal Law Enforcement Training Center).

Various non-POST-certified training courses available to California peace officers over the past three decades have addressed highly critical and specialized training needs. They have advanced the professionalism of law enforcement, improved officer safety, and provided contemporary insight and solutions to the challenges and issues confronting law enforcement today.

Recognition of non-POST-certified anti-terrorism and WMD training presented by any national or state governmental agency, including the United States Armed Forces, to also satisfy CPT requirements gives local agencies a double benefit. Agencies would be able to send personnel to a variety of non-POST-certified training courses at locations inside and outside California for highly specialized training. Agencies pay the costs associated with tuition, travel, lodging, and per diem, or the costs are subsidized by the federal government agency sponsoring the program. Each attendee who successfully completes any of these courses would receive credit towards meeting the CPT requirement in addition to completing important job-related training.

Documentation of training is crucial for law enforcement personnel. The proposed amendments give POST the ability to document these training

courses in a central database, recognizes the quality training programs that have been presented, and provides trainees an administrative process by which to submit documentation and receive credit towards the CPT requirements.

PUBLIC COMMENT

The Commission hereby requests written comments on the proposed actions. POST must receive all written comments no later than 5:00 p.m. on July 4, 2005. Please direct any written comments to Kenneth J. O'Brien, Executive Director, Commission on Peace Officer Standards and Training, 1601 Alhambra Boulevard, Sacramento, CA 95816-7083, or by fax at 916.227.2801.

A public hearing is not scheduled. Pursuant to Government Code Section 11346.8, any interested person, or his or her duly authorized representative, may request in writing, no later than 15 days prior to the close of the public comment period, that a public hearing be held.

ADOPTION OF PROPOSED REGULATIONS

Following the close of the public comment period, the Commission may adopt the proposal substantially as set forth without further notice or the Commission may modify the proposal if such modifications remain sufficiently related to the text as described in the Informative Digest. If the Commission makes changes to the language before the date of adoption, the text of any modified language, clearly indicated, will be made available, at least 15 days before adoption, to all persons whose comments were received by POST during the public comment period and to all persons who request notification from POST of the availability of such changes. A request for the modified text should be addressed to the agency official designated in this notice. The Commission will accept written comments on the modified text for 15 days after the date on which the revised text is made available.

ESTIMATE OF ECONOMIC IMPACT

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None

Non-Discretionary Costs/Savings to Local Agencies: None

Local Mandate: None

Costs to any Local Agency or School District for Which Government Code Section 17561 Requires Reimbursement: None

Significant Statewide Adverse Economic Impact Directly Affecting California Businesses, including Small Business: The Commission on Peace Officer Standards and Training has made an initial determination that the amended regulations will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability to compete with businesses in other states. The Commission on Peace Officer Standards and Training has found that the proposed amendments will have no affect on California businesses, including small businesses, because the Commission sets selection and training standards for law enforcement and does not impact California businesses, including small businesses.

Cost Impacts on Representative Private Persons or Businesses: The Commission on Peace Officer Standards and Training is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Effect on Housing Costs: The Commission on Peace Officer Standards and Training has made an initial determination that the proposed regulation would have no affect on housing costs.

ASSESSMENT

The adoption of the proposed regulation amendments will neither create nor eliminate jobs in the state of California and will not result in the elimination of existing businesses or create or expand businesses in the state of California.

CONSIDERATION OF ALTERNATIVES

To take this action, the Commission must determine that no reasonable alternative considered by the Commission, or otherwise identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, or would be as effective as and less burdensome to affected private persons than the proposed action.

CONTACT PERSONS

Please direct any inquiries or comments pertaining to the proposed action to Patricia Cassidy, Associate Analyst, 1601 Alhambra Boulevard, Sacramento, CA 95816-7083, by telephone at 916.227.4847, by FAX at 916.227.5271, or by email at Pat.Cassidy@post.ca.gov. TITLE 14. FISH AND GAME COMMISSION

NOTICE OF PROPOSED CHANGES IN REGULATIONS

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 1580, 1581, 1583 and 1907 of the Fish and Game Code and to implement, interpret or make specific sections 1526, 1528, 1530, 1580-1585, 1590 and 1591 of said Code, proposes to amend Section 630, Title 14, California Code of Regulations, relating to Ballona Wetlands Ecological Reserve.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Currently, there are 132 ecological reserves designated in Section 630, Title 14, CCR, for the purpose of protecting sensitive habitats and species. The department is requesting that this section be amended to add one new ecological reserve, Ballona Wetlands, to this listing.

Ballona Wetlands consisting of 553 acres in Los Angeles County is proposed for designation as an ecological reserve for the protection and enhancement of coastal salt marsh and freshwater marsh habitats, and associated species, including the state listed endangered Belding's savannah sparrow. The area is also an important wildlife movement corridor to other public lands in the vicinity of the wetlands.

The reasons for listing this property in Title 14 are to regulate public use and provide the best available protection for the species and habitats the property was acquired to protect. Since the property contains

sensitive species, including a state listed endangered species, sensitive vegetation communities and acts as a linkage for other important protected lands, it is necessary and appropriate to provide this level of regulatory protection to prevent improper use and degradation of wildlife resources. In order to do this efficiently, the department has a set of general regulations which apply to all ecological reserves.

The department may also write special regulations for individual properties, as it thinks appropriate, to give an additional level of protection, or to permit specific public uses not governed by the general regulations. The department is requesting special regulations for this reserve based on management information gathered which shows these amendments are necessary to protect the habitat or species the property supports.

Three special regulations will protect sensitive species and habitats of Ballona Wetlands by allowing pedestrian use only on designated trails; bicycle use only on a designated bike path on the north side of the Ballona Creek flood channel; and boating only within the Ballona Creek flood channel. One special regulation will allow fishing only with barbless hooks from shore in designated areas along the Ballona Creek flood channel or from a boat within the Ballona Creek flood channel for the protection of sensitive species and habitats and to minimize mortality of fish and aquatic species caught by anglers and returned to Ballona Creek. Two additional special regulations will allow licensed recreational use of a portion of an area of the proposed reserve known as Area C, and leased parking use under existing agreements, unless it is determined that other uses are more appropriate for these areas. Because these licensed recreational and parking uses are not normally allowed on ecological reserves, these two special regulations are necessary when the department has determined these activities are appropriate and will cause no impacts to protected species and habitats.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Board of Supervisors Chambers, 1050 Monterey Street, 2nd floor, San Luis Obispo, California on Friday, August 19, 2005, at 8:30 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before August 10, 2005 at the address given below, or by fax at (916) 653-5040, or by e-mail to FGC@dfg.ca.gov, but must be received no later than August 19, 2005, at the hearing in San Luis Obispo, CA. All written comments must include the true name and mailing address of the commentor.

The regulations as proposed in strikeout-underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Robert R. Treanor, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above mentioned documents and inquiries concerning the regulatory process to Jon Fischer or Jon Snellstrom at the preceding address or phone number. **Kari Lewis, Lands and Facilities Branch, Department of Fish and Game, phone (916) 445-3789, has been designated to respond to questions on the substance of the proposed regulations.** Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

AVAILABILITY OF MODIFIED TEXT

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States: The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulatory action adds one ecological reserve to Title 14 with special regulations. The proposed regulatory action is proposed to provide maximum protection of wildlife and habitat and to manage appropriate public use. It is not expected

to negatively affect businesses, because the regulations are enforced only on the specific property named.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California: None
- (c) Cost Impacts on a Representative Private Person or Business: The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None
- (e) Nondiscretionary Costs/Savings to Local Agencies: None
- (f) Programs mandated on Local Agencies or School Districts: None
- (g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4: None
- (h) Effect on Housing Costs: None

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business.

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

TITLE 14. FISH AND GAME COMMISSION

NOTICE OF PROPOSED CHANGES IN REGULATIONS

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 200, 202, 203.1, 205(c), 219, 220, 1590, 1591, 2860, 2861(c), 6750 and 10502.6 of the Fish and Game Code, and Sections 36725(a) and 36725(e) of the Public Resources Code and to implement, interpret or make specific Sections 200, 202, 203.1, 205(c), 219, 220, 1580, 1583, 5521, 6653, 8420(e) and 8500 of the Fish and Game Code, and Sections 36725(a) and 36725(e) of the Public

Resources Code, proposes to amend Section 632, Title 14, California Code of Regulations, relating to Marine Protected Areas.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

State law (sections 1590 and 1591, Fish and Game Code) authorizes the Commission to designate, delete, or modify state marine managed areas (MMAs). Authorization is also provided in subsection 36725(a), Public Resources Code. In addition, in subsection 36725(e), Public Resources Code, the Commission may regulate commercial and recreational fishing and any other taking of marine species in MMAs.

The existing regulation of Section 632, Title 14, California Code of Regulations (CCR), defines State Marine Parks and State Marine Conservation Areas and provides information on authorized uses within those areas. The classification of those areas is in accordance with the Marine Managed Areas Improvement Act (MMAIA) commencing with Section 36600, Public Resources Code).

Nine areas originally designated by the Legislature as marine life refuges were reclassified in 2004 as State Marine Parks under the authority of the MMAIA. Six of these areas were historically productive for the commercial spiny lobster fishery and lobster take has occurred in the areas since their establishment as marine life refuges. The six areas are: Robert E. Badham State Marine Park, Irvine Coast State Marine Park, Laguna Beach State Marine Park, South Laguna Beach State Marine Park, Niguel State Marine Park, and Doheny State Marine Park. With the designation of these six areas as State Marine Parks, there is now a discrepancy between what has been a long-standing use in those areas and the type of use provided for under the state marine park designation as defined in MMAIA. The proposed regulation change would modify the status of these six areas to State Marine Conservation Areas to allow access for the commercial lobster industry.

State law (sections 8254 and 8259, Fish and Game Code) authorizes the Commission to set conditions for the commercial lobster fishery. The proposed regulatory change will not change any conditions for that fishery or affect the status of the spiny lobster stocks.

In addition, Doheny State Marine Park's name is proposed to change to Doheny Beach State Marine Conservation Area to differentiate it from the existing Doheny State Marine Conservation Area.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Board of Supervisors Chambers, 1050 Monterey Street, 2nd floor, San Luis Obispo, California on Friday, August 19, 2005, at 8:30 a.m., or

as soon thereafter as the matter may be heard. If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

IMPACT OF REGULATORY ACTION

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, including the Ability of California Businesses to Compete with Businesses in Other States: The proposed action will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. The proposed action serves to clarify and sanction historical commercial and recreational areas and practices to abate economic impacts and financial hardship to individuals and businesses.
- (b) Impact on the Creation or Elimination of Jobs within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California: None.
- (c) Cost Impacts on a Representative Private Person or Business: The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- (d) Costs or Savings to State Agencies or Costs/Savings in Federal funding to the State: None.
- (e) Nondiscretionary Costs/Savings to Local Agencies: None.
- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4: None.
- (h) Effect on Housing Costs: None.

EFFECT ON SMALL BUSINESS

It has been determined that the adoption of these regulations may affect small business.

CONSIDERATION OF ALTERNATIVES

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

TITLE 22. EMPLOYMENT TRAINING PANEL

NOTICE OF PROPOSED RULEMAKING

NOTICE IS HEREBY GIVEN that the Employment Training Panel (Panel) proposes to amend one

regulation and repeal three regulations in Title 22 of the California Code of Regulations, as described below. In particular:

1. Amend Section 4418 to authorize the use of mandatory service charges, commissions, bonuses and employer-paid health benefits to reach the minimum wage that must be earned by each trainee (ETP minimum wage) after training and upon conclusion of a 90-day retention period on the job.
2. Repeal Section 4419 which authorizes the use of employer-paid health benefits to reach the ETP minimum wage, because these provisions would be included in Section 4418 as amended.
3. Repeal Section 4442.1 to eliminate a “makeup training” procedure for situations when a trainee has missed up to 20 percent of the required training hours, for good cause. That procedure has been replaced by a fixed 80 percent standard for minimum training hours.
4. Repeal Section 4444 to eliminate a six-month “project review” by staff. The review objectives are now accomplished during the on-site monitoring visits and reports that are made periodically by staff.

AUTHORITY AND REFERENCE

The Panel’s rulemaking authority is set forth at Section 10205(m) of the Unemployment Insurance (U.I.) Code Section 10205(m). In general, the proposed regulatory action will implement, interpret and make specific U.I. Code Section 10200 *et seq.*

INFORMATIVE DIGEST

A summary of each proposed adoption or amendment and its purpose is set forth below:

1. Amend Section 4418. Wage Criteria.

Under existing law, the Panel is required to follow an hourly wage threshold in determining the minimum wages that must be earned by a trainee (ETP minimum wage). The training contractor must show that each reached this wage upon conclusion of a 90-day retention period on-the-job. (Unemployment Insurance (U.I.) Code Section 10201(f).)

The proposed amendment would authorize the use of “mandatory service charges” to reach the ETP minimum wage. The proposed amendment would also authorize the use of commission payments and bonuses to reach the ETP minimum wage.

It would also set standards for determining the accuracy and reliability of mandatory service charges, bonuses and commissions that are used to reach the ETP minimum wage. As amended, Section 4418 would be consistent with the statutory definition of “wages” for the purpose of collecting employer contributions to the Unemployment Insurance program. (U.I. Code Section 926.)

2. Repeal Section 4419. Health Benefits.

Currently, Section 4419 authorizes the Panel to use the dollar value of health benefit contributions made by the employer in order to reach the ETP minimum wage. The proposed amendment to Section 4418 would incorporate these provisions. Thus, Section 4419 would no longer be necessary and should be repealed.

3. Repeal Section 4442.1. Makeup Training.

Existing law requires the Panel to establish minimum standards for the consideration of training proposals. (U.I. Code Section 10205(e).) Existing Section 4442.1 sets 80 percent of training hours as the minimum for trainee attendance; and creates a “make-up training” procedure for trainees who miss up to 20 percent of training hours, so long as their absenteeism is excused for good cause.

However, the make-up training procedure has proved cumbersome, and often ineffective. A more recent regulation, Section 4400(y), provides for reimbursement when a trainee completes at least 80 percent of the required training hours. This is without the necessity of make-up training, so long as 100 percent of the required hours were made available. The repeal of Section 4442.1 would remove an inconsistency in the ETP regulations, and is expected to result in greater clarity as to a training contractor’s required performance.

4. Repeal Section 4444. Project Review.

Existing law requires the Panel to ensure the provision of adequate fiscal and accounting controls. (U.I. Code Section 10205(g).) One such control is the audit process under existing Section 4448. In addition, the Panel requires periodic on-site visits to monitor the progress of training projects, pursuant to existing Section 4443. There is also a procedure for a six-month project review pursuant to existing Section 4444.

The monitoring and periodic review regulations were adopted in 1991. Since then, staff has incorporated project review into its monitoring visits and reports. Given the similarity of these two procedures, staff has determined that a separate procedure for project review is unnecessary and potentially confusing.

No documents would be incorporated-by-reference.

FISCAL DISCLOSURES

The Panel has made the following initial determinations regarding fiscal disclosures required by Section 11346.2 of the Government Code.

- A. Fiscal Impact. The Panel has made an initial determination that the proposed regulatory action does not impose costs or savings requiring reimbursement under Section 17500 *et seq.* of the

Government Code. Furthermore, this action does not impose non-discretionary costs or savings to any local agency; nor does it impact federal funding for the State.

The Panel has made an initial determination that the proposed action does not impose costs or savings to any State agency pursuant to Section 11346.1(b) or 11346.5(a)(6) of the Government Code. Furthermore, there are no fiscal impact disclosures required by State Administrative Manual Sections 6600–6670.

- B. Cost Impacts. The Panel is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. The same determination applies to housing costs. This action would clarify the Panel’s standards for reviewing and funding training proposals. Thus, the costs incurred in submitting such proposals should be reduced, if anything.
- C. Adverse Impact on Business. The Panel has made an initial determination that the proposed regulatory action does not have any significant, statewide adverse economic impact directly affecting business, including the ability to compete. Indeed, the overall purpose of the Panel’s program is to enhance the ability of California businesses to meet the challenge of competition from other states.
- D. Effect on Small Business. The Panel has determined that the proposed regulatory action does not affect small businesses unless they seek training funds. Since this action would clarify and simplify the Panel’s standards for reviewing and funding training proposals, this would be a positive effect.
- E. Effect on Jobs and Business Expansion. The Panel has made an initial determination that the proposed action would not create or eliminate jobs in California. Nor would it create new businesses or eliminate existing businesses in California. The Panel has made an initial determination that the proposed action would not directly affect the expansion of businesses currently operating in California.

Nevertheless, the overall intent and purpose of the ETP program is to foster job creation and the retention of high-wage, high-skilled jobs that are threatened by out-of-state competition. (U.I. Code section 10200(a).) The Panel must give funding priority to projects that would train new employees of firms locating or expanding in the state, train displaced workers, and develop workers with skills that prepare them for the challenges of a high performance workplace of the future. (U.I. Code section 10200(b).) Thus, the Panel has made an

initial determination that the proposed action may encourage the retention of jobs and businesses in California, in the sense that it would enhance the Panel’s ability to implement the purpose of the ETP program.

- F. Imposed Mandate. The Panel has made an initial determination that the proposed regulatory action does not impose a mandate on local agencies or school districts.

REASONABLE ALTERNATIVES

The Panel has made an initial determination that there is no reasonable alternative to the regulatory proposed action that would be more effective in carrying out its purpose, or would be as effective and less burdensome to affected private parties. Interested persons are welcome to identify reasonable alternatives during the written comment period.

WRITTEN COMMENT PERIOD

A 45-day written comment period has been established beginning on May 20, 2005 and ending at 5:00 p.m. on July 5, 2005. Any interested person, or his or her authorized representative, may present written comments on the proposed regulatory action within that period. GENERAL PUBLIC INTEREST

DEPARTMENT OF HEALTH SERVICES

**NOTICE OF GENERAL PUBLIC INTEREST
THE DEPARTMENT OF HEALTH SERVICES
NURSING FACILITY QUALITY ASSURANCE
FEE AND NEW MEDI-CAL REIMBURSEMENT
METHODOLOGY FOR FREESTANDING
NURSING FACILITIES LEVEL-B AND
SUBACUTE CARE UNITS OF FREESTANDING
NURSING FACILITIES LEVEL-B**

This notice is to provide information of public interest regarding the Department of Health Services' (DHS) implementation of Assembly Bill (AB) 1629 (Stats. 2004, ch. 875). This legislation enacts both a skilled nursing facility Quality Assurance Fee, and a new Medi-Cal Rate Reimbursement Methodology for certain types of nursing facilities.

AB 1629 directs DHS to request federal approval to impose the Skilled Nursing Facility Quality Assurance Fee in accordance with federal law, title 42 United States Code section 1396b(w). Additionally, because AB 1629 exempts certain groups of facilities, DHS is required to request a waiver of uniformity. DHS submitted the request for federal waiver to the Centers for Medicare & Medicaid Services (CMS) on March 21, 2005. This Quality Assurance Fee affects all non-exempt skilled nursing facilities, regardless of whether they participate in the Medi-Cal program. The Quality Assurance Fee will be imposed on a per resident day basis. Facilities failing to comply with requirements of the Quality Assurance Fee may face monetary penalties and/or a delay in license renewal.

Upon federal approval of this waiver, DHS will assess skilled nursing facilities a Quality Assurance

Fee effective retroactive to August 1, 2004. Providers exempted from the Quality Assurance Fee are:

- Continuing Care Retirement Communities
- Multi Level Care Facilities
- Skilled Nursing Facilities owned and operated by the state or another public entity
- Distinct Part of a facility licensed as a general acute care hospital

Legislation may exempt the following providers from the Quality Assurance Fee:

- Institutes of Mental Disease or Special Treatment Programs as defined in California Code of Regulations, title 22, section 72443
- Pediatric Subacute Care Units of a Skilled Nursing Facility

Notice is also given of changes to the Medi-Cal reimbursement methodology mandated by AB 1629 for long-term care freestanding nursing facilities level-B (FS/NF-B) and subacute care units of FS/NF-B's. On February 1, 2005, DHS submitted to the federal CMS a supplement to California's Medicaid State Plan under Title XIX of the Social Security Act. This supplement revises the Medi-Cal (Medicaid) reimbursement methodology for FS/NF-B's and subacute care units of FS/NF-B's. This change in reimbursement methodology will be effective, upon approval by CMS, commencing on August 1, 2005, and will be implemented commencing on the first day of the month following that federal approval.

The classes of Medi-Cal long-term care facilities that are not impacted by this rate reimbursement methodology change are:

- Intermediate Care Facilities (Nursing Facility Level-A)
- Intermediate Care Facilities—Developmentally Disabled
- Intermediate Care Facilities—Developmentally Disabled, Habilitative
- Intermediate Care Facilities—Developmentally Disabled, Nursing
- Skilled Nursing Facilities that are a Distinct Part of a General Acute Care Hospital
- Resident days provided in pediatric subacute care units located in freestanding skilled nursing facilities

PUBLIC REVIEW

The request for federal approval of the Quality Assurance Fee is available in an electronic version at the DHS web site located at:

The proposed supplement to California's Medicaid State Plan, which details the proposed Medi-Cal Rate Reimbursement Methodology changes is available at

PROPOSITION 65

CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT

SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986
(PROPOSITION 65)

NOTICE TO INTERESTED PARTIES

AVAILABILITY OF HAZARD IDENTIFICATION MATERIALS FOR PERCHLORATE AND ANNOUNCEMENT OF THE DEVELOPMENTAL AND REPRODUCTIVE TOXICANT IDENTIFICATION COMMITTEE MEETING

The California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) is the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986¹ (Proposition 65). The Developmental and Reproductive Toxicant (DART) Identification Committee of OEHHA's Science Advisory Board advises and assists OEHHA in compiling the list of chemicals known to the State to cause reproductive toxicity as required by Health and Safety Code section 25249.8. The Committee serves as the State's qualified experts for determining whether a chemical has been clearly shown through scientifically valid testing according to generally accepted principles to cause reproductive toxicity.

On April 11, 2003, OEHHA published an initial request for information relevant to the assessment of the evidence of developmental and reproductive toxicity for perchlorate, a chemical to be considered by the DART Identification Committee for possible addition to the Proposition 65 list. At the request of several interested parties, on June 6, 2003, OEHHA issued an extension to the April 11 public comment period until 60 days after receipt of the peer reviewers' comments on OEHHA's draft Public Health Goal document for perchlorate. The peer reviewers' comments were received in February 2004, and thus, on February 27, 2004, a notice was published announcing the close of the 60-day data call-in period on April 27, 2004. All comments were reviewed and considered by

OEHHA in preparing and assembling the hazard identification materials for perchlorate.

OEHHA announces the availability of the document entitled: "Evidence on the Developmental and Reproductive Toxicity of Perchlorate." Copies of the document are available from the Proposition 65 Implementation Office and may be requested by calling (916) 445-6900. The document is also available through the Internet at the following address: <http://www.oehha.ca.gov/>. This notice marks the beginning of a 60-day public comment period. Comments should be submitted in triplicate and directed to:

Comments may also be delivered in person or by courier to the above address. It is requested, but not required, that written comments and supporting documentation be transmitted via email addressed to: coshita@oehha.ca.gov. In order to be considered, comments must be postmarked (if sent by mail) or received at OEHHA (if hand-delivered, sent by FAX, or transmitted electronically) by 5:00 p.m. on Tuesday, July 19, 2005.

OEHHA will organize and index the comments received and forward the information to the DART Identification Committee members prior to the meeting at which the candidate chemical will be considered.

At the last DART Identification Committee on November 4, 2004 at which the Committee considered listing chloroform and progesterone, the Committee asked OEHHA to present additional information related to the listing of each chemical. Additional information requested by the Committee concerning the possible reconsideration of the decision not to list chloroform will be made available in a future public notice. The Committee will continue consideration of the listing of progesterone at its next meeting.

The next meeting of the DART Identification Committee is scheduled for **Thursday, August 11, 2005**. The meeting will be held at the California Environmental Protection Agency Headquarters Building, Sierra Hearing Room, at 1001 I Street, Sacramento, California. The meeting will begin at 10:00 a.m. and will last until all business is conducted or until 5:00 p.m. The agenda for the meeting will be provided in a future public notice published in advance of the August 11 meeting.

**CALIFORNIA ENVIRONMENTAL
PROTECTION AGENCY
OFFICE OF ENVIRONMENTAL
HEALTH HAZARD ASSESSMENT**

SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986
(Proposition 65)

NOTICE TO INTERESTED PARTIES

**CHEMICALS LISTED EFFECTIVE
May 20, 2005
AS KNOWN TO THE STATE OF CALIFORNIA
TO CAUSE CANCER**

The Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency is adding *cobalt sulfate* (CAS No. 10124-43-3) and *diazoaminobenzene* (CAS No. 136-35-6) to the list of chemicals known to the state to cause cancer for purposes of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Health and Safety Code section 25249.5, Proposition 65). The listing of *cobalt sulfate* and *diazoaminobenzene* is effective May 20, 2005.

Health and Safety Code section 25249.8(a) requires that certain substances identified by the International Agency for Research on Cancer (IARC) or the National Toxicology Program (NTP), as described in Labor Code sections 6382(b)(1) and (d), be included on the Proposition 65 list. Labor Code section 6382(b)(1) references substances identified as human or animal carcinogens by IARC, and Labor Code section 6382(d) references substances identified as carcinogens or potential carcinogens by IARC or NTP. *Cobalt sulfate* and *diazoaminobenzene* were identified by the NTP as reasonably anticipated to be human carcinogens.

The basis for the listing of *cobalt sulfate* and *diazoaminobenzene* on the Proposition 65 list was described in OEHHA's Request for Comments on Proposed Listing of *Cobalt sulfate* and *Diazoaminobenzene* As Known to Cause Cancer published in the March 18, 2005, issue of the *California Regulatory Notice Register* (Register 2005, No. 11-Z). Specifically, in 2005, NTP issued the *Eleventh Report on Carcinogens* available at (<http://ntp.niehs.nih.gov/ntp/roc/toc11.html>). In this report, the NTP concluded that "Cobalt sulfate is reasonably anticipated to be a human carcinogen based on sufficient evidence of carcinogenicity in experimental animals." In the same report, the NTP concluded that diazoaminobenzene (DAAB) is "reasonably anticipated to be a human carcinogen based on evidence from studies in animals and with human tissue demonstrating that DAAB is metabolized to benzene, a known human carcinogen, and on evidence that

DAAB causes genetic damage.” No public comment regarding the listing of these chemicals was received during the 30-day public comment period which closed on April 18, 2005.

OEHHA analyses of dose-response data to establish the no significant risk levels (NSRLs) for these chemicals under Proposition 65 have not been conducted. The priority status of the development of such analyses will be announced in a future OEHHA *Proposition 65 Status Report for Safe Harbor Levels*, available at <http://www.oehha.ca.gov/prop65.html>.

A complete, updated Proposition 65 list is published elsewhere in this issue of the *California Regulatory Notice Register*.

Assembly Bill (AB) 72 (Statutes of 2004, Chapter 358) effective January 1, 2005 amends section 8212 and 8226 of the Education Code to require Resource and Referral (R&R) programs within two business days of being notified by the California Department of Social Services that a facility's license has been temporarily suspended, revoked, or placed on probation to (1) notify Alternative Payment Programs (APPs) and County Welfare Departments (CWDs) providing child care and development services for recipients of CalWORKS within their jurisdiction of the temporary suspension, revocation, or probation and (2) remove the facility from its referral list and provide notification to the facility of this action. Within two days of being notified of a suspension or revocation, AB 72 requires the APPs and CWDs to terminate payment to the facility and notify parents served by the facility that payment has been terminated and why.
