

CONTRACT YEAR (CY) 2025 D-SNP DATA

INDIVIDUALIZED CARE PLAN

Background

State Specific Reporting Requirements

Dual Eligible Special Needs Plans (D-SNPs) are Medicare Advantage (MA) plans that provide specialized care and wrap-around services for dual eligible beneficiaries (eligible for both Medicare and Medicaid). To learn more about types of D-SNPs available in California, visit [Medicare Advantage Options for Dual Eligible Beneficiaries](#).

The Centers for Medicare & Medicaid Services (CMS) requires several types of quality reporting for MA plans, which includes D-SNPs. In addition to all federally required MA reporting requirements, the California Department of Health Care Services (DHCS) has state-specific reporting requirements for D-SNPs, including Medi-Medi Plans, referred to here as Exclusively Aligned Enrollment (EAE) D-SNPs, non-EAE D-SNPs, and SCAN's Fully Integrated Dual Eligible Special Needs Plan (FIDE SNP). These requirements are detailed in the Reporting Requirements chapter of the [CY 2025 D-SNP Policy Guide](#) and the [CY 2025 D-SNP Reporting Requirements Technical Specifications](#).

Individualized Care Plan (ICP1) Measure

The table below displays the data that D-SNPs report to DHCS on a quarterly basis for the state specific Members with an Individualized Care Plan Completed within 90 Days of Enrollment (ICP1) measure for Contract Year (CY) 2025. The table below displays the percentage of members who completed a care plan, per quarter, by plan, and by plan type.
