

Centers for Medicare and Medicaid Services (CMS) Child and Adult Core Set Measures

Statewide, Children and Youth That Received 5 or More Specialty Mental Health Services (SMHS), Calendar Year 2017

Overview

The CMS Child and Adult Core Set Measures are nationally recognized performance standards for measuring health outcomes among children and adults. The seven measures found in the table below were chosen because of their relation to Mental Health Services. For more information on how each measure is calculated, please refer to the Child and Adult Core Set Technical Specifications found in the sites below:

- [Child Core Set Reporting Resources](#)
- [Adult Core Set Reporting Resources](#)

Population

Statewide Children and Youth (under the age of 21) Medi-Cal beneficiaries that were identified as having five or more unique SMHS dates of service in calendar year 2017.

Measure	Rate 1 Description	Rate 1 Count	Rate 1 Denominator	Rate 1 Percentage	Rate 2 Description	Rate 2 Count	Rate 2 Denominator	Rate 2 Percentage
