Purpose and Scope

This document describes the contents of the CalHEERS Feature Release 15.5. Any known issues are described together with key features of the release contents, alternate procedures, and actions required.

Key New Features

The following summarizes the new features included in this release.

Ref ID	Type	Previous Design/Problem	New Functionality In this Release	Pages Impacted
Budget Worksheet and Application History				
9921	Change Request	This functionality did not previously exist.	Two new pages, <i>Budget Worksheet</i> and <i>Application History</i> , on the CalHEERS portal are now accessible to Admin users to assist them when manually reviewing a case for eligibility. The <i>Application History</i> page displays historical eligibility results and has accessible links to view the <i>Eligibility Results</i> page associated with each of the historical eligibility records. From the <i>Eligibility Results</i> page, Admin users can access the corresponding <i>Budget Worksheet</i> page.	<ul style="list-style-type: none"> • Budget Worksheet • Application History • Eligibility Results
Leader Replacement System (LRS) Integration with CalHEERS Planning and Execution Effort				
33625	Change Request	This functionality did not previously exist.	In order to successfully implement the LEADER Replacement System (LRS) in Los Angeles County, the LRS Project must successfully test its interface with CalHEERS and ensure that an implementation plan is	NA

			<p>mutually agreed upon and in place prior to the LRS pilot, and the five waves of LRS rollout in Los Angeles County.</p> <p>Following the stabilization of the 3.0 schema updates at C-IV and CalHEERS, and after the open enrollment period is complete, LRS will integrate the 3.0 schema and related changes made by C-IV. It is anticipated that this integration will be completed by late February. When LRS completes the integration of the C-IV 3.0 schema and related changes, LRS will require a testing environment at CalHEERS with the 3.0 schema functionality to complete its LRS/CalHEERS interface testing. This effort is in addition to, and it does not replace, the existing SAWS (C-IV, CalWIN, and LEADER)/CalHEERS interface/integration testing.</p>

Update CALSTARS Interface to Process Underpayments				
39961	Change Request	ABE created a manual work item in order to process partial payments from Carriers on the Individual PMPM invoice.	ABE can now process partial payments from Carriers on Individual PMPM invoice automatically.	NA
SAWS Zip Files Transfer Process				
40699	Change Request	The original design in the CalHEERS SAWS outbound SFTP process called for a single zip, specific to County and Case, to deliver both images and notices. As the volumes surpassed the performance limitations, a mitigation strategy to manually bundle the singleton zips into a further bundled zip had been implemented upon every deployment to react to the volume.	The original design has been updated to make the bundling process a part of the base functionality. As such, no human intervention on the part of the Release Management and Build/Deploy teams is needed to configure this process. This process is now automated. Also, Image transfer has been removed from this process, and will be addressed in CR # 10020.	NA

Key Fixes
