1. Background and Overview of Mental Health Plans

The Department of Health Care Services (DHCS) contracts with 56 Mental Health Plans (MHPs) responsible for providing, or arranging for the provision of, specialty mental health services (SMHS) to Medi-Cal beneficiaries who meet medical necessity criteria in a manner consistent with the beneficiary's mental health treatment needs and goals, and as documented in the beneficiary's treatment plan.

Each MHP must maintain and monitor a provider network adequate to serve, within scope of practice under State law, the population of adults and children/youth Medi-Cal beneficiaries eligible for SMHS. MHPs must meet or exceed network capacity requirements and proportionately adjust the number of network providers to support any anticipated changes in enrollment and the expected utilization of SMHS.

Federal regulations require each MHP to submit to DHCS data and documentation on which the State bases its certification that the MHP has complied with the State's requirements for availability and accessibility of services, including the adequacy of the provider network, as set forth in Title 42 Code of Federal Regulations (CFR) parts 438.68 and 438.206, and as specified in, Welfare Institutions Code (WIC) Section 14197.1(c). DHCS certifies the network of each MHP and submits assurances of adequacy to the Centers for Medicare and Medicaid Services. DHCS reviews state and MHP-level data and information, including network data submissions by the MHPs, to conduct an analysis of the adequacy of each MHP's network. DHCS conducts a comprehensive review of each MHP's provider network in accordance with the annual network certification requirements set forth in Title 42 CFR part 438.207.

DHCS reviews each MHP's compliance in the following areas:

- I. Time and distance – geographic access mapping;
- II. Network composition and capacity – provider to beneficiary ratios;
- III. Language Capacity
- IV. Timely Access; and
- V. Mandatory Provider Type - American Indian Health Facility (AIHF).

In December 2022, 44 MHPs conditionally passed the network certification requirements; meaning the MHP did not meet the network adequacy requirements in one or more areas. 12 MHP were out-of-compliance in language capacity for not submitting an updated contract. Those 12 MHPs resolved language capacity by submitting required documentation. These findings are not included in the corrective action plan (CAP) table starting on page seven.

DHCS evaluates the MHP's performance in each of these areas to determine compliance with the requirements. MHPs

2022 Annual Network Certification: MHP CAP Report

that did not meet requirements in all areas are subject to ongoing monitoring and are required to complete a CAP to improve access to SMHS for beneficiaries. This report identifies the counties that are on a CAP due to non-compliance with the applicable network certification requirements. This report also includes the county's response to the CAP¹ and fulfills the requirements of Welfare and Institutions Code (WIC) Section 14197(g)(4), to annually publish on the DHCS website a report that details the results of DHCS' annual network certification of the counties.

2. MHP Network Certification CAP Requirements

In December 2022, DHCS notified MHPs, in writing, of the results of the annual network certification. The MHPs, determined to conditionally pass the network certification requirements, were required to complete, and submit a CAP detailing actions the MHP would immediately implement to ensure compliance with the requirements. The deadline to submit documentation to resolve CAP was March 15, 2023. If an MHP did not comply with its CAP, DHCS could customarily impose additional corrective actions, including but not limited to, administrative and financial sanctions.

MHPs that do not meet the network certification standards and are unable to provide beneficiaries with timely access to necessary services within the applicable time and distance standards must adequately and timely cover these services with out-of-network providers. The MHP must permit out-of-network access for as long as the MHP's provider network is unable to provide the services in accordance with the standards.

The MHPs CAP were required to address procedures for ensuring beneficiaries are informed and have access to out-of-network providers. The CAP also included the provision of training to the MHPs 24/7 Access line staff, and other front-line staff, who provide information to beneficiaries regarding appointments, as well as any staff responsible for processing authorization requests (including those of subcontractors), to ensure staff who interact with beneficiaries are aware of and trained on processing appointments, including out-of-network access. The MHPs were further required to submit training materials and call center scripts to demonstrate compliance with these CAP requirements.

3. MHPs Subject to Corrective Actions

As aforementioned, 44 MHPs were non-compliant with network adequacy standards. Out of the 44 MHPs, 21 MHPs were able to supply documentation that demonstrated that they resolved deficiencies. Those counties are as follows:

¹ WIC § 14197(f)(3)

**2022 Annual Network Certification:
MHP CAP Report**

1. Alameda MHP*
2. Amador MHP
3. Butte MHP
4. Colusa MHP
5. Del Norte MHP
6. El Dorado MHP
7. Lake MHP
8. Lassen MHP
9. Madera MHP
10. Modoc MHP
11. Monterey MHP
12. Napa MHP
13. Orange MHP
14. Riverside MHP
15. San Francisco MHP
16. San Mateo MHP
17. Santa Barbara MHP
18. Shasta MHP
19. Solano MHP
20. Sutter/Yuba MHP
21. Trinity MHP

The following 23 counties remained non-compliant in one or more required area(s):

1. Alpine MHP
2. Calaveras MHP
3. Glenn MHP
4. Inyo MHP
5. Kings MHP
6. Los Angeles MHP
7. Mendocino MHP
8. Merced MHP
9. Mono MHP
10. Placer/Sierra MHP

*Please note: In the table below, only time or distance standards, capacity and composition standards, timely access standards and mandatory provider type requirements CAP updates are listed.

If an MHP failed to submit timely and complete corrective actions by March 15, 2023, and remains out-of-compliance with network adequacy requirements, the MHP is subject to additional corrective actions, including administrative and monetary sanctions. DHCS has the authority to impose administrative and monetary sanctions when DHCS determines a MHP has failed to comply with requirements in federal or state statutes, regulations, or the terms of the MHP contract.² The status of each CAP, the specific areas of non-compliance, and the MHPs response to the CAP, are detailed in this report. DHCS will update the CAP status as the MHPs complete corrective actions as required. The status of each MHP's CAP is current as of May 2023.

Please direct any questions regarding the content of this report to NAOS@dhcs.ca.gov.
